INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities and the general fund of the Caddo Levee District (the District), a component unit of the State of Louisiana, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I have conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the

INDEPENDENT AUDITORS' REPORT (CONTINUED)

financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the general fund of the Caddo Levee District, as of June 30, 2020, and the respective changes in financial position for the year ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison schedule, the schedule of the district's proportionate share of net pension liability, schedule of district's pension contributions, and the schedule of the district's proportionate share of total collective OPEB liability listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during the audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

INDEPENDENT AUDITORS' REPORT (CONTINUED)

Other Information

My audit was made for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The schedule of per diem paid to the members of the board of commissioners and the schedule of compensation, benefits, and other payments to agency head are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Supplementary Information and Division of Administration Reporting Package listed in the table of contents are the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, I have also issued a report dated August 24, 2020, on my consideration of the District's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Caddo Levee District's internal control over financial reporting and compliance.

August 24, 2020

AS OF JUNE 30, 2020

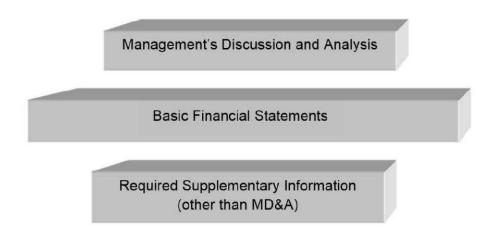

Management's Discussion and Analysis of the Caddo Levee District (District)'s financial performance presents a narrative overview and analysis of the District's financial activities for the year ended June 30, 2020 This document focuses on the current year's activities, resulting changes, and currently known facts in comparison with the prior year's information. Please read this document in conjunction with the additional information contained in the transmittal letter and the District's financial statements.

FINANCIAL HIGHLIGHTS

- The District's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources at the close of fiscal year 2020 by \$30,373,709 which represents a 3.2% decrease from last fiscal year.
- The District's revenue's totaled \$1,371,431 for the year ended June 30, 2020 and was a
 decrease from last year of \$418,107. These revenues are comprised primarily of Royalties
 and Interest Income and represents a 23.3% decrease from last fiscal year.
- The District's expenses totaled \$2,371,173 for the year ended June 30,2020. These
 expenditures are comprised primarily of repairs and maintenance, operating services, and
 personnel expenses. Expenses decreased \$132,033 from last fiscal year.

OVERVIEW OF THE FINANCIAL STATEMENTS

The following illustrates the minimum requirements established by Governmental Accounting Standards Board Statement 34, *Basic Financial Statements-and Management's Discussion and Analysis- for State and Local Governments.*

These financial statements consist of three sections - Management's Discussion and Analysis (this section), the Basic Financial Statements (including the notes to the financial statements) and Required Supplementary Information. The basic financial statements comprise three components: (1) government-wide financial statements, (2) fund financial statements, and (2) notes to the financial statements. This report also contains additional information to supplement the basic financial statements, such as required supplemental information.

AS OF JUNE 30, 2020

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to private-sector business. The government-wide financial statements include two statements:

The *Statement of Net Position* presents information on all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. The difference between assets plus deferred outflows of resources and liabilities and deferred inflows of resources is net position and may serve as a useful indicator of whether the District's financial position is improving or deteriorating.

The Statement of Activities presents information showing how the District's net position changed during the most recent fiscal year. Regardless of when cash is affected, all changes in net position are reported when the underlying transactions occur. As a result, transactions are included that will not affect cash until future periods.

Fund Financial Statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the District's General Fund.

The District uses only one fund type, the governmental fund. The governmental fund is used to account for essentially the same functions reported as governmental activities in the governmental-wide financial statements. However, unlike government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the view of government funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balance provide a reconciliation to facilitate this comparison between the governmental fund and governmental activities

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Required Supplementary Information and Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplemental information concerning the employer's share of the net pension liability, the employer's pension contributions, and the schedule of the employer's proportionate share of the total collective OPEB liability, per diem and salary paid to board of commissioners, the schedule of compensation, benefits, and other payments, in accordance with Louisiana Revised Statute 38:308.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information*. The District adopts annual budgets for the general fund. Budgetary comparison statements are provided for the general fund to demonstrate budgetary compliance.

FINANCIAL ANALYSIS OF GOVERNMENT-WIDE ACTIVITIES

The following presents condensed financial information on the operations of the District.

Condensed Comparative Statement of Net Position As of June 30, 2020 (in thousands)

AS OF JUNE 30, 2020

FINANCIAL ANALYSIS OF GOVERNMENT-WIDE ACTIVITIES

The schedule is prepared from the District's Statement of Net Position which is presented on an accrual basis of accounting. Significant changes for 2020 include:

• Current assets decreased by \$947,014 over the prior year, mainly from the spending of investments for expenditures.

Net investment in capital assets consist of capital assets net of accumulated depreciation and reduced by any related debt. Unrestricted net position is the portion of net position that has no limitations on how these amounts may be spent.

The District's net position end of year decreased \$999,742 which was a 3.19% decrease from 2019.

AS OF JUNE 30, 2020

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

The District's investment in capital assets, net of accumulated depreciation as of June 30, 2020, totaled \$3,168,491. This amount represents a net decrease (including additions and disposals, net of depreciation) of \$137,593 or 4.16% over the previous fiscal year. More detailed information about the Districts' capital assets are presented in the notes to the financial statements.

Capital Assets, net of depreciation (in thousands)

		TO	TAL			ollar	Total %	
	2020			2019		nange	Change	
Land	\$	1,707	\$	1,707	\$	(0)	0.00%

Total capital assets	\$	3,168	\$	3,306	\$	(138)	-4.16%	

LONG-TERM LIABILITIES

The District had \$2,914,911 in long-term liabilities at year-end, compared to \$3,366,279 last year. This amount represents a net decrease of \$451,368 or a decrease of 13.4% from the previous fiscal year as shown in the accompanying table. The primary reason for the decrease was the change in net pension liability and net OPEB Liability of \$167,922 and \$288,915 respectively.

Long-Term Liabilities at Year End (in thousands)

	TO	ΓAL	Dollar	Total %

Total	\$2,915	\$3,366	\$ (451)	-13.4%	

AS OF JUNE 30, 2020

GENERAL FUND BUDGETARY

The District made one amendment to its original budget during the fiscal year June 30, 2020. The General Fund's actual revenues and expenditures varied from the final budget as follows:

- Revenues of the General Fund were budgeted at \$1,502,770 and actual was \$1,371,431, a
 decrease of \$131,339, 9.58 percent.
- Expenditures of the General Fund were budgeted at \$2,316,685 and actual was \$2,371,173, a decrease of \$54,488, 2.3 percent.

Condensed Budget (GAAP) Basis Versus Actual For the year ended June 30, 2020 (in thousands)

	Budget Final	-	Actual mounts	Inc	riance rease crease)	% change Increase (Decrease)
Total Revenues	\$ 1,503	\$	1,371	\$	(131)	-9.58%
Total expenditures	 (2,317)		(2,371)		(54)	2.30%
EXCESS (DEFICIENCY) OF REVENUES OVER (UNDER) EXPENDITURES	\$ (814)	\$	(1,000)	\$	(186)	18.59%

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The District's elected and appointed officials considered the following factors and indicators when setting next year's budget, rates, and fees:

- Ad valorem taxes
- Interest income
- Oil and gas royalties
- Projects under construction

The most important factors affecting the budget are the royalties and interest income which is approximately 95.4 percent of budgeted revenues while remaining miscellaneous revenues are 4.6 percent. The General Fund's budget for expenditures in 2020 was \$2,316,685 of which \$765,000 or 33.0 percent was allocated to capital outlay and levee maintenance.

CONTACTING THE DISTRICT'S MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Ali Mustapha, Administrator, Post Office Box 78282, Shreveport, Louisiana 71137-8282.

RECONCILIATION OF THE STATEMENT OF GOVERNMENT FUNDS REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2020

Net Change in Fund Balances - Governmental Fund (Statement C)

\$ (795,619)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets are allocated over their estimated useful lives and reported as depreciation expense. The following is the amount by which payments for depreciation and amortization exceeds capital outlay.

Capital outlay 46,742
Depreciation and amortization (339,818) (293,076)

The non-allocation method of accounting for prepayments is used in fund statements, since the prepayment does not provide expendable financial resources.

(195)

Some expenses such as compensated absences payable, net pension liability and other postemployment benefit payable that are reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

89,148

Change in Net Position of Governmental Activities (Statement C)

\$ (999,742)

INTRODUCTION

The Caddo Levee District (the District), a component unit of the State of Louisiana, was created by the Louisiana State Legislature under the provisions of Louisiana Revised Statute 38:291 (c). The District is domiciled in Shreveport, Louisiana and was created for the primary purpose of maintaining and operating the levee systems along the right descending bank of Red River, as well as the levee systems of Twelve Mile Bayou and Black Bayou. The District ensures the integrity of the levee system throughout the year and during times of emergency, responds with trained personnel and the necessary equipment to provide protection of lives and property. The Board of Commissioners administers the operations and responsibilities of the District in accordance with the provisions of the Louisiana statute. The seven members of the Board of Commissioners which governs the District are appointed by the governor of the State of Louisiana.

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Caddo Levee District's financial statements are prepared in conformity with governmental accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The accompanying basic financial statements have been prepared in conformity with GASB Statement 34, Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments, issued in June 1999. The more significant accounting policies established in GAAP and used by the Caddo Levee District are discussed below.

A. Reporting Entity

GASB Codification Section 2100 has defined the governmental reporting entity to be the State of Louisiana. The Levee District is considered a component unit of the State of Louisiana because the state exercises oversight responsibility in that the governor appoints the board members and can impose his will on the district. The accompanying general-purpose financial statements contain information only as to the transactions of the Caddo Levee District. Annually, the State of Louisiana issues general purpose financial statements, which include the activity contained in the accompanying financial statements.

B. <u>Government-Wide and Fund Financial Statements</u>

The District's basic financial statements include both government-wide (reporting the funds maintained by the District as a whole) and fund financial statements (reporting the District's major funds).

NOTE 1-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The Governmental Fund Balance Sheet/Statement of Net Position is presented on a consolidated basis; however, the governmental funds include only current financial resources available to pay for current-period expenditures and liabilities payable in the current period. Noncurrent resources and liabilities (e.g., capital assets, net pension obligations, bonds payable, other postemployment benefits payable and compensated absences payable) are not reported in the governmental funds.

The Statement of Governmental Fund Revenues, Expenditures, and Changes in Fund Balance/Statement of Activities is presented on a consolidated basis. Expenses on long- term obligations do not require the use of current financial resources and are not reported as expenditures in the governmental funds. In addition, the cost of capital outlays is allocated over their estimated useful lives as depreciation expense. The amount of capital outlays not meeting the capitalization threshold is reported as an expense (i.e., repairs and maintenance).

Policies specific to the government-wide statements are as follows:

C. <u>Basic Financial Statements- Fund Financial Statements</u>

The financial transactions of the District are recorded in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures. The various funds are reported by generic classification within the financial statements.

The following fund types are used by the District:

- I. Governmental Funds the focus of the governmental funds' measurement (in the fund statements) upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the District:
 - a. General funds are the general operating funds of the District. They are used to account for all financial resources except those required to be accounted for by another fund.

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Basis of Accounting

Basis of accounting refers to when revenues and expenses are recognized and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

- I. Accrual- The governmental activities in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.
- 2. Modified Accrual The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

E. <u>Budgetary Accounting</u>

Formal budgetary accounting is employed as a management control. The District prepares and adopts a budget prior to July I of each year for its general fund in accordance with Louisiana Revised Statutes. The operating budget is prepared based on prior year's revenues and expenditures and the estimated increase therein for the current year. The District amends its budget when projected revenues are expected to be less than budgeted revenues by five percent or more and/or projected expenditures are expected to be more than budgeted amounts by five percent or more. All budget appropriations lapse at year end

- 1. The budgetary process is an annual appropriation valid for one year.
- 2. The District is prohibited by statute from over expending the categories established in the budget.
- 3. Budget revisions are granted by the Joint Legislative Budget Committee, a committee of the Louisiana Legislature. Interim emergency appropriations may be granted by the Interim Emergency Board.
- 4. The budgetary information included in the financial statements includes the original appropriation.

The budget is prepared on the modified accrual basis of accounting, where certain transactions are recorded on a basis other than GAAP. The basic differences arise through the accounting for budgetary purposes which differs from basis of accounting applicable to the fund type when reporting on the operations in accordance with GAAP.

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. Cash and Cash Equivalents

Cash includes amounts in interest-bearing demand deposits. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less. Under state law, the District may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts, or time deposits with state banks organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or similar federal security or the pledge of securities owed by the fiscal agent bank. The fair market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent.

G. Receivables

All receivables are reported at their gross value and, where applicable, are reduced by the estimated portion that is expected to be uncollectible.

H. Bad Debts

Uncollectible accounts receivables are recognized as bad debts through the establishment of an allowance account at the time information becomes available which would indicate the un-collectability of the particular receivable. At June 30, 2020, there were no amounts considered to be uncollectible.

I. Capital Assets

Capital assets, which include property, equipment, and infrastructure are carried at historical costs. Depreciation of all exhaustible fixed assets used by the District is charged as an expense against operations in the Statements of Activities. Capital assets net of accumulated depreciation are reported on the statement of Net Position. Depreciation is computed using the straight-line method aver the useful lives of the assets, generally 10 to 45 years for buildings and building improvements and 3 to 10 years for movable property. Expenditures for maintenance, repairs, and minor renewals are charged to earnings as incurred. Major expenditures for renewal and betterments are capitalized. The District's policy is to capitalize items with a unit cost of \$1,000 or greater.

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

In accordance with Office of Statewide Reporting and Accounting Policy (OSRAP) guidelines, infrastructure assets are to be capitalized and depreciated over a useful life of 40 years. OSRAP has set a threshold for infrastructure assets are to be capitalized at \$3,000,000 spent per entity per year. The Caddo Levee District did not have expenditures relating to infrastructure assets which met this threshold. Therefore, no infrastructure assets are recognized in the accompanying financial statements

J. <u>Compensated Absences</u>

Employees accrue and accumulate annual and sick leave in accordance with state law and administrative regulations. The leave is accumulated without limitation. Upon separation of employment (classified personnel or their heirs) are compensated for accumulated annual leave not to exceed 300 hours.

Act 343 of 1993 allows members of LASERS, upon application for retirement, the option of receiving an actuarially- determined lump sum payment for annual and sick leave which would otherwise have been used to compute years of service for retirement. Unused annual leave in excess of 300 hours plus unused sick leave are used to compute retirement benefits for LASERS.

K. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates

L. <u>Long-Term Obligations</u>

In the government-wide financial statements, debt principal payments of government activities are reported as decreases in the balance of the liability on the statement of Net Position. In the fund financial statements, however, debt principal payments of governmental funds are recognized as expenditures when paid. The District recognizes other post-employment benefits liability in the government-wide financial statements based on actuarially determined obligations under GASB No. 75 and net pension liability under GASB No. 68.

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

M. Fund Balance - Governmental Funds

Fund Financial Statements: The Caddo Levee District elected to implement GASB 54, Fund Balance Reporting and Governmental Fund Type Definitions, in fiscal year 2011. In the fund financial statements, fund balance for the governmental funds are classified as follows:

- a) Nonspendable amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.
- b) Restricted amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by ordinances or resolutions approved by the Board of the District.
- c) Committed- amounts that can be used only for specific purposes determined by a formal action of the Board. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board of the District.
- d) Unassigned- all other spendable amounts.

For the classification of governmental fund balances, the District considers an expenditure to be made from the most restrictive first when more than one classification is available. The District's fund balance was classified as committed and unassigned as of June 30, 2020.

N. <u>Net Position</u>

Government-wide Statement: Equity is classified as net position and comprises the various net earnings from revenues and expenses. Net position is classified in the following components:

- a) Investment in capital assets consists of the District's total investment in capital assets, net of accumulated depreciation. The District does not have any outstanding obligations related to capital assets.
- b) Unrestricted net position consists of net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of investment in capital assets. Unrestricted net position is used for transactions relating to the general operations of the District and may be used at its discretion to meet current expenses and for any purpose.

NOTE 1-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

O. Revenues

Article 6, Section 39 of the Louisiana Constitution of 1974 provides that for the purpose of constructing and maintaining levees, levee drainage, flood protection, hurricane flood protection, and all other purposes incidental thereto, the District may levy annually a tax. Ad valorem taxes attach as an enforceable lien on property as of January 1 of each year. They are levied in November, billed in December, and become delinquent on January 1 of the following year. For the fiscal year ended June 30, 2020 the District has chosen to not levy an annual Ad Valorem tax.

State revenue sharing and self-generated fees are recorded when the district is entitled to the funds from the various parishes.

Program Revenues: The Statement of Activities presents three categories of program revenues – (1) charges for services, (2) operating grants and contributions, and (3) capital grants and contributions. Charges for services – are revenues from exchanges or exchange like transactions with external parties that purchase, use or directly benefit from the program's goods, services, or privileges. These revenues include fees charged for specific services, and operating special assessments, and include payments from exchange transactions with other governments. Grants and contributions – whether operating or capital in nature, are revenues arising from receipts that are reserved for a specific use.

P. <u>Deferred Outflows/Inflows of Resources</u>

The statement of net position reports in a separate section deferred inflows and outflows of resources. Deferred outflow of resources is a consumption of net assets by the government that is applicable to a future reporting period while deferred inflows of resources is an acquisition of net assets by the government that is applicable to future reporting period. As of June 30, 2020, the District has reported no resources related to unavailable ad valorem tax revenues.

Q. Other Financing Sources (Uses)

Proceeds from the sale of fixed assets and debt acquired for the construction and purchase of fixed assets are accounted for as other financing sources and are recognized when received.

R. Eliminating Internal Activity

Interfund receivables and payables are eliminated in the Statement of Net Position except for the net residual amounts due between government and business-type activities. There are no internal activities.

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

S. Pension and Other Post-Employment Benefits ("OPEB") Liabilities

Pension and OPEB liabilities consist of amounts for the District's proportionate share of the actuarially accrued net pension and OPEB liabilities. For purposes of measuring the net pension and OPEB liabilities, deferred outflows of resources and deferred inflows of resources related to pensions, OPEB, pension expense and OPEB expense, information about the fiduciary net position of the benefit provider, and additions to/deductions from the benefit provider's fiduciary net position have been determined on the same basis as they are reported by the benefit provider. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

T. Recent Accounting Pronouncements

In June 2017, GASB issued Statement No. 87, Leases. The purpose of this statement was to increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Earlier application is encouraged. Surface lease agreements are cancelable by either party. Management has determined GASB 87 has no impact on the District's financials.

NOTE 2- CASH AND CASH EQUIVALENTS

At June 30, 2020, the District has cash (book balance) of \$3,960,663 in demand deposits.

Custodial credit risk is the risk that in the event of a bank failure the District's deposits may not be recovered. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the District or the pledging bank by a holding or custodial bank that is mutually acceptable to both parties. The District has not established a policy.

At June 30, 2020, the District had \$3,972,101 in deposits (collective bank balances), which are secured from risk by federal deposit insurance plus pledged securities in the amount of \$4,270,433.

NOTE 3 -ACCOUNTS RECEIVABLE

The following is a summary of accounts receivable at June 30, 2020:

Class of Receivable

Royalties and leases \$ 52,307

Other -0
Total Receivable \$ 52,307

NOTE 4 - INVESTMENTS

The Caddo Levee District maintains investment accounts as authorized by LSA-RS 33:2955. Although the District has no written formal policy for custodial credit risk, they do require compliance with state law.

Credit Risk – Credit risk is defined as the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The District does not have a written investment policy but does adhere to state laws regarding allowable investments. The certificates of deposit to follow are not rated.

Custodial Credit Risk – custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that in the possession of an outside party. The District's funds are not with any pool.

At June 30, 2020, the District had investments of \$26,034,099 held in certificates of deposits. All investments held are uninsured, unregistered and held by counterparty's trust department or agent not in the entity's name.

NOTE 5- FAIR VALUE MEASUREMENTS

The Caddo Levee District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset Level 1 inputs are unadjusted quoted prices in active markets for identical assets that the District has the ability to access. Level 2 inputs are based primarily on quoted prices for similar assets in active or inactive markets and/or based on inputs that are derived principally from or corroborated by observable market data. Level 3 inputs are unobservable and are based on assumptions that market participants would utilize in pricing the asset.

The District uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. The asset's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. When available, valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

For the negotiable certificates of deposit described in Note 4 Investments, management categorizes these investments as Level 2 based on quoted prices for similar instruments with consideration of actively quoted interest rates, credit ratings and spreads, prepayment models and collateral data.

NOTE 6 - CAPITAL ASSETS

A summary of Caddo Levee District's capital assets at June 30, 2020 follows

		Balance					Balance		
	Ju	ne 30, 2019	Additions		Retirements		Ju	June 30, 2020	
Non-depreciable:

NOTE 10 - RETIREMENT SYSTEM

Pensions

For purposes of measuring the Net Pension Liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Louisiana State Employees' Retirement System (LASERS) and additions to/deductions from LASERS' fiduciary net position have been determined on the same basis as they are reported by LASERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

CADDO LEVEE DISTRICT STATE OF LOUISIANA NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2020

NOTE 10 - RETIREMENT SYSTEM (continued)

General Information about the Pension Plan

Plan Description

Employees of Caddo Levee District are provided with pensions through a cost-sharing multiple-employer defined benefit plan administered by the Louisiana State Employees' Retirement System (LASERS). Section 401 of Title 11 of the Louisiana Revised Statutes (La. R.S. 11:401) grants to LASERS Board of Trustees and the Louisiana Legislature the authority to review administration, benefit terms, investments, and funding of the plan. LASERS issues a publicly available financial report that can be obtained at www.lasersonline.org.

Benefits Provided

LASERS provides retirement, deferred retirement option ("DROP"), disability and survivor's benefit. The following is a description of the plan and its benefits and is provided for general information purposes only. Participants should refer to the appropriate statutes for more complete information.

Retirement Benefits

The age and years of creditable service required in order for a member to retire with full benefits are established by statute, and vary depending on the member's hire date, employer, and job classification. Our rank and file members hired prior to July 1, 2006, may either retire with full benefits at any age upon completing 30 years of creditable service or at age 60 upon completing ten years of creditable service depending on their plan. Those members hired between July 1, 2006 and June 30, 2015, may retire at age 60 upon completing five years of creditable service and those hired on or after July 1, 2015 may retire at age 62 upon completing five years of creditable service. The basic annual retirement benefit for members is equal to 2.5% to 3.5% of average compensation multiplied by the number of years of creditable service. Additionally, members may choose to retire with 20 years of service at any age, with an actuarially reduced benefit.

Average compensation is defined as the member's average annual earned compensation for the highest 36 consecutive months of employment for members employed prior to July 1, 2006. For members hired July 1, 2006 or later, average compensation is based on the member's average annual earned compensation for the highest 60 consecutive months of employment. The maximum annual retirement benefit cannot exceed the lesser of 100% of average compensation or a certain specified dollar amount of actuarially determined monetary limits, which vary depending upon the member's age at retirement. Judges, court officers, and certain elected officials receive an additional annual retirement benefit equal to 1.0% of average compensation multiplied by the number of years of creditable service in their respective capacity. As an alternative to the basic retirement benefits, a member may elect to receive their retirement throughout their life, with certain benefits being paid to their designated beneficiary after their death.

NOTE 10 - RETIREMENT SYSTEM (continued)

Act 992 of the 2010 Louisiana Regular Legislative Session, changed the benefit structure for LASERS members hired on or after January 1, 2011. This resulted in three new plans: regular, hazardous duty, and judges. The new regular plan includes regular members and those members who were formerly eligible to participate in specialty plans, excluding hazardous duty and judges. Regular members and judges are eligible to retire at age 60 after five years of creditable service and, may also retire at any age, with a reduced benefit, after 20 years of creditable service. Hazardous duty members are eligible to retire with twelve years of creditable service at age 55, 25 years of creditable service at any age or with a reduced benefit after 20 years of creditable Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment for all three new plans. Members in the regular plan will receive a 2.5% accrual rate, hazardous duty plan a 3.33% accrual rate, and judges a 3.5% accrual rate. The extra 1.0% accrual rate for each year of service for court officers, the governor, lieutenant governor, legislators, House clerk, sergeants at arms, or Senate secretary, employed after January 1, 2011, was eliminated by Act 992. Specialty plan and regular members hired prior to January 1, 2011, who are hazardous duty employees have the option to transition to the new hazardous duty plan.

Act 226 of the 2014 Louisiana Regular Legislative Session established new retirement eligibility for members of LASERS hired on or after July 1, 2015, excluding hazardous duty plan members. Regular members and judges under the new plan are eligible to retire at age 62 after five years of creditable service and, may also retire at any age, with a reduced benefit, after 20 years of creditable service. Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment. Members in the regular plan will receive a 2.5% accrual rate, and judges a 3.5% accrual rate, with the extra 1.0% accrual rate based on all years of service as a judge.

Members of the Harbor Police Retirement System who were members prior to July 1, 2014, may retire after 25 years of creditable service at any age, 12 years of creditable service at age 55, 20 years of creditable service at age 45, and 10 years of creditable service at age 60. Average compensation for the plan is the member's average annual earned compensation for the highest 36 consecutive months of employment, with a 3.33% accrual rate.

A member leaving employment before attaining minimum retirement age, but after completing certain minimum service requirements, becomes eligible for a benefit provided the member lives to the minimum service retirement age, and does not withdraw their accumulated contributions. The minimum service requirement for benefits varies depending upon the member's employer and service classification.

NOTE 10 - RETIREMENT SYSTEM (CONTINUED)

1. Deferred Retirement Benefits

The State Legislature authorized LASERS to establish a Deferred Retirement Option Plan (DROP). When a member enters DROP, their status changes from active member to retiree even though they continue to work and draw their salary for a period of up to three years. The election is irrevocable once participation begins. During DROP participation, accumulated retirement benefits that would have been paid to each retiree are separately tracked. For members who entered DROP prior to January 1, 2004, interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero) will be credited to the retiree after participation ends. At that time, the member must choose among available alternatives for the distribution of benefits that have accumulated in the DROP account. Members who enter DROP on or after January 1, 2004, are required to participate in LASERS Self-Directed Plan (SDP) which is administered by a third-party provider. The SDP allows DROP participants to choose from a menu of investment options for the allocation of their DROP balances. Participants may diversify their investments by choosing from an approved list of mutual funds with different holdings, management styles, and risk factors.

Members eligible to retire and who do not choose to participate in DROP may elect to receive at the time of retirement an initial benefit option (IBO) in an amount up to 36 months of benefits, with an actuarial reduction of their future benefits. For members who selected the IBO option prior to January 1, 2004, such amount may be withdrawn or remain in the IBO account earning interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero). Those members who select the IBO on or after January 1, 2004, are required to enter the SDP as described above.

For members who are in the Harbor Police Plan, the annual DROP Interest Rate is the three-year average (calculated as the compound average of 36 months) investment return of the plan assets for the period ending the June 30th immediately preceding that given date. The average rate so determined is to be reduced by a "contingency" adjustment of 0.5%, but not to below zero. DROP interest is forfeited if member does not cease employment after DROP participation.

2. Disability Benefits

Generally, active members with ten or more years of credited service who become disabled may receive a maximum disability retirement benefit equivalent to the regular retirement formula without reduction by reason of age.

Upon reaching age 60, the disability retiree may receive a regular retirement benefit by making application to the Board of Trustees.

For injuries sustained in the line of duty, hazardous duty personnel in the Hazardous Duty Services Plan will receive a disability benefit equal to 75% of final average compensation

NOTE 10 - RETIREMENT SYSTEM (CONTINUED)

Members of the Harbor Police Retirement System who become disabled may receive a non-line of duty disability benefit after five years or more of credited service. Members age 55 or older may receive a disability benefit equivalent to the regular retirement benefit. Under age 55, the disability benefit is equal to 40% of final average compensation. Line of duty disability benefits are equal to 60% of final average compensation, regardless of years of credited service. If the disability benefit retiree is permanently confined to a wheelchair, or, is an amputee incapable of serving as a law enforcement officer, or the benefit is permanently legally binding, there is no reduction to the benefit if the retiree becomes gainfully employed.

3. Survivor's Benefits

Certain eligible surviving dependents receive benefits based on the deceased member's compensation and their relationship to the deceased. The deceased regular member hired before January 1, 2011 who was in state service at the time of death must have a minimum of five years of service credit, at least two of which were earned immediately prior to death, or who had a minimum of twenty years of service credit regardless of when earned in order for a benefit to be paid to a minor or handicapped child. Benefits are payable to an unmarried child until age 18, or age 23 if the child remains a full-time student. The aforementioned minimum service credit requirement is ten years for a surviving spouse with no minor children, and benefits are to be paid for life to the spouse or qualified handicapped child.

The deceased regular member hired on or after January 1, 2011, must have a minimum of five years of service credit regardless of when earned in order for a benefit to be paid to a minor child. The aforementioned minimum service credit requirements for a surviving spouse are 10 years, 2 years being earned immediately prior to death, and active state service at the time of death, or a minimum of 20 years of service credit regardless of when earned. A deceased member's spouse must have been married for at least one year before death.

A Hazardous Duty Services Plan member's surviving spouse and minor or handicapped or mentally incapacitated child or children are entitled to survivor benefits of 80% of the member's final average compensation if the member was killed in the line of duty. If the member dies in the line of duty as a result of an intentional act of violence, survivor benefits may be increased to 100% of the members final average compensation.

Non-line of duty survivor benefits of the Harbor Police Retirement System may be received after a minimum of five years of credited service. Survivor benefits paid to a surviving spouse without children are equal to 40% of final average compensation and cease upon remarriage. Surviving spouse with children under 18 benefits are equal to 60% of final average compensation, and cease upon remarriage, and children turning 18. No minimum service credit is required for line of duty survivor benefits which are equal to 60% of final average compensation to surviving spouse, or 100% of final average compensation if the injury was the result of an intentional act of violence regardless of children. Line of duty survivor benefits cease upon remarriage, and then benefit is paid to children under 18.

4. Permanent Benefit Increases/Cost-of-Living Adjustments

As fully described in Title 11 of the Louisiana Revised Statutes, the System allows for the payment of permanent benefit increases, also known as cost-of-living adjustments (COLAs), that are funded through investment earnings when recommended by the Board of Trustees and approved by the State Legislature.

Contributions

Contribution requirements of active employees are governed by Section 401 of Title 11 of the Louisiana Revised Statutes (La. R.S. 11:401) and may be amended by the Louisiana Legislature. Employee and employer contributions are deducted from a member's salary and remitted to LASERS by participating employers. The rates in effect during the year ended June 30, 2019 for the various plans follow:

Plan	Plan Status	Employee Contribution Rate	2019 Employer Contribution Rate
Regular Employees			
Hired before 07/01/06	Closed	7.50%	37.90%
Hired on or after 07/01/06	Closed	8.00%	37.90%
Hired on or after 01/01/11	Closed	8.00%	37.90%
Hired on or after 07/01/15	Open	8.00%	37.90%

The District's contractually required composite contribution rate for the year ended June 30, 2019 was 37.90% of annual payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any Unfunded Actuarial Accrued Liability. Contributions to the pension plan from the District were \$205,632 for the year ended June 30, 2020.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the Employer reported a liability of \$2,072,697 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2019 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date. The District's proportion of the Net Pension Liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2019, the District's proportion was 0.02861%, which was a decrease of 0.00424% from its proportion measured as of June 30, 2018.

NOTE 10 - RETIREMENT SYSTEM (CONTINUED)

For the year ended June 30, 2020, the District recognized pension expense of \$179,960.

At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Experience Gain/Loss	\$	12,727	\$	4,307
Changes of assumptions		17,761		-
Net difference between projected and actual investment gain/loss		71,609		-
Changes in proportion and differences between employer contributions and proportionate share of contributions		-		300,705
Employer contributions subsequent to the measurement date		205,632		-
Total	\$	307,729	\$	305,012

\$205,632 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

2021	\$ (80,250)
2022	\$ (169,208)
2023	\$ 19,701
2024	\$ 26,842

NOTE 10 - RETIREMENT SYSTEM (CONTINUED)

Actuarial Assumptions

A summary of the actuarial methods and assumptions used in determining the total pension liability as of June 30, 2019 are as follows:

Valuation DateJune 30, 2019Actuarial Cost MethodEntry Age Normal

Actuarial Assumptions: Expected Remaining Service Lives

Investment Rate of Return

Inflation Rate
Mortality

2 years

7.60% per annum, net of investment expenses*

2.50% per annum

Non-disabled members - Mortality rates for 2019 based on the RP-2014 Healthy Mortality Table with mortality improvement projected using MP-2018 Mortality Improvement Scale, applied on a fully generational basis.

Disabled members — Mortality rates based on the RP-2000 Disabled Retiree Mortality Table, with no projection for

mortality improvement.

Wildlife

Termination, Disability, and Retirement

Salary Increases

Termination, disability, and retirement assumptions were projected based on a five-year (2014-2018) experience study

of the System's members for 2019.

Salary increases were projected based on a 2009-2013 experience study of the System's members. The salary increase ranges for specific types of members are:

Member Lower Upper Type Range Range 3.2% 13.0% Regular Judges 2.8% 5.3% Corrections 3.8% 14.0% Hazardous 3.8% 14.0% Duty

3.8%

14.0%

Cost of Living Adjustments

The present value of future retirement benefits is based on benefits currently being paid by the System and includes previously granted cost of living increases. The projected benefit payments do not include provisions for potential future increases not yet authorized by the Board of Trustees as they were deemed not to be substantively automatic.

^{*}The investment rate of return used in the actuarial valuation for funding purposes was 8.0%, recognizing an additional 40 basis points for gain-sharing. The net return available to fund regular plan benefits is 7.60%, which is the same as the discount rate. Therefore, we conclude that the 7.60% discount is reasonable.

STATE OF LOUISIANA NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2020

NOTE 10 - RETIREMENT SYSTEM (CONTINUED)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.75% and an adjustment for the effect of rebalancing/diversification. The resulting expected long-term rate of return is 9.00% for 2019. Best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of June 30, 2019 are summarized in the following table:

Expected Long Term Real Rates of Return

Asset Class	2019
C asin	0.24%
Domestic Equity	4.83%
International Equity	5.83°°
Domestic Fixed Income	2.79%
International Fixed Income	4.49%
Alternative Investments	8.32°°
Risk Parity	5.06%
Total Fund	6.09°°

Discount Rate

The discount rate used to measure the total pension liability was 7.60%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the pension plan's actuary. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

CADDO LEVEE DISTRICT

STATE OF LOUISIANA NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2020

NOTE 10 - RETIREMENT SYSTEM (CONTINUED)

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the Employer's proportionate share of the Net Pension Liability using the discount rate of 7.60%, as well as what the Employer's proportionate share of the Net Pension Liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

	1.0	% Decrease	Cur	rent Discount	1.0	% Increase
		(6.60%)	Rate (7.60%)		(8.60%)	
Employer's proportionate			3		2	
share of the net pension						
liability	\$	2,616,008	\$	2,072,697	\$	1,613,782

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued current LASERS Comprehensive Annual Financial Report at www.lasersonline.org.

At June 30, 2020 the District owed LASERS \$-0- for employee and employer legally-required contributions.

NOTE 11 - EMPLOYEE BENEFITS - OTHER POST EMPLOYMENT BENEFITS (OPEB)

General Information about the Pension Plan

The District may provide certain continuing health care and life insurance benefits for its retired employees through the Louisiana Office of Group Benefits. Substantially all employees become eligible for those benefits if they reach normal retirement age while working for the District and were covered by the District's active medical plan immediately prior to retirement. Those benefits include joint payment of monthly premiums for the coverage provided.

Plan Description and Benefits Provided

The Office of Group Benefits (OGB) administers the State of Louisiana Post-Retirement Benefits Plan – a defined-benefit, multiple-employer other postemployment benefit plan. The plan provides medical, prescription drug, and life insurance benefits to retirees, disabled retirees, and their eligible beneficiaries through premium subsidies. Current employees, who participate in an OGB health plan while active, are eligible for plan benefits if they are enrolled in the OGB health plan immediately before the date of retirement and retire under one of the state sponsored retirement

NOTE 11 – EMPLOYEE BENEFITS – OPEB (continued)

systems (Louisiana State Employees' Retirement System, Teachers' Retirement System of Louisiana, Louisiana School Employees' Retirement System, or Louisiana State Police Retirement System,) or they retire from a participating employer that meets the qualifications in the Louisiana Administrative Code 32:3.303. Benefit provisions are established under R.S. 42:851 for health insurance benefits and R.S. 42:821 for life insurance benefits. The obligations of the plan members, employer(s), and other contributing entities to contribute to the plan are established or may be amended under the authority of R.S. 42:802.

There are no assets accumulated in a trust that meets the criteria of paragraph 4 of GASB Statement 75. Effective July 1, 2008, an OPEB trust fund was statutorily established; however, this plan is not administered as a trust and no plan assets have been accumulated as of June 30, 2020. The plan is funded on a "pay-as-you-go basis" under which the contributions to the plan are generally made at about the same time and in about the same amount as benefit payments become due.

Employer contributions are based on plan premiums and the employer contribution percentage. Premium amounts vary depending on the health plan selected and if the retired member has Medicare coverage. OGB offers retirees four self-insured healthcare plans and one fully insured plan. Retired employees who have Medicare Part A and Part B coverage also have access to four fully insured Medicare Advantage plans.

The employer contribution percentage is based on the date of participation in an OGB plan and employee years of service at retirement. Employees who begin participation or rejoin the plan before January 1, 2002, pay approximately 25% of the cost of coverage (except single retirees under age 65, who pay approximately 25% of the active employee cost). For those beginning participation or rejoining on or after January 1, 2002, the percentage of premiums contributed by the employer and retiree is based on the following schedule:

	Employer	Retiree
	Contribution_	Contribution_
OGB Participation	<u>Percentage</u>	<u>Percentage</u>
Under 10 years	19%	81%
10-14 years	38%	62%
15-19 years	56%	44%
20+ years	75%	25%

CADDO LEVEE DISTRICT STATE OF LOUISIANA NOTES TO THE FINANCIAL STATEMENTS

FOR THE VEAR ENDER HINE OF COOR

FOR THE YEAR ENDED JUNE 30, 2020

NOTE 11 – OTHER POST EMPLOYMENT BENEFITS (OPEB) (CONTINUED)

Plan Description (continued)

In addition to healthcare benefits, retirees may elect to receive life insurance benefits. Basic and supplemental life insurance is available for the individual retiree and spouses of retirees' subject to maximum values. Employers pay approximately 50% of monthly premiums for individuals. The retiree is responsible for 100% of the premium for dependents. Effective January 1, 2018, the total monthly premium for retirees varies according to age group.

Total Collective OPEB Liability and Changes in Total Collective OPEB Liability

At June 30, 2020, the District reported a liability of \$769,020 for its proportionate share of the total collective OPEB liability. The total collective OPEB liability was measured as of July 1, 2019 and was determined by an actuarial valuation as of that date.

The District's proportionate share percentage is based on the employer's individual OPEB actuarial accrued liability in relation to the total OPEB actuarial accrued liability for all participating entities included in the State of Louisiana reporting entity. At June 30, 2020 the District's proportion was 0.0100%.and the change in proportion from the prior measurement date was 0.0124% or a decrease of 0.0024%.

Actuarial assumptions and other inputs. The total collective OPEB liability in the July 1, 2019 actuarial valuation was determined using the following actuarial methods, assumptions, and other inputs, applied to all periods included in the measurement, unless otherwise specified:

- Actuarial Cost Method Entry Age Normal, Level percentage of pay
- Estimated Remaining Service Lives 4.8
- Inflation rate Consumer Price Index (CPA) 2.80%
- Salary increase rate consistent with the pension plan
- Discount rate decreased from 2.98% to 2.79% based on S&P 20-year municipal bond index rate
- Mortality rates For healthy retiree lives: the RP-2014 Blue Collar Healthy Annuitant Table, adjusted by 1.280 for males and RP-2014 White Collar Healthy Annuitant Table, adjusted by 1.417 for females, projected from 2014 on a fully generational basis by Mortality Improvement Scale MP-2018. For disabled retiree lives: the RP-2000 Disabled Retiree Mortality Table, adjusted by 1.009 for males and 1.043 for females, not projected with mortality improvement
- Healthcare cost trend rates 7% for pre-Medicare eligible employees grading down by .25% each
 year, beginning in 2020-2021, to an ultimate rate of 4.5% in 2029; 5.5% for post-Medicare eligible
 employees grading down by .25% each year beginning in 2020-2021, to an ultimate rate of 4.5%
 in 2023-2024 and thereafter; the initial trend was developed using the National Health Care Trend
 Survey; the ultimate trend was developed using a building block approach which considers
 Consumer Price Index, Gross Domestic Product, and technology growth

Changes of the assumptions and other inputs reflect a change in the discount rate from 2.98% as of July 1, 2018, to 2.79% as of July 1, 2019.

Collective OPEB Liability	\$	668,805	\$	769,020	\$	897,983		

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended, June 30, 2020, the District recognized OPEB expense of \$23,4785. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources.

_	Deferred Outflows of Resources	Deferred Infl Resource	
Difference between expected and actual experience Changes in employer's proportionate share (dollars)	\$ 9,299 8,514	\$	2,648 173,263
Difference in Employers proportionate share of benefit payments and actual payments	6,185		-
Change in assumptions	-		123,967
Difference between contributions allocated and actual contributions (dollars) Employers contributions subsequent to the	-		5,205
measurement date	23,478		
Total	\$ 47,476	\$	305,083

NOTE 11 – OTHER POST EMPLOYMENT BENEFITS (OPEB) (CONTINUED)

Deferred outflows of resources related to OPEB resulting from the District's benefit payments subsequent to the measurement date will be recognized as a reduction of the total collective OPEB liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

	Net Amount Recognized in OPEB Expense				
Year ended June 30:					
2021	\$	(87,345)			
2022	\$	(82,023)			
2023	\$	(75,134)			
2024	\$	(36,579)			

NOTE 12- FUND BALANCES

A board resolution was made that designated a portion of the District's unrestricted net position for \$22,371,390 for the capital outlay and \$6,000,000 for flood fight contingencies for the fiscal year ended June 30, 2020.

As of June 30, 2020, fund balances are composed of the following:

Category	Go	vernmental Fund
Committed to:		
Capital outlay & flood fight contingencies	\$	28,371,390
Unassigned		1,585,689
Total fund balance	\$	29,957,079

NOTE 13- RISK MANAGEMENT

The Caddo Levee District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the District.

NOTE 14 - LEVEE DISTRICT TAXES

Article 6, Section 39 of the Louisiana Constitution of 1974 provides that, for the purpose of constructing and maintaining levees, levee drainage, flood protection, hurricane flood protection, and for all other purpose's incidental thereto, the levee district may annually levy a lax not to exceed 3.64 mills. If the levee district needs to raise additional funds in excess of the amount collected constitutionally, the taxes in excess of 3.64 mills must be approved by the majority of the vote of the electors. Ad valorem taxes are assessed on a calendar year basis, become due on November 15 of each year, and become delinquent on December 31. The taxes are generally collected in December of the current year and January of the ensuing year. The current millage rate is -0-.

NOTE 15 -DEFERRED COMPENSATION PLAN

During 2002, the District began participating in a deferred compensation plan in accordance with the Internal Revenue Code 457 (Section 457 Plan). Under Governmental Accounting Standards Board No. 32, Accounting and Financial Reporting/or Internal Revenue Code Section 457 Deferred Compensation Plans, plans that meet the criteria in NCGA Statement 1, Governmental Accounting and Financial Reporting Principles, should be reported as an expendable trust fund in the financial statements of the government. Because the District's Section 457 Plan does not meet these criteria, the balances in assets and liabilities were not presented in the financial statements of the District. The District's contribution to the Section 457 Plan was \$20,897 for the year ended June 30, 2020.

NOTE 16 -COMPENSATED ABSENCES

At June 30, 2020, employees of the District had accumulated \$73,194 in annual leave benefits which were computed in accordance with GASB Codification Section C60. The following is a summary of the changes in compensated absences:

Beginning balance \$67,725
Additions, net 5,469
Ending balance \$73,194

NOTE 17 - SURFACE RENTS

The District has entered into several surface rental agreements which provide rental income to the District. Payments on these rentals are due annually. Rental agreements are considered short term and are cancelable at any time by either party to the agreement. Rent income for the year ended June 30, 2020 was \$117,316.

NOTE 18- LEVEE CERTIFICATION

As a result of Hurricane Katrina, the Federal Emergency Management District (FEMA) implemented a program in which all levees in the United States must be certified by an independent engineer to remain on its mapping system. If the certification is not performed, then the levee is removed from FEMA's maps and the impacted area is considered a flood prone area which results in significantly higher flood insurance rates for business and individuals. Management had its engineering study completed in March 2013. The total amounts expended on the certification as of June 30, 2013 total \$1,554,830. The certification is good for the next 10 years. The total amount expended was capitalized and is being amortized using straight line method over the next ten years. Amortization expense for the year ended June 30, 2020 was \$155,483.

NOTE 19 - SUBSEQUENT EVENTS

Management evaluates events occurring subsequent to the date of financial statements in determining the accounting for and disclosure of transactions and events that effect the financial statements. Subsequent events have been evaluated through August 24, 2020, the date the financial statements were available to be issued. There were no items to be reported as subsequent events.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2020

SCHEDULE OF DISTRICT'S PROPORTIONATE SHARE OF THE NET PENSION LIABILITY (Statement 2)

This schedule reflects the participation of the District's employees in Louisiana State Employees' Retirement System (LASERS), and its proportionate share of the net pension liability as a percentage of its covered payroll, and the plan fiduciary net position as a percentage of the total pension liability. The employers' net pension liability is the liability of the District's employees for benefits provided through LASERS. Covered payroll is the payroll of all employees that are provided with benefits through the plan. The amounts in the schedule for each fiscal year were determined as the prior fiscal year ended.

^{*}Schedule is intended to show information for 10 years. Additional years will be displayed as they become available.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2020

SCHEDULE OF DISTRICT'S PENSION CONTRIBUTION (Statement 3)

This schedule represents the District's contributions subsequent to the measurement date and recognized as a reduction of the net pension liability in future years. The difference between actuarially determined employer contributions and employer contributions received, and the percentage of employer contributions received to covered payroll, is presented in this schedule. The amounts presented in the schedule were determined as of the end of each fiscal year.

LASERS: CHANGES IN BENEFIT TERMS:

Effective for the reporting period 2017, LASERS was granted a 1.5% Cost of Living Adjustment (COLA). There were no changes in benefit terms for remaining years presented.

CHANGES IN ASSUMPTIONS:

Pension Plan (LASERS): The amounts reported in the actuary valuation reflect adjustments in discount rate, inflation rate, and salary increases used to value the projected benefit payments attributed to past periods of services. The changes are as follows:

Valuation Date: JUNE 30,	Discount Rate	Inflation Rate	Project Salary Increases				
2016	7.75%	3.00%	3.00% to 14.50%				
2017	7.70%	2.75%	2.80% to 14.30%				
2018	7.65%	2.75%	3.80% to 14.30%				
2019	7.60%	2.75%	3.20% to 14.50%

OTHER REPORTS OF CERTIFIED PUBLIC ACCOUNTANTS

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Commissioners Caddo Levee District Shreveport, Louisiana

I have audited, in accordance with the auditing standards generally accepted in the United States of American and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the CADDO LEVEE DISTRICT (the District), a component unit of the State of Louisiana, as of and for the year ended June 30, 2020 and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued my report thereon dated August 24, 2020.

Internal Control Over Financial Reporting

In planning and performing my audit of the financial statements, I considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, I do not express an opinion on the effectiveness of the District's internal controls.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Accounting, Audit & Tax www.My-CPAteam.com

Caddo Levee District Page 2

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during my audit I did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement. I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests did not disclose any instances of noncompliance or other matters that are required to be reported under the *Governmental Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

Other Postemployment Benefits (OPEB)

If your agency has active or retired employees who are members of the Office of Group Benefits (OGB) Health Plan, please provide the following information: (Note: OGB has a 6/30/2019 measurement date for their OPEB valuation)

Benefit payments made subsequent to the measurement date of the **OGB** Actuarial Valuation Report until the employer's fiscal year end. (Benefit payments are defined as the employer payments for retirees' health and life insurance premiums). For agencies with a 6/30 year end this covers the current fiscal year being reported. For calendar year end agencies, it covers the period 7/1 to 12/31 for the current year being reported.

23,478.00

Covered Employee Payroll for the PRIOR fiscal year (not including related benefits)

485,159.00

For calendar year-end agencies only: Benefit payments or employer payments for retirees' health and life insurance premiums made for the next year's valuation reporting period (7/1/2019 - 6/30/2020). This information will be provided to the actuary for the valuation report early next year.

0.00

For agencies that have employees that participate in the LSU Health Plan, provide the following information: (Note: The LSU Health Plan has a measurement date of 6/30/2020 for their OPEB valuation report.)

Covered Employee Payroll for the CURRENT fiscal year (not including related benefits)
