Land Trust for Louisiana, Inc.
Hammond, Louisiana
Notes to the Financial Statements
For the Years Ended December 31, 2021 and 2020

Introduction

The Land Trust for Louisiana, Inc. (“Land Trust”) was formed in 2004. The Land Trust is a private, not-for-profit organization located in Hammond, Louisiana dedicated to the acquisition of land via donations, purchases, and conservation easements formed through collaborative partnerships. Its mission is to preserve and protect valuable natural areas and agricultural lands in Louisiana for current and future Louisiana residents. Its vision is a healthy and sustainable natural environment that supports the viability of our communities. The Land Trust’s major sources of revenue are grant income, and contributions from businesses and individuals. On March 1, 2017, the Land Trust became a State Certified Conservation Organization by the Secretary of the Louisiana Department of Natural Resources.

1. Summary of Significant Accounting Policies

A. Basis of Accounting

In accordance with generally accepted accounting principles, the accompanying financial statements have been prepared on an accrual basis of accounting, whereby revenues are recognized when earned and expenses are recognized when incurred.

B. Basis of Presentation

Net assets, revenues, and expenses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the Land Trust and changes therein are classified and reported as follows:

Net Assets Without Donor Restrictions – Net assets available for use in general operations and not subject to donor (or certain grantor) restrictions. Revenues are reported as increases in net assets without restrictions, unless use of the related assets is limited by donor-imposed restrictions. Expenses are reported as decreases in net assets without restrictions.

Net Assets with Restrictions – Net assets subject to donor (or certain grantor) imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulated that resources be maintained in perpetuity. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both.

C. Cash and Cash Equivalents

For purposes of the statements of cash flows, the Land Trust considers all highly liquid investments available for current use with an original maturity of three months or less to be cash equivalents.

D. Revenue and Support with Donor Restrictions and without Donor Restrictions

Contributions received are recorded as increases in net assets without donor restrictions or increases in net assets with donor restrictions, depending on the existence and / or nature of any donor restrictions.

All donor-restricted support is reported as an increase in net assets with donor restrictions, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets with donor restrictions are reclassified to net assets without

For the Years Ended December 31, 2021 and 2020

donor restrictions, and reported in the statement of activities as net assets released from restrictions. Donor-restricted contributions whose restrictions are met in the same accounting period are reported as support and revenues without restrictions.

Fundraising and other revenues are recognized as earned.

E. Concentrations of Credit Risk

Cash on Deposit and Uninsured Balances:

The Land Trust maintains its cash balances, certificates of deposit, and investments at various financial institutions. As of December 31, 2021 and 2020, the balances in the Land Trust's cash and investment accounts not covered from loss by the FDIC totaled \$1,041,646 and \$891,540, respectively.

F. Functional Expense Reporting

The costs of providing the various programs and other activities have been summarized on a functional basis in the statements of functional expenses. Accordingly, certain costs have been allocated among the programs and supporting services benefited. Expenses which are directly associated with program services or supportive services are charged directly to that functional area.

G. Fair Value Measurements

Fair value is the price the Land Trust would receive to sell an asset or pay to transfer a liability (exit price) in an orderly transaction between market participants. For those assets and liabilities recorded or disclosed at fair value, fair value is determined based upon the quoted market price, if available. If a quoted market price is not available for identical assets, fair value is determined based upon the quoted market price of similar assets or the present value of expected future cash flows considering the risks involved, including counterparty performance risk if appropriate, and using discount rates appropriate for the duration. The fair values are assigned a level within the fair value hierarchy, depending on the source of the inputs into the calculation:

Level 1: Inputs based upon quoted prices in active markets for identical assets.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset (or liability), either directly or indirectly.

Level 3: Inputs are unobservable for the asset

H. Donated Assets and Services

The Land Trust recognizes donated services, if significant in amount, which create or enhance nonfinancial assets or that require specialized skills that are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation. The services donated consisted of an employee who, although employed by an outside company, worked entirely for the Land Trust as an Office Administrator. For the years ended December 31, 2021 and 2020, there were \$62,736 and \$62,736, respectively.

Land Trust for Louisiana, Inc.
Hammond, Louisiana
Notes to the Financial Statements (Continued)
For the Years Ended December 31, 2021 and 2020

I. Income Taxes

The Land Trust is a not-for-profit organization that is exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code. However, income from certain activities not directly related to the Land Trust’s tax-exempt purpose is subject to taxation as unrelated business income.

The Land Trust has adopted ASC 740-10, *Accounting for Uncertainty in Income Taxes*, which clarifies the accounting for uncertainty in income taxes recognized in an entity’s financial statements. The interpretation requires recognition and measurement of uncertain income tax positions using a “more-likely-than-not” approach. The adoption of this interpretation had no material impact on the Land Trust’s financial statements at December 31, 2021.

The Land Trust’s tax returns for the years ended December 31, 2021, December 31, 2020, and December 31, 2019, remain open and subject to examination by taxing authorities.

J. Fundraising Expenses

All expenses associated with fundraising activities are expensed as incurred, including those expenses related to fundraising appeals in a subsequent year.

K. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of support and revenues and expense during the reported period. Accordingly, actual results could differ from those estimates.

2. Investments

Investment account balances for the years ended December 31, 2021 and 2020, respectively, are as follows:

	2021	2020
Northshore Community Foundation:		
NCF Legacy Fund	\$ 292,975	\$ 280,774
NCF Stewardship Fund	748,671	485,688

Land Trust for Louisiana, Inc.

Notes to the Financial Statements (Continued)
For the Years Ended December 31, 2021 and 2020

3. Collections

In conformity with the practice followed by many land trusts, collections of land and easements donated and / or purchased are not capitalized. During 2021, there was one donation of property to the Land Trust totaling 273 acres. The Land Trust currently has 27 separate parcels of land and / or easements in its inventory of property under management consisting of approximately 7,824 acres. Through the use of consultants, attorneys and other experts, the Land Trust inventories, inspects, insures, manages and protects these properties in fulfillment of its mission to preserve and protect valuable natural areas and agricultural lands in Louisiana for current and future Louisiana residents.

4. Fair Value Measurements

The following table reflects assets and liabilities that are measured and carried at fair value on a recurring basis as of December 31, 2021:

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Carrying Value
