INDEPENDENT AUDITORS' REPORT

To the Members of the Board of Commissioners Ascension Parish Communications District Gonzales, Louisiana

Report on the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities and the major fund of the Ascension Parish Communications District (the District), a component unit of the Ascension Parish Council as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the District, as of December 31, 2024, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or, error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison schedules on pages 4-9 and 23 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The schedule of compensation, benefits and other payments to agency head is presented for the purposes of additional analysis and is not a required part of the basic financial statements. The schedule of compensation, benefits and other payments to agency head is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 30, 2025, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Gonzales, Louisiana June 30, 2025

Diez, Dupuy & Ruiz

This section of District's annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on December 31, 2024. This MD&A should be read in conjunction with the District's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The District's total net position increased by \$203,132 over the course of the year's operations.
- During the year, the District's total expenses were \$2,119,209 and total revenues generated were \$2,322,341.
- The District's general fund balance increased \$77,501 to \$1,965,835 at the completion of the year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of four parts-management's discussion and analysis (this section), the basic financial statements, required supplementary information, and supplemental information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are government-wide financial statements that provide both long-term and short-term information about the District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the District's government, reporting the District's operations in more detail than the government-wide statements.
- The governmental fund statements tell how general government services like public safety were financed in the short term as well as what remains for future spending.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. Figure A-l shows how the required parts of this annual report are arranged and relate to one another.

Figure A-1 summarizes the major features of the District's financial statements, including the portion of the District's government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure of contents of each of the statements.

Figure A-1 Major Features of District's Government-Wide and Fund Financial Statements

	Government-wide Statements	Governmental Fund
Scope	Entire District Government	The activities of the District
Required financial statements	 Statement of net position Statement of activities	 Balance Sheet Statement of revenues, expenditures, and changes in fund balance
Accounting basis and measurements focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, and short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payments are due during the year or soon thereafter

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed. Net position, the difference between the District's assets and liabilities, is one way to measure the District's financial health, or position.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the District, you need to consider additional nonfinancial factors such as changes in the District's telephone customer base.

The government-wide financial statements of the District include:

• Governmental activities- most of the District's basic services are included here. Charges for services, intergovernmental, reimbursements, and interest finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant fund- not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

The District has one kind of fund:

• Governmental fund-All the District's basic services are included in a governmental fund, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explains the relationship (or differences) between them.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net position. The District's net position was \$2,415,383 at the end of the fiscal year. (See Table A-1.)

Table A-1
District's Net Position

	Governmental Activities				
	2024	2023			
Current and other assets	\$ 2,580,897	\$ 2,354,208			
Capital assets, net	581,424	592,354			
Total assets	3,162,321	2,946,562			
Current liabilities	477,323	464,696			
Long-term liabilities	269,615	269,615			
Total liabilities	746,938	734,311			
Net position					
Net investment in capital assets	311,809	197,483			
Unrestricted	2,103,574	2,014,768			
Total net position	\$ 2,415,383	\$ 2,212,251			

Net position of the District's governmental activities increased \$203,132.

Governmental Activities

Revenues for the District's governmental activities increased 1.0 percent and total expenses increased 1.2 percent.

Table A-2
Changes in District's Net Position

	Governmental Activities					
	2024			2023		
Revenues						
Program revenues						
Charges for services	\$	2,198,317	\$	2,200,651		
General revenues						
Interest		38,618		16,062		
Intergovernmental		66,135		66,135		
LSA Reimbursement		19,271		15,892		
Total revenues		2,322,341	2,298,740			
Expenses						
General government		2,101,326		2,070,185		
Interest on long-term debt		17,883		23,935		
Total expenses		2,119,209		2,094,120		
Increase in net position	\$	203,132	\$	204,620		

Changes in net position. The District's total revenues for all programs were \$2,322,341 at year end (See Table A-2.) Approximately 95 percent of the District's revenue comes from commissions on telephone bills.

The total cost of all programs and services were \$2,119,209. The District's expenses cover all services performed by its office.

FINANCIAL ANALYSIS OF THE FUNDS

As the District completed the year, its general fund reported a fund balance of \$1,965,835, an increase from last year of \$77,501.

GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the year, the Board revised the General Fund budget. The budget amendments are as follows:

- Fees and charges revenue increased \$18,599
- Interest income increased \$24,150
- Insurance increased \$9,529
- Telephone decreased \$5,000
- Capital outlay increased \$88,049

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of 2024, the District had invested \$581,424 in net capital assets. The District has a net right-to-use asset of \$328,834, which is classified as a capital asset. This asset includes use of software and equipment. (See Table A-3)

Table A-3 District's Capital Assets

(net of depreciation and amortization)

	Governmental Activities			
	'	2024		2023
Improvements	\$	454,197	\$	422,849
Equipment, furniture and fixtures		2,848,996		2,739,688
Right-to-use asset-lease		627,774		627,774
Accumulated depreciation/amortization		(3,349,543)		(3,197,957)
Total net capital assets	\$	581,424	\$	592,354

During the year, the District purchased new equipment totaling \$140,656.

Long-term liability

The District has a lease payable with Motorola to finance the purchase of equipment software. The total liability outstanding as of December 31, 2024 is \$269,615.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The District is dependent on commissions from telephone carriers for approximately 95 percent of its revenues. The economy is not expected to generate any significant growth. Therefore, the District's future revenues are expected to be consistent with the current years. The budget for the 2025 year has no significant changes from the year 2024's budget.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Mr. Bobby Webre, Sheriff, Post Office Box 1238, Gonzales, La 70707-1238.

NOTES TO THE FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As provided by Louisiana Revised Statutes 33:9101 – 9106, the Ascension Parish Communications District (the District) was created to provide emergency communications to the residents of Ascension Parish. The District was created by the Ascension Parish Council, who in turn appoints a Board to manage the affairs of the District. The Board appoints a Director to function as the manager. Each member serves on a voluntary basis. The District serves approximately 130,000 residents and a geographic area of approximately 303 square miles. There currently are no employees and the Ascension Parish Sheriff serves as the director on a voluntary basis.

The accounting and reporting policies of the District conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

A. Reporting Entity

As the governing authority of the parish, for reporting purposes, the Ascension Parish Council is the financial reporting entity for Ascension Parish. The financial reporting entity consists of (a) the primary government (council), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

GASB Codification Section 2100, established criteria for determining which component units should be considered part of the Ascension Parish Council for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. These criteria include:

- 1. Appointing a voting majority of an organization's governing body, and
 - a. The ability of the municipality to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the council.
- 2. Organizations for which the council does not appoint a voting majority but are fiscally dependent on the council.
- 3. Organizations for which the reporting entity's financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Because the Council appoints all members to the District's Board of Commissioners, the District is a component unit of the Ascension Parish Council, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the District and do not present information on the council, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

NOTES TO THE FINANCIAL STATEMENTS

1. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (continued)

B. Basis of Presentation, Basis of Accounting

Government-wide Statements - The statement of net position and the statement of activities display information about the primary government (the District). These statements include the financial activities of the overall government, except for fiduciary activities. Governmental activities generally are financed through charges for services, intergovernmental revenues, and other nonexchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements - The fund financial statements provide information about the District's fund. Separate statements for each fund category are presented. The emphasis of fund financial statements is on the major governmental fund.

The District reports the following major governmental fund:

a. General Fund - The General Fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. The General Fund was established in compliance with Louisiana Revised Statute 33:9106, which provides that a percentage of the telephone bills collected throughout the parish be transmitted to the District to defray its expenditures.

C. Measurement Focus, Basis of Accounting

Government-wide Financial Statements. The government-wide financial statements are reported using the economic resources measurement focus, and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include grants, and donations. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements. The governmental fund is reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Interest is susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for claims and judgments and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds.

NOTES TO THE FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budgetary Practices

The proposed budgets for fiscal year 2024 were completed and made available for the public inspection. A public hearing was held for suggestions and comments from taxpayers. The proposed fiscal year 2024 budgets were formally adopted by the District after the public hearing. The budget, which included proposed expenditures and the means of financing them, for the General Fund, was published in the official journal ten days prior to the public hearings. The budget for the General Fund was prepared on the modified accrual basis of accounting. All appropriations lapse at year end.

When actual revenues within a fund are failing to meet estimated annual budgeted revenues by five percent or more, and/or actual expenditures are exceeding estimated budgeted expenditures by five percent or more, the budget should be amended to reflect such changes and adopted by the District in an open meeting. Budgeted amounts included in the financial statements include the original adopted budget, or as amended by the Communication District.

E. Cash and Cash Equivalents

Cash and cash equivalents include demand deposits, interest-bearing demand deposit accounts, and time deposits. Cash equivalents include amounts in those investments with original maturities of 90 days or less. Under state law, the District may deposit funds in demand deposits, interest-bearing demand deposits, or time deposits with state banks organized under Louisiana law or any other state of the United States, or under the laws of the United States.

F. Capital Assets

All capital assets are capitalized at historical cost, or estimated historical costs for assets where actual cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The District maintains a threshold level of \$500 or more for capitalizing capital assets.

Capital assets are recorded in the government-wide financial statements, but are not reported in the fund financial statements. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public purposes, no salvage value is taken into consideration for depreciation purposes. All capital assets are depreciated using the straight-line method over their estimated useful lives. Useful lives vary from 5 to 25 years. Lease assets are capital assets that are recorded as right-to-use assets and amortized over the life of the associated contract using the straight-line method.

G. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTES TO THE FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

H. Net Position

For the government-wide statement of net position, equity is divided into three components:

- Net investments in capital assets-consist of historical costs of all capital assets less accumulated depreciation/amortization and less any debt that remains outstanding that was used to finance those assets.
- Restricted net position-consists of assets that are restricted by the District's grantors (both federal and state)
- Unrestricted net position-all other net position is reported in this category

I. Fund Equity of Fund Financial Statements

Accounting standards require governmental fund balances to be reported in as many as five classifications as listed below:

- **Nonspendable-** represents amounts that are not expected to be converted to cash because they are either not in spendable form or legally or contractually required to be maintained intact.
- **Restricted** represents balances where constraints have been established by parties outside the District or imposed by law through constitutional provisions or enabling legislation.
- Committed- represents balances that can only be used for specific purposes pursuant to constraints imposed by formal action of the District's highest level of decision-making authority.
- **Assigned-** represents balances that are constrained by the government's intent to be used for specific purposes, but are not restricted or committed.
- **Unassigned** represents balances that have not been assigned to other funds and that have not been restricted, committed, or assigned to specific purposes within the general fund.

When expenditures are incurred for the purposes for which both restricted and unrestricted amounts are available, the District reduces restricted amounts first, followed by unrestricted amounts. When expenditures are incurred for purposes for which committed, assigned and unassigned amounts are available, the District reduces committed amounts first, followed by assigned amounts and then unassigned amounts.

J. Leases

The District has a lease for software and equipment. The District determines if an arrangement is a lease at inception. The lease is recorded as right-to-use assets and leases payable in the statement of net position. Right-to-use assets represent the District's right to use the underlying asset for the lease term. Right-to-use assets and leases payable are recognized at commencement date based on the net present value of lease payments over the lease term discounted using an appropriate incremental borrowing rate. The District's incremental borrowing rate is based on the information available at the commencement date in determining the present value of the lease payments. The value of an option to extend or terminate a lease is reflected to the extent it is reasonably certain management will exercise the option. Interest expense is recognized as a component of the lease payment.

NOTES TO THE FINANCIAL STATEMENTS

2. CASH AND CASH EQUIVALENTS

Under state law, the District may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union or the laws of the United States. The District may invest in certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana.

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The District does not have a deposit policy for custodial risk. As of December 31, 2024, these deposits were completely collateralized and/or insured.

The District has \$883,475 investment in the Louisiana Asset Management Pool (LAMP), a local government investment pool. LAMP is administered by LAMP, Inc., a nonprofit corporation organized under the laws of the State of Louisiana. Only local governments having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high-quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LA – R.S. 33:2955.

GASB No. 40 Deposit and Investment Risk Disclosure, requires disclosure of credit risk, custodial credit risk, concentration of credit risk interest rate risk, and foreign currency risk for all public entity investments.

LAMP is an investment pool that, to the extent practical, invest in a manner consistent with GASB No. 79. The following facts are relevant for investment pools.

- Credit risk: LAMP is rated AAAm by Standard & Poor's
- Custodial credit risk: LAMP participants' investments in the pool are evidenced by shares of the pool. Investments in pools should be disclosed, but not categorized because they are not evidenced by securities that exist in physical or book-entry form. The public entity's investment is with the pool, not the securities that make up the pool; therefore, no disclosure is required.
- Concentration of credit risk: Pooled investments are excluded from the 5 percent disclosure requirement.
- Interest rate risk: LAMP is designed to be highly liquid to give its participants immediate access to their account balances. LAMP prepares its own interest rate risk disclosure using the weighted average maturity (WAM) method. The WAM of LAMP assets is restricted to not more than 90 days and consists of no securities with a maturity in excess of 397 days or 762 days for U.S. Government floating/variable rate investments.
- Foreign currency risk: Not applicable

The investments in LAMP are stated at fair value. The fair value is determined on a weekly basis by LAMP and the value of the position in the external investment pool is the same as the net asset value of the pool shares.

LAMP, Inc. is subject to the regulatory oversight of the state treasurer and the board of directors. LAMP is not registered with the SEC as an investment company.

NOTES TO THE FINANCIAL STATEMENTS

3. CAPITAL ASSETS

Capital assets, depreciation, and amortization activity as of and for the year ended December 31, 2024, are as follows:

For the year ended December 31, 2024, depreciation expense was \$61,904 for capital assets and amortization expense for right-to-use assets was \$89,682.

4. <u>LEASES</u>

The District has entered into an agreement to lease equipment and software. The lease agreement qualifies as other than short-term leases under GASB 87 and; therefore, has been recorded at the present value of the future minimum lease payments as of the date of the inception.

The District leases communication software and equipment under a lease expiring in 5 years. The agreement was executed on October 1, 2021 and requires 5 annual payments of \$145,000. There are no variable payment components of the lease. The lease liability is measured at an incremental borrowing rate of 5%.

The following is a summary of the long-term liability for lease payable as of December 31, 2024.

Year Ending	Principal Interest		
December 31,	Payments	Payments	
2025	131,519	13,481	
2026	138,096	6,904	
Total	\$ 269,615	\$ 20,385	

NOTES TO THE FINANCIAL STATEMENTS

4. **LEASES** (continued)

The following is a summary of the long-term liability for lease payable for the year ended:

	Beginning Balance	Incre	ases	Decreases	Ending Balance	Due Within One Year
Governmental Activities:						
Lease payable	\$ 394,871	\$	-	\$ (125,256)	\$ 269,615	\$ 131,519
Total long-term liability	\$ 394,871	\$		\$ (125,256)	\$ 269,615	\$ 131,519

5. INTERGOVERNMENTAL AGREEMENT

The District has an intergovernmental agreement with the Ascension Parish Sheriff's Office. The Sheriff provides for the housing, maintenance, operation, and staffing of the Ascension Parish 911 Center. The amount paid to the Sheriff's office is 75% of the annual net income defined as all recurring revenues of the District less recurring expenditures without regard to capital outlay and the fees to the Sheriff, with the understanding that the District is guaranteed at least \$100,000 of the annual net income. The fees are payable at the end of each quarter during the term of this agreement. The District has a payable due to the Sheriff's office in the amount of \$451,844 at December 31, 2024.

The District has an intergovernmental agreement with the Parishes of St. James, St. John, and other governmental entities within Ascension Parish. The District owns and operates a two-way radio communications system (i.e. "Master Site"). The agreements were initiated due to the various entities having reached an "end of support" for availability of parts. Each governmental entity shall incur costs for its fair share of maintenance of the Master Site, with said costs being calculated according to the pro rata share of radios owned and utilized by each applicable entity. In addition to the prorated maintenance cost, a five percent (5%) administrative fee is assessed. These fees are payable to the District at the end of each quarter during the term of this agreement. The District has receivables due from the entities in the amount of \$28,535 at December 31, 2024.

6. STATUS OF IMPLEMENTATION OF WIRELESS E911 SERVICE

The District completed phase one and two implementation with all wireless companies during 2006.

7. SUBSEQUENT EVENTS

Management has evaluated subsequent events through the date that the financial statements were available to be issued. June 30, 2025.

No events occurring after this date have been evaluated for inclusion in these financial statements.

SCHEDULE OF FINDINGS AND RESPONSES

YEAR ENDED DECEMBER 31, 2024

A. SUMMARY OF AUDIT RESULTS

- 1. The independent auditors' report expresses an unmodified opinion on whether the financial statements of Ascension Parish Communications District were prepared in accordance with GAAP.
- 2. No significant deficiencies relating to the audit of the financial statements are reported in the Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Governmental Auditing Standards*. No material weaknesses are reported.
- 3. No instances of noncompliance material to the financial statements of Ascension Parish Communications District, which would be required to be reported in accordance with *Governmental Auditing Standards*, were disclosed during the audit.

B. FINDINGS - FINANCIAL STATEMENT AUDIT

None noted

C. FINDINGS – NONCOMPLIANCE WITH STATE LAWS AND REGULATIONS

None noted

SCHEDULE OF PRIOR YEAR FINDINGS

YEAR ENDED DECEMBER 31, 2024

A. FINDINGS - FINANCIAL STATEMENT AUDIT

None noted

B. FINDINGS - NONCOMPLIANCE WITH STATE LAWS AND REGULATIONS

None noted

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Members of the Board of Commissions Ascension Parish Communications District Gonzales, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller of the United States, the financial statements of the governmental activities and the major fund of the Ascension Parish Communications District (the District), a component unit of the Ascension Parish Council, as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise Ascension Parish Communications District's basic financial statements and have issued our report thereon dated June 30, 2025.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Ascension Parish Communications District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Ascension Parish Communications District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our test disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

STATEWIDE AGREED UPON PROCEDURES

DECEMBER 31, 2024

INDEPENDENT ACCOUNTANT'S REPORT ON APPLYING AGREED-UPON PROCEDURES

To the Board of Commissioners, and the Louisiana Legislative Auditor:

We have performed the procedures enumerated below, which were agreed to by the Ascension Parish Communications District (the District) and the Louisiana Legislative Auditor (LLA) on the control and compliance (C/C) areas identified in the LLA's Statewide Agreed-Upon Procedures (SAUPs) for the fiscal period January 1, 2024 through December 31, 2024. The District's management is responsible for those C/C areas identified in the SAUPs.

Ascension Parish Communications District has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of the engagement, which is to perform specified procedures on the C/C areas identified in LLA's SAUPs for the fiscal period January 1, 2024 through December 31, 2024. Additionally, LLA has agreed to and acknowledged that the procedures performed are appropriate for its purposes. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and associated findings are as follows:

1) Credit Cards/Debit Cards/Fuel Cards/Purchase Cards (Cards)

- A. Obtain from management a listing of all active credit cards, bank debit cards, fuel cards, and purchase cards (cards) for the fiscal period, including the card numbers and the names of the persons who maintained possession of the cards. Obtain management's representation that the listing is complete.
 - Obtained listing of the credit cards and management's representation that listing is complete.
- B. Using the listing prepared by management, randomly select 5 cards (or all cards if less than 5) that were used during the fiscal period. Randomly select one monthly statement or combined statement for each card (for a debit card, randomly select one monthly bank statement). Obtain supporting documentation, and
 - a) Observe whether there is evidence that the monthly statement or combined statement and supporting documentation (e.g., original receipts for credit/debit card purchases, exception reports for excessive fuel card usage) were reviewed and approved, in writing (or electronically approved) by someone other than the authorized card holder (those instances requiring such approval that may constrain the legal authority of certain public officials, such as the mayor of a Lawrason Act municipality, should not be reported); and
 - No exceptions noted.
 - b) Observe that finance charges and late fees were not assessed on the selected statements.
 - *No exceptions noted.*

C. Using the monthly statements or combined statements selected under procedure #7B above, excluding fuel cards, randomly select 10 transactions (or all transactions if less than 10) from each statement, and obtain supporting documentation for the transactions (e.g., each card should have 10 transactions subject to inspection). For each transaction, observe that it is supported by (1) an original itemized receipt that identifies precisely what was purchased, (2) written documentation of the business/public purpose, and (3) documentation of the individuals participating in meals (for meal charges only). For missing receipts, the practitioner should describe the nature of the transaction and observe whether management had a compensating control to address missing receipts, such as a "missing receipt statement" that is subject to increased scrutiny.

No exceptions noted.

We were engaged by Ascension Parish Communications District to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards*. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on those C/C areas identified in the SAUPs. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of Ascension Parish Communications District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely to describe the scope of testing performed on those C/C areas identified in the SAUPs, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the LLA as a public document.
