INDEPENDENT AUDITORS' REPORT

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities and the major fund of the Jefferson Parish Assessor (the Assessor) as of and for the year ended December 31, 2025, and the related notes to the financial statements, which collectively comprise of the Assessor's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the Assessor, as of December 31, 2025, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the *Louisiana Governmental Audit Guide*, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Assessor, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Assessor's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Honorable Thomas J. Capella
Jefferson Parish Assessor
June 17, 2026

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Assessor's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Assessor's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Honorable Thomas J. Capella
Jefferson Parish Assessor
June 17, 2026

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedule, schedule of changes in net OPEB liability and related ratios, schedule of proportionate share of the net pension liability, schedule of contributions—retirement plan, and the notes to the required supplementary information on pages 5 through 8 and 33 through 38 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise of the Assessor's basic financial statements. The accompanying schedule of compensation paid to board members and compensation, benefits and other payments to agency head are presented to comply with the requirements issued by the State of Louisiana, and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of compensation paid to board members and compensation, benefits and other payments to agency head are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Honorable Thomas J. Capella
Jefferson Parish Assessor
June 17, 2026

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 17, 2026 on our consideration of the Jefferson Parish Assessor's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Jefferson Parish Assessor's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2025**

This section of the Jefferson Parish Assessor's (the Assessor) annual financial report presents management's analysis of the Assessor's financial performance for the year ended December 31, 2025. This analysis should be read in conjunction with the audited financial statements which follow this section.

FINANCIAL HIGHLIGHTS

- The Assessor's net position decreased by \$520,767.
- The revenues of the Assessor were \$5,477,847.
- The total expenditures/expenses of the Assessor were \$5,998,614.

OVERVIEW OF THE FINANCIAL STATEMENTS

This report consists of three sections: Management's Discussion and Analysis, audited financial statements and supplementary information. The financial statements also include notes that provide additional detail of the information included in the financial statements.

BASIC FINANCIAL STATEMENTS

The financial statements of the Assessor report information about the Assessor using accounting methods similar to those used by private companies. These financial statements provide financial information about the activities of the Assessor.

The Statement of Net Position (Exhibit A) and the Balance Sheet (Exhibit C) present information that includes all of the Assessor's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position and fund balance, respectively. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the Assessor as a whole is improving or deteriorating. The Governmental Fund Balance Sheet focuses on balances that are left at year-end and are available for spending.

The Statement of Activities (Exhibit B) and the Statement of Revenues, Expenditures, and Changes in Fund Balance (Exhibit E) present information showing how the Assessor's net position and fund balance changed during the most recent fiscal year.

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found beginning on page 15 of this report.

Total assets increased by \$1,357,344 (8%) due to increase in net pension. Deferred outflows of resources decreased by \$1,047,597 (36%) primarily due to reductions in deferred outflows from recognition of pension and OPEB liabilities. Total liabilities decreased by \$1,209,007 (5%) primarily due to a decrease in total OPEB liability. Deferred inflows of resources increased by \$2,039,521 (40%) primarily due to deferred inflows related to changes in experience and assumptions used in the valuation of the total OPEB liability. Net position decreased by \$520,767 (5%) as a result of expenditures related to OPEB and pension costs. The primary reason for the net position deficit is due to reporting the net pension asset and the net other post-employment benefits liability.

ECONOMIC FACTORS AND A LOOK AT NEXT YEAR

The Assessor is committed to serving Jefferson Parish by uniformly and accurately appraising and assessing all property in the parish for property tax purposes. The majority of the Assessor's revenue is mandated by the State Legislature. The Assessor expects to receive the same amount of tax revenue in 2025 which is advanced to it monthly by the parish council and the school board in accordance with Louisiana Revised Statute 47:1906. Expenditures are expected to continue to rise in the coming years due to personnel and healthcare costs.

TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED DECEMBER 31, 2025**

Net change in fund balance - total governmental fund \$ (205,563)

Amounts reported for governmental activities in the Statement of
Activities are different because:

The governmental fund reports capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives, and reported as depreciation expense. This is the amount by which capital outlay additions of \$16,969 for the current period exceeded depreciation expense of \$15,930 for the current period. 1,039

In the Statement of Activities, the loss on the disposal of assets is reported, whereas in the governmental funds, the proceeds from the sale increases financial resources. The change in net position differs from the change in fund balance by the cost of the assets discarded \$1,340, net of related accumulated depreciation of \$190. (1,150)

Some expenses reported in the Statement of Activities do not require the use of current financial resources and are not reported as expenditures in governmental funds:

Change in long-term portion of accrued annual leave 3,905

The change in asset for pension expense is an actuarial calculation of future obligations related to retirement, survivor, disability, and termination benefits, and is not due and payable in the current period, and therefore, is not reported in the governmental funds.

Pensions (224,804)
Non-employer contributions for pension 864,016

The change in the liability for other post-employment benefits is an actuarial calculation of future obligations related to retiree health insurance benefits, and is not due and payable in the current period, and therefore, is not reported in the governmental funds. (958,210)

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2025**

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As provided by Article VII, Section 24 of the Louisiana Constitution of 1974, the Jefferson Parish Assessor (Assessor) is elected by the voters of Jefferson Parish and serves a term of four years. The Assessor assesses all real and movable property in the Parish, prepares the tax rolls, and submits the rolls to the Louisiana Tax Commission as prescribed by law.

Reporting Entity

The Assessor receives funding from local government sources and must comply with the concomitant requirements of these funding source entities. However, the Assessor is a "primary government" as defined in Governmental Accounting Standards Board (GASB) pronouncements, since the Assessor has the power to designate management, the ability to significantly influence operations and primary accountability for fiscal matters. The Assessor has no component units.

The accounting and reporting policies of the Assessor conform to accounting principles generally accepted in the United States, as applicable to governmental units.

Basis of Presentation

The Assessor's financial statements are prepared in conformity with U.S. generally accepted accounting principles (GAAP). The GASB is responsible for establishing GAAP for state and local governments through pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements. The more significant accounting policies established in GAAP and used by the Assessor are discussed below.

The accompanying basic financial statements have been prepared in conformity with GASB Statement No. 34, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments*, as amended by GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*.

Basic Financial Statements - Government-Wide Financial Statements

The Assessor's basic financial statements include both government-wide (reporting the Assessor as a whole) and fund financial statements (reporting the Assessor's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. The Assessor's property assessment and tax roll preparation activities and related general administrative services are classified as governmental activities. The Assessor does not have any business-type activities.

(1) **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

Basic Financial Statements - Government-Wide Financial Statements (continued)

In the government-wide Statement of Net Position (Exhibit A), the governmental activities column is presented on a consolidated basis and is reported on a full accrual, economic resource basis, which recognizes all long-term assets and liabilities. The Assessor's net position is reported in three parts – net investment in capital assets, restricted net position, and unrestricted net position.

The government-wide Statement of Activities (Exhibit B) reports both gross and net cost of the Assessor's function (property assessment and tax roll preparation). The function is supported by general government revenues (commissions paid directly by the Jefferson Parish Sheriff and investment income).

This government-wide focus is on the sustainability of the Assessor as an entity and the change in the Assessor's net position resulting from current year's activities.

Basic Financial Statements – Fund Financial Statements

The financial transactions of the Assessor are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures. The Assessor's current operations require the use of only the following fund type:

Governmental Fund:

The focus of the governmental fund's measurement (in the fund statement) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. In general, fund balance represents the accumulated expendable resources, which may be used to finance future operations of the Assessor. The following is a description of the governmental fund of the Assessor:

General Fund

The General Fund, as provided by Louisiana Revised Statute 47:1906, is the principal fund of the Assessor and is used to account for the operations of the Assessor's office. Compensation received from the various taxing bodies, prescribed by formula in Louisiana Revised Statutes 47:1907-1908, is accounted for in this fund. General operating expenditures are paid from this fund.

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

Accrual

The governmental activities in the government-wide financials are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, deferred outflows or resources, liabilities, and deferred inflows of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from non-exchange transactions are recognized in accordance with the requirements of Section N50 (GASB 34, as amended by GASB 63 and 65).

Modified Accrual

The governmental fund financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred.

The Assessor's records are maintained on a cash basis of accounting. However, the General Fund reported in the accompanying financial statements has been converted to the modified accrual basis of accounting utilizing the following practices in recording revenues and expenditures.

Budgets

Annually, the Assessor adopts a budget for the General Fund on a modified accrual basis of accounting. The budgetary practices include public notice of the proposed budget, public inspection of the proposed budget, and public hearings on the budget. Budgetary integration is used as a management control device.

Once a budget is approved it can be amended. Such amendments are made before the fact, are reflected in the official minutes of the office, and are not made after fiscal year end.

Each budget is prepared and controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Assessor. All budget appropriations lapse at year end.

Cash

The Assessor is authorized under state law to deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, and the laws of the United States. The Assessor may also invest in U.S. Treasury securities and other evidence of indebtedness issued or guaranteed by federal agencies and time certificates of deposit with state banks organized under Louisiana law and national banks having their principal offices in Louisiana. Under state law, these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of such pledged securities and federal deposit insurance must equal or exceed the amount on deposit with the fiscal agent.

Capital Assets

Capital assets purchased or acquired with an original cost of \$500 or more are reported at historical cost or estimated cost if historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. In the fund financial statements, capital assets are accounted for as capital outlay expenditures of the fund upon acquisition.

Capital assets are recorded in the Statement of Net Position and depreciation is recorded in the Statement of Activities. Since surplus assets are sold for an immaterial amount or scrapped when declared as no longer needed for public purposes, no salvage value is taken into consideration for depreciation purposes. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Office equipment	7 years
------------------	---------

Deferred Outflows and Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. Currently, the Assessor has two items that qualify for reporting in this category, deferred amounts related to pensions and OPEB.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until then. Currently, the Assessor has two items that qualify for reporting in this category, deferred amounts related to pensions and OPEB.

Compensated Absences

Employees accrue vacation leave at the rate of 13 to 22 $\frac{3}{4}$ days per year, according to the years of service with the Assessor. A maximum of 30 days of vacation leave can be accumulated. Upon termination or retirement, employees can receive payment for a maximum of ten days of unused accumulated vacation leave. Sick leave is accrued at the rate of 16 $\frac{1}{4}$ days per year for all employees. Upon termination or retirement, employees do not receive payment for unused accumulated sick leave. In accordance with GASB Statement No. 101, a liability for compensated absences is recognized when the leave is attributable to services already rendered, accumulates, and is more likely than not to be used for time off or otherwise paid or settled.. The liability is measured using the pay or salary rates in effect as of the financial reporting date.

Equity Classification

In the government-wide financial statements, equity is classified as net position and displayed in three components:

- a. Net investment in capital assets - consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position - consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Constraints may be placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position – net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in either of the other two categories of net position.

Governmental fund equity is classified as fund balance. Fund balance is further classified as nonspendable, restricted, committed, assigned, or unassigned. The Assessor, as the highest level of decision-making authority, can establish, modify, or rescind a fund balance commitment. For assigned fund balance, the Assessor authorizes management to assign amounts for a specific purpose.

When both restricted and unrestricted fund balances are available for use, it is the Assessor's policy to use restricted resources first, then unrestricted as needed. When committed, assigned or unassigned fund balances are available for use, it is the Assessor's policy to use committed resources first, then assigned resources and unassigned resources as they are needed.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of Louisiana Assessors' Retirement Fund and Subsidiary and additions to/deductions from the system's fiduciary net position have been determined on the same basis as they are reported by the system. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post-Employment Benefits

The Assessor provides certain health care and life insurance benefits for retired employees and recognizes the costs associated with providing these benefits as claims are paid. In the government-wide financial statements, other post-employment benefits are reported as liabilities.

Revenues

The Assessor's revenue is derived from ad valorem taxes assessed on a calendar year basis. The ad valorem taxes assessed are due on December 31st of the calendar year in which the taxes are assessed and are paid to the Jefferson Parish Sheriff's Office. As required by Louisiana Revised Statute 47:1906, the Assessor earns a percentage of the taxes assessed. In order to fund current year operations, the Assessor is advanced funds on a monthly basis by the Jefferson Parish Council and the Jefferson Parish School Board. In January of the subsequent year, the Jefferson Parish Sheriff's Office remits the amount due to the Assessor. The Assessor then repays the advances to the Council and School Board.

As of December 31, 2025, appropriations receivable from the Jefferson Parish Sheriff's Office was \$4,219,756 and the total advances payable to Jefferson Parish Council and the Jefferson Parish School Board was \$4,219,757.

Interest earned on investments is recorded when earned.

Expenditures

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

New Accounting Pronouncements

The GASB has released Statement No. 103, *Financial Reporting Model Improvements* (Statement 103). This Statement improves key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. This Statement also addresses certain application issues. The requirements of this statement are effective for periods beginning after June 15, 2025. The Assessor plans to adopt this Statement as applicable by the effective date.

The GASB has released Statement No. 104, *Disclosure of Certain Capital Assets* (Statement 104). The requirements of this Statement will improve financial reporting by providing users of financial statements with essential information about certain types of capital assets in order to make informed decisions and assess accountability. Additionally, the disclosure requirements will improve consistency and comparability between governments. This Statement is effective for periods beginning after June 15, 2025. The Assessor plans to adopt this Statement as applicable by the effective date.

The GASB has released Statement No. 105, *Subsequent Events*. This Statement improves the financial reporting requirements for subsequent events, thereby enhancing consistency in their application and better meeting the information needs of financial statement users. The requirements of this Statement are effective for periods beginning after June 15, 2026. The Assessor plans to adopt this Statement as applicable by the effective date.

Date of Management Review

Management has evaluated subsequent events through June 17, 2026, the date which the financial statements were available to be issued.

(2) CONCENTRATION OF CREDIT RISK

At December 31, 2025, the Assessor has cash and cash equivalents (book balances) totaling \$10,435,098 as follows:

Operating accounts	\$ 288,236
Savings account	1,110,810
Money Market Mutual Funds	163,490
Short-term US Treasury Securities	<u>8,872,562</u>
	<u>\$ 10,435,098</u>

These deposits are stated at cost, which approximates market. The Assessor does not have a policy for custodial credit risk; however, under state law, bank deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging agent bank in a holding or custodial bank that is mutually acceptable to both parties.

- Category 2 includes deposits covered by collateral held by the pledging financial institution's trust department, or the Assessor or its agent, in the Assessor's name.
- Category 3 includes deposits covered by collateral held by the pledging financial institution, or its trust department or agent but not in the Assessor's name, and deposits which are uninsured or uncollateralized.

(5) PENSION PLAN

Plan Description

Substantially all of the full-time employees of the Assessor participate in the Louisiana Assessors' Retirement Fund (the Fund), a cost-sharing, multiple-employer defined benefit pension plan administered by a separate board of trustees.

Employees who were hired before October 1, 2013, will be eligible for pension benefits once they have either reached the age of 55 and have at least 12 years of service or have at least 30 years of service, regardless of age. Employees who were hired on or after October 1, 2013, will be eligible for pension benefits once they have either reached the age of 60 and have at least 12 years of service or have reached the age of 55 and have at least 30 years of service.

Employees who became members prior to October 1, 2006, are entitled to annual pension benefits equal to three and one-third percent of their highest monthly average final compensation based on the 36 consecutive months of highest pay, multiplied by their total years of service, not to exceed 100% of average final compensation. Employees who become members on or after October 1, 2006 will have their benefit based on the highest 60 months of consecutive service. Employees may elect to receive their pension benefits in the form of a joint/survivor annuity.

If employees terminate before rendering 12 years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the employer's contributions. Benefits are payable over the employees' lives in the form of a monthly annuity. Employees may elect a reduced benefit or any of four options at retirement: (1) if the member dies before he has received in retirement payments purchased by his contributions the amount he had contributed to the fund before his retirement, the balance shall be paid to his legal representatives or to such person as he shall nominate by written designation; (2) upon retirement, the member receives a reduced benefit and upon the member's death, the surviving spouse will continue to receive the same reduced benefit; (3) upon retirement, the member receives a reduced benefit and upon member's death, the surviving spouse will receive one-half of the member's reduced benefit; or (4) the member may elect to receive some other board-approved benefit or benefits that together with the reduced retirement allowance shall be of equivalent actuarial value to his retirement allowance.

(5) PENSION PLAN (CONTINUED)

Plan Description (continued)

The Fund issues an annual publicly available financial report that includes financial statements and required supplementary information for the Fund. That report may be obtained by writing to the Louisiana Assessors' Retirement Fund, Post Office Box 14699, Baton Rouge, Louisiana 70898.

Contributions

At December 31, 2025, members of the Fund are required by state statute to contribute 8% of their annual covered salary and the Assessor is required to contribute at an actuarially determined employer contribution rate, which was 2.99% for the Plan's year ended September 30, 2025. The contribution requirements of plan members and the Assessor are established and may be amended by state statute. As provided by Louisiana Revised Statute 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. Member contributions are deducted from the member's salary and remitted by the Assessor. Administrative costs of the Fund are financed through employer contributions.

The Fund also receives one-fourth of one percent of the property taxes assessed in each parish of the state, except for Orleans Parish which is one percent, as well as a state revenue sharing appropriation. According to state statute, in the event that contributions for ad valorem taxes and revenue sharing funds are insufficient to provide for the gross employer actuarially required contribution, the employer is required to make direct contributions as determined by the Public Retirement System's Actuarial Committee. Although the direct employer actuarially required contribution for the fiscal year ended September 30, 2025 is 2.99%, the actual employer contribution rate for the fiscal year ended September 30, 2025 was 1.35%. The actual employer contribution was 5% for the period October 1, 2025 through December 31, 2025. The actual rate differs from the actuarially required rate due to state statutes that require the contribution rate be calculated and set one year prior to the year effective.

For the calendar year 2025, the Assessor elected to pay 100% of the employees' contribution to the Fund. The Assessor's employee and employer contributions to the Fund for the year ending December 31, 2025 were \$200,552 and \$125,345, respectively, equal to the required contribution for the year.

(5) PENSION PLAN (CONTINUED)

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2025, the Assessor reported a net pension asset totaling \$2,872,001 for its proportionate share of the net pension liability for the Fund. The net pension liability was measured as of September 30, 2025 and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of that date. The Assessor's portion of the net pension liability was based on a projection of the Assessor's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At September 30, 2025, the Assessor's portion was 4.775559% for the Fund, which was an increase of 0.111793% from its portion measured as of September 30, 2024.

For the year ended December 31, 2025, the Assessor recognized pension expense for the Fund totaling \$536,189. Added to pension expense is the employer's amortization of change in proportionate share and differences between employer contributions and proportionate share of contributions totaling \$2,215 for the Fund.

For the year ended December 31, 2025, the Assessor recognized revenue from ad valorem taxes and revenue sharing funds received by the Fund. These additional sources of income are used as employer contributions and are considered support from non-employer contributing entities totaling \$864,016.

At December 31, 2025, the Assessor reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 237,761	\$ 78,127

(5) PENSION PLAN (CONTINUED)

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

Employer contributions subsequent to the measurement date totaling \$33,913 and reported as deferred outflows of resources will be recognized as a reduction of the net pension liability in the next fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows for the year ended December 31st:

2026	\$ 24,105
2027	(1,146,753)
2028	(956,496)
2029	(274,419)
2030	<u>11,402</u>
Total	<u>\$ (2,342,161)</u>

Actuarial Assumptions

The total pension liability in the September 30, 2025 actuarial valuation for the Fund was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Valuation Date:	September 30, 2025
Actuarial Cost Method:	Entry Age Normal
Actuarial Assumptions:	
Investment Rate of Return	5.50%, net of investment expense, including inflation
Inflation Rate	2.10%
Projected Salary Increases	5.00%
Mortality Rates	Pub-2010 Public Retirement Plans Mortality Table for General Healthy Retirees multiplied by 120% with full generational projection using the appropriate MP-2019 improvement scale.
Cost of Living Adjustments	The present value of future retirement benefits is based on benefits currently being paid by the Fund and includes previously granted cost of living increases. The present values do not include provisions for potential future increases not yet authorized by the Board of Trustees.

(5) PENSION PLAN (CONTINUED)

Actuarial Assumptions (continued)

The current year actuarial assumptions utilized for this report are based on the assumptions used in the September 30, 2025 actuarial funding valuation, which (with the exception of mortality) were based on results of an actuarial experience study for the period October 1, 2014 - September 30, 2019. All assumptions selected were determined to be reasonable and represent expectations of future experience for the Fund.

Discount Rate

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation, of 2.5%, and an adjustment for the effect of rebalancing/diversification. The resulting long-term expected arithmetic nominal return was 7.85% as of September 30, 2025.

Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of September 30, 2025, are summarized in the following table:

<u>Asset Class</u>	<u>Long-Term Expected Portfolio Real Rate of Return</u>
Domestic equity	7.50%
International equity	8.50%
Domestic bonds	2.50%
International bonds	3.50%
Real estate	4.50%

The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from the participating employers and non-employer contributing entities will be made at actuarially determined contribution rates, which are calculated in accordance with relevant statutes and approved by the Board of Trustees and the Public Retirement Systems' Actuarial Committee. Based on these assumptions and the other assumptions and methods as specified in this report, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. Thus, the discount rate used to measure the total pension liability was 5.50%.

(5) PENSION PLAN (CONTINUED)

Actuarial Assumptions (continued)

The effects of certain other changes in the net pension liability are required to be included in pension expense over the current and future periods. The effects on the total pension liability of (1) changes of economic and demographic assumptions or of other inputs and (2) differences between expected and actual experience are required to be included in pension expense in a systematic and rational manner over a closed period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension plan (active employees and inactive employees), determined as of the beginning of the measurement period. The effect on net pension liability of differences between the projected earnings on pension plan investments and actual experience with regard to those earnings is required to be included in pension expense in a systematic and rational manner over a closed period of five years, beginning with the current period. The expected remaining service lives for 2025 is 6 years.

Sensitivity of the Authority's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Fund calculated using the discount rate of 5.50%, as well as what the Fund's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (4.50%) or one percentage point higher (6.50%) than the current discount rate (assuming all other assumptions remain unchanged):

	1% Decrease <u>4.50%</u>	Current Discount Rate <u>5.50%</u>	1% Increase <u>6.50%</u>

(6) DEFERRED COMPENSATION PLAN

The Assessor offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan is administered by the State of Louisiana Public Employees Deferred Compensation Plan. The plan, available to all Assessor employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. During 2025, the Assessor's rate of contribution to the Plan was 6.00% of gross wages, not to exceed the employee's contribution. The Assessor's total contributions made to the plan were \$156,008 for the year ended December 31, 2025.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to these amounts, property, or rights are held in trust for the exclusive benefits of participants and their beneficiaries.

(7) OTHER POST-EMPLOYMENT BENEFITS

Plan Description

The Assessor administers a single-employer defined benefit healthcare plan. The plan provides lifetime healthcare insurance for eligible retirees and their spouses through the office's group health insurance plan, which covers both active and retired members. Benefit provisions are established in the Louisiana State House of Representatives' Bill #38, Act #244 passed in September 2008. The Retiree Health Plan's financial report is publicly available upon request.

Funding Policy

Contribution requirements are listed in the House Bill #38, Act #244 of September 2008. The act states "the assessor shall pay the premium cost of group, life, dental, group health, hospital, surgical, or other medical insurance for any assessor or assessor's employee who retires with at least 20 years of service who is at least fifty-five years of age or who retires with at least thirty years of service at any age." The Assessor contributes 100% of the cost of current-year premiums for eligible retired plan members and 50% for their spouses. For the year ended 2025, the Assessor contributed \$325,897 to the plan. Plan members receiving benefits contribute 50% of their spouse's premium costs. For the year ended 2025, total member contributions were \$26,021.

**OTHER REPORT REQUIRED BY
*GOVERNMENT AUDITING STANDARDS***

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED
ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS***

Honorable Thomas J. Capella
Jefferson Parish Assessor
Gretna, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of Jefferson Parish Assessor, as of and for the year ended December 31, 2025, and the related notes to the financial statements, which collectively comprise the Jefferson Parish Assessor's basic financial statements, and have issued our report thereon dated June 17, 2026.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Jefferson Parish Assessor's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Jefferson Parish Assessor's internal control. Accordingly, we do not express an opinion on the effectiveness of Jefferson Parish Assessor's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of Jefferson Parish Assessor's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Honorable Thomas J. Capella
Jefferson Parish Assessor
June 17, 2026

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Jefferson Parish Assessor's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

For each transaction, observe that it is supported by (1) an original itemized receipt that identifies precisely what was purchased, (2) written documentation of the business/public purpose, and (3) documentation of the individuals participating in meals (for meal charges only). For missing receipts, the practitioner should describe the nature of the transaction and observe whether management had a compensating control to address missing receipts, such as a "missing receipt statement" that is subject to increased scrutiny.
15. **Procedure:** Using the list of terminated employees obtained in Payroll and Personnel procedure #18 identify those individuals who had access to cards and randomly select 5 terminated employees (or all terminated employees with card access if less than 5) from this population.
