## INTRODUCTION

East Columbia Sewerage District (the "District") was created by the Caldwell Parish Police Jury, on May 3, 1976, as authorized by Louisiana Revised Statute 33:3881. The District is governed by a five member board appointed by the police jury. As provided by Louisiana Revised Statute 33:3887, the board members receive \$50 per meeting attended. The District is responsible for maintaining and operating a sewerage collection and disposal system within the boundaries of the District and has two part-time employees.

GASB Statement No. 14, *The Reporting Entity*, and No. 39, *Determining Whether Certain Organizations Are Component Units - an amendment of GASB Statement No. 14*, establish criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under provisions of these Statements, the District is considered a component unit of the Caldwell Parish Police Jury. As a component unit, the accompanying financial statements may be included within the reporting of the primary government, either blended into those financial statements or separately reported as a discrete component unit.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### A. Financial Statements

Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, provides that special-purpose governments engaged only in business-type activities should present only the financial statements required for enterprise funds. For these governments, basic financial statements and required supplemental information (RSI) consist of :

- (1) Management discussion and analysis (MD&A)
- (2) Statement of net position
- (3) Statement of revenue, expenses, and changes in net position
- (4) Statement of cash flows
- (5) Notes to the financial statements
- (6) RSI other than MD&A, if applicable

The District is a special-purpose government engaged only in business-type activities.

See accountant's compilation report.

Notes to the Financial Statements

**B. Measurement Focus, Basis of Accounting, and  
Financial Statement Presentation**

Enterprise fund statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Enterprise funds distinguish operating revenue and expenses from nonoperating items. Operating revenue and expenses generally result from providing services in connection with the fund's principal ongoing operation. The operating revenue of the District is service and connection fees. Operating expenses for enterprise funds include the costs of the services, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

**C. Deposits**

Cash includes amounts in a demand deposit. State law limits the District's credit risk by restricting the District's investments to collateralized certificates of deposits, government-backed securities, commercial paper, the state sponsored investment pool, and mutual funds consisting solely of government-backed securities.

**D. Receivables**

Receivables for sewer fees are generally shown net of an allowance for uncollectible accounts. These statements contain no provision for uncollectible accounts. The District is of the opinion that such an allowance would be immaterial in relation to the financial statements taken as a whole. Past due accounts are written off when they are considered uncollectible by management.

**E. Property, Plant, and Equipment**

Property, plant, and equipment, which include the sewerage system and improvements and equipment, are reported in the enterprise fund financial statements. All of the District's property, plant, and equipment are capitalized at historical cost. The District maintains a threshold level of \$900 or more for capitalizing assets. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

See accountant's compilation report.

EAST COLUMBIA SEWERAGE DISTRICT  
Notes to the Financial Statements

All capital assets are depreciated using the straight-line method over the following useful lives:

	Estimated Lives
Infrastructure - sewerage system and improvements	25 years
Buildings and equipment	5 - 25 years

**F. Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities, disclosures, and revenue, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

**2. DEPOSITS IN FINANCIAL INSTITUTIONS**

At December 31, 2024, the District has cash (book balances) as follows:

Checking account	<u>\$29,849</u>
------------------	-----------------

These deposits are stated at cost, which approximates market. Under state law, these deposits, or the resulting bank balances, must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The District's deposits at December 31, 2024 are secured from risk by federal deposit insurance.

**3. ACCOUNTS RECEIVABLE**

At December 31, 2024, the District has net receivables as follows:

Service fees	\$4,399
Allowance for uncollectible accounts	<u>NONE</u>
