INDEPENDENT ACCOUNTANT'S REVIEW REPORT

The Board of Commissioners
 Greater Krotz Springs Port Commission
 Krotz Springs, Louisiana

We have reviewed the accompanying financial statements of the business-type activities of the Greater Krotz Springs Port Commission as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Greater Krotz Springs Port Commission's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management of the Greater Krotz Springs Port Commission is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA, and the standards applicable to review engagements contained in the Government Auditing Standards, issued by the United States Comptroller General. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting where we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

In accordance with the Louisiana Governmental Audit Guide and the provisions of state law, we have issued a report, dated November 15, 2021, on the results of our agreed-upon procedures.

Required Supplementary Information

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting and for placing the basic financial statements in an appropriate operational, economic, or historical context.

Accounting principles generally accepted in the United States of America require that the Schedule of Employer's Share of Net Pension Liability and Schedules of Employer Contributions on pages 24 and 25 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting and for placing the basic financial statements in an appropriate operational, economic, or historical context. Such information is the responsibility of management. We have not audited or reviewed such required supplementary information, and, accordingly, we do not express an opinion, a conclusion, nor provide any assurance on it.

Other Supplementary Information

The Schedule of Compensation, Benefits and Other Payments to Agency Head or Chief Executive Officer as listed in the table of contents on page 27 is presented for the purposes of additional analysis and is not a required part of the basic financial statements. The supplementary information is the responsibility of management, and such information was derived from, and relates directly to, the underlying records used to prepare the financial statements. The supplementary information was subjected to the review procedures applied in the review of the basic financial statements and based on our review, we are not aware of any material modifications that should be made to the information in order for it to be in conformity with the applicable financial reporting framework. We have not audited the supplementary information and, accordingly, do not express an opinion on such information.

NOTES TO FINANCIAL STATEMENTS

GREATER KROTZ SPRINGS PORT COMMISSION
KROTZ SPRINGS, LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2021

NOTE (1) - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Greater Krotz Springs Port Commission was created as a political subdivision of the State of Louisiana by the Louisiana State Legislature under the provisions of Louisiana Revised Statute 34:1451-1456. The Port Commission has the power to regulate the commerce and traffic in St. Landry Parish in such a manner as may be best for public interest; and it is empowered to own and have charge of, to administer, construct, operate and maintain wharfs, warehouses, landings, docks, sheds, belt and connection railroads, shipways, canals, channels, slips, basins, locks, elevators and other structures and facilities necessary and proper for the use and development of the business of the area under its control.

The Port Commission is governed by a board of commissioners, consisting of eleven members appointed as follows:

1. Three members by the St. Landry Parish Government
2. Two members by the City of Opelousas
3. Two members by the City of Eunice
4. Two members by the Town of Krotz Springs
5. Two members by the St. Landry Parish Municipal Association

The Port's office is located in Krotz Springs, Louisiana, and employs two administrative personnel. The Port's operations are funded entirely through annual self-generated revenues.

The accompanying financial statements of the Greater Krotz Springs Port Commission have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The following is a summary of certain significant accounting policies and practices of the Greater Krotz Springs Port Commission:

A. FINANCIAL REPORTING ENTITY

The Port is reported as a stand-alone entity as defined by GASB Statement No. 14, "The Financial Reporting Entity." The Port is neither fiscally dependent on any other local government, nor does it provide specific financial benefits to or impose specific financial burdens on any other government. No other potential component units meet the criteria for inclusion in the financial statements of the Port.

B. BASIS OF PRESENTATION

The Division of Administration of the State of Louisiana has determined that the Greater Krotz Springs Port Commission is a primary government and not a component unit or agency of the State of Louisiana for financial reporting purposes.

JUNE 30, 2021

NOTE (1) - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. MEASUREMENT FOCUS / BASIS OF ACCOUNTING

Measurement Focus

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. The proprietary fund of the Port utilizes an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net position.

Basis of Accounting

Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied. All proprietary funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Port's enterprise fund are charged to tenants for the use of the facilities. Operating expenses for enterprise funds include the cost of maintaining the facilities, administrative expenses, and depreciation on capital assets. All revenues not meeting the definition are reported as non-operating revenues and expenses.

D. CASH AND INVESTMENTS

The Port defines cash and cash equivalents as follows:

Cash equivalents – includes all short term, highly liquid investments that are readily convertible to known amounts of cash and are so near their maturity that they present insignificant risk of changes in value because of interest rates. Generally, only investments which, at the day of purchase, have a maturity date no longer than three months qualify under this definition.

For the purpose of the statement of cash flows, "cash and cash equivalents" include all demand, pooled cash account, and certificates of deposit with an original maturity of three months or less.

E. RECEIVABLES

Receivables consist of all revenues earned at year-end and not yet received.

F. INVENTORIES

Inventories for supplies are immaterial and are recorded as expenses when purchased.

GREATER KROTZ SPRINGS PORT COMMISSION
KROTZ SPRINGS, LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2021

NOTE (1) - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. CAPITAL ASSETS

All fixed assets are valued at historical cost. The Port maintains a threshold level of \$500 or more for capitalizing capital assets. The costs of normal maintenance and repairs that do not add to the value of that asset or materially extend the life of that asset are not capitalized. Depreciation of all exhaustible fixed assets is recorded as an allocated expense in the Statements of Revenues, Expenses, and Changes in Net Position, with accumulated depreciation reflected in the Statements of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Buildings	30 Years
Wharfs and docks	30 Years
Road and road improvements	30 Years
Boat launch	30 Years
Mooring dolphin	5 Years
Furniture and equipment	5 Years

H. COMPENSATED ABSENCES

Employees can accumulate up to 400 hours of sick leave; however, no payment is made for accrued and unused sick leave upon termination or retirement. Two weeks of annual leave is earned by each employee; however, any unused portion lapses at the end of the fiscal year.

I. EQUITY CLASSIFICATIONS

Equity is classified as net position and displayed in three components:

1. Net investment in capital assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction or improvement of those assets.
2. Restricted net position – Consist of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
3. Unrestricted net position – All other net position that do not meet the definition of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it's the Port's policy to use restricted resources first, then unrestricted resources as they are needed.

J. LEASE REVENUES

The Port's revenues include the leasing of land and improvements under cancelable operating leases. The leases are accounted for using the operating method whereby the amount of revenue recognized in each accounting period is equivalent to the amount of rent receivable according to the provisions of the lease. Unearned lease revenues consist of prepaid lease payments.

GREATER KROTZ SPRINGS PORT COMMISSION
KROTZ SPRINGS, LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2021

NOTE (1) - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

L. PENSIONS

For purposes of measuring the Net Pension Liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Louisiana State Employees' Retirement System (LASERS) and additions to/deductions from LASERS' fiduciary net position have been determined on the same basis as they are reported by LASERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

M. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

The Statement of Net Position reports a separate section for deferred outflows and (or) deferred inflows of financial resources. Deferred outflows of resources represent a consumption of net position that applies to future periods and will not be recognized as an outflow of resources (expense/expenditure) until the applicable period. Deferred inflows of resources represent an acquisition of net position that applies to future periods and will not be recognized as an inflow of resources until that time.

N. OTHER POST-EMPLOYMENT BENEFITS (OPEB)

The Greater Krotz Springs Port Commission does not provide any post-employment benefits to retirees other than pension and therefore is not required to report under GASB Statement No. 75, Accounting and Financial Reporting by Employers for Post-employment Benefits Other Than Pensions.

NOTE (2) - CASH AND INVESTMENTS

Louisiana statutes authorize the Port to invest in United States bonds, treasury notes or certificates, time certificates of deposit in state and national banks, or any other federally insured investment.

The carrying amount of the Port's cash and investments at June 30, 2021, was \$ 4,348,480. The bank balance of cash was \$195,253 and of investments was \$4,156,987 at June 30, 2021. Investments are stated at cost or amortized cost, which approximates market. Investments consist of time certificates of deposit and direct investment in the Louisiana Asset Management Pool (LAMP). Cash and certificates of deposits are fully secured through the pledge of bank-owned securities or federal deposit insurance. Investments in certificates of deposit at June 30, 2021, were \$3,600,000. The Louisiana Asset Management Pool (LAMP) is a cooperative endeavor designed to create a local government investment vehicle. The cooperative endeavor was created at the initiative of the Louisiana State Treasurer's Office.

GREATER KROTZ SPRINGS PORT COMMISSION
KROTZ SPRINGS, LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2021

NOTE (2) - CASH AND INVESTMENTS (Continued)

With investment advice provided by a professional investment manager and custody of the assets maintained by a major Louisiana bank, LAMP has been established to improve administrative efficiency and increase investment yield for all depositing members. Investment in LAMP at June 30, 2021, was \$556,987 LAMP is currently rated AAAM by Standard & Poor's Ratings Services.

Custodial credit risk for deposits is the risk that in the event of the failure of a depository financial institution, the Port's deposits may not be recovered or will not be able to recover collateral securities that are in the possession of an outside party. These deposits are stated at cost, which approximates market. Under state law these deposits (or the resulting bank balances) must be secured by federal deposit insurance or similar federal security or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

At June 30, 2021, \$500,000 of the bank balance was covered by FDIC insurance and \$3,295,253 was exposed to custodial credit risk. These deposits are uninsured but are collateralized with securities held by the pledging institutions' trust department or agent, but not in the Port's name. The Port does not have a policy for custodial credit risk.

NOTE (4) – GENERAL INFORMATION ABOUT THE PENSION PLAN

Plan Description –

All full-time employees of the Port are provided with pensions through a cost-sharing multiple-employer defined benefit plan administered by the Louisiana State Employees' Retirement System (LASERS). Section 401 of Title 11 of the Louisiana Revised Statutes (La. R.S. 11:401) grants to LASERS Board of Trustees and the Louisiana Legislature the authority to review administration, benefit terms, investments, and funding of the plan.

Benefits Provided –

The following is a description of the plan and its benefits and is provided for general information purposes only. Participants should refer to the appropriate statutes for more complete information.

1. Retirement Benefits

The age and years of creditable service required in order for a member to retire with full benefits are established by statute, and vary depending on the member's hire date, employer, and job classification. Our rank and file members hired prior to July 1, 2006, may either retire with full benefits at any age upon completing 30 years of creditable service, at age 55 upon completing 25 years of creditable service, and at age 60 upon completing ten years of creditable service depending on their plan. Those members hired between July 1, 2006 and June 30, 2015, may retire at age 60 upon completing five years of creditable service and those hire on or after July 1, 2015 may retire at age 62 upon completing five years of creditable service. The basic annual retirement benefit for members is equal to 2.5% to 3.5% of average compensation multiplied by the number of years of creditable service. Additionally, members may choose to retire with 20 years of service at any age, with an actuarially reduced benefit.

Average compensation is defined as the member's average annual earned compensation for the highest 36 consecutive months of employment for members employed prior to July 1, 2006. For members hired July 1, 2006 or later, average compensation is based on the member's average annual earned compensation for the highest 60 consecutive months of employment. The maximum annual retirement benefit cannot exceed the lesser of 100% of average compensation or a certain specified dollar amount of actuarially determined monetary limits, which vary depending upon the member's age at retirement. Judges, court officers, and certain elected officials receive an additional annual retirement benefit equal to 1.0% of average compensation multiplied by the number of years of creditable service in their respective capacity. As an alternative to the basic retirement benefits, a member may elect to receive their retirement throughout their life, with certain benefits being paid to their designated beneficiary after their death.

Act 992 of the 2010 Louisiana Regular Legislative Session, changed the benefit structure for LASERS members hired on or after January 1, 2011. This resulted in three new plans: regular, hazardous duty, and judges. The new regular plan includes regular members and those members who were formerly eligible to participate in specialty plans, excluding hazardous duty and judges. Regular members and judges are eligible to retire at age 60 after five years of creditable service and, may also retire at any age, with a reduced benefit, after 20 years of creditable service. Hazardous duty members are eligible to retire with twelve years of creditable service at age 55, 25 years of creditable service at any age or with a reduced benefit after 20 years of creditable service. Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment for all three new plans.

GREATER KROTZ SPRINGS PORT COMMISSION
KROTZ SPRINGS, LOUISIANA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2021

NOTE (4) - GENERAL INFORMATION ABOUT THE PENSION PLAN (Continued)

Members in the regular plan will receive a 2.5% accrual rate, hazardous duty plan a 3.33% accrual rate, and judges a 3.5% accrual rate. The extra 1.0% accrual rate for each year of service for court officers, the governor, lieutenant governor, legislators, House clerk, sergeants at arms, or Senate secretary, employed after January 1, 2011, was eliminated by Act 992. Specialty plan and regular members, hired prior to January 1, 2011, who are hazardous duty employees have the option to transition to the new hazardous duty plan.

Act 226 of the 2014 Louisiana Regular Legislative Session established new retirement eligibility for members of LASERS hired on or after July 1, 2015, excluding hazardous duty plan members. Regular members and judges under the new plan are eligible to retire at age 62 after five years of creditable service and, may also retire at any age, with a reduced benefit, after 20 years of creditable service. Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment. Members in the regular plan will receive a 2.5% accrual rate, and judges a 3.5% accrual rate, with the extra 1.0% accrual rate based on all years of service as a judge.

Members of the Harbor Police Retirement System who are members prior to July 1, 2014, may retire after 25 years of creditable service at any age, 12 years of creditable service at age 55, 20 years of creditable service at age 45, and 10 years of creditable service at age 60. Average compensation for the plan is the member's average annual earned compensation for the highest 36 consecutive months of employment, with a 3.33% accrual rate.

A member leaving employment before attaining minimum retirement age, but after completing certain minimum service requirements, becomes eligible for a benefit provided the member lives to the minimum service retirement age, and does not withdraw their accumulated contributions. The minimum service requirement for benefits varies depending upon the member's employer and service classification.

2. Deferred Benefits

The State Legislature authorized LASERS to establish a Deferred Retirement Option Plan (DROP). When a member enters DROP, their status changes from active member to retiree even though they continue to work and draw their salary for a period of up to three years. The election is irrevocable once participation begins. During DROP participation, accumulated retirement benefits that would have been paid to each retiree are separately tracked. For members who entered DROP prior to January 1, 2004, interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero) will be credited to the retiree after participation ends. At that time, the member must choose among available alternatives for the distribution of benefits that have accumulated in the DROP account. Members who enter DROP on or after January 1, 2004, are required to participate in LASERS Self-Directed Plan (SDP) which is administered by a third-party provider. The SDP allows DROP participants to choose from a menu of investment options for the allocation of their DROP balances. Participants may diversify their investments by choosing from an approved list of mutual funds with different holdings, management styles, and risk factors.

NOTE (4) - GENERAL INFORMATION ABOUT THE PENSION PLAN (Continued)

2. Deferred Benefits (Continued)

Members eligible to retire and who do not choose to participate in DROP may elect to receive at the time of retirement an initial benefit option (IBO) in an amount up to 36 months of benefits, with an actuarial reduction of their future benefits. For members who selected the IBO option prior to January 1, 2004, such amount may be withdrawn or remain in the IBO account earning interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero). Those members who select the IBO on or after January 1, 2004, are required to enter the SDP as described above.

For members who are in the Harbor Police Plan, the annual DROP Interest Rate is the three-year average (calculated as the compound average of 36 months) investment return of the plan assets for the period ending the June 30th immediately preceding that given date. The average rate so determined is to be reduced by a "contingency" adjustment of 0.5%, but not to below zero. DROP interest is forfeited if member does not cease employment after DROP participation.

3. Disability Benefits

Generally, active members with ten or more years of credited service who become disabled may receive a maximum disability retirement benefit equivalent to the regular retirement formula without reduction by reason of age.

Upon reaching retirement age, the disability retiree may receive a regular retirement benefit by making application to the Board of Trustees.

For injuries sustained in the line of duty, hazardous duty personnel in the Hazardous Duty Services Plan will receive a disability benefit equal to 75% of final average compensation or 100% of final average compensation if the injury was the result of an intentional act of violence.

Members of the Harbor Police Retirement System who become disabled may receive a non-line of duty disability benefit after five years or more of credited service. Members age 55 or older may receive a disability benefit equivalent to the regular retirement benefit. Under age 55, the disability benefit is equal to 40% of final average compensation. Line of duty disability benefits are equal to 60% of final average compensation, regardless of years of credited service or 100% of final average compensation if the injury was the result of an intentional act of violence. If the disability benefit retiree is permanently confined to a wheelchair, or, is an amputee incapable of serving as a law enforcement officer, or the benefit is permanently legally binding, there is no reduction to the benefit if the retiree becomes gainfully employed.

4. Survivor's Benefits

Certain eligible surviving dependents receive benefits based on the deceased member's compensation and their relationship to the deceased. The deceased regular member hired before January 1, 2011 who was in state service at the time of death must have a minimum of five years of service credit, at least two of which were earned immediately prior to death, or who had a minimum of twenty years of service credit regardless of when earned in order for a benefit to be paid to a minor or handicapped child. Benefits are payable to an unmarried child until age 18, or age 23 if the child remains a full-time student. The aforementioned minimum service credit requirement is ten years for a surviving spouse with no minor children, and benefits are to be paid for life to the spouse or qualified handicapped child.

4. Survivor's Benefits (Continued)

The deceased regular member hired on or after January 1, 2011, must have a minimum of five years of service credit regardless of when earned in order for a benefit to be paid to a minor child. The aforementioned minimum service credit requirements for a surviving spouse are 10 years, 2 years being earned immediately prior to death, and active state service at the time of death, or a minimum of 20 years of service credit regardless of when earned. A deceased member's spouse must have been married for at least one year before death.

A Hazardous Duty Services Plan member's surviving spouse and minor or handicapped or mentally incapacitated child or children are entitled to survivor benefits of 80% of the member's final average compensation if the member was killed in the line of duty. If the member dies in the line of duty as a result of an intentional act of violence, survivor benefits may be increased to 100% of the member's final average compensation.

Non-line of duty survivor benefits of the Harbor Police Retirement System may be received after a minimum of five years of credited service. Survivor benefits paid to a surviving spouse without children are equal to 40% of final average compensation, and cease upon remarriage. Surviving spouse with children under 18 benefits are equal to 60% of final average compensation, and cease upon remarriage, and children turning 18. No minimum service credit is required for line of duty survivor benefits which are equal to 60% of final average compensation to surviving spouse, regardless of children. Line of duty survivor benefits cease upon remarriage, and then benefit is paid to children under 18.

5. Permanent Benefit Increases/Cost-of-Living Adjustments

As fully described in Title 11 of the Louisiana Revised Statutes, the System allows for the payment of permanent benefit increases, also known as cost-of-living adjustments (COLAs), that are funded through investment earnings when recommended by the Board of Trustees and approved by the State Legislature.

Contributions

Contribution requirements of active employees are governed by Section 401 of Title 11 of the Louisiana Revised Statutes (La. R.S. 11:401) and may be amended by the Louisiana Legislature. Employee and employer contributions are deducted from a member's salary and remitted to LASERS by participating employers.

The agency's contractually required composite contribution rate for the year ended June 30, 2021, was 40.1% of annual payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any Unfunded Actuarial Accrued Liability. Contributions to the pension plan from the Agency were \$43,593 for the year ended June 30, 2021.

NOTE (5) -PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS

At June 30, 2021, the Employer reported a liability of \$ 457,699 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2020 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date. The Agency's proportion of the Net Pension Liability was based on a projection of the Agency's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2020, the Agency's proportion was 0.00553%, which was a decrease of 0.00029% from its proportion measured as of June 30, 2019.

For the year ended June 30, 2021, the Agency recognized pension expense of \$58,973 plus employer's amortization of change in proportionate share and differences between employer contributions and proportionate share of contributions and deferred outflows and inflows or resources, (\$42,208).

At June 30, 2021, the Agency reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows</u>	<u>Deferred Inflows</u>
Differences between expected and actual experience	\$ -	\$ 4,396
Changes of assumptions	1,464	-
Net difference between projected and actual earnings on pension plan investments	66,907	-
Changes in proportion and differences between Employer contributions and proportionate share of contributions and deferred outflows and inflows of resources	2,457	12,377
Employer contributions subsequent to the measurement date	<u>43,593</u>	<u>-</u>
Total	<u>114,421</u>	<u>16,773</u>

\$43,593 reported as deferred outflows of resources related to pensions resulting from Agency contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2021.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year ended June 30:</u>	
2021	\$ (1,400)
2022	19,295
2023	20,676

Actuarial Assumptions

A summary of the actuarial methods and assumptions used in determining the total pension liability as of June 30, 2020, are as follows:

Valuation Date	June 30, 2020		
Actuarial Cost Method	Entry Age Normal		
Actuarial Assumptions:			
Expected Remaining			
Service Lives	2 years		
Investment Rate of Return	7.55% per annum, net of investment expenses*		
Inflation Rate	2.3% per annum		
Mortality	Non-disabled members - The RP-2014 Blue Collar (males/females) and White Collar (females) Healthy Annuitant Tables projected on a fully generational basis by Mortality Improvement Scale MP-2018.		
	Disabled members - Mortality rates based on the RP-2000 Disabled Retiree Mortality Table, with no projection for mortality improvement.		
Termination, Disability, and Retirement	Termination, disability, and retirement assumptions were projected based on a five-year (2014-2018) experience study of the System's members for 2019.		
Salary Increases	Salary increases were projected based on a 2014-2018 experience study of the System's members.		
		Lower	Upper
	<u>Member Type</u>	<u>Range</u>	<u>Range</u>
	Regular	3.0%	12.8%
	Judges	2.6%	5.1%
	Corrections	3.6%	13.8%
	Hazardous Duty	3.6%	13.8%
	Wildlife	3.6%	13.8%
Cost of Living Adjustments	The present value of future retirement benefits is based on benefits currently being paid by the System and includes previously granted cost of living increases. The projected benefit payments do not include provisions for potential future increases not yet authorized by the Board of Trustees as they were deemed not to be substantively automatic.		

* The investment rate of return used in the actuarial valuation for funding purposes was 7.90%, recognizing an additional 35 basis points for gain-sharing. The net return available to fund regular plan benefits is 7.55%, which is the same as the discount rate. Therefore the System's management concludes that the 7.55% discount is reasonable.

NOTE (5) - PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS
(Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.3% and an adjustment for the effect of rebalancing/diversification. The resulting expected long-term rate of return is 8.5% for June 30, 2020.

The discount rate used to measure the total pension liability was 7.55%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that employer contributions from participating employers will be made at actuarially determined rates approved by PRSAC taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the participating employers calculated using the discount rate of 7.55%, as well as what the employers' net pension liability would be if it were calculated using a discount rate that is one percentage point lower, or one percentage point higher than the current rate.

	<u>1.0% Decrease</u> <u>(6.55%)</u>	<u>Current Discount</u> <u>Rate (7.55%)</u>	<u>1.0% Increase</u> <u>(8.55%)</u>
Employer's proportionate share of the net pension liability	\$ 562,034	\$ 457,699	\$ 368,547

A summary of current leases follows:

Cabot Corporation

On April 5, 1993, (amended on September 13, 1993), the Port entered into a lease with Cabot Corporation for the use of 5.58 acres of land, more or less, which includes a basic rent and one cent per barrel for all material, either incoming or outgoing, moved across the dock. The Port also granted several easements, servitudes, rights-of-way, rights of passage, etc. for Cabot Corporation to conduct its business. The term of the lease is for 5 years from April 5, 1993 with Cabot Corporation having the option to extend the lease on the same terms for 4 additional 5 year terms, unless giving notice in writing to the Port 60 days in advance of the end of a particular 5 year term to renew. (The lease was in its fourth renewal period, which extended the lease until April 5, 2018.)

The lease extension for Cabot Corporation ending April 5, 2018 was reviewed and a new lease agreement was entered into. The term of the lease is for 5 years, commencing on April 5, 2018 and ending on April 4, 2023, with Cabot Corporation having the option to extend the lease on the same terms for 4 additional 5 year terms, unless giving notice in writing to the Port 60 days in advance of the end of a particular 5 year term to renew.

Cabot Corporation guarantees a 30,000-barrel minimum per month throughput, said one cent per barrel charge to accrue on October 1, 1993, and shall be due on a calendar month basis thereafter. Cabot Corporation shall furnish to the Port a monthly throughput report no later than 30 days following the end of the month covered by each report. The additional rent shall be adjusted at the beginning of each option year to reflect the increase in the U.S. Department of Labor, Bureau of Labor Statistics, Consumer Price Index for all Urban Consumers (CPI-U), South Region.

Lease and tonnage revenue for the fiscal year ended June 30, 2021 for Cabot Corporation was \$17,750.

**INDEPENDENT ACCOUNTANT'S REPORT
 ON APPLYING AGREED-UPON PROCEDURES**

To the Board of Directors
 Greater Krotz Springs Port Commission
 Krotz Springs, Louisiana

We have performed the procedures enumerated below on the Greater Krotz Springs Port Commission's compliance with certain laws and regulations contained in the accompanying Louisiana Attestation Questionnaire during the fiscal year ended June 30, 2021, as required by Louisiana Revised Statute 24:513 and the Louisiana Governmental Audit Guide. The Port's management is responsible for its financial records and compliance with applicable laws and regulations.

The Port has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of the engagement, which is to perform specified procedures on the Port's compliance with the laws and regulations contained in the accompanying Louisiana Attestation Questionnaire during the fiscal year ended June 30, 2021. Additionally, the Louisiana Legislative Auditor has agreed to and acknowledged that the procedures performed are appropriate for its purposes. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and associated findings are as follows:

Public Bid Law

1. Obtain documentation for all expenditures made during the year for materials and supplies exceeding \$30,000, and public works exceeding \$250,000. Compare the documentation for these expenditures to Louisiana Revised Statute (R.S.) 39:1551-39:1775 (the state procurement code); R.S. 38:2211-2296 (the public bid law), or the regulations of the Division of Administration and the State Purchasing Office, whichever is applicable; and report whether the expenditures were made in accordance with these laws.

No expenditures were made during the year for materials and supplies exceeding \$30,000 or public works exceeding \$250,000.

Code of Ethics for Public Officials and Public Employees

2. Obtain a list of the immediate family members of each board member as defined by R.S. 42:1101-1124 (the ethics law).

Management provided us with the requested information.

To the Board of Directors
 Greater Krotz Springs Port Commission

3. Obtain a list of all employees paid during the fiscal year.

Management provided us with the requested information.

4. Report whether any employees' names appear on both lists obtained in Procedures 2 and 3.

None of the employees included on the list provided by management for agreed-upon Procedure 3 appeared on the list provided by management for agreed-upon Procedure 2.

5. Obtain a list of all disbursements made during the year; and a list of outside business interests of board members, employees, and board members' and employees' immediate families. Report whether vendors appear on both lists.

Management provided the requested information. None of the businesses of board members, employees, and board members' and employees' immediate families appeared as vendors on the list of disbursements.

Budgeting

6. Obtain a copy of the legally adopted budget and all amendments.

Greater Krotz Springs Port Commission's operations are accounted for in a Proprietary Fund, which is not required to adopt a budget.

7. Trace documentation for the adoption of the budget and approval of any amendments to the minute book, and report whether there are any exceptions.

Greater Krotz Springs Port Commission's operations are accounted for in a Proprietary Fund, which is not required to adopt a budget.

8. Compare the revenues and expenditures of the final budget to actual revenues and expenditures. Report whether actual revenues failed to meet budgeted revenues by 5% or more, and whether actual expenditures exceed budgeted amounts by 5% or more.

Greater Krotz Springs Port Commission's operations are accounted for in a Proprietary Fund, which is not required to adopt a budget.

Accounting and Reporting

9. Obtain the list of all disbursements made during the fiscal year. Randomly select six disbursements and obtain documentation from management for these disbursements. Compare the selected disbursements to supporting documentation, and:

(a) Report whether the six disbursements agree to the amount and the payee in the supporting documentation.

Each of the six selected disbursements agreed with the amount and payee in the supporting documentation.

(b) Report whether the six disbursements were coded to the correct fund and general ledger account.

The payments were properly coded to the correct fund and all six disbursements were coded to the correct general ledger account.

To the Board of Directors
Greater Krotz Springs Port Commission
Page 3

(c) Report whether the six disbursements were approved in accordance with management's policies and procedures.

Inspection of documentation supporting each of the six selected disbursements indicated the proper approval according to the Board's current policy. The current policy is that the Executive Director signs or initials the invoice for approval and one of the Board Commissioners that has signature authority signs the check.

Meetings

10. Obtain evidence from management to support that agendas for meetings recorded in the minute book were posted or advertised as required by R.S. 42:11 through 42:28 (the open meetings law); and report whether there are any exceptions.

Agendas for all meetings were posted. We examined copies of agendas kept with meeting minutes.

Debt

11. Obtain bank deposit slips for the fiscal year and scan the deposit slips in order to identify and report whether there are any deposits that appear to be proceeds of bank loans, bonds, or like indebtedness. If any such proceeds are identified, obtain from management evidence of approval by the State Bond Commission, and report any exceptions.

We inspected copies of all bank deposit slips for the period under examination and noted no deposits which appeared to be proceeds of bank loans, bonds, or like indebtedness.

Advances and Bonuses

12. Obtain the list of payroll disbursements and meeting minutes of the governing board, if applicable. Scan these documents to identify and report whether there are any payments or approval of payments to employees that may constitute bonuses, advances, or gifts.

A reading of the minutes of the Port for the year indicated no such payments or approval of payments to employees. We also inspected payroll disbursements and records for the year and noted no instances which would indicate payments to employees which would constitute bonuses, advances, or gifts.

State Audit Law

13. Report whether the agency provided for a timely report in accordance with R.S. 24:513.

The Port's report was submitted before the due date of December 31, 2021.

14. Inquire of management and report whether the agency entered into any contracts that utilized state funds as defined in R.S. 39:72.1 A. (2); and that were subject to the public bid law (R.S. 38:2211, et seq.), while the agency was not in compliance with R.S. 24:513 (the audit law).

The Port did not enter into any contracts that utilized state funds nor were subject to the public audit law.

Prior-Year Comments

15. Obtain and report management's representation as to whether any prior-year suggestions, exceptions, recommendations, and/or comments have been resolved.

Our prior year report, dated December 7, 2020 did not include any suggestions, exceptions, recommendations, or comments.

We were engaged by the Port to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants, and the standards applicable to attestation engagements contain in Government Auditing Standards, issued by the United States Comptroller General. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on the Port's compliance with the foregoing matters. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the Port and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely to describe the scope of testing performed on the Greater Krotz Springs Port Commission's compliance with certain laws and regulations contained in the accompanying Louisiana Attestation Questionnaire, as required by Louisiana Revised Statute 24:513 and the Louisiana Governmental Audit Guide, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document.
