**INDEPENDENT AUDITOR'S REPORT**

To the Board of Commissioners,  
South Central Planning & Development Commission, Inc.,  
Houma, Louisiana.

We have audited the accompanying financial statements of the governmental activities, the business-type activities and each major fund of the South Central Planning & Development Commission, Inc. (the "Commission") as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements as listed in the table of contents.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities and each major fund of the South Central Planning & Development Commission, Inc., as of June 30, 2018, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the General Fund, Loan Fund, and Grant Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedule of the Commission's Proportionate Share of the Net Pension Liability and Schedule of Commission Contributions on pages 4 through 13, 55 and 56, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## **Other Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Commission's financial statements as a whole. The listings of Principal Officials on pages v and vi and Combining Balance Sheets and Combining Statements of Revenues, Expenditures and Changes in Fund Balances - Loan Programs and Grant Programs and Schedule of Compensation Benefits and Other Payments to Agency Head or Chief Executive Office, on pages 57 through 69, are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying Schedule of Expenditures of Federal Awards, on pages 75 through 76, is presented for purposes of additional analysis as required by *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Costs Principles and Audit Requirements for Federal Awards (Uniform Guidance)* and is also not a required part of the basic financial statements.

The Combining Balance Sheets and Combining Statements of Revenues, Expenditures and Changes in Fund Balance - Loan Programs and Grant Programs, Schedule of Compensation, Benefits and Other Payments to Agency Head or Chief Executive Officer and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The listing of Principal Officials has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

### **Other Reporting Required by Government Auditing Standards**

In accordance with Government Auditing Standards, we have also issued our report dated December 20, 2018 on our consideration of South Central Planning & Development Commission, Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering South Central Planning & Development Commission's internal control over financial reporting and compliance.

*Bourgeois Bennett, L.L.C.*

Certified Public Accountants.

Houma, Louisiana,  
December 20, 2018.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

### **South Central Planning and Development Commission, Inc.**

The Chief Executive Officer and Chief Administrative Officer are responsible for the overview and analysis of the financial activities of South Central Planning & Development Commission, Inc. (the Commission) for the year ended June 30, 2018. The narrative provided is designed to introduce the financial highlights and offer an overview of our financial statements.

Management's Discussion and Analysis (MD&A) is designed to focus on the current year's activities, resulting changes and facts known to date. This narrative includes a government-wide financial analysis of revenues, expenses and changes in the net position. Further detail offers our readers a financial analysis of the Commission's funds consisting of the governmental fund types and proprietary funds.

### **FINANCIAL HIGHLIGHTS**

Assets and deferred outflows of resources of the Commission exceeded its liabilities and deferred inflows of resources at June 30, 2018 by approximately \$34,420,000 (net position). As of June 30, 2018, net position included approximately \$30,524,000 of net position restricted to the loan program assets. Net investment in capital assets amounted approximately \$5,046,000 as of June 30, 2018. The remaining unrestricted net position of the Commission is in deficit by approximately \$1,150,000.

The Commission's total unrestricted deficit net position is due to the business-type activities being in a deficit net position of approximately \$1,282,000 as of June 30, 2018. The Commission's unrestricted net position of governmental activities was approximately \$131,000 as of June 30, 2018.

The Commission's governmental activities' change in net position was an increase of approximately \$16,079,000 for the year ended June 30, 2018 and business-type activities was a decrease approximately \$34,000 for the year ended June 30, 2018.

### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to South Central Planning & Development Commission's basic financial statements. South Central Planning & Development Commission's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains supplementary information in addition to the basic financial statements themselves.

## **Government-Wide Financial Statements**

The government-wide financial statements, reported in Exhibits A and B, are designed to be similar to private-sector businesses in that all governmental and business-type activities are consolidated into columns which add to a total for the primary government. These statements combine governmental funds' current financial resources with capital assets and long-term obligations. Also presented in the government-wide financial statements is a column for the business-type activities of the primary government.

The Statement of Net Position, reported in Exhibit A, presents information on all the Commission's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Commission is improving or deteriorating.

The Statement of Activities, reported in Exhibit B, presents information showing how the government's net position changed during the most recent fiscal year. All changes in the assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods. For example, earned but unused vacation leave result in cash flows for future periods. The focus of the Statement of Activities is on both the gross and net cost of various activities, which are provided by the government's general dues assessment and other revenues. This is intended to summarize information and simplify the user's analysis of costs of various governmental services and business-type activities.

## **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Traditional users of governmental financial statements will find the fund financial statements presentation more familiar. The focus of the fund financial statements is on major funds, rather than generic fund types. All funds of the Commission can be divided into two categories: governmental funds and proprietary funds.

**Governmental Funds** are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. The governmental major fund presentation in Exhibits C through I is presented on a sources and uses of liquid resources basis. This is the manner in which the financial budget is typically developed. Unlike the government-wide financial statements, governmental fund financial statements focus on near-term outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's current financing requirements. The Commission has five governmental funds and each is presented as major funds: General Fund, Loan Fund, Grant Fund, Capital Projects Fund, and the Debt Service Fund.

## **Fund Financial Statements (Continued)**

**Proprietary Funds** include enterprise funds on the fund financial statements illustrated in Exhibits J through L. Enterprise funds are used to account for operations financed and operated in a manner similar to private business enterprises. The enterprise funds are presented as major funds - the Regional Building Code Fund and the Information Technology Fund.

While the business-type fund financial statements for the enterprise fund (See Exhibits J through L) is the same as the business-type column, the government-wide financial statement and the governmental funds total column requires a reconciliation because of the different measurement focus which is reflected on the page following each governmental fund statement (see Exhibits D and F). The flow of current financial resources reflects inter-fund transfers as other financial sources and uses as well as capital outlay expenditures. The reconciliation will eliminate these transactions and incorporate the capital assets and long-term obligations into the governmental activities column in the government-wide statements.

## **Capital Assets**

General capital assets include buildings, furniture, fixtures and equipment and intangible assets that are used in operations and exceed the Commission's capitalization threshold, as explained in Note 1h) Exhibit M. Accumulated depreciation and amortization is recorded for the life span of the asset.

## **Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are a required part of the financial statements and can be found in Exhibit M of this report.

## **Required Supplementary Information**

The required supplementary information presented immediately following the notes to the financial statements in Exhibits N and O presents the Schedule of the Commission's Proportionate Share of Net Pension Liability and the Schedule of Commission's Contributions for the Municipal Employees Retirement System of Louisiana (MERS).

## **Supplementary Information**

Schedules 1 through 4 of this report present the Combining Balance Sheet of Loan and Grant Programs and Combining Statements of Revenues, Expenditures and Changes in Fund Balance for the various loan and grant programs. Schedule 5 presents a Schedule of Compensation, Benefits and Other Payments to the Commission's Agency Head or Chief Executive Officer.

## Reports Required by Government Auditing Standards and the Uniform Guidance

Also included in the report are special auditor reports on internal control over financial reporting, compliance and other matters, findings and schedules as required by *Government Auditing Standards* and *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. *Uniform Guidance* requires a Schedule of Expenditures of Federal Awards. The Schedule of Expenditures of Federal Awards, Schedule 6, presents required information about the Commission's federally funded programs in a manner that can facilitate financial compliance analysis by agencies that have granted Federal money to the Commission.

## Government-Wide Financial Analysis

The table below reflects the condensed Statement of Net Position at June 30, 2018 with comparative figures from June 30, 2017:

**TABLE A-1**

**Government-Wide Financial Analysis (Continued)**

The increase in current and other assets is primarily due to the Commission's administration of the Restore Louisiana Small Business Loan Program. This loan program is responsible for the issuance of \$17,342,000 new loans to small business impacted by the 2016 flood. In addition, business activities capitalized approximately \$313,000 of software development costs as intangible assets. Deferred outflows of resources and long-term liabilities decreased primarily due to accounting for the Commission's proportionate share of pension liability in MERS Plan B.

For more detailed information see Exhibit A, the Statement of Net Position.

Approximately 14.66% of the Commission's net position as of June 30, 2018, reflect the Commission's net investment in capital assets (buildings, furniture, fixtures, equipment and intangible assets), 88.68% is restricted for the loan program, and the unrestricted net position is a deficit of 3.34% of total net position.

The table below provides a summary of the changes in net position for the year ended June 30, 2018, with comparative figures from June 30, 2017:

**TABLE A-2**  
**Condensed Statement of Changes in Net Position**  
**(in Thousands)**

## Government-Wide Financial Analysis (Continued)

The Commission's net position increased by approximately \$16,045,000 during the current fiscal year.

*Governmental Activities* net position increased approximately \$16,079,000, primarily due to operating grant revenue received related to the Restore Louisiana Small Business Loan Program.

Economic development expenses decreased in 2018 primarily because the Commission decreased the provision for loan loss by \$847,000 in 2018. Offsetting the decrease in loan losses were increases in personal services and other costs of approximately \$491,000 related to the Restore Louisiana Small Business Loan Program.

*Business-Type Activities* net position decreased by approximately \$34,000, primarily due to higher economic development and assistance expenses. The current year's change in net position for Information Technology Fund was a decrease of approximately \$18,000, while the continuing operation of the Regional Building Code Fund decreased the change in net position by approximately \$16,000.

## Financial Analysis of the Commission's Funds

The Commission uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

### Governmental Funds:

The focus of the Commission's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Commission's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. The combined fund balance of the Commission's governmental funds at June 30, 2018 was approximately \$31,778,000 as compared to \$15,495,000 at June 30, 2017, an increase of approximately \$16,283,000. The increase in the governmental funds' fund balance is primarily due to the operating grant revenue recognized in the Loan Fund as previously described.

Revenues for the Commission's governmental funds for the year ended June 30, 2018 was approximately \$21,780,000. There are four funding categories: intergovernmental (93.03%), charges for services (4.72%), interest earned (1.50%), and miscellaneous (.75%). The Commission's governmental fund expenditures were approximately \$5,615,000 for the year ended June 30, 2018. There are nine categories of expenditures: provision for doubtful loans (31.72%), personal services (38.63%), supplies and materials (1.69%), other services and charges (22.03%), grant distributions (4.06%), repairs and maintenance (0.29%), debt service (0.75%) and capital expenditures (.83%).

## Financial Analysis of the Commission's Funds (Continued)

### Governmental Funds: (Continued)

A decrease in capital expenditures of approximately \$609,000 was primarily due nonrecurring prior year construction expenses associated with the addition to the administration building. Provision for doubtful loans decreased by approximately \$847,000. Grant disbursements decreased by approximately \$78,000. Other services and charges increased by approximately \$294,000 and the increase was lead by the recognition of expenses for loan administration. The personal services category increased approximately \$195,000 due to ramping up for the Restore Louisiana Small Business Loan Program.

### Fund Analysis

#### General Fund:

The General Fund is the chief operating fund of the Commission. At the end of the current fiscal year, the total fund balance of the General Fund was approximately \$1,166,000. Of this amount, approximately \$43,000 was non-spendable and the remainder of fund balance, approximately \$1,122,000, is unassigned. During the current fiscal year, the fund balance of the Commission's General Fund, decreased by approximately \$16,000 (Exhibit E).

#### Loan Fund:

The Commission maintains ten loan programs. The loan programs are federally funded. The expenditures consist of provisions for doubtful loans (59.05%), other charges and services (15.25%), personal services (22.98%), and other expenditures (2.72%).

#### Capital Projects Fund:

During the current year, the Commission expended approximately \$23,000 wrapping up the new addition to the administration building.

#### Grant Fund:

The Commission maintains fourteen individual grant programs. These programs are generally reimbursed by federal/state grants. Expenditures in excess of the grants are covered by transfers from the General Fund.

#### Proprietary Funds:

The Commission's proprietary funds, the Regional Building Code Fund and the Information Technology Fund provide the same type of information found in the government-wide financial statements, but in more detail.

### **Fund Analysis (Continued)**

Unrestricted net position of the Regional Building Code Fund and at June 30, 2018 amounted to a deficit of approximately \$421,000 (Exhibit J). This fund is used to account for revenues and expenses associated with the Commission's regional building inspection activities. This fund encompasses all assets associated with its operation. Net investment in capital assets, furniture, fixtures, equipment and intangibles, at the end of the current fiscal year totaled approximately \$109,000 (Exhibit J). During the year ended June 30, 2018, the Regional Building Code Fund recognized a net operating loss of approximately \$16,000 primarily due to an increase in transfers out to the General Fund.

Unrestricted net position of the Information Technology Fund at June 30, 2018 amounted to a deficit of approximately \$861,000 (Exhibit J). This fund is used to account for revenues and expenses associated with the Commission's informational technology activities. This fund encompasses all assets associated with its operation. Net investment in capital assets, furniture fixtures, equipment and intangibles, at the end of the current fiscal year totaled approximately \$1,182,000 (Exhibit J). During the year ended June 30, 2018, the Information Technology Fund recognized a decrease change in net position of approximately \$18,000 due to increase in its personal service expenses for other charges and services.

### **Budgetary Highlights**

Budgets are presented to the Board of Commissioners and adopted as required by Louisiana Revised Statutes. As needed budget adjustments are made to account for any significant deviation from beginning year projections. The major difference between the original General Fund budget and the final amended budget was for a decrease in personal services due to projected in cuts in administration. Other significant differences between the original and final General Fund budget was an increase of approximately \$58,000 in other services and charges.

Budgets are also presented for the Commission's special revenue funds: the Loan Fund and Grant Fund. Differences in the original and final Loan Fund budget were increases in the provision for loan loses and decreases in operating transfers out. Grant Fund had significant declines from the original budget to the final budget in intergovernmental revenue and personal services.

### **Capital Asset and Long-Term Obligations**

The Commission's net investment in capital assets for its governmental and business-type activities as of June 30, 2018, amounts to approximately \$5,153,000 (net of accumulated depreciation). This net investment in capital assets includes buildings, furniture, fixtures, equipment, and intangible assets as shown in Table A-3. This amount represents a net increase of approximately \$142,000 over last year. The increase was primarily for software development costs capitalized for approximately \$313,000 in business activities of the Information Technology Fund.

Additional information on the Commission's capital assets can be found in Note 5, Exhibit M of this report.

Long-term obligations of the Commission as of June 30, 2018 consisted of net pension liability, certificates of indebtedness and compensated absences.

On May 14, 2014, the Commission issued \$250,000 of Certificates of Indebtedness, Series 2014A for the purpose of making capital improvements. The certificates mature through May 1, 2021 with an interest rate of 4.50%. Interest payments are due quarterly and principal payments are made annually on May 1. The balance of outstanding certificates as of June 30, 2018 was approximately \$107,000.

The Commission awards permanent full-time employees paid vacation time that varies depending upon the years of service. Earned but unused vacation time vests with the employee and is paid upon termination. Accrued vacation time is accounted as a long-term obligation of the Commission. As of June 30, 2018 the Commission recognized approximately \$163,000 (\$126,000 current), \$87,000 in governmental activities and \$76,000 in business-type activities of accrued vacation pay.

Also in the fiscal year ended June 30, 2015, the Commission implemented Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions*, which required recognition of the Commission's proportionate share of the net pension liability of its pension plan, the Municipal Employees Retirement System of Louisiana (MERS). As of June 30, 2018 the Commission's proportionate share of the net pension liability amounted to approximately \$3,232,000, \$1,591,000 and \$1,641,000 in governmental activities and business-type activities, respectively. During the year ended June 30, 2018, the Commission experienced a decrease in its proportionate share of the net pension liability of approximately \$139,000, with \$141,000 of the decrease in business-type activities.

### **Capital Asset and Long-Term Obligations (Continued)**

Additional information on the Commission's long-term debt can be found in Note 7, Exhibit M of this report.

### **Economic Factors and Next Year's Budget and Rates**

The Board of Commissioners and management considered many factors when setting the fiscal year 2019 budget. These factors include any unusual conditions, one time expenditures and increases in rates or fees that occurred during the 2018 fiscal year or that have already been announced for the 2019 fiscal year.

General Fund revenues for fiscal year 2019 are projected to be approximately \$537,000, a decrease of approximately \$404,000 under the 2018 fiscal year revenues. Budgeted expenditures are expected to increase approximately \$68,000 in comparison to the 2018 fiscal year expenditures. Special revenue fund revenues are expected to decrease \$9,570,000 in comparison to fiscal year 2018. Budgeted expenditures of special revenue funds are expected to decrease approximately \$2,571,000 compared to 2018 expenditures. The General Fund's fund balance is budgeted for an increase of approximately \$45,000, while the special revenue fund balance is budgeted at approximately \$4,974,000.

### **Requests for Information**

This financial report is designed to provide a general overview of the Commission's finances for all those with an interest in the Commission's finances. If you have any questions about this report or need additional financial information, contact South Central Planning and Development Commission, 5058 West Main Street, Houma, Louisiana 70360 or P.O. Box 1870, Gray, Louisiana 70359. General information relating to the Commission can be found at the Commission's website, [scpdc.org](http://scpdc.org)

**RECONCILIATION GOVERNMENTAL FUNDS OF  
THE STATEMENT OF REVENUES, EXPENDITURES, AND  
CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES**

**South Central Planning & Development Commission, Inc.**

For the year ended June 30, 2018

**Net Change in Fund Balances - Total Governmental Funds** **\$ 16,283,290**

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures.

However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense

Capital outlay	\$ 46,467	
Depreciation expense	<u>(114,096)</u>	(67,629)

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction however as an effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.

Principal payments		35,714
--------------------	--	--------

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.

Pension expense	(163,262)	
Increase in compensated absences	<u>(9,126)</u>	<u>(172,388)</u>

**Change in Net Position of Governmental Activities** **\$ 16,078,987**

See notes to financial statements.

**NOTES TO FINANCIAL STATEMENTS****South Central Planning & Development Commission, Inc.**

June 30, 2018

**Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accounting policies of the South Central Planning & Development Commission, Inc. (the Commission) conform to accounting principles generally accepted in the United States of America (GAAP) as applied to special districts as prescribed by the Governmental Accounting Standards Board (GASB), the accepted standard setting body for establishing governmental accounting and financial reporting principles. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this note.

**a) Reporting Entity**

The Commission was created under enabling legislation of the State of Louisiana and incorporated under the provisions of Louisiana Revised Statutes 12:201 et., seq., as amended in 1968; provided, however, that its activities shall be consistent with the powers, duties, rights and liabilities as may be deemed necessary or proper to accomplish the purposes of a regional planning or an economic development district and are for charitable, educational and scientific research purposes.

The Commission although governed by a Board of Commissioners who are directly appointed by the governing bodies of the municipalities and parishes, of which it serves, is considered a separate governmental entity because it is substantially autonomous.

GASB No. 14, *The Financial Reporting Entity*, GASB No. 39, *Determining Whether Certain Organizations Are Component Units- an amendment of GASB Statement No. 14*, and GASB No. 61, *The Financial Reporting Entity: Omnibus and amendment of GASB Statements No. 14 and No. 34* established the criterion for determining which component units should be considered part of the Commission for financial reporting purposes. The basic criteria are as follows:

1. Legal status of the potential component unit including the right to incur its own debt, levy its own taxes and charges, expropriate property in its own name, sue and be sued, and the right to buy, sell and lease property in its own name.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

**a) Reporting Entity (Continued)**

2. Whether the governing authority appoints a majority of the board members of the potential component unit.
3. Fiscal interdependency between the Commission and the potential component unit.
4. Imposition of will by the Commission on the potential component unit.
5. Financial benefit/burden relationship between the Commission and the potential component unit.

The Commission has reviewed all of its activity and determined that there are no potential component units and the basic financial statements include all the fund types of the entity.

**b) Basis of Presentation**

The Commission's basic financial statements consist of the government-wide statements on all of the non-fiduciary activities of the Commission and the governmental and proprietary fund financial statements.

**Government-Wide Financial Statements**

The government-wide financial statements include the Statement of Net Position and the Statement of Activities for all activities of the Commission. As a general rule, the effect of interfund activity has been removed from these statements. The government-wide presentation focuses primarily on the sustainability of the Commission as an entity and the change in aggregate financial position resulting from the activities of the fiscal period.

*Governmental Activities* represent programs, which normally are financed through intergovernmental revenues and other nonexchange revenues.

*Business-Type Activities* are financed in whole or in part by fees charged to external parties for goods and services.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

b) Basis of Presentation (Continued)

Indirect costs are not allocated by function for financial reporting in this statement; however, certain indirect costs have been directly allocated as administrative fees to grants and special programs. Program revenues include: (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Dues and other items not properly included among program revenues are reported instead as general revenues.

**Fund Financial Statements**

The focus of the fund financial statement is on major funds. The daily accounts and operations of the Commission are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, equity, revenues and expenditures or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The various funds of the Commission are grouped, into generic fund types and broad fund categories as follows:

Governmental activities presented as governmental funds in the fund financial statements:

**General Fund** - The General Fund is the general operating fund of the Commission. It is used to account for and reported all financial resources except those that are required to be accounted for and reported in another fund. The General Fund is always a major fund.

**Special Revenue Funds** - Special revenue funds are used to account for and report the proceeds of specific revenue sources (other than major capital projects) that are restricted or committed to expenditures for specified purposes. Special revenue funds reported as major funds in the fund financial statements are as follows:

**Loan Fund** - used to account for and report receipts and uses of grant funds received from various federal agencies which are restricted to uses specified as economic development loans and grants as specified in grant documents.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

b) Basis of Presentation (Continued)

**Grant Fund** - used to account for and report the receipts and disbursements of Federal and State grant programs as services are performed.

**Capital Projects Fund** - used to account for and report the financial resources that are restricted, committed or assigned to expenditures for capital outlays, including the acquisition or construction of major capital facilities and other capital assets (other than those financed by the Proprietary Funds). The Capital Projects Fund is reported as a major fund.

**Debt Service Fund** - used to account for and report financial resources that are restricted, committed or assigned expenditures for debt principal, interest and related costs. The Debt Service Fund is reported as a major fund.

Business activities presented as proprietary funds in the fund financial statements:

**Enterprise Funds** - are used to account for operations: (a) that are financed and operated similarly to private business enterprises, where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes. Enterprise funds are presented in the business-type activities column in government-wide financial statements and the major funds section of the basic financial statements, the enterprise funds reported as a major fund in the fund financial statements are as follows:

**Regional Building Code Fund** - accounts for and reports the providing of construction plan approval and inspection services to the residents of the participating municipalities and parishes in which the Commission serves. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing, billing and collection.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

b) Basis of Presentation (Continued)

**Information Technology Fund** - accounts for and reports the design, development, maintenance and marketing of computer software used by local governmental organizations. All activities necessary to provide such services are accounted for in this fund including but not limited to design, software configuration, software interfaces, coding, testing, training and software maintenance.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for the enterprise fund include the cost of services, administrative expenses, depreciation of capital assets, and amortization of intangible assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

c) Basis of Accounting and Measurement Focus

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

**Government-Wide Financial Statements**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

**Fund Financial Statements**

All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (revenues and other financing sources) and decreases (expenditures and other uses) in net current assets. Governmental funds are maintained on the modified accrual basis of accounting.

**Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**c) Basis of Accounting and Measurement Focus (Continued)**

**Fund Financial Statements (Continued)**

Governmental fund revenues resulting from exchange transactions are recognized in the fiscal year in which the exchange takes place and meets the government's availability criteria (susceptible to accrual). Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For this purpose, the Commission considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Member assessments are recognized as revenues in the period for which they are assessed. Grant and contract revenues are recognized when earned since they are measurable and available. Interest earned and other miscellaneous revenues are recorded as revenues when received in cash by the Commission because they are generally not measurable until actually received.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. An exception to this general rule is vacation and sick leave which are recognized when paid. Allocations of cost such as depreciation are not recognized in the governmental funds.

All proprietary funds are accounted for on a flow of economic resources measurement focus. Proprietary funds are maintained on the accrual basis of accounting wherein revenues are recognized in the accounting period in which they are earned and become measurable, and expenses are recognized in the period incurred, if measurable. Revenues resulting from transactions, in which each party gives and receives essentially equal value is recorded on the accrual basis when the exchange takes place.

**d) Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions. Those estimates affect the reported amounts of assets and liabilities and disclosures of assets and liabilities at the date of the financial statements. They may also affect the reported amounts of revenues and expenses of proprietary funds and the government-wide financial statements during the reporting period. Actual results could differ from those estimates.

**Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**e) Budgets and Budgetary Accounting**

The Commission under the terms of its charter, adopts an annual budget. This budget is for the General Fund and special revenue funds. Special revenue funds, which at June 30, 2018 consisted of various government and government agency projects, are budgeted on a project by project basis as funding becomes available. The General Fund and special revenue funds budgets were amended during the year to reflect changes in budgeted revenues, expenditures and operating transfers as dictated by the circumstances.

Budgets for carryover grants and projects, which are to be performed over more than one accounting period, are reflected only to the extent they affect the current period being reported on. Budgeted amounts which are not expended, or obligated through contracts, lapse at year end.

Major funds are included in the budget presentations in the basic financial statements. The budgets are adopted on a basis materially consistent with accounting principles generally accepted in the United States of America (GAAP).

The Capital Projects Fund present project budgets as opposed to annual budgets and are not reported in the accompanying financial statements. The Debt Service Fund does not employ formal budgetary accounting because control is achieved through the indenture provisions of the bonds or certificates.

**f) Cash, Cash Equivalents, and Investments**

Cash and cash equivalents include amounts in regular and money market accounts.

For purposes of the Statement of Cash Flows, cash and cash equivalents include certificates of deposit with maturities of three months or less when purchased.

**g) Accounts and Loans Receivable**

The financial statements of the Commission contain no allowance for uncollectible accounts receivable. Uncollectible amounts due for member assessments, contract revenues and other receivables are recognized as bad debts at the time information becomes available which would indicate the uncollectibility of the particular receivable. Miscellaneous accounts receivable and amounts due from other governments in excess of 60 days comprise the accounts receivable allowance for uncollectibles. These amounts are not considered to be material in relation to the financial position or operations of the funds of the Commission.

**Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**g) Accounts and Loans Receivable (Continued)**

Economic loans are shown net of an allowance for loan losses. Additions to the allowance for loan losses are recognized as expenditures in the governmental fund financial statements at the time information becomes available which would indicate the loan is less than fully collectible. As of June 30, 2018, the loan loss reserve amounted to \$2,697,731, which is an decrease of \$221,180 for the year ended June 30, 2018.

**h) Capital Assets**

Capital assets, which include buildings, furniture, fixtures equipment and intangible assets, are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the Commission as assets purchased, acquired or developed with an original cost of \$1,000 or more. Such assets are recorded at historical costs or estimated historical cost if actual is unavailable.

Donated capital assets are recorded at their estimated fair value at the date of donation. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

As described above, capital assets also include the historical cost of intangible assets. At June 30, 2018 the Commission's intangible assets consist of computer software costs purchased and developed internally. For purposes of identifying capitalizable computer software costs, the Commission has classified activities into (1) preliminary stage, (2) application development stage, and (3) post-implementation/operation stage. Costs incurred during the application development stage are capitalized, while costs incurred during preliminary and post-implantation/operational the stages are expensed as incurred.

Depreciation and amortization are provided over the assets' estimated useful lives using the straight-line method. The range of estimated useful lives by type of asset is as follows:

Buildings	50 years
Furniture, fixtures, and equipment	4 - 25 years
Intangible assets	10 years

**Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**i) Non-Current Liabilities**

The accounting treatment of non-current liabilities depends on whether they are reported in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

**Government-wide Financial Statements:**

All non-current liabilities to be repaid from governmental resources are reported as liabilities in the government-wide statements. The non-current liabilities consist of certificates of indebtedness, accumulated annual leave and net pension liability.

**Fund Financial Statements:**

Non-current liabilities for governmental funds are not reported as liabilities in the governmental fund financial statements. In the proprietary fund financial statements non-current liabilities are reported as liabilities.

The Commission's policies regarding vacation and sick leave permit employees to accumulate earned but unused vacation. The liability for these compensated absences is recorded as liabilities in the government-wide statements and the proprietary fund type fund statements. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources.

**j) Compensated Absences**

All full-time, permanent employees of the Commission receive two weeks of vacation which accrues at a rate of 3.08 hours per pay period beginning with the first day of full-time, permanent employment. After five years of service employees will receive three weeks of vacation at a rate of 4.62 hours per pay period, and will receive an additional day of vacation per year of service after ten years of continuous employment. Vacation cannot be used for the first three months of full-time, permanent employment. Employees may carry over a maximum of 100 hours, 150 hours if employed 5 years or longer, of vacation from one fiscal year to another. Any time in excess of the carryover limits must be approved by the Chief Executive Officer before the end of the fiscal year or the excess time will be lost without compensation. Vacation is paid when an employee terminates service with the Commission.

**Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**j) Compensated Absences (Continued)**

All full-time, permanent employees of the Commission earn sick leave at the rate of one day per month or 3.69 hours per pay period. No limits on this accrual privilege have been established. Sick leave can be accumulated but does not vest and, therefore, a provision has not been made for sick leave.

**k) Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Municipal Employees Retirement System of Louisiana (MERS) and additions to/deductions from MERS fiduciary net position have been determined on the same basis as they are reported by MERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments of MERS are reported at fair value.

**l) Deferred Outflows/Inflows of Resources**

In addition to assets, the Statement of Financial Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expenses/expenditures) until then.

In addition to liabilities, the Statement of Financial Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until then.

**m) Interfund Transactions**

In the financial statements, interfund activity is reported as either loans or transfers. Loans between funds are reported as interfund receivables (due from) and payables (due to) as appropriate. Transfers represent a permanent reallocation of resources between funds. In other words, they are not expected to be paid. For reporting purposes, all interfund transactions between individual governmental funds have been

**Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**m) Interfund Transactions (Continued)**

eliminated in the government-wide financial statements. Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances".

**n) Indirect Cost Plan**

The Commission maintains an indirect cost plan for the allocation of costs that are incurred for a common or joint purpose benefiting more than one cost objective and not readily assignable to the cost objectives specifically benefited through June 30, 2018. These indirect costs are allocated based on direct salaries incurred by each fund benefiting from the indirect costs.

**o) Fund Equity**

Government-wide Statements:

Equity is classified as net position and displayed in three components:

Net investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets, if any.

Restricted net position - Consists of assets less liabilities (net position) with constraints placed on the use either by (1) external groups such as creditors, grantors, contributions or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

Unrestricted net position - All other net position that do not meet the definition of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is the Commission's policy to use restricted resources first, then unrestricted resources as they are needed.

**Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**o) Fund Equity (Continued)**

Fund Financial Statements:

Governmental fund equity is classified as fund balance. Fund balance is further classified as follows:

- a. Non-spendable - amounts that cannot be spent either because they are in non-spendable form or because they are legally or contractually required to be maintained intact.
- b. Restricted - amounts that can be spent only for specific purposes because of constitutional provisions, charter requirements or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.
- c. Committed - amounts that can be used only for specific purposes determined by a formal action of the Commission's Board of Directors. Commitments may be established, modified, or rescinded only through resolutions approved by the Commission's Board of Directors.
- d. Assigned - amounts that do not meet the criteria to be classified as either restricted or committed but that are intended to be used for specific purposes. Assigned amounts may be established, modified or rescinded by majority vote of the Board of Directors or by the Chief Executive Officer.
- e. Unassigned - all other spendable amounts.

For the classification of governmental fund balances, the Commission considers an expenditure to be made from the most restrictive first when more than one classification is available. The Commission's fund balance was classified as non-spendable, restricted, assigned and unassigned as of June 30, 2018.

**p) New GASB Statements**

During the year ending June 30, 2018, the Commission implemented the following GASB Statements:

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

p) New GASB Statements (Continued)

Statement No. 75, "*Accounting and Financial Reporting by Employers for Postemployment Benefits other than Pensions*" replaces the requirements of GASB Statement No. 45. This Statement requires governments to report a liability on the face of the financial statements for the OPEB that they provide: governments that are responsible only for OPEB liabilities related to their own employees and that provide OPEB through a defined benefit OPEB plan administered through a trust that meets specified criteria will report a net OPEB liability, governments that participate in a cost-sharing OPEB plan that is administered through a trust that meets the specified criteria will report a liability equal to their proportionate share of the collective OPEB liability for all entities participating in the cost-sharing plan and governments that do not provide OPEB through a trust that meets specified criteria will report the total OPEB liability related to their employees. This Statement did not affect the Commission's financial statements.

Statement No. 81, "*Irrevocable Split Interest Agreements*" provides recognition and measurement guidance for situation in which a government is a beneficiary of an irrevocable split interest agreement. This Statement requires that a government that receives resources pursuant to an irrevocable split interest agreement recognize assets, liabilities and deferred inflows of resources at the inception of the agreement. Furthermore, this Statement requires that a government recognize assets representing its beneficial interests in agreements administered by third parties. Governments are required by this Statement to recognize revenue when the resources become applicable to the reporting period. This Statement enhances comparability and decision usefulness of financial statements among governments. This Statement did not affect the Commission's financial statements.

Statement No. 85, "*Omnibus 2017*". On March 20, 2017, GASB issued "*Omnibus 2017*" covering four main topics: blending component units; goodwill, fair value measurement and application; and postemployment benefits. This Statement did not affect the Commission's financial statements.

Statement No. 86, "*Certain Debt Extinguishment Issues*" improves consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources - resources other than the proceeds of refunding debt - are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. This Statement did not affect the Commission's financial statements.

**Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**p) New GASB Statements (Continued)**

The GASB has issued the following Statements which will become effective in future years as shown below:

Statement No. 83, "*Certain Asset Retirement Obligations*" addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement. This Statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Management has not yet determined the effect of this Statement on the financial statements.

Statement No. 84, "*Fiduciary Activities*" improves guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. An activity meeting the criteria should be reported in a fiduciary fund in the basic financial statements. This Statement also provides for recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Management has not yet determined the effect of this Statement on the financial statements.

Statement No. 87, "*Leases*" increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

p) New GASB Statements (Continued)

lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged. Management has not yet determined the effect of this Statement on the financial statements.

Statement No. 88, "*Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*" improves the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. The Statement clarifies which liabilities governments should include when disclosing information related to debt. This Statement requires that additional essential information related to debt be disclosed in notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses. For notes to financial statements related to debt, this Statement also requires that existing and additional information be provided for direct borrowings and direct placements of debt separately from other debt. The requirements of this Statement are effective for reporting periods beginning after June 30, 2018. Management has not yet determined the effect of this Statement on the financial statements.

Statement No. 89, "*Accounting for Interest Cost Incurred before the End of a Construction Period*" establishes accounting requirements for interest cost incurred before the end of a construction period. Such interest cost includes all interest that previously was accounted for in accordance with the requirements of paragraphs 5-22 of Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements, which are superseded by this Statement. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Management has not yet determined the effect of this Statement on the financial statements.

**Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**p) New GASB Statements (Continued)**

Statement No. 90, "Majority Equity Interest" the primary objectives of this Statement are to improve the consistency and comparability of reporting government's majority equity interest in legally separate organization and to improve the relevance of financial statement information for certain component units. It specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. A majority equity interest that meets the definition of an investment should be measured using the equity method. This Statement establishes that ownership of a majority equity interest in a legally separate organization results in the government being financially accountable for the legally separate organization and, therefore, the government should report that organization as component unit. The requirements of this Statement are effective for reporting period beginning after December 15, 2018. Management has not yet determined the effect of this Statement on the financial statements.

**Note 2 - DEPOSITS**

Louisiana state law allows all political subdivisions to invest excess funds in obligations of the United States or other federally insured investments, certificates of deposit of any bank domiciled or having a branch office in the State of Louisiana, guaranteed investment contracts and investment grade (A-1/P-1) commercial paper of domestic corporations.

Bank Deposits:

State law requires deposits (cash and certificates of deposit) of all political subdivisions to be fully collateralized at all times. Acceptable collateralization includes FDIC insurance and securities purchased and pledged to the political subdivision. Obligations of the United States, the State of Louisiana and certain political subdivisions are allowed as security for deposits. Obligations furnished as security must be held by the political subdivision or with an unaffiliated bank or with a trust company for the account of the political subdivision.

The year end balances of deposits are as follows:

	<u>Bank Balances</u>	<u>Reported Amount</u>
Cash	<u>\$ 5,935,983</u>	<u>\$ 5,491,871</u>

**Note 2 - DEPOSITS (Continued)**

Custodial credit risk is the risk that in the event of a bank failure, the Commission's deposits may not be returned to it. The Commission has a written policy for custodial credit risk which follows state law. As of June 30, 2018, \$5,685,983 of the Commission's bank balance of \$5,935,983 was exposed to custodial credit risk. These deposits were uninsured and collateralized with securities held by the pledging financial institution's trust department or agent and are deemed to be in the Commission's name by state law.

At June 30, 2018, cash was adequately collateralized in accordance with state law by securities held by unaffiliated banks for the account of the Commission. The Governmental Accounting Standards Board (GASB), which promulgates the standards for accounting and financial reporting for state and local governments, considers these securities subject to custodial credit risk. Even though the deposits are considered subject to custodial credit risk under the provisions of GASB, Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the depositor that the fiscal agent has failed to pay deposited funds upon demand.

A reconciliation of deposits as shown on the Statement of Net Position is as follows:

Cash on hand	\$	100
Carrying amount of deposits		<u>5,491,871</u>
 Total cash	 \$	 <u>5,491,971</u>

**Note 3 - DUE FROM OTHER GOVERNMENTAL UNITS**

As of June 30, 2018 due from other governmental units consisted of the following:

As of June 30, 2018, governmental activities included \$141,520 of unbilled grant receivables reported as miscellaneous receivables in the Grant Fund. There were no unbilled receivables from business activities as of June 30, 2018.

**Note 4 - INTERFUND RECEIVABLES AND PAYABLES**

Interfund receivables and payables consist of the following at June 30, 2018:

Individual Funds	Interfund Receivables	Interfund Payables
General Fund	\$ 2,219,847	\$ 1,267,072
Special Revenue Fund:		
Loan Fund	410,000	596,358
Grant Funds	-	196,158
Capital Projects Fund	857,060	768,072
Enterprise Funds:		
Building Code Fund	-	9,074
Information Technology Fund	3,847	654,020
<b>Total</b>	<b>\$ 3,490,754</b>	<b>\$ 3,490,754</b>

The balances above resulted from the time lag between the dates the (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

**Note 5 - CHANGES IN CAPITAL ASSETS**

Capital asset activity for the year ended June 30, 2018 was as follows:

	Balance July 1, 2017	Additions	Deletions	Balance June 30, 2018
<b><u>Governmental Activities:</u></b>				
Capital assets being depreciated:				
Buildings	\$ 4,241,791	\$ 22,782	\$ -	\$ 4,264,573

Total capital assets being depreciated	<u>2,338,112</u>	<u>438,924</u>	<u>(95,711)</u>	<u>2,681,325</u>
Less accumulated depreciation for:				
Furniture, fixtures, and equipment	(634,725)	(71,900)	95,711	(610,914)
Intangible assets	(622,173)	(157,032)	-	(779,205)
Total accumulated depreciation	<u>(1,256,898)</u>	<u>(228,932)</u>	<u>95,711</u>	<u>(1,390,119)</u>
Total governmental activities capital assets, net	<u>\$ 1,081,214</u>	<u>\$ 209,992</u>	<u>\$ -</u>	<u>\$ 1,291,206</u>

During 2018, the Commission recognized \$114,096 of depreciation and amortization expense in governmental activities and reported it in the general economic development and assistance programs.

**Note 6 - ACCOUNTS PAYABLE**

At June 30, 2018, the Commission had accounts payable reported in the Governmental Activities of \$443,148 and \$72,059 in Business-type Activities. The General Fund pays all Capital Projects Fund, Loan Fund and Grant Fund expenditures therefore the table below also reports the incurred charges in the Capital Projects Fund, Loan Fund and Grant Fund.

	Personal Services	Vendors	Total
<b><u>Governmental Activities:</u></b>			
General Fund	\$ 46,664	\$ 38,929	\$ 85,593
Loan Fund	-	692	692
Grant Fund	-	245,093	245,093
Capital Projects Fund	-	111,770	111,770
Total governmental activities	<u>46,664</u>	<u>396,484</u>	<u>443,148</u>
<b><u>Business-Type Activities:</u></b>			
Regional Building Code Fund	15,985	7,181	23,166
Information Technology Fund	20,572	28,321	48,893
Total business-type activities	<u>36,557</u>	<u>35,502</u>	<u>72,059</u>
Totals	<u>\$ 83,221</u>	<u>\$ 431,986</u>	<u>\$ 515,207</u>

**Note 7 - NON-CURRENT LIABILITIES**

Non-current liabilities at June 30, 2018 consisted of accumulated annual leave (vacation pay) amounts vested with employees, net pension liability and certificates of indebtedness. The following is a summary of changes in the non-current liabilities of the Commission for the year ended June 30, 2018:

	Balance July 1, 2017	Additions	Retirements	Balance June 30, 2018	Due Within 1 year
<b>Governmental Activities</b>					
2014 Certificates of indebtedness	\$ 142,858	\$ -	\$ (35,714)	\$ 107,144	\$ 35,714
Net pension liability	1,588,539	2,488	-	1,591,027	-
Compensated absences	77,826	9,126	-	86,952	69,176
<b>Business-Type Activities</b>					
Net pension liability	1,782,299	-	(141,350)	1,640,949	-
Compensated absences	63,702	12,953	-	76,655	56,995
<b>Totals</b>	<u>\$ 3,655,224</u>	<u>\$ 24,567</u>	<u>\$ (177,064)</u>	<u>\$ 3,502,727</u>	<u>\$ 161,885</u>

Funding of accumulated annual leave is to be provided from revenues of various funds, except when disallowed by grant program, at the time paid. Accumulated annual leave disallowed by grant programs is paid by the General Fund. Funding of the net pension liability is provided by the fund that incurs the related payroll. Funding of the payments for the certificates of indebtedness is to be provided by the General Fund.

On May 14, 2014, the Commission issued \$250,000 of Certificates of Indebtedness, Series 2014A for the purpose of making capital improvements. The certificates are secured by a pledge of revenue. The certificates mature on May 1, 2021 and with an interest rate of 4.50%. Interest payments are due quarterly on February 1, May 1, August 1, and November 1. Principal is due annually on May 1.

Fiscal Year Maturity	Certificates of Indebtedness		
	Principal	Interest	Total
2019	\$ 35,714	\$ 4,821	\$ 40,535
2020	35,715	3,214	38,929
2021	35,715	1,607	37,322
<b>Totals</b>	<u>\$ 107,144</u>	<u>\$ 9,642</u>	<u>\$ 116,786</u>

**Note 8 - UNEARNED REVENUES**

Unearned revenues are reported in the governmental and business-type activities. In the General Fund unearned revenue represents advances on governmental grants at June 30, 2018. While unearned revenues reported in the Information Technology Fund represents advance payments from customers for the use of software. Building Code Fund represents the advance payments from other governmental entities for expedited review of building plans. For the year ended June 30, 2018 the unearned revenue activity consisted of the following:

	General Fund	Information Technology Fund	Building Code Fund
Balance June 30, 2017	\$ 89,359	\$ 25,489	\$ -
Advances	69,987	84,446	50,000
Earnings	<u>(79,971)</u>	<u>(17,015)</u>	<u>-</u>
Balance June 30, 2018	<u>\$ 79,375</u>	<u>\$ 92,920</u>	<u>\$ 50,000</u>

**Note 9 - RECONCILIATION OF TRANSFERS**

A reconciliation of operating transfers for the year ended June 30, 2018 is as follows:

	Transfers In	Transfers Out
Governmental Funds		
General Fund:		
Loan Fund	\$ -	\$ 3,278
Capital Projects Fund	-	-
Grant Fund	126,198	117,940
Debt Service Fund	-	42,143
Building Code Fund	118,555	-
Total	<u>244,753</u>	<u>163,361</u>
Loan Fund:		
General Fund	3,278	-
Loan Fund	298,783	298,783
Total	<u>302,061</u>	<u>298,783</u>
Grant Fund		
General Fund	<u>117,940</u>	<u>126,198</u>
Debt Service Fund		
General Fund	<u>42,143</u>	<u>-</u>
Proprietary Funds		
Building Code Fund		
General Fund	<u>-</u>	<u>118,555</u>
Grand Total	<u>\$ 706,897</u>	<u>\$ 706,897</u>

**Note 9 - RECONCILIATION OF TRANSFERS (Continued)**

Transfers are used to (1) move revenues from the fund that statute or budget requires collecting them to the fund that statute or budget requires to expend them and (2) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorization.

**Note 10 - RISK MANAGEMENT**

The Commission is exposed to various risks of loss related to workers' compensation; torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the Commission carries commercial insurance. No settlements were made during the year that exceeded the Commission's insurance coverage.

**Note 11 - PENSION PLAN**

**Plan Description.** The Commission contributes to the Municipal Employees Retirement System of Louisiana - Plan B (the System), a cost-sharing, multiple-employer defined benefit pension plan. The System was originally established by Act 356 of the 1954 regular session of the Legislature of the State of Louisiana. The System provides benefits to employees of all incorporated villages, towns and cities within the State which do not have their own retirement system and which elect to become members of the System. The Municipal Employees Retirement System of Louisiana issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the Municipal Employees Retirement System of Louisiana, 7937 Office Park Boulevard, Baton Rouge, Louisiana 70809.

**Benefits Provided.** The System provides retirement, deferred retirement, disability and death benefits. Retirement benefits are generally equal to 2.0% of the member's monthly average final compensation multiplied by the years of creditable service. Members hired before January 1, 2013 can retire providing the member meets one of the following criteria: any age with thirty years of creditable service, age sixty with a minimum of ten or more years of creditable service, any age with ten years of creditable service eligible for disability benefits, or survivor's benefits requiring five years of creditable service at death of the member. Members hired on or after January 1, 2013 may retire providing the member meets one of the following: age sixty-seven with seven or more years of creditable service, age sixty-two with ten or more years of creditable service, age fifty-five with thirty or more years of creditable service, or any age with twenty-five years of creditable service, exclusive of military service and unused side leave. However, any member retiring under the final listed criteria shall have the benefit actuarially reduced from the earliest age of which the member would be entitled to a vested deferred benefit

Note 11 - PENSION PLAN (Continued)

under any provision of this section, if the member had continued in service to that age. The State Legislature authorized the System to establish a Deferred Retirement Option Plan (DROP). When a member enters DROP their status changes from active to retired even though they continue to work and draw their salary for up to three years. During participation in DROP, employer contributions continue but employee contributions cease. Upon termination, of employment or the end of the specified DROP period, a participant may receive at their option a lump sum equal to the payments in their account or an annuity based upon the account balance. The election to participate in DROP is irrevocable once participation begins and monthly retirement benefits are paid in an interest earning DROP fund. Members with 10 or more years of service who become disabled may receive retirement benefits determined in the same manner as retirement benefits. Death benefits are payable to eligible surviving dependents based on the deceased member's compensation and the dependent's relationship to the deceased member. The System provides permanent benefit increases, cost of living adjustments (COLA) as approved by the State legislature.

**Contributions.** According to state statute, contribution requirements for all employers are actuarially determined each year. For the years ended June 30, 2018 and 2017, the actual employer contribution rate was 13.25% and 11.00%, respectively.

In accordance with state statute, the System receives ad valorem taxes and state revenue sharing funds. These additional sources of income are used as employer contributions and are considered support from non-employer contributing entities, but are not considered special funding situations.

Contributions to the System from the Commission were \$358,559 for the year ended June 30, 2018.

**Pension Liabilities.** At June 30, 2018, the Commission reported a liability of \$3,231,975 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2017 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Commission's proportion of the net pension liability was based on a projection of the Commission's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2017, the Commission's proportion was 3.735%, which was a decrease of .331% from its proportion measured as of June 30, 2016.

**Pension Expense.** For the year ended June 30, 2018, the Commission recognized pension expense of \$612,562.

**Note 11 - PENSION PLAN (Continued)**

**Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions.** At June 30, 2018, the Commission reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ 16,930	\$ (70,162)
Net difference between projected and actual earnings on pension plan investments	680,962	-
Changes in proportion share	145,414	(146,465)
Change in assumptions	142,307	-
Commission contributions subsequent to the measurement date	<u>358,559</u>	<u>-</u>
	<u>\$ 1,344,172</u>	<u>\$ (216,627)</u>

The Commission reported \$358,559 as deferred outflows of resources related to pensions resulting from Commission contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2019. Deferred inflows of resources and deferred outflows of resources related to pensions will be recognized in pension expense as follows:

<u>For The Year Ended June 30th,</u>	<u>Amount</u>
2019	\$ 354,532
2020	282,468
2021	101,353
2022	<u>30,633</u>
Total	<u>\$ 768,986</u>

**Note 11 - PENSION PLAN (Continued)**

**Actuarial Assumptions.** A summary of the actuarial methods and assumptions used in determining the total pension liability as of June 30, 2017 are as follows:

Valuation Date	June 30, 2017
Actuarial Cost Method	Entry Age Normal
Actuarial Assumptions	
Expected Remaining	
Service Lives	4 years.
Investment Rate of Return	7.40%, net of investment expense.
Projected Salary Increases	5.00% (2.775% inflation, 2.225% merit).
Mortality Rates	RP-2000 Employee Sex Distinct Mortality Table for active members/ RP-2000 Disabled Lives Mortality Table for disabled annuitants / RP-2000 Healthy Annuitant Sex Distinct Mortality Table for healthy annuitants.
Cost of Living	
Adjustments	The present value of future retirement benefits is based on benefits currently being paid by the System and includes previously granted cost of living increases. The present values do not include provisions for potential future increases not yet authorized by the Board of Trustees.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.60% and an adjustment for the effect of rebalancing/diversification. The resulting expected long-term rates of return is 7.20% for the year ended June 30, 2017. Estimates of arithmetic real rates of return for each major asset class based on the Fund's target asset allocation as of June 30, 2017 are on the next page:

**Note 11 - PENSION PLAN (Continued)**

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Public equity	50.00%	2.30%
Public fixed income	35.00%	1.60%
Alternatives	15.00%	0.70%
Total	100.00%	4.60%
Inflation		2.60%
Expected Arithmetic Nominal Rate		7.20%

**Discount Rate.** The discount rate used to measure the collective pension liability was 7.40%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by Public Retirement System's Actuarial Committee. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the Commissions Proportionate Share of the Collective Net Pension Liability to Changes in the Discount Rate.** The following presents the Commission's proportionate share of the collective net pension liability using the discount rate of 7.40%, as well as what the Commission's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower (6.40%) or one percentage-point higher (8.40%) than the current rate:

	1.00% Decrease (6.40%)	Current Discount Rate (7.40%)	1.00% Increase (8.40%)
Commission's proportionate share share of the net pension liability	\$4,181,814	\$3,231,975	\$2,421,420

**Note 11 - PENSION PLAN (Continued)**

**Pension Plan Fiduciary Net Position.** The Municipal Employees Retirement System of Louisiana has issued a stand-alone audit report on their financial statements for the year ended June 30, 2017. Access to the report can be found on the Louisiana Legislative Auditor's website, [www.la.gov](http://www.la.gov).

**Note 12 - COMPENSATION OF COMMISSIONERS**

Commissioners for South Central Planning & Development Commission, Inc. received no compensation during the year ended June 30, 2018.

**Note 13 - CONTINGENCIES**

The Commission received funding under grants from various federal and state governmental agencies. The agency grants specify the purpose for which the grant monies are to be used; the grants are subject to audit by the granting agency or its representative.

**Note 14 - SUBSEQUENT EVENTS**

Management evaluates events occurring subsequent to the date of financial statements in determining the accounting for and disclosure of transactions and events that effect the financial statements. Subsequent events have been evaluated through December 20, 2018 which is the date the financial statements were available to be issued.

**SPECIAL REPORTS OF CERTIFIED PUBLIC ACCOUNTANTS**

**INDEPENDENT AUDITOR'S REPORT ON  
INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED  
ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Commissioners,  
South Central Planning & Development Commission, Inc.,  
Houma, Louisiana.

We have audited, in accordance with the auditing standards generally accepted in the United State of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of South Central Planning & Development Commission, Inc., (the Commission), as of and for the year ended June 30, 2018, and the related notes to the financial statements which collectively comprise the Commission's basic financial statements and have issued our report thereon dated December 20, 2018.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Commission's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Commission's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompany schedule of findings and questioned cost that we consider to be a material weakness, 2018-001.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Commission's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our test disclosed instances of noncompliance or other matters that is required to be reported under Government Auditing Standards and which are described in the accompanying schedule of findings and questioned costs as item 2018-001.

### **South Central Planning & Development Commission, Inc.'s Response to Findings**

The Commission's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The Commission's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and results of that testing, and not to provide an opinion on the effectiveness of the Commission's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Houma, Louisiana,  
December 20, 2018.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE  
FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL  
OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

To the Board of Commissioners,  
South Central Planning & Development Commission, Inc.,  
Houma, Louisiana.

**Report on Compliance for Each Major Federal Program**

We have audited South Central Planning & Development Commission, Inc.'s, (the Commission) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Commission's major federal programs for the year ended June 30, 2018. The Commission's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

**Management's Responsibility**

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal programs.

**Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of the Commission's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance)*. Those standards and the *Uniform Guidance* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Commission's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on the Commission's compliance.

## **Opinion on Each Major Federal Program**

In our opinion, the Commission complied in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.

## **Other Matters**

The results of our auditing procedures disclosed instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2018-001. Our opinion on each major federal program is not modified with respect to these matters. The Commission's response to the noncompliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The Commission's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

## **Report on Internal Control Over Compliance**

Management of the Commission is responsible for establishing and maintaining effective internal control over compliance with the types of requirements referred to above. In planning and performing our audit of compliance, we considered the Commission's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major program and to test and report on internal control over compliance in accordance with *the Uniform Guidance*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weakness or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs items 2018-001 that we consider to be material weaknesses that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **South Central Planning & Development Commission, Inc.'s Response to Findings**

The Commission's response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The Commission's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

### **Purpose of This Report**

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the *Uniform Guidance*. Accordingly, this report is not suitable for any other purposes.

Certified Public Accountants.

## **NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**

### **South Central Planning & Development Commission, Inc.**

June 30, 2018

#### **Note 1 - BASIS OF PRESENTATION**

The accompanying schedule of expenditures of federal awards (the SEFA) includes the federal award activity of the Commission under programs of the federal government for the year ended June 30, 2018. The information in the SEFA is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance)*. Because the SEFA presents only a selected portion of the operation of the Commission it is not intended to and does not present the financial position, changes in net position, or cash flows of the Commission.

#### **Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

- (1) Expenditures reported on the SEFA are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the *Uniform Guidance*, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (2) The Commission has elected not to use the 10 percent *de minimis* indirect cost rate as allowed under the *Uniform Guidance*.

#### **Note 3 - VALUE OF LOANS OUTSTANDING**

Loans outstanding at June 30, 2018 for the Sudden and Severe Economic Dislocation Adjustment Revolving Loan Program, Federal CFDA number 11.307, was \$2,308,153, the Small Business Recovery Loan and Grant Programs, Federal CFDA number 14.228, \$29,071,452, and the Environmental Protection Agency Brownfield Revolving Loan Program, Federal CFDA number 66.818, \$868,426. In addition, an allowance for uncollectible loans amounting to \$2,697,731 has been recorded in the financial statements as of June 30, 2018.

#### **Note 4 - FINDINGS OF NONCOMPLIANCE**

There were no federal award findings or questioned costs reported during the audit for the year ended June 30, 2018.

**SCHEDULE OF FINDINGS AND QUESTIONED COSTS**

**South Central Planning & Development Commission, Inc.**

For the year ended June 30, 2018

**Section I Summary of Auditor's Results**

a) Financial Statements

Type of auditor's report issued: unmodified

Internal control over financial reporting:

- Material weakness(es) identified?  X  Yes   No
- Significant deficiency(ies) identified that are not considered to be a material weakness?   Yes  X  None reported

Noncompliance material to consolidated financial statements noted?  X  Yes   No

b) Federal Awards

Internal control over major programs:

- Material weakness(es) identified?  X  Yes   No
- Significant deficiency(ies) identified that are not considered to be a material weakness   Yes  X  None reported

Type of auditor's report issued on compliance for major programs unqualified

- Any audit findings disclosed that are required to be reported in accordance *Uniform Guidance*?  X  Yes   No

c) Identification of Major Program:

<u>CFDA Number</u>	<u>Name of Federal Program</u>
14.228	Community Development Block Grant/ State's Program - Small Business Recovery Loan and Grant Program

**SCHEDULE OF FINDINGS AND QUESTIONED COSTS**  
**(Continued)**

**South Central Planning & Development Commission, Inc.**

For the year ended June 30, 2018

**Section I Summary of Auditor's Results (Continued)**

Dollar threshold used to distinguish  
between Type A and Type B programs: \$750,000

Auditee qualified as a low-risk auditee?     Yes  No

**Section II Financial Statement Findings**

**Internal Control**

**2018-001 Department of Housing and Urban Development**

**Small Business Recovery Loan And Grant Program - Revolving Capital Fund, Small Business Recovery Loan And Grant Program - Innovation Program, Small Business Recovery Loan And Grant Program - Acadiana Revolving Capital Fund; CFDA No. 14.228; Grant Period: Year Ended June 30, 2018.**

**U.S. Department of Commerce**

**Sudden and Sever Economic Dislocation - Adjustment Revolving Loan Fund; CFDA No. 11.307; Grant No. 08-59-02912.01; Grant Period: Year Ended June 30, 2017.**

**Criteria** - The Commission is required to follow the Governmental Accounting Standards Board (GASB) in matters of accounting and reporting. GASB pronouncements require that assets of the Commission be reported at net realizable value.

**Condition** - The District failed to recognize provisions of doubtful accounts amounting to \$1,781,221 in its internal financial statements prior to audit adjustment.

**Cause** - Failure of the District's management to evaluate collectibility of federal program loans.

**SCHEDULE OF FINDINGS AND QUESTIONED COSTS**  
**(Continued)**

**South Central Planning & Development Commission, Inc.**

For the year ended June 30, 2018

**Section II Financial Statement Findings (Continued)**

**Internal Control (Continued)**

**2018-001 Department of Housing and Urban Development (Continued)**

**Effect** - The District's failure to evaluate collectibility of federal program loans caused interim financial statements to understate expenses and overstate loan receivables.

**Recommendation** - We recommend that the Commission periodically evaluate the collectibility of loans in its federal loan programs and adjust its interim financial statements accordingly.

**Compliance**

2017-001 **Recommendation** - We recommend that the Commission periodically evaluate the collectibility of loans in its federal loan programs and adjust its interim financial statements. The Commission should also comply with the State budget laws by amending its budget to ensure the actual provision for doubtful loans does not exceed budgeted amounts by five percent or more.

**Management's Response** - Management will periodically evaluate the collectibility of loans in its federal loan programs and adjust its interim financial statements. The Commission will also comply with the State budget laws by amending its budget to ensure the actual provision for doubtful loans does not exceed budgeted amounts by five percent or more. **Unresolved**, See 2018-001.

**STATEWIDE**  
**AGREED-UPON PROCEDURES**

**INDEPENDENT ACCOUNTANT'S REPORT ON**  
**APPLYING AGREED-UPON PROCEDURES**

To the Board of Commissioners  
South Central Planning & Development Commission, Inc.  
Houma, LA.

We have performed the procedures described in the following schedule, which were agreed to by South Central Planning & Development Commission (the Commission) and the Louisiana Legislative Auditor (LLA) on the control and compliance (C/C) areas identified in the LLA's Statewide Agreed-Upon Procedures (SAUPs) for the year ended June 30, 2018. The Commission's management is responsible for those C/C areas identified in the SAUPs.

This agreed-upon procedures engagement was conducted in accordance with the attestation standards established by the AICPA and the standards contained in the Government Auditing Standards, issued by the Comptroller General of the United States. The sufficiency of these procedures is solely the responsibility of the specified users of this report. Consequently, we make no representation regarding the sufficiency of the procedures referred to above, either for the purpose for which this report has been requested, or for any other purpose.

The procedures and associated findings are described in the following schedule.

We were not engaged to, and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on these C/C areas identified in the SAUPs. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

The purpose of this report is to describe the scope of testing performed on those C/C areas identified in the SAUPs, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 23:513, this report is distributed by the LLA as a public document.

**SCHEDULE OF PROCEDURES AND ASSOCIATED FINDINGS**  
**OF THE STATEWIDE AGREED-UPON PROCEDURES**

**South Central Planning & Development Commission**

For the year ended June 30, 2018

The required procedures and our findings are as follows:

**Procedures performed on the Commission's written policies and procedures:**

1. Obtain the Commission's written policies and procedures and report whether those written policies and procedures address each of the following financial/business functions (or report that the Commission does not have any written policies and procedures), as applicable:
  - a) Budgeting, included preparing, adopting, monitoring, and amending the budget  
Performance: Obtained and read the written policy for budget, and found it to contain the elements included above.  
Exceptions: There were no exceptions noted.  
Management's response: Not applicable.
  - b) Purchasing, including (1) how purchases are initiated; (2) how vendors are added to the vendor list; (3) the preparation and approval process of purchase requisitions and purchase orders; (4) controls to ensure compliance with the public bid law; and (5) documentation required to be maintained for all bids and price quotes.  
Performance: Obtained and read the written policy for purchasing, and found it to contain the elements included above.  
Exceptions: There were no exceptions noted.  
Management's response: Not applicable.
  - c) Disbursements, including processing, reviewing, and approving  
Performance: Obtained and read the written policy for disbursements, and found it to contain the elements included above.  
Exceptions: There were no exceptions noted.  
Management's response: Not applicable.
  - d) Receipts, including receiving, recording, and preparing deposits  
Performance: Obtained and read the written policy for receipts, and found it to contain the requirements listed above.  
Exceptions: There were no exceptions noted.  
Management's response: Not applicable.

## Procedures performed on the Commission's written policies and procedures: (Continued)

- e) Payroll/Personnel, including (1) payroll processing, and (2) reviewing and approving time and attendance records, including leave and overtime worked.  
Performance: Obtained and read the written policy for payroll and personnel, and found it to contain the requirements listed above.  
Exceptions: There were no exceptions noted.  
Management's response: Not applicable.
  
- f) Contracting, including (1) types of services requiring written contracts; (2) standard terms and conditions; (3) legal review; (4) approval process; and (5) monitoring process  
Performance: Obtained and read written policy for contracting.  
Exceptions: Management's policy on contracting does not include a provision for legal review of the contracts.  
Management's response: Management will consider adding a legal review provision for the contracts entered into by the Commission.
  
- g) Credit Cards (and debit cards, fuel cards, P-Cards, if applicable), including (1) how cards are to be controlled; (2) allowable business uses; (3) documentation requirements; (4) required approvers; and (5) monitoring card usage  
Performance: Obtained and read the written policy for credit cards, and found it contained all requirements listed above, except as noted below.  
Exceptions: Management's policy on credit cards does not include specific transactions to fall under allowable business uses.  
Management's response: Management will consider adding this provision to their credit card policy.
  
- h) Travel and expense reimbursement, including (1) allowable expenses; (2) dollar thresholds by category of expense; (3) documentation requirements; and (4) required approvers  
Performance: Obtained and read the travel and expense reimbursement policy, and found it contained all requirements listed above.  
Exceptions: The policy does not state dollar thresholds, but the Commission reimburses actual expenses and reserves the right to deny reimbursement of exorbitant or frivolous expenditures.  
Management's response: Not applicable.
  
- i) Ethics, including (1) the prohibitions as defined in Louisiana Revised Statute 42:1111-1121; (2) actions to be taken if an ethics violation takes place; (3) system to monitor possible ethics violations; and (4) requirement that all employees, including elected officials, annually attest through signature verification that they have read the entity's ethics policy.  
Performance: Inquired of management as to an ethics policy.  
Exceptions: Management confirmed there is no policy for ethics.  
Management's response: Management will consider drafting such a policy.

## **Procedures performed on the Commission's written policies and procedures: (Continued)**

- j) Debt Service, including (1) debt issuance approval; (2) EMMA reporting requirements; (3) debt reserve requirements; and (4) debt service requirements.

Performance: Inquired of management as to a debt service policy.

Exceptions: Management confirmed there was no policy for debt service.

Management's response: Management will consider drafting such a policy.

## **Procedures performed on the Commission's board:**

Prior year testing resulted in no exceptions related to Commission's board. Therefore, testing was not required in the current year.

## **Procedures performed on the Commission's bank reconciliations:**

- 2. Obtain a listing of the Commission's bank accounts from management and management's representation that the listing is complete. Management will identify the main operating account. Select the Commission's main operating account and select 4 additional accounts (or all accounts if less than 5). Select one month from the fiscal period, obtain and inspect the corresponding bank statement and reconciliation for each selected account, and observe that:

Performance: Obtained the listing of bank accounts from management, and received management's representation in a separate letter. Selected a month from the fiscal period, and obtained the corresponding bank statement and reconciliation for the Office's main operating account.

Exceptions: There were no exceptions noted.

Management's response: Not applicable.

- a) Bank reconciliations include evidence that they were prepared within 2 months of the related statement closing date (e.g., initialed and dated, electronically logged);

Performance: Observed that bank reconciliations were prepared within 2 months of the related statement closing date.

Exceptions: There were no exceptions noted.

Management's response: Not applicable.

- b) Bank reconciliations include evidence that a member of management or a board member who does not handle cash, post ledgers, or issue checks has reviewed each bank reconciliation (e.g., initialed and dated, electronically logged); and

Performance: Inspected documentation for management approvals of each bank reconciliation.

Exceptions: Bank reconciliations for one checking account had two months of no evidence that a member of management or a board member has reviewed each bank reconciliation.

Management's response: Management took corrective action and started documenting the approval of each bank reconciliation.

### **Procedures performed on the Commission's bank reconciliations: (Continued)**

- c) If applicable, management has documentation reflecting that it has researched reconciling items that have been outstanding for more than 12 months from the statement closing date.  
Performance: Inspected documents for items outstanding for more than 12 months from statement closing date.  
Exceptions: In our observation, we noted 1 check outstanding for longer 12 months from the statement closing date.  
Management's response: Management investigated the check and subsequently voided due to item being over 12 months outstanding from the statement closing date.

### **Procedures performed on the Commission's collections:**

Prior year testing resulted in no exceptions related to collections. Therefore, testing was not required in the current year.

### **Procedures performed on the Commission's non-payroll disbursements (excluding card purchases/payments, travel reimbursements, and petty cash purchases):**

3. Obtain a listing of locations that process payments for the fiscal period and management's representation that the listing is complete. Randomly select 5 locations (or all locations if less than 5).  
Performance: Obtained the listing of locations that process payments, and received management's representation in a separate letter. The Office has only one location that processes payments.  
Exceptions: There were no exceptions noted.  
Management's response: Not applicable.
4. For each location selected under #3 above, obtain a listing of those employees involved with non-payroll purchasing and payment functions. Obtain written policies and procedures relating to employee job duties (if the agency has no written policies and procedures, inquire of employees about their job duties), and observe that job duties are properly segregated such that:
- a) At least two employees are involved in initiating a purchase request, approving a purchase, and placing an order/making the purchase.  
Performance: Inspected policy manuals and inquired of management and employees as to requirement listed above.  
Exceptions: There were no exceptions noted.  
Management's response: Not applicable.
- b) At least two employees are involved in processing and approving payments to vendors.  
Performance: Inspected policy manuals and inquired of management and employees as to requirement listed above.  
Exceptions: There were no exceptions noted.  
Management's response: Not applicable.

**Procedures performed on the Commission's non-payroll disbursements (excluding card purchases/payments, travel reimbursements, and petty cash purchases): (Continued)**

- c) The employee responsible for processing payments is prohibited from adding/modifying vendor files, unless another employee is responsible for periodically reviewing changes to vendor files.

Performance: Inspected policy manuals and inquired of management and employees as to requirement listed above.

Exceptions: There were no exceptions noted.

Management's response: Not applicable.

- d) Either the employee/official responsible for signing checks mails the payment or gives the signed checks to an employee to mail who is not responsible for processing payments.

Performance: Inspected policy manuals and inquired of management and employees as to requirement listed above.

Exceptions: There were no exceptions noted.

Management's response: Not applicable.

5. For each location selected under #3 above, obtain the Commission's non-payroll disbursement transaction population (excluding cards and travel reimbursements) and obtain management's representation that the population is complete. Select 5 disbursements for each location, obtain supporting documentation for each transaction and:

- a) Observe that the disbursement matched the related original invoice/billing statement.

Performance: Obtained the disbursement and observed that the disbursement and the related original invoice/billing statement were in agreement.

Exceptions: There were no exceptions noted.

Management's response: Not applicable.

- b) Observe that the disbursement documentation included evidence (e.g., initial/date, electronic logging) of segregation of duties tested under #4, as applicable.

Performance: Obtained the disbursement documentation and observed for proper segregation of duties as listed under #4 above.

Exceptions: There were no exceptions noted.

Management's response: Not applicable.

## **Procedures performed on the Commission's credit cards, debit cards, fuel cards, P-cards:**

6. Obtain from management a listing of all active credit cards, bank debit cards, fuel cards, and P-cards (cards) for the fiscal period, including the card numbers and the names of the persons who maintained possession of the cards. Obtain management's representation that the listing is complete.

Performance: Obtained the listing of all active credit cards, bank debit cards, fuel cards, and P-cards (cards) for the fiscal period, and received management's representation in a separate letter. The commission only has two credit cards, held by Julie Foret, CAO and Kevin Belanger, CEO.

Exceptions: There were no exceptions noted.

Management's response: Not applicable.

7. Using the listing prepared by management, randomly select 5 cards (or all cards if less than 5) that were used during the fiscal period. Randomly select one monthly statement or combined statement for each card (for a debit card, randomly select one monthly bank statement), obtain supporting documentation, and:

- a) Observe that there is evidence that the monthly statement or combined statement and supporting documentation (e.g., original receipts for credit/debit card purchases, exception reports for excessive fuel card usage) was reviewed and approved, in writing, by someone other than the authorized card holder.

Performance: Obtained the monthly statement for January 2018, and observed the statement and the purchase order indicating the approval.

Exceptions: For credit card generally used by the Commission and held by Julie Foret, CAO, we observed the purchase order attached and the appropriate approval. For the credit card used by Kevin Belanger, CEO, we observed no approval by someone other than the authorized card holder.

Management's response: Going forward, the Commission will have a board member approve the CEO's credit card charges.

- b) Observe that finance charges and late fees were not assessed on the selected statements.

Performance: Traced all credit card payments and balances on the credit card statements in order to note if any fees were applied to balances.

Exceptions: There were no exceptions noted.

Management's response: Not applicable.

8. Using the monthly statements or combined statements selected under #7 above, excluding fuel cards, randomly select 10 transactions (or all transactions if less than 10) from each statement, and obtain supporting documentation for the transactions (i.e. each card should have 10 transactions subject to testing). For each transaction: observe that it is supported by an original itemized receipt that identifies precisely what was purchased; (2) written documentation of the business/public purpose; and (3) documentation of the individuals participating in meals (for meal charges only).

**Procedures performed on the Commission's credit cards, debit cards, fuel cards, P-cards:  
(Continued)**

- a) Observe that it is supported by an original itemized receipt that identifies precisely what was purchased,
  - 1) An original itemized receipt (i.e., identifies precisely what was purchased)  
Performance: Traced each transaction to an original itemized receipt.  
Exceptions: There were no exceptions noted.  
Management's response: Not applicable.
  - 2) Documentation of the business/public purpose. For meal charges, there should also be documentation of the individuals participating.  
Performance: Observed documentation of the purpose of each transaction. Confirmed that all meal charge documentation included the names of the individuals participating.  
Exceptions: One of the transactions reviewed did not have adequate documentation of the business purpose.  
Management's response: Management will implement a documentation system for all meals/entertainment charges.

**Procedures performed on the Commission's travel and expense reimbursements:**

- 9. Obtain from management a listing of all travel and travel-related expense reimbursements during the fiscal period and management's representation that the listing or general ledger is complete. Randomly select 5 reimbursements, obtain the related expense reimbursement forms/prepaid expense documentation of each selected reimbursement, as well as the supporting documentation. For each of the 5 reimbursements selected:
  - Performance: Obtained a list of all travel and travel related expense reimbursement, and received management's representation in a separate letter.
  - Exceptions: There were no exceptions noted.
  - Management's response: Not applicable.
- a) If reimbursed using a per diem, agree the reimbursement rate to those rates established either by the State of Louisiana or the U.S. General Services Administration ([www.gsa.gov](http://www.gsa.gov)).
  - Performance: Selected 5 reimbursements and obtained the supporting documentation. Observed that the reimbursements were reimbursed using actual costs, not using a per diem.
  - Exceptions: Not applicable.
  - Management's response: Not applicable.

### **Procedures performed on the Commission's travel and expense reimbursements: (Continued)**

- b) If reimbursed using actual costs, observe that the reimbursement is supported by an original itemized receipt that identifies precisely what was purchased.

Performance: Selected 5 reimbursements and obtained the supporting documentation.

Observed that the reimbursement was supported by original itemized receipt.

Exceptions: There were no exceptions noted.

Management's response: Not applicable.

- c) Observe that each reimbursement is supported by documentation of the business/public purpose (for meal charges, observe that the documentation includes the names of those individuals participating) and other documentation required by written policy (procedure #1h).

Performance: Selected 5 reimbursements and obtained the supporting documentation.

Observed that each reimbursement has evidence of documentation of the business/public purpose and other documentation required by written policy.

Exceptions: There were no exceptions noted.

Management's response: Not applicable.

- d) Observe that each reimbursement was reviewed and approved, in writing, by someone other than the person receiving reimbursement.

Performance: Inspected documentation to find all approvals by supervisors and/or the administrator.

Exceptions: There was one reimbursement that did not have an approval.

Management's response: The mileage log for the CEO was not approved, going forward, the Commission will have a board member approve the CEO's travel reimbursement.

### **Procedures performed on the Commission's contracts:**

Prior year testing resulted in no exceptions related to contracts. Therefore, testing was not required in the current year.

### **Procedures performed on the Commission's payroll and personnel:**

Prior year testing resulted in no exceptions related to payroll and personnel. Therefore, testing was not required in the current year.

### **Procedures performed on the Commission's ethics:**

10. Selected five employees/officials and obtain ethics compliance documentation from management, and:

### **Procedures performed on the Commission's ethics: (Continued)**

- a) Observe that the documentation demonstrated each employee/official completed one hour of ethics training during the fiscal period.  
Performance: Observed the ethics course completion certificates for the five employees tested.  
Exceptions: There were no exceptions noted.  
Management's response: Not applicable.
  
- b) Observe that the documentation demonstrated each employee/official attested through signature verification that he or she has read the Commission's ethics policy during the fiscal period. .  
Performance: Inquired of management about documentation of each employee/official's signature verification that he or she has read the ethics policy.  
Exceptions: The Commission does not have an ethics policy as stated at 1f above.  
Management's response: Management will have all employees/officials attest through signature verification that he or she has read the Commission's ethics policy once the ethics policy is created.

### **Procedures performed on the Commission's debt service:**

Prior year testing resulted in no exceptions related to debt service. Therefore, testing was not required in the current year.

### **Other procedures performed on the Commission:**

- 11. Inquire of management whether the Commission had any misappropriations of public funds or assets. If so, obtain/review supporting documentation and report whether the Commission reported the misappropriation to the legislative auditor and the commission attorney of the parish in which the Commission is domiciled.  
Performance: Inquired of management of any misappropriations of public funds or assets, none were noted.  
Exceptions: Not applicable.  
Management's response: Not applicable.
  
- 12. Observe and report whether the Commission has posted on its premises and website, the notice required by R.S. 24:523.1. This notice (available for download or print at [www.la.gov/hotline](http://www.la.gov/hotline)) concerns the reporting of misappropriation, fraud, waste, or abuse of public funds.  
Performance: Inquired and observed such notice posted on the premises (the Commission does not have a website).  
Exceptions: There were no exceptions noted.  
Management's response: Not applicable.
