INDEPENDENT AUDITOR'S REPORT

Honorable Mike Tubbs
Morehouse Parish Sheriff

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund, of the Morehouse Parish Sheriff, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the Morehouse Parish Sheriff's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund, of the Morehouse Parish Sheriff, as of June 30, 2025, and the respective changes in financial position, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States; and the Louisiana Governmental Audit Guide. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Morehouse Parish Sheriff and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Morehouse Parish Sheriff's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Morehouse Parish Sheriff's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Morehouse Parish Sheriff's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Employee Health Care Plan – Schedule of Funding Progress, Schedule of Sheriff's Proportionate Share of Net Pension Liability, and Schedule of Sheriff's Contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Morehouse Parish Sheriff's basic financial statements. The accompanying combining schedules of fiduciary fund – Agency Funds; the Affidavit regarding cash on hand, taxes assessed, and taxes collected; the Schedule of Compensation, Benefits, and Other Payments to Agency Head; and the Justice System Funding Schedules, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining schedules of fiduciary fund – Agency Funds; the Affidavit regarding cash on hand, taxes assessed, and taxes collected; the Schedule of Compensation, Benefits, and Other Payments to Agency Head; and the Justice System Funding Schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated December 26, 2025, on our consideration of the Morehouse Parish Sheriff's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Morehouse Parish Sheriff's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Morehouse Parish Sheriff's internal control over financial reporting and compliance.

**NOTES TO FINANCIAL STATEMENTS
AS OF AND FOR THE YEAR ENDED JUNE 30, 2025**

Introduction

As provided by Article V, Section 27 of the Louisiana Constitution of 1974, the sheriff serves a four-year term as the chief executive officer of the law enforcement district and ex-officio tax collector of the parish. The sheriff also administers the parish jail system and exercises duties required by the parish court system, such as providing bailiffs, executing orders of the court, and serving subpoenas.

As the chief law enforcement officer of the parish, the sheriff has the responsibility for enforcing state and local laws and ordinances within the territorial boundaries of the parish. The sheriff provides protection to the residents of the parish through on-site patrols and investigations and serves the residents of the parish through the establishment of neighborhood watch programs and anti-drug abuse programs. Additionally, the sheriff, when requested, provides assistance to other law enforcement agencies within the parish.

As the ex-officio tax collector of the parish, the sheriff is responsible for the collection and distribution of ad valorem property taxes; occupational licenses; beer and liquor licenses; state revenue sharing; and fines, costs, and bond forfeitures imposed by the district court.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

In June 1999, the Governmental Accounting Standards Board (GASB) unanimously approved Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*. The accompanying financial statements and notes thereto are presented in accordance with Statement No. 34.

Reporting Entity

GASB Statement No. 14, *The Reporting Entity*, as amended by subsequent statements, established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under provisions of this Statement, the jury is considered a primary government, since it is a special purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. As used in GASB Statement No. 14, fiscally independent means that the Sheriff may, without the approval or consent of another governmental entity, determine or modify its own budget, levy its own taxes or set rates or charges, and issue bonded debt. In accordance with GASB Statement 14, the reporting entity for Morehouse Parish Sheriff consists of (a) the primary government (Sheriff), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

BASTROP, LOUISIANA**

**NOTES TO FINANCIAL STATEMENTS
AS OF AND FOR THE YEAR ENDED JUNE 30, 2025**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Reporting Entity (Continued)

GASB Statement No. 14 established criteria for determining which component units should be considered part of Morehouse Parish Sheriff for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. These criteria include:

1. Appointing a voting majority of an organization's governing body, and:
 - a. The ability of the Sheriff to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the Sheriff.
2. Organizations for which the Sheriff does not appoint a voting majority but are fiscally dependent on the Sheriff.
3. Organizations for which the reporting entity's financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

As the governing authority of the parish, for reporting purposes, Morehouse Parish Police Jury is the financial reporting entity for Morehouse Parish. The Sheriff is an independently elected official that is not fiscally dependent on Morehouse Parish Police Jury. Therefore, the Sheriff is not a component unit of the financial reporting entity for Morehouse Parish.

Component units that are legally separate from the Sheriff, but are financially accountable to the Sheriff, or whose relationship with the Sheriff is such that exclusion would cause the Sheriff's financial statements to be misleading or incomplete are discretely presented. The component unit column on the statement of net position and on the statement of activities includes the financial data of Morehouse Dare Inc. ("DARE"), the discretely presented component unit. The component unit's data is reported in a separate column to emphasize that it is legally separate from the Sheriff. The purpose of DARE is to develop, promote, monitor, and evaluate the drug awareness program parish wide. DARE is financially accountable to the Sheriff because (1) the director of DARE is an employee of the Sheriff (criteria 1. above), and (2) because the Sheriff can impose its will on DARE by the Sheriff's ability to affect the activities and level of service performed by DARE (criteria 1.a. above). In addition, the Sheriff provides funding in the form of state grant funds being passed through to the organization and the Sheriff can reassign or dismiss those persons responsible for the day-to-day operations of DARE.

Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. In the government-wide presentation, governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

**MOREHOUSE PARISH SHERIFF
BASTROP, LOUISIANA**

**NOTES TO FINANCIAL STATEMENTS
AS OF AND FOR THE YEAR ENDED JUNE 30, 2025**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Government-wide Financial Statements (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are proprietary and fiduciary fund financial statements, where applicable. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Program revenues included in the statement of activities are derived directly from users as a fee for services or are grants that are restricted to meeting the requirement of a particular program. Program revenues reduce the cost of the function to be financed from the Sheriff's general revenues.

Equity is classified as net position and displayed in three components:

Net investment in capital assets - Consists of capital assets including restricted capital assets net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction or improvement of those assets.

Restricted net position - Consists of net position with constraints placed on the use either by (1) external groups, such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislations.

Unrestricted net position - All other net position that does not meet the definition of "restricted" or "invested in capital assets, net of related debt."

When both restricted and unrestricted resources are available for use, it is the Sheriff's policy to use restricted resources first, then the unrestricted resources as they are needed.

Fund Financial Statements

Separate financial statements are provided for governmental funds and, where applicable, proprietary and fiduciary funds, even though fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds and, where applicable, major individual enterprise funds are reported as separate columns in the fund financial statements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Financial Statements (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

Governmental Fund Type

The Sheriff's current year financial statements include the following major governmental funds:

General Fund - The General Fund is the primary operating fund of the Sheriff. It accounts for all financial resources except those required to be accounted for in other funds. The General Fund is available for any purpose provided it is expended or transferred in accordance with state and federal laws and according to the Sheriff's policy.

Corrections Fund – The Corrections Fund is used to account for the operation and maintenance of the Morehouse Parish Jail Annex and the Collinston Detention Center. The primary source of revenue is state funds for feeding and maintaining state prisoners.

Fiduciary fund Type

Fiduciary fund reporting focuses on net asset and changes in net position. The only funds accounted for in this category by the Sheriff are agency funds. The agency funds account for assets held by the Sheriff as an agent for various taxing bodies (tax collections, fines, and licenses), deposits held pending court action, inmates' personal funds, and funds earned by inmates under the work release program. These funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurement made regardless of the measurement focus applied.

Accrual

Both governmental and business-type activities in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting (Continued)

Modified Accrual

The governmental fund financial statements are presented on the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Governmental funds and the fiduciary type agency funds use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The Sheriff considers all revenues available if they are collected within sixty days after the fiscal year end. Expenditures are recorded when the related fund liability is incurred, except for the interest and principal payments on general long-term debt which is recognized when due, and certain compensated absences and claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources. The governmental funds use the following practices in recording revenues and expenditures:

Revenues

Ad valorem taxes and the related state revenue sharing are recorded as revenue in the year the taxes are due and payable. Ad valorem taxes are assessed on a calendar year basis, attach as an enforceable lien, and become due and payable on the date the tax rolls are filed with the recorder of mortgages. Louisiana Revised Statute 47:1993 requires that the tax roll be filed on or before November 15 of each year. Ad valorem taxes become delinquent if not paid by December 31. The taxes are normally collected in December, January, and February of the fiscal year.

Sales and use taxes are recognized as revenue when received by the Sheriff's collection agent, Morehouse Parish Sales and Use Tax Commission. Intergovernmental revenues and fees, charges, and commissions for services are recorded when the Sheriff is entitled to the funds. Interest income on time deposits is recorded when the time deposits have matured, and the interest is available.

Based on the above criteria, ad valorem taxes; state revenue sharing; sales and use taxes; intergovernmental revenues; and fees, charges, and commissions for services are treated as susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the Sheriff.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting (Continued)

The statements contain no provision for uncollectible accounts. The Sheriff is of the opinion that such allowance would be immaterial in relation to the basic financial statements taken as a whole.

Expenditures

Expenditures are generally recognized under the modified accrual basis when the related fund liability is incurred.

Other Financing Sources (Uses)

Transfers between funds which are not expected to be repaid and insurance proceeds are accounted for as other financing sources (uses) and are recognized when the underlying events occur.

Budgets and Budgetary Accounting

Proposed budgets for the General Fund and the Corrections Fund are prepared on the modified accrual basis of accounting and published in the official journal prior to the public hearing. Public hearings are held at the Sheriff's office during the month of June for comments from taxpayers. The budgets are then legally adopted by the Sheriff and amended during the year, as necessary. Budgets are established and controlled by the Sheriff at the object level of expenditure. All annual appropriations lapse at fiscal year-end.

Encumbrance accounting is not used. However, formal budgetary integration is employed as a management control device during the fiscal year. Budgeted amounts included in the accompanying financial statements include the original adopted budget amounts and all subsequent amendments.

Deposits and Investments

The Sheriff's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. State law allows the Sheriff to invest in collateralized certificates of deposits, government backed securities, commercial paper, the Louisiana Asset Management Pool (a state sponsored investment pool), and mutual funds consisting solely of government backed securities. Currently, the agency funds' investments consist of non-negotiable certificates of deposit with original maturities that exceeded ninety days and are reported in the accompanying financial statements at cost, which approximates market value.

Interfund Balances

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Ad Valorem Taxes

All property tax receivables are shown net of uncollectible accounts. Ad valorem taxes are assessed on a calendar year basis and attach as an enforceable lien and become due and payable on the date the tax rolls are filed with the recorder of mortgages. Louisiana Revised Statute 47:1993 requires that the tax roll be filed on or before November 15th. Ad valorem taxes become delinquent if not paid by December 31. The taxes are normally collected during December, January and February of the fiscal year.

As provided by Louisiana Revised Statute 33:9001 a law enforcement district has been created for the purpose of providing financing to the office of the Sheriff. Louisiana Revised Statute 33:9003 requires the district to levy a tax on the assessed valuation of all property appearing on the 1977 and subsequent tax rolls in an amount that would produce for the district in the initial year the same revenue as that estimated to be produced by the Sheriffs commission on ad valorem taxes for the fiscal year ended June 30, 1977. For the 2024 tax roll, the district levied 5.46 mills on property with an assessed value of \$225,215,122.

The difference between authorized and levied millage is the result of reassessments of taxable property within the parish as required by Article 7, Section 18 of the Louisiana Constitution of 1974. The following are the principal taxpayers for the parish and their 2024 assessed valuation (amounts expressed in thousands):

	Assessed Valuation	Percent of Total Assessed Valuation	Tax
Entergy Louisiana Holdings, Inc.	\$ 9,647	4.28%	\$ 995
Morehouse Bioenergy, LLC	8,879	3.94%	849
Texas Gas Transmission LLC	7,174	3.19%	680
Union Pacific Railroad Company	6,104	2.71%	588
Kennedy Rice Mill, LLC	5,352	2.38%	549
Tennessee Gas Pipeline Company LLC	4,629	2.06%	435
Gulf South Pipeline Company LLC	3,601	1.60%	359
Kennedy Rice Dryers, LLC	3,310	1.47%	341
Simmons Sporting Goods	2,440	1.08%	324
Midcontinent Express Pipeline, LLC	2,870	1.27%	286
Total	<u>\$ 54,006</u>	<u>23.98%</u>	<u>\$ 5,406</u>

Sales and Use Taxes

In October of 1998, voters of the parish approved a one-half of one percent (.5%) sales and use tax. The proceeds of the tax, after paying reasonable and necessary costs of collection, are dedicated to operation of the law enforcement district. In May 2009, the tax was renewed for ten years expiring on December 31, 2019. In October 2019, the tax was renewed for a term of ten years effective January 1, 2020, and ending December 31, 2029. The Sheriff has entered into an agreement with Morehouse Parish Sales and Use Tax Commission for collection of the tax. For its services, the collection agent receives a one and one-half percent to two percent (1.5% - 2%) collection fee.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Sales and Use Taxes (Continued)

In April of 2011, voters of the parish approved an additional one percent (1%) sales and use tax to be collected indefinitely. The proceeds of the tax, after paying reasonable and necessary costs of collection, are dedicated to operation of the law enforcement district. The Sheriff has entered into an agreement with Morehouse Parish Sales and Use Tax Commission for collection of the tax. For its services, the collection agent receives a one and one-half percent to two percent (1.5% - 2%) collection fee.

Capital Assets

Capital assets, which include property, plant, equipment, etc., are reported in the governmental activities column in the government-wide financial statements. Capital assets are capitalized at historical cost or estimated cost if historical cost is not available.

Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The Sheriff maintains a threshold level of \$2,500 or more for capitalizing assets.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend their useful lives are not capitalized.

All capital assets, other than land and construction in progress, are depreciated using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Buildings and improvements	40 Years
Equipment	5 - 15 Years
Vehicles	5 Years

Compensated Absences

Employees of the Sheriff earn from ten to thirty days of vacation leave each year, depending on length of service. The Sheriff requires employees to use all accrued vacation days prior to the employee's next anniversary date unless approved for carryover by the chief deputy or sheriff.

Employees earn three to six hours of sick leave each pay period, depending on length of service up to a maximum of 156 hours per year. Employees can accrue an unlimited amount of sick leave.

Employees earn compensatory time at the rate of one hour earned for one hour worked until eighty-six hours accumulated in a fourteen-day work period. Thereafter, time is earned at the rate of one and half times each overtime hour worked. Employees may accumulate unused compensatory time. Accumulated compensatory time is paid to the employee in the form of days off or is paid to the employee at the employee's current rate of pay upon separation from service.

Estimated accrued compensated absences resulting from unused vacation and compensatory time at the end of the fiscal year are recorded in the government-wide financial statements as long-term liabilities. No liability is recorded for nonvesting accumulating rights to receive sick pay benefits.

**NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Compensated Absences (Continued)

The cost of accumulated compensatory time is reported as an expenditure of the General Fund when the employee uses the time in the form of days off or is paid for accumulated time upon separation from service.

Long-term Obligations

In the government-wide financial statements, long-term obligations, such as certificates of indebtedness and compensated absences are reported as liabilities in the applicable governmental activities.

In the fund financial statements, governmental fund types recognize long-term obligations only to the extent that they will be paid with current resources. The fund financial statements recognize proceeds of debt as other financing sources of the current period. Expenditures for long-term debt principal and interest are recorded in the fund financial statements in the year payments are due.

Accounting principles generally accepted in the United States of America require that postemployment benefits for retired employees be accrued and reported as liabilities in the government-wide financial statements.

Fund Equity

In accordance with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the Sheriff classifies governmental fund balances as follows:

Non-spendable fund balance includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual constraints.

Restricted fund balance includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.

Committed fund balance includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision-making authority and does not lapse at year-end. Fund balance may be committed by the Sheriff.

Assigned fund balance includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund balance may be assigned by the Sheriff.

Unassigned fund balance includes positive fund balance within the General Fund which has not been classified within the above-mentioned categories and negative fund balances in other governmental funds.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events within the control of the Sheriff, which are either unusual in nature or infrequent in occurrence.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - CASH AND CASH EQUIVALENTS

Custodial credit risk is the risk that the Sheriff's deposits may not be returned to it in the event of a bank failure. The Sheriff's policy to ensure that there is no exposure to this risk is to require each financial institution to pledge its own securities to cover any amount in excess of Federal Depository Insurance Coverage. Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the Sheriff that the fiscal agent bank has failed to pay deposited funds upon demand.

Under state law, the Sheriff may deposit funds in demand deposits, interest bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having principal offices in Louisiana. At June 30, 2025, the Sheriff has cash and cash equivalents (book balances) totaling \$4,135,652, as follows:

Primary government:	
Demand deposits	\$3,108,237
Time deposits	1,024,912
Cash on hand	1,103
Petty cash	1,400
Total	<u>4,135,652</u>
Amounts held in agency funds	<u>(407,574)</u>
Total primary government	<u><u>\$3,728,078</u></u>
Component unit:	
Demand deposits	<u><u>\$ 85,404</u></u>

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance, or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent.

NOTE 7 - RETIREMENT SYSTEM

Sheriffs' Pension and Relief Fund (System)

Plan Description

The Morehouse Parish Sheriff contributes to the Sheriffs' Pension and Relief Fund (System) which is a cost sharing multiple employer defined benefit pension plan. All sheriffs and deputies who are 18 years or older at the time of original employment, who earn not less than \$400 per month if employed after September 7, 1979, and before January 1, 1991; \$550 if employed between January 1, 1991 and December 31, 1999; and \$800 if employed after January 1, 2000, are required to participate in the System.

Plan members who become eligible for membership on or before December 31, 2011 may retire at:

- Age 55 with a minimum of 12 years creditable service
- Age 60 with at least 10 years of creditable service
- Any age with 30 years of creditable service

The retirement allowance is equal to three and one-third percent of the member's average final compensation multiplied by his years of creditable service, not to exceed (after reduction for optional payment form) 100% of average final compensation. Survivor, death and disability benefits are also provided under the plan.

**MOREHOUSE PARISH SHERIFF
BASTROP, LOUISIANA**

**NOTES TO FINANCIAL STATEMENTS
AS OF AND FOR THE YEAR ENDED JUNE 30, 2025**

NOTE 7 - RETIREMENT SYSTEM (CONTINUED)

Members whose first employment began on or after January 1, 2012 may retire at:

- Age 62 with 12 years of creditable service
- Age 60 with 20 years of creditable service
- Age 55 with 30 years of creditable service
- Age 50 with 20 years of creditable service with reduced benefits

The benefit rate for such members with less than 30 years of service is three percent; for members with thirty or more years, the benefit rate is three and one-third percent. The retirement allowance is equal to the benefit accrual rate times the member's average final compensation multiplied by his years of creditable service, not to exceed (after reduction for optional payment form) 100% of average final compensation.

For a member whose first employment began on or before June 30, 2006, final average compensation is based on the average monthly earnings during the highest thirty-six consecutive months or joined months if service was interrupted. The earnings to be considered for each twelve-month period within the thirty-six-month period shall not exceed 125% of the preceding twelve-month period.

For a member whose first employment began after June 30, 2006 and before July 1, 2013, final average compensation is based on the average monthly earnings during the highest sixty consecutive months or joined months if service was interrupted. The earnings to be considered for each twelve-month period within the sixty-month period shall not exceed 125% of the preceding twelve-month period.

For a member whose first employment began on or after July 1, 2013, final average compensation is based on the average monthly earnings during the highest sixty consecutive months or joined months if service was interrupted. The earnings to be considered for each twelve-month period within the sixty-month period shall not exceed 115% of the preceding twelve-month period.

For the year ended June 30, 2025 (plan year ended June 30, 2024), the Morehouse Parish Sheriff's Office covered payroll was \$4,499,956. Covered payroll includes all compensation paid to active employees covered by the Plan.

The System also provides death and disability benefits; benefits are established or amended by state statute.

For members retiring before July 1, 2001, in lieu of terminating employment and accepting a service retirement allowance, members who is eligible to retire may elect to participate in the deferred retirement option plan (DROP). During such period, employer contributions continue but employee contributions cease. Monthly benefits that the member would have received during the DROP period are paid into the DROP fund. Interest is earned when the member has completed DROP participation, based on the actual rate of return on the investments identified as DROP funds for the period.

BASTROP, LOUISIANA**

**NOTES TO FINANCIAL STATEMENTS
AS OF AND FOR THE YEAR ENDED JUNE 30, 2025**

NOTE 7 - RETIREMENT SYSTEM (CONTINUED)

Effective July 1, 2001, the Back-DROP program replaced the DROP program. In lieu of receiving a retirement benefit, any member of the Plan who meets regular service requirements may make a one-time irrevocable election to receive a “Back-DROP” benefit. A member elects Back-DROP at the time of separation from employment (retirement). The Back-DROP benefit is based on the Back-DROP period selected and the final average compensation prior to the period selected. The Back-DROP period is the lesser of three years or the service time accrued between when a member first becomes eligible for retirement and his actual date of retirement. For those individuals with thirty or more years, the Back-DROP period is the lesser of four years or service time accrued between when a member becomes eligible for retirement and his actual date of retirement. A member’s Back-DROP benefit is the maximum monthly retirement benefit multiplied by the number of months in the Back-Drop period. In addition, the member’s Back-Drop account will be credited with employee contributions received by the Plan during the Back-DROP period. The member’s DROP and Back-FROP balances left on deposit are managed by a third party, fixed income investment manager. Participants have the option to opt out of this program and take a lump sum distribution, if eligible, annuitize all or a portion of the Back-DROP balance, or to rollover the assets to another qualified plan.

Employer Contributions

According to state statute, contribution requirements for all employers are actuarially determined each fiscal year. For the year ended June 30, 2024, the actual employer contribution rates were 11.50%, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

As of June 30, 2025, the Morehouse Parish Sheriff’s Office reported a total of \$3,221,041 for its proportionate share of the net pension liability of the Plan. The net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Morehouse Parish Sheriff’s Office proportion of the net pension liability was based on a projection of the Office’s long-term contributions to the plans relative to the projected contributions of all participating employers, actuarially determined. The Office’s proportions of the Plan as of June 30, 2024 and 2023 were 0.533097% and 0.547659%, respectively.

For the year ended June 30, 2025, the Office recognized pension expense of \$919,612.

NOTE 8 - POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS

Effective for the year ended June 30, 2025, the Morehouse Parish Sheriff implemented Government Accounting Standards Board Statement Number 75, *Accounting and Financial Reporting for Postemployment Benefit Plans Other Than Pensions* (GASB 75).

Plan description

The Morehouse Parish Sheriff's Office's medical benefits are provided to employees upon actual retirement.

The employer pays 100% of the medical coverage for the retiree (not dependents). Employees are covered by a retirement system whose retirement eligibility (D.R.O.P. entry) provisions as follows: 30 years of service at any age or, age 55 and 15 years of service. See the section below entitled "Expected Time of Commencement of Benefits" for the assumption as to time of actual retirement.

Employees covered are as follows:

Status	Single	Employee + Dependent Coverage
Active (=105)	97	8
Retired (=38)	36	2
Total (=143)	133	10

NOTE 8 - POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

Contribution Rates

Employees do not contribute to their post-employment benefits costs until they become retirees and begin receiving those benefits. The plan provisions and contribution rates are contained in the official plan documents.

Fund Policy

Until the fiscal year ending 2011, when GASB Statement No. 45 was implemented, the Morehouse Parish Sheriff's Office recognized the cost of providing post-employment medical benefits (the Morehouse Parish Sheriff's Office's portion of the retiree medical benefit premiums) as an expense when the benefit premiums were due and thus financed the cost of the post-employment benefits on a pay-as-you-go basis.

Effective with the fiscal year beginning July 1, 2019, the Morehouse Parish Sheriff's Office implemented Government Accounting Standards Board Statement Number 75, *Accounting and Financial Reporting for Postemployment Benefit Plans Other Than Pensions* (GASB 75). During the year ended June 30, 2024, the Morehouse Parish Sheriff's Office's portion of health care funding cost for retired employees totaled \$238,478

Funded Status and Funding Progress

In the fiscal year ending June 30, 2025, the Morehouse Parish Sheriff's Office made no contributions to its post-employment benefits plan. The plan was not funded at all, has no assets, and hence has a funded ratio of zero. As of June 30, 2025, the most recent actuarial valuation, the Total OPEB Liability (TOL) was \$12,015,893, which is defined as that portion, as determined by a particular actuarial cost method (the Morehouse Parish Sheriff's Office uses the Individual Entry Age Normal Cost Method – Level Percentage of Projected Salary), of the actuarial present value of post-employment plan benefits and expenses which is not provided by normal cost. Since the plan was not funded in the fiscal year ended June 30, 2025, the entire OPEB liability of \$12,015,893 was unfunded.

Total OPEB Liability (TOL)	\$ 12,015,893
Actuarial value of plan assets	-
NET OPEB Liability (NOL)	<u>12,015,893</u>
Funded ratio (Act. Val. Assets/TOL)	0%
Covered payroll (active plan members)	<u>\$ 3,847,332</u>
NOL as a percentage of covered payroll	312.32%

Actuarial Methods and Assumptions

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. The actuarial valuation for post-employment benefits includes estimates and assumptions regarding (1) turnover rate; (2) retirement rate; (3) health care cost trend rate; (4) mortality rate; (5) discount rate (investment return assumption); and (6) the period to which the costs apply (past, current, or future years of service by employees). Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

The actuarial calculations are based on the types of benefits provided under the terms of the substantive plan (the plan as understood by the Morehouse Parish Sheriff's Office and its employee plan members) at the time of the valuation and on the pattern of sharing costs between the Morehouse Parish Sheriff's Office and its plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the Morehouse Parish Sheriff's Office and plan members in the future. Consistent with the long-term perspective of actuarial calculations, the actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial liabilities and the actuarial value of assets.

Actuarial Cost Method

The actuarial method used was the Individual Entry Age Normal Cost Method – Level Percentage of Projected Salary. The employer portion of the cost for retiree medical care in each future year is determined as a level percent of pay that would fully fund the benefit promise by the time of retirement.

Turnover Rate

The employee retirement rates were developed from the assumption used in the LSPRF 2017 actuarial report. The rates for each age are below:

	Percent
Age	Turnover
55	14.0%
65	21.0%
70	100.0%

Post-employment Benefit Plan Eligibility Requirements

Historically, employees have retired after age 55 and 18 years of service. We have therefore assumed that employees retire three years after the earlier of that historical retirement age or age 60 and 15 years of service. The three years is to accommodate the D.R.O.P. period. Medical benefits are provided to employees upon actual retirement. Employees are covered by a retirement system whose retirement eligibility (D.R.O.P. entry) provisions as follows: 30 years of service at any age or, age 55 and 15 years of service. Entitlement to benefits continues through Medicare to death.

Investment Return Assumption (Discount Rate)

GASB Statement 75 states that the investment return assumption should be the long-term expected rate of return on OPEB plan investments that are expected to be used to finance the payment of benefits, to the extent that (1) the OPEB plan's fiduciary net position is projected and (2) OPEB plan assets are expected to be invested using a strategy to achieve that return a yield or index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. Since the plan is not currently being funded and not expected to be funded in the near future, we have performed this valuation using a 4.21% annual investment return assumption (1.71% real rate of return plus 2.50% inflation).

Health Care Cost Trend Rate

For the year ended June 30, 2025, the annual medical trend rate was 4.50%.

Mortality Rate

The mortality assumption was calculated using the RPH-2014 Total table with Project MP-2021.

Salary Scale

The salary assumption was calculated at 3.50%.

Sensitivity of the Trend and Discount Rate

Method of Determining Value of Benefits

The "value of benefits" has been assumed to be the portion of the premium after retirement date expected to be paid by the employer for each retiree and has been used as the basis for calculating the actuarial present value of OPEB benefits to be paid. The employer pays 100% of the cost of the medical benefits for the retiree only (not dependents). The medical rates provided are "blended" rates for active and retired before Medicare eligibility.

NOTE 13 – ON-BEHALF PAYMENTS

Certain employees receive supplemental pay from the state of Louisiana. In accordance with GASB Statement No. 24, the Sheriff has recorded revenues and expenditures for these payments in the General Fund. Revenues of \$555,941, under this arrangement, are presented as state government grants on the statement of revenues and expenditures. The related expenditures are included in public safety expenditures in the General Fund.

NOTE 14 - RISK MANAGEMENT

The Sheriff is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; liability; and injuries to employees or others. To handle such risk of loss, the Sheriff maintains commercial insurance policies covering automobile liability and medical payments, workers' compensation, general liability, and surety bond coverage on the secretary/treasurer and other employees handling money. There were no significant reductions in the Sheriff's insurance coverage during the fiscal year. No claims were paid on any of the policies during the past three years, which exceeded the policies' coverage amounts.

NOTE 15 - LITIGATION

As of June 30, 2025, the Sheriff was involved in several lawsuits. In the opinion of legal counsel, resolution of these lawsuits will not result in any liability in excess of insurance coverage.

NOTE 16 – EXPENDITURES OF SHERIFF'S OFFICE PAID BY POLICE JURY

The Sheriff's offices were constructed by the Morehouse Parish Police Jury. Certain costs of maintaining and operating the offices, as required by Louisiana Revised Statute 33:4715, are paid by the Morehouse Parish Police Jury.

**NOTES TO BUDGETARY COMPARISON SCHEDULES FOR MAJOR FUNDS
FOR THE YEAR ENDED JUNE 30, 2025**

Proposed budgets for the General Fund and the Corrections Fund are prepared on the modified accrual basis of accounting and published in the official journal prior to the public hearing. Public hearings are held at the Sheriff's office during the month of June for comments from taxpayers. The budgets are then legally adopted by the Sheriff and amended during the year, as necessary. Budgets are established and controlled by the Sheriff at the object level of expenditure. All annual appropriations lapse at fiscal year-end.

Encumbrance accounting is not used. However, formal budgetary integration is employed as a management control device during the fiscal year. Budgeted amounts included in the accompanying financial statements include the original adopted budget amounts and all subsequent amendments.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Mike Tubbs
Morehouse Parish Sheriff
Bastrop, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States; and the Louisiana Governmental Audit Guide, the financial statements of the governmental activities and each major fund, of Morehouse Parish Sheriff, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise Morehouse Parish Sheriff's basic financial statements and have issued our report thereon dated December 26, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Morehouse Parish Sheriff's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Morehouse Parish Sheriff's internal control. Accordingly, we do not express an opinion on the effectiveness of Morehouse Parish Sheriff's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Morehouse Parish Sheriff's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
