Re: Village of Rosedale  
12/31/20 Audited Financial Statements

To Whom It May Concern:

Attached you will find a complete copy of the resubmission of the Village of Rosedale's 12/31/20 audited financial statements. On October 13, 2021, we received an email regarding the failure to include the Justice System Funding Schedule with our annual audit as required by Act 87 of the 2020 Legislative Session. Upon further review, we discovered that the Village of Rosedale is subject to this requirement. Please accept our revised submission and thank you for your assistance with this matter.

Sincerely,

John S. Disotell III, CPA

## INDEPENDENT AUDITORS' REPORT

To Mayor Blanchet and  
Members of the Board of Alderman  
Rosedale, Louisiana

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Rosedale, Louisiana as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Rosedale, as of December 31, 2020, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4 through 8 and 38 through 39, be presented to supplement the basic financial statements. Such information, including pension information on pages 40 through 42, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Rosedale's basic financial statements. The accompanying supplemental information schedules and other information as listed in the foregoing table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying supplemental information schedules and other information as listed in the foregoing table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

## **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated June 8, 2021 on our consideration of the Village of Rosedale's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Village of Rosedale's internal control over financial reporting and compliance.

**MANAGEMENT'S DISCUSSION  
AND ANALYSIS**

**VILLAGE OF ROSEDALE, LOUISIANA**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**December 31, 2020**

As management of the Village of Rosedale, Louisiana (the "Village"), we offer readers of the financial statements this narrative overview and analysis of the financial activities of the Village for the fiscal year ended December 31, 2020. This management discussion and analysis ("MD&A") is designed to provide an easy-to-read analysis of the Village's financial activities based upon facts, decisions, or conditions currently known. This MD&A is intended to provide the readers of these financials with a broad overview of Village finances. It is also intended to provide readers with an analysis of the Village's short-term and long-term activities based upon information presented in the financial report and fiscal policies that have been adopted by the Village. Specifically, this section is designed to assist the reader in focusing on significant financial issues, provide an overview of the Village's financial activity, identify changes in the Village's financial position (its ability to address next year and subsequent year challenges), identify any material deviations from the financial plan (the approved budget), and identify individual fund issues or concerns.

The information contained within this MD&A should be considered only a part of a greater whole, as should all other sections in this financial report. The readers of this statement should take time to read and evaluate all sections of this report, including the footnotes and the other Required Supplemental Information ("RSI") that is provided in addition to this Management's Discussion and Analysis.

### **Financial Highlights**

- The Village's assets exceeded its liabilities at the close of the most recent fiscal year by \$7,026,347, an increase of \$275,711 from last year. Of this amount of net position, \$1,823,597 is unrestricted net position and may be used to meet the government's ongoing obligations to citizens and creditors.
- As of the close of the current fiscal year, the Village's governmental funds reported combined ending fund balances of \$3,325,655, an increase of \$462,932 in comparison with the prior year. The unrestricted fund balance in the general fund, \$2,032,644, is available for spending at the government's discretion (unassigned fund balance). All other fund balances are non-spendable, restricted for fire protection, or assigned for subsequent year budget stabilization.
- At the end of the current fiscal year, the total general fund expenditures and transfers out was 33.26 percent of unassigned fund balance for the general fund.
- Cash and investments increased by \$488,041 for the year ended December 31, 2020.

### **Overview of the Financial Statements**

The intention of the discussion and analysis is to serve as an introduction to the Village's financial statements. The Village's basic financial statements consist of the following components:

1. Government-Wide Financial Statements
2. Fund Financial Statements
3. Notes to the Financial Statements
4. Other Supplementary Information, in addition to the basic financial statements themselves.

### **1. GOVERNMENT-WIDE FINANCIAL STATEMENTS**

Government-Wide Financial statements are designed by GASB Statement No. 34 to change the way in which government financial statements are presented. It now provides readers for the first time a concise "entity-wide" Statement of Net Position and Statement of Activities, seeking to give the user of the financial statements a broad overview of the Village's financial position and results of operations in a manner similar to private-sector business.

- A. The statement of net position presents information on all of the Village's assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by

**VILLAGE OF ROSEDALE, LOUISIANA  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
December 31, 2020**

most private-sector companies. The difference between the assets and liabilities is reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Village is improving or weakening.

- B. The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government wide financial statements further assist the reader in their evaluation by distinguishing functions of the Village into:

- A. Governmental activities that are principally supported by taxes and intergovernmental revenues, and
- B. Business-type activities from other functions that are intended to recover all or a significant portion of their costs through user fees and charges.

**Government-Wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Village of Rosedale, assets exceeded its liabilities at the close of the most recent fiscal year by \$7,026,347, an increase of \$275,711 from last year. The following is a summary of the Village's net position:

**NET POSITION**

	<u>Governmental Activities</u>		<u>Business- type Activities</u>		<u>Total</u>	
	<u>2019</u>	<u>2020</u>	<u>2019</u>	<u>2020</u>	<u>2019</u>	<u>2020</u>
Current & Other Assets	2,912,228	3,355,336	152,472	143,859	3,064,700	3,499,195

Total Assets	<u>5,848,168</u>	<u>6,211,176</u>	<u>1,410,391</u>	<u>1,314,178</u>	<u>7,258,559</u>	<u>7,525,354</u>
Deferred Outflows	<u>119,787</u>	<u>108,554</u>	-0-	-0-	<u>119,787</u>	<u>108,554</u>
Current Liabilities	49,505	29,681	463	7,268	49,968	36,949
Long-term Liabilities	<u>563,981</u>	<u>545,441</u>	-0-	-0-	<u>563,981</u>	<u>545,441</u>
Total liabilities	<u>613,486</u>	<u>575,122</u>	<u>463</u>	<u>7,268</u>	<u>613,949</u>	<u>582,390</u>
Deferred Inflows	<u>13,761</u>	<u>25,171</u>	-0-	-0-	<u>13,761</u>	<u>25,171</u>
Net Position:						
Invested in capital assets, Net of related debt	2,935,940	2,855,840	1,257,919	1,170,319	4,193,859	4,026,159
Restricted	1,058,119	1,176,591	-0-	-0-	1,058,119	1,176,591
Unrestricted	<u>1,346,649</u>	<u>1,687,006</u>	<u>152,009</u>	<u>136,591</u>	<u>1,498,658</u>	<u>1,823,597</u>
Total Net Position	<u>5,340,708</u>	<u>5,719,437</u>	<u>1,409,928</u>	<u>1,306,910</u>	<u>6,750,636</u>	<u>7,026,347</u>

By far, the largest position of the Village's net position reflects its investment in capital assets (e.g., land, buildings, land improvements, machinery and equipment, vehicles, Village infrastructure, etc.). The Village uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

The Village's net position increased by \$275,711 during the current fiscal year.

**Governmental Activities**

The Governmental Activities of the Village include General Government, Public Safety, and Public Works. Sales taxes, franchise taxes, as well as occupational licenses and fines fund these governmental activities.

Sales taxes are the largest revenue source for the Village comprising 90.7% of total governmental revenue. These revenues decreased from December 31, 2019 to December 31, 2020 by \$67,266.

Expenditures for the governmental activities decreased by \$107,339 or 12.9% due to decreased general government and public safety costs.

**Business-Type Activities**

The Business-Type Activities of the Village are those the Village charges a fee to customers to help cover all or most of the cost of certain services it provides. The Village's water department is reported here.

**2. FUND FINANCIAL STATEMENTS**

A fund is the grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Village can be divided into two categories: governmental funds and proprietary funds.

**VILLAGE OF ROSEDALE, LOUISIANA**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**December 31, 2020**

A. Governmental funds are used to account for most of the Village's basic services that are reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. Modified accrual accounting is used to report these funds. Modified accrual accounting measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Village's general government operations and the basic services it provides. Governmental fund information aids in the determination of whether there are more or less financial resources that can be spent in the near future to finance the Village's programs.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for government funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the governments near term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. These reconciliations are located on pages 13 and 15.

The Village maintains three individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for these funds. The basic fund financial statements can be found on pages 12 and 14 of this report.

#### **Financial Analysis of the Governmental Funds**

As of the end of the current fiscal year, the Village's governmental funds reported combined ending fund balances of \$3,325,655, an increase of \$462,932 from the prior year ending December 31, 2019. In the General Fund, the unassigned fund balance is \$2,032,644.

The general fund balance consists of a non-spendable balance of \$18,638 in the form of prepaid expenses and \$11,546 in the form of inventory, and assigned fund balance for subsequent year budget stabilization in the amount of \$116,420.

The Village's major fund, the General Fund, had an increase from the prior year of \$343,656, from \$1,835,592 in the year ending December 31, 2019 to \$2,179,248 in the year ending December 31, 2020. The restricted fund balances in the other governmental funds in the amount of \$1,139,592 indicates that these funds are not available for new spending because they have already been restricted for fire protection.

B. *Proprietary Funds-* Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Village uses enterprise funds to account for water system. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The basic proprietary fund financial statements can be found on pages 16-18 of this report.

### **3. NOTES TO THE FINANCIAL STATEMENTS**

The notes to the financial statements provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statement can be found on pages 20-36 of this report.

### **4. OTHER SUPPLEMENTARY INFORMATION**

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information. Required supplementary information can be found beginning on page 38 of this report.

**VILLAGE OF ROSEDALE, LOUISIANA  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
December 31, 2020**

The Village's annual operating budgets are the legally adopted expenditure control documents of the Village. These operating budgets were very conservative and during the year, the operating budgets were amended once.

The General Fund budgeted revenues were \$976,190 which was \$43,514 less than actual revenues. Current expenditures were \$163,327 less than the budgeted expenditures. Capital Outlays were \$71,388 compared to budgeted capital outlays of \$79,500 during the fiscal year.

A budgetary comparison statement for the General Fund and Fire Protection Fund is required and can be found on pages 38 and 39. These statements compare the adopted budgets and the actual expenditures prepared on a budgetary basis which was prepared on the modified accrual basis of accounting.

Additional required supplementary information includes information on employee retirement system information as it pertains to the Village (pages 40-42).

**Supplemental Information**

- A. Schedule of Compensation, Benefits, and Other Payments to Agency Head is shown on page 44.
- B. Other Reports required by Government Auditing Standards follow, starting on page 45.

**Capital Assets**

The Village's investment in capital assets for its governmental and business-type activities as of December 31, 2020 amounts to \$4,026,159 (net of accumulated depreciation). This investment in capital assets includes land, buildings and systems, improvements, machinery and equipment, furniture and fixtures, and park facilities. The total decrease in the Village's investment in capital assets for the current fiscal year was \$167,700 or 4.0%, including depreciation expense in the amount of \$151,488.

Major capital asset additions during the current fiscal year included the following:

- 1. One vehicle for \$34,743
- 2. One tract of land for \$32,637
- 3. Mobile meter reading equipment for \$21,150

Additional information on the Village's capital assets can be found in note 5 on page 29 of this report.

**Economic Factors and Next Year's Budget**

The General Fund budget adopted for the fiscal year ending December 31, 2021 only shows a moderate increase in expenditures to maintain the services provided to the citizens of the Village. Revenues are budgeted consistent with the prior year to remain conservative.

The Village relies heavily on sales tax revenues for the operations of both the General Fund (87%) and Fire Department (18%). Therefore, governmental activities are impacted by the economic growth of the area. The Fire Department budget also includes \$760,500 in state grants which will be used for capital outlay.

Due to the COVID-19 pandemic, the United States has experienced volatile economic conditions and disruption of general business activities. It is unknown how this will affect the Village's operations in the coming year at the date of this report.

**Contacting the Village's Financial Management**

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the Village's finances and to demonstrate the Village's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact Courtney Bourgoyne, Clerk, Village of Rosedale, Post Office Box 167, Rosedale, Louisiana, 70772.

**VILLAGE OF ROSEDALE, LOUISIANA  
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES  
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES**

**For the Year Ended December 31, 2020**

Net change in fund balances - total governmental funds	\$	462,932
--	----	---------

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount which capital outlays exceeded depreciation in the current period.

Capital outlays		71,388
Depreciation expense		(151,488)

Governmental funds report current year pension contributions as expenditures. However, in the statement of activities it is an actuarially calculated expense. This represents the difference between pension contributions and actuarially calculated expense.		(12,662)
---	--	----------

The Village's proportionate share of non-employer contributions to the pension plans do not provide current financial resources and, therefore, are not reported as revenue in the governmental funds.		8,559
--	--	-------

Change in net position of governmental activities	\$	<u>378,729</u>

**NOTES TO FINANCIAL STATEMENTS**

**Village of Rosedale, Louisiana**  
**Notes to the Financial Statements**  
**As of and for the Year Ended December 31, 2020**

**INTRODUCTION**

The Village of Rosedale, Louisiana (Village) was incorporated on August 2, 1955, under the provisions of Title 33, Chapter 2, Part I, of the Louisiana Revised Statutes (Lawrason Act - Act No. 36 of 1898). The Village operates under an elected Mayor - Board of Aldermen form of government (see note 14) and provides the following services as authorized by its charter: public safety (police and fire), highways and streets, sanitation, recreation, public improvements, and general administrative services. The Village also provides water utility services to its residents. The Village is located in Iberville Parish, Louisiana and has a population of 793. The Board of Aldermen is comprised of three persons and the Village has 7 full-time and 3 part-time employees.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. BASIS OF PRESENTATION**

The accompanying financial statements of the Village have been prepared in conformity with governmental accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The accompanying financial statements have been prepared in conformity with GASB Statement 34, *Basic Financial Statements- and Management's Discussion and Analysis—for State and Local Governments*, issued in June 1999. Such accounting and reporting procedures also conform to the requirements of Louisiana Revised Statutes 24:517 and to the guides set forth in the *Louisiana Audit Guide* and the industry audit guide, *Audit of States, Local Governments and Non-profit Organizations*, published by the American Institute of Certified Public Accountants.

**B. REPORTING ENTITY**

The Village's combined financial statements include the accounts of all the Village's operations. The criteria for including organizations as component units within the Village's reporting entity, as set forth in Section 2100 of GASB's *Codification of Governmental Accounting and Financial Reporting Standards*, include:

- the organization is legally separate (can sue and be sued in their own name)
- the Village holds the corporate powers of the organization
- the Village appoints a voting majority of the organization's board
- the Village is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the Village
- there is fiscal dependency by the organization on the Village

GASB Statement No. 14, *The Reporting Entity*, established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under provisions of this Statement, the financial statements must present the Village (primary government) and its components. Pursuant to this criterion, no component units were identified for inclusion in the accompanying financial statements.

The accompanying financial statements present information only on the funds maintained by the Village of Rosedale.

**C. FUND ACCOUNTING**

The Village uses funds to maintain its financial records during the year. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating

**Village of Rosedale, Louisiana**  
**Notes to the Financial Statements**

transactions relating to certain government functions and activities. A fund is a separate accounting entity with a self-balancing set of accounts. Funds of the Village are classified into two categories: governmental and proprietary. In turn, each category is divided into separate fund types. The fund classifications and a description of each existing fund type follow:

**GOVERNMENTAL FUNDS**

Governmental funds are used to account for all or most of the Village's general activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of general fixed assets, and the servicing of general long-term debt. Governmental funds include:

GENERAL FUND - the general operating fund of the Village and accounts for all financial resources, except those required to be accounted for in other funds. Revenues are derived primarily from property and other local taxes, state and federal grants, licenses, permits, charges for services, and interest income.

SPECIAL REVENUE FUNDS - account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

- Fire Protection – to account for the collection and distribution of proceeds of the 2/3 percent parish sales tax allocated to the Village of Rosedale for fire protection

**PROPRIETARY FUNDS**

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Proprietary funds differ from governmental funds in that their focus is on income measurement, which, together with the maintenance of equity, is an important financial indicator. Proprietary funds include:

ENTERPRISE FUNDS - account for operations (a) where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided the periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

**D. MEASUREMENT FOCUS/BASIS OF ACCOUNTING**

**Government-Wide Financial Statements (GWFS)**

The Statement of Net Position and the Statement of Activities display information about the Village as a whole. These statements include all the financial activities, both governmental and business, of the Village. Information contained in these statements reflects the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from exchange or exchange-like transactions are recognized when the exchange occurs (regardless of when cash is received or disbursed). Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities and deferred inflows of resources resulting from non-exchange transactions are recognized in accordance with the requirements of GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*.

**Program Revenues** – Program revenues included in the Statement of Activities are derived directly from users as a fee for services; program revenues reduce the cost of the function to be financed from the Village's general revenues.

**Village of Rosedale, Louisiana**  
**Notes to the Financial Statements**

**Fund Financial Statements (FFS)**

The amounts reflected in the governmental funds of the Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balance are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach is then reconciled, through adjustment, to a government-wide view of the Village's operations (See the reconciliation statements).

The amounts reflected in the governmental funds in the FFS use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The Village considers all revenues available if they are collected within 60 days after the fiscal year end. Expenditures are recorded when the related fund liability is incurred, except for interest and principal payments on general long-term debt which is recognized when due, and certain compensated absences and claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources. The governmental funds use the following practices in recording revenues and expenditures:

Revenues and other governmental fund financial resource increments are recognized in the accounting period when they become susceptible to accrual which is when they become both "measurable" and "available" to finance expenditures of the fiscal period.

Taxpayer-assessed sales taxes are considered "measurable" when in the hands of collecting governments and are recognized as revenue at that time. Anticipated refunds of such taxes are recorded as liabilities and reductions of revenue when they are measurable and their validity seems certain.

Utility and franchise taxes, licenses and permits, fines and forfeitures, charges for services and miscellaneous revenue (except investment earnings) are recorded as revenue when cash is received because they generally are not measurable until actually received. Investment earnings are recorded as earned when they are measurable and available. Where grant revenue is dependent upon expenditures by the Village, revenue is recognized when the related expenditures are incurred.

Expenditures are recognized under the accrual basis of accounting when the related fund liability is incurred.

Transfers between funds that are not expected to be repaid (and any other financing source/use) are accounted for as other financing sources (uses).

All proprietary funds are accounted for on a flow of economic resources measurement focus and a determination of net income and capital maintenance. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. The proprietary funds use the accrual basis of accounting. Revenues are recognized when earned, and expenses are recognized at the time liabilities are incurred.

The revenue of the water system, which is based upon rates authorized by the governing board, is determined by billings to customer. Earned but unbilled revenue is accrued and reported in the financial statements.

**Village of Rosedale, Louisiana**  
**Notes to the Financial Statements**

**E. CASH AND CASH EQUIVALENTS**

Cash includes amounts in demand deposits, interest-bearing demand deposits, and time deposits. Under state law, the Village may deposit funds in demand deposits, interest-bearing demand deposits, or time deposits with state banks organized under Louisiana law or any other state of the United States, or under the laws of the United States.

**F. INVESTMENTS**

Investments are limited by Louisiana Revised Statute (R.S.) 33:2955 and the Village's investment policy. If the original maturities of investments exceed 90 days, they are classified as investments; however, if the original maturities are 90 days or less they are classified as cash equivalents. GASB Statement No. 31, allows the Village to report at amortized cost money market investments and participating interest-bearing investment contracts that have a remaining maturity at time of purchase of one year or less, provided that the fair value of those investments is not significantly affected by the impairment of the credit standing of the issuer or by other factors. Money market investments are short-term, highly liquid debt instruments that include U.S. Treasury obligations. Interest earning investment contracts include time deposits with financial institutions (such as certificates of deposit), repurchase agreements, and guaranteed investment contracts. Investments of the Village are reported at fair market value which approximates cost. (see note 3).

**G. RECEIVABLES/PAYABLES**

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (the current portion of inter-fund loans) or "advances to/from other funds" (non-current portion of inter-fund loans). Any residual balances outstanding between governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

**H. INVENTORIES**

Inventories consists of materials and supplies which are stated at cost.

**I. PREPAID ITEMS**

The Village records prepaid assets for any significant expenditure that can be allocable to future periods in both the government-wide and fund financial statements.

**J. RESTRICTED NET POSITION**

Government-wide and proprietary fund net position are divided into three components:

- Net Investment in capital assets - consist of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets.
- Restricted net position - consist of net position that is restricted by the Village's creditors, by the state enabling legislation (through restrictions on shared revenues), by grantors (both federal and state), and by any other contributors.
- Unrestricted - all other net position is reported in this category.

Restricted or unrestricted amounts are considered spent when an expenditure is incurred for purposes for which both restricted and unrestricted net assets are available. Restricted amounts would be reduced first, when expenditures are incurred for purposes for which restriction was established.

**Village of Rosedale, Louisiana  
Notes to the Financial Statements**

**K. CAPITAL ASSETS**

Capital assets, which include property, plant, equipment and infrastructure assets (e.g. roads, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are capitalized at historical cost or estimated cost if historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The Village maintains a threshold level of \$500 or more for capitalizing capital assets. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

All capital assets, other than land, are depreciated using the straight-line method over the following useful lives:

Buildings	40 Years
Land improvements	20 Years
Water distribution system	20 Years
Machinery & equipment	5-20 Years
Furniture & fixtures	5-10 Years
Fire trucks & equipment	10-15 Years
Vehicles	5 Years

**L. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES**

The Village follows GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*. This statement provides guidance for reporting deferred outflows, deferred inflows and net position in a statement of financial position and related disclosures and applies to transactions that result in the consumption or acquisition of net assets in one period that are applicable to future periods. The Village's deferred outflows/inflows consist of resources related to pensions (see note 8).

**M. COMPENSATED ABSENCES**

Employees of the Village earn personal leave at various rates depending upon length of employment. Employees with less than 5 years of service will accumulate total leave time at the rate of 3/4 day per month worked. Employees with more than 5 years of service will accumulate total leave time at the rate of 1 ½ days per month worked. The maximum leave time which may be accumulated is an amount equal to the number of days which can be earned by the employee during a twenty-four (24) month period. However, personal leave accumulated in excess of the maximum permitted shall be credited to the employee as sick leave.

Under the federal Family and Medical Leave Act of 1993 eligible employees must substitute accumulated personal leave and then all unused sick leave for any part or all of the weeks of leave the employee is entitled under that Act.

Personal leave may be taken as earned by an employee with the approval of the employee's department head. Employees who resign or retire, or who are dismissed from employment shall not be paid for accrued leave. However, any unused sick leave credited to an employee who terminates employment by retirement shall be reported to the retirement system of which the employee is a member.

**N. PENSIONS**

Financial reporting information pertaining to the Village's participation in the Municipal Employees' Retirement System (MERS) is prepared in accordance with GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, as amended by GASB Statement No. 71, *Pension Transition*

**Village of Rosedale, Louisiana**  
**Notes to the Financial Statements**

for Contributions Made Subsequent to the Measurement Date, which have been adopted by the Village for the fiscal year ended December 31, 2015.

The fiduciary net position, as well as additions to and deductions from the fiduciary net position, of MERS have been determined on the same basis as they are reported by MERS. The financial statements were prepared using the accrual basis of accounting, member and employer contributions are recognized when due, pursuant to formal commitments and statutory requirements. Benefits and refunds of employee contributions are recognized when due and payable in accordance with the statutes governing MERS. Expenses are recognized when the liability is incurred, regardless of when payment is made. Investments are reported at fair value on a trade date basis. The fiduciary net position is reflected in the measurement of the Village's proportionate share of the plan's net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense.

**O. FUND EQUITY**

The Village has adopted GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. This statement establishes criteria for classifying fund balances into specifically defined classifications and clarifies definitions for governmental fund types. The following describes the different classifications available for fund balances of governmental funds:

*Nonspendable* – amounts that cannot be spent because they are either (1) not in spendable form or (2) legally or contractually required to be maintained intact.

*Restricted* – amounts for which constraints have been externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or amounts that are imposed by law through constitutional provisions or enabling legislation.

*Committed* – amounts that can be used only for specific purposes determined by formal action of the Village Board, who is the highest level of decision-making authority for the Village of Rosedale. Commitments cannot be used for any other purpose unless the same action that established them decides to modify or remove them.

*Assigned* – amounts that do not meet the criteria to be classified as either restricted or committed but are intended to be used for specific purposes. Amounts can only be assigned by the Village Board or by a body or individual designated for that purpose.

*Unassigned* – the residual fund balance in the general fund.

When fund balance resources are available for a specific purpose, the Village considers the most restrictive funds to be used first. However, the Village reserves the right to spend unassigned resources first and to defer the use of more restrictive funds.

**P. INTER-FUND TRANSACTIONS**

Permanent reallocation of resources between funds of the reporting entity is classified as inter-fund transfers. For the purposes of the statement of activities, all inter-fund transfers between individual governmental and business-type funds have been eliminated.

**Q. STATEMENT OF CASH FLOWS**

For purposes of the Statement of Cash Flows, the Proprietary Fund considers cash and cash equivalents those amounts invested in demand deposits.

**Village of Rosedale, Louisiana  
Notes to the Financial Statements**

**R. USE OF ESTIMATES**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results may differ from those estimates.

**NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY**

**A. BUDGETARY INFORMATION**

The Village uses the following budget practices for the General Fund and Special Revenue Funds.

1. The proposed budget for fiscal year December 31, 2020 was made available for public inspection in accordance with RS 39:1306 beginning on November 12, 2019. The proposed budget was published in the official journal in accordance with RS 39:1306 on November 21, 2019. The public hearing was held in accordance with RS 39:1306 on December 10, 2019. The budget is legally adopted and amended, as necessary.
2. All unencumbered budget appropriations, except project budgets, lapse at the end of each fiscal year.
3. Budgets are adopted on a GAAP basis.
4. Budget amendments involving the transfer of funds from one department, program or function to another or involving increases in expenditures resulting from revenues exceeding amounts estimated requires the approval of the Village Board. One amendment was made to the original budget for the year ending December 31, 2020.

**B. DEPOSITS AND INVESTMENT LAWS AND REGULATIONS**

In accordance with state law, all uninsured deposits of Village funds in financial institutions must be secured with acceptable collateral valued at the lower of market or par. As reflected in note 3 regarding cash and cash equivalents, the Village was in compliance with the deposits and investment laws and regulations.

**C. EXCESS OF EXPENDITURES OVER APPROPRIATIONS**

The following funds had actual expenditures over budgeted appropriations for the year ended December 31, 2020.

Fund	Original Budget	Final Budget	Actual	Unfavorable Variance
------	--------------------	--------------	--------	-------------------------

None

**NOTE 3 - DEPOSITS AND INVESTMENTS**

**A. Cash and Cash Equivalents**

Cash and Cash equivalents include bank accounts and short-term investments. See Note 1(E) for additional cash disclosure note information.

**Village of Rosedale, Louisiana  
Notes to the Financial Statements**

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure the Village's deposits may not be returned. Deposits are exposed to custodial credit risk if they are either (a) uninsured and uncollateralized, or (b) uninsured and collateralized with securities held by the pledging financial institution or its trust department/agent but not in the name of the Village. The Village's cash and investment policy, as well as state law, require that deposits be fully secured by federal deposit insurance or the pledge of securities owned by the bank. The fair value of the pledged securities plus the federal deposit insurance must at all times equal or exceed the amount on deposit with the bank. The following chart represents bank balances for the Village as of December 31, 2020. Deposits are listed in terms of whether they are exposed to custodial credit risk.

**Bank Balances**

	<u>Uninsured &amp; Uncollateralized</u>	Uninsured & Collateralized with Securities Held by Pledging Institution or It's Trust Department/Agent but <u>Not in the Entity's Name</u>	Total Bank Balances – <u>All Deposits</u>	Total Carrying Value – All <u>Deposits</u>
Cash and Cash Equivalents	\$ -0-	\$ -0-	\$ 316,550	\$ 293,239

Total bank balances do not include petty cash amounts on hand of \$100 at year end.

**B. Investments**

Investments are stated at fair value. See also Note 1 (F) for additional investment disclosure information.

Credit Risk - Investments

Investments permitted by state statute include obligations issued, insured or guaranteed by the U.S. government including certificates or other ownership interest in such obligations and/or investments in registered mutual or trust funds consisting solely of U.S. government securities. The Village's investment program is limited to purchases of bank certificate of deposits, U.S. treasury and government agency obligations as well as investments in the Louisiana Asset Management Pool, Inc. (LAMP). LAMP is a nonprofit corporation formed by an initiative of the State Treasurer, and organized under the laws of the State of Louisiana which operates a local government investment pool. It is the Village's opinion that since these securities are governmental agencies, credit risk is not a factor. LAMP is rated AAAM by Standard & Poor's.

Custodial Credit Risk - Investments

Custodial credit risk for investments is the risk that in the event of the failure of the counterparty to a transaction, the Village will not be able to recover the value of the investment. Investments are exposed to custodial risk if the securities are (a) uninsured and unregistered and held by the counterparty or (b) uninsured, unregistered and held by the counterparty's trust department or agent but not in the name of the Village. The following chart presents the investment position of the Village as of December 31, 2020. The various types of investments are listed and presented by whether they are exposed to custodial credit risk.

**Village of Rosedale, Louisiana**  
**Notes to the Financial Statements**

	Uninsured, Unregistered, And Held by the Counterparty	Uninsured, Unregistered & Held by the Counterparty's Trust Department or Agent but Not in the Entity's Name	All Investments – Reported Amount	All Investments – Fair Value
Investments Not Categorized:				
LAMP	\$ -0-	\$ -0-	\$ 3,080,872	\$ 3,080,872
Total	<u>\$ -0-</u>	<u>\$ -0-</u>	<u>\$ 3,080,872</u>	<u>\$ 3,080,872</u>

Interest Rate Risk - Investments

Interest rate risk is defined as the risk that changes in interest rates will adversely affect the fair value of investments. Investments can be highly sensitive to changes in interest rates due to their terms or characteristics. The Village's investment policy with regards to interest rate risk is to match cash flow requirements with cash flows from investments. This matching allows for securities to be held to maturity thereby avoiding realizing losses due to liquidation of securities prior to maturity, especially in a rising interest rate environment. Investing in longer term maturities that contain a "step up" in coupon interest rates will also contribute to the reduction of interest rate risk. LAMP is designed to be highly liquid to give its participants immediate access to their account balances. LAMP prepares its own interest rate risk disclosure using the weighted average maturity (WAM) method. The WAM of LAMP assets is restricted to not more than 90 days and consists of no securities with a maturity in excess of 397 days or 762 days for U.S. Government floating/variable rate investments. The WAM for LAMP's total investments is 88 as of December 31, 2020. Investments classified by maturity dates at December 31, 2020 are summarized below:

	Fair Value	0-1 Years Before Maturity	1-5 Years Before Maturity	6+ Years Before Maturity
LAMP	\$ 3,080,872	\$ 3,080,872	\$ -	\$ -
Total	<u>\$ 3,080,872</u>	<u>\$ 3,080,872</u>	<u>\$ -</u>	<u>\$ -</u>

**NOTE 4 - ACCOUNTS AND INTERGOVERNMENTAL RECEIVABLES**

The following is a summary of receivables at December 31, 2020.

<u>Class of Receivable</u>	<u>General Fund</u>	<u>Special Rev. Fund</u>	<u>Enterprise Fund</u>
Intergovernmental			
Sales Tax	\$ 60,349	\$ 12,337	\$ -0-
State	102	-0-	-0-
Accounts	-0-	-0-	5,298
Other	8,351	-0-	-0-
Total	<u>\$ 68,802</u>	<u>\$ 12,337</u>	<u>\$ 5,298</u>

The Village uses the allowance method whereby uncollectible amounts due from customers' utility receivables are recognized as bad debts through the use of an allowance account or are charged off at the time information becomes available which indicates the particular receivable is not collectible. An allowance for doubtful accounts balance of \$2,000 was recorded at December 31, 2020.

**Village of Rosedale, Louisiana**  
**Notes to the Financial Statements**

**NOTE 5 - CAPITAL ASSETS**

Capital assets and depreciation activity as of and for the year ended December 31, 2020 are as follows:

<b>Governmental activities:</b>	Balance 1/1/20	Additions	Deletions	Balance 12/31/20
Capital assets not depreciated:				
Land	\$ 255,553	\$ 32,637	\$ -0-	\$ 288,190
Construction in progress	58,890	-0-	-0-	58,890
Capital assets being depreciated:				
Buildings	779,696	-0-	-0-	779,696
Improvements other than buildings	3,333,916	4,008	-0-	3,337,924
Machinery & equipment	1,468,330	34,743	-0-	1,503,073
<b>Total assets</b>	<b>5,896,385</b>	<b>71,388</b>	<b>-0-</b>	<b>5,967,773</b>
Less accumulated depreciation:				
Buildings	464,412	21,612	-0-	486,024
Improvements other than buildings	1,155,800	100,163	-0-	1,255,963
Machinery & equipment	1,340,233	29,713	-0-	1,369,946
<b>Totals</b>	<b>\$ 2,960,445</b>	<b>\$ 151,488</b>	<b>\$ -0-</b>	<b>\$ 3,111,933</b>
Capital assets, net of accumulated depreciation	<u>\$ 2,935,940</u>	<u>\$ (80,100)</u>	<u>\$ -0-</u>	<u>\$ 2,855,840</u>

Depreciation expense of \$151,488 for the year ended December 31, 2020, was charged to the general government function.

<b>Proprietary activities:</b>	Balance 1/1/20	Additions	Deletions	Balance 12/31/20
Capital assets not depreciated:				
Construction in progress	\$ -0-	\$ 6,357	\$ -0-	\$ 6,357
Capital assets being depreciated:

Fire Protection:		
General Fund	-0-	233
Totals	\$ 233	\$ 233

**NOTE 8 - PENSION PLAN**

Municipal Employees' Retirement System of Louisiana (MERS)

*Plan Description.* The System was originally established by Act 356 of the 1954 regular session of the Legislature of the State of Louisiana to provide retirement benefits to employees of all incorporated villages, towns, and cities within the state, which did not have their own retirement system and which elected to become members of the system. The System is administered by a Board of Trustees composed of eleven members, three of whom shall be active and contributing members of the System with at least ten years creditable service and who are elected to office in accordance with the Louisiana Election Code, three of whom shall be active and contributing members of the System with at least ten years creditable service and who are not elected officials; one of whom shall be president of the Louisiana Municipal Association who shall serve as an ex-officio member during his tenure; one of whom shall be Chairman of the Senate Retirement Committee; one of whom shall be the Chairman of the House Retirement Committee of the Legislature of Louisiana; the commissioner of administration, who shall be a nonvoting member; and the State Treasurer, who shall be a nonvoting member. The System is the administrator of a cost-sharing multiple-employer defined benefit pension plan. The System was established and provided for by R.S. 11:1731 of the Louisiana Revised Statutes (LRS). Act 569 of

**Village of Rosedale, Louisiana**  
**Notes to the Financial Statements**

the year 1968 established by the Legislature of the State of Louisiana provides an optional method for municipalities to cancel Social Security and come under supplementary benefits in the MERS, effective on and after June 30, 1970. Effective October 1, 1978, under Act 788, the "regular plan" and the "supplemental plan" were replaced, and are now known as Plan "A" and Plan "B". Plan A combines the original plan and the supplemental plan for those municipalities participating in both plans, while Plan B participates in only the original plan.

Eligibility Requirements

Membership is mandatory as a condition of employment beginning on the date employed if the employee is on a permanent basis working at least thirty-five hours per week. Those individuals paid jointly by a participating employer and the parish are not eligible for membership in the System with exceptions as outlined in the statutes. Any person eligible for membership but whose first employment making him eligible for membership in the System occurred on or after January 1, 2013 shall become a member of the MERS Plan A Tier 2 or MERS Plan B Tier 2 of the System as a condition of employment. All employees of the Village are members of Plan A, therefore only Benefits for Plan A are reflected below.

Retirement Benefits

Benefit provisions are authorized within Act 356 of the 1954 regular session and amended by LRS 11:1756-11:1785. The following brief description of the plan and its benefits is provided for general information purposes only. Participants should refer to the appropriate statutes for more complete information.

Any member of Plan A who commenced participation in the System prior to January 1, 2013 can retire providing he/she meets one of the following criteria:

- 1) Any age with twenty-five (25) or more years of creditable service.
- 2) Age 60 with a minimum of ten (10) years of creditable service.
- 3) Any age with five (5) years of creditable service eligible for disability benefits
- 4) Survivor's benefits require five (5) or more years creditable service with legal spouse and at least last 12 months before death – 40% at age 60 or minimum of 20% immediately (actuarially calculated).
- 5) Any age with 20 years of creditable service, exclusive of military service with an actuarially reduced early benefit.

Generally, the monthly amount of the retirement allowance for any member of Plan A shall consist of an amount equal to three percent of the member's monthly average final compensation multiplied by his years of creditable service. Final average compensation is the average monthly earnings during the highest sixty consecutive months, or joined months if service is interrupted. However, under certain conditions as outlined in the statutes, the benefits are limited to specified amounts. See Plan booklet for further details.

Any member of Plan A Tier 2 can retire providing he meets one of the following requirements.

- 1) Age 67 with seven years of creditable service.
- 2) Age 62 with ten years of creditable service.
- 3) Age 55 with thirty years of creditable service.
- 4) Any age with twenty-five years of creditable service with an actuarially reduced early benefit.
- 5) Survivor's benefits require five or more years of creditable service with legal spouse at least 12 months before death- 40% at age 60 or minimum of 20% immediately (actuarially calculated).

Generally, the monthly amount of the retirement allowance for any member of Plan A Tier 2 shall consist of an amount equal to three percent of the member's final average compensation

**Village of Rosedale, Louisiana**  
**Notes to the Financial Statements**

multiplied by his years of creditable service. Final average compensation is the average monthly earnings during the highest sixty consecutive months, or joined months if service is interrupted. However, under certain conditions as outlined in the statutes, the benefits are limited to specified amounts. See Plan booklet for further details.

Survivor Benefits

Upon death of any member of Plan A with five (5) or more years of creditable service, not eligible for retirement, the plan provides for benefits for the surviving spouse and minor children as outlined in the statutes. Any member of Plan A who is eligible for normal retirement at the time of death and who leaves a surviving spouse will be deemed to have retired and selected Option 2 benefits on behalf of the surviving spouse on the date of death. Such benefits will begin only upon proper application and are paid in lieu of any other survivor benefits.

- 1) Surviving spouse who is not eligible for social security survivorship or retirement benefits, married no less than twelve (12) months immediately preceding death of member, shall be paid a monthly benefit equal to thirty percent of the member's final compensation, payable when the surviving spouse attains the age of sixty years or becomes disabled and payable for as long as the surviving spouse lives, or
- 2) A monthly benefit equal to the actuarial equivalent of the benefit described above, but not less than fifteen percent of the member's final compensation, payable upon death of the member and payable for as long as the surviving spouse lives. Selecting this benefit precludes the survivor from eligibility for the thirty-percent benefit payable when the surviving spouse attains the age of sixty years.

Any member of Plan A who had not withdrawn their accumulated contributions and had at least twenty years of service credit at time of death, surviving spouse shall receive benefits for as long as he/she lives as outlined in the statutes.

DROP Benefits

In lieu of terminating employment and accepting a service allowance, any member of Plan A who is eligible to retire may elect to participate in the deferred retirement option plan (DROP) for up to three years and defer the receipt of benefits. During participation in the plan, employer contributions are payable but employee contributions cease. The monthly retirement benefits that would be payable, had the person elected to cease employment and receive a service retirement allowance, are paid into the DROP Fund. Interest is earned when the member has completed DROP participation. Interest earnings are based upon the actual rate of return on the investments identified as DROP funds for the period. In addition, no cost-of-living increases are payable to participants until employment which made them eligible to become members of the System has been terminated for at least one full year. Upon termination of employment prior to or at the end of the specified period of participation, a participant in the DROP may receive, at his option, a lump sum from the account equal to the payments into the account, a true annuity based upon his account balance in that fund, or any other method of payment if approved by the board of trustees. If a participant dies during the participation in the DROP, a lump sum equal to the balance in his/her account shall be paid to his named beneficiary or, if none, to his estate. If employment is not terminated at the end of the three years, payments into the DROP fund cease and the person resumes active contributing membership in the System.

Disability Benefits

For Plan A, a member shall be eligible to retire and receive a disability benefit if he has at least five years of creditable service, is not eligible for normal retirement, and has been officially certified as disabled by the State Medical Disability Board. Upon retirement caused by disability, a member of Plan A shall be paid a disability benefit equal to the lesser of forty-five percent of his final average compensation or three percent of his final average compensation multiplied by his

**Village of Rosedale, Louisiana**  
**Notes to the Financial Statements**

years of creditable service, whichever is greater, or an amount equal to three percent of the member's final average compensation multiplied by his years of creditable service projected to his earliest normal retirement age.

Cost of Living Increases

The System is authorized under state law to grant a cost-of-living increase to members who have been retired for at least one year. The adjustment cannot exceed 2% of the retiree's original benefit for each full calendar year since retirement and may only be granted if sufficient funds are available from investment income in excess of normal requirements. State law allows the System to grant additional cost of living increases to all retirees and beneficiaries who are age sixty-five and above equal to 2% of the benefit being received on October 1, 1977, or the original benefit, if retirement commenced after that date.

Deferred Benefits

Plan A provides for deferred benefits for members who terminate before being eligible for retirement. Once the member reaches the appropriate age for retirement, benefits become payable. Benefits are based in statutes in effect at time of withdrawal.

*Funding Policy.* Under Plan A, members are required by state statute to contribute 10.00% (9.50% before July 1, 2020) of their annual covered salary and the Village is required to contribute at an actuarially determined rate. The current rate is 29.50% (27.75% before July 1, 2020) of annual covered payroll. Contributions to the System also include one-fourth of one percent (except Orleans and East Baton Rouge Parishes) of the taxes shown to be collectible by the tax rolls of each parish. These tax dollars are divided between Plan A and Plan B based proportionately on the salaries of the active members of each plan. The System also receives revenue sharing funds each year as appropriated by the legislature. These additional sources of income are used as additional employer contributions and considered support from non-employer contributing entities. The contribution requirements of plan members and the Village are established and may be amended by state statute. As provided by Louisiana Revised Statute 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The Village's contributions to the System under Plan A for the years ending December 31, 2020, 2019, and 2018, were \$71,417, \$68,069, and \$60,819, respectively, equal to the required contributions for each year. The amount of non-employer contributions recognized as revenue in the government-wide statement of activities was \$8,559 for the year ended December 31, 2020.

*Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions.* At December 31, 2020, the Village reported a liability of \$545,441 for its proportionate share of net pension liability within the governmental activities. The net pension liability was measured as of June 30, 2020 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Village's proportion of the net pension liability was based on a projection of the Village's long-term share of contributions to the pension plan relative to the projected contributions of all participating municipalities, actuarially determined. At June 30, 2020, the Village's proportion was 0.126160%, which was a decrease of 0.008077% from its proportion measured as of June 30, 2019.

For the year ended December 31, 2020, the Village recognized pension expense of \$84,079. At December 31, 2020, the Village recognized deferred outflows of resources and deferred inflows of resources related to pensions from the following:

**Village of Rosedale, Louisiana**  
**Notes to the Financial Statements**

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 253	\$ 3,092
Changes in assumptions	9,176	-0-
Net difference between projected and actual earnings on pension plan investments	54,430	-0-
Changes in proportion and differences between Village's contributions and proportionate share of contributions	5,882	22,079
Village contributions subsequent to the measurement date	38,813	-0-
Total	\$ 108,554	\$ 25,171

The \$38,813 reported as deferred outflows of resources relating to pensions resulting from the Village contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2021. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended December 31,		
2021	\$	18,041
2022		6,183
2023		12,368
2024		7,978
Thereafter		-0-
Total	\$	44,570

*Actuarial assumptions.* The total pension liability in the June 30, 2020 actuarial valuation was determined based on the results of an experience study for the period July 1, 2013 through June 30, 2018 using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Cost Method:	Entry Age Normal Cost.
Investment Rate of Return:	6.95%, net of pension plan investment expense, including inflation
Expected Remaining Service Lives:	3 years
Inflation rate	2.5%
Salary increases, including inflation and merit increases:	6.4% - 1 to 4 years of service 4.5% - more than 4 years of service
Annuitant & beneficiary mortality:	PubG-2010(B) Healthy Retiree Table set equal to 120% for males and females, each adjusted using their respective male and female MP2018 scales.
Employee mortality:	PubG-2010(B) Employee Table set equal to 120% for males and females, each adjusted using their respective male and female MP2018 scales.
Disabled lives mortality:	PubNS-2010(B) Disabled Retiree Table set equal to 120% for males and females with the full generational MP2018 scale.

*Discount Rate.* The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by

**Village of Rosedale, Louisiana**  
**Notes to the Financial Statements**

weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and an adjustment for the effect of rebalancing/diversification.

The target allocation and best estimates of arithmetic real rates of return for each major asset class included in the System's target asset allocation as of June 30, 2020 are summarized in the following table:

<u>Asset Class</u>	<u>Target Asset Allocation</u>	<u>Long-Term Expected Portfolio Real Rate of Return</u>
Public entity	53%	2.33%
Public fixed income	38%	1.67%
Alternatives	<u>9%</u>	<u>0.40%</u>
Totals	<u>100%</u>	<u>4.40%</u>
Inflation		<u>2.60%</u>
Expected Arithmetic Nominal Return		<u>7.00%</u>

The discount rate used to measure the total pension liability was 6.95% for the year ended June 30, 2020. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates, which are calculated in accordance with relevant statutes and approved by the Board of Trustees and the Public Retirement Systems' Actuarial Committee. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

*Sensitivity to Changes in Discount Rate.* The following presents the Village's proportionate share of the net pension liability using the discount rate of 6.95%, as well as what the Village's net pension liability would be if it were calculated using a discount rate that is one percentage lower, or one percentage point higher than the current rate as of June 30, 2020 (assuming all other assumptions remain unchanged):

	<u>1% Decrease (5.95%)</u>	<u>Current Discount Rate (6.95%)</u>	<u>1% Increase (7.95%)</u>
Village's proportionate share of the net pension liability	\$ 709,559	\$ 545,441	\$ 406,673

*Changes in Net Pension Liability.* The effects of certain other changes in the net pension liability are required to be included in pension expense over the current and future periods. The effects on the total pension liability of (1) changes of economic and demographic assumptions or of other inputs and (2) differences between expected and actual experience are required to be included in pension expense in a systematic and rational manner over a closed period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension plan (active employees and inactive employees), determined as of the beginning of the measurement period. The effect on net pension liability of differences between the projected earnings on pension plan investments and actual experience with regard to those earnings is required to be included in pension expense in a systematic and rational manner over a closed period of five years, beginning with the current period.

The Municipal Employees' Retirement System has issued a stand-alone audit report on its financial statements for the year ended June 30, 2020. Access to the report can be found on the System's website, [www.mersla.com](http://www.mersla.com), or on the Louisiana Legislative Auditor's website, [www.la.la.gov](http://www.la.la.gov).

**Village of Rosedale, Louisiana  
Notes to the Financial Statements**

**NOTE 9 - ACCOUNTS, SALARIES AND OTHER PAYABLES**

The payables of \$29,360 at December 31, 2020, are as follows:

<u>Class of Payable</u>	<u>General Fund</u>	<u>Special Revenue Fund</u>	<u>Enterprise Fund</u>
Salaries & Withholdings	\$ 17,300	\$ 36	\$ -0-
Accounts	11,648	697	7,268
Total	<u>\$ 28,948</u>	<u>\$ 733</u>	<u>\$ 7,268</u>

**NOTE 10 - COMPENSATED ABSENCES**

At December 31, 2020, employees of the Village have accumulated and vested \$5,048 of employee leave benefits, which was computed in accordance with GASB Codification C60.

**NOTE 11 - RISK MANAGEMENT**

The Village is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. The Village has elected to purchase commercial insurance to cover its exposure to loss. The Village is insured up to policy limits for each of the above risks. There have been no significant reductions in coverage retentions or limits since the prior year.

**NOTE 12 - LITIGATION**

There is no litigation pending against the Village at December 31, 2020. No litigation costs were incurred for the year ended December 31, 2020.

**NOTE 13 - COMPENSATION PAID TO VILLAGE OFFICIALS**

In compliance with House Concurrent Resolution No. 54 of the 1979 Session of the Louisiana Legislature, compensation paid to board members during the year ended December 31, 2020 is as follows:

Mayor – Riley J. Blanchet	\$ 14,400
Board of Alderman:	
Carroll Devillier	8,400
Dana N. Alexander	8,400
John T. Doiron	<u>8,400</u>
Total Compensation	<u>\$ 39,600</u>

**NOTE 14 – SUBSEQUENT EVENTS**

Management has performed an evaluation of the Village's activities through June 8, 2021, and has concluded that the following significant subsequent event requires recognition or disclosure through the date and time these financial statements were available to be issued on June 8, 2021.

In the spring of 2020, there was a global outbreak of a new strain of coronavirus, COVID-19. The public health crisis has caused volatile economic conditions, impacting financial markets and disrupting general business activities across the United States. The timing and extent of the impact of COVID-19 on the Assessor's current and future operations is unknown at the date of this report.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

The Honorable Riley J. Blanchet  
And Members of the Board of Alderman  
Village of Rosedale, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Rosedale, Louisiana, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the Village of Rosedale, Louisiana's basic financial statements and have issued our report thereon dated June 8, 2021.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Village of Rosedale, Louisiana's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Village of Rosedale, Louisiana's internal control. Accordingly, we do not express an opinion on the effectiveness of the Village of Rosedale, Louisiana's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Village of Rosedale, Louisiana's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
