We have reviewed the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the District Attorney's Office for the Thirty-Fifth Judicial District, as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of management. Accordingly, we do not express such an opinion.

MANAGEMENT'S DISCUSSION AND ANALYSIS December 31, 2024

This section of annual financial report presents our discussion and analysis of the Office's financial performance during the fiscal year ended December 31, 2024, along with certain comparative information for the previous year.

OVERVIEW OF FINANCIAL STATEMENTS

The basic financial statements include government-wide financial statements and fund financial statements. These two types of financial statements present the Office's financial position and results of operations from differing perspectives which are described as follows:

Government - Wide Financial Statements

The government-wide financial statements report information about the Office as a whole using accounting methods similar to those used by private-sector companies. These report all revenues and expenses regardless of when cash is received or paid. Furthermore, the government-wide statements include all of the Office's assets and all of the Office's liabilities. All of the Office's activities are classified as governmental activities in the government-wide financial statements. The governmental activities are financed primarily by grants, fines and various fees.

Fund Financial Statements

Fund financial statements provide detailed information regarding the Office's most significant activities and are not intended to provide information for the Office as a whole. Funds are accounting devices that are used to account for specific sources of funds. All of the Office's funds are Governmental Funds. These funds are used to account for essentially the same functions that are reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, the governmental fund use a modified accrual basis of accounting that provides a short-term view of the Office's finances. Assets reported by governmental funds are limited to amounts that are available for current needs. In addition, liabilities are limited to amounts that are expected to be paid from currently available assets.

FINANCIAL ANALYSIS OF THE OFFICE AS A WHOLE

A comparative analysis of the government-wide Statement of Net Position is presented as follows:

MANAGEMENT'S DISCUSSION AND ANALYSIS December 31, 2024

NOTES TO FINANCIAL STATEMENTS December 31, 2024

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

State law establishes an office of District Attorney for each judicial district within the State of Louisiana. The District Attorney for the Thirty Fifth Judicial District (Grant Parish) is elected by the citizens of the District. Some of the duties and responsibilities that are carried out by the District Attorney and his assistants are described as follows:

- Conduct every criminal prosecution by the State in the District.
- Represent the State before the grand juries in the District and be the legal advisor to the grand juries.
- Serve as the regular attorney and counsel for the police juries and school boards within the District.
- Serve as the regular attorney and counsel for state boards and commissions domiciled within the District.
- Assist parents with child support enforcement obligations.

The accompanying policies conform to generally accepted accounting principles for governmental units.

Financial Reporting Entity

The Governmental Accounting Standards Board established criteria for determining which component units should be considered part of a financial reporting entity. The basic criterion for including a potential component unit within a reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. These criteria include:

- 1. Appointing a voting majority of an organization's governing body, and
 - a. The ability of the reporting entity to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the reporting entity.
- 2. Organizations for which the reporting entity does not appoint a voting majority but are fiscally dependent on the reporting entity.
- 3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Based on the previous criteria, the District Attorney's Office is a component unit of the Grant Parish Police Jury. The accompanying component unit financial statements present information only on the

NOTES TO FINANCIAL STATEMENTS December 31, 2024

funds maintained by the District Attorney's Office and do not present information on the police jury, the general government service provided by that governmental unit, or other governmental units that comprise the financial reporting entity.

Basic Financial Statements

The basic financial statements include both government-wide and fund financial statements. Both government-wide and fund financial statements categorize all of the Office's operations as governmental activities. Governmental activities involve government services that are normally supported by taxes and intergovernmental revenues.

The government-wide and fund financial statements present the Office's financial position and results of operations from differing perspectives which are described as follows:

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the Office as a whole. The effect of most interfund activity is eliminated from these financial statements. Furthermore, government-wide financial statements exclude any fiduciary activities which are reported in the fund financial statements.

Program revenues reported in the Statement of Activities consist of amounts that are directly associated with a governmental service. Program revenues include charges for services, fines, court cost, and most grants.

Fund Financial Statements

Funds are separate accounting entities that are designed to assist with demonstrating legal compliance and segregating transactions by activity. Major individual funds are reported as separate columns in the fund financial statements. The Office's major funds are described as follows:

- <u>General Fund</u> This fund is the primary operating fund of the Office is used to account for all resources, except those required to be accounted for in other funds.
- <u>Title IV-D</u> This fund is used to account for Federal and State Funds that are provided to finance child support enforcement activity.

Fiduciary Funds

Fiduciary funds are limited to custodial funds that account for assets held for the benefit of other governments, individuals or organizations.

Basis of Accounting and Measurement Focus

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements

NOTES TO FINANCIAL STATEMENTS December 31, 2024

made, regardless of the measurement focus applied. The basis of accounting and measurement focus used for various financial statement presentations are described as follows:

Financial Statement Presentation
Government-Wide Financial Statements
Fund Financial Statements
Fiduciary Funds

Basis of Accounting
Accrual Basis
Modified Accrual Basis
Accrual Basis

Measurement Focus
Economic Resources
Current Financial Resources
Economic Resources

Under the accrual basis of accounting and the economic resources measurement focus, revenues are recorded when earned and expenses are recorded when a liability is incurred.

Under the modified accrual basis of account and the current financial resources measurement focus revenue is recognized when it is considered measurable and available. Revenue is considered available if it is collected within 60 days of year end. In addition, expenses are generally recorded when a liability has been incurred. Furthermore, when the current financial resources measure focus is used, amounts recorded as assets exclude capital assets and the acquisition of capital assets is treated as expenditures. In addition, long-term debts are excluded from amounts reported as liabilities. Proceeds from issuing long-term debt are reported as other financing sources and repayment of long-term debt is reported as expenditures.

Use of Estimates

The preparation of financial statement in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Budget Practices

As an independently elected official, the District Attorney is solely responsible for adopting annual budgets for the general revenue fund and each special revenue fund. Budgets present revenue and expenditures on a basis which is consistent with generally accepted accounting principles.

Capital Assets

Capital assets include significant acquisitions of equipment that are expected to remain in service for a period of years. Capital assets are reported in the government-wide financial statements but are excluded from the fund financial statements. Instead, the funds report the acquisition of capital assets as expenditures rather than asset acquisitions.

All capital assets are reported at historical cost less accumulated depreciation. Depreciated is computed using the straight-line method and estimated useful lives that are based on the expected durability of the particular asset. A useful life of three to five years is typically used.

Cash

Amounts reported as cash and cash equivalents (restricted and unrestricted) include all cash on hand, cash in bank accounts, certificates of deposit and highly liquid investments. Credit risk is managed by requiring

NOTES TO FINANCIAL STATEMENTS December 31, 2024

fiscal agents to provide security for any deposits that exceed FDIC limits. Furthermore, interest rate risk is managed by limiting the duration of certificates of deposit.

Internal Balances

Internal balances arise from transactions between funds. When resources are provided without expectation of repayment, the transaction is reported as a transfer. Transfers are treated as a source of income by the recipient and as an expense or expenditure by the provider. If repayment is eventually expected to occur, interfund receivables and payables are recorded. Internal balances are eliminated in preparing government-wide financial statements.

Delayed Revenues

Amounts received from grants and other sources that do not currently meet criteria for recognition as revenue are reported as delayed revenues. These amounts remain in delayed revenues until revenue recognition criteria are met or the funds are returned to the source.

Fund Balance Classifications

Commitment or assignment of fund balances is at the discretion of the District Attorney. When expenditures comply with the necessary provisions restricted, committed or assigned amounts are generally consumed rather than utilizing unassigned funds.

NOTE 2 - CASH

Deposits are stated at cost, which approximates market. Under state law, these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

At December 31, 2024, the District Attorney's Office has \$164,338 in deposits (collected bank balance). These deposits were fully secured by FDIC coverage.

NOTE 3 - RECEIVABLES

At December 31, 2024, consisted entirely of amounts due from governmental sources, which are described as follows:

NOTE 6 - RISK MANAGEMENT

The Office is exposed to various risks of loss related to torts; theft, damage or destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The Office insures against these risks by participating in a public entity risk pool that operates as a common insurance program and by purchasing commercial insurance. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

INDEPENDENT ACCOUNTANTS' REPORT ON APPLYING AGREED-UPON PROCEDURES

To the District Attorney State of Louisiana Thirty-Fifth Judicial District

We have performed the procedures included in the *Louisiana Government Audit Guide* and enumerated below, which were agreed to by the management of the District Attorney's Office for the Thirty-Fifth Judicial District and the Legislative Auditor, State of Louisiana, solely to assist the users in evaluating management's assertions about the District Attorney's Office's compliance with certain laws and regulations during the year ended December 31, 2024, included in the *Louisiana Attestation Questionnaire*. This agreed-upon procedures engagement was performed in accordance with standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the specified users of the report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

PUBLIC BID LAW:

1. Select all expenditures made during the year for material and supplies exceeding \$60,000, or public works exceeding \$250,000. Compare the documentation for these expenditures to Louisiana Revised Statute (R.S.) 39:1551-39:1775 (the state procurement code) or R.S. 38:2211-2296 (the public bid law), whichever is applicable; and report whether the expenditures were made in accordance with these laws.

During the year, there were no expenditures meeting the scope of the public bid law.

CODE OF ETHICS FOR PUBLIC OFFICIALS AND PUBLIC EMPLOYEES

2. Obtain from management a list of the immediate family members of the District Attorney as defined by LSA-RS 42:1101-1124 (the code of ethics).

Management provided us with the required list including the noted information.

3. Obtain from management a listing of all employees paid during the period.

Management provided us with all payroll records.

4. Report whether any employees' names appear on both lists obtained in Procedures 2 and 3.

None of the employees included on the list of employees provided by management in agreed-upon procedure (3) appeared on the reports provided by management in agreed-upon procedure (2).

 Obtain a list of all disbursements made during the year; and a list of outside business interests of board members, employees, and board members' and employees' immediate families. Report whether any vendors appear on both lists.

Management provided the requested information. None of immediate family members or other interest appeared as vendors.

BUDGETING

6. Obtain a copy of the legally adopted budget and all amendments.

Management provided us with a copy of the budget.

7. Trace documentation for the adoption of the budget and approval of any amendments to the minute book, and report whether there are any exceptions.

Not Applicable:

The District Attorney is an independently elected official; therefore, no meetings or minutes are necessary to adopt the budget.

8. Compare the revenues and expenditures of the final budget to actual revenues and expenditures to determine if actual revenues or expenditures exceed budgeted amounts by more than 5%.

We compared the revenues and expenditures of the final budget to actual revenues and expenditures. Unfavorable variances were within the limits permitted by State Law.

ACCOUNTING AND REPORTING

- 9. Obtain the list of all disbursements made during the fiscal year. Randomly select six disbursements, and obtain documentation from management for these disbursements. Compare the selected disbursements to the supporting documentation, and:
 - (a) trace payments to supporting documentation as to proper amount and payee.

We examined supporting documentation for each of the six selected disbursements and found that payment was for the proper amount and made to the correct payee.

(b) determine if payments were properly coded to the correct fund and general ledger account.

All of the payments were properly coded to the correct fund and general ledger account.

(c) determine whether payments received approval from proper authorities.

Inspection of documentation supporting each of the six selected disbursements indicated that each check was signed by the proper official or other form of approval.

MEETINGS

10. Obtain evidence from management to support that agendas for meetings recorded in the minute book were posted or advertised as required by R.S. 42:11 through 42:28 (the open meetings law); and report whether there are any exceptions.

Not Applicable:

The District Attorney is an independently elected official; therefore, no meetings are required.

DEBT

11. Examine bank deposits for the period under examination and determine whether any such deposits appear to be proceeds of bank loans, bonds, or like indebtedness.

We inspected the cash receipts journal for the period under examination and noted no deposits which appeared to be proceeds of bank loans, bonds, or like indebtedness.

ADVANCES AND BONUSES

12. Examine payroll records and minutes for the year to determine whether any payments have been made to employees which may constitute bonuses, advance, or gifts.

We inspected payroll records for the year and noted no instances which would indicate payments to employees which would constitute bonuses, advances, or gifts.

STATE AUDIT LAW

13. Report whether the agency provided for a timely report in accordance with R.S. 24:513.

Reports were submitted timely.

14. Inquire of management and report whether the agency entered into any contracts that utilized state funds as defined in R.S. 39:72.1 A. (2); and that were subject to the public bid law (R.S. 38:2211, et seq.), while the agency was not in compliance with R.S. 24:513 (the audit law).

Not Applicable:

The agency is in compliance with the audit law.

This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, and the standards applicable to attestation engagements contained in *Government Auditing Standards*, issued by the United States Comptroller General. We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on compliance with the foregoing matters. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

The purpose of this report is solely to describe the scope of testing performed on compliance with certain laws and regulations contained in the accompanying Louisiana Attestation Questionnaire, as required by Louisiana Revised Statute 24:513 and the Louisiana Governmental Audit Guide, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document.
