April 30, 2022

To Members of the Greater New Orleans Expressway Commission

The Annual Financial Report of the Greater New Orleans Expressway Commission for the fiscal year ended October 31, 2021 is hereby submitted. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the Commission's management. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the Commission. All disclosures necessary to enable the reader to gain an understanding of the Commission's financial activities have been included.

The Annual Financial Report is presented in three sections: introductory, financial, and other supplemental information. The introductory section includes this transmittal letter. The financial section has been prepared in accordance with the Governmental Accounting Standard Board Statement No. 34. This section includes the following: Report of Independent Auditor; Management's Discussion and Analysis (Required Supplementary Information); Basic Financial Statements; and Notes to Financial Statements. The other supplemental information section includes schedules required by the Bond Indenture Agreements.

PROFILE

The Greater New Orleans Expressway Commission was established in 1954 as the governing body with jurisdiction over the Expressway. The Commission is a special-purpose government engaged in business type activities. By legislative enactment, after all bonds, principal and interest, are fully paid, the Expressway becomes the property of the State of Louisiana and thereafter will be operated and maintained by the Louisiana Department of Transportation and Development as a toll-free (non-business type) facility and as part of the state highway system.

The Commission provides for the policing of the Expressway, the operation and maintenance of the Expressway and the associated administrative services. By legislative mandate in 1986, the Commission provides for the policing of the Huey P. Long Bridge.

SAFETY

A major priority of the Commission is the safety of the motoring public crossing the Expressway. The Expressway is experiencing an excellent safety record. The Commission has implemented a public information system that includes the internet, radio announcements, brochures, call boxes, and variable message signs. These systems help to inform and educate the public about safety on the Expressway. A traffic monitoring program, consisting of security cameras and radar system, is fully operational. The security camera system consists of cameras at strategic locations throughout the twenty-four-mile Expressway, beneath the bridge spans, the toll plaza, and the approach roads. The Expressway has its own police department and motorists assistance patrol, which operate the following safety programs: motorists assist vehicles, wreckers, rescue trucks, and the rolling convoy for fog abatement.

FINANCIAL INFORMATION, MANAGEMENT AND CONTROL

A detailed understanding of the financial position and operating results of the Commission is provided in the report. Presented below is a brief description of financial information, management of financial resources and obligations, and control techniques applicable to financial resources, obligations, and information.

Basis of Accounting

Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. The accrual basis of accounting is used, which means revenues are recognized when earned and expenses are recognized when incurred.

Accounting Systems and Budgetary Control

In developing and evaluating the Commission's accounting control system, consideration is given to the adequacy of internal accounting controls. Accounting control comprises the plan of organization and the procedures and records that are concerned with the safeguarding of assets and the reliability of financial records and consequently are designed to provide reasonable assurance that:

- Transactions are executed in accordance with management's general or specific authorization.
- Transactions are reported as necessary (a) to permit preparation of financial statements in conformity with accounting principles generally accepted in the United States of America or any other criteria, such as finance-related legal and contractual compliance requirements applicable to such statements, and (b) to maintain accountability for assets.
- Access to assets is permitted only in accordance with management's authorization.
- The recorded accountability for assets is compared with the existing assets at reasonable intervals and appropriate action is taken with respect to any difference.

The definition of accounting control comprehends reasonable, but not absolute, assurance that the objectives expressed in it will be accomplished by the system. The concept of reasonable assurance recognizes that the cost of internal control should not exceed the benefits. The benefits consist of reductions in the risk of failing to achieve the objectives implicit in the definition of accounting control.

All internal control evaluations occur within this framework. We believe the Commission's accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions. The Commission has formally established budgetary accounting controls for its operating funds. Budgetary control is maintained by category within the departments for each account group.

Account Description

As required by the Bond Indenture Agreement, the accounts of the Commission are organized on the basis of funds and accounts, each of which is considered a separate accounting activity for recording receipts and disbursements. Those accounts (General, Special Revenue, Debt Service, Capital Projects, and Internal Service) are shown on Schedule 1 of this report. Those account activities are summarized into the sole enterprise fund, which is used to account for ongoing organizations and activities that are similar to those found in the private sector.

The costs of providing the services to the general public are recovered, in whole or in part, through user charges. The Commission's operations comprise the operation of the Expressway Bridge in which tolls are charged. Results of operations for the year ended October 31, 2021 can be found in the Management's Discussion & Analysis.

The Commission's operations include electronic equipment at the toll plaza designed to classify vehicles, calculate the toll assessed and record those events. To facilitate the traffic flow, electronic toll devices read toll tags. Customers may acquire toll tags at the Commission operated toll tag stores on both north and south shores of the Expressway.

For the year ended October 31, 2021, a breakdown of the revenues is as follows:

Dedicated for Major Repairs & Capital Improvements	$ 9,545,375
Undedicated to be Used for General Operations	11,225,586
	$ 20,770,961

Long-term Debt

The Commission had the following principal outstanding long-term debt at October 31, 2021:

Revenue Bonds:

Refunding, Series 2013	$ 14,485,000
Refunding, Series 2014	17,280,000
Revenue Bonds Series 2017	86,480,000
	$118,245,000

On September 30, 2013, the Commission issued $25,545,000 of Revenue Bonds, Series 2013. The proceeds of this issue were used to refund a portion of the Commission's outstanding Series 2003 Bonds and pay costs of issuance of the Series 2013 Bonds including the cost of the bond insurance policy.

On June 19, 2014, the Commission issued $17,540,000 of Revenue Bonds, Series 2014. The proceeds of this issue were used to refund the final portion of the Commission's outstanding Series 2003 Bonds and pay cost of issuance of the Series 2014 Bonds including the cost of the bond insurance policy.

On August 22, 2017, the Commission issued $87,495,000 of Revenue Bonds, Series 2017. The proceeds of this issue were used for safety bays, bridge railing improvements and cost of issuance of the Series 2017 Bonds including the cost of the bond insurance policy.

CASH MANAGEMENT POLICIES AND PROCEDURES

Cash receipts are deposited daily into the Commission's bank accounts. These funds are automatically transferred by the Trustee into the appropriate Trust Fund accounts and are invested in accordance with the provisions of the Bond Indenture. All bank and investment accounts are reconciled on a monthly basis.

RISK MANAGEMENT

The Commission is exposed to various risks of loss related to general liability, automotive liability, and property insurance contracts. An Internal Service Account (a risk management account) is used to account for and finance its uninsured risks of loss. Under this program, the risk management account provides coverage for the general and automotive liability up to the $500,000 deductible limits for each covered loss. The Commission purchased commercial insurance for claims in excess of coverage provided by the Internal Service Account. Settled claims have not exceeded this commercial coverage for the fiscal year. Additional information on the Commission's risk management activity can be found in the notes to the financial statements.

INDEPENDENT AUDIT

The financial records, books of account, and transactions of the Commission for the fiscal year ended October 31, 2021 have been audited by Griffin and Furman, LLC, and the opinion is included in the Finance Section of this report.

The financial statements are the responsibility of the Commission. The responsibility of the independent auditor is to express an opinion on the Commission's financial statements based on the audit. An audit is conducted in accordance with auditing standards generally accepted in the United States of America. Those standards require that the audit be planned and performed in a manner to obtain a reasonable assurance as to whether the financial statements are free of material misstatement.

Respectfully submitted,

Independent Auditors' Report

Board of Commissioners
Greater New Orleans Expressway Commission
Metairie, Louisiana

We have audited the accompanying financial statements of the business-type activities of the Greater New Orleans Expressway Commission (the Commission), a component unit of the State of Louisiana, as of and for the year ended October 31, 2021, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

2270 7th Street, Suite 1, Mandeville, LA 70471
Phone: (985) 727-9924 • Fax: (985) 727-9975

4900 Cypress Street, Suite 15, West Monroe, LA 71291
Phone: (318) 397-2472 • Fax: (318) 397-2402

www.griffinandco.com

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Commission's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Commission as of October 31, 2021, and the respective changes in financial position, and its' cash flows for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and pension and OPEB schedules listed in the table of contents be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Commission's financial statements as a whole. The accompanying schedule of compensation paid to board of commissioners on page 42, schedule of compensation, benefits, and other payments to general manager on page 43, schedule of receipts and disbursements on page 44, schedule of investments on page 45 to 47, and schedule of revenue from tolls on page 48 are presented for purposes of additional analysis and is not a required part of the basic financial statements.

The aforementioned other supplementary information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The schedule of Northshore traffic – number of crossings on page 49 and schedule of insurance on pages 50 to 53 have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 30, 2022, on our consideration of Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Commission's internal control over financial reporting and compliance.

Griffin & Furman, LLC

April 30, 2022

Management's Discussion and Analysis

Introduction

Management's Discussion and Analysis of the Greater New Orleans Expressway Commission's (the “Commission”) financial performance presents a narrative overview and analysis of the Commission's financial activities for the year ended October 31, 2021. This document focuses on the current year's activities, resulting changes, and currently known facts in comparison with the prior year's information. Please read this document in conjunction with the additional information contained in the transmittal letter on pages 1 – 4 and the Commission's financial statements, which begin on page 14.

Financial Highlights

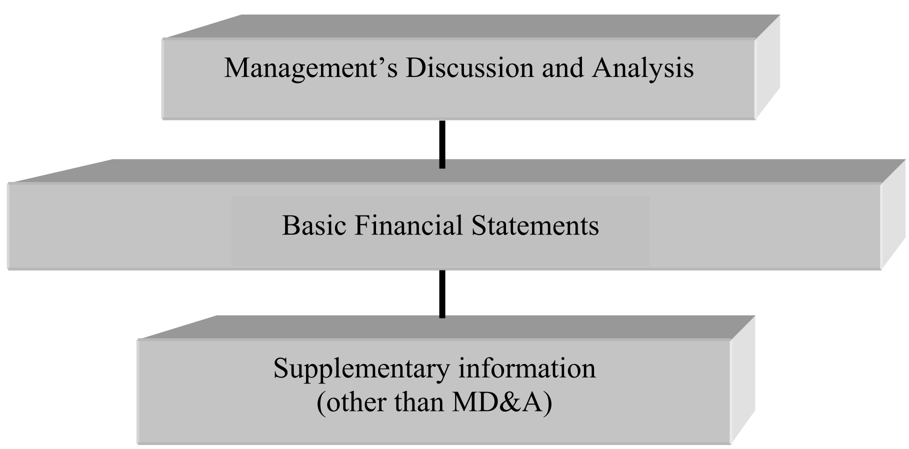
The Commission’s assets exceeded its liabilities at October 31, 2021 by $136,672,265, which represents a 1.53% increase from last fiscal year.

The Commission’s toll revenue increased by $2,049,334 (10.95%) compared to the prior fiscal year.

The vehicle license tax, which is dedicated to debt service, increased by $52,684 (0.76%) compared to the prior fiscal year.

Overview of the Financial Statements

The following graphic illustrates the minimum requirements for government entities engaged in business-type activities established by Governmental Accounting Standards Commission.



These financial statements consist of two sections - Management's Discussion and Analysis (this section), and the basic financial statements (including the notes to the financial statements). This report also contains supplementary information in addition to the basic financial statements.

The Commission's activities are reported in a single proprietary fund. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Commission, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The Commission's financial statements are prepared on an accrual basis in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. Under this basis of accounting, revenues are recognized in the period in which they are earned, expenses are recognized in the period in which they are incurred.

Basic Financial Statements

The basic financial statements present information for the Commission as a whole, in a format designed to make the statements easier for the reader to understand. The statements in this section include the Statement of Net Position; the Statement of Revenues, Expenses, and Changes in Net Position; and the Statement of Cash Flows.

Statement of Net Position
This statement presents the current and noncurrent assets, deferred outflows of resources, current and noncurrent portions of liabilities, and deferred inflows of resources, with the difference reported as net position. Net position may provide a useful indicator of whether the financial position of the Commission is improving or deteriorating.

Statement of Revenues, Expenses, and Changes in Net Position
This statement presents information showing how the Commission's net position changed as a result of current year operations. Regardless of when cash is affected, all changes in net position are reported when the underlying transactions occur. As a result, there are transactions included that will not affect cash until future fiscal periods.

Statement of Cash Flows
This statement presents information showing how the Commission's cash changed as a result of current year operations. The cash flow statement is prepared using the direct method and includes the reconciliation of operating income to net cash provided by operating activities (indirect method) as required by GASB 34.

Notes to Financial Statements
The notes provide additional information that is essential to a full understanding of the data provided in the financial statements. The notes to the financial statements can be found on pages 19 – 37.

Other Information
This report also presents required supplementary information on other post-employment benefits and pension plans. Required supplementary information can be found on pages 38 – 41 of this report.

Financial Analysis of the Entity

The condensed statements of net position consist of the following at October 31:

	2021	2020	Variance	% Variance
Assets				
Current assets	$ 23,907,918	$ 23,490,546	$ 417,372	1.78%
Current assets, restricted	35,931,645	37,299,305	(1,367,660)	-3.67%
Capital assets, net	217,744,979	222,612,114	(4,867,135)	-2.19%
	277,584,542	283,401,965	(5,817,423)	-2.05%
Deferred outflows of resources	1,726,557	1,699,303	27,254	1.60%
	$ 279,311,099	$ 285,101,268	$ (5,790,169)	-2.03%
Liabilities				
Current liabilities	$ 3,690,309	$ 6,480,935	$ (2,790,626)	-43.06%
Current liabilities payable from restricted assets	5,112,598	6,691,731	(1,579,133)	-23.60%
Noncurrent liabilities	132,109,370	135,660,751	(3,551,381)	-2.62%
	140,912,277	148,833,417	(7,921,140)	-5.32%
Deferred inflows of resources	4,954,543	4,392,214	562,329	12.80%
Net position				
Net investment in capital assets	91,035,976	91,262,333	(226,357)	-0.25%
Restricted	31,970,920	30,607,574	1,363,346	4.45%
Unrestricted	10,437,383	10,005,730	431,653	4.31%
	133,444,279	131,875,637	1,568,642	1.19%
	$ 279,311,099	$ 285,101,268	$ (5,790,169)	-2.03%

Restricted net position represents those assets that are not available for spending as a result of legislative requirements, donor agreements, or grant requirements. Conversely, unrestricted net assets are those that do not have any limitations on how these amounts may be spent.

Current assets (unrestricted and restricted) decreased by $950,228, approximately 1.89% from October 31, 2020 to October 31, 2021, due primarily from restricted cash being used to purchase capital assets and for payment of accounts payable from the prior year. Noncurrent assets consists of capital assets net of accumulated depreciation.

Current liabilities decreased by $4,369,759, approximately 67% from October 31, 2020 to October 31, 2021, due primarily from the payment of prior year retainage payables and the reduction in the current portion of bonds payable due at year-end. Noncurrent liabilities consist of accrued compensated absences, other postemployment benefits obligation, net pension liability, and bonds payable. Noncurrent liabilities decreased by $3,551,381, approximately 2.62% from October 31, 2020 to October 31, 2021, due primarily from a decrease in: net pension liability, other post-employment benefits payable, and bonds payable.

The condensed Statements of Revenues, Expenses, and Changes in Net Position consist of the following for the years ended October 31:

	2021	2020	Variance	% Variance
Operating revenues				
Tolls	$ 20,770,961	$ 18,721,627	$ 2,049,334	10.95%
Other operating revenues	102,004	96,757	5,247	5.42%
	20,872,965	18,818,384	2,054,581	10.92%
Operating expenses				
Personal services	6,311,180	6,896,316	(585,136)	-8.48%
Depreciation	8,473,555	7,635,294	838,261	10.98%
Other operating expenses	6,339,145	6,396,689	(57,544)	-0.90%
	21,123,880	20,928,299	195,581	0.93%
Operating income (loss)	(250,915)	(2,109,915)	1,859,000	-88.11%
Non-operating revenues	7,768,088	9,361,029	(1,592,941)	-17.02%
Non-operating expenses	(5,948,531)	(6,045,731)	97,200	-1.61%
	1,819,557	3,315,298	(1,495,741)	-45.12%
Change in net position	1,568,642	1,205,383	363,259	30.14%
Net position, beginning of year	131,875,637	130,670,254	1,205,383	0.92%
Net position, end of year	$ 133,444,279	$ 131,875,637	$ 1,568,642	1.19%

The Commission's operating revenues increased by $2,054,581, approximately 10.92%, due primarily from an increase in toll revenues. Operating expenses remained consistent with the prior fiscal year. Net position increased by $1,568,642 from October 31, 2020 to October 31, 2021.

Capital Assets

Capital assets consist of the following at October 31:

	2021	2020	Variance	% Variance
Building	$ 5,893,856	$ 5,893,856	$ -	0.00%
Furniture, fixtures, equipment	13,791,127	14,128,884	(337,757)	-2.39%
Infrastructure	380,718,923	377,718,393	3,000,530	0.79%
	400,403,906	397,741,133	2,662,773	0.67%
Accumulated depreciation	(182,658,927)	(175,129,019)	(7,529,908)	4.30%
	$ 217,744,979	$ 222,612,114	$ (4,867,135)	-2.19%

Capital assets decreased by $4,867,135, approximately 2.19%, from the prior fiscal year due primarily from depreciation exceeding infrastructure additions. The 2017 revenue bonds were used to acquire the infrastructure assets. Additions for the year ended October 31, 2021 included:

Furniture, fixtures, and equipment	$ 605,890
Infrastructure	3,000,530
	$ 3,606,420

Revenue Bonds

The Commission had $128,584,003 of revenue bonds outstanding at October 31, 2021, compared to $131,349,781 at October 31, 2020, a decrease of approximately 2.11%. See note 6 to financial statements for more details.

	2021	2020	Variance	% Variance
Revenue bonds	$ 128,584,003	$ 131,349,781	$ (2,765,778)	-2.11%

The Commission's bond indebtedness carries a Standard & Poor's "A" rating.

Legal Claims

The Commission has estimated claims of $1,654,144 outstanding at October 31, 2021 compared with $2,185,905 at October 31, 2020.

Budget

The annual budget is approved by the Commission during its August meeting. The budget is then approved by the Joint Legislative Committee on the Budget of the Louisiana Legislature.

Economic Factors and Next Year's Budgets and Rates

The Commission and management considered the following factors and indicators when setting next year's budget, rates, and fees:

- Toll Revenue Forecast, which is provided by the Traffic Engineers in accordance with the Trust Indenture
- Prior year's expenses
- State Highway Fund No. 2 Forecasts by the Revenue Estimating Conference and the Legislative Fiscal Office. The Commission's share of Highway Fund No. 2 is designated for Series 2013 and Series 2014 Debt Service first, then bridge maintenance and rehabilitation.
- Potential unknown impacts of record high inflation.

The Commission expects that next year's results may decline based on the following:

- The overall economy in the area may result in fewer crossings.
- Increase in costs related to infrastructure improvements.

Contacting the Commission's Management

This financial report is designed to provide citizens, taxpayers, customers, and investors and creditors with a general overview of the Commission's finances and to show the Commission's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Director of Finance, Greater New Orleans Expressway Commission, P.O. Box 7656, Metairie, LA 70010.

Amortization of bond premium/discount	$	795,779
Amortization of bond issuance costs	$	51,499

1. History and Summary of Significant Accounting Policies

History and Nature of Operations
The Greater New Orleans Expressway Commission was established by articles of incorporation dated October 20, 1954, between the parishes of Jefferson and St. Tammany. Under the authority of Louisiana Revised Statute (R.S.) 33:1324, the parishes were granted the right and privilege to unite and incorporate a joint Commission for the purpose of constructing, operating, and maintaining a toll bridge or causeway and requisite approaches across Lake Pontchartrain, connecting the two parishes, known as the Greater New Orleans Expressway. Article 6, Section 22(g)(5) of the 1921 Louisiana Constitution confirmed the power of the parishes to jointly construct the expressway through the issuance of revenue bonds for that purpose and the authority to levy a reasonable toll that is sufficient in amount to provide adequate pay for all costs of operation and maintenance including debt service together with funds dedicated from vehicular license taxes. In addition to operating and maintaining the 23.87 mile long parallel expressway bridges, Act 762 of 1986 of the Regular Session of the Louisiana Legislature authorized the Commission to police the Huey P. Long Bridge. The act also requires that, after all bonds principal and interest are fully paid, the expressway bridge becomes the property of the State of Louisiana and thereafter be operated and maintained by the Louisiana Department of Transportation and Development as a toll-free project and as part of the state highway system.

The Commission is governed by five members, three of whom are appointed by the governor, including one member from Jefferson Parish and another member from St. Tammany Parish for a term of two years each. The third member appointed by the governor is for a one-year term alternately from Jefferson and St. Tammany Parishes. Of the remaining two members, one member is appointed from Jefferson Parish by the Jefferson Parish Council, and one member is appointed from St. Tammany Parish by the St. Tammany Parish Council for two-year terms.

Financial Reporting Entity
Governmental Accounting Standards Commission (GASB) issued Statement No. 61 (GASB 61), *The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and 34*, to determine if a component unit is included in the financial reporting entity of its primary government. The Commission is considered a component unit of the State of Louisiana because: the state exercises oversight responsibility in that the governor appoints the Commission members and public service is rendered within the state's boundaries, and the Commission provides specific financial benefits to and may impose specific financial burdens on the State of Louisiana. The accompanying basic financial statements present information only as to the transactions of the Commission.

Annually the State of Louisiana issues a basic financial statement which includes the activity contained in the accompanying financial statement. The basic financial statement is issued by the Louisiana Division of Administration – Office of Statewide Reporting and Accounting Policy and audited by the Louisiana Legislative Auditor.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation
Proprietary fund financial statements include a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Net Position, and a Statement of Cash Flows for each major proprietary fund. Proprietary funds are accounted for using the "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all assets and liabilities (whether current or noncurrent) are included on the Statement of Net Position.

The Statement of Revenues, Expenses and Changes in Net Position presents increases (revenues) and decreases (expenses) in total net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred.

Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues are user charges and fees, while operating expenses consist of salaries, ordinary maintenance, assessments, indirect costs and depreciation. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Net Position

The statement of net position reports net position as the difference between all other elements in a statement of net position and is displayed in three components—net investment in capital assets, restricted net position (distinguishing between major categories of restrictions), and unrestricted net position.

- Net Investment in Capital Assets - Consists of capital assets including restricted capital assets net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets
- Restricted - Consists of amounts with constraints placed on the use by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation
- Unrestricted - All other amounts that do not meet the definition of "restricted" or "net investment in capital assets"

Restricted net position represents unexpended revenue bond proceeds as well as certain other resources set aside for the purpose of improvements to capital assets and funding debt service payments in accordance with bond resolutions.

When both restricted and unrestricted resources are available for use, it is the Commission's policy to use restricted resources first, then unrestricted as needed.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Budget Practices

The general manager submits proposed operating budgets to the Commission and to the general public for inspection. The budgets are prepared on a modified accrual basis of accounting. For the period under audit, the proposed budgets were advertised in the official journal and formally adopted by the Commission. Annually, in August, the original budget is amended by management and is ratified by the Commission during October.

Cash and Cash Equivalents

For the purpose of the statement of net position and statement of cash flows, cash and cash equivalents include all demand accounts and money market funds of the Commission with an original maturity of 90 days or less.

Investments

Investments are carried at fair value. Purchases and sales of securities are recorded on trade dates, and realized gains and losses are determined on the basis of average cost of securities sold. Investment return(loss) includes interest, dividends, administrative fees, and realized and unrealized gains and losses, and is included in the statement of revenues, expenses, and changes in net position as investment income.

Fair Value Measurements

The Commission's financial instruments include cash deposits, money market accounts, and U.S. Government Obligations. The carrying amounts reported in the statement of financial position are stated at cost which approximates fair value because of the short maturities of those instruments.

Accounts and Grants Receivable

Receivables consist of all revenues earned at year-end but have not been collected at year end. Management monitors the receivable balances and assesses the collectability at year end based upon the historical collections, knowledge of the individual or entity, and the age of the receivable balance. As a result of these reviews, customer balances deemed to be uncollectible are charged to the allowance for doubtful accounts. Management has deemed all accounts collectible at year-end and no allowance has been recorded.

Prepaid Expenses

Payments to vendors for insurance and other operating expenses include costs applicable to the next accounting period and are recorded as prepaid items.

Capital Assets

Capital assets with a cost of $1,000 or more are reported at cost in the statement of net position. Repairs and maintenance are expensed as incurred. Depreciation is computed using the straight-line method over the estimated useful lives as follows:

Description	Years
Automobiles	5
Data processing equipment	5
Furniture and fixtures	10
Buildings	40
Infrastructure	40

Inventory

The Commission maintains an inventory of spare bridge components for emergency use and is valued at the lower of cost or market.

Compensated Absences

Employees earn and accumulate annual and sick leave at various rates, depending on their years of service. Annual and sick leave that may be accumulated by each employee is limited. Upon termination, employees or their heirs are compensated for 30 days accumulated annual leave and up to 45 days of unused sick leave at the employee's hourly rate of pay at the time of termination. Any unused grandfather leave accumulated before October 31, 2021 is compensated. Upon retirement, an uncompensated annual leave at the employee's option plus unused sick leave in excess is used to compute retirement benefits for employees who earned full-time status before 2007. Compensated absences are recognized as an expense and liability in the financial statements when incurred. As of October 31, 2021, employees of the Commission have accumulated and vested $806,077 of employee annual and sick leave benefits.

Deferred Compensation Plan

The Commission offers its employees a deferred compensation plan (the "Plan") created in accordance with Internal Revenue Code 457. The Plan is administered by the Commission. The Plan, available to all full-time employees of the Commission, permits them to defer a portion of their salary until future years. All amounts of compensation deferred, all property and rights purchased, and all income, property, or rights are (until paid or made available to the employee or other beneficiary) held in trust by Securian Retirement Services for the exclusive benefit of the participants and their beneficiaries.

Participants may contribute up to the IRS maximum calendar limit with the Commission matching up to $72 per month. All contributions are immediately vested. The Commission contributed $72,888 to the plan during the year ended October 31, 2021.

Deferred Outflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Commission has the following items that qualify for reporting in this category:

Pension plan – these deferred outflows result from pension contributions after the measurement date (deferred and recognized in the following fiscal year) and/or differences in projected and actual earnings on pension assets (deferred and amortized over a closed five-year period).

OPEB plan – these deferred outflows result from OPEB contributions after the measurement date (deferred and recognized in the following fiscal year).

Deferred Inflows of Resources

Deferred inflows of resources are acquisitions of net position or fund balance by the Commission that is applicable to a future reporting period and so will not be recognized as an inflow of resources until then. The Commission has the following items that qualify for reporting in this category:

Pension plan – these deferred inflows result from differences in projected and actual earnings on pension assets (deferred and amortized over a closed five-year period).

OPEB plan – these deferred inflows result from changes in assumptions and changes in proportion and differences between employer contributions and proportionate share of contributions (deferred and amortized over a closed five-year period).

Accounting Pronouncements

The GASB has issued the following Statements which will become effective in years as shown below:

Statement No. 84, *"Fiduciary Activities"* improves guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. An activity meeting the criteria should be reported in a fiduciary fund in the basic financial statements. This Statement also provides for recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019.

Statement No. 87, *"Leases"* increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. Management has not yet determined the effect of this Statement on the financial statements.

Statement No. 89, *"Accounting for Interest Cost Incurred before the End of a Construction Period"* establishes accounting requirements for interest cost incurred before the end of a construction period. Such interest cost includes all interest that previously was accounted for in accordance with the requirements of paragraphs 5-22 of Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements, which are superseded by this Statement. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020. Management has not yet determined the effect of this Statement on the financial statements.

Statement No. 92, "*Omnibus 2020*" was issued by GASB to address practice issues identified after other standards have been approved for implementation. Omnibus statements clarify recent prior statements GASB has issued. This Omnibus addresses eight recent pronouncements, including GASB 87 – *Leases*, GASB 84 – *Fiduciary Activities*, and GASB 83 – *Asset Retirement Obligations*. GASB 92 is effective for reporting periods beginning after June 15, 2021.

2. Deposits with Financial Institutions

For reporting purposes, deposits with financial institutions include demand deposits and are stated at cost, which approximates market. Under state law these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. The Commission's deposits at October 31, 2021 consisted of the following:

Deposits per statement of net position (reconciled bank balance)	$ 2,428,112
Deposits in bank accounts per bank	$ 2,462,647
Category 3 bank balances:	
Uninsured and uncollateralized	-
Uninsured and collateralized with securities held by the pledging institution's trust department or agent, in the Commission's name	-
Uninsured and collateralized with securities held by the pledging institution or its agent but not in the Commission's name	2,212,647
Total category 3 bank balances	$ 2,212,647

Custodial Deposit Risk
In the case of deposits, this is the risk that in the event of a bank failure, the deposits may not be returned to the Commission. As of October 31, 2021, $2,212,647 of the Commission's bank balance was exposed to custodial credit risk because the deposits were uninsured and collateralized with securities held by the pledging institution's trust department or agent but not in the Commission's name.

Money Market Accounts
The Commission had $45,709,522 within money market accounts at October 31, 2021. The accounts have a maturity of less than 90 days and are reported as cash equivalents. The balance is reported at cost which approximates market. The money market accounts consists of securities issued or guaranteed as to principal and interest by the U.S. government or its agencies or instrumentalities. At October 31, 2021, the Commission's money market accounts are uninsured on the performance of the custodian and are exposed to custodial credit risk because they are held by the counterparty's trust department, but not in the Commission's name.

3. Investments

At October 31, 2021, investments consist of the following:

	Unrestricted	Restricted	Total
U.S. Treasury bills	$ -	$ 499,990	$ 499,990
Federal agency securities	199,400	1,986,122	2,185,522
State municipal bonds	625,362	3,573,255	4,198,617
	$ 824,762	$ 6,059,367	$ 6,884,129

Interest Rate and Credit Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment - the greater the sensitivity of its fair value to changes in market interest rates is. The Commission limits its interest rate risk by limiting its investing to securities with terms of one year or less.

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a national recognized statistical rating organization. Credit quality ratings are not required for U.S. government securities. Federal agency securities are securities, usually bonds, issued by a U.S. Government-sponsored agency. The investment policy of the Commission contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the State of Louisiana.

At October 31, 2021, the Commission's investments are uninsured on the performance of the custodian and are exposed to custodial credit risk because they are held by the counterparty's trust department, but not in the Commission's name. Credit risk is managed by limiting investments to those allowed under state law, which includes instruments issued by state or Federal governments.

Information about the credit risk and sensitivity of the fair values of the Commission's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the Commission's investments by maturity:

Investment Type	Less Than 1 Year	1 to 2 Years	2 to 5 Years	More Than 5 Years	Total
U.S. Treasury bills	$ 499,990	$ -	$ -	$ -	$ 499,990
Federal Agency Securities	-	-	2,185,522	-	2,185,522
State municipal bonds	3,186,221	917,807	94,589	-	4,198,617
	$ 3,686,211	$ 917,807	$ 2,280,111	$ -	$ 6,884,129

4. Fair Value Measurements

The fair value measurement accounting literature provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level I inputs to the valuation methodology are based on unadjusted quoted prices for identical assets in active markets that the Commission has the ability access. Level 2 inputs are based primarily on quoted prices for similar assets in active or inactive markets and/or based on inputs that are derived principally from or corroborated by observable market data. Level 3 inputs are unobservable and are based on assumptions market participants would utilize in pricing the assets.

The Commission uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. The asset's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. When available, valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The following table sets forth, by level, the Commission’s assets at fair value as of October 31, 2021:

	Level 1	Level 2	Level 3	Total
Cash equivalents				
Money market accounts	$ 45,709,522	$ -	$ -	$ 45,709,522
Investments				
U.S. Treasury bills	499,990	-	-	499,990
Federal agency securities	-	2,185,522	-	2,185,522
State municipal bonds	-	4,198,617	-	4,198,617
	499,990	6,384,139	-	6,884,129
	$ 46,209,512	$ 6,384,139	$ -	$ 52,593,651

5. Capital Assets

A summary of changes in capital assets is as follows:

	Balance at 10/31/20	Additions	Deletions	Balance at 10/31/21
Capital assets, being depreciated				
Building	$ 5,893,856	$ -	$ -	$ 5,893,856
Furniture, fixtures, and equipment	14,128,884	605,890	(943,647)	13,791,127
Infrastructure	377,718,393	3,000,530	-	380,718,923
	397,741,133	3,606,420	(943,647)	400,403,906
Accumulated depreciation	(175,129,019)	(8,473,555)	943,647	(182,658,927)
	$ 222,612,114	$ (4,867,135)	$ -	$ 217,744,979

Depreciation expense for the year ended October 31, 2021 was $8,473,555.

6. Noncurrent Liabilities

The following is a summary of the noncurrent liabilities for the year ended October 31, 2021:

	Balance at 10/31/20	Additions	Payments and Reductions	Balance at 10/31/21	Due Within One Year
Revenue Bonds					
Refunding, Series 2013	$ 16,205,000	$ -	$ (1,720,000)	$ 14,485,000	$ 1,800,000
Refunding, Series 2014	17,345,000	-	(65,000)	17,280,000	75,000
Series 2017	86,665,000	-	(185,000)	86,480,000	-
	120,215,000	-	(1,970,000)	118,245,000	1,875,000
Bond Premium	11,134,781	-	(795,778)	10,339,003	-
	131,349,781	-	(2,765,778)	128,584,003	1,875,000
OPEB obligation	3,059,991	118,638	-	3,178,629	-
Net pension liability	40,854	-	(1,369,645)	(1,328,791)	-
Accrued compensated absences	807,346	469,761	(471,030)	806,077	-
	3,908,191	588,399	(1,840,675)	2,655,915	-
	$ 135,257,972	$ 588,399	$ (4,606,453)	$ 131,239,918	$ 1,875,000

Refunding Revenue Bonds, Series 2013

On September 30, 2013, the Commission issued $25,545,000 of Refunding Revenue Bonds, Series 2013. The proceeds of this issue were used to refund a portion of the Commission's outstanding Series 2003 Bonds and pay costs of issuance of the Series 2013 Bonds including the cost of the Bond Insurance Policy. The portion of the 2003 Bonds were redeemed in on November 1, 2013 in the amount of $25,545,000 principal and $644,193.75 of accrued interest. The Refunding Revenue Bonds, Series 2013, are secured by user fees, expressway bridge tolls, and other revenues. These bonds require future annual debt service installments of $450,000 to $2,340,000 beginning November 1, 2013 through November 1, 2028. The bonds carry interest rates between 3% - 5% and interest to maturity at October 31, 2021 totals $2,349,102 through November 1, 2028.

Refunding Revenue Bonds, Series 2014

On June 19, 2014, the Commission issued $17,540,000 of Refunding Revenue Bonds, Series 2014. The proceeds of this issue were used to refund the final portion of the Commission's outstanding Series 2003 Bonds and pay cost of issuance of the Series 2014 Bonds including the cost of the Bond Insurance Policy. The portion of the 2003 Bonds were redeemed in on June 19, 2013. The Refunding Revenue Bonds, Series 2014, are secured by user fees, expressway bridge tolls, and other revenues. These bonds require future annual debt service installments of $60,000 to $3,040,000 beginning November 1, 2018 through November 1, 2034. The bonds carry interest rates from 2.625% to 4% and interest to maturity at October 31, 2021 totals $5,945,570 through November 1, 2034.

Revenue Bonds, Series 2017
On August 22, 2017, the Commission issued $87,495,000 of Revenue Bonds, Series 2017. The proceeds of the issue will be used for safety improvement projects and pay cost of issuance of the Series 2017 Bonds including the cost of the Bond Insurance Policy. The Revenue Bonds, Series 2017, are secured by user fees and expressway bridge tolls. These bonds require future annual debt service installments of $485,000 to $7,865,000 beginning November 1, 2018 through October 31, 2047. The bonds carry interest rates from 1.03% to 3.14% and interest to maturity at October 31, 2021 totals $79,149,750 through November 1, 2047.

The annual requirements to amortize all bonds outstanding at October 31, 2021, including total interest to maturity of $87,444,422, are as follows:

For the Year Ended October 31:	Refunding Series 2013 Principal	Refunding Series 2013 Interest	Refunding Series 2014 Principal	Refunding Series 2014 Interest	Series 2017 Principal	Series 2017 Interest
2022	$ 1,800,000	$ 613,963	$ 75,000	$ 614,444	$ -	$ 4,324,000
2023	1,895,000	521,588	75,000	612,194	-	4,324,000
2024	1,980,000	424,713	90,000	609,719	1,905,000	4,324,000
2025	2,070,000	333,813	90,000	607,187	1,780,000	4,276,375
2026	2,155,000	247,966	95,000	332,585	1,585,000	4,184,250
Thereafter	4,585,000	207,059	16,855,000	3,169,441	81,210,000	57,717,125
	$ 14,485,000	$ 2,349,102	$ 17,280,000	$ 5,945,570	$ 86,480,000	$ 79,149,750

7. Post-Employment Health Care and Life Insurance Benefits

Plan Description
As of October 31, 2017, the Commission no longer offered post-employment health care benefits to retirees of Medicare age. In addition, employees hired after December 31, 2016 are not eligible for post-employment health care and life insurance benefits. Substantially all Commission employees hired before December 31, 2016 become eligible for postemployment health care and life insurance benefits ("OPEB") if they reach normal retirement age while working for the Commission. The Commission does not issue a publicly available financial report of the OPEB report; however, the OPEB report is available from the Commission by request.

Funding Policy
The benefits for retirees and similar benefits for active employees are provided through an insurance company whose premiums are paid by the Commission. The Commission pays 100% of the retirees' total premium and 40% of dependent premiums until Medicare eligible, at which point the retiree will no longer be eligible for OPEB benefits. Participants who retired prior to March 1, 2017 have life insurance coverage of $13,000. Participants who retire after March 1, 2017 have life insurance coverage of 50% of the Basic Life coverage in force at the time of retirement. Life insurance drops to 65% of the initial amount at age 70, and 50% at age 75. Retirees pay 30% of the life insurance premium if hired before November 1, 2012 and 40% of the life insurance premium if hired on or after November 1, 2012.
The Commission and the retirees pay their respective share of the premiums on a "pay-as-you-go" basis. For the year ended October 31, 2021, the Commission contributed $168,588 for 42 retirees.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At October 31, 2021, the Commission reported a liability of $3,178,629 for its total OPEB liability. The total OPEB liability was measured as of October 31, 2021, and was determined by an actuarial valuation as of that date. The Commission's total OPEB liability was based on projections of the Commission's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating employers, actuarially determined.

For the year ended October 31, 2021, the Commission recognized a total OPEB credit of $26,749. The Commission reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ -	$ 962,524
Changes in assumptions	449,270	1,109,980
Net difference between projected and actual earnings on OPEB plan investments	-	-
Changes in proportion and differences between Employer contributions and proportionate share of contributions	-	-
Employer contributions subsequent to the measurement date	-	-
	$ 449,270	$ 2,072,504

Deferred outflows of resources related to OPEB resulting from the Commission's benefit payments subsequent to the measurement date will be recognized as a reduction of the total collective OPEB liability in the next fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Period Ended	Amount
October 31, 2022	$ (302,174)
October 31, 2023	(302,174)
October 31, 2024	(302,174)
October 31, 2025	(298,999)
October 31, 2026	(380,242)
Thereafter	(37,471)
	$ (1,623,234)

Actuarial Methods and Assumptions

The total OPEB obligation in the actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurements:

Measurement date	October 31, 2021
Actuarial cost method	Entry age normal cost
Investment rate of return	N/A. Benefit payments are funded on a pay-as-you-go basis
Discount rate	2.25% per annum
Healthcare cost trend rate	5.0% year 1 graded to 4.40% year 14
Salary increases, including inflation and merit increases	4.75% per annum
Cost of living adjustments	Not substantively automatic
Mortality	PubG-H2010 projected forward with MP-2021

Discount Rate

The discount rate used to measure the total OPEB liability was 2.25%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that employer contributions from participating employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive plan members.

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the Commission's total OPEB liability using the current discount rate as well as what the Commission's total OPEB liability would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current rate:

	1.0% Decrease (1.25%)	Current Discount Rate (2.25%)	1.0% Increase (3.25%)
Total collective OPEB liability	$ 3,440,820	$ 3,178,629	$ 2,936,505

Sensitivity of the Total OPEB Liability to Changes to the Health Cost Trend Rate

The following presents the Commission's total OPEB liability calculated using assumed trend rates, as well as what the Commission's total OPEB liability would be if it were calculated using a trend rate that is one percentage-point lower or one percentage-point higher than the current rate:

	1.0% Decrease (4.00%)	Current Trend Rate (5.00%)	1.0% Increase (6.00%)
Total collective OPEB liability	$ 2,812,760	$ 3,178,629	$ 3,628,588

OPEB Expense and changes in OPEB Obligation
The Commission's Actuarially Determined Contribution (ADC) represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and to amortize any unfunded actuarial liabilities over a period not to exceed 30 years. The OPEB expense, the percentage of OPEB expense contributed to the plan, and the OPEB obligation at the end of the year for the Commission were as follows:

	Total OPEB Liability	OPEB Fiduciary Net Position	Net OPEB Liability
Total OPEB liability, beginning of year	$ 3,059,991	$ -	$ 3,059,991
Service cost	187,165	-	187,165
Interest	88,260	-	88,260
Differences between expected and actual experience	-	-	-
Changes of economic/demographic gains(losses)	-	-	-
Changes in assumptions	11,801	-	11,801
Employer contributions	(168,588)	-	(168,588)
Total OPEB liability, end of year	$ 3,178,629	$ -	$ 3,178,629

Payables to the OPEB Plan
At October 31, 2021, the Commission included $126,127 in accounts payable for funds due to the OPEB plan.

8. Defined Benefit Pension Plan

Plan Description
The Commission contributes to the Parochial Employees' Retirement System ("PERS"), a cost-sharing, multiple-employer defined benefit pension plan administered by the State of Louisiana (State). PERS provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. PERS is comprised of two distinct plans, Plan A and Plan B, with separate assets and benefit provisions. Employees of the Commission are members of Plan A. Benefit provisions are established by state law and may be amended only by the State Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information for PERS. That report may be obtained by writing to PERS at P.O. Box 14619, Baton Rouge, Louisiana, 70898, or by calling 225.928.1361.

Significant Accounting Policies
The System's employer schedules were prepared using the accrual basis of accounting. Members' earnable compensation, for which the employer allocations are based, is recognized in the period in which the employee is compensated for services performed. The member's earnable compensation is attributed to the employer for which the member is employed as of December 31, 2020.

The System is not allocated a proportionate share of the net pension liability(asset) related to its employees. The net pension liability(asset) attributed to the System's employees is allocated to the remaining employers based on their respective employer allocation percentage.

Plan fiduciary net position is a significant component of the System’s collective net pension liability(asset). The System’s plan fiduciary net position was determined using the accrual basis of accounting. The System’s assets, liabilities, revenues and expenses were recorded with the use of estimates and assumptions in conformity with accounting principles generally accepted in the United States of America. Such estimates primarily related to unsettled transactions and events as of the date of the financial statements and estimates over the determination of the fair market value of the System’s investments. Accordingly, actual results may differ from estimated amounts.

Benefits Provided
The Plan provides retirement, disability and death benefits to plan members and their beneficiaries. Retirement benefits for employees are calculated as 3% of the plan member's final average compensation multiplied by their years of service. Death benefits are equal to 100% of benefits if member is eligible for normal retirement or 60% of final compensation if not eligible for normal retirement. Disability retirement benefits are calculated to be equal to the lesser of an amount equal to 3% of the member's final average compensation multiplied by their years of services, not to be less than 15, or 3% multiplied by years of service assuming continued service to age 60.

For plan members hired prior to January 1, 2007, a member may obtain retirement benefits if any of the following are reached: (a) any age with 30 or more years of creditable service, (b) age 55 with 25 years of creditable service, (c) age 60 with minimum of 10 years of creditable service, (d) age 65 with a minimum of 7 years of creditable service.

For plan members hired after January 1, 2007, a member may obtain retirement benefits if any of the following are reached: (a) age 55 with 30 or more years of service, (b) age 62 with 10 years of service, (c) age 67 with 7 years of service.

The terms of the Plan provide for annual cost of living allowance for the retirees who retired prior to July 1973. The adjustment cannot exceed 2% of the retiree's original benefit for each full calendar year since retirement and may only be granted if sufficient funds are available from investment income in excess of normal requirements. In addition, the Plan may provide an additional cost of living increase to all retirees and beneficiaries who are over age 65 equal to 2% of the member's benefit paid on October 1, 1977 (or the member's retirement date, if later). Also, the Plan may provide a cost of living increase up to 2.5% for retirees 62 and older. Lastly, Act 270 provided for further reduced actuarial payments to provide an annual 2.5% cost of living adjustment commencing at age 55.

Contributions
According to state statute, contributions for all employers are actuarially determined each year. For the year ended December 31, 2020, the actuarially determined contribution rate was 11.11% of member’s compensation for Plan A and 7.39% of member’s compensation for Plan B. However, the actual rate for the fiscal year ended December 31, 2020 was 12.25% for Plan A and 7.50% for Plan B.

According to state statute, the System also receives ¼ of 1% of ad valorem taxes collected within the respective parishes, except for Orleans and East Baton Rouge parishes. The System also receives revenue sharing funds each year as appropriated by the legislature. Tax monies and revenue sharing monies are apportioned between Plan A and Plan B in proportion to the member’s compensation. These additional sources of income are used as additional employer contributions and are considered support from non-employer contributing entities.

The employer contribution is actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The Commission's contributions to PERS for the years ended October 31, 2021, 2020 and 2019 were approximately $572,368, $642,569, and $606,727, respectively, which equaled the required contributions for each year. The State also made on-behalf contributions to the Plan, of which $63,713 was recognized by the Commission for the year ended October 31, 2021; these on-behalf payments did not meet the criteria of a special funding situation.

Pension Liabilities(Assets), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At October 31, 2021, the Commission reported a liability(asset) of $(1,328,791) for its proportionate share of the net pension liability(asset). The net pension liability(asset) was measured as of December 31, 2020, and the total pension liability(asset) used to calculate the net pension liability(asset) was determined by an actuarial valuation as of December 31, 2020. The Commission's proportion of the net pension liability(asset) was based on a projection of the Commission's projected contribution effort to the pension plan for the next fiscal year as compared to the total of all participating employers' contribution effort to the Plan for the next fiscal year, actuarially determined.

At December 31, 2020, the Commission's proportion was 0.75783%, which was an increase of 0.11003% from its proportion measured as of December 31, 2019.

Per the valuation report dated December 31, 2020, the Commission's proportionate share of pension expense was $122,892. At October 31, 2021, the Commission reported deferred outflows or resources and deferred inflows or resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 323,516	$ 158,599
Net difference between projected and actual earnings on pension plan investments	-	2,593,415
Changes in assumptions	434,739	-
Changes in proportion	38,538	130,025
Employer contributions subsequent to the measurement date	480,494	-
	$ 1,277,287	$ 2,882,039

At October 31, 2021, the Commission reported $480,494 as deferred outflows of resources related to pensions resulting from Commission contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability(asset) in the year ended October 31, 2022.

Other amounts reported as deferred outflows of resources and deferred inflows of resources at October 31, 2021, related to pensions will be recognized in pension expense as follows:

Period Ended	Amount
October 31, 2022	$ (580,251)
October 31, 2023	(213,153)
October 31, 2024	(868,159)
October 31, 2025	(423,683)
	$ (2,085,246)

Actuarial Assumptions
A summary of the actuarial methods and assumptions used in determining the total pension liability are as follows:

Valuation date	December 31, 2020
Actuarial cost method	Entry age normal cost
Estimated remaining service life ("ERSL")	4 years
Investment rate of return	6.40% per annum
Inflation rate	2.30% per annum
Salary increases, including inflation and merit increases	4.75%, including inflation
Cost of living adjustments	Only those previously granted
Mortality rate	
Non-disabled members	MP-2018 Employee Sex Distinct Table
Disabled members	MP-2018 Disabled Lives Mortality Table

The long-term expected rate of return on pension plan investments was determined using a triangulation method which integrated the CAPM pricing model (top-down), a treasury yield curve approach (bottom-up) and an equity building block model (bottom-up). Risk return and correlations are projected on a forward looking basis in equilibrium, in which best-estimates of future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Long-term Target Asset Allocation	Expected Portfolio Real Rate of Return
Fixed income	33%	0.86%
Equity	51%	3.36%
Alternatives	14%	0.67%
Other	2%	0.11%
	100%	5.00%
Inflation		2.00%
Expected arithmetic nominal return		7.00%

Discount Rate

The discount rate used to measure the total pension liability(asset) was 6.40% for the valuation date of December 31, 2020. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that participating employer contributions will be made at contractually required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability(asset).

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability(Asset) to Changes in the Discount Rate

The following presents the employer's proportionate share of the net pension liability(asset) using the discount rate of 6.40%, as well as what the employer's proportionate share of the net pension liability(asset) would be if it were calculated using a discount rate that is one percentage-point lower (5.40%) or one percentage-point higher (7.40%) than the current rate:

	1.0% Decrease (5.40%)	Current Discount Rate (6.40%)	1.0% Increase (7.40%)
Employer's proportionate share of the net pension liability(asset)	$ 2,786,087	$ (1,328,791)	$ (4,774,916)

Pension Plan Fiduciary Net Position

Detailed information about the Plan's fiduciary net position is available in the separately issued PERS' financial report.

Payable to Pension Plan

At October 31, 2021, the Commission reported a payable of $143,418 for the outstanding amount of employer contributions to the pension plan required for the year ended October 31, 2021. This amount is included in accrued expenses at October 31, 2021.

9. Net Position

Net position represent the difference between assets, deferred outflows of resources and liabilities, deferred inflows of resources. The composition of net position at October 31, 2021 was as follows:

Net investment in capital assets	
Capital assets	$ 400,403,906
Less: accumulated depreciation	(182,658,927)
Less: bonds payable	(126,709,003)
	91,035,976
Restricted	
Debt service	
Assets held in trust	22,301,477
Restricted receivables	2,167,602
Less: accrued interest on bonds	(2,799,228)
	21,669,851
Capital projects and major repairs	
Assets held in trust	12,614,439
Less: capital contracts payable	(438,370)
Less: bonds payable	(1,875,000)
	10,301,069
	31,970,920
Unrestricted	10,437,383
	$ 133,444,279

10. Legal Proceedings and Claims

The Commission is a defendant or co-defendant in several lawsuits in which the plaintiffs allege property damage and personal injury. In the opinion of the Commission's legal counsel, the ultimate resolution of these matters should not materially affect the financial statements.

At October 31, 2021, the claims liability of $1,654,144 is based on the requirements of GASB Statement No. 10, which requires that a liability for claims be reported if information before the issuance of the financial statements indicates it is probable that a liability has been incurred at the date of the financial statements and the amount of loss can be reasonably estimated. Changes in the claims liability in fiscal for the year ended October 31, 2021 were as follows:

Estimated liability for claims at beginning of year	$ 2,185,905
Changes in estimates	468,239
Claims payment and expenses thereon	(1,000,000)
	$ 1,654,144

11. Risk Management

The Commission is exposed to various risks of loss relating to general liability, automotive liability, and property insurance contracts and has a self-insured risk management program to account for and finance its uninsured risks of loss. Under this program, the Commission provides coverage for general and automotive liability up to the $500,000 deductible limits for each covered loss. The Commission purchased commercial insurance for claims in excess of coverage provided by the risk management program. Settled claims have not exceeded this commercial coverage for the fiscal year.

12. Operating Leases

On March 31, 2020, the Commission entered into a three-year lease with Edgewater Ventures at the rate of $10,000 per month with the option to renew for an additional period of three years at an adjusted rate not to be less than $10,000 per month. Future minimum rental payments for the operating lease are as follows:

For the Year Ended October 31	Amount
2022	$ 120,000
2023	50,000
	$ 170,000

The rental payments for 2021 were $120,000.

13. Subsequent Events

The Commission's management has evaluated subsequent events through April 30, 2022, which is the date the financial statements were available to be issued.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Commissioners
Greater New Orleans Expressway Commission
State of Louisiana
Metairie, Louisiana

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the business-type activities of the Greater New Orleans Expressway Commission (the Commission), as of and for the year then ended October 31, 2021, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements and have issued our report thereon dated April 30, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Commission's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for their purpose of expressing an opinion on the effectiveness of the Commission's internal control. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not

identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

<u>Compliance and Other Matters</u>

As part of obtaining reasonable assurance about whether the Commission's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

<u>Purpose of this Report</u>

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

April 30, 2022

Summary of Audit Results:

Financial Statements:

1. **Type of report issued – unqualified**

2. **Internal control over financial reporting**
    a. **Significant deficiencies - no**
    b. **Material weaknesses - no**
    c. **Other – no**

3. **Compliance and other matters - no**

4. **Management letter - no**

<u>Finding 2020-1</u>:

***Criteria*:**
Management is responsible for developing and implementing internal controls related to inventory.

Condition & Cause:
During our review of inventory, we noted that the Commission does not have specific controls in place to track movement of inventory. Prior to the current year, inventory consisted of large bridge replacement parts that rarely moved thus tracking inventory movement was not considered a critical control. However, in the current year the Commission installed railings on the southbound span and acquired replacement parts that are much smaller and prone to movement.

Effect:
Without controls in place to track the movement of these inventory items, it is possible inventory balances on the financial statements could be misstated.

***Recommendation*:**
We recommend the Commission consider implementing inventory requisition forms that are retained to support the movement of the spare parts inventory.

Management Corrective Action:
Management is in the process of developing additional controls relating to the spare parts inventory and plans to present these for approval to the board of commissioners as soon as they are finalized.

Status:
Resolved.
