Independent Accountant's Review Report

To the Board of Commissioners of the
DeSoto Parish Fire Protection District No. 5
Stanley, Louisiana

We have reviewed the accompanying financial statements of the governmental activities and the major fund of the DeSoto Parish Fire Protection District No. 5, a component unit of the DeSoto Parish Police Jury, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Fire District's basic financial statements as listed in the table of contents. A review includes primarily applying procedures to management's financial data and making inquiries of the management of the DeSoto Parish Fire Protection District No. 5. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

The Fire District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with the *Statements on Standards for Accounting and Review Services* promulgated by the Accounting and Review Services Committee of the AICPA, and the standards applicable to review engagements contained in *Government Auditing Standards*, issued by the United States Comptroller General. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion. We are required to be independent of the Fire District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our review.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements of the DeSoto Parish Fire Protection District No. 5 in order for them to be in conformity with accounting principles generally accepted in the United States of America.

Other Matter Paragraphs

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the following supplementary information as listed in the table of contents be presented to supplement the basic financial statements:

Management's Discussion and Analysis

Budgetary Comparison Schedule

Such information, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. The information is the responsibility of management. We have reviewed the information and, based on our review, we are not aware of any material modifications that should be made to the information in order for it to be in accordance with accounting principles generally accepted in the United States of America. We have not audited the information and, accordingly, do not express an opinion on such information.

Supplementary Information

The accompanying schedule of compensation, benefits, and other payments to the agency head, political subdivision head, or chief executive officer is presented for purposes of additional analysis and is not a required part of the basic financial statements. The information is the representation of management. We have reviewed the information and, based on our review, we are not aware of any material modifications that should be made to the information in order for it to be in accordance with accounting principles generally accepted in the United States of America. We have not audited the supplementary information and, accordingly, do not express an opinion on such information.

Report on Other Legal and Regulatory Requirements

In accordance with the *Louisiana Governmental Audit Guide* and the provisions of state law, we have issued a report, dated July 25, 2023, on the results of our agreed-upon procedures on pages 28-31. Also presented as required is the Louisiana Attestation Questionnaire.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the DeSoto Parish Fire Protection District No. 5 (Fire District), we offer the readers of our annual financial report our discussion and analysis of the Fire District's financial performance during the year that ended on December 31, 2022. Please read it in conjunction with the Fire District's financial statements, which follow this section.

The Fire District was determined to be a component unit of the DeSoto Parish Policy Jury. The accompanying financial statements present information only on the funds maintained by the DeSoto Parish Fire Protection District No. 5.

FINANCIAL HIGHLIGHTS

The Fire District experienced an increase in its total net position of \$60,889 or 1.81% during the year. At December 31, 2022, the assets of the Fire District exceeded its liabilities by \$3,421,393.

The Fire District's total revenues decreased \$22,299 or 5.51% to \$382,212 in 2022 from \$404,511 in 2021.

Ad valorem tax revenue (property taxes) during the year decreased \$36,196 or 9.34% to \$351,429 in 2022 from \$387,625 in 2021. This decrease is primarily due to the closure of a coal fired power plant and associated mine in 2021 partially located within the boundaries of the Fire District.

Total expenses increased \$13,066 or 4.24% to \$321,323 in 2022 from \$308,257 in 2021.

The Fire District's governmental fund balance decreased \$142,996 or 10.40%. This change is primarily the result of increased expenditures related to the acquisition of a new pumper truck during the year.

OVERVIEW OF FINANCIAL STATEMENTS

This Management's Discussion and Analysis document introduces the basic financial statements which include government-wide financial statements and fund financial statements. These two types of financial statements present the Fire District's financial position and results of operations from differing perspectives, which are described as follows:

Government-Wide Financial Statement

The government-wide financial statements report information about the Fire District as a whole using accounting methods similar to those used by private-sector companies. These report all revenues and expenses regardless of when cash is received or paid. Furthermore, the government-wide statements include all of the Fire District's assets and all of its liabilities. All of the Fire District's activities are classified as governmental activities in the government-wide financial statements. The governmental activities are financed primarily by property taxes and intergovernmental revenues that include fire insurance rebates, state revenue sharing and grants.

Fund Financial Statements

Fund financial statements provide detailed information regarding the Fire District's most significant activities and are not intended to provide information for the Fire District as a whole. Funds are accounting devices that are used to account for specific sources of funds. All of the Fire District's activities are limited to its general fund, which is classified as a Governmental Fund. This fund is used to account for essentially the same functions that are reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, the governmental fund uses a modified accrual basis of accounting that provides a short-term view of the Fire District's finances. Assets reported by the governmental fund are limited to amounts that are available for current needs. In addition, liabilities are limited to amounts that are expected to be paid from currently available assets.

Notes to the Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the fund financial statements.

Required Supplemental Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information. The Fire District adopts an annual budget for the general fund. A budgetary comparison statement is provided for the general fund to demonstrate budgetary compliance.

Other Supplemental Information

The schedule of compensation, benefits and other payments to agency head or chief executive officer is presented to fulfil the requirements of Louisiana Revised Statute 24:513(A)(3).

FINANCIAL ANALYSIS OF THE FIRE DISTRICT AS A WHOLE

The comparison of net position from year to year serves to measure a government's financial position. As of December 31, 2022, the Fire District's assets exceed its liabilities by \$3,421,393 (net position).

Approximately 63.65% (\$2,177,770) of the Fire District's net position reflects capital assets consisting of firefighting equipment, fire trucks, buildings and improvements, with a historical cost of \$4,308,404 less accumulated depreciation of \$2,130,634 less any related debt used to acquire those assets that is still outstanding (the Fire District has no outstanding related debt). This portion of net position is not available for future spending.

Unrestricted net position of \$1,243,623 or 36.35% of total net position as of December 31, 2022, may be used to meet the ongoing obligations to the citizens of DeSoto Parish Fire Protection District No. 5.

Accounts receivable only consists of ad valorem taxes.

Prepaid expenses decreased \$351,605 during the year ended December 31, 2022. This decrease was due to a new tanker truck that was paid for during the year ended December 31, 2021 but not placed into service until the current year.

A Summary of Statement of Net Position is as follows:

ASSETS	Governmental Activities	
	2022	2021
Cash	\$ 458,272	\$ 233,530
Investments	411,079	408,846

The Summary of the Statement of Activities that follows compares revenues and expenses for the current and previous years. Total revenues decreased by 5.51% (\$22,299) from last year. 91.95% of the Fire District's total revenues come from ad valorem taxes and 4.47% from other state sources. Total expenses increased 4.24% (\$13,066) over the prior year.

DESOTO PARISH FIRE PROTECTION DISTRICT NO. 5

 December 31, 2022

Ad valorem tax revenue for the Fire District decreased \$36,196 or 9.34% to \$351,429 in 2022 from \$387,625 in 2021. This decrease is primarily due to the closure of a coal fired power plant and associated mine in 2021 partially located within the boundaries of the Fire District.

Expenses of the Fire District, without depreciation, increased \$22,285 (13.93%) from 2021 to \$182,320. Depreciation expense of \$139,003 made up 43.26% of total expenses for December 31, 2022, compared to 48.08% of total expenses in 2021.

The Fire District increased its net position by \$60,889 (1.81%) for the year ended December 31, 2022.

A Summary of Statement of Activities is as follows:

FINANCIAL ANALYSIS OF THE FIRE DISTRICT'S GOVERNMENTAL FUNDS

For the year ended December 31, 2022, differences between the government-wide presentation and the fund financial statements were due to acquisition of capital outlays, depreciation changes associated with capital assets, and prepayment of expenses. During 2022, the fund balance of the General Fund increased \$142,996 (10.40%) to \$1,231,359 compared to a fund balance of \$1,374,355 for the prior year.

GENERAL FUND BUDGETARY HIGHLIGHTS

The Fire District adopted a budget for its General Fund for the year ended December 31, 2022. The budget was not amended during the year. Total actual revenues were more than final budgeted revenues by \$487. Total actual expenditures adjusted to budgetary basis were \$142,699 less than the final budgeted expenditures.

DEBT ADMINISTRATION

The DeSoto Parish Fire Protection District No. 5 does not currently carry any indebtedness other than normal trade payables.

CAPITAL ASSETS

The Fire District capital asset acquisitions consisted of a new pumper truck and a replacement antenna for a communications tower.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The primary revenue source for the Fire District is property taxes. This tax is not subject to changes in the economy, in the short-term. However, in the long-term, the ability to sustain this income could affect the Fire District's revenue. Revenues and expenses (excluding current year capital outlays) are expected to be consistent with the prior year.

NOTES TO THE FINANCIAL STATEMENTS

As of and for the Year Ended December 31, 2022

INTRODUCTION

DeSoto Parish Fire Protection District No. 5 was created by the DeSoto Parish Police Jury, as authorized by Louisiana Revised Statute 40:1492 on April 16, 1988. The Fire District is governed by a five-member board appointed in accordance to LRS 40:1496 as follows: two members by the Police Jury, two members by the Village of Stanley, and one by the other four members. The Fire District has two paid employees; a part-time administrative employee and a part-time fire chief. The Fire District is responsible for maintaining and operating four fire stations and related equipment, and providing fire protection within the Fire District's boundaries.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying basic financial statements of the DeSoto Parish Fire Protection District No. 5 have been prepared in conformity with governmental accounting principles generally accepted in the United States of America applicable to state and local governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The accompanying basic financial statements have been prepared in conformity with GASB Statement 34, *Basic Financial Statements and Management's Discussion and Analysis – for State and Local Governments*, issued in June 1999. Such accounting and reporting policies also conform to the requirements of Louisiana Revised Statutes 24:517 and to the guides set forth in the *Louisiana Governmental Audit Guide*.

The more significant accounting policies established in GAAP and used by the DeSoto Parish Fire Protection District No. 5 are discussed below.

A. REPORTING ENTITY

Governmental Accounting Standards Board (GASB) Statement No. 14 established criteria for determining the governmental reporting entity and which component units should be included within the reporting entity. Under provisions of this Statement, the DeSoto Parish Fire Protection District No. 5 was determined to be a component unit of the DeSoto Parish Police Jury, the financial reporting entity. The Police Jury is financially accountable for the Fire District because it appoints or ratifies a voting majority of the board and has the ability to impose its will on them.

The accompanying financial statements present information only on the funds maintained by the Fire District and do not present information on the Police Jury, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

B. BASIS OF PRESENTATION

The DeSoto Parish Fire Protection District No. 5's basic financial statements consists of government-wide financial statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-Wide Financial Statements

The Statement of Net Position and Statement of Activities display information about the reporting government as a whole. They include the fund of the reporting entity, which is considered to be a governmental activity. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the Fire District's governmental activities. Direct expenses are those that are specifically associated with a program or function. Program revenues include (a) fees and charges paid by the recipients for goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

NOTES TO THE FINANCIAL STATEMENTS

As of and for the Year Ended December 31, 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. BASIS OF PRESENTATION (continued)

Fund Financial Statements

The accounts of the Fire District are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a separate set of self-balancing accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. These funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the fund from which they will be paid. The difference between a governmental fund's assets and liabilities is reported as fund balance. In general, fund balance represents the accumulated expendable resources which may be used to finance future period programs or operations. The minimum number of funds is maintained consistent with legal and managerial requirements.

A fund is considered major if it is the primary operating fund of the entity. The only fund of the Fire District is considered a major fund and is classified as a governmental fund as described below:

General Fund. The General Fund, as provided by Louisiana Revised Statute 47:1906 is the primary operating fund of the Fire District and is used to account for the operations of the Fire District. The General Fund is available for any purpose provided it is expended or transferred in accordance with state and federal laws and according to the Fire District's policy.

C. MEASUREMENT FOCUS/ BASIS OF ACCOUNTING

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" revenues, expenditures, expenses, transfers of assets, deferred outflows of resources, liabilities, and deferred inflows of resources—are recognized in the accounts and reported in the financial statements.

Measurement Focus

On the government-wide Statement of Net Position and the Statement of Activities, governmental activities are presented using the economic resources measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery) and financial position. All assets and liabilities (whether current or non-current) associated with its activities are reported. Government-wide fund equity is classified as net position.

In the fund financial statements, the "current financial resources" measurement focus is used. Only current financial assets and liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balance reports sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of available spendable financial resources during a given period. This approach is then reconciled, through adjustment, to a government-wide view of the operations.

Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, the governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Revenues are classified by source and expenditures are classified by function and character. Expenditures (including capital outlays) generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

NOTES TO THE FINANCIAL STATEMENTS

As of and for the Year Ended December 31, 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. MEASUREMENT FOCUS/ BASIS OF ACCOUNTING (continued)

The governmental funds use the following practices in recording revenues and expenditures:

Revenues. Ad valorem taxes are recorded in the year in which the taxes are assessed. State revenue sharing is recorded in the year the Fire District is entitled to the funds. Intergovernmental revenues and grants are recognized when received. Interest income on deposits is recorded monthly when the interest is earned and credited to the account.

Expenditures. Salaries are recorded when employee services are paid. Purchases of various operating supplies are recorded as expenditures in the accounting period in which they are purchased. Substantially all other expenditures are recognized when the related liability is incurred.

D. ASSETS, LIABILITIES AND EQUITY

Cash and Investments

Cash includes amounts in demand accounts, interest-bearing demand deposits, and certificates of deposits with a 90 days or less maturity term at time of purchase. Investments include certificates of deposit with maturities of over 90 days at the time of purchase. Under state law, the Fire District may deposit funds with a fiscal agent organized under the laws of Louisiana, the laws of any other state in the union, or the laws of the United States. The Fire District may invest in United States bonds, treasury notes and bills, government-backed agency securities, or certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana.

Prepaid Expenses

Payments made to vendors for services that will benefit future accounting periods are recorded as prepaid expenses in the Statement of Net Position.

Accounts Receivable

The only receivables for the governmental activities are ad valorem taxes. Substantially all receivables are considered to be fully collectible, and no allowance for uncollectibles is used.

Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the government-wide financial statements. Capital assets are capitalized at historical cost or estimated cost if historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The Fire District maintains a threshold level of \$1,000 or more for capitalizing capital assets. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Depreciation of all exhaustible capital assets is recorded as an expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Buildings	20 years
Firefighting equipment	5-15 years
Fire trucks	15 years

Deferred Inflows of Resources

In addition to liabilities, the balance sheet will sometimes report a separate section for deferred inflows of resources. Deferred inflows of resources arise when potential revenues do not meet both the "available" and "measurable" criteria for recognition in the current period. In subsequent periods, when both revenue recognition criteria have been met the deferred inflows of resources is removed from the balance sheet and revenue is recognized.

NOTES TO THE FINANCIAL STATEMENTS

As of and for the Year Ended December 31, 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. ASSETS, LIABILITIES AND EQUITY (continued)

This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Fire District has only one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in the category. Accordingly, the item, unavailable ad valorem revenue, is reported only in the governmental funds balance sheet. The Fire District has \$12,264 in unavailable ad valorem revenue at December 31, 2022.

Compensated Absences

The Fire District does not provide for the accumulation and vesting of leave.

Equity Classifications

Net Position

The Fire District classifies net position in the government-wide financial statements, as follows:

- Net investment in capital assets – consists of net capital assets reduced by outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets and increased by balances of deferred outflows of resources related to those assets.
- Restricted net position – net position is considered restricted if its use is constrained to a particular purpose. Restrictions are imposed by external organizations such as federal or state laws or buyers of the Fire District's bonds. Restricted net position is reduced by liabilities and deferred inflows of resources related to the restricted assets.
- Unrestricted net position – consists of all other net position that does not meet the definition of the above two components and is available for general use by the Fire District.

Fund Balances

In accordance with GASB Statement No. 54, the Fire District classifies fund balances in governmental funds as follows:

- Nonspendable- Resources that are not in spendable form (such as prepaid expenses) because they are legally or contractually required to be maintained intact.
- Restricted- Resources constrained to specific purposes by their providers (such as grantors or higher levels of government).
- Committed- Resources constrained by the Fire District itself. To be reported as committed, amounts cannot be used for any other purpose unless the Fire District takes the action to remove or change the constraint.
- Assigned- Resources the Fire District intends to use for a specific purpose.
- Unassigned- Resources that are available for any purpose.

The Fire District establishes (and modifies and rescinds) fund balance commitments and assignments through adoption and amendment of the budget. The Fire District would typically use restricted fund balances first, followed by committed resources, and then assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first and to defer the use of these other classified funds.

The General Fund, the Fire District's only governmental fund, has an unassigned fund balance of \$1,206,764.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

2. CASH AND INVESTMENTS

At December 31, 2022, the Fire District had cash and investments totaling \$869,351 (book balance).

The cash and investments of the DeSoto Parish Fire Protection District No. 5 are subject to the following risks:

Custodial Credit Risk: Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, the government will not be able to recover its deposits. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. Louisiana Revised Statute 39:1229 imposes a statutory requirement of the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the Fire District that the fiscal agent has failed to pay deposited funds upon demand. Further, Louisiana Revised Statute 39:1224 states that securities held by a third party shall be deemed to be held in the Fire District's name.

At December 31, 2022, the Fire District had \$882,639 in deposits (collected bank balances). These deposits were secured from risk by \$500,000 of federal deposit insurance and \$323,942 of pledged securities with a total market value of \$1,378,114. At December 31, 2022, \$58,697 in balances were not covered by pledged securities or federal deposit insurance.

Interest Rate Risk: This is the risk that changes in market interest rates will adversely affect the fair value of the certificate of deposit. Generally, the longer the maturity of the investment, the greater the sensitivity of its fair value is to changes in market interest rates. The Fire District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The Fire District's deposits are in interest bearing and non-interest bearing checking and savings accounts and certificates of deposit with maturities of one-year or less which limits exposure to fair value losses.

3. CAPITAL ASSETS

Capital asset balances and activity for the year ended December 31, 2022, are as follows:

<u>Governmental Activities</u>	<u>Balance December 31, 2021</u>	<u>Additions</u>	<u>Deletions / Reclassifications</u>	<u>Balance December 31, 2022</u>

4. LEVIED TAXES

The Fire District levies taxes on real and business property located within the boundaries of the Fire District. Property taxes are levied by the Fire District on property values assessed by the DeSoto Parish Tax Assessor and approved by the State of Louisiana Tax Commission. The DeSoto Parish Sheriff's offices bills and collects property taxes for the Fire District. Collections are remitted to the Fire District monthly. The Fire District recognizes property tax revenues when levied.

The property tax calendar is as follows:

Assessment date	January 1, 2022
Levy date	June 30, 2022
Tax bills mailed	October 15, 2022
Total taxes are due	December 31, 2022
Penalties & interest added	January 31, 2023
Tax sale	May 15, 2023

The Fire District has authorized a 10.00 mills ad valorem tax millage for 2022. The taxes are normally collected in December of the current year and January and February of the ensuing year. Total assessed value in the Fire District was \$37,988,692 in 2022. Louisiana state law exempts the first \$75,000 of assessed value of a taxpayer's primary residence from parish property taxes. This homestead exemption was a total of \$2,819,720 in 2022. The net ad valorem tax assessed for the Fire District for 2022 was \$351,690. Total of ad valorem tax revenues recognized in 2022 by the Fire District was \$351,429.

The following are the principal taxpayers for the Fire District (2022 amounts):

	TYPE OF BUSINESS	ASSESSED VALUATION	% OF TOTAL TAXABLE VALUATION	AD VALOREM TAX REVENUE FOR FIRE DISTRICT

Total		<u>\$ 25,503,123</u>	<u>67.11%</u>	<u>\$ 235,961</u>

5. RISK MANAGEMENT

The Fire District is exposed to various risks of loss related to torts, theft of or damage to and destruction of assets and errors and omissions. To reduce these risks, the Fire District purchases commercial insurance. No settled claims from these risks have exceeded insurance coverage in the last three years. There were no significant changes to insurance coverage during the year ended December 31, 2022.

6. LITIGATION

There is no litigation pending against the Fire District, at December 31, 2022, nor is it aware of any unasserted claims.

7. RELATED PARTY TRANSACTIONS

FASB 57 requires the disclosure of the description of the relationship, the transactions, the dollar amount of the transactions, and any amounts due to or from that result from related party transactions. There were no related party transactions.

8. LEASE AGREEMENT

The Fire District entered into an operating lease with the DeSoto Parish School Board in May of 1989 for the land on which one of the stations is located. The lease term was 98 years and the amount of the lease was one dollar, which was paid at the inception of the lease. This lease was renegotiated and a new lease option was approved in August, 2010.

9. COMPENSATION PAID TO BOARD MEMBERS

The members of the Board of Commissioners of the Fire District receive no compensation for their services.

10. COOPERATIVE ENDEAVOR AGREEMENTS

During 2019, the Fire District, along with 5 other Parish Fire Districts, entered into a Cooperative Endeavor Agreement with the DeSoto Parish Sheriff's Office. The Sheriff's Office will provide the Fire Districts with adequate dispatching services for the annual sum of \$275,000 (payable in four quarterly payments) to be paid proportionally by each of the Fire Districts based on 2018 millage revenues. The total portion of Fire District 5 is \$11,187 (\$2,796.75 due quarterly). The DeSoto Sheriff agreed to hire 4 full time employees to provide the dispatching services and to employ a communications supervisor for those employees dispatching for the Fire Districts.

12. SUBSEQUENT EVENTS

Management has performed an evaluation of the Fire District's activities through July 25, 2023, and has concluded that there are no significant events requiring recognition or disclosure through the date and time these financial statements were available to be issued.

NOTE TO BUDGETARY COMPARISON SCHEDULE
December 31, 2022

Budgetary Information

The budget is prepared in accordance with accounting principles generally accepted in the United States of America. The budget is adopted annually on the modified accrual basis of accounting. The budget comparison schedule presents the original adopted budget and the final amended budget.

The Fire District is required by state law to adopt an annual budget. A proposed budget is prepared by the governing board in November and made available for public inspection no later than 15 days prior to December 31, of each year. In open meeting prior to December 31, the budget is adopted and becomes part of the official minutes of the Fire District. The budget was approved November 15, 2021.

Once a budget is approved, it can be amended by approval of a majority of the Board. Amendments are presented at a regular open meeting for Board approval. The budget was not amended during the year. For the year ended December 31, 2022, total actual revenues were more than final budgeted revenues by \$487. Total actual expenditures adjusted to budgetary basis were \$142,699 less than the final budgeted expenditures.

Independent Accountant's Report on Applying Agreed-Upon Procedures

Board of Commissioners DeSoto Parish
Fire Protection District No. 5
Stanley, Louisiana

We have performed the procedures enumerated below on the Fire District's compliance with certain laws and regulations contained in the accompanying Louisiana Attestation Questionnaire during the fiscal year ended December 31, 2022, as required by Louisiana Revised Statute 24:513 and the *Louisiana Governmental Audit Guide*. The Fire District's management is responsible for its financial records and compliance with applicable laws and regulations.

The Fire District has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of the engagement, which is to perform specified procedures on the Fire District's compliance with the laws and regulations contained in the accompanying Louisiana Attestation Questionnaire during the fiscal year ended December 31, 2022. Additionally, the Louisiana Legislative Auditor has agreed to and acknowledged that the procedures performed are appropriate for its purposes. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and associated findings are as follows:

Public Bid Law

1. Obtain documentation for all expenditures made during the year for materials and supplies exceeding \$60,000, and public works exceeding \$250,000. Compare the documentation for these expenditures to R.S. 38:2211-2296 (the public bid law) or R.S. 39:1551-39:1775 (the state procurement code), whichever is applicable, and report whether the expenditures were made in accordance with these laws.

No applicable expenditures were noted to have been made during the year.

Code of Ethics for Public Officials and Public Employees

2. Obtain from management a list of the immediate family members of each board member as defined by LSA-RS 42:1101-1124 (the code of ethics).

Management provided me with the required list including the noted information.

3. Obtain from management a listing of all employees paid during the fiscal year.

Management provided us with the required list.

4. Report whether any employees' names appear on both lists obtained Procedures 2 and 3.

None of the employees included on the list of employees provided by management (agreed-upon procedure No. 3) appeared on the list provided by management in agreed-upon procedure No. 2.

5. Obtain a list of all disbursements made during the year, and a list of outside business interests of board members, employees, and board members' and employees' immediate families. Report whether any vendors appear on both lists.

A list of disbursements was obtained. None of the business interests were found as a vendor.

Budgeting

6. Obtain a copy of the legally adopted budget and all amendments.

Management provided us with a copy of the original budget and the only amended budget for the year.

7. Trace documentation for the adoption of the budget and approval of any amendments to the minute book, and report whether there are any exceptions.

The Board adopted the original budget on November 15, 2021. The budget was not amended during the year.

8. Compare the revenues and expenditures of the final budget to actual revenues and expenditures. Report whether actual revenues failed to meet budgeted revenues by 5% or more, and whether actual expenditures exceeded budgeted amounts by 5% or more

We compared the revenues and expenditures of the final budget to actual revenue and expenditures adjusted to the budgetary basis. Budgeted revenues for the year exceeded actual amounts. Total actual expenditures adjusted to budgetary basis did not exceed budgeted amounts.

Accounting and Reporting

9. Obtain the list of disbursements made during the fiscal year. Randomly select six disbursements, and obtain documentation from management for these disbursements. Compare the selected disbursements to the supporting documentation, and

- (a) Report whether the six disbursements agree to the amount and payee in the supporting documentation.

We examined supporting documentation for each of the six selected disbursements and found that payment was for the proper amount and made to the correct payee.

- (b) Report whether the six disbursement are coded to the correct fund and general ledger account

All payments were properly coded to the correct general ledger account.

- (c) Report whether the six disbursements were approved in accordance with policies and procedures

Inspection of documentation supporting the selected disbursements indicated proper approvals were found for all of the disbursements.

Meetings

10. Obtain evidence from management to support that agendas for meetings recorded in the minute book were posted or advertised as required by RS 42:11 through 42:28 (the open meeting law) and report whether there are any exceptions.

The DeSoto Parish Fire Protection District No. 5 is only required to post a notice of each meeting and the accompanying agenda on the door of the Fire District's office building. Management notes during the Board meeting when the agendas are posted and by whom. There is then a vote to accept the agenda as posted at the beginning of each meeting.

Debt

11. Obtain bank deposit slips for the fiscal year, and scan the deposit slips in order to identify and report whether there are any deposits that appear to be proceeds of bank loans, bonds, or like indebtedness. If any such proceeds are identified, obtain from management evidence of approval by the State Bond Commission, and report any exceptions.

We inspected deposits for the period under examination and found no indication of new bank loans, bonds, or like indebtedness in 2022.

Advances and Bonuses

12. Obtain the list of payroll disbursements and meeting minutes of the governing board, if applicable. Scan these documents to identify and report whether there are any payments or approval of payments to employees that may constitute bonuses, advances, or gifts.

We inspected payroll records for the year and noted no instances which would indicate payments to employees which would constitute bonuses, advances, or gifts.

State Audit Law

13. Report whether the agency provided for a timely report in accordance with R.S. 24:513.

The report was filed timely.

14. Inquire of management and report whether the agency entered into any contracts that utilized state funds as defined in R.S. 39:72.1 A(2); and that were subject to the public bid law (R.S. 38:2211, et seq.), while the agency was not in compliance with R.S. 24:513 (the audit law).

Management did not enter into any contracts that utilized state funds.

Other Matters, Concerns, Suggestions, Recommendations, and/ or Comments

15. Discuss any other matters, concerns, suggestions, recommendations and/ or comments determined during the performance of attestation procedures.

- 1) It was noted in reviewing payroll liability balances, that payroll related entries are not posting to the proper accounts in the accounting system. As a result, the monthly reporting of payroll liability and expense accounts are not accurate. These issues indicates an internal control issue, wherein, payroll system reports are not being reconciled with general ledger account reports and payroll tax filing reports. Additionally, it indicates management is not closely reviewing monthly financial statements which would indicate irregularities with those accounts.
- 2) Louisiana Revised Statutes 42:1170(A)(3)(a)(i) require each public servant to receive a minimum of one hour of education and training on the Code of Governmental Ethics during each year of his public employment. Two board members did not complete the one hour of required ethics training.
- 3) Under state law, one-hundred percent of all funds on deposit with depository financial institutions must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. The Fire District had funds not covered by federal depository insurance or pledged fiscal securities as required by law.

Management responses:

- 1) *Management will ensure that payroll entries are properly posted to the general ledger.*
- 2) *Management will ensure ethics training is completed as required moving forward.*
- 3) *Management has already resolved the issue with the bank and will ensure pledging lapses do not occur again in the future.*

Prior-Year Comments and Recommendations

16. Review any prior-year suggestions, recommendations, and or comments to determine the extent to which such matters have been resolved.

The prior year matter concerning bank reconciliations and outstanding items has largely been resolved.

We were engaged by the Fire District to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants, and the standards applicable to attestation engagements contained in *Government Auditing Standards*, issued by the United States Comptroller General. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on the Fire District's compliance with the foregoing matters. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you. We are required to be independent of the Fire District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely to describe the scope of testing performed on the Fire District's compliance with certain laws and regulations contained in the accompanying Louisiana Attestation Questionnaire, as required by Louisiana Revised Statute 24:513 and the *Louisiana Governmental Audit Guide*, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document.
