Independent Accountants' Review Report

To the Mayor and Board of Aldermen  
Village of Creola, Louisiana

We have reviewed the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of Village of Creola, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquires of the management of Village of Creola. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

**MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS**

The management of the Village of Creola is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

**ACCOUNTANT'S RESPONSIBILITY**

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

**ACCOUNTANT'S CONCLUSION**

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

**REQUIRED SUPPLEMENTARY INFORMATION**

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis described in the table of contents and a Statement of

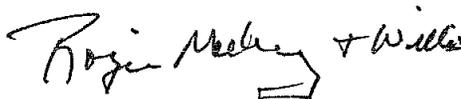

Revenues, Expenditures and Changes in Fund Balance (Budget and Actual) be presented to supplement the basic financial statements. Such information, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting and for placing the basic financial statements in an appropriate operational, economic, or historical context. Such information is the responsibility of management. We have not audited or reviewed such required supplementary information, and, accordingly, we do not express an opinion, a conclusion, nor provide any assurance on it.

**OTHER SUPPLEMENTAL INFORMATION**

The supplementary information included in the Schedule of Per Diem Paid to Board Members and the Schedule of Compensation, Benefits and Other Payments to Agency Head or Chief Executive Officer is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from, and directly related to, the underlying accounting and other records used to prepare the financial statements. This information has been subjected to the review procedures applied in our review of the basic financial statements. We are not aware of any material modifications that should be made thereto. We have not audited or reviewed the supplementary information and do not express an opinion, a conclusion, nor provide any assurance on it.

**OTHER MATTERS**

In accordance with the Louisiana Governmental Audit Guide and the provisions of state law, we have issued a report dated December 18, 2020, on the results of our agreed-upon procedures.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

**June 30, 2020**

---

This section of the annual financial report presents our discussion and analysis of the Village's financial performance during the fiscal year ended June 30, 2020.

### **OVERVIEW OF FINANCIAL STATEMENTS**

The basic financial statements include government-wide financial statements and fund financial statements. These two types of financial statements present the Village's financial position and results of operations from differing perspectives which are described as follows:

#### **Government-Wide Financial Statements**

The government-wide financial statements report information about the Village as a whole using accounting methods similar to those used by private-sector companies. These financial statements report all revenues and expenses regardless of when cash is received or paid. Furthermore, the government-wide statements include all of the Village's assets and all of the Village's liabilities.

The government-wide financial statements are divided into two categories, which are described as follows:

- **Governmental Activities** – Expenses incurred in connection with providing basic services including police protection and general governmental operations are reported as governmental activities. The governmental activities are financed by taxes, license fees, fines, court cost, interest, grants and contributions.
- **Business-Type Activities** – Expenses associated with providing sewer services are recovered through fees paid by the customers that utilize these services. These activities are operated in a manner similar to commercial enterprises. Accordingly, activities associated with sewer services are reported as business type activities.

#### **Fund Financial Statements**

Fund financial statements provide detailed information regarding the Village's most significant activities and are not intended to provide information for the Village as a whole. Funds are accounting devices that are used to account for specific sources of funds. The Village has two types of funds that are described as follows:

- **Governmental Funds** – These funds are used to account for essentially the same functions that are reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, the governmental funds use a modified accrual basis of accounting that provides a short-term view of the Village's finances. Assets reported by governmental funds are limited to amounts that are available for current needs. In addition, liabilities are limited to amounts that are expected to be paid from currently available assets.
- **Proprietary Fund** – These funds are used to account for activities that function in a manner similar to commercial enterprises, including activities associated with the Village's sewer services. Proprietary fund financial statements typically provide a more

detail presentation of the information reported in the business-type activities portion of the government-wide financial statements.

### **FINANCIAL ANALYSIS OF THE VILLAGE**

A comparative analysis of the government-wide data for the current and previous year is presented as follows:

#### **Net Position**

A condensed version of the government-wide Statement of Net Assets is presented as follows:

	<b>June 30, 2020</b>			<b>June 30, 2019</b>
	<b>Governmental Activities</b>	<b>Business- Type Activities</b>	<b>Total</b>	
<b><u>Assets:</u></b>				
Current and Other Assets	\$ 192,443	\$ 2,400	\$ 194,843	\$ 143,389
Capital Assets	86,958	133,365	220,323	243,193
Total Assets	<u>279,401</u>	<u>135,765</u>	<u>415,166</u>	<u>386,582</u>
<b><u>Liabilities:</u></b>				
Current and Other Liabilities	28,470	750	29,220	28,144
Long-term Liabilities	14,469	----	14,469	29,012
Total Liabilities	<u>42,939</u>	<u>750</u>	<u>43,689</u>	<u>57,156</u>
<b><u>Net Position:</u></b>				
Invested in Capital Assets (Net)	57,947	133,365	191,312	199,639

Total Net Position	<u>\$ 236,462</u>	<u>\$ 135,015</u>	<u>\$ 371,477</u>	<u>\$ 329,426</u>

As the presentation appearing above demonstrates, the largest portion of the Village's net position is invested in capital assets. Net position invested in capital assets consist of land, buildings, and equipment, less any debt used to acquire the assets that remain outstanding. The Village uses these capital assets to provide services to its residents; consequently, these amounts are not available for future spending.

#### **Changes in Net Position**

A condensed version of the government-wide Statement of Changes in Net Assets is presented as follows:

Governmental activities increased the Village's net position, before transfers, by \$44,201. This increase is attributable to efficient utilization of the Village's resources.

Business-type activities decreased the Village's net position, before transfers, by \$2,150. This decrease is attributable to the Village having more sewer expenses in the current year.

### **FINANCIAL ANALYSIS OF THE VILLAGE'S FUND**

For the year ended June 30, 2020, activity in governmental funds was limited to the general fund. The only differences between amounts reported by the general fund and governmental activities reported in the government-wide financial statements are attributable to including fixed assets in the government-wide presentation.

Amounts reported for business-type activities in the Village's individual fund are identical to the business-type activities reported in the government-wide presentation.

## **Notes to Financial Statements**

**June 30, 2020**

---

### **NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Village of Creola (the Village) was incorporated under the provisions of the Lawrason Act. The Village is governed by a Mayor and a Board of Aldermen consisting of three (3) members. Services provided by the Village include police protection and general administrative functions. The Village also operates a sewer system.

The accompanying policies conform to generally accepted accounting principles for governmental units.

#### **Financial Reporting Entity**

As the municipal governing authority, for reporting purposes, the Village is considered a separate financial reporting entity. The financial reporting entity consists of (a) the primary government (the Village), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board establishes criteria for determining which component units should be considered part of the Village of Creola for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criterion includes:

1. Appointing a voting majority of an organization's governing body, and
  - a. The ability of the Village to impose its will on that organization and/or
  - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the Village.
2. Organizations for which the Village does not appoint a voting majority but are fiscally dependent on the Village.
3. Organizations for which the Village's financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Based upon application of these criteria, there were no potential component units and all of the Village's activities were included in the primary government reporting entity.

## **Notes to Financial Statements**

**June 30, 2020**

---

### **Basic Financial Statements**

The basic financial statements include both government-wide and fund financial statements. Both government-wide and fund financial statements categorize activities as either governmental activities or business-type activities, which are described as follows:

- Governmental activities involve government services that are normally supported by taxes and intergovernmental revenues.
- Business-type activities rely on fees and charges for support and operate in a manner similar to private sector enterprises.

The government-wide and fund financial statements present the Village's financial position and results of operations from differing perspectives which are described as follows:

### **Government-Wide Financial Statements**

The Statement of Net Position and the Statement of Activities display information about the Village as a whole. The effect of most interfund activity is eliminated from these financial statements. Furthermore, government-wide financial statements exclude any fiduciary activities which are reported in the fund financial statements.

Program revenues reported in the Statement of Activities consist of amounts that are directly associated with governmental service or business-type activity. Program revenues include any charges for services, fines, court cost, contributions associated with a particular function and most grants.

### **Fund Financial Statements**

Funds are separate accounting entities that are designed to assist with demonstrating legal compliance and segregating transactions by activity. Separate financial statements are provided for governmental funds and proprietary funds. In addition, separate financial statements are presented for any fiduciary activities. Major individual funds are reported as separate columns in the fund financial statements. The Village's major funds are described as follows:

- Governmental Funds – The general fund is the Village's only active major governmental fund. The general fund is the primary operating fund and is used to account for all governmental activities except those required to be reported in another fund.
- Proprietary Funds – Are used to account for business type activities. The operations of the Village's Sewer System utilize a proprietary fund. Revenue earned in exchange for providing services is reported as operating income and revenue from other sources is reported as non-operating. Since proprietary funds operate in a manner similar to business enterprises, these funds follow certain pronouncements that are developed by the Financial Accounting Standards Board

# **Village of Creola**

## **Notes to Financial Statements June 30, 2020**

---

(FASB) for business enterprises. However, the Village only applies those FASB pronouncements that were issued on or before November 30, 1989.

### **Measurement Focus and Basis of Accounting**

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. The basis of accounting and measurement focus used for various financial statement presentations are described as follows:

<b><u>Financial Statement Presentation</u></b>	<b><u>Basis of Accounting</u></b>	<b><u>Measurement Focus</u></b>
Government-Wide Financial Statements	Accrual Basis	Economic Resources
Fund Financial Statements:		
Governmental Funds	Modified Accrual Basis	Current Financial Resources
Proprietary Funds	Accrual Basis	Economic Resources
Fiduciary Funds	Accrual Basis	Economic Resources

Under the accrual basis of accounting and the economic resources measurement focus, revenues are recorded when earned and expenses are recorded when a liability is incurred.

Under the modified accrual basis of accounting and the current financial resources measurement focus revenue is recognized when it is considered measurable and available. Revenue is considered available if it is collected within 60 days of year end. In addition, expenses are generally recorded when a liability has been incurred. Furthermore, when the current financial resources measurement focus is used, amounts recorded as assets exclude capital assets and the acquisition of capital assets is treated as an expenditure. In addition, long-term debts are excluded from amounts reported as liabilities. Proceeds from issuing long-term debt are reported as an other financing source and repayment of long-term debt is reported as an expenditure.

### **Non-Exchange Transactions**

Revenue from certain non-exchange transactions cannot be properly measured prior to collection. Furthermore, it is not practical to determine the probability of collection resulting from certain non-exchange transactions such as traffic citations. Consequently, revenue from franchise taxes, fines and court cost is not recognized until it is collected.

### **Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

### **Budget Practices**

The Mayor prepares annual budgets for the Village's general fund. The budget is submitted to the Board of Aldermen and the approved budget is adopted before the beginning of each fiscal year. Amended budgets are prepared prior to the conclusion of each fiscal year. The amended budgets are prepared and approved in the same manner as the original budget.

# **Village of Creola**

## **Notes to Financial Statements**

**June 30, 2020**

---

The general fund budget presents revenue and expenditures on a basis which is consistent with generally accepted accounting principles. No annual budget is required for the Village's Sewer Fund.

### **Capital Assets**

Capital assets include significant acquisitions of equipment that are expected to remain in service for a period of years. Capital assets are reported in the government-wide financial statements but are excluded from the fund financial statements. Instead, the funds report the acquisition of capital assets as expenditures rather than asset acquisitions.

All capital assets are reported at historical cost less accumulated depreciation. Depreciation is computed using the straight-line method and estimated useful lives that are based on the expected durability of the particular asset. Useful lives typically range from five to forty years.

### **Cash and Cash Equivalents**

Amounts reported as cash and cash equivalents include all cash on hand, cash in bank accounts, certificates of deposit, and highly liquid investments. Credit risk associated with bank deposits is limited by requiring fiscal agent banks to pledge securities as required by State Law.

### **Internal Balances:**

Resources belonging to particular funds are commonly shared with other funds that need access to additional resources. When resources are provided without expectation of repayment, the transaction is reported as a transfer. Transfers are treated as a source of income by the recipient and as an expense or expenditure by the provider. If repayment is eventually expected to occur, interfund receivables and payables are recorded.

In preparing the government-wide financial statements, transfers are eliminated to present net transfers for governmental activities and business-type activities. In addition, interfund receivables and payables are eliminated to present a net internal balance for each type of activity.

### **NOTE 2-CASH AND CASH EQUIVALENTS**

Deposits are stated at cost, which approximates market value. Under state law, these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

At June 30, 2020, the Village has \$175,025 in deposits (collected bank balance). These deposits are secured from risk by federal deposit insurance.

### **NOTE 3 - TAXES**

#### **Ad Valorem Taxes**

The Village bills and collects its own property taxes using the assessed property values determined by the Parish Tax Assessor. Property taxes are limited to an assessment for general alimony as permitted by State Law. Ad valorem taxes are assessed on a calendar year basis and are due on or before December 31 in the year the tax is levied. For the year ended June 30, 2020, the Village levied 6.69 mills. Revenues from ad valorem taxes are recognized as revenue in the year billed.

#### **Sales Taxes**

Sales and use taxes are collected on behalf of the Village by the Grant Parish and Rapides Parish Sheriff's Offices and remitted the month subsequent to collection. Revenues from sales taxes are reported on the accrual basis. For the year ended June 30, 2020, the Village sales tax rate is two percent. The sales tax rate has no expiration date.

### **NOTE 4 - RECEIVABLES**

INDEPENDENT ACCOUNTANTS' REPORT ON  
APPLYING AGREED-UPON PROCEDURES

To the Mayor and Board of Aldermen  
Village of Creola, Louisiana

We have performed the procedures enumerated below, which were agreed to by the management of the Village of Creola and the Louisiana Legislative Auditor (the specified parties), on the Village's compliance with certain laws and regulations contained in the accompanying Louisiana Attestation Questionnaire during the fiscal year ended June 30, 2020, as required by Louisiana Revised Statute 24:513 and the *Louisiana Governmental Audit Guide*. The Village's management is responsible for its financial records and compliance with applicable laws and regulations. The sufficiency of these procedures is solely the responsibility of the specified parties. Consequently, we make no representation regarding the sufficiency of the procedures enumerated below either for the purpose for which this report has been requested or for any other purpose.

The procedures and associated findings are as follows:

**PUBLIC BID LAW:**

1. Obtain documentation for all expenditures made during the year for materials and supplies exceeding \$30,000, and public works exceeding \$250,000. Compare the documentation for these expenditures to Louisiana Revised Statute (R.S.) 39:1551-39:1755 (the state procurement code) or R.S. 38:2211-2296 (the public bid law), whichever is applicable; and report whether the expenditures were made in accordance with these laws.

*Based on inquiry of management and review of the general ledger the Village has complied with the requirements of the Public Bid Law.*

**CODE OF ETHICS FOR PUBLIC OFFICIALS AND PUBLIC EMPLOYEES**

2. Obtain a list of the immediate family members of each board member as defined by R.S. 42:1101-1124 (the ethics law).

*Management provided a questionnaire completed by each active member of the Board. The questionnaires furnished a list of outside business interest and immediate family members.*

3. Obtain a list of all employees paid during the fiscal year.

*Management provided us with payroll reports for all employees paid during this period.*

# **Village of Creola**

**December 18, 2020**

---

4. Report whether any employees' names appear on both lists obtained in Procedures 2 and 3.

*None of the employees included on the list of employees provided by management in agreed-upon procedure 3 appeared on the list provided by management in agreed-upon procedure 2.*

5. Obtain a list of all disbursements made during the year; and a list of outside business interests of board members, employees, and board members' and employees' immediate families. Report whether any vendors appear on both lists.

*Management provided the requested information. None of the businesses of board members, employees, and board members' and employees' immediate families appeared as vendors on the list of disbursements.*

## **BUDGETING**

6. Obtained a copy of the legally adopted budget and all amendments.

*Management provided us with a copy of the original budget and amended budget.*

7. Trace documentation for the adoption of the budget and approval of any amendments to the minute book, and report whether there are any exceptions.

*The original budget was adopted June 20, 2019 and the final budget was adopted June 18, 2020.*

8. Compare the revenues and expenditures of the final budget to actual revenues and expenditures. Report whether actual revenues failed to meet budgeted revenues by 5% or more, and whether actual expenditures exceeded budgeted amounts by 5% or more.

*Budget comparisons indicate favorable revenue and expenditure variances that were within limits established by State law.*

## **ACCOUNTING AND REPORTING**

9. Obtain the list of all disbursements made during the fiscal year. Randomly select six disbursements, and obtain documentation from management for these disbursements. Compare the selected disbursements to the supporting documentation, and:

*(a) Report whether the six disbursements agree to the amount and the payee in the supporting documentation.*

*All of the payments had supporting documentation as to proper amount and payee.*

*(b) Report whether the six disbursements were coded to the correct fund and general ledger account.*

*All of the payments were properly coded to the correct fund and general ledger account.*

# **Village of Creola**

**December 18, 2020**

---

(c) Report whether the six disbursements were approved in accordance with management's policies and procedures.

*All invoices were found to be approved by the proper authorities.*

## **MEETINGS**

10. Obtain evidence from management to support that agendas for meetings recorded in the minute book were posted or advertised as required by R.S. 42:11 through 42:28 (the open meetings law); and report whether there are any exceptions.

*The Village is only required to post a notice of each meeting and the accompanying agenda on the door of the meeting facility. Although management has asserted that such documents were properly posted, we could find no evidence supporting such assertion.*

## **DEBT**

11. Obtain bank deposit slips for the fiscal year, and scan the deposit slips in order to identify and report whether there are any deposits that appear to be proceeds of bank loans, bonds, or like indebtedness. If any such proceeds are identified, obtain from management evidence of approval by the State Bond Commission, and report any exceptions.

*Review of receipts reported in the general ledger and inquiry of management did not reveal any evidence of new indebtedness.*

## **ADVANCES AND BONUSES**

12. Obtain the list of payroll disbursements and meeting minutes of the governing board, if applicable. Scan these documents to identify and report whether there are any payments or approval of payments to employees that may constitute bonuses, advances, or gifts.

*We examined payroll records and general ledger for the period under examination and found no payments made to employees for bonuses, advances, or gifts.*

## **STATE AUDIT LAW**

13. Report whether the agency provided for a timely report in accordance with R.S. 24:513.

*The Village's report was timely filed by December 31, 2020.*

14. Inquire of management and report whether the agency entered into any contracts that utilized state funds as defined in R.S. 39:72.1 A. (2); and that were subject to the public bid law (R.S. 38:2211, et seq.), while the agency was not in compliance with R.S. 24:513 (the audit law).

*The Village was in compliance with the audit law.*

# **Village of Creola**

**December 18, 2020**

---

## **PRIOR-YEAR COMMENTS**

15. Obtain and report management's representation as to whether any prior-year suggestions, exceptions, recommendations, and/or comments have been resolved.

### **Finding 2019-1: Written Disaster Recovery Plan (Unresolved)**

*The Mayor and Council are in the process of developing a written disaster recovery plan to establish procedures on how to deal possible interruption of town services and loss of records.*

### **Finding 2019-2: Traffic Tickets Administration (Unresolved)**

*Management will seek counsel from the Village attorney to assist in developing procedures to resolve this matter.*

### **Finding 2019-3 Budget Violation (Resolved)**

*Budget comparisons indicate favorable expenditure variances. However, actual revenue comparisons indicate unfavorable budget variances of revenues exceeded the 5% threshold permitted by state law.*

This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, and the standards applicable to attestation engagements contained in *Government Auditing Standards*, issued by the United States Comptroller General. We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on the Village's compliance with the foregoing matters. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

The purpose of this report is solely to describe the scope of testing performed on the Village's compliance with certain laws and regulations contained in the accompanying Louisiana Attestation Questionnaire, as required by Louisiana Revised Statute 24:513 and the Louisiana Governmental Audit Guide, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document.
