INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners
Bayou Cane Fire Protection District
Terrebonne Parish Consolidated Government
Houma, Louisiana

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the governmental activities and the major fund of the Bayou Cane Fire Protection District, a component unit of the Terrebonne Parish Consolidated Government, as of and for the year ended December 31, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position and the changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Bayou Cane Fire Protection District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 5 through 9, the Budgetary Comparison Schedule – General Fund on page 32, the Schedule of Employer's Share of Net Pension Liability on page 33, and the Schedule of Employer Contributions on page 34 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Bayou Cane Fire Protection District's basic financial statements. The Schedule of Compensation, Benefits, and Other Payments to District Head on page 35 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Compensation, Benefits, and Other Payments to District Head is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 1, 2026, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Notes to Financial Statements
Year Ended December 31, 2025

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Bayou Cane Fire Protection District (the District) was created by the Terrebonne Parish Consolidated Government (the Parish) by Ordinance No. 5732, dated February 7, 1997, pursuant to Louisiana Revised Statutes 40:1493 and 40:1494. The District is governed by a board of seven commissioners appointed by the Parish Council. The District provides fire protection and related services and facilities in Terrebonne Parish within the boundaries established by the ordinance. It covers an area of over 32 square miles and a resident population of approximately 32,000.

The Bayou Cane Fire Protection District complies with accounting principles generally accepted in the United States of America (GAAP). GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. The more significant of the District's accounting policies are described below.

A. REPORTING ENTITY

Because the Parish Council appoints the governing board and thusly can impose its will, the Bayou Cane Fire Protection District was determined to be a component unit of the Terrebonne Parish Consolidated Government, the governing body of the Parish and the governmental body with financial accountability. The accompanying financial statements present information only on the funds maintained by the District and do not present information on the Terrebonne Parish Consolidated Government, the general government services provided by that governmental unit, or the other governmental units that comprise the governmental reporting entity.

The District has reviewed all of its activities and determined that there are no potential component units that should be included in its financial statements.

B. METHOD OF ACCOUNTING

GASB statements established standards for external financial reporting for all state and local governmental entities which includes a statement of net position and a statement of activities. It requires the classification of net position into three components – net investment in capital assets, restricted, and unrestricted. These classifications are defined as follows:

Net investment in capital assets – This component of net position consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds are not included in the calculation of net investment in capital assets. Rather, that portion of the debt is included in the same net position component as the unspent proceeds.

Bayou Cane Fire Protection District
Terrebonne Parish Consolidated Government

Notes to Financial Statements
Year Ended December 31, 2025

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

Restricted – This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted – This component of net position consists of net position that does not meet the definition of “restricted” or “net investment in capital assets”.

When an expense is incurred for purposes for which both restricted and unrestricted net position is available, the District considers restricted funds to have been spent first.

GASB statements establish fund balance classifications that comprise hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. These classifications are defined as follows:

Nonspendable – This component of fund balance includes amounts that cannot be spent due to form, including inventories and prepaid amounts. Also included are amounts that must be maintained intact legally or contractually.

Restricted – This component of fund balance includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.

Committed – This component of fund balance includes amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The Board of Commissioners must vote on commitments.

Assigned – This component of fund balance is intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. The Board of Commissioners can vote on applicable assigned amounts.

Unassigned – This component of fund balance is the residual classification for the District's general fund and includes all spendable amounts not contained in the other classifications.

Stabilization funds – This component of fund balance covers such things as revenue shortfalls, emergencies, or other purposes. The authority to set aside resources often comes from a statute, ordinance, or constitution.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or

unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board of Commissioners have provided otherwise in its commitment or assignment actions.

The basic financial statements of the District are prepared on the accrual basis of accounting, whereby revenues are recognized when earned and expenses are recognized when incurred.

C. FUND TYPES

The District reports the following fund type:

Governmental Funds

Governmental Funds are those through which the governmental functions of the District are financed. The acquisition, use, and balances of the District's expendable financial resources and the related liabilities are accounted for through Governmental Funds.

The measurement focus is upon determination of changes in financial position, rather than upon net income determination. The following is the Governmental Fund of the District:

General Fund – The General Fund is the general operating fund of the District. It is used to account for all financial resources.

D. MEASUREMENT FOCUS/BASIS OF ACCOUNTING

Government-Wide Financial Statements (GWFS)

The government-wide financial statements display information as a whole. These statements include all the financial activities. Information contained in these statements reflects the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange or exchange-like transactions are recognized when the exchange occurs (regardless of when cash is received or disbursed).

Revenues, expenses, gains, losses, assets, and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, Accounting and Financial Reporting for Non-exchange Transactions.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

Fund Financial Statements (FFS)

The amounts reflected in fund financial statements are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balance reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach is then reconciled, through adjustment, to a government-wide view of operations.

The amounts reflected in the fund financial statements use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). Measurable means the amount of the transaction can be determined, and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers all revenues available if they are collected within sixty days after the fiscal year-end. Expenditures are recorded when the related fund liability is incurred.

E. CASH AND CASH EQUIVALENTS

The District considers all highly liquid investments purchased with an initial maturity of three months or less to be cash equivalents.

F. PATIENT ACCOUNTS RECEIVABLES / ALLOWANCE FOR DOUBTFUL ACCOUNTS

Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered. The District provides care to patients even though they may lack adequate insurance or may be covered under contractual arrangements that do not pay full charges. As a result, the District is exposed to certain credit risks. The District manages such risk by regularly reviewing its accounts and contracts, and by providing appropriate allowances.

Trade receivables are carried at original invoice amount less an estimate made for doubtful receivables based on a review of all outstanding amounts on a timely basis. Management estimates the allowance for doubtful accounts by identifying troubled accounts and by using historical experience applied to an aging of accounts. Trade receivables are written off when deemed uncollectible. Recoveries of trade receivables previously written off are recorded when received.

The allowance for doubtful accounts is maintained at an amount which presents accounts receivable at their realizable value. Receivables are written off against the allowance for doubtful accounts in the year the accounts are determined to be uncollectible.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

G. ALLOWANCE FOR UNCOLLECTIBLE AD VALOREM TAX RECEIVABLES

The District's primary revenue source, ad valorem taxes, becomes delinquent if not paid by January 1st following the year of assessment. Unpaid taxes attach as an enforceable lien on property. The Board of Commissioners determined, based on prior historical information, that uncollectible receivables are immaterial to the District's financial statements.

H. CAPITAL ASSETS

Capital assets, consisting of land, buildings and improvements, vehicles, and furniture and equipment, are presented on the Statement of Net Position. Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Donated capital assets are valued at acquisition value on the date donated. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation is recorded using the straight-line method over the useful lives of the assets as follows:

Buildings and improvements	5 - 40 years
Vehicles	5 - 20 years
Furniture and equipment	5 - 20 years

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

I. COMPENSATED ABSENCES

Annual leave is recorded as an expenditure of the period in which paid. Employees of the District can earn between 18 and 30 days per year of annual leave, depending upon length of service. Leave is awarded on the employee's anniversary date and must be taken during that year. It cannot be carried forward to the next year. Unused annual leave is due to the employee at the time of termination at an "hour-for-hour" rate. Accumulated leave as of the end of the year is valued using employees' current rates of pay and estimates of future leave usage, and the liability is recorded in the Statement of Net Position. As of December 31, 2025, compensated absences payable to employees totaled \$349,146, a \$14,250 increase from the prior year.

In accordance with Louisiana State Revised Statute 33:1995, every firefighter shall be entitled to full pay during sickness for a period of not less than fifty-two weeks. However, this amount is not accrued and not payable upon termination. There is no material unpaid sick leave as of December 31, 2025.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

J. ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates. Estimates of the District primarily relate to capital assets' useful lives.

K. OPERATING BUDGETARY DATA

As required by Louisiana Revised Statute 39:1303, the Board of Commissioners adopted a budget for the District's General Fund. Any amendment involving the transfer of monies from one function to another or increases in expenditures must be approved by the Board. All budgeted amounts that are not expended or obligated through contracts lapse at year-end. The budget was amended once during the year.

The General Fund budget is adopted on a basis materially consistent with accounting principles generally accepted in the United States of America.

L. ENCUMBRANCES

Encumbrance accounting, under which purchase orders, contracts, and other commitments are recorded in the fund general ledgers, is not utilized by the District.

M. RECENT ACCOUNTING PRONOUNCEMENTS

The following is a summary of accounting standards adopted by the Governmental Accounting Standards Board (GASB) that have been or are scheduled to be implemented in the future that may affect the District's financial report:

GASB Statement No. 102, *Certain Risk Disclosures*. The objective of this Statement is to provide users of government financial statements with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints. This standard is effective for fiscal years beginning after June 15, 2024, and all reporting periods thereafter. The District has implemented the standard, resulting in no material impact on its financial statements.

GASB Statement No. 103, *Financial Reporting Model Improvements*. The objective of this Statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. This Statement also addresses certain application issues. This standard is effective for fiscal years beginning after June 15, 2025, and all reporting periods thereafter. The effect of implementation on the District's financial statements has not yet been determined.

GASB Statement No. 104, *Disclosure of Certain Capital Assets*. The objective of this Statement is to provide users of government financial statements with essential information about certain types of capital assets. This standard is effective for fiscal years beginning after June 15, 2025, and all reporting periods thereafter. The effect of implementation on the District's financial statements has not yet been determined.

GASB Statement No. 105, *Subsequent Events*. The objective of this Statement is to improve the financial reporting requirements for subsequent events, thereby enhancing consistency in their application and better meeting the information needs of financial statement users. This standard is effective for fiscal years beginning after June 15, 2026, and all reporting periods thereafter. The effect of implementation on the District's financial statements has not yet been determined.

NOTE 2 – DEPOSITS AND INVESTMENTS

Under state law, the District may deposit funds with a fiscal agent bank organized under the laws of the State of Louisiana, the laws of another state in the Union, or the laws of the United States.

State law requires that deposits of all political subdivisions be fully collateralized at all times. Acceptable collateralization includes the FDIC insurance and the market value of securities purchased and pledged to the political subdivision. Obligations of the United States, the State of Louisiana, and certain political subdivisions are allowed as security for deposits. Obligations furnished as security must be held by the political subdivision or with an unaffiliated bank or trust company for the account of the political subdivision.

As of December 31, 2025, the District has deposits as follows:

	Bank Balances	Reported Balances
Cash and cash equivalents	\$ 3,048,736	\$ 2,901,747
Certificates of deposit	93,995	173,848
Totals	<u>\$ 3,142,731</u>	<u>\$ 3,075,595</u>

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District has a policy for custodial credit risk. As of December 31, 2025, \$2,642,731 of the District's bank balances were exposed to credit risk. These were uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the District's name.

NOTE 2 – DEPOSITS AND INVESTMENTS (Cont.)

As of December 31, 2025, bank deposits were adequately collateralized in accordance with state law by securities held by unaffiliated banks for the account of the District. The Governmental Accounting Standards Board (GASB), which promulgates the standards for accounting and financial reporting for state and local governments, considers the securities subject to custodial credit risk. Even though the pledged securities are considered subject to custodial credit risk under the provisions of GASB Statement 40, Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within ten days of being notified by the depositor that the fiscal agent has failed to pay deposited funds upon demand.

Certificates of deposit on account with banks total \$93,995, \$14,142 of which are restricted, held in escrow, for protest taxes paid. The District is required to hold these funds in escrow pending resolution of the protest. Because these certificates of deposit have maturities in excess of 90 days, they are presented as investments in the financial statements.

A reconciliation of deposits and investments as shown on the Statement of Net Position is as follows:

Reported amount of deposits	\$ 3,075,595
Reported amount of investments	<u>-</u>
Total	<u>\$ 3,075,595</u>
Cash and cash equivalents	\$ 2,981,600
Investments	<u>93,995</u>
Total	<u>\$ 3,075,595</u>

NOTE 3 – DUE FROM OTHER GOVERNMENT

At December 31, 2025, the District had \$4,368,357 due from other government, all of which is related to ad valorem taxes from the Terrebonne Parish Sheriff's Office.

NOTE 4 – CAPITAL ASSETS

NOTE 5 – AD VALOREM TAXES

Ad valorem taxes are levied each November 1 on the assessed value listed as of the prior January 1 for all real property, merchandise, and movable property located in the Parish. Assessed values are established by the Terrebonne Parish Assessor's Office and the State Tax Commission at percentages of actual value as specified by Louisiana law. Taxes are due and payable December 31, with interest being charged on payments after January 1.

Any unpaid taxes are collected in connection with an auction held in June.

The voters of Bayou Cane Community approved the current millage rate for fire protection. The District levied 20 of the authorized 20 mills for 2025. These taxes and related state revenue sharing were budgeted for the year ended December 31, 2025 and were included as deferred inflows of resources on the Statement of Net Position as of December 31, 2025. The tax is collected by the Parish Sheriff's Office and remitted to the District.

NOTE 6 – ON-BEHALF PAYMENTS FOR SALARIES

Supplemental salary payments are made by the state to certain eligible full-time employees of the District, in addition to the compensation they receive from the District. The amount of the supplemental pay is determined by State Law and is revised periodically. For 2025, the state paid supplemental salaries for the employees of the District in the amount of \$312,420. These intergovernmental funds are reflected in the financial statements of the District for the year ended December 31, 2025.

NOTE 7 – PENSION PLAN

Firefighters' Retirement System (System)

Plan Description: The Firefighters' Retirement System is a cost-sharing multiple-employer defined benefit pension plan established by Act 434 of 1979 to provide retirement, disability, and death benefits to firefighters in Louisiana.

Eligibility Requirements: Membership in the System is a condition of employment for any full-time firefighters who earn at least \$375 per month and are employed by any municipality, parish, or fire protection district of the State of Louisiana in addition to employees of the Firefighters' Retirement System. Any person who becomes an employee as defined in RS 11:2252 on and after January 1, 1980 shall become a member as a condition of employment. No person who has attained age fifty or over shall become a member of the System unless the person becomes a member by reason of a merger or unless the System received an application for membership before the applicant attained the age of fifty. No person who has not attained the age of eighteen years shall become a member of the System.

Any person who has retired from service under any retirement system or pension fund maintained basically for public officers and employees of the state, its agencies or political subdivisions, and who is receiving retirement benefits therefrom may become a member of this System, provided the person meets all other requirements for membership. Service credit from the retirement system or pension plan from which the member is retired shall not be used for reciprocal recognition of service with this System or for any other purpose in order to attain eligibility or increase the amount of service credit in this System.

Retirement Benefits: Benefit provisions are authorized within Act 434 of 1979 and amended by LRS 11:2251-11:2272. Members of the System with 20 or more years of service who have attained age 50, or members who have 12 years of service who have attained age 55, or 25 years of service at any age shall be entitled to retire from service.

Upon such retirement, the member shall be paid an annual retirement allowance equal to three and one-third percent of average final compensation multiplied by total years of creditable service. However, the annual retirement allowance shall not exceed one hundred percent of average final compensation.

NOTE 7 – PENSION PLAN (Cont.)

Deferred Retirement Option Plan (DROP): After completing 20 years of creditable service and age 50 or 25 years at any age, a member may elect to participate in the deferred retirement option plan (DROP) for up to 36 months. Upon commencement of participation in the deferred retirement option plan, employer and employee contributions to the System cease. The monthly retirement benefit that would have been payable is paid into the deferred retirement option plan account. Upon termination of employment, a participant in the program shall receive, at his option, a lump-sum payment from the account or an annuity based on the deferred retirement option plan account balance in addition to his regular monthly benefit. If employment is not terminated at the end of the 36 months, the participant resumes regular contributions to the System. No payments may be made from the deferred retirement option plan account until the participant retires.

Initial Benefit Option Plan: Effective June 16, 1999, members eligible to retire and who do not choose to participate in DROP may elect to receive, at the time of retirement, an initial benefit option (IBO) in an amount up to 36 months of benefits, with an actuarial reduction of their future benefits. Such amounts may be withdrawn or remain in the IBO account earning interest at the same rate as the DROP account.

Employer Contributions: Employer contributions are actuarially-determined each year. For the year ended June 30, 2025, employer and employee contribution rates for members above the poverty line were 33.25% and 10.0%, respectively. The employer and employee contribution rates for those members below the poverty line were 35.25% and 8.00%, respectively.

Non-Employer Contribution: The System also receives insurance premium tax monies as additional employer contributions. The tax is considered support from a non-employer contributing entity and appropriated by the legislature each year based on an actuarial study.

Non-employer contributions were recognized as revenue during the year ended June 30, 2025 and were excluded from pension expense. Non-employer contributions received by the System during the year ended June 30, 2025 was \$34,828,941.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources: As of December 31, 2025, the District reported liabilities in its government-wide financial statements of \$4,049,343 for its proportionate share of the net pension liabilities of the System. The net pension liabilities were measured as of June 30, 2025, and the total pension liability used to calculate the net pension obligation was determined by an actuarial valuation performed of the retirement system as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially-determined. As of June 30, 2025, the District's proportionate share of the System was 0.961363%, which was a decrease of 0.029530% from its proportion measured as of June 30, 2024.

NOTE 7 – PENSION PLAN (Cont.)

For the year ended December 31, 2025, the District recognized a pension expense of \$669,133 in its governmental activities related to its participation in the System.

As of December 31, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Governmental Activities</u>	
	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 518,552	\$ 73,056
Changes in assumptions	184,620	-

Employer contributions subsequent to the measurement date	<u>504,312</u>	<u>-</u>
	<u>\$1,740,926</u>	<u>\$ 1,193,203</u>

Deferred outflows of resources of \$504,312 related to pensions resulting from the District's contributions to the System subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

2026	\$ 525,121
2027	(257,773)
2028	(191,163)
2029	(88,817)
2030	34,914
2031	<u>21,129</u>
	<u>\$ 43,411</u>

Actuarial Assumptions: A summary of the actuarial methods and assumptions used in determining the total pension liability as of December 31, 2025 is as follows:

Bayou Cane Fire Protection District

NOTE 7 – PENSION PLAN (Cont.)

	Firefighter's Retirement System
Valuation date	June 30, 2025
Actuarial cost method	Entry Age Normal
Actuarial cost assumptions:	
Expected remaining service lives	7 years, closed period
Investment rate of return (Discount rate)	6.90% per annum (net of investment expenses)
Inflation rate	2.50% per annum
Salary increases	Vary from 14.50% in the first two years of service and 5.00% with three or more years of service
Cost of living adjustments	Only those previously granted

For the June 30, 2025 valuation, assumptions for mortality rates were based on the following:

- For active members, mortality was set equal to the Pub-2016 Public Retirement Plans Mortality Table for Safety Below-Median Employees.
- For annuitants and beneficiaries, mortality was set equal to the Pub-2016 Public Retirement Plans Mortality Table for Safety Below-Median Healthy Retirees.
- For disabled retirees, mortality was set equal to the Pub-2016 Public Retirement Plans Mortality Table for Safety Disabled Retirees.
- In all cases, the base table was multiplied by 110% for males and 110% for females, each with full generational projection using the appropriate MP-2021 scale.

The discount rate used to measure the total pension liability was 6.90%. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from participating employers and non-employer contributing entities will be made at the actuarially-determined rates approved by PRSAC taking into consideration the recommendation of the System's actuary. Based on these assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Support of Non-Employer Contributing Entities: Contributions received by a pension plan from non-employer contributing entities that are not in a special funding situation are recorded as revenue by the respective pension plan. The District recognizes revenue in an amount equal to its proportionate share of the total contributions to the pension plan from these non-employer contributing entities. During the year ended December 31, 2025, the District recognized revenue as a result of support received from the non-employer contributing entities of \$334,833 for its participation in the System.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Board of Commissioners
Bayou Cane Fire Protection District
Terrebonne Parish Consolidated Government
Houma, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of the Bayou Cane Fire Protection District (the District), a component unit of the Terrebonne Parish Consolidated Government, as of and for the year ended December 31, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated May 1, 2026.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control

over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations during our audit, we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We were engaged by the Bayou Cane Fire Protection District to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards*. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on those C/C areas identified in the SAUPs. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of Bayou Cane Fire Protection District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely to describe the scope of testing performed on those C/C areas identified in the SAUPs, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the LLA as a public document.
