## Independent Auditors' Report

Board of Commissioners  
Fire Protection District No. 2 of the Parish of Pointe Coupee  
Morganza, Louisiana

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of Fire Protection District No. 2 of the Parish of Pointe Coupee (District), a component unit of the Pointe Coupee Parish Police Jury, as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### Management's Responsibility

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Fire Protection District No. 2 of the Parish of Pointe Coupee, a component unit of the Pointe Coupee Parish Police Jury, as of December 31, 2018, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## Other Matters

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4 through 7 and on page 25 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

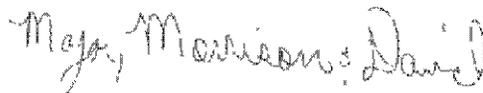

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Fire Protection District No. 2 of the Parish of Pointe Coupee's basic financial statements. The accompanying supplemental information schedules and other information as listed in the foregoing table of contents are presented for the purpose of additional analysis and are not a required part of the basic financial statements.

The accompanying supplemental information schedules and other information as listed in the foregoing table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated June 21, 2019, on our consideration of Fire Protection District No. 2 of the Parish of Pointe Coupee's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Fire Protection District No. 2 of the Parish of Pointe Coupee's internal control over financial reporting and compliance.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

**FIRE PROTECTION DISTRICT NO. 2 OF THE PARISH OF POINTE COUPEE  
MORGANZA, LOUISIANA**

**MANAGEMENT'S DISCUSSION AND ANALYSIS**

**December 31, 2018**

The Management's Discussion and Analysis (MD&A) of the Fire Protection District No. 2 of the Parish of Pointe Coupee (District) provides an overview and overall review of the District's financial activities for the fiscal year ended December 31, 2018. The intent of the MD&A is to look at the District's financial performance as a whole. It should, therefore, be read in conjunction with the District's financial statements found in the financial section starting on page 9, and the notes thereto. MD&A is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments* issued June 1999.

**FINANCIAL HIGHLIGHTS**

- \* The District's total net position increased by \$126,662 over the course of this year's operations.
- \* During the year, the District's expenses were \$210,954 more than the \$-0- generated in charges for services and operating grants for governmental programs.
- \* The total cost of the District's programs was \$210,954, a decrease of approximately \$9,368 or 4.0 percent.
- \* Total revenues including general revenues were \$337,616, an increase of \$8,960 or 3.0 percent.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

This annual report consists of four parts—management's discussion and analysis (this section), the basic financial statements, required supplementary information, and other supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- \* The first two statements on pages 9 and 10 are government-wide financial statements that provide information about the activities of the District as a whole and present a longer-term view of the District's finances.
- \* The remaining statements starting on page 11 are fund financial statements that focus on individual parts of the District's government, reporting the District's operations in more detail than the government-wide statements.
  - The governmental funds statements tell how general government services, such as assessment services, were financed in the short term as well as what remains for future spending.

The financial statements also include notes that explain some of the information in the financial statements and provide additional detailed data. The notes are followed by a section of required supplementary information that further explains and supports the information in the financial statements as well as providing budgetary comparison data. The last section of the report contains additional supplemental information regarding the governmental fund-general fund. The rest of this overview section of management's discussion and analysis explains the structure of contents of each of the statements.

**Government-wide Statements**

The government-wide statements report information about the District as a whole using the accrual basis of accounting, which is similar to that which is used by private sector companies. The statement of net position on page 9 includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities on page 10, regardless of when cash is received or paid.

These two statements report the District's net position and changes in them. Net position – the difference between the District's assets and liabilities – is one way to measure the District's financial health, or financial position. Over time, increases and decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. Other nonfinancial factors will also need to be considered to assess the overall health of the District.

**FIRE PROTECTION DISTRICT NO. 2 OF THE PARISH OF POINTE COUPEE  
MORGANZA, LOUISIANA**

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
December 31, 2018**

The government-wide financial statements of the District, report only one type of activity – governmental activities. All of the District's basic services are included here, such as assessment services and general administration.

**Fund Financial Statements**

The fund financial statements, beginning on page 11, provide more detail about the District's most significant funds – not the District as a whole. State laws require the establishment of some funds. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

The District uses only the governmental type of fund with the following accounting approach. Most of the District's basic services are included in governmental funds, which focus on how cash and other financial assets that can be readily converted to cash flow in and out of those funds, and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can be readily converted to cash. The governmental fund statements therefore provide a detailed short-term view of the District's general government operations and the basic services it provides, and helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Since this information does not include the additional long-term focus of government-wide statements, we provide reconciliations on the subsequent pages that explain the relationship (or differences) between the two different type statements.

**FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE**

**Net position.** The District's combined net position increased between fiscal years 2017 and 2018, going from approximately \$2,214,275 to \$2,340,937. (See Table 1 below)

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
December 31, 2018**

**Changes in net position.** The District's total revenues increased by 3.0 percent to \$337,616 (See Table 2), due to increased collections of sales and use taxes. Approximately 96 percent of the District's revenue comes from a general property tax assessed on the property owners in the district and sales and use taxes collected within the district.

The total cost of all programs and services decreased approximately \$9,368 or 4.0 percent due to an increase in personnel costs. The District's expenses cover all services, which it offers to the public.

**Governmental Activities**

Revenues for the District's governmental activities increased by 3.0 percent, while total expenses decreased 4.0 percent.

**FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS**

As the District completed the year, its governmental funds reported a combined fund balance of \$1,411,249, reflecting an increase over the prior year of \$19,688. Of the combined fund balance total, \$1,402,732 is unassigned indicating availability for continuing the District's activities. Non-spendable fund balance includes \$8,517 in the form of prepaid expenses. The revenues increase reflected additional sales and use tax revenues, and decreases in operating expenditures were due to normal cost savings. Expenses for 2019 should remain consistent with 2018.

**CAPITAL ASSET AND DEBT ADMINISTRATION**

**Capital Assets**

At the end of the year, the District had invested \$929,688 in capital assets. (See Table 4).

<b>Total</b>	<b><u>\$ 929,688</u></b>

**Debt**

At year-end, the District had no debt outstanding.

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES**

Approximately 97 percent of the District's revenues are derived from an ad valorem tax on the voters of the district and sales and use taxes collected within the district. The economy is not expected to generate any significant growth in assessment values and sales and use taxes for 2019 nor is there an expected increase in the District's millage rate. The District's operating expenses are not expected to increase; capital expenditures should remain comparable to 2018, therefore, future revenues and expenses are expected to remain consistent with the current year. The budget for the year 2019 should approximate the same as the year 2018 budget.

**CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT**

This financial report is designed to provide our parishioners, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Mr. Mark Ramagos, Secretary-Treasurer, P.O. Box 66, Morganza, Louisiana 70759.

**Notes to the Financial Statements**  
**As of and For the Year Ending December 31, 2018**

**INTRODUCTION**

On July 14, 1981, the 4<sup>th</sup> Ward Fire Protection District of the Parish of Pointe Coupee was re-designated Fire Protection District No. 2 of the Parish of Pointe Coupee (District) by a resolution of the Pointe Coupee Parish Police Jury under the authority of Louisiana Revised Statute 40:1491. The District operates under a commission form of government and provides fire protection services to all the territory situated within the limits of Pointe Coupee Election District 3, as said Election District was constituted in 1981. The District has two employees. Additional labor is furnished through an intergovernmental service agreement with local volunteer firefighters.

In accordance with LRS 40:1494, the District is managed by a board of five commissioners. Two commissioners are appointed by the Pointe Coupee Parish Police Jury and two are appointed by the Village of Morganza. These four commissioners then appoint the fifth to act as a chairperson.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. BASIS OF PRESENTATION**

The accompanying financial statements of the District have been prepared in conformity with governmental accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The accompanying financial statements have been prepared in conformity with GASB Statement No. 34, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments*, issued in June 1999.

**B. REPORTING ENTITY**

As stated above, the District was created by a resolution of the Pointe Coupee Parish Police Jury in 1981 and is a political subdivision of the Pointe Coupee Parish Police Jury. The District does not possess all of the corporate powers necessary to make it a legally separate entity. The Pointe Coupee Parish Police Jury holds all of the District's corporate powers. For this reason, the District was determined to be a component unit of the Pointe Coupee Parish Police Jury, the financial reporting entity.

The accompanying financial statements present information only on the funds maintained by the District and do not present information on the police jury, the general governmental services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

**C. FUND ACCOUNTING**

The District uses funds to maintain its financial records during the year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions and activities. A fund is defined as a separate fiscal and accounting entity with a self-balancing set of accounts.

**Governmental Funds**

Governmental funds account for all or most of the District's general activities. These funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may be used. Current liabilities are assigned to the fund from which they will be paid. The difference between a governmental fund's assets and liabilities is reported as fund balance. In general, fund balance represents the accumulated expendable resources, which may be used to finance future period programs or operations of the District. The following are the District's governmental funds:

**FIRE PROTECTION DISTRICT NO. 2 OF THE PARISH OF POINTE COUPEE**

**Morganza, Louisiana**

**Notes to the Financial Statements**

General Fund – the primary operating fund of the District and it accounts for all financial resources, except those required to be accounted for in other funds. The General Fund is available for any purpose provided it is expended or transferred in accordance with state and federal laws and according to District policy.

**D. MEASUREMENT FOCUS/BASIS OF ACCOUNTING**

**Government-Wide Financial Statements (GWFS)**

The Statement of Net Position and the Statement of Activities display information about the District as a whole. These statements include all the financial activities of the District. Information contained in these statements reflects the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange or exchange-like transactions are recognized when the exchange occurs (regardless of when cash is received or disbursed). Revenues, expenses, gains, losses, assets, and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*.

**Program Revenues** – Program revenues included in the Statement of Activities are derived directly from users as a fee for services; program revenues reduce the cost of the function to be financed from the District’s general revenues.

**Fund Financial Statements (FFS)**

The amounts reflected in the General Fund of the Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balance are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach is then reconciled, through adjustment, to a government-wide view of the District’s operations (See the reconciliation statements).

The amounts reflected in the General Fund in the FFS use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days after the fiscal end. Expenditures are recorded when the related fund liability is incurred, except for interest and principal payments on general long-term debt which is recognized when due, and certain compensated absences and claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

The governmental funds use the following practices in recording revenues and expenditures:

**Revenues**

Ad valorem taxes and the related state revenue sharing (which is based on population and homesteads in the District) are recorded in the year the taxes are assessed. Ad valorem taxes are assessed on a calendar year basis, become due on or about November 15 of each year, and become delinquent on December 31. Taxes are generally collected in December of the current year and January and February of the following year.

Revenues from sales and use taxes are considered “measurable” when in the hands of collecting governments and are recognized as revenue at that time. Anticipated refunds of such taxes are recorded as liabilities and reductions of revenue when they are measurable and their validity seems certain.

**FIRE PROTECTION DISTRICT NO. 2 OF THE PARISH OF POINTE COUPEE**

**Morganza, Louisiana**

**Notes to the Financial Statements**

**Expenditures**

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

**E. BUDGETS**

The District prepares an annual budget for the General Fund on the modified accrual basis of accounting. The proposed budget is made available for public inspection no later than 15 days prior to the beginning of each fiscal year. The budget is legally adopted and amended, as necessary, by the District. All appropriations lapse at year end. In accordance with Louisiana Revised Statute 47:1908, the District carries forward any unexpended appropriation into subsequent years. The 2018 budget was legally adopted in an open meeting on November 20, 2017. In an open on May 14, 2018 the budget was amended and adopted

**F. ENCUMBRANCES**

The District does not use encumbrance accounting.

**G. CASH, CASH EQUIVALENTS, AND INVESTMENTS**

Cash includes amounts in interest bearing demand deposits. Under state law, the District may deposit funds in demand deposits, interest bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana or any other state of the United States, or under the laws of the United States.

Investments are limited by R.S. 33:2955 and the District's investment policy. The District may invest in United States bonds, treasury notes, or certificates of deposits. If the original maturities of investments exceed 90 days, they are classified as investments; however, if the original maturities are 90 days or less, they are classified as cash equivalents. All external pool deposits are considered investments.

GASB Statement No. 31 requires the District to report investments at fair value in the balance sheet, except as follows:

1. Investments in nonparticipating interest-earning contracts, such as nonnegotiable certificates of deposit with redemption terms that do not consider market rates, should be reported using a cost-based measure, provided that the fair value of those contracts is not significantly affected by the impairment of the credit standing of the issuer or other factors.
2. The District may report at amortized cost money market investments and participating interest earning investment contracts that have a remaining maturity at time of purchase of one year or less, provided that the fair value of those investments is not significantly affected by the impairment of the credit standing of the issuer or by other factors. Money market investments are short-term, highly liquid debt instruments that include U.S. Treasury obligations. Interest-earning investment contracts that include time deposits with financial institutions (such as certificates of deposit), repurchase agreements, and guaranteed investment contracts.

In accordance with GASB Statement No. 31, the District reports investments at amortized cost, money market investments and participating interest-bearing investment contracts that have a remaining maturity at time of purchase of one year or less, provided that the fair value of those investments is not significantly affected by the impairment of the credit standing of the issuer or by other factors. Money market investments are short-term, highly liquid debt instruments that include U.S. Treasury obligations. Investments of the District are reported at fair market value which approximates cost (see note 4).

**FIRE PROTECTION DISTRICT NO. 2 OF THE PARISH OF POINTE COUPEE**

**Morganza, Louisiana**

**Notes to the Financial Statements**

**H. CAPITAL ASSETS**

Capital assets are capitalized at historical cost or estimated historical cost if historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The District maintains a threshold level of \$500 or more for capitalizing capital assets.

Capital assets are recorded in the Statement of Net Position and Statement of Activities. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public purposes, no salvage value is taken into consideration for depreciation purposes. All capital assets, other than land, are depreciated using the straight-line method over the following useful lives:

Buildings & improvements	10-40 years
Equipment & furniture	5-12 years
Vehicles	15 years

**I. PREPAID ITEMS**

The District records prepaid assets for any significant expenditure that can be allocable to future periods in both the government-wide and fund financial statements.

**J. BAD DEBTS**

The District uses the allowance method whereby uncollectible amounts due from other governmental entities are recognized as bad debts through the use of an allowance account or charged off at the time information becomes available which indicates the particular receivable is not collectible. No amounts were charged off in the year ending December 31, 2018.

**K. RESTRICTED NET POSITION**

For government-wide statement of net position, net position is reported as restricted when constraints placed on net position use are either:

- 1) externally imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments; and
- 2) imposed by law through constitutional provisions or enabling legislation.

**L. FUND EQUITY**

The District has adopted Governmental Accounting Standards Board (GASB) Statement No. 54 “Fund Balance Reporting and Governmental Fund Type Definitions.” This statement establishes criteria for classifying fund balances into specifically defined classifications and clarifies definitions for governmental fund types. The following describes the different classifications available for fund balances of governmental funds:

*Non-spendable* – amounts that cannot be spent because they are either (1) not in spendable form or (2) legally or contractually required to be maintained intact.

*Restricted* – amounts for which constraints have been externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or amounts that are imposed by law through constitutional provisions or enabling legislation.

**FIRE PROTECTION DISTRICT NO. 2 OF THE PARISH OF POINTE COUPEE**

**Morganza, Louisiana**

**Notes to the Financial Statements**

*Committed* – amounts that can be used only for specific purposes determined by formal action of the District, who is the highest level of decision-making authority for the Fire Protection District No. 2 of the Parish of Pointe Coupee’s Office. Commitments cannot be used for any other purpose unless the same action that established them decides to modify or remove them.

*Assigned* – amounts that do not meet the criteria to be classified as either restricted or committed but are intended to be used for specific purposes. Amounts can only be assigned by the District.

*Unassigned* – the residual fund balance in the general fund.

When fund balance resources are available for a specific purpose, the District considers the most restrictive funds to be used first. However, the District reserves the right to spend unassigned resources first and to defer the use of more restrictive funds.

**M. USE OF ESTIMATES**

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**2. EXCESS OF EXPENDITURES OVER APPROPRIATIONS**

The following individual funds had actual expenditures over budgeted appropriations for the year ended December 31, 2018.

**4. DEPOSITS AND INVESTMENTS**

**A. Cash and Cash Equivalents**

Cash and Cash equivalents include bank accounts and short-term investments. See Note 1(G) for additional cash disclosure note information.

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure the District’s deposits may not be returned. Deposits are exposed to custodial credit risk if they are either (a) uninsured and uncollateralized, or (b) uninsured and collateralized with securities held by the pledging financial institution or its trust department/agent but not in the name of the District. The District’s cash and investment policy, as well as state law, require that deposits be fully secured by federal deposit insurance or the pledge of securities owned by the bank. The fair value of the pledged securities plus the federal deposit insurance must at all times equal or exceed the amount on deposit with the bank. The following chart represents bank balances for the District as of December 31, 2018. Deposits are listed in terms of whether they are exposed to custodial credit risk.

Cash and Cash Equivalents	\$ -	\$ -	\$ 976,603	\$ 975,324

**B. Investments**

Investments are stated at fair value. See also Note 1 (G) for additional investment disclosure information.

Credit Risk - Investments

Investments permitted by state statute include obligations issued, insured or guaranteed by the U.S. government including certificates or other ownership interest in such obligations and/or investments in registered mutual or trust funds consisting solely of U.S. government securities. The District’s investment program is limited to purchases of bank certificate of deposits, U.S. treasury and government agency obligations, U.S. corporate bonds that meet the requirements of Louisiana Revised Statute 33:2955(A)(1)(l) as well as investments in the Louisiana Asset Management Pool, Inc. (LAMP). LAMP is a nonprofit corporation formed by an initiative of the State Treasurer, and organized under the laws of the State of Louisiana which operates a local government investment pool. LAMP is rated AAAM by Standard & Poor’s. It is the District’s opinion that since these securities are governmental agencies, credit risk is not a factor.

Custodial Credit Risk - Investments

Custodial credit risk for investments is the risk that in the event of the failure of the counterparty to a transaction, the District will not be able to recover the value of the investment. Investments are exposed to custodial risk if the securities are (a) uninsured and unregistered and held by the counterparty or (b) uninsured, unregistered and held by the counterparty’s trust

department or agent but not in the name of the District. The following chart presents the investment position of the District as of December 31, 2018. The various types of investments are listed and presented by whether they are exposed to custodial credit risk.

Total	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 283,981</u>	<u>\$ 283,981</u>

**Interest Rate Risk - Investments**

Interest rate risk is defined as the risk that changes in interest rates will adversely affect the fair value of investments. Investments can be highly sensitive to changes in interest rates due to their terms or characteristics. The District's investment policy with regards to interest rate risk is to match cash flow requirements with cash flows from investments. This matching allows for securities to be held to maturity thereby avoiding realizing losses due to liquidation of securities prior to maturity, especially in a rising interest rate environment. Investing in longer term maturities that contain a "step up" in coupon interest rates will also contribute to the reduction of interest rate risk. LAMP is designed to be highly liquid to give its participants immediate access to their account balances. LAMP prepares its own interest rate risk disclosure using the weighted average maturity (WAM) method. The WAM of LAMP assets is restricted to not more than 60 days and consists of no securities with a maturity in excess of 397 days. The WAM for LAMP's total investments is 89 as of December 31, 2018. Investments classified by maturity dates at December 31, 2018 are summarized below:

<u>Investment</u>	<u>Fair Value</u>	<u>0-1 Years Before Maturity</u>	<u>1-5 Years Before Maturity</u>	<u>6+ Years Before Maturity</u>

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS  
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Board of Commissioners  
Fire Protection District No. 2 of the Parish of Pointe Coupee  
Morganza, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Fire Protection District No. 2 of the Parish of Pointe Coupee (District), a component unit of the Pointe Coupee Parish Police Jury, as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated June 21, 2019.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

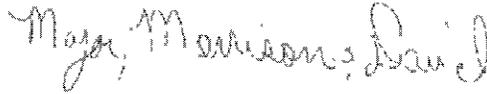

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
