INDEPENDENT ACCOUNTANT'S REVIEW REPORT

The Board of Commissioners
 Ward One South Gravity Drainage
 District No. 1 of St. Landry Parish
 Opelousas, Louisiana

We have reviewed the accompanying financial statements of the governmental activities of Ward One South Gravity Drainage District No. 1 of St. Landry Parish, a component unit of St. Landry Parish Government, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA, and the standards applicable to review engagements contained in the Government Auditing Standards, issued by the United States Comptroller General. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

We are required to be independent of Ward One South Gravity Drainage District No. 1 of St. Landry Parish and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our review.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

In accordance with the Louisiana Governmental Audit Guide and the provisions of state law, we have issued a report dated May 9, 2022, on the results of our agreed-upon procedures.

Required Supplementary Information

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

Accounting principles generally accepted in the United States of America require that the budgetary comparison on page 18 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Government Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Such information is the responsibility of management. We have not audited, reviewed, or compiled such required supplementary information, and accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on it.

Other Supplementary Information

The accompanying Schedule of Compensation, Benefits and Other Payments to Agency Head or Chief Executive Officer on page 28 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. We have reviewed the information and, based on our review, we are not aware of any material modifications that should be made to the information in order for it to be in accordance with accounting principles generally accepted in the United States of America. We have not audited the supplementary information and, accordingly, do not express an opinion on such information.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2021

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the Ward One South Gravity Drainage District No. 1 of St. Landry Parish, Opelousas, Louisiana, have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. The accounting and reporting framework and the more significant accounting policies are discussed in the subsequent subsection of this note.

The following is a summary of certain significant accounting policies and practices of the District.

A. FINANCIAL REPORTING ENTITY

The Ward One South Gravity Drainage District No. 1 of St. Landry Parish was established for the purpose of opening and maintaining all natural drains in the District, where drainage is accomplished using the natural force of gravity.

As the governing authority of the parish, for reporting purposes, the St. Landry Parish Government is the financial reporting entity for St. Landry Parish. The financial reporting entity consists of (a) the primary government (parish government), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Governmental Accounting Standards Board Statement No. 14 established criteria for determining which component units should be considered part of the St. Landry Parish Government for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

1. Appointing a voting majority of an organization's governing body, and
 - a. The ability of the parish government to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the parish government.
2. Organizations for which the parish government does not appoint a voting majority but are fiscally dependent on the parish government.
3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Because the parish government appoints the District's governing body, the District was determined to be a component unit of the St. Landry Parish Government, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the District and do not present information on the parish government, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

B. BASIS OF PRESENTATION

Government-wide Financial Statements (GWFS). The Statement of Net Position and the Statement of Activities display information on all of the nonfiduciary activities of Ward One South Gravity Drainage District No. 1 of St. Landry Parish, as a whole. They include all funds of the reporting entity. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Fiduciary funds are not included in the GWFS. Fiduciary funds are reported only in the Statement of Fiduciary Net Position at the fund financial statement level.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the program, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements. The District uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. On the other hand, an account group is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Funds of the District are classified as governmental funds. Governmental funds account for the District's general activities, including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of general fixed assets, and the servicing of general long-term debt. The Governmental Fund of the District includes:

General Fund

The General Fund is the general operating fund of the Ward One South Gravity Drainage District No. 1 of St. Landry Parish. It is used to account for all financial resources except those required to be accounted for in other funds.

C. MEASUREMENT FOCUS/BASIS OF ACCOUNTING

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Measurement Focus

On the government-wide Statement of Net Position and the Statement of Activities, governmental activities are presented using the economic resources measurement focus as defined in item "b" below.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate:

- a. All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on the balance sheet. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.
- b. The proprietary fund utilizes an "economic resources" measurement focus. The accounting objective of this measurement focus is the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net position.

In the government-wide Statement of Net Position and Statement of Activities, governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures (including capital outlay) generally are recorded when a liability is incurred, as under accrual accounting.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State of Louisiana are recognized when susceptible to accrual. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned since they are measurable and available.

Purchase of various operating supplies are regarded as expenditures at the time purchased. The costs of governmental fund-type inventories are recorded as expenditures when purchased and items on hand at year-end, if any, are not recorded as assets. Expenditures for insurance and similar services which extend over more than one accounting period are accounted for as expenditures of the period of acquisition.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. BUDGETS AND BUDGETARY ACCOUNTING

The District is required by state law to adopt an annual budget for its General Fund. The budget is adopted on the modified accrual basis of accounting. The Board of Commissioners may authorize revisions requiring alteration of levels of expenditures. Operating appropriations lapse at year-end.

The operating budget was adopted at a meeting held on December 14, 2020.

E. ENCUMBRANCES

Encumbrance accounting is not used by the Drainage District.

F. INVESTMENTS AND CASH

Investments are carried at amortized cost and classified as held-to-maturity based on management's ability and intent to be held to maturity. Investments consist of cash and fixed income securities which are invested in certificates of deposit.

Louisiana statutes authorize the District to invest in United States bonds, treasury notes or certificates, time certificates of deposit in state and national banks, the Louisiana Asset Management Pool, or any other federally insured investment.

G. FIXED ASSETS

The accounting treatment over property, plant and equipment (capital assets) depends on whether they are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

Prior to GASB No. 34, governments were not required to report general infrastructure assets. Although now required to capitalize infrastructure, the District, due to the nature of its operations, did not have infrastructure expenditures. Also, interest costs during construction are not capitalized.

In the government-wide financial statements, capital assets are capitalized at historical cost, or estimated historical cost if actual is unavailable, except for donated assets, which are recorded at their estimated fair value at the date of donation.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Office equipment	5 - 10 years
------------------	--------------

H. PENSION PLANS

The Drainage District does not have a pension plan.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

I. ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

J. EQUITY CLASSIFICATIONS

In the government-wide statements, equity is classified as net position and displayed in three components:

1. Net investment in capital assets - Consist of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowing that are attributable to the acquisition, construction, or improvement of those assets.
2. Restricted net position - Consist of net position with constraints placed on the use either by (1) external groups, such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
3. Unrestricted net position - All other net position that do not meet the definition of "restricted" or "Net investment in capital assets."

The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form – prepaid items or inventories; or (b) legally or contractually required to be maintained intact.

The spendable portion of the fund balance comprises the remaining four classifications: restricted, committed, assigned, and unassigned.

1. Restricted fund balance – This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions for enabling legislation.
2. Committed fund balance – These amounts can only be used for specific purposes pursuant to constraints imposed by formal resolutions or ordinances of the Board of Directors – the government's highest level of decision-making authority. Those committed amounts cannot be used for any other purpose unless the Board of Directors removes the specified use by taking the same type of action imposing the commitment. This classification also includes contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.
3. Assigned fund balance – This classification reflects the amounts constrained by the District's "intent" to be used for specific purposes, but are neither restricted nor committed. The Board of Directors have the authority to assign amounts to be used for specific purposes. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the General Fund, that are not classified as nonspendable and are neither restricted or committed.

OPELOUSAS, LOUISIANA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2021

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

J. EQUITY CLASSIFICATIONS - Continued

4. Unassigned fund balance – This fund balance is the residual classification for the General Fund. It is also used to report negative fund balances in other governmental funds.

The District considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the District would first use committed, then assigned and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

When both restricted and unrestricted resources are available for use, it is the District's policy to use externally restricted resources first, then unrestricted resources – committed, assigned and unassigned in order as needed.

K. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expenses/expenditures) until that time. The District does not have any of this type.

In addition to liabilities, the statement of financial position includes a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until then. The District has only one type of item, which arises only under a modified accrual basis of accounting, which qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from one source: property taxes. This amount is deferred and recognized as an inflow of resources in the period that the amount becomes available. Property taxes for the governmental fund types, which have been remitted within 60 days subsequent to the year end, are considered measurable and available and recognized as revenues. All other property taxes are offset by deferred inflows of resources and, accordingly, have not been recorded as revenue.

L. FAIR VALUES OF FINANCIAL INSTRUMENTS

FASB ASC 825-10-50-10 requires disclosure of fair value information about financial instruments, whether or not recognized in the statement of financial condition. Fair values for investment securities are based on market prices found on the broker report. The fair value is disclosed in Note 2.

2. CASH AND INVESTMENTS

At December 31, 2021, the total bank balance of the District's deposits (cash and certificates of deposit) was \$1,191,276, of which \$1,128,906 was covered by FDIC insurance and \$62,370 was covered by pledged securities.

The amortized cost and fair value of held-to-maturity securities, with gross unrealized gains and losses, as follows:

	December 31, 2021			Fair Value
	Amortized Cost	Unrealized Gains	Unrealized Losses	
Brokered Certificates of Deposit	\$ 725,000	\$ -	\$ 1,310	\$ 723,690

WARD ONE SOUTH GRAVITY DRAINAGE DISTRICT NO. 1 OF ST. LANDRY PARISH

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2021

2. CASH AND INVESTMENTS - Continued

The following is a summary of maturities of securities held-to-maturity at December 31, 2021:

	<u>Amortized Cost</u>	<u>Fair Value</u>
Amounts maturing in:		
One year or less	\$ 200,000	\$ 200,259
After one year through five years	525,000	523,431
After five years through ten years	-	-
After ten years	-	-
	<u>725,000</u>	<u>723,690</u>

Custodial credit risk for deposits is the risk that in the event of the failure of a depository financial institution, the District's deposits may not be recovered or will not be able to recover the collateral securities that are in the possession of an outside party. These deposits are stated at cost, which approximates market. Under state law, these deposits, (or the resulting balances) must be secured by federal deposit insurance or similar federal security or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the District or the pledging fiscal agent bank by a holding or custodial bank that is mutually acceptable to both parties. As of December 31, 2021, the District's total bank balances were fully insured and therefore not exposed to custodial credit risk. The District does not have a policy for custodial credit risk.

3. PROPERTY TAXES

The District's ad valorem property tax is levied each October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District. Property taxes are due on October 1 and become delinquent by January 1 of the following year. The St. Landry Parish Sheriff bills, collects, and distributes the property taxes for the District using the assessed values determined by the tax assessor of St. Landry Parish.

All accounts and property taxes receivable are shown net of any allowance for uncollectible accounts. Governmental funds report deferred revenue in connection with receivables for revenues over 60 days that are not considered to be available to liquidate liabilities of the current period.

For the year ended December 31, 2021, a tax millage of 3.33 was assessed for maintenance. As per state requirements, each taxing district of the parish must remit 3.13% of total ad valorem taxes per the tax roll to the pension fund. This amount is determined by the legislative auditor each year. Since the Sheriff collects all taxes for the parish, the tax collected in the first month is reduced by the Sheriff for the pension fund amount owed and the remainder is remitted to the taxing district. Therefore, property taxes are shown net of pension fund distributions as follows:

	<u>Total Tax Per Roll</u>	<u>Pension Fund Requirements</u>	<u>Property Tax Receivable</u>
General Fund	\$ 242,134	\$ (7,582)	\$ 234,552

INDEPENDENT ACCOUNTANT'S REPORT
ON APPLYING AGREED-UPON PROCEDURES

The Board of Commissioners
 Ward One South Gravity Drainage
 District No. 1 of St. Landry Parish
 Opelousas, Louisiana

We have performed the procedures enumerated below on the District's compliance with certain laws and regulations contained in the accompanying Louisiana Attestation Questionnaire during the fiscal year ended December 31, 2021, required by the Louisiana Revised Statute 24:513 and the Louisiana Governmental Audit Guide. Management of the District is responsible for its financial records and compliance with applicable laws and regulations.

The District has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of the engagement, which is to perform specified procedures on the District's compliance with the laws and regulations contained in the accompanying Louisiana Attestation Questionnaire during the fiscal year ended December 31, 2021. Additionally, the Louisiana Legislative Auditor has agreed to and acknowledged that the procedures performed are appropriate for its purposes. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and associated findings are as follows:

Public Bid Law

1. Obtain documentation for all expenditures made during the year for materials and supplies exceeding \$30,000 or public works exceeding \$250,000. Compare the documentation for these expenditures to Louisiana Revised State (R.S.) 39:1551-39:1755 (the state procurement code) or R.S. 38:2211-2296 (the public bid law), or the regulations of the Division of Administration and the State Purchasing Office, whichever is applicable; and report whether the expenditures were made in accordance with these laws.

No expenditures were made during the year for materials and supplies exceeding \$30,000 or public works exceeding \$250,000.

Code of Ethics for Public Officials and Public Employees

2. Obtain a list of the immediate family members of each board member as defined by R.S. 42:1101-1124 (the ethics law).

Management provided us with the required list including the noted information.

The Board of Commissioners
 Ward One South Gravity Drainage District
 No. 1 of St. Landry Parish
 Page 2

3. Obtain a list of all employees paid during fiscal year.

The District did not have any employees during the period under examination.

4. Report whether any employee's names appear on both lists obtained in Procedures 2 and 3.

The District did not have any employees during the period under examination.

5. Obtain a list of all disbursements made during the year; and a list of outside business interests of board members, employees, and board members' and employees' immediate families. Report whether any vendors appear on both lists.

No vendors appear on both lists.

Budgeting

6. Obtain a copy of the legally adopted budget and all amendments.

Management provided us with a copy of the original and amended budget.

7. Trace documentation for the adoption of the budget and approval of any amendments to the minute book, and report whether there are any exceptions.

We traced the adoption of the original budget to the minutes of a meeting held on December 14, 2020, which indicated that the budget had been adopted by the Directors of the District by a unanimous vote. The budget was amended December 13, 2021.

8. Compare the revenues and expenditures of the final budget to actual revenues and expenditures. Report whether actual revenues failed to meet budgeted revenues by 5% or more, and whether actual expenditures exceeded budgeted amounts by 5% or more. (For agencies that must comply with the Licensing Agency Budget Act only, compare the expenditures of the final budget to actual expenditures, and report whether actual expenditures exceeded budgeted amounts by 10% or more per category or 5% or more in total).

We compared the revenues and expenditures of the General Fund's final budget to actual revenues and expenditures. Budgeted revenues did not exceed actual revenues by 5% or more. Actual expenditures did not exceed budgeted expenditures by 5% or more.

Accounting and Reporting

9. Obtain the list of all disbursements made during the fiscal year. Randomly select six disbursements and obtain documentation from management for these disbursements. Compare the selected disbursements to the supporting documentation, and: (a) report whether the six disbursements agree to the amount and payee in the supporting documentation, (b) report whether the six disbursements are coded to the correct fund and general ledger account, and (c) Report whether the six disbursements were approved in accordance with management's policies and procedures.

All disbursements agreed to the amount and payee in the supporting documentation, were coded to the correct accounts and received approval from the Board of commissioners during their monthly meetings.

Meetings

10. Obtain evidence from management to support that agendas for meetings recorded in the minute book were posted or advertised as required by R.S. 42:11 through 42:28 (the open meetings law); and report whether there are any exceptions.

Ward One South Gravity Drainage District No. 1 of St. Landry Parish is only required to post a notice of each meeting and the accompanying agenda. Management has asserted that such documents were properly posted, and the notices are included with the minutes.

Debt

11. Obtain bank deposit slips for the fiscal year, and scan the deposit slips in order to identify and report whether there are any deposits that appear to be proceeds of bank loans, bonds, or like indebtedness. If any such proceeds are identified, obtain from management evidence of approval by the State Bond Commission, and report any exceptions.

We inspected copies of all bank deposit slips for the period under examination and noted no deposits which appeared to be proceeds of bank loans, bonds, or like indebtedness.

Advances and Bonuses

12. Obtain the list of payroll disbursements and meeting minutes of the governing board, if applicable. Scan these documents to identify and report whether there are any payments or approval of payments to employees that may constitute bonuses, advances, or gifts.

A reading of the minutes of the District for the year indicated no approval for any such payments noted. As noted in agreed-upon procedure (3), the District has no employees and therefore no payroll records to examine.

State Audit Law

13. Report whether the agency provided for a timely report in accordance with R.S. 24:513.

The agency provided for a timely report.

14. Inquire of management and report whether the agency entered into any contracts that utilized state funds as defined in R.S. 39:72.1 A. (2); and that were subject to the public bid law (R.S. 38:2211, et seq.), while the agency was not in compliance with R.S. 24:513 (the audit law).

The agency did not enter into any contracts that utilize state funds.

Prior Comments and Recommendations

15. Obtain and report management's representation as to whether any prior-year suggestions, recommendations, and/or comments have been resolved.

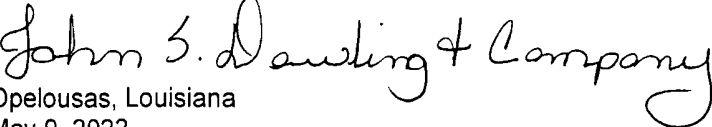

Our prior report dated June 14, 2021 did not include any findings or recommendations.

We were engaged by the District to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants, and the standards applicable to attestation engagements contained in Government Auditing Standards, issued by the United States Comptroller General. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on the District's compliance with the foregoing matters. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely to describe the scope of testing performed on the District's compliance with certain laws and regulations contained in the accompanying Louisiana Attestation Questionnaire, as required by Louisiana Revised Statute 24:513 and the Louisiana Governmental Audit Guide, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document.
