INDEPENDENT AUDITOR'S REPORT

The Honorable Leland J. Falcon
Assumption Parish Sheriff
Napoleonville, Louisiana

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the Assumption Parish Sheriff, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the Sheriff's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of the Assumption Parish Sheriff, as of June 30, 2025, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Assumption Parish Sheriff and meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis-of-Matter

As described in Note 1 to the financial statements, in 2025, the Sheriff adopted new accounting guidance, GASB Statement No. 101, *Compensated Absences*. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Assumption Parish Sheriff's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Assumption Parish Sheriff's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Assumption Parish Sheriff's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information, the schedule of changes in total OPEB liability and related ratios, the schedule of proportionate share of net pension liability, and the schedule of contributions on pages 46-51 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards

Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Assumption Parish Sheriff's basic financial statements. The affidavit of cash on hand and of taxes collected, the schedule of compensation, benefits and other payments to agency head, and the schedule of justice system funding – collecting and disbursing are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the affidavit of cash on hand and of taxes collected and the schedule of compensation, benefits and other payments to agency head are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 17, 2025, on our consideration of the Assumption Parish Sheriff's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Assumption Parish Sheriff's internal control over financial reporting and compliance.

Notes to the Financial Statements

INTRODUCTION

As provided by Article V, Section 27 of the Louisiana Constitution of 1974, the Assumption Parish Sheriff (Sheriff) serves a four-year term as the chief executive officer of the law enforcement district and ex-officio tax collector of the Parish. The Sheriff administers the parish jail system and exercises duties required by the parish court system, such as providing bailiffs, executing orders of the court, and serving subpoenas.

As the chief law enforcement officer of the Parish, the Sheriff has the responsibility for enforcing state and local laws and ordinances within the territorial boundaries of the Parish. The Sheriff provides protection to the residents of the Parish through on-site patrols and investigations and serves the residents of the Parish through the establishment of neighborhood watch programs, anti-drug abuse programs, et cetera. In addition, when requested, the Sheriff provides assistance to other law enforcement agencies within the Parish.

As the ex-officio tax collector of the Parish, the Sheriff is responsible for collecting and distributing ad valorem property taxes, parish occupational licenses, state revenue sharing funds, and fines, costs, and bond forfeitures imposed by the District Court.

The accounts of the tax collector are established to reflect the collections imposed by law, distributions pursuant to such law, and unsettled balances due to various taxing bodies and others.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of the Sheriff conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governments. Such accounting and reporting procedures also conform to the requirements of Louisiana Revised Statute 24:513, the Louisiana Governmental Audit Guide. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The following is a summary of certain significant accounting policies:

Financial Reporting Entity

For financial reporting purposes, the Sheriff includes all funds and activities that are controlled by the Sheriff as an independently elected parish official. As an independently elected parish official, the Sheriff is solely responsible for the operations of his office, which include the hiring and retention of employees, authority over budgeting, responsibility for deficits, and the receipt and disbursement of funds. Other than certain operating expenditures of the Sheriff's office that are paid or provided by the parish police jury as required by Louisiana law, the Sheriff is financially independent.

ASSUMPTION PARISH SHERIFF
Napoleonville, Louisiana

Notes to the Financial Statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Accordingly, the Sheriff is a separate governmental reporting entity. Certain units of local government, over which the Sheriff exercises no oversight responsibility, such as the parish council, parish school board, other independently elected parish officials, and municipalities within the parish, are excluded from the accompanying financial statements. These units of government are considered separate reporting entities and issue financial statements separate from those of the Sheriff.

Basis of Presentation

The accompanying financial statements of the Sheriff have been prepared in conformity with governmental accounting principles generally accepted in the United States of America.

Government-Wide Financial Statements

The statements of net position and activities display information about the Sheriff as a whole. These statements include all the financial activities of the Sheriff. Information contained in these statements reflects the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange or exchange-like transactions are recognized when the exchange occurs (regardless of when cash is received or disbursed). Revenues, expenses, gains, losses, assets and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*.

The statement of activities presents a comparison between direct expenses and program revenues for the Sheriff's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of services offered by the Sheriff, and (b) grants and contributions that are restricted to meeting the operational or capital requirement of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fiduciary funds are not included in the government-wide financial statements. Fiduciary funds are reported only in the Statement of Fiduciary Net Position at the fund financial statement level.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Financial Statements

The Sheriff uses funds to maintain its financial records during the year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain Sheriff functions and activities. A fund is defined as a separate fiscal and accounting entity with a self-balancing set of accounts. The various funds of the Sheriff are classified into two categories: governmental and fiduciary. The emphasis on fund financial statements is on major funds, each displayed in a separate column. A fund is considered major if it is the primary operating fund of the Sheriff or its total assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues, or expenditures of the individual governmental fund is at least 10 percent of the corresponding total for all governmental funds. The general fund of the Sheriff is considered to be a major fund.

The funds of the Sheriff are described below:

Governmental Fund -

General Fund – This fund is the primary operating fund of the Sheriff and it accounts for the operations of the Sheriff's office. The general fund is available for any purpose provided it is expended or transferred in accordance with state and federal laws and according to Sheriff's policy.

Fiduciary Funds -

Fiduciary fund reporting focuses on net position and changes in net position. The only funds accounted for in this category by the Sheriff are custodial funds. The custodial funds account for assets held by the Sheriff as an agent for various taxing bodies (tax collections) and for deposits held pending court action or other regulatory proceeding. These funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Consequently, the custodial funds have no measurement focus, but use the accrual basis of accounting. The custodial funds are as follows:

Sheriff's Fund - accounts for funds held in connection with civil suits, sheriff's sales, and garnishments and payment of these collections to the Sheriff's General Fund and other recipients in accordance with applicable laws.

Tax Collector Fund - Article V, Section 27 of the Louisiana Constitution of 1974, provides that the Sheriff will serve as the collector of state and parish taxes and fees. The Tax Collector Fund is used to collect and distribute these taxes and fees to the appropriate taxing bodies.

Bond Fund - accounts for the collection of cash bonds and payment of these collections to the eligible recipients in accordance with applicable laws.

ASSUMPTION PARISH SHERIFF
Napoleonville, Louisiana

Notes to the Financial Statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Inmate Trust Fund - accounts for the receipts and disbursements made to the individual inmate accounts and for the sale of commissary merchandise and supplies.

Garnishment Fund - accounts for the collection of garnishments and payment of these collections to the appropriate recipients in accordance with court orders.

Hazardous Material Fund - accounts for the receipt and distribution of special service charges on the manufacture, use, storage or transport of hazardous materials as enacted by Ordinance 00-19 of the Assumption Parish Police Jury, as amended by Ordinances 01-01 and 02-11.

Measurement Focus/Basis of Accounting

The amounts reflected in the general fund are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balance reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach is then reconciled, through adjustment, to a government-wide view of Sheriff operations.

The amounts reflected in the general fund use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The Sheriff considers all revenues available if they are collected within 60 days after the fiscal year end. Expenditures are recorded when the related fund liability is incurred, except for interest and principal payments on general long-term debt which is recognized when due, and certain compensated absences and claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

When both restricted and unrestricted resources are available for use, the Sheriff's policy is to use restricted resources first, then unrestricted resources as needed.

The governmental fund uses the following practices in recording revenues and expenditures:

Revenues

Ad valorem taxes and the related state revenue sharing are recorded in the year taxes are due and payable. Ad valorem taxes are assessed on a calendar year basis, become due on November 15 of each year, and become delinquent on January 1. The taxes are generally collected in December, January, and February of the fiscal year.

Notes to the Financial Statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Intergovernmental revenues and fees, charges and commissions for services are recorded when the Sheriff is entitled to the funds.

Interest on interest-bearing deposits is recorded or accrued as revenues when earned.

Substantially all other revenues are recorded when received.

Expenditures

The Sheriff's primary expenditures include salaries and insurance, which are recorded when the liability is incurred. Capital expenditures and purchases of various operating supplies are regarded as expenditures at the time purchased.

Other Financing Sources (Uses)

Transfers between funds that are not expected to be repaid are accounted for as other financing sources (uses) when the transfer is authorized by the Sheriff.

Unearned Revenues

Unearned revenues arise when resources are received by the Sheriff before there is a legal claim to the revenue, as when grant monies are received before the incurrence of qualifying expenditures. In subsequent periods, when the Sheriff has a legal claim to the resources, the liability for the unearned revenue is removed from the combined balance sheet and the revenue is recognized.

Cash and Interest-bearing Deposits

Cash includes amounts in demand deposits, interest-bearing demand deposits, and time deposits.

Investments

Under state law, the Sheriff may deposit funds with a fiscal agent organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. The Sheriff may invest in United States bonds, treasury notes and bills, government backed agency securities, or certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. In addition, local governments in Louisiana are authorized to invest in the Louisiana Asset Management Pool (LAMP), a nonprofit corporation formed by the State Treasurer and organized under the laws of the State of Louisiana, which operates a local government investment pool. All of the Sheriff's investments are in LAMP, which are stated at fair value.

Notes to the Financial Statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Short-Term Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as due from other funds or due to other funds on the balance sheet. Short-term interfund loans are classified as interfund receivables/payables.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

Capital Assets

Capital assets are capitalized at historical cost or estimated cost if historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The Sheriff maintains a threshold level of \$1,000 or more for capitalizing assets.

Capital assets are recorded in the statement of net position. All capital assets, other than land, are depreciated using the straight-line method over the following useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Vehicles	5 Years
Equipment	5-10 Years
Computers	5-10 Years
Building improvements	10-40 Years

Compensated Absences

Employees of the Sheriff earn two weeks of annual leave and five days of sick leave each year. Annual leave must be used in the year it is earned. Additional leave of absence, without pay, may be granted at the discretion of the Sheriff.

In lieu of payment for certain hours worked, employees of the Sheriff may elect to receive comp-time. Comp-time may be used for paid time off from work or left to accumulate, up to a maximum of 240 or 480 hours per employee, depending upon service responsibilities. Any unused comp-time at the time of retirement, or separation from employment, is paid to the employee.

In prior years, compensated absences have typically been liquidated by the Sheriff's general fund.

Change in Accounting Principles

The Sheriff adopted GASB Statement No. 101, Compensated Absences, for the year ended June 30, 2025. This standard revised the accounting and reporting guidance for compensated absences. As the result of implementing this standard, the Sheriff has restated the beginning net position in the government-wide Statement of Net Position, effectively decreasing net position as of June 30, 2024 by \$178,530. This decrease results from including sick time that was previously excluded in compensated absences calculations. The compensated absences balance was increased accordingly by this change as of June 30, 2025. See Note 20 for details of restatement.

Equity Classifications

Government-wide financial statements

Equity is classified as net position and displayed in three components:

1. Net investment in capital assets - consists of capital assets (including restricted capital assets), net of accumulated depreciation and reduced by the outstanding balances of any bonds, certificates of indebtedness, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
2. Restricted - consists of net position with constraints placed on the use either by (a) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (b) law through constitutional provisions or enabling legislation.
3. Unrestricted - all other net position that does not meet the definition of "restricted" or "net investment in capital assets".

Fund financial statements

Fund balance for the Sheriff's governmental fund (the General Fund) is displayed in the following classification depicting the relative strength of the spending constraints placed on the purposes for which resources can be used:

1. Nonspendable – amounts that cannot be spent either because they are in nonspendable form (such as inventories and prepaid amounts) or because they are legally or contractually required to be maintained intact.
2. Restricted - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

1. Committed - amounts that can be used only for specific purposes determined by a formal action of the government's highest level of decision-making authority.
2. Assigned - amounts the government intends to use for specific purposes that do not meet the criteria to be classified as restricted or committed.
3. Unassigned - amounts that are available for any purpose; these amounts can be reported only in the Sheriff's General Fund.

Interfund Transactions

Transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed. All other interfund transactions are reported as transfers.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

Net Other Postemployment Benefit Obligations

The Sheriff applies the provisions of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. This pronouncement requires the Sheriff to calculate and recognize a net *other postemployment benefit* (OPEB) obligation at June 30, 2025. See Note 10 for further details.

Pensions

The Sheriff applies the provisions of GASB Statement No. 68 "*Accounting and Financial Reporting for Pensions*". This pronouncement requires the Sheriff to calculate and recognize a net pension liability at June 30, 2023. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Sheriffs' Pension and Relief Fund and additions to/deductions from the Sheriffs' Pension and Relief Fund fiduciary net position have been determined on the same basis as they are reported by the Sheriffs' Pension and Relief Fund. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. See Note 8 for further details.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Deferred Outflows of Resources and Deferred Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The Sheriff reported deferred outflows of resources related to pensions and Other Postemployment Benefit (OPEB).

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until then. The Sheriff reported deferred inflows of resources related to pensions and OPEB.

See Note 8 and Note 10 for additional information related to deferred outflows of resources and deferred inflows of resources related to pensions and OPEB.

Leases

The Sheriff applies the provisions of GASB Statement No. 87, Leases. GASB Statement No. 87 enhances the relevance and consistency of information of the government's leasing activities. It establishes requirements for lease accounting based on the principle that leases are financings of the right to use an underlying asset. A lessee is required to recognize a lease liability and an intangible right to use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. See Note 13 for further details.

Subsequent Event

The Sheriff has evaluated subsequent events through December 17, 2025, the date the financial statements were available to be issued.

NOTE 2 CASH AND INTEREST-BEARING DEPOSITS

Under state law, the Sheriff may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. The Sheriff may invest in the United States bonds, notes or bills as well as certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana.

NOTE 3 CASH AND INTEREST-BEARING DEPOSITS (CONTINUED)

The carrying value of the Sheriff's cash and interest-bearing deposits with financial institutions at June 30, 2025 totaled \$893,703; \$597,180 is included in the Sheriff's fiduciary funds. The bank balance was \$1,029,942. Federal deposit insurance covered \$250,000 of the deposits while the remaining deposits were covered by collateral held by the pledging bank's agent in the Sheriff's name in the amount of \$795,542. Cash and interest-bearing deposits are stated at cost, which approximates market. Under state law these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The fair market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent.

Louisiana R.S. 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the Sheriff that the fiscal agent has failed to pay deposited funds upon demand.

NOTE 3 INVESTMENTS

Investments held at June 30, 2025 consist of \$14,330,250 in the Louisiana Asset Management Pool (LAMP); \$1,509,825 is included in the Sheriff's fiduciary funds. LAMP is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local government entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with Louisiana R.S. 33:2955.

GASB Statement No. 40, *Deposit and Investment Risk Disclosure*, requires disclosure of credit risk, custodial credit risk, concentration of credit risk interest rate risk, and foreign currency risk for all public entity investments.

LAMP is an investment pool that, to the extent of practical, invest in a manner consistent with GASB Statement No. 79. The following facts are relevant for investment pools:

Credit risk – LAMP is rated AAAm by Standard & Poor's.

Custodial credit risk – LAMP participants' investments in the pool are evidenced by shares of the pool. Investments in pools should be disclosed, but not categorized because they are not evidenced by securities that exist in physical or book-entry form. The public entity's investment is with the pool, not with the securities that make up the pool; therefore, no disclosure is required.

Concentration of credit risk – Pooled investments are excluded from the 5 percent disclosure requirement.

NOTE 3 INVESTMENTS (CONTINUED)

Interest rate risk – LAMP is designed to be highly liquid to give its participants immediate access to their account balances. LAMP prepares its own interest rate risk disclosure using the weighted average maturity (WAM) method. The WAM of LAMP assets is restricted to not more than 90 days, and consists of no securities with a maturity in excess of 397 days or 762 days for U.S. Government floating/variable rate investments. The WAM for LAMP's total investments is 55 days as of June 30, 2025.

Foreign currency risk – Not applicable.

The investments in LAMP are stated at fair value. The fair value is determined on a weekly basis by LAMP and the value of the position in the external investment pool is the same as the net asset value of the pool shares.

LAMP, Inc. is subject to regulatory oversight of the state treasurer and the board of directors. LAMP is not registered with the SEC as an investment company.

A portion of the Sheriff's deposits in LAMP, \$73,315, is restricted for use pending adjudication of and an authorization from the district court system.

NOTE 4 AD VALOREM TAXES

The Sheriff is the ex-officio tax collector of the Parish and is responsible for the collection and distribution of ad valorem property taxes. Ad valorem taxes attach as an enforceable lien on property as of January 1 each year. Taxes are levied by the parish government in June or July and are actually billed to taxpayers by the Sheriff in November. Billed taxes are due by December 31, becoming delinquent on January 1 of the following year. The taxes are based on assessed values determined by the Tax Assessor of Assumption Parish and are collected by the Sheriff. The taxes are remitted to the appropriate taxing bodies net of deductions for pension fund contributions.

Ad valorem taxes are budgeted and recorded in the year levied and billed. For the year ended June 30, 2025, law enforcement taxes applicable to the Sheriff's General Fund, were levied at the rate of 33.31 mills on property with net assessed valuations totaling \$248,248,816.

Total law enforcement taxes levied during the fiscal year ended June 30, 2025 were \$9,577,933.

The retirement allowance is equal to three and one-third percent of the member's average final compensation multiplied by his years of creditable service, not to exceed (after reduction for optional payment form) 100% of average final compensation. Active, contributing members with at least ten years of creditable service may retire at age sixty. The accrued normal retirement benefit is reduced actuarially for each month or fraction thereof that retirement begins prior to the member's earliest normal retirement date assuming continuous service.

The benefit accrual rate for such members with less than thirty years of service is three percent; for members with thirty or more years of service the accrual rate is three and one-third percent. The retirement allowance is equal to the benefit accrual rate times the member's average final compensation multiplied by his years of creditable service, not to exceed (after reduction for optional payment form) 100% of average final compensation. Members with twenty or more years of service may retire with a reduced retirement at age fifty.

For members whose first employment making them eligible for membership in the system began on or before June 30, 2006, final average compensation is based on the average monthly earnings during the highest thirty-six consecutive months or joined months if service was interrupted. The earnings to be considered for each twelve-month period within the thirty-six month period shall not exceed 125% of the preceding twelve-month period.

For members whose first employment making them eligible for membership in the system began after June 30, 2006 and before July 1, 2013, final average compensation is based on the average monthly earnings during the highest sixty consecutive months or joined months if service was interrupted. NOTE 8 PENSION PLAN (CONTINUED)

Survivor benefits for death solely as a result of injuries received in the line of duty are based on the following: for a spouse alone, a sum equal to 50% of the member's final average compensation with a minimum of \$150 per month. If a spouse is entitled to benefits and has a child or children under eighteen years of age (or over said age if physically or mentally incapacitated and dependent upon the member at the time of his death), an additional sum of 15% of the member's final average compensation is paid to each child with total benefits paid to spouse and children not to exceed 100%. If a member dies with no surviving spouse, surviving children under age eighteen will receive monthly benefits of 15% of the member's final average compensation up to a maximum of 60% of final average compensation if there are more than four children. If a member is eligible for normal retirement at the time of death, the surviving spouse receives an automatic option 2 benefit. The additional benefit payable to children shall be the same as those available for members who die in the line of duty. In lieu of receiving option 2 benefit, the surviving spouse may receive a refund of the member's accumulated contributions. All benefits payable to surviving children shall be extended through age twenty-three, if the child is a full time student in good standing enrolled at a board approved or accredited school, college, or university.

The Fund does provide for deferred benefits for vested members who terminate before being eligible for retirement. Benefits become payable once the member reaches the appropriate age for retirement.

In lieu of receiving a service retirement allowance, any member of the Fund who has more than sufficient service for a regular service retirement may elect to receive a back deferred retirement option plan (Back-DROP). The Back-DROP benefit is based upon the Back-DROP period selected and the final average compensation prior to the period selected. The Back-DROP period is the lesser of three years or the service accrued between the time a member first becomes eligible for retirement and his actual date of retirement. For those individuals with thirty or more years, the Back-DROP period is the lesser of four years or service accrued between the time a member first becomes eligible for retirement and his actual date of retirement. At retirement the member's maximum monthly retirement benefit is based upon his service, final average compensation and plan provisions in effect on the last day of creditable service immediately prior to the commencement of the Back-DROP period. In addition to the monthly benefit at retirement, the member receives a lump-sum payment equal to the maximum monthly benefit as calculated above multiplied by the number of months in the Back-DROP period. In addition, the member's Back-DROP account will be credited with employee contributions received by the retirement fund during the Back-DROP period. Participants have the option to opt out of this program and take a distribution, if eligible, or to rollover the assets to another qualified plan.

NOTE 8 PENSION PLAN (CONTINUED)

Cost of living provisions for the Fund allows the board of trustees to provide an annual cost of living increase of 2.5% of the eligible retiree's original benefit if certain funding criteria are met. Members are eligible to receive a cost of living adjustment once they have attained the age of sixty and have been retired at least one year. Funding criteria for granting cost of living adjustments is dependent on the funded ratio.

Contributions

Contribution requirements for all employers are actuarially determined each year in accordance with state statute. For the year ended June 30, 2024, the actual employer contribution rate was 11.50% with an additional 0% allocated from the Funding Deposit Account. The Sheriff's statutorily required composite contribution rate for the year ended June 30, 2024 was 11.50% of annual payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year. Employee contributions are based on the employee's annual covered salary and are established by the board of trustees. For the year ended June 30, 2024, the employee contribution rate was 10.25%. Contributions to the pension plan from the Sheriff were \$556,205 for the year ended June 30, 2025.

In accordance with state statute, the Fund receives ad valorem taxes, insurance premium taxes and state revenue sharing funds. These additional sources of income are used as employer contributions and are considered support from non-employer contributing entities, but are not considered special funding situations. Non-employer contributions are recognized as revenue and excluded from pension expense for the year ended June 30, 2025.

Pension Liabilities (Assets), Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

At June 30, 2025, the Sheriff reported a liability of \$3,086,779 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Sheriff's proportion of the net pension liability was based on a projection of the Sheriff's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2024, the Sheriff's proportion was 0.510876%, which was a decrease of 0.015794% from its proportion measured as of June 30, 2023.

For the year ended June 30, 2025, the Sheriff recognized pension expense of \$975,264. The Sheriff recognized revenue of \$273,471 as its proportionate share of non-employer contributions for the year ended June 30, 2025.

Actuarial Assumptions

The total pension liability in the June 30, 2024 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	Sheriffs' Pension and Relief Fund
Valuation date	June 30, 2024
Actuarial cost method	Entry Age Normal Cost
Actuarial assumptions:	
Investment rate of return	6.85%, net of pension plan investment expense
Projected salary increases	5.00% (2.50% inflation, 2.50% merit)
Mortality rates	Pub-2010 (Public Retirement Plans Mortality Table) for Safety Below-Median Employees multiplied by 120% for males and 115% for female for active members, each with full generational projection using the appropriate MP2019 scale. Pub-2010 for Safety Below-Median Healthy Retirees multiplied by 120% for males and 115% for females for annuitants and beneficiaries, each with full generational projection using the appropriate MP2019 scale. Pub-2010 for Safety Disabled Retirees multiplied by 120% for males and 115% for females for disabled annuitants, each with full generational projection using the appropriate MP2019 scale.
Expected remaining service lives	5 years
Cost of living adjustments	The present value of future retirement benefits is based on benefits currently being paid by the Fund and includes previously granted cost of living increases. The present values do not include provisions for potential future increases not yet authorized by the Board of Trustees as they were deemed not to be substantively automatic.

Notes to the Financial Statements

NOTE 8 PENSION PLAN (CONTINUED)

The mortality rate assumptions were set after reviewing an experience study performed over the period July 1, 2014 through June 30, 2019. The data was then assigned credibility weighting and combined with a standard table to produce current levels of mortality. This mortality was then projected forward to a period equivalent to the estimated duration of the Fund's liabilities. Annuity values calculated based on this mortality were compared to those produced by using a setback of standard tables. The result of the procedure indicated that these tables would produce liability values approximating the appropriate generational mortality tables used.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Estimates of arithmetic real rates of return for each major asset class based on the Fund's target asset allocation as of June 30, 2024 are as follows:

Asset Class	Expected Rate of Return		
	Target Asset Allocation	Real Return Arithmetic Basis	Long-term Expected Portfolio Real Rate of Return
Equity Securities	62.0%	6.95%	4.29%
Fixed Income	25.0%	5.40%	1.33%
Alternative Investments	<u>13.0%</u>	6.31%	<u>0.82%</u>
Total	<u>100.0%</u>		6.44%
Inflation			<u>2.51%</u>
Expected Arithmetic Nominal Return			<u>8.95%</u>

Discount Rate

The discount rate used to measure the total pension liability was 6.85%, which was no change from the discount rate used to measure the total pension liability at June 30, 2023. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially required rates approved by Public Employees' Retirement Systems' Actuarial Committee taking into consideration the recommendation of the Fund's actuary. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Plan Description

The Sheriff provides certain continuing health care and life insurance benefits for its retired employees. The Sheriff's OPEB Plan (the OPEB Plan) is a single-employer defined benefit OPEB plan administered by the Sheriff. The authority to establish and/or amend the obligation of the employer, employees and retirees rests with the Sheriff. No assets are accumulated in a trust that meets the criteria in Governmental Accounting Standards Board (GASB) Codification Section *P52 Postemployment Benefits Other Than Pensions—Reporting For Benefits Not Provided Through Trusts That Meet Specified Criteria—Defined Benefit*.

NOTE 10 OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Benefits Provided

Medical/dental and life insurance benefits are provided to employees upon actual retirement. The employer pays a portion of the medical coverage for the retiree and their dependents. Employees are covered by the Louisiana Sheriffs' Pension and Relief Fund, whose retirement eligibility (D.R.O.P. entry) provisions are as follows: 30 years of service at any age; or, age 55 and 12 years of service. However, twenty years of service is required to be eligible for employer-paid OPEB benefits. Effective for retirement on and after July 1, 2016, the employer pays varying percentages of the medical/dental and life premiums as follows: less than 20 years, zero; at least 20 years but less than 25, 50%; at least 25 years but less than 30, 75%; and, more than 30 years, 100%.

Life insurance coverage is continued to retirees by election and based on a blended rate for active employees and retirees. The employer pays for a percentage of the first \$10,000 of retiree life insurance, based on the service schedule in the section above entitled "Plan Terms", and the retiree pays for any elected excess life insurance over \$10,000. However, both are based on the blended rate and there is thus an implied subsidy.

NOTE 17 LITIGATION AND CLAIMS

At June 30, 2025, the Sheriff was involved in several lawsuits claiming damages. In the opinion of the Sheriff's legal counsel, the only exposure to the Sheriff would be any costs in defense of the lawsuits with no liability to the Sheriff in excess of insurance coverage. It is the opinion of the Sheriff, after conferring with legal counsel, that the liabilities, if any, which might arise from these lawsuits would not have a material adverse effect on the Sheriff's financial position.

**INTERNAL CONTROL, COMPLIANCE,
AND
OTHER INFORMATION**

INDEPENDENT AUDITOR'S REPORT ON INTERNAL
CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

The Honorable Leland J. Falcon
Assumption Parish Sheriff
Napoleonville, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Assumption Parish Sheriff (Sheriff), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the Sheriff's basic financial statements and have issued our report thereon dated December 17, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Sheriff's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Sheriff's internal control. Accordingly, we do not express an opinion on the effectiveness of the Sheriff's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify a deficiency in internal control, described in the accompanying schedule of findings and responses as item 2025-001, that we consider to be a material weakness.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Sheriff's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Assumption Parish Sheriff's Response to Finding

Government Auditing Standards requires the auditor to perform limited procedures on the Sheriff's response to the finding identified in our audit is described in the accompanying management's corrective action plan for current year findings. The Sheriff's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document; therefore, its distribution is not limited.

Schedule of Findings and Responses
Year Ended June 30, 2025

Part 1: Summary of Auditor's Results

FINANCIAL STATEMENTS

Auditor's Report

Unmodified opinions have been expressed on the financial statements of the Sheriff's governmental activities, the major fund, and the aggregate remaining fund information as of and for the year ended June 30, 2025.

Deficiencies in Internal Control – Financial Reporting

One deficiency in internal control over financial reporting was disclosed during the audit of the financial statements and is shown as item 2025-001 in Part 2. We consider the deficiency to be a material weakness.

Material Noncompliance – Financial Reporting

There were no material instances of noncompliance noted during the audit of the financial statements.

FEDERAL AWARDS

This section is not applicable for the year ended June 30, 2025.

MANAGEMENT LETTER

This section is not applicable for the year ended June 30, 2025.

Part 2: Findings Relating to an Audit in Accordance with *Government Auditing Standards*

The results of our tests disclosed one finding related to the audit of the June 30, 2025 financial statements.

2025-001 Inadequate segregation of accounting functions

Criteria: A strong internal control system requires the segregation of responsibilities between different individuals responsible for separate major areas of the accounting system.

Condition: Due to the small number of accounting personnel, the Sheriff did not have adequate segregation of functions within the accounting system.

Cause: The failure to design and implement policies and procedures necessary to achieve adequate internal control led to this condition.

ASSUMPTION PARISH SHERIFF
Napoleonville, Louisiana

Schedule of Findings and Responses (Continued)
Year Ended June 30, 2025

2025-001 Inadequate segregation of accounting functions (Continued)

Effect: The likelihood that a material misstatement will not be prevented or detected and corrected on a timely basis is increased. The perpetration of fraudulent activity is easier to achieve under this condition.

Recommendation: An analysis of the benefits that would be obtained by adequately segregating functions within the accounting system and the costs to employ additional individuals to achieve adequate segregation should be performed.

Views of Responsible Officials and Planned Corrective Actions: This information is reported in a separate schedule titled "Management's Corrective Action Plan for Current Year Findings".

Part 3: Findings and Questioned Costs Relating to Federal Programs

At June 30, 2025, the Sheriff did not meet the requirements to have a single audit in accordance with *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*; therefore, this section is not applicable.
