## INDEPENDENT AUDITOR'S REPORT

Dr. Teresa T. Bagwell, Superintendent,  
and Members of the St. Mary Parish School Board  
Centerville, Louisiana

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the St. Mary Parish School Board, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the School Board's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the St. Mary Parish School Board as of June 30, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis (pages 5 through 12), budgetary comparison information (pages 68 through 69), the schedule of changes in the total OPEB liability and related ratios (page 70), the schedule of proportionate share of net pension liability (page 71), and the schedule of contributions (pages 72) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the St. Mary Parish School Board's basic financial statements. The combining and individual non-major fund financial statements and the combining and individual fiduciary fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U. S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administration Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual non-major fund financial statements, the combining and individual fiduciary fund financial statements, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual non-major fund financial statements, the combining and individual fiduciary fund financial statements, and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 6, 2019, on our consideration of the St. Mary Parish School Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the St. Mary Parish School Board's internal control over financial reporting and compliance.

The Management’s Discussion and Analysis (MD&A) of the St. Mary Parish School Board’s (School Board) financial performance provides an overall review and an objective, easily readable analysis of the School Board’s financial activities for the fiscal year ended June 30, 2019. The intent of the MD&A is to look at the School Board’s overall financial performance and to assist readers in assessing the financial position as a result of the year’s operations. Therefore, readers should read the MD&A in conjunction with the School Board’s Financial Statements and the Notes to the Financial Statements.

The MD&A is an element of the Required Supplementary Information specified in the Governmental Accounting Standards Board’s (GASB) Statement No. 34 – *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments* issued in June 1999. Certain comparative information between the current year (2018-2019) and the prior year (2017-2018) is required to be presented in the MD&A.

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
June 30, 2019**

Total liabilities and deferred inflows decreased \$6,084,241 and \$52,867,709 for the years ended June 30, 2019 and 2018, respectively, attributed to the following elements:

	2019	2018
Accounts payable and other current liabilities	\$ (184,745)	\$ (306,176)
Due to other governmental units	18,929	-
Accrued liabilities	(1,498,334)	(584,692)
Long term liabilities	(78,141,810)	39,996,384
Deferred inflows	<u>73,721,719</u>	<u>13,762,193</u>
Net (decrease) increase	<u>\$ (6,084,241)</u>	<u>\$ 52,867,709</u>

The decrease in total liabilities for 2019 is due to the decrease in long-term liabilities related to other post employment benefit obligations.

Ad valorem taxes parish wide and districts are based on property values of businesses and homesteads in the parish. These revenues increased from last year. The total millage levied by the School Board was 94.44, which increased from 86.44 mills in the prior year. However, only 19.52 mills were levied parish wide, with the remainder levied in special taxing districts.

Sales and use taxes are collected for and remitted to the St. Mary Parish School Board by the St. Mary Parish Sales and Use Tax Department. These revenues increased slightly from the prior year because of oil and gas exploration activity.

The largest single revenue source continues to be the Minimum Foundation Program (MFP) distribution from the state, amounting to \$46,004,755, which is a decrease of \$311,101 from the prior year. This MFP formula establishes a standard of local support for each school system based on the State average local support relative to the system's capacity to raise local funds.

Non-payroll related expenditures reflect marginal cuts applied throughout the budget. Payroll related expenditures reflect the annual salary step increase afforded all employees as is customary. Additionally, an increase in the employer contribution rates on our two largest retirement plans is reflected in the statements.

Grant revenue remained relatively stable. The Title I Program is one of the largest federally funded programs with \$3.5 million in revenue. Another large federal program is the Child Nutrition Program (CNP) with \$4.8 million. Student enrollment was consistent with prior year, however, the federal reimbursement rate for meals served increased an average of approximately 5%.

June 30, 2019**

**USING THE ANNUAL FINANCIAL REPORT (AFR)**

The School Board’s AFR consists of a series of financial statements and the associated notes to those statements. These statements are organized so the reader can understand the operations of the School Board as a financial whole, i.e., an entire operation entity, its funds, and its fiduciary responsibilities. The “Basic Financial Statements” Section, consisting of the Statement of Net Position and the Statement of Activities (pages 14-15) provide consolidated financial information, and render a government-wide perspective of the School Board’s financial condition. The Fund Financial Statements (pages 16-22) provide the next level of detail and look at the School Board’s most significant funds and a total of all other non-major funds.

*Reporting the School District as a Whole*

*Statement of Net Position and the Statement of Activities*

The Statement of Net Position and the Statement of Activities present an aggregate view of the School Board’s finances and a longer-term view of those finances. These statements seek to answer the question, “How did the School Board do financially during the 2018-2019 fiscal year?” These statements include all assets and liabilities using the accrual basis of accounting used by most private-sector enterprises. The accrual basis takes into account all of the Board’s current year revenues and expenses regardless of when paid or received.

These two statements report the School Board’s net position and changes in those assets. By showing the change in net position for the year, the reader may ascertain whether the School Board’s financial condition has improved or deteriorated. The causes of the change may be the result of many factors, both financial and non-financial in nature. Indirect factors which may have an impact on the School Board’s financial condition include the School Board’s property and sales tax base, student enrollment, facility conditions, required educational programs for which little or no funding is provided, or other external factors.

*Reporting the School District’s Most Significant Funds*

*Fund Financial Statements*

The analysis of the School Board’s governmental funds begins on page 16. Fund Financial Statements provide more in-depth reporting of the School Board’s financial position and the results of operations. Fund basis financial information is presented in the “Fund Financial Statements” Section. The School Board uses many funds to account for the numerous funding sources provided annually. However, the Fund Financial Statements look at the School Board’s most significant funds with all non-major funds presented in total in one column. These statements report governmental activities on a more current basis rather than a long-term basis, indicating sources and uses of funding and resources available for spending in future periods.

Fund Financial Statements provide more in-depth data on the School Board’s most significant funds, such as its General Fund. This fund is considered a “major fund” under GASB Statement No. 34.

*Governmental Funds* – Most of the School District’s activities are reported in governmental funds, which focus on how money flows in and out of those funds, the balances that are left at year end and the amount available for spending in future periods. These funds are reported using the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash.

**St. Mary Parish School Board  
Centerville, Louisiana**

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
June 30, 2019**

The relationship between governmental activities reported in the Basic Financial Statements and the governmental funds reported in the Fund Financial Statements are reconciled in the financial statements.

*Statement of Fiduciary Net Position* – This statement presents financial information relative to assets held by the School Board on behalf of students and others in a position of trust.

*Governmental Activities*

As reported in the *Statement of Activities* on page 15, the cost of the School Board's governmental activities for the year ended June 30, 2019 was \$81.3 million as compared to \$99.7 million for the prior year. The Statement of Activities shows the cost of program services and the charges and grants offsetting some of those services. Grants and contributions of \$13.4 million subsidized certain programs, and charges for services, such as fees for school lunches, e-rate receipts, tuition from other LEA's, extended day tuition and summer school tuition were the major contributors of charges for services totaling \$2.2 million. The remaining amount was financed by the taxpayers in the parish through ad valorem and sales and use taxes, as well as other local revenues totaling \$39.1 million.

The Minimum Foundation Program (MFP) from the State of Louisiana funded \$46 million and other general revenues contributed the remainder. In Table I on the following page, the cost of the School Board's largest categories of expenses are presented as well as each program's net cost (total cost less revenues generated by the activities). This "net cost" presentation allows the readers to determine the remaining cost of the various categories, and also allows them the opportunity to assess the cost of each function in comparison to the benefits provided by the function.

**THE SCHOOL BOARD'S FUNDS**

The School Board uses funds to control and permit measurement in the short term of the revenues and expenditures of a particular activity or purpose (e.g., dedicated taxes and grant programs). The Fund Financial Statements allow the School Board to demonstrate its stewardship over and accountability for resources provided by taxpayers and other entities. These statements also allow the reader to obtain more insight into the financial management of the School Board and assess further the School Board's overall financial stability.

As the School Board completed the fiscal year ended June 30, 2019 its combined fund balance was \$27.8 million, as compared to a combined fund balance of \$24.5 million as of June 30, 2018. The fund financial statements begin on page 16 of the audit report.

**MANAGEMENT’S DISCUSSION AND ANALYSIS  
June 30, 2019**

*General Fund Budgetary Highlights*

The School Board’s budget is prepared according to Louisiana law. During the course of the year, the School Board revises its budget to take into consideration significant changes in revenues or expenditures. Louisiana Revised Statute 39:1311 requires a budget amendment if either expected revenues are less or anticipated expenditures are in excess of budgetary goals by five percent (5%) or more. The original budget for the School Board was adopted on August 9, 2018. It was not necessary to amend this budget.

A statement showing the School Board’s original budget compared with actual operating results for the General Fund is provided beginning on page 68. The School Board’s year-end actual results were above the amounts that had been budgeted, as conservative budgetary practices are customary. Revenues are forecast conservatively and expenditures are budgeted in anticipation of all possible costs and projects.

**CAPITAL ASSETS AND DEBT ADMINISTRATION**

*Capital Assets*

At June 30, 2019, the School Board had approximately \$73.4 million invested in a broad range of capital assets, including land, buildings, furniture, vehicles, computers, and other equipment. This amount is net of accumulated depreciation to date. Increases during the year represent additions to those categories, while decreases represent retirements and sale of assets during the year and depreciation of depreciable assets for the year. Table II below shows the net book value of capital assets at the end of the 2019 and 2018 fiscal years.

**Table II  
Capital Assets at

Furniture and equipment	10,405,598	11,005,177

**2019/2020 BUDGET**

The General Fund, which is the St. Mary Parish School Board’s largest fund, will have a projected excess of revenues over expenditures in the amount of \$1,296,419 for the 2019-2020 budget year. This budget reflects an increase in various revenues received from the State including MFP funding and various other grants. As far as expenditures are concerned, this budget reflects an increase in the employer required contributions to the teacher’s retirement and school employee retirement plans as well as the annual salary step afforded to all employees.

Notes to Financial Statements

INTRODUCTION

The St. Mary Parish School Board (School Board) was created by Louisiana Revised Statute (LSA-R.S.) 17:51 to provide public education for the children within St. Mary Parish. The School Board is authorized by LSA-R.S. 17:81 to establish policies and regulations for its own government consistent with the laws of the State of Louisiana and the regulations of the Louisiana Board of Elementary and Secondary Education. The School Board is comprised of eleven members who are elected for terms of four years.

The School Board operates twenty-two schools within the parish with a total enrollment of 8,229 pupils for the 2018-2019 year. In conjunction with the regular education programs, some of these schools offer special education and/or adult education programs. In addition, the School Board provides transportation and school food services for the students.

NOTE 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements of the St. Mary Parish School Board have been prepared in conformity with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretation).

This financial report has been prepared in conformity with GASB Statement No. 34, Basic Financial Statements—and Management’s Discussion and Analysis for State and Local Governments, issued in June 1999.

Reporting Entity

For financial reporting purposes, the School Board includes all funds, activities, et cetera, that are within the oversight responsibility of the School Board. Because the School Board members are independently elected and are solely accountable for fiscal matters, which include (1) budget authority, (2) responsibility for funding deficits and operating deficiencies, and (3) fiscal management for controlling the collection and disbursement of funds, and because of the scope of public service provided by the School Board, the School Board is a separate governmental reporting entity (primary government).

Certain units of local government over which the School Board exercises no oversight responsibility, such as the parish council, other independently elected parish officials, and municipalities within the parish, are excluded from the accompanying financial statements. These units of government are considered separate reporting entities and issue financial statements separate from those of the School Board. The School Board is not a component unit of any other entity and does not have any component units which require inclusion in the financial statements of the School Board.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Accounting

The School Board uses funds to maintain its financial records during the year. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Funds of the School Board are classified into two categories: governmental and fiduciary. Each category, in turn, is divided into separate "fund types". The fund classifications and a description of each existing fund type follows:

Governmental Fund Types

Governmental funds are those through which most governmental functions of the School Board are financed. The acquisition, use and balances of the School Board's expendable financial resources and the related liabilities are accounted for through governmental funds. The measurement focus is based upon determination of changes in financial position, rather than upon net income determination. The following are the School Board's governmental fund types:

General Fund

The General Fund is the general operating fund of the School Board. It accounts for all financial resources except those required to be accounted for in other funds.

Special Revenue Funds

Special Revenue Funds account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. These funds account for the revenues and expenditures related to federal, state and local grant and entitlement programs.

Debt Service Funds

Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Capital Projects Funds

Capital Projects Funds are used to account for financial resources received and used to acquire, construct, or improve capital facilities not reported in other governmental funds.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fiduciary Fund Types

Fiduciary funds account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the School Board. The following are the School Board's fiduciary fund types:

Private Purpose Trust Funds

Private purpose trust funds are trusts which exist to benefit individuals, private organizations, or other governments. The resources, including both principal and revenues earned on that principal may be expended for purposes designated by the trust agreement (e.g., donations received for specific expendable purposes).

Agency Fund

Agency fund accounts for assets held by the School Board in a custodial capacity (i.e., assets equal liabilities) and does not involve measurement of operations.

Basis of Accounting/Measurement Focus

Government-Wide Financial Statements

The government-wide financial statements (statement of net position and the statement of activities) display information about the reporting government as a whole. These statements include all financial activities of the School Board, except for the fiduciary funds. The fiduciary funds are only reported in the statement of fiduciary net position and the statement of changes in fiduciary net position at the fund financial statement level.

The government-wide financial statements, private purpose trust funds, and agency funds were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange or exchange-like transactions are recognized when the exchange occurs (regardless of when cash is received or disbursed).

Program Revenues

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to those who purchase, use, or directly benefit from goods, services, or privileges provided by a function and 2) requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

ST. MARY PARISH SCHOOL BOARD  
Centerville, Louisiana

Notes to Financial Statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Allocation of Indirect Expense

The School Board reports all direct expenses by function in the statement of activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses of other functions are not allocated to those functions but are reported separately in the statement of activities. Depreciation expense which can be specifically identified by function is included in the direct expenses of each function. Depreciation on buildings is assigned to the "General Administration" function due to the fact that school buildings serve many purposes. Interest on general long-term debt is considered an indirect expense and is reported separately on the statement of activities.

Fund Financial Statements

Governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements for governmental funds.

The modified accrual basis of accounting is used by all governmental fund types. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction that can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The school board considers all revenues available if they are collected within 60 days after the fiscal year end. The following practices in recording revenues and expenditures have been used for the governmental funds.

Revenues

Federal and state entitlements (unrestricted grants-in-aid, which include state equalization and state revenue sharing) are recorded when available and measurable. Federal and state grants which are restricted as to the purpose of the expenditures are recorded when the reimbursable expenditures have been made.

When both restricted and unrestricted resources are available for use, it is the School Board's policy to use restricted resources first, and then unrestricted resources as they are needed.

Ad valorem taxes are recorded in the year the taxes are due and payable. Ad valorem taxes are assessed in November by the Parish Assessor based on the assessed value, become due on December 31 of each year, and become delinquent on January 1. An enforceable lien attaches to the property as of January 1. The taxes are generally collected in December, January, and February of the fiscal year. Property tax revenues are accrued at fiscal year end to the extent that they have been collected and are unremitted by the St. Mary Parish Tax Collector's Office. Such amounts are measurable and available to finance current operations.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenues (continued)

Interest income on time deposits and revenues from rentals, leases, and royalties are recorded when earned, if collected within 60 days of the fiscal year end.

Sales and use tax revenues are recorded in the month collected by the St. Mary Parish Tax Collector.

Substantially all other revenues are recorded when received.

Expenditures

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

Salaries are recorded as expenditures when incurred. Nine-month employee salaries are incurred over a nine-month period but paid over a twelve month period.

Compensated absences are recognized as expenditures when leave is actually taken or when employees (or heirs) are paid for accrued leave upon retirement or death, while the cost of earned leave privileges not requiring current resources is recognized only when due.

Commitments under construction contracts are recognized as expenditures when earned by the contractor.

Principal and interest on general long-term obligations are not recognized until due.

Other Financing Sources (Uses)

Transfers between funds that are not expected to be repaid (or any other types, such as capital lease transactions, debt extinguishment, long-term debt proceeds, et cetera) are accounted for as other financing sources (uses). These other financing sources (uses) are recognized at the time the underlying events occur.

Cash and interest-bearing deposits

Cash and interest-bearing deposits include interest-bearing demand deposits, money market accounts and certificates of deposit with original maturities of three months or less .

Investments

Under state law, the School Board may invest funds with a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the union, or the laws of the United States. The School Board may invest in United States bonds, treasury notes or certificates, and time deposits of State banks organized under Louisiana law and national banks having principal offices in Louisiana.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investments (continued)

In addition, local governments in Louisiana are authorized to invest in the Louisiana Asset Management Pool (LAMP), a nonprofit corporation formed by the State Treasurer and organized under the laws of the State of Louisiana, which operates a local government investment pool. Investments are stated at fair value.

Short-term Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet.

Inventories

Inventory of the School Lunch Fund consists of food purchased by the School Board and commodities granted by the United States Department of Agriculture through the Louisiana Department of Agriculture and Forestry. The commodities are recorded as revenues when received; however, all inventory items are recorded as expenditures when consumed. All purchased inventory items are valued at the lower of cost (first-in, first-out) or market, and commodities are assigned values based on information provided by the United States Department of Agriculture.

Inventory of the General Fund consists of office supplies, custodial supplies, and textbooks maintained in the central warehouse for use in all departments and schools.

Capital Assets

All capital assets are capitalized at historical cost, or estimated historical cost for assets where actual historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The School Board maintains a threshold level of \$5,000 or more for capitalizing capital assets for financial statement presentation.

Capital assets are recorded in the government-wide financial statements but not reported in the fund financial statements. All capital assets are depreciated using the straight-line method over their estimated useful lives. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public school purposes by the School Board, no salvage value is taken into consideration for depreciation purposes. Useful lives are as follows:

Buildings	25-40 years
Furniture and Equipment	5-12 years

Compensated Absences

All 12-month employees earn from 10 to 19 days of vacation leave each year, depending on their length of service with the School Board. Unused vacation leave at the end of each fiscal year can be carried forward to the succeeding fiscal year to a maximum of ten days. In accordance with the provisions of Statement No. 16, of the Governmental Accounting Standards Board, Accounting for Compensated Absences, no liability is recorded for non-vesting accumulating rights to receive vacation pay; however, a liability has been recorded for vesting accumulating rights to receive vacation pay.

Sabbatical leave may be granted for medical leave with doctor's certification and for professional and cultural improvement. Any employee with a teaching certificate is entitled, subject to approval by the School Board, to one semester of sabbatical leave after six semesters of continuous service or two semesters of sabbatical leave after twelve or more semesters of continuous service. At no time during the school year shall the number of persons on sabbatical leave exceed 5% of the total number of certificated personnel employed by the school district.

Due to its restrictive nature, sabbatical leave benefits are recorded as expenditures in the period taken and no liability is recorded in advance of the sabbatical.

Vested or accumulated sick leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. A liability has been recorded for up to 25 days of accumulated sick leave for all eligible employees.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in governmental activities. Bond premiums and discounts are amortized over the life of the bonds using the straight line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Debt issuance costs are reported as an expenditure.

Equity Classifications

Government-wide Financial Statements:

Net position represents the difference between assets and liabilities. Net position is reported in three categories, as follows:

ST. MARY PARISH SCHOOL BOARD  
Centerville, Louisiana

Notes to Financial Statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Equity Classifications (continued)

- a. Net investment in capital assets – consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position – consists of net position items with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position – consists of the net amount of assets and liabilities that do not meet the definition of the above two components and is available for general use by the School Board.

Fund Financial Statements:

The School Board applies GASB Statement No. 54, “Fund Balance Reporting and Governmental Fund Type Definitions”. This statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government’s fund balances more transparent. See Note 16 for further explanation.

Interfund Transactions

Transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transactions are reported as transfers. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the School Board’s management to make estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenditures or expenses, as appropriate. Accordingly, actual results may differ from those estimates.

Net Other Post-Employment Benefit Obligations

The School Board applies GASB Statement No. 75, “Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions.” This pronouncement requires the School Board to calculate and recognize a net other post-employment benefit (OPEB) obligation at June 30, 2019. See Note 13 for further details.

Centerville, Louisiana

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Pensions

The School Board applies the provisions of GASB Statement No. 68, “*Accounting and Financial Reporting for Pensions.*” This pronouncement requires the School Board to calculate and recognize a net pension liability at June 30, 2019. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position and changes in fiduciary net position of the defined benefit pension plans in which the School Board participates have been determined on the same basis as they are reported by the respective defined benefit pension plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. See Note 12 for further details.

Deferred Outflows of Resources and Deferred Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School Board reported deferred outflows of resources related to pensions.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until then. The School Board reported deferred inflows of resources related to pensions and other post employment benefits (OPEB).

See Note 12 and 13 for additional information related to deferred outflows of resources and deferred inflows of resources related to pensions.

Subsequent Events

The School Board has evaluated subsequent events through December 6, 2019, the date the financial statements were available to be issued.

NOTE 2 CASH AND INTEREST-BEARING DEPOSITS

Under state law, the School Board may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. The School Board may invest in direct obligations of the United States government, bonds, debentures, notes or other evidence of indebtedness issued or guaranteed by federal agencies and/or the United States government, and time certificates of deposit of state banks organized under Louisiana law and national banks having principal offices in Louisiana. At June 30, 2019, the School Board had cash and interest-bearing deposits (book balances) totaling \$6,799,388 as follows:

ST. MARY PARISH SCHOOL BOARD  
Centerville, Louisiana

Notes to Financial Statements

NOTE 2 CASH AND INTEREST-BEARING DEPOSITS (CONTINUED)

	Governmental Activities	Fiduciary Activities	Total
Demand deposits	\$ 3,387,146	\$ 2,366,752	\$ 5,753,898
Money market	1,045,490	-	1,045,490
Total	<u>\$ 4,432,636</u>	<u>\$ 2,366,752</u>	<u>\$ 6,799,388</u>

Custodial credit risk is the risk that in the event of the failure of a depository financial institution, the School Board's deposits may not be recovered or the collateral securities that are in the possession of an outside party will not be recovered. These deposits are stated at cost, which approximates fair value. Under state law, deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. The deposit balances were fully secured at June 30, 2019.

NOTE 3 INVESTMENTS

Under Louisiana R.S. 33:2955, as amended, the School Board may invest in obligations of the U.S. Treasury, U.S. Agencies and instrumentalities, repurchase agreements, certificates of deposit and other investments as provided in the statute. Investments at June 30, 2019 were as follows:

Investment Type	Fair Value	Less Than One Year	One - Five Years
Governmental Activities:			
Louisiana Asset Management Pool (LAMP)	\$ 18,562,312	\$ 18,562,312	\$ -
U.S. agency/treasury securities	9,459,820	3,011,479	6,448,341
Total investments	<u>\$ 28,022,132</u>	<u>\$ 21,573,791</u>	<u>\$ 6,448,341</u>

The School Board participates in the Louisiana Asset Management Pool (LAMP). LAMP is an investment pool established as a cooperative endeavor to enable public entities of the State of Louisiana to aggregate funds for investment. LAMP is not registered with the Securities and Exchange Commission (SEC) as an investment company. LAMP is intended to improve administrative efficiency and increase yield of participating public entities. LAMP's portfolio securities are valued at market value even though amortized cost method is permitted by Rule 2a-7 of the Investment Company Act of 1940, as amended, which governs registered money market funds. Because the LAMP is not a money market fund, it has no obligation to conform to this rule.

LAMP is an investment pool that, to the extent practical, invest in a manner consistent with GASB Statement No.79. The following facts are relevant for investment pools:

ST. MARY PARISH SCHOOL BOARD  
Centerville, Louisiana

Notes to Financial Statements

NOTE 3 INVESTMENTS (CONTINUED)

- Credit Risk – LAMP has a fund rating of AAAM issued by Standard & Poor’s .
- Concentration of Credit Risk – LAMP’s pooled investments are excluded from the 5% disclosure requirements.
- Interest Rate Risk – LAMP is designed to be highly liquid to give its participants immediate access to their account balances. LAMP prepares its own interest rate risk disclosure using the weighted average maturity (WAM) method. The WAM of LAMP assets is restricted to not more than 90 days, and consists of no securities with a maturity in excess of 397 days or 762 days for U.S. Government floating/variable rate investments.
- Custodial Credit Risk – For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the School Board will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. LAMP participants' investments in the pool are evidenced by shares of the pool. Investments in pools should be disclosed, but not categorized because they are not evidenced by securities that exist in physical or book-entry form. The public entity's investment is with the pool, not the securities that make up the pool; therefore, no disclosure is required. The U.S. Securities investments are registered in the School Board’s name and are held in the custodial bank’s trust account at its custodial agent. During the year ended June 30, 2019, there were no uninsured and unregistered investments held by the counterparty, or its trust department or agent, which were not in the School Board’s name. Accordingly, the School Board had no custodial credit risk related to its investments at June 30, 2019.

Louisiana R.S. 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the School Board that the fiscal agent has failed to pay deposited funds upon demand.

The School Board categorizes the fair value measurements of its investments based on the hierarchy established by GASB Statement No, 72. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. All of the School Board's investments were categorized as Level 1 using prices in active markets for those securities. The School Board had recurring Investments at June 30, 2019, as follows:

Investment Type	Amount	Fair Value Hierarchy		
		Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Governmental Activities:				
U.S. agency/treasury securities	\$ 9,459,820	\$ 9,459,820	\$ -	\$ -

The St. Mary Parish Sheriff bills and collects the property taxes for the School Board. Property tax revenues are recognized when levied to the extent that they result in current receivables.

NOTE 6 INTERFUND RECEIVABLES, PAYABLES (CONTINUED)

Due to/from general fund represents costs paid from the general fund bank account on behalf of individual funds that do not have checking accounts. These receivables and payables reverse in the normal course of operations. All remaining balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between the funds are made. Also included in interfund balances at June 30, 2019 is a \$3.4 million loan from the General Fund to the District II Capital Projects Fund to cover costs associated with two large capital projects. This loan is to be repaid over 15 years at an estimated \$249,000 per year with an interest rate of approximately 1.25 percent. This payment is based on anticipated annual savings from the consolidation of the four schools that were replaced by Raintree Elementary and allocated to the three maintenance districts by a special formula. A payment in the amount of \$252,000 was made on this debt during the fiscal year ending June 30, 2019.

NOTE 10 LEASES

The School Board is a party to several separate operating lease agreements with entities to lease certain copier/duplication equipment and certain buses. The term of each lease ranges from twelve (12) months to sixty (60) months beginning on various dates. The lease agreements provide that the School Board shall pay regular lease payments as provided for in the separate lease contracts. Each lease contains provisions allowing cancellation in the event the School Board does not appropriate funds in future periods to be paid and allows the equipment to be returned. The School Board paid \$622,779 in lease expense during the year ended June 30, 2019.

Minimum future rentals to be paid on present lease agreements as of June 30, 2019, for each of the next five years and in the aggregate are:

Total	<u>\$ 2,167,933</u>

On July 19, 2017, the School Board acquired six buses under the provisions of a long-term lease. For financial reporting purposes, minimum lease payments relating to the buses have been capitalized and included in equipment on the statement of net position. The leased buses under the capital lease have a combined cost of \$485,805. Amortization of the leased buses is included in depreciation expense. The following is a schedule of future minimum lease payments under the capital lease:

NOTE 11 SALES TAX

On December 7, 1965, the voters of the parish approved a one percent sales and use tax to be levied by the St. Mary Parish Council, of which 30 percent of the net proceeds is to be remitted to the St. Mary Parish School Board. The proceeds received by the School Board are dedicated to supplement the salaries of teachers and school employees and for general operations of the public schools of St. Mary Parish.

On August 14, 1975, the voters of the parish approved a one-fourth of one percent (1/4 percent) sales and use tax to be levied by the School Board. The net proceeds of the tax are used to provide additional funds for the payment of salaries of teachers and other school board personnel and/or for other employee benefits.

On April 12, 1979, the voters of the parish approved a seven-tenths of one percent (7/10 percent) sales and use tax to be levied by the School Board. The proceeds of the tax were used first for payment of debt service requirements on bonds issued for the purpose of financing the purchase, construction and acquisition of air conditioning facilities and equipment for parish schools. The net proceeds after satisfying the bond service requirements, which have been retired since February 1, 1995, are used each month in the following priority:

- Payment of the cost of utilities.
- An amount equal to 65 percent of the total net proceeds of this tax is set aside and used to supplement other funds for the payment of salaries and/or other employee benefits of teachers and other school board personnel.
- 1. The remainder of the proceeds of this tax is used to construct, maintain, and acquire capital improvements and for other school purposes provided that such proceeds are not used to construct new classroom facilities.

On March 8, 1988, the voters of the parish approved a one-half of one percent (1/2 percent) sales and use tax to be levied by the School Board. The net proceeds of the tax are used to provide additional support to public elementary and secondary schools by providing funds for salary obligations and educational management, advancement, and enrichment. On January 15, 1994, the tax was renewed for an additional period of seven (7) years from termination of its current use. On January 20, 2001, the tax was again renewed.

Sales and use taxes are collected for and remitted to the School Board by the St. Mary Parish Sales and Use Tax Department.

For the year ended June 30, 2019, there were approximately \$265,164 of sales and use taxes held under protest in escrow at the St. Mary Parish Sales and Use Tax Department on behalf of the St. Mary Parish School Board. These funds are not included in the School Board's June 30, 2019 financial statements.

Deferred Retirement Benefits

In lieu of terminating employment and accepting a service retirement, an eligible member can begin participation in the Deferred Retirement Option Program (DROP) on the first retirement eligibility date for a period not to exceed three years. A member has a 60 day window from his first eligible date to participate in the program in order to participate for the maximum number of years. Delayed participation reduces the three year participation period. During participation, benefits otherwise payable are fixed, and deposited in an individual DROP account. Upon termination of DROP participation, the member can continue employment and earn additional accruals to be added to the fixed pre-DROP benefit. Upon termination of employment, the member is entitled to the fixed benefit, an additional benefit based on post-DROP service (if any), and the individual DROP account balance which can be paid in a lump sum or an additional annuity based upon the account balance.

Disability Benefits

Active members of TRSL whose first employment makes them eligible for membership in a Louisiana state retirement system before January 1, 2011, and who have five or more years of service credit, are eligible for disability retirement benefits if certified by the State Medical Disability Board to be disabled from performing their job. All other members must have at least 10 years of service to be eligible for a disability benefit. Calculation of the disability benefit as well as the availability of a minor child benefit is determined by the plan to which the member belongs and the date on which the member's first employment made them eligible for membership in a Louisiana state retirement system.

Survivor's Benefits

Provisions for TRSL survivor benefits are provided for in R.S. 11:762. A surviving spouse with minor children of an active member with at least five years of creditable service (two years immediately prior to death) is entitled to a benefit equal to the greater of (a) \$600 per month, or (b) 50% of the member's benefit calculated at the 2.5% accrual rate for all creditable service. When minor children are no longer eligible to receive survivor benefits, the spouse's benefit reverts to a survivor benefit in accordance with the provisions for a surviving spouse with no minor children. Benefits for the minor children cease when they are no longer eligible. Each minor child (maximum of two) shall receive an amount equal to the greater of (a) 50% of the spouse's benefit or (b) \$300 (up to two eligible children). Benefits to minors cease at attainment of age 21, marriage, or age 23 if enrolled in an approved institution of higher education. A surviving spouse without minor children of an active member with 10 years of creditable service (2 years immediately prior to death) or 20 years of creditable service is entitled to a benefit equal to the greater of (a) \$600 per month, or (b) the option 2 equivalent of the benefit calculated at the 2.5% benefit factor for all creditable service.

Permanent Benefit Increase/Cost-of-Living Adjustments

As fully described in Title 11 of the Louisiana Revised Statutes, TRSL allows for the payment of permanent benefit increases, also known as cost-of-living adjustments (COLAs), that are funded through investment earnings when recommended by the Board of Trustees and approved by the State Legislature.

Optional Retirement Plan (ORP)

The Optional Retirement Plan (ORP) was established for academic employees of public institutions of higher education who are eligible for membership in TRSL. This plan was designed to provide certain academic and unclassified employees of public institutions of higher education an optional method of funding for their retirement.

The ORP is a defined contribution pension plan which provides for portability of assets and full and immediate vesting of all contributions submitted on behalf of the affected employees to the approved providers. These providers are selected by the TRSL Board of Trustees. Monthly employer and employee contributions are invested as directed by the employee to provide the employee with future retirement benefits. The amount of these benefits is entirely dependent upon the total contributions and investment returns accumulated during the employee's working lifetime. Employees in eligible positions of higher education can make an irrevocable election to participate in the ORP rather than TRSL and purchase annuity contracts—fixed, variable, or both—for benefits payable at retirement.

NOTE 12 PENSION PLANS (CONTINUED)

**Parochial Employees' Retirement System of Louisiana (PERS)**

Retirement Benefits

PERS is composed of two distinct plans, Plan A and Plan B, with separate assets and benefit provisions. Employees of the School Board are members of Plan A. Under Plan A, employees hired prior to January 1, 2007 who retire (1) at or after age 65 with at least 7 years of creditable service, (2) at or after age 60 with at least 10 years of creditable service, (3) at or after age 55 with at least 25 years of creditable service, or (4) at any age with at least 30 years of creditable service are entitled to a retirement benefit payable monthly for life. Annual maximum benefit for employees hired prior to January 1, 2007, equals 3% multiplied by creditable years of service, multiplied by the average of the employee's highest consecutive 36 months' salary. Employees hired on or after January 1, 2007, who retire (1) at or after age 67 with at least 7 years of creditable service, (2) at or after age 62 with at least 10 years of creditable service, or (3) at or after age 55 with at least 30 years of creditable service are entitled to a retirement benefit payable monthly for life. Annual maximum benefit for employees hired on or after January 1, 2007, equals 3% multiplied by creditable years of service, multiplied by the average of the employee's highest consecutive 60 months' salary. Employees who terminate with at least the amount of creditable service stated previously and who do not withdraw their employee contributions, may retire at the ages specified previously and receive the benefit accrued to their date of termination.

The System also provides death and disability benefits. Benefits are established by state statute (LSA R.S. 11:1901, last modified by Act 584 of 2006).

Deferred Retirement Option

In lieu of terminating employment and accepting a service retirement, any member who is eligible to retire may elect to participate in the (DROP) in which they are enrolled for three years and defer the receipt of benefits. During participation in the plan, employer contributions are payable but employee contributions cease. The monthly retirement benefits that would be payable, had the person elected to cease employment and receive a service retirement allowance, are paid into the DROP fund. Upon termination of employment prior to or at the end of the specified period of participation, a participant in the DROP may receive, at his option, a lump sum from the account equal to the payments into the account, a true annuity based upon his account balance in that fund, or roll over the fund to an Individual Retirement Account.

For individuals who become eligible to participate in the Deferred Retirement Option Plan on or after January 1, 2004, all amounts which remain credited to the individual's subaccount after termination in the Plan will be placed in liquid asset money market investments at the discretion of the board of trustees. These subaccounts may be credited with interest based on money market rates of return or, at the option of the System, the funds may be credited to self-directed subaccounts. The participant in the self-directed portion of this Plan must agree that the benefits payable to the participant are not the obligations of the state or the System, and that any returns and other rights of the Plan are the sole liability and responsibility of the participant and the designated provider to which contributions have been made.

NOTE 12 PENSION PLANS (CONTINUED)

Survivor Benefits

Upon the death of any member of Plan A with five (5) or more years of creditable service who is not eligible for retirement, the plan provides for benefits for the surviving spouse and minor children, as outlined in the statutes. Any member of Plan A, who is eligible for normal retirement at time of death, the surviving spouse shall receive an automatic Option 2 benefit, as outlined in the statutes. A surviving spouse who is not eligible for Social Security survivorship or retirement benefits, and married not less than twelve (12) months immediately preceding death of the member, shall be paid an Option 2 benefit beginning at age 50.

Cost of Living Increases

The Board of Trustees is authorized to provide a cost of living allowance for those retirees who retired prior to July 1973. The adjustment cannot exceed 2% of the retiree's original benefit for each full calendar year since retirement and may only be granted if sufficient funds are available from investment income in excess of normal requirements. In addition, the Board may provide an additional cost of living increase to all retirees and beneficiaries who are over age sixty-five equal to 2% of the member's benefit paid on October 1, 1977, (or member's retirement date, if later). Also, the Board may provide a cost of living increase up to 2.5% for retirees 62 and older. (R.S. 11:1937). Act 270 of 2009 provided for further reduced actuarial payments to provide an annual 2.5% cost of living adjustment commencing at age 55.

Louisiana School Employees' Retirement System (LSERS)

Retirement Benefits

LSERS provides retirement, deferred retirement option (DROP), and disability benefits. A member who joined LSERS on or before June 30, 2010 is eligible for normal retirement if he has at least thirty years of creditable service regardless of age, twenty five years of creditable service and is at least age fifty five, twenty years of creditable service regardless of age with an actuarially reduced benefit, or ten years of creditable service and is at least age sixty. A member who joined LSERS on or after July 1, 2010 and prior to July 1, 2015 is eligible for normal retirement if he has at least five years of creditable service and is at least age sixty, or twenty years of creditable service regardless of age with an actuarially reduced benefit. A member who joined LSERS on or after July 1, 2015 is eligible for normal retirement if he has at least five years of creditable service and is at least age sixty-two, or twenty years of creditable service regardless of age with an actuarially reduced benefit.

For members who joined LSERS prior to July 1, 2006, the maximum retirement benefit is an amount equal to 3 1/3% of the average compensation for the three highest consecutive years of membership service, subject to the 10% salary limitation, multiplied by the number of years of service limited to 100% of final average compensation plus a supplementary allowance of \$2.00 per month for each year of service. For members who joined LSERS on or after July 1, 2006 through June 30, 2010, 3 1/3% of the average compensation is used to calculate benefits; however, the calculation consists of the five highest consecutive years of membership service, subject to the 10% salary limitation.

Centerville, Louisiana

Notes to Financial Statements

NOTE 12 PENSION PLANS (CONTINUED)

For members who joined LSERS on or after July 1, 2010, 2 1/2% of the average compensation is used to calculate benefits and consists of the five highest consecutive years' average salary, subject to the 15% salary limitation. The supplemental allowance was eliminated for members entering LSERS on or after July 1, 1986. Effective January 1, 1992, the supplemental allowance was reinstated to all members whose service retirement became effective after July 1, 1971.

Deferred Retirement Option

Members of LSERS may elect to participate in the Deferred Retirement Option Plan (DROP) and defer the receipt of benefits. The election may be made only one time and the duration is limited to three years. Once an option has been selected, no change is permitted. Upon the effective date of the commencement of participation in the DROP Plan, active membership in the regular retirement plan of the System terminates. Average compensation and creditable service remain as they existed on the effective date of commencement of participation in the System. The monthly retirement benefits, that would have been payable had the person elected to cease employment and receive a service retirement allowance, are paid into the Deferred Retirement Option Plan Fund Account.

LSERS maintains subaccounts within this account reflecting the credits attributed to each participant in the DROP program. Interest credited and payments from the DROP account are made in accordance with Louisiana Revised Statutes 11:1152(F)(3). Upon termination of participation in both the DROP program and employment, a participant may receive his DROP monies either in a lump sum payment from the account or systematic disbursements.

LSERS also provides for deferred benefits for vested members who terminate before being eligible for retirement. Once the member reaches the appropriate age for retirement, benefits become payable.

Disability Benefits

A member is eligible to retire and receive disability benefits if he has at least five years of creditable service, is not eligible for normal retirement and has become totally and permanently disabled, and is certified as disabled by the Medical Board. A vested person with 20 or more years of creditable service, who has withdrawn from active service prior to the age at which he is eligible for retirement benefits, is eligible for a disability benefit until normal retirement age. A member who joins the System on or after July 1, 2006, must have at least 10 years of service to qualify for disability benefits.

Upon the death of a member with five or more years of creditable service, the System provides benefits for surviving spouses and minor children. Under certain conditions outlined in the statutes, a spouse is entitled to 75% of the member's benefit.

Initial Benefit Retirement Plan

Effective January 1, 1996, the state legislature authorized the System to establish an Initial Benefit Retirement Plan (IBRP) program. IBRP is available to members who have not participated in DROP and who select certain benefit options. Thereafter, these members are ineligible to participate in the DROP. The IBRP program provides both a one-time single sum payment of up to 36 months of a regular monthly retirement benefit, plus a reduced monthly retirement benefit for life. Interest credited and payments from IBRP account are made in accordance with R.S. 11:1152(F)(3).

NOTE 12 PENSION PLANS (CONTINUED)

*Permanent Benefit Increase/Cost-of-Living Adjustment*

The present value of future retirement benefits is based on benefits currently being paid by the system and includes previously granted cost of living increases. The present values do not include provisions for potential future increases not yet authorized by the Board of Trustees.

*Louisiana State Employees' Retirement System (LASERS)*

*Retirement Benefits*

LASERS administers a plan to provide retirement, disability, and survivor benefits to eligible state employees and their beneficiaries as defined in R.S. 11:411-414. The age and years of creditable service (service) required in order for a member to receive retirement benefits are established by R.S. 11:441 and vary depending on the member's hire date, employer, and job classification. Act 992 of the 2010 Regular Session of the Louisiana Legislature closed existing sub-plans for members hired before January 1, 2011, and created new sub-plans for regular members, hazardous duty members, and judges. Act 226 of the 2014 Louisiana Regular Legislative Session established new retirement eligibility for members of LASERS hired on or after July 1, 2015, excluding hazardous duty plan members.

Eligibility for retirement benefits and the computation of retirement benefits are provided for in R.S. 11:444. All Louisiana Legislative Auditor's members are regular plan members. Regular plan members hired before July 1, 2006, may retire with full benefits at any age upon completing 30 years of creditable service, at age 55 upon completing 25 years of service, or at age 60 upon completing 10 years of creditable service. Those members hired between July 1, 2006, and June 30, 2015, may retire at age 60 upon completing 5 years of creditable service, and those hired after June 30, 2015, may retire at age 62 upon completing 5 years of creditable service. Additionally, all regular plan members may choose to retire with 20 years of service at any age, with an actuarially reduced benefit. The basic annual retirement benefit for regular plan members is equal to 2.5% of average compensation multiplied by the number of years of creditable service, generally not to exceed 100% of average compensation. Average compensation is defined as the member's average annual earned compensation for the highest 36 consecutive months of employment for members employed before July 1, 2006, or highest 60 consecutive months of employment for members employed on or after that date.

A member leaving employment before attaining minimum retirement age, but after completing certain minimum service requirements, becomes eligible for a benefit provided the member lives to the minimum service retirement age and does not withdraw their accumulated contributions. The minimum service requirement for benefits varies depending upon the member's employer and service classification.

NOTE 12 PENSION PLANS (CONTINUED)

Deferred Retirement Benefits

The State Legislature authorized LASERS to establish a Deferred Retirement Option Plan (DROP). When a member enters DROP, their status changes from active member to retiree even though they continue to work and draw their salary for a period of up to three years. The election is irrevocable once participation begins. During DROP participation, accumulated retirement benefits that would have been paid to each retiree are separately tracked. For members who entered DROP prior to January 1, 2004, interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero) will be credited to the retiree after participation ends. At that time, the member must choose among available alternatives for the distribution of benefits that have accumulated in the DROP account. Members who enter DROP on or after January 1, 2004, are required to participate in LASERS Self-Directed Plan (SDP) which is administered by a third-party provider. The SDP allows DROP participants to choose from a menu of investment options for the allocation of their DROP balances. Participants may diversify their investments by choosing from an approved list of mutual funds with different holdings, management styles, and risk factors.

Members eligible to retire and who do not choose to participate in DROP may elect to receive at the time of retirement an initial benefit option (IBO) in an amount up to 36 months of benefits, with an actuarial reduction of their future benefits. For members who selected the IBO option prior to January 1, 2004, such amount may be withdrawn or remain in the IBO account earning interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero). Those members who select the IBO on or after January 1, 2004, are required to enter the SDP as described above.

Disability Benefits

All members with 10 or more years of credited service who become disabled may receive a maximum disability retirement benefit equivalent to the regular retirement formula without reduction by reason of age. Upon reaching age 60, the disability retiree may receive a regular retirement benefit by making application to the Board of Trustees. For injuries sustained in the line of duty, members in the hazardous duty plan will receive a disability benefit equal to 75% of final average compensation.

Survivor's Benefits

Certain eligible surviving dependents receive benefits based on the deceased member's compensation and their relationship to the deceased. The deceased regular member hired before January 1, 2011 who was in state service at the time of death must have a minimum of five years of service credit, at least two of which were earned immediately prior to death, or who had a minimum of twenty years of service credit regardless of when earned in order for a benefit to be paid to a minor or handicapped child. Benefits are payable to an unmarried child until age 18, or age 23 if the child remains a full-time student. The aforementioned minimum service credit requirement is ten years for a surviving spouse with no minor children, and benefits are to be paid for life to the spouse or qualified handicapped child.

NOTE 12 PENSION PLANS (CONTINUED)

The deceased regular member hired on or after January 1, 2011, must have a minimum of five years of service credit regardless of when earned in order for a benefit to be paid to a minor child. The aforementioned minimum service credit requirements for a surviving spouse are 10 years, 2 years being earned immediately prior to death, and active state service at the time of death, or a minimum of 20 years of service credit regardless of when earned. A deceased member's spouse must have been married for at least one year before death.

Permanent Benefit Increase/Cost-of-Living Adjustments

As fully described in Title 11 of the Louisiana Revised Statutes, LASERS allows for the payment of permanent benefit increases, also known as cost-of-living adjustments (COLAs), that are funded through investment earnings when recommended by the Board of Trustees and approved by the State Legislature.

**Contributions**

Teachers' Retirement System of Louisiana (TRSL)

Contribution requirements of active employees are governed by Section 101-104 of Title 11 of the Louisiana Revised Statutes (La. R.S. 11:101-11:104) and may be amended by the Louisiana Legislature.

NOTE 12 PENSION PLANS (CONTINUED)

The net pension liabilities were measured as of June 30, 2018 for TRSL, LSRS and LASERS while PERS was measured as of December 31, 2018. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of these dates. The School Board's proportion of the net pension liability for TRSL, PERS and LASERS was based on a projection of the School Board's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The School Board's proportion of the net pension liability of LSERS was based on the School Board's historical contributions.

At June 30, 2018, the School Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

NOTE 12 PENSION PLANS (CONTINUED)

The long-term expected rate of return on pension plan investments of TRSL, PERS, LSERS, and LASERS were determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and an adjustment for the effect of rebalancing/diversification. The target allocation and expected real rates of return for each major asset class of as of June 30, 2018 for TRSL, LSERS and LASERS, and as of December 31, 2018 for PERS are summarized in the following tables:

**Teachers' Retirement System of Louisiana (TRSL):**

**Discount Rate**

The discount rate used to measure the total pension liability of TRSL, PERS, LSERS, and LASERS was 7.65%, 6.50%, 7.063%, and 7.65%, respectively. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that employer contributions from participating employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the School Board's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate**

The following presents the School Board's proportionate share of the net pension liability of TRSL, PERS, LSERS and LASERS as of June 30, 2019 using the current discount rates of 7.65%, 6.50%, 7.063%, and 7.65%, respectively, as well as what the School Board's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current rate:

NOTE 12 PENSION PLANS (CONTINUED)

**Support of Non-employer Contributing Entities**

Contributions received by a pension plan from non-employer contributing entities that are not in a special funding situation are recorded as revenue by the respective pension plan. The School Board recognizes revenue in an amount equal to their proportionate share of the total contributions to the pension plan from these non-employer contributing entities. During the year ended June 30, 2019, the School Board recognized revenue as a result of support received from non-employer contributing entities of \$363,217 for its participation in TRSL and \$107 for its participation in PERS. LSERS and LASERS do not receive support from non-employer contributing entities and as a result no revenue was recorded for the participation in LSERS or LASERS for the year ended June 30, 2019.

**Pension Plan Fiduciary Net Position**

Detailed information about the pension plans fiduciary net position is available in the separately issued financial reports for TRSL, LSERS, and LASERS and can be obtained on the plans' respective websites or on the Louisiana Legislative Auditor's website: [www.la.la.gov](http://www.la.la.gov).

**Payables to the Pension Plans**

At June 30, 2019, the School Board reported a payable of \$719,735 and \$80,491 for the outstanding amount of contributions due to TRSL and LSERS, respectively.

NOTE 14 RISK MANAGEMENT

Workers' Compensation

The School Board replaced the limited risk management program for workers' compensation with a fully insured plan on May 1, 1999. Management Service, USA was hired by the School Board as administrator of this limited risk program. While under this limited risk plan, the School Board purchased commercial insurance for individual claims in excess of \$600,000. The School Board, unable to obtain reasonable worker's compensation insurance coverage, once again elected to participate in another limited risk management program, effective May 1, 2004. Claims Administrative Services, Inc. serves as the administrator of this plan. The School Board incurred \$737,698 in benefits and administrative costs under the limited risk plans during fiscal year 2019. Incurred but not paid claims have been accrued as a liability in the general fund.

Reconciliation of Claims Liabilities

Changes in the claims liability amounts for the risk management programs are as follows:

	<u>Beginning of Fiscal year Liability</u>	<u>Claims and Changes in Estimates</u>	<u>Benefit Payments and Claims</u>	<u>Balance at Fiscal Year - End</u>
Workers' Compensation	<u>\$ 1,002,273</u>	<u>\$ 635,287</u>	<u>\$ 737,698</u>	<u>\$ 899,862</u>

Claims payable of \$899,862 for workers' compensation at June 30, 2019 was obtained from information provided by the third party administrator.

General Liability

The School Board, unable to obtain reasonable commercial insurance coverage, elected to participate in a self-insurance pool called LARMA (Louisiana Risk Management Agency), effective April 1, 2004. This pool consists of other school boards and is structured where a loss fund is established from actuarial numbers. Aggregate excess coverage of \$3 million is also provided to protect the fund. This fund covers general liability as well as automobile, board errors and omissions liability, and fidelity and forgery insurance. Building and contents coverage is still being provided by a commercial insurance carrier.

NOTE 15 PENDING LITIGATION

Contingencies

At June 30, 2019, the School Board was a defendant in lawsuits principally arising from the normal course of operations. The School Board's legal counsel has reviewed the School Board's claims and lawsuits in order to evaluate the likelihood of an unfavorable outcome to the School Board. It is the opinion of the School Board, after conferring with legal counsel, that the liabilities, if any, which might arise from these lawsuits would not have a material adverse effect on the School Board's financial position.

NOTE 16 FUND BALANCES

The School Board applies GASB Statement No. 54, which redefined how fund balances of the governmental funds are presented in the financial statements. Fund balances are classified as follows:

**Nonspendable Fund Balance**—amounts that are not in spendable form or are required to be maintained intact.

**Restricted Fund Balance**—amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

**Committed Fund Balance**—amounts constrained to specific purposes by the School Board itself, using its highest level of decision-making authority. To be reported as committed, amounts cannot be used for any other purpose unless the School Board takes the same highest level action to remove or change the constraint.

**Assigned Fund Balance**—amounts the School Board intends to use for a specific purpose. Intent can be expressed by the School Board or by an official or body to which the School Board delegates the authority.

**Unassigned Fund Balance**—amounts that are available for any purpose.

Independent Auditor's Report on Internal Control over  
Financial Reporting and on Compliance and Other Matters  
Based on an Audit of Financial Statements Performed in Accordance with  
*Government Auditing Standards*

Dr. Teresa Bagwell, Superintendent  
and Members of the St. Mary Parish School Board  
Centerville, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the St. Mary Parish School Board as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the St. Mary Parish School Board's basic financial statements, and have issued our report thereon dated December 6, 2019.

### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the St. Mary Parish School Board's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the St. Mary Parish School Board's internal control. Accordingly, we do not express an opinion on the effectiveness of the School Board's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the St. Mary Parish School Board's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document; therefore, its distribution is not limited.

Independent Auditor's Report on Compliance for Each Major Program  
and on Internal Control over Compliance Required by Uniform Guidance

Dr. Teresa Bagwell, Superintendent  
and Members of the St. Mary Parish School Board  
Centerville, Louisiana

**Report on Compliance for Each Major Federal Program**

We have audited the St. Mary Parish School Board's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the St. Mary Parish School Board's major federal programs for the year ended June 30, 2019. The St. Mary Parish School Board's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

***Management's Responsibility***

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of the School Board's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School Board's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the St. Mary Parish School Board's compliance.

### ***Opinion on Each Major Federal Program***

In our opinion, the St. Mary Parish School Board complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

### **Report on Internal Control over Compliance**

Management of the St. Mary Parish School Board is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the St. Mary Parish School Board's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the St. Mary Parish School Board's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document; therefore, its distribution is not limited.
