

LOUISIANA LEGISLATIVE AUDITOR  
DARYL G. PURPERA, CPA, CFE

October 22, 2014

## LLA LAUNCHES NEW CAREERS SITE

The Louisiana Legislative Auditor launched a new careers website today.

The updated and redesigned functionality of the portal allows candidates to easily and seamlessly search for LLA jobs, create job profiles and job search agents, and submit applications and resumes. The redesign focused on updating technology to improve ease of use as well as creating an interface that is more visually appealing and engaging.

The site's responsive Web design is optimized for use on both desktop computers and mobile devices.

Enhanced resources on the site located at [www.LLAJobs.com](http://www.LLAJobs.com), include:

- an expanded FAQs section, providing fast and thorough answers to most job search inquiries; and
- an interactive “See Where You Fit In” drag-and-drop chart that allows job seekers to quickly assess which department is best suited to their particular skill set and experience.

LLA employs a mix of professionals including CPAs, public and business administrators, attorneys, computer analysts, IT auditors and others. It is also one of the largest employers of public accountants and analysts in the state.
