To the Board of Commissioners Acadia Parish Communications District Crowley, Louisiana

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the major fund of Acadia Parish Communications District (the District), a component unit of the Acadia Parish Police Jury, as of and for the year then ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of December 31, 2020, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information and schedules of employer's share of net pension liability and employer pension contributions on page 28 through 30 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The District has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other supplementary information on pages 33 through 35 is presented for purposes of additional analysis and is not a required part of the financial statements.

The comparative statements on pages 33 and 34 are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the statements are fairly stated in all material respects in relation to the financial statements, which was subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, was fairly presented in all material respects in relation to the financial statements as a whole.

The comparison schedule on page 35 has not been subjected to the auditing procedures applied in the audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated June 24, 2021 on our consideration of the District's internal control over financial reporting and on our test of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

Notes to Basic Financial Statements

INTRODUCTION

(1) <u>Summary of Significant Accounting Policies</u>

A. <u>Financial Reporting Entity</u>

The Acadia Parish Communications District was created pursuant to an ordinance of the Acadia Parish Police Jury and was established for the purpose of creating and maintaining an enhanced 911 emergency service. The District is governed by seven commissioners. These seven commissioners are referred to as the Board of Commissioners and are appointed by the Acadia Parish Police Jury. The Board of Commissioners is not compensated.

Because the Acadia Parish Police Jury appoints the Board of Commissioners of the District and can influence the scope of public service, the District is determined to be a component unit of the Acadia Parish Police Jury, the governing body of the parish and the governmental entity with oversight responsibility. The accompanying financial statements present information only on the fund maintained by the District and do not present information on the Acadia Parish Police Jury, the general government services provided by that governmental entity, or the other governmental entities that comprise the financial reporting entity.

B. Basis of Presentation

The accompanying basic financial statements of the District have been prepared in conformity with governmental accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Government-Wide Financial Statements (GWFS)

The statement of net position and the statement of activities display information about the District as a whole. These statements include all the financial activities of the District. Information contained in these statements reflects the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from exchange or exchange-like transactions are recognized when the exchange occurs (regardless of when cash is received or disbursed). Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from nonexchange transactions are recognized in accordance with professional standards.

The statement of activities presents a comparison between direct expenses and program revenues for the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function.

Notes to Basic Financial Statements (Continued)

Fund Financial Statements (FFS)

The District uses funds to maintain its financial records during the year. Fund accounting is designed to demonstrate legal compliance and to aid the District by segregating transactions related to certain District's functions and activities. A fund is defined as a separate fiscal and accounting entity with a self-balancing set of accounts. The emphasis on fund financial statements is on major funds, each displayed in a separate column. A fund is considered major if it is the primary operating fund of the District or its total assets, liabilities, revenues, or expenditures of the individual governmental fund is at least 10 percent of the corresponding total for all governmental funds. For reporting purposes, the General Fund of the District is considered to be a major fund. The funds of the District are described below:

Governmental Funds -

General Fund

The General Fund is the general operating fund of the District. The General Fund is financed through franchise taxes earned by the District. Resources of the fund are used to supplement the cost of operating the District's office.

C. Measurement Focus/Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

The governmental activities in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after the year end. Expenditures are recognized when the related liability is incurred.

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Equity

Receivables

In the government-wide statements, receivables consist of all revenues earned at year-end and not received. Major receivable balances for the governmental activities include fees and charges for services.

Notes to Basic Financial Statements (Continued)

Prepaid expenditures

Payments made for insurance and other expenditures that will benefit periods beyond the end of the fiscal year are recorded as prepaid expenditures.

Capital Assets

Capital assets are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$1,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Depreciation of all exhaustible capital assets is recorded as an expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Assets	Years
Buildings and improvements	10 - 40
Equipment	5 - 20

Deferred Outflows of Resources and Deferred Inflows of Resources

In some instances, the GASB requires a government to delay recognition of decreases in net position as expenditures until a future period. In other instances, governments are required to delay recognition of increases in net position as revenues until a future period. In these circumstances, deferred outflows of resources and deferred inflows of resources result from the delayed recognition of expenditures or revenues, respectively. There were no deferred inflows or outflows as of December 31, 2020.

Equity Classifications

In the government-wide statements, equity is classified as net position and displayed in three components:

a. Net investment in capital assets - Consists of capital assets reduced by outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction or improvement of those assets and increased by balances of deferred outflows of resources related to those assets.

Notes to Basic Financial Statements (Continued)

- Restricted net position Net position is considered restricted if the use is constrained to a particular purpose. Restrictions are imposed by external organizations such as federal or state laws or buyers or the District's debt.
- c. Unrestricted net position Consists of all other net position that does not meet the definition of "net investment in capital assets" or "restricted".

In the governmental fund financial statements, fund equity is classified as fund balances and are classified as follows:

- a. Nonspendable Includes amounts that cannot be spent because they are either not spendable in form or legally or contractually required to remain intact. All amounts reported as nonspendable as of December 31, 2020, by the District are nonspendable in form. The District has not reported any amounts that are legally or contractually required to be maintained intact.
- b. Restricted Includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provisions or enabling legislation.
- c. Committed Includes amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to directives of the District who has the highest level of decision making District. Commitments may be modified or rescinded only through actions of the District.
- d. Assigned Includes amounts that the District intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. The District or his designee may assign amounts to this classification.
- e. Unassigned Includes amounts that have not been assigned to other funds or restricted, committed or assigned to a specific purpose within the General Fund.

Use of restricted resources

When an expenditure is incurred that can be paid using either restricted or unrestricted resources (fund balances), the District considers to first apply the expense toward restricted resources and then toward unrestricted resources. In governmental funds, the District considers to first apply the expenditure toward restricted fund balance and then to other, less restrictive classifications – committed and then assigned fund balances before using unassigned fund balances.

Notes to Basic Financial Statements (Continued)

Revenues, Expenditures, and Expenses

Revenues

Intergovernmental revenues are recorded when the District is entitled to the funds.

Interest on interest-bearing deposits is recorded or accrued as revenues when earned. Substantially all other revenues are recorded when received.

Expenditures/Expenses

Capital expenditures and purchases of various operating supplies are regarded as expenditures at the time purchased.

E. <u>Compensated Absences</u>

Full-time employees of the District earn annual leave in amounts ranging from 5 to 20 days per year, depending upon length of service. Upon voluntary resignation or retirement, an employee may be compensated for accumulated leave to the date of separation, not to exceed 20 days, provided, in the case of resignation, he has completed 12 or more months of continuous service and also provided the employee has submitted notice to his department head or Chairman of the District, at least two weeks in advance of the effective date of resignation. At the end of each year, all unused annual leave is automatically converted into sick leave.

Permanent full-time employees of the District earn one day of sick leave for each month of continuous employment. Permanent part-time employees accumulate sick leave on a pro rata basis. Sick leave may be accumulated by an employee without limitation as to the maximum number of days. Upon voluntary resignation or retirement, an employee may be compensated for sick leave accumulated to the date of separation, not to exceed 60 days, provided he has completed 12 or more months of continuous service and also provided he has submitted notice of resignation or retirement to the department head or Chairman of the District at least two weeks in advance of his retirement or resignation. The District intends to pay the above accumulated unpaid sick leave upon separation.

F. <u>Estimates</u>

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

Notes to Basic Financial Statements (Continued)

(2) Cash and Interest-Bearing Deposits

Under state law, the District may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. The District may invest in certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. As of December 31, 2020, the District had cash and interest-bearing deposits (book balances) totaling \$4,335,459 attributable to governmental activities.

Custodial credit risk for deposits is the risk that in the event of the failure of a depository financial institution, the District's deposits may not be recovered or the collateral securities that are in the possession of an outside party will not be recovered. These deposits are stated at cost, which approximates fair value. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the pledging fiscal agent bank by a holding or custodial bank that is mutually acceptable to both parties. As of December 31, 2020, bank balances in the amount of \$4,456,330 were as follows:

Bank balances	<u>\$ 4,456,330</u>
Federal deposit insurance	500,000
Pledged securities	3,956,330
Total	<u>\$ 4,456,330</u>

Deposits in the amount of \$3,956,330 were exposed to custodial credit risk. These deposits are uninsured and collateralized with securities held by the pledging institution's trust department or agent, but not in the District's name. Even though the pledged securities are considered uncollateralized, Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the District that the fiscal agent has failed to pay deposited funds upon demand. The District does not have a policy for custodial risk.

(3) <u>Receivables</u>

The following is a summary of franchise taxes receivable at December 31, 2020:

Amounts due from:	
Landline providers	\$ 33,781
Voice over internet protocol (VOIP) providers	446
Wireless providers	120,513
Prepaid phone providers	38,545
Other	100
	\$ 193,285

Notes to Basic Financial Statements (Continued)

(4) <u>Capital Assets</u>

Capital asset activity for the year ended December 31, 2020 was as follows:

	Balance			Balance
	1/1/2020	Additions	Deletions	12/31/2020
Governmental activities:				
Capital assets not being depreciated				
Land	\$ 54,000	\$ -	\$ -	\$ 54,000

Less: accumulated depreciation				
Building and improvements	416,356	25,958		442,314
Equipment	184,097	20,093	5,633	198,557
Total accumulated depreciation	600,453	46,051	5,633	640,871
Total capital assets being				
depreciated, net	653,443	(34,420)	<u> </u>	619,023
Governmental activities, capital assets, net	<u>\$ 707,443</u>	<u>\$231,972</u>	<u>\$ -</u>	<u>\$ 939,415</u>

Depreciation expense in the amount of \$46,051 was charged to public safety.

(5) <u>Due from Other Governmental Agencies</u>

Due from other governmental agencies in the amount of \$151,903 at December 31, 2020 is owed from the Acadia Parish Sheriff for reimbursement of expenses.

(6) <u>Due to Other Governmental Agencies</u>

Due to other governmental agencies in the amount of \$88,939 at December 31, 2020 is owed to the Acadia Parish Sheriff for reimbursement of expenses for the quarter ended December 31, 2020.

Notes to Basic Financial Statements (Continued)

(7) <u>Employee Retirement Systems</u>

The District participates in a cost-sharing defined benefit plan, the Parochial Employees' Retirement System (PERS), administered by a separate public employee retirement system. Article X, Section 29(F) of the Louisiana Constitution of 1974 assigns the District to establish and amend benefit provisions of the plan administered by this public employee retirement system to the State Legislature. The plan is not closed to new entrants. Substantially all District employees participate in the system.

Plan Description

PERS provides retirement, disability, and survivor benefits to eligible employees and their beneficiaries as defined in LRS 11:1901 and 11:1941. The District participates in Plan A.

PERS' financial statements are prepared using the accrual basis of accounting. Employer and employee contributions are recognized in the period in which the employee is compensated for services performed. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Interest income is recognized when earned. Ad valorem taxes and revenue sharing monies are recognized in the year collected by the tax collector.

A brief summary of eligibility and benefits of the plan is provided in the following table:

Final average salary	Final average
	compensation
Years of service required and/or age	
eligible for benefits	30 years of any age
	25 years age 55*
	10 years age 60*
	7 years age 65*
Benefit percent per years of service	3.00%

* Employees hired after January 1, 2007: 30 years age 55, 10 years age 62, 7 years age 67.

Contributions

Article X, Section 29(E)(2)(a) of the Louisiana Constitution of 1974 assigns the Legislature the District to determine employee contributions. Employer contributions are actuarially determined using statutorily established methods on an annual basis and are constitutionally required to cover the employer's portion of the normal cost and provide for the amortization of the unfunded accrued liability. Employer contributions are adopted by the Legislature annually upon recommendation of the Public Retirement Systems' Actuarial Committee. In addition, PERS receives a percentage of ad valorem taxes collected by parishes. These entities are not participating employers in the pension system and are considered to be nonemployer contributing entities. For the year ended December 31, 2020, the contribution percentages for employees and employers were 9.5% and 12.25%, respectively. The amounts contributed from non-employer contributing entities and from the District for the year ended December 31, 2020 were \$786 and \$7,700, respectively.

Notes to Basic Financial Statements (Continued)

Net Pension Liability

The District's net pension liability at December 31, 2020 of \$458 is comprised of its proportionate share of the net pension liability relating to the cost-sharing plan. The District's net pension liability for the plan was measured as of the plan's measurement date, December 31, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportionate share of the net pension liability for the plan was based on the District's required contributions in proportion to total required contributions for all employers.

As of the most recent measurement date, the District's proportion for the plan was .009719%, a decrease of .000109% from the prior measurement date.

Since the measurement date of the net pension liability was December 31, 2019, the net pension liability is based upon fiduciary net position for the plan as of that date. Detailed information about the plan's assets, deferred outflows, deferred inflows, and fiduciary net position that was used in the measurement of the District's net pension liability is available in the separately issued plan financial report which may be accessed on their website at <u>http://www.persla.org/</u>.

Actuarial Assumptions

The following table provides information concerning actuarial assumptions used in the determination of the total pension liability:

Date of experience study on which significant assumptions are based	1/1/2010 - 12/31/2014
Expected remaining service lives	4
Inflation Rate	2.40%
Projected salary increases	4.75%
Projected benefit changes including COLAs	None
Source of mortality assumptions	 RP-2000 Healthy Annuitant Sex Distinct Mortality Tables Projected to 2031 using Scale AA RP-2000 Disabled Lives Mortality Table for disabled annuitants set back 5 years for males and 3 years for females RP-2000 Employees Sex Distinct Tables set back 4 years for males and 3 years for females

Notes to Basic Financial Statements (Continued)

Cost of Living Adjustments

PERS has the authority to grant cost-of-living adjustments (COLAs) on an ad hoc basis. Pursuant to LRS 11:242(B), the power of the Board of Trustees of the PERS to grant a COLA is effective in calendar years that the legislature fails to grant a COLA, unless in the legislation granting a COLA, the legislature authorizes the Board of Trustees to provide an additional COLA. The District to grant a COLA by the Board is subject to the funded status and interest earnings. The effects of the benefit changes made as a result of the COLAs is included in the measurement of the total pension liability as of the measurement date at which the ad hoc COLA was granted and the amount is known and reasonably estimable.

Discount Rate

The discount rate used to measure the District's total pension liability for the plan and the significant assumptions used in the determination of the discount rate was 6.50%, which remained the same rate as the prior valuation. Plan cash flow assumptions are that the plan member contributions will be made at the current contribution rate and sponsor contributions will be made at the actuarially determined rate.

The discount rate used to measure the District's total pension liability for the pension plan is equal to the long-term expected rate of return on pension plan investments that are expected to be used to finance the payment of benefits. The rate was determined using a triangulation method which integrated the Capital Asset Pricing Model (CAPM), a treasury yield curve approach and an equity building block model. Risk return and correlation are projected on a forward-looking basis in equilibrium, in which best-estimates of expected future real rates of return are developed for each major asset class. These rates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and an adjustment for the effect of rebalancing/diversification.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Fixed Income	35%	1.05%
Equities	52%	3.41%
Alternative Investments	11%	0.61%
Real Assets	2%	0.11%
Total Inflation	100%	5.18%
Expected Return		7.18%

Notes to Basic Financial Statements (Continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Pension Plan:

Changes in the net pension liability may either be reported in pension expense in the year the change occurred or recognized as a deferred outflow of resources or a deferred inflow of resources in the year the change occurred and amortized into pension expense over a number of years. For the year ended December 31, 2020, the District recognized \$8,851 in pension expense related to its pension plan. The plan recognized revenues in the amount of \$786 in ad valorem taxes collected from non-employee contributing entities.

As of December 31, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to its pension plan from the following sources:

	d Outflows esources	Deferred Inflows of Resources	
Differences between expected and actual experience	\$ -	\$	4,096
Net difference between projected and actual earnings on pension plan investments	-		17,150
Change in proportion and differences between employer contributions and proportionate share of contributions	147		158
Changes in assumptions	6,390		-
Contributions subsequent to the meausurement date Total	\$ 7,700 14,237	<u>\$</u>	

Deferred outflows of resources of \$7,700 resulting from the employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability during the year ending December 31, 2020. Amounts reported as deferred outflows of resources and (deferred inflows of resources) related to pensions to be recognized in pension expense are as follows:

	Net Amount				
Year Ended	Recognized in				
December 31	Pension Expense				
2020	\$ (3,295)				
2021	(4,252)				
2022	400				
2023	(7,720)				
	\$ (14,867)				

Notes to Basic Financial Statements (Continued)

Sensitivity of the District's Proportional Share of the Net Pension Liability to Changes in the Discount Rate:

The following presents the District's proportionate share of the net pension liability of the plan, calculated using the discount rate, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

	Current					
	1%	1% Discount				
	Decrease	Rate	Increase			
	5.5%	6.5%	7.5%			
Net pension liability	<u>\$ 49,449</u>	<u>\$ 458</u>	<u>\$ (40,597</u>)			

Payables to Pension Plan

At December 31, 2020, the District had no outstanding payables to PERS.

(8) Change in Noncurrent Liabilities

The following is a summary of noncurrent liability transactions of the District for the year ended December 31, 2020:

					Due	
	Balance			Balance	Within	
	1/1/2020	Increases	Decreases	12/31/2020	One Year	
Compensated absences	<u>\$ 14,222</u>	<u>\$ 284</u>	<u>\$ -</u>	<u>\$ 14,506</u>	<u>\$ 907</u>	

(9) Addenda to Financial Report Required by LA R.S. 33:9101 et seq

The collection of the Wireless E911 tax is authorized by Louisiana Revised Statute 33:9109. According to the statute, the District is to collect the tax from the providers of wireless communications. The proceeds of the tax are restricted in use for payment of service suppliers' and the District's costs associated with the implementation of Phase I and Phase II enhancements required by the FCC. Once these expenditures have been made and the system implementation is complete, the proceeds become unrestricted and may be used for any lawful purpose of the District. All Phase I and Phase II system implementation requirements are complete. During the year ended December 31, 2020, the District collected wireless communication taxes totaling \$614,929.

Notes to Basic Financial Statements (Continued)

(10) <u>Concentrations</u>

Substantially all of the District's revenues are in the form of communications and cellular tax revenues. The communications and cellular taxes collected during 2020 accounted for approximately 99% of the District's total revenues.

(11) Operating Leases

The District has several operating leases in effect at year end. These leases cover the use of various pieces of equipment and are in excess of one year. However, they are cancelable. The total rental expense for all leases for the year ended December 31, 2020 was 149,507.

(12) <u>Risk Management</u>

The District is exposed to risks of loss in the areas of professional liability, auto liability, general liability, and workers' compensation. All of these risks are handled by purchasing commercial insurance coverage. There have been no significant reductions in the insurance coverage during the year, nor have settlements exceeded coverage for the past three years.

(13) Litigation

As of December 31, 2020, the District's office is not involved in any litigation.

(14) <u>Compensation of Board Members</u>

Board members for the year ended December 31, 2020, served without compensation and are as follows:

K.P. Gibson, Chairman	
Cody Leckelt	Jeremiah Meck
Ashley LeBlanc	Ralph Lacombe
John Dubose	Carol Stelly

(15) <u>Compensation, Benefits, and Other Payments to Agency Head</u>

The schedule of compensation, benefits, and other payments to Mary T. Richard, Director, for the year ended December 31, 2020 follows:

Purpose	Amount
Salary	\$ 62,857
Benefits - insurance	19,187
Benefits - retirement	7,700
Benefits - payroll taxes	912
Cell phone	599
Dues	265
Reimbursements	125
Total	<u>\$ 91,645</u>

Notes to Basic Financial Statements (Continued)

(16) <u>New Accounting Pronouncement</u>

GASB Statement 87, *Leases* will require all leases to be reported on the statement of net position under a single accounting model for both lessors and lessees. The statement will require the recognition of lease assets or liabilities for leases previously reported as operating leases. Bother operation and capital leases will be reported under this single accounting method and reported by lessees as an intangible right to use asset and by lessors as a receivable with both reporting a deferred inflow of resources. The standard is effective for annual reporting periods beginning after June 15, 2021. All of the District's lease agreements will need to be evaluated to determine the impact of implementing this standard; however, the effect of this standard or its applicability to the District is unknown at this time.

(17) <u>Subsequent Events</u>

Uncertainty Occurring After Financial Statement Date – As a result of the spread of the COVID-19 coronavirus, economic uncertainties have arisen which may impact the District's ongoing operations; however, the extent and severity of the potential impact is unknown at this time.

Notes to Required Supplementary Information

(1) Budgetary and Budgetary Accounting

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- a. A proposed budget is prepared and submitted to the District for the fiscal year no later than fifteen days prior to the beginning of each fiscal year.
- b. A summary of the proposed budget is published and the public is notified that the proposed budget is available for public inspection. At the same time, a public hearing is called.
- c. A public hearing is held on the proposed budget at least ten days after publication of the call for a hearing.
- d. After the holding of the public hearing and completion of all action necessary to finalize and implement the budget, the budget is legally adopted prior to the commencement of the fiscal year for which the budget is being adopted.
- e. All budgetary appropriations lapse at the end of each fiscal year.
- f. The budget is adopted on a basis consistent with generally accepted accounting principles (GAAP). Budgeted amounts included in the accompanying financial statements are as originally adopted or as finally amended by the District. Such amendments were not material in relation to the original appropriations.

(2) Pension Plan – Parochial Employees' Retirement System

Changes of Assumptions – Changes of assumptions about future economic demographic factors or of other inputs were recognized in pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the pension plan. These assumptions include the rate of investment return, mortality of plan members, rate of salary increase, rates of retirement, rates of termination, rates of disability, and various other factors that have an impact on the cost of the plan.

To the Board of Commissioners Acadia Parish Communications District Crowley, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of Acadia Parish Communication District (the District), a component unit of the Acadia Parish Police Jury as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated June 24, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying summary schedule of current and prior year audit findings and management's corrective action plan, we identified a certain deficiency in internal control that we consider to be a material weakness.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying summary schedule of current and prior year audit findings and management's corrective action plan as item 2020-001 to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

District's Response to Finding

The District's response to the finding identified in our audit is described in the accompanying summary schedule of current and prior year audit findings and management's corrective action plan. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, this report is a matter of public record and its distribution is not limited.

Summary Schedule of Current and Prior Year Audit Findings and Management's Corrective Action Plan

Part I. Current Year Findings and Management's Corrective Action Plan

A. Internal Control Findings -

2020-001 Inadequate Segregation of Accounting Functions

Fiscal year finding initially occurred: Unknown

CONDITION: The District did not have adequate segregation of functions within the accounting system.

CRITERIA: The District should have a control policy according to which no person should be given responsibility for more than one related function.

CAUSE: Due to the size of the District, there are a small number of available employees.

EFFECT: The District has employees that are performing more than one related function.

RECOMMENDATION: The District should establish and monitor mitigating controls over functions that are not completely segregated.

MANAGEMENT'S CORRECTION ACTION PLAN: Due to the size of the operations and the cost-benefit of additional personnel, it may not be feasible to achieve complete segregation of duties.

B. Compliance Findings -

There are no findings to report under this section.

Part II. Prior Year Findings

A. Internal Control Findings -

2019-001 Inadequate Segregation of Accounting Functions

Fiscal year finding initially occurred: Unknown

CONDITION: The District did not have adequate segregation of functions within the accounting system.

RECOMMENDATION: The District should establish and monitor mitigating controls over functions that are not completely segregated.

CURRENT STATUS: Unresolved. See finding 2020-001.

B. Compliance Findings -

There are no findings to report under this section.
