INDEPENDENT ACCOUNTANT'S REVIEW REPORT

To the Board of Commissioners
Sherwood Forest Crime Prevention and Neighborhood Improvement District
Baton Rouge, Louisiana

We have reviewed the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Sherwood Forest Crime Prevention and Improvement District as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America. We believe the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5-8 and the budgetary comparison schedule on pages 25-26 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. The information is the representation of management. We have not audited or reviewed such required supplementary information and, accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on it.

Supplementary Information

The schedule of compensation, benefits, and other payments to agency head reported on page 30 is presented for purposes of additional analysis and is not a required part of the basic financial statements. The information is the representation of management. We have not audited or reviewed such information and, accordingly, we do not express an opinion, a conclusion, nor provide any assurance on it.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Year Ended December 31, 2020

Our discussion and analysis of Sherwood Forest Crime Prevention and Neighborhood Improvement District's (hereafter referred to as the District) financial performance provides an overview of the District's financial activities for the year ended December 31, 2020.

FINANCIAL HIGHLIGHTS

The financial statements included in this report provide insight into the financial status for the year. Based upon the operations of 2020, the District's net position increased by \$ 69,801, resulting in ending net position of \$ 571,502, or an increase of 13.9 percent.

Total spending for the governmental activity was \$ 319,013 for the year, which was \$ 76,770 more than the parcel fees received for this activity, \$ 242,243. Expenditures for capital assets totaled \$ 149,142 during the year.

The interest earned on checking accounts and outstanding parcel fee collections was \$ 391 for the year.

USING THIS ANNUAL REPORT

This report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities found on pages 9 and 10 provide information about the financial activities of the District and illustrate a longer-term view of the District's finances. Fund financial statements start on page 11. For governmental type activities, these statements illustrate how these services were financed in the short-term and what remains for future spending. Fund financial statements also report the District's operations in more detail than the government-wide statements by providing information about the District's significant funds.

REPORTING THE DISTRICT AS A WHOLE, THE STATEMENT OF NET POSITION AND THE STATEMENT OF ACTIVITIES

Our analysis of the District as a whole begins on page 9. These statements help to illustrate the status of the District resulting from the year's activities. The statements include all assets and liabilities using the accrual basis of accounting. In this method, all of the current year's revenues and expenses are taken into account regardless of when cash is paid or received.

The District's net position is determined by examining the difference in assets and liabilities. The two statements report the District's net position and any changes in it. Examining the District's net position is an effective way to determine the financial status of the District. Increases and decreases in net position are an indicator of the District's overall increasing or decreasing financial performance.

In the Statement of Net Position and Statement of Activities, the District reports only governmental type activities. The majority of the District's activities are of this type, and parcel fees finance most of the activities.

REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS, FUND FINANCIAL STATEMENTS

The analysis of the District's sole fund begins on page 11. The fund financial statements provide detailed information about the most significant fund rather than the District as a whole.

The District uses a governmental type fund. All of the District's services are reported in the governmental fund, which focuses on how money flows into and out of that fund and the balance left at year-end that is available for spending. This fund is reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to fund the District's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in a reconciliation located after the Statement of Revenues, Expenses, and Changes in Fund Balance.

THE DISTRICT AS A WHOLE

The District's net position increased \$ 69,801 as a result of this year's operations, resulting in ending net position of \$ 571,502, or an increase of 13.9 percent. The balance in net position represents the accumulated results of all past years' operations. Unrestricted net position (the part of net position that can be used to finance daily operations without legal restrictions or obligations) changed from a \$ 499,477 surplus to a \$423,098 surplus at year-end. The District can use these funds to finance the continuing operations of the office. This means that if we had to pay off all of our bills today, we would have \$ 423,098 left.

THE DISTRICT'S FUNDS

As previously mentioned, the District uses funds to help control and manage money for particular purposes. At the completion of the year, the District's governmental fund reported an unassigned fund balance of \$423,098. This reflects a decrease of \$ 76,379 from last year.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of the year, the District has \$ 148,404 invested in capital assets, consisting principally of security equipment. Capital assets totaling \$ 149,142 were acquired during the year, and no capital assets were disposed of during the year. Additional detailed information about the District’s capital assets is presented in Note D of the financial statements.

NOTES TO THE FINANCIAL STATEMENTS

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying basic financial statements of the Sherwood Forest Crime Prevention and Improvement District (“District”) have been prepared in conformity with governmental accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The accompanying financial statements have been prepared in conformity with GASB Statement 34, *Basic Financial Statements and Management’s Discussion and Analysis for State and Local Governments*, issued in June 1999.

Reporting Entity

The District was created by Louisiana Revised Statute 33:9097.19 and is a political subdivision as defined in the Constitution of the State of Louisiana. The purpose of the District is to aid in crime prevention and to add to the security of residents by providing for an increase in the presence of law enforcement personnel in the District and to serve the needs of the residents of the District by funding beautification and improvements for the overall betterment of the District.

For financial reporting purposes, in conformity with GASB Codification of Governmental Accounting and Financial Reporting Standards, the District includes all funds and account groups that are controlled by the District.

Basic Financial Statements – Government-Wide Statements

The District’s basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District’s major fund). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The District’s general administrative services are classified as governmental type activities.

In the government-wide Statement of Net Position, the business-type column is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The District’s net position is reported in three parts—invested in capital assets, net of related debt; restricted net position; and unrestricted net position. The District first utilizes restricted resources to finance qualifying activities.

NOTES TO THE FINANCIAL STATEMENTS

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basic Financial Statements – Government-Wide Statements (continued)

The government-wide Statement of Activities reports both the gross and net cost of each of the District's functions. The net costs by function are normally covered by general revenues.

This government-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities.

Basic Financial Statements – Fund Financial Statements

The financial transactions of the District are reported in individual funds in the financial statements. Each fund is accounted for by providing a separate set of self-balancing accounting that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The fund presented in the financial statements is described as follows:

Governmental Funds:

General Fund

This fund accounts for all or most of the operations of the District. The focus of the governmental fund's measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of current financial resources) rather than upon net income. Expendable assets are assigned to funds according to the purpose for which they may be used. Current liabilities are assigned to funds from which they will be paid. The difference between a governmental fund's assets and liabilities is reported as a fund balance. In general, fund balance represents the accumulated expendable resources that may be used to finance future period operations of the District's office.

The general fund is the principal fund of the District and accounts for all financial resources, except those required to be accounted for in other funds. The general fund is available for any purpose provided it is expended or transferred in accordance with state and federal laws and according to the District's policies.

NOTES TO THE FINANCIAL STATEMENTS

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

Accrual:

Business-type activities in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Modified Accrual:

The governmental fund financial statement is presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. “Available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from these estimates.

SHERWOOD FOREST CRIME PREVENTION AND
NEIGHBORHOOD IMPROVEMENT DISTRICT
Baton Rouge, Louisiana

NOTES TO THE FINANCIAL STATEMENTS

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Budget Practices

A proposed operating budget for the General Fund, prepared on the modified accrual basis of accounting, is approved by the Board of Commissioners and adopted in accordance with the Local Government Budget Law. The proposed operating budget is legally adopted and amended, as necessary, by the District. All appropriations lapse at year-end.

Formal budget integration is employed as a management control device. Budget amounts included in the accompanying financial statements include the original budget amounts and all subsequent amendments, if any.

Cash and Cash Equivalents

Cash includes amounts in demand deposits, interest-bearing demand deposits, and time deposits. The District has defined cash and cash equivalents to include cash on hand, demand deposits, and time deposits with original maturities of 90 days or less. Under Louisiana Revised Statutes 39:1271 and 33:2955, the District may deposit funds in demand deposits, interest-bearing demand deposits, or certificates of deposit with state banks organized under Louisiana law or any other state of the United States, or under the laws of the United States.

Capital Assets

Capital assets purchased or acquired with an original cost of \$ 500 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Security equipment	5 years
--------------------	---------

Encumbrances

Encumbrance accounting, under which contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of that appropriation, is not employed by the District.

Fund Equity

Fund Financial Statements

In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable – Amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually obligated required to be maintained intact.

Restricted – Amounts that can be spent only for specific purposes because of state or federal laws, or externally imposed conditions by grantors or creditors.

Committed – Amounts that can only be used for specific purposes determined by a formal action of the District. These amounts cannot be used for any other purpose unless the District removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed.

Assigned – Amounts that are designated as committed by the District but are not spendable until a budget ordinance is passed.

Unassigned – All amounts not included in other spendable classifications. The District has not adopted a policy to maintain the general fund's unassigned fund balance above a certain minimum level.

The details of the fund balances are included in the Balance Sheet – Governmental Fund (page 11). As noted above, restricted funds are used first as appropriate. Assigned funds are reduced to the extent that expenditure authority has been budgeted by the District or the assignment has been changed by the District. Decreases in fund balance reduce first unassigned fund balance; in the event that unassigned fund balance becomes zero, then assigned and committed fund balances are used in that order.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fund Equity (continued)

Government-Wide Statements

In the government wide financial statements, net position is classified as follows:

Net investment in capital assets – Consists of net capital assets reduced by the outstanding balance of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets and increased by balances of deferred outflows of resources related to those assets.

Restricted net position – Net position is considered restricted if its use is constrained to a particular purpose. Restrictions can be imposed by either external organizations, such as creditor (such as debt covenants), grants, contributors, laws, or regulation of other governments or imposed by law through constitutional provisions or enabling legislation. Restricted net position is reduced by liabilities and deferred inflows of resources related to the restricted assets.

Unrestricted net position – All other net position that do not meet the definition of “restricted” or “net investment in capital assets.”

When both restricted and unrestricted resources are available for use, it is the government’s policy to use restricted resources first, then unrestricted resources as they are needed.

NOTES TO THE FINANCIAL STATEMENTS

NOTE B – CASH AND CASH EQUIVALENTS

Cash and cash equivalents as of December 31, 2020, were as follows:

Cash on hand	\$ -
Cash in bank – checking	<u>224,300</u>
	\$ <u>224,300</u>

These deposits are stated at cost, which approximates market. Under state law, deposits or the resulting bank balances must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a deposit policy for custodial credit risk. As of December 31, 2020, none of the District's deposits were exposed to custodial credit risk because all deposits were insured by FDIC insurance or collateralized by securities held by the Federal Reserve Bank in a three way custodial account.

NOTE C – RECEIVABLES

Amounts due from other governments as of December 31, 2020, are as follows:

INDEPENDENT ACCOUNTANT'S REPORT ON
APPLYING AGREED-UPON PROCEDURES

To the Board of Commissioners of Sherwood Forest
Crime Prevention and Neighborhood Improvement District and
the Legislative Auditor, State of Louisiana

We have performed the procedures included in the *Louisiana Audit Guide* and enumerated below for the year ended December 31, 2020. Sherwood Forest Crime Prevention and Neighborhood Improvement District is responsible for the procedures listed below.

Management of Sherwood Forest Crime Prevention and Neighborhood Improvement District and the Louisiana Legislative Auditor have agreed to and acknowledge that the procedures performed are appropriate to meet the intended use of assisting the users in assessing certain controls and evaluating management's assertion about Sherwood Forest Crime Prevention and Neighborhood Improvement District's compliance with certain laws and regulations during the year ended December 31, 2020. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures performed and the associated findings are as follows:

Public Bid Law

1. Select all expenditures made during the year for material and supplies exceeding \$30,000, or public works exceeding \$150,000, and determine whether such purchases were made in accordance with R.S. 38:2211-2296 (the public bid law) or R.S. 39:1551-39:1755 (the state procurement code), whichever is applicable.

No expenditures were made during the year for materials and supplies that exceeded \$ 30,000 or for public works exceeding \$ 150,000.

Code of Ethics for Public Officials and Public Employees

2. Obtain from management a list of the immediate family members of each board member as defined by R.S. 42:1101-1124 (the code of ethics), and a list of outside business interests of all board members and employees, as well as their immediate families.

The list of board members, immediate family members, and outside business interests was obtained and examined.

3. Obtain from management a listing of all employees paid during the period under examination.

The District had no employees during the period under examination.

4. Determine whether any of those employees included in the listing obtained from management in agreed-upon Procedure 3 were also included on the listing obtained from management in agreed-upon Procedure 2 as immediate family members.

The District had no employees during the period under examination.

Budgeting

5. Obtain a copy of the legally adopted budget and all amendments.

The adopted budget was obtained and examined. No amendments were made to the budget during the period under examination.

6. Trace the budget adoption and amendments to the minute book.

The adoption of the budget and amendments was traced to Board meeting minutes. No exceptions noted.

7. Compare the revenues and expenditures of the final budget to actual revenues and expenditures to determine if actual revenues failed to meet budgeted revenues by 5 % or more, or if actual expenditures exceed budgeted amounts by 5% or more. (Note, state law exempts from the amendment requirements special revenue funds with anticipated expenditures of \$500,000 or less, and exempts special revenue funds whose revenues are expenditure-driven--primarily federal funds.). For agencies that must comply with the Licensing Agency Budget Act only, compare the expenditures of the final budget to actual expenditures to determine if actual expenditures exceed budgeted amounts by 10% or more per category or 5% or more in total.

The District is a special revenue fund with expenditures under \$500,000, so they are exempt from the aforementioned budget requirements.

Accounting and Reporting

8. Randomly select six disbursements made during the period under examination and (a) trace payments to supporting documentation as to proper amount and payee, (b) determine if payments were properly coded to the correct fund and general ledger account, and (c) determine whether payments received approval from proper authorities.

We examined supporting documentation for six random disbursements throughout the period under examination and found that each payment was (a) for the proper amount and made to the correct payee, (b) properly coded to the correct fund and general ledger account, and (c) approved by appropriate authorities within the District. No exceptions were noted.

Meetings

9. Examine evidence indicating that agendas for meetings recorded in the minute book were posted or advertised as required by R.S. 42:11 through 42:28 (the open meetings law).

We examined supporting documentation for agendas and required postings or advertisings for the period under examination. No discrepancies were noted.

Debt

10. Examine bank deposits for the period under examination and determine whether any such deposits appear to be proceeds of banks loans, bonds, or like indebtedness.

We examined supporting documentation for all bank deposits made during the period of examination. All but one bank deposit made during the period of examination were supported by documentation reflecting parcel fees and related revenues from the local City-Parish government. The remaining bank deposit was for interest paid to the District by the East Baton Rouge Parish Sheriff's Office. No discrepancies were noted.

Advances and Bonuses

11. Examine payroll records and minutes for the year to determine whether any payments have been made to employees that may constitute bonuses, advance, or gifts.

For the period under examination, the District did not have any employees.

Prior Comments and Recommendations

12. Review any prior year suggestions, recommendations, and/or comments to determine the extent to which such matters have been resolved.

There no findings noted in the prior year accountant's report on applying agreed-upon procedures, and no suggestions, recommendations, or comments were made as a result of that engagement.

We were engaged by Sherwood Forest Crime Prevention and Neighborhood Improvement District to perform this agreed-upon procedures engagement in accordance with attestation standards established by the AICPA and applicable standards of Government Auditing Standards. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on management's assertions about Sherwood Forest Crime Prevention and Neighborhood Improvement District's compliance with certain laws and regulations during the year ended December 31, 2020. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of Sherwood Forest Crime Prevention and Neighborhood Improvement District and to meet our ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement.

This report is intended solely for the information and use of the Louisiana Legislative Auditor and Sherwood Forest Crime Prevention and Neighborhood Improvement District, and is not intended to be, and should not be, used by anyone other than these specified parties. Under R.S. 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document.
