## INDEPENDENT AUDITORS' REPORT

To Guy Cormier, Parish President  
and the Members of the St. Martin  
Parish Council  
St. Martinville, Louisiana

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the St. Martin Parish Government as of December 31, 2005 and for the year then ended, which collectively comprise the basic financial statements of the St. Martin Parish Government's primary government as listed in the preceding table of contents. These financial statements are the responsibility of the management of the St. Martin Parish Government. Our responsibility is to express an opinion on these financial statements based upon our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the primary government financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the primary government financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statements presentation. We believe that our audit provides a reasonable basis for our opinion.

The financial statements referred to above include only the primary government of the St. Martin Parish Government, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the St. Martin Parish Government's legal entity. The financial statements do not include financial data for the St. Martin Parish Government's legally separate component units, which accounting principles generally accepted in the United States of America require to be reported with the financial data of the St. Martin Parish Government's primary government. As a result, the primary government financial statements do not purport to, and do not, present fairly the financial position of the St. Martin Parish Government as of December 31, 2005 and the changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, except for the effects on the financial statements of the omission described in the preceding paragraph, the primary government financial

statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information for the primary government of the St. Martin Parish Government as of December 31, 2005, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated August 11, 2006 on our consideration of the St. Martin Parish Government's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The Management's Discussion and Analysis and budgetary comparison information on pages 4 through 13 and 47 through 49, respectively, are not a required part of the basic financial statements of the St. Martin Parish Government but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information, and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the basic financial statements of the St. Martin Parish Government. The accompanying information listed as other supplemental information in the table of contents, including the schedule of expenditures of federal awards as required by U. S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, are presented for purposes of additional analysis and are not a required part of the basic financial statements of the St. Martin Parish Government. Such supplemental information has been subjected to the auditing procedures applied in the examination of the primary government financial statements and, in our opinion, is fairly presented in all material respects in relation to the basic financial statements taken as a whole.

Management's Discussion and Analysis (MD & A)

ST. MARTIN PARISH GOVERNMENT

MANAGEMENT'S DISCUSSION AND ANALYSIS  
(Unaudited)

The discussion and analysis of St. Martin Parish Government's financial performance provide an overview of the Parish's financial activities for the fiscal year ended December 31, 2005, in an easily readable analysis. Please read it in conjunction with the Parish's financial statements that follow.

**HIGHLIGHTS**

**Financial Highlights**

- Assets of the Parish exceeded its liabilities at the close of the fiscal year by \$33,180,029 of this amount, \$10,801,458 was invested in capital assets, net of related debt; \$2,500,889 was reserved for debt retirement; \$5,831,754 was reserved for incomplete projects; and \$14,045,928 was unrestricted. The unrestricted portion may be used to meet the Parish's ongoing obligations to citizens and creditors in accordance with the Parish's fund designation and fiscal policies.
- Total expenses of governmental activities for all our programs were \$12,766,376 for the year. Of this amount, \$714,699 was provided by program revenues from charges for services; \$2,262,862 from operating grants and contributions; and \$368,175 from capital grants and contributions. Based on the governmental activities of 2005, net assets increased \$3,121,526.
- As of the close of the fiscal year, the Parish's governmental funds reported combined ending fund balances of \$22,226,923. The General Fund accounted for \$2,211,500 of the total with all \$2,211,500 being unreserved and undesignated. Governmental activities reported an overall increase in fund balances of \$645,618. Approximately 62.5% of the total governmental fund balance, or \$14.0 million, is available for spending at the Parish's discretion.
- At December 31, 2005, unreserved fund balance for the General Fund was \$2.2 million, or 106% of total 2005 General Fund expenditures and other financing sources and uses.

**Parish Highlights**

The Parish approved the construction of \$3.0 million of additional 2005 road and bridge improvements and additions, which was financed by the issuance of additional general obligation bonded debt of the same amount.

## OVERVIEW OF THE FINANCIAL STATEMENTS

### Government-Wide Financial Statements

The government-wide financial statements (see Statements A and B) are designed to provide readers with a broad overview of the Parish's finances, in a manner similar to a private-sector business. These statements combine governmental funds' current financial resources with capital assets and long-term obligations. (The prior period infrastructure acquisitions will be included in the future.)

The Parish's government-wide financial statements include a Statement of Net Assets (Statement A) and a Statement of Activities (Statement B), which are prepared using accounting principles that are similar to commercial enterprises. The purpose of the Statement of Net Assets is to report all of the assets held and liabilities owed by the Parish using the full accrual basis of accounting. The Parish reports all of its assets when it acquires ownership over the assets and reports all of its liabilities when they are incurred.

The difference between the Parish's total assets and total liabilities is reported as net assets in the Statement of Net Assets. This difference, the net assets, is similar to the total owners' equity presented by a commercial enterprise. Over time, changes in net assets may serve as a useful indicator of whether the financial position of the Parish is improving or deteriorating. However, the Parish's goal is to provide services to the citizens of St. Martin Parish, Louisiana, not to generate profits as commercial enterprises do. Therefore, other nonfinancial factors, such as the quality of health and welfare services provided to the parish citizens and the condition of roads and bridges, must be considered to assess the overall health of the Parish.

The Statement of Activities (Statement B), presents information showing how the Parish's net assets changed during the fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods. For example, uncollected taxes and earned but unused vacation leave results in cash flows for future periods. The focus of the Statement of Activities is on both the gross and net cost of various activities that are provided by the government's general tax and other revenues. This is intended to summarize information and simplify the user's analysis of cost of various governmental services and/or subsidy to various business-type activities and component units.

Both of the government-wide financial statements distinguish functions of the St. Martin Parish Government that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities reflect the Parish's basic services including public safety (fire), general government (executive, legislative, judicial, finance,

administrative services), streets and drainage, culture and recreation, health and welfare, economic development, and urban redevelopment and housing. These services are financed primarily with taxes. The business-type activities reflect private sector type operations where the fee for service typically covers all or most of the cost of operations including depreciation. The Parish currently has no private sector type activities to report.

The government-wide financial statements can be found on page 17 thru 19 of this report.

#### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The

St. Martin Parish Government, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. The focus is now on major funds, rather than generic fund types. All of the funds of the St. Martin Parish Government can be divided into two categories: governmental funds and agency funds.

**Governmental Funds** are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. The governmental major funds (see Statement C through F) presentation is presented on a sources and uses of liquid resources basis. This is the manner in which the financial plan is typically developed. Unlike the government-wide financial statements, governmental fund financial statements focus on how money flows in and out of those funds; the balances that are left at year end; and the amount available for spending in future periods. These funds are reported using the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash, near-term outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's current financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities*

in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The St. Martin Parish Government maintains fifty-nine individual governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, the District #1 Sales Tax Revenue, the District #1 Sales Tax Construction, and District #2 Sales Tax Construction funds, all of which are considered to be major funds. Data from

the other 55 Governmental funds are combined into a single, aggregated presentation in one column, titled other governmental funds. Combining financial statements of the non-major funds can be found in the other supplementary information section which follows the basic financial statements.

#### **Infrastructure Assets**

General capital assets include land, land improvements, buildings, vehicles, equipment and machinery, infrastructure, and all other assets of a tangible nature that are used in operations and that exceeds the Parish's capitalization threshold, with the exception of prior period infrastructure acquisitions which will be presented in the future. (See Note 1-B). All projects completed and acquisitions occurring in the fiscal year ended December 31, 2005 have been capitalized. Governmental Accounting Standards Board Statement No. 34 allows the Parish a transitional period to December 31, 2006 for reporting infrastructure assets. The Parish has capitalized all purchased capital assets and all donated non-infrastructure general capital assets with the exception of the drainage infrastructure. Donated infrastructure assets (those placed into service through contributions from private development) have not been capitalized in this financial presentation for the years 1980 through 2003. The Parish plans to record all material donated assets within the next two fiscal years.

#### **Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are a required part of the basic financial statements and can be found on pages 32 through 47 of this report.

#### **Other Information**

In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information*, the budgetary comparison schedules. St. Martin Parish Government adopts an annual appropriated budget for all of its governmental funds. During the course of the year, this budget is amended to take into consideration changes that have occurred affecting revenues and expenditures. A statement showing original and final budget compared with actual operating results is provided in the required supplementary information section for the General Fund and each major special revenue fund to demonstrate compliance with this budget. Required supplementary information can be found in Schedules 1 through 2 of this report.

The other supplementary information section referred to earlier in connection with the non-major governmental funds is presented immediately following the required supplementary information in Schedules 3 through 10.

Also included in the report is the Office of Management and Budget A-133 Single Audit Auditor reports, findings and schedules, including the OMB Data

Collection Form. This information can be found under the Single Audit section.

Certain supplementary financial information can be found in Statements 11 and 12 of this report. The supplementary section is included for additional information and analysis and does not constitute a part of the audited financial statements.

Our auditor has provided assurance in the independent auditors' report, located immediately preceding this *Management's Discussion and Analysis*, that the financial statements of the St. Martin Parish Government's primary government are fairly stated. However, because of the omission of all component units, the primary government financial statements do not purport to, and do not present fairly the financial data of the reporting entity of the St. Martin Parish Government in conformity with accounting principles generally accepted in the United States of America. Varying degrees of assurance are being provided by the auditor regarding the required and other supplemental information. A user of this report should read the independent auditors' report carefully to ascertain the level of assurance being provided for each of the other parts in the financial section.

**GOVERNMENT-WIDE FINANCIAL ANALYSIS**

The following table reflects the condensed statement of net assets for 2005, with comparative figures from 2004:

**Table 1**

Total net assets	33,180,029	\$30,058,503

For more detailed information see Statement A, the Statement of Net Assets.

The Parish's combined net assets at year end totaled \$ 33.2 million. Approximately 32.5% (\$ 10.8 million) of the Parish's net assets as of December 31, 2005 reflects the Parish's investment in capital assets (land, buildings, infrastructure, machinery and equipment) less any related outstanding debt used to acquire those assets that is still outstanding. The Parish uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Another 25.1% of the Parish's net assets are subject to external restrictions on how they may be used such as debt service sinking funds and reservations for outstanding capital project contracts. The remaining 42.4% (\$ 14.0 million)

of net assets, referred to as *unrestricted*, may be used to meet the ongoing obligations of the Parish to citizens and creditors.

Capital assets, net of accumulated depreciation, account for \$ 34,650,167 or 59.6% of the total assets. This is reflective of the investment in new and improved facilities funded by a series of bond issues in recent years. This is further highlighted by the fact that \$23,696,192 or 95.0% of the Parish's liabilities, represents long-term debt.

Table 2 below provides a summary of the changes in net assets for the year ended December 31, 2005, with comparative figures from 2004:

Net assets, December 31	<u>\$ 33,180,029</u>	<u>\$ 30,058,503</u>

The Parish's total revenues were \$ 15.9 million and the total cost of all programs and services was \$ 12.8 million. Therefore, net assets increased \$3.1 million for the year. Our analysis below more concisely describes the operations of governmental activities.

*Governmental Activities* net assets increased by \$3.1 million in 2005. The cost of all governmental activities this year was \$12.8 million. As shown in the Statement of Activities in Exhibit B, the amount that our taxpayers financed was \$9.4 million because some of the cost was paid by those who directly benefited from the programs (\$.7 million) or by other governments and organizations that subsidized certain programs with grants and contributions (\$2.6 million). Program revenues only covered 26% of total costs. The remainder was paid with taxes and other revenues, such as investment earnings and unrestricted grants and contributions.

The Parish's largest program in governmental activities is public works, with more than \$ 3.6 million of resources applied thereto. Following that are general government, health and welfare and public safety.

#### **FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS**

As noted earlier, the Parish uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds:** The focus of the Parish's governmental funds is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the Parish's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the fiscal year, the Parish's governmental funds reported combined ending fund balances of \$ 22.2 million, an increase of \$.6 million in comparison with the prior year. Approximately 62.5% of this total amount (\$14.0 million) constitutes unreserved fund balance, which is available for spending at the Parish's discretion. The remainder of fund balance is reserved to indicate that it is not available for new spending because it has already been committed to: (1) payment of debt service (\$.2.5 million), (2) construction contracts (\$5.8 million).

The General Fund is the chief operating fund of the St. Martin Parish Government. At the end of the fiscal year, total fund balance of the General Fund was \$ 2.2 million, all of which was unreserved. Compared with total fund balance of \$ 2.3 million at the end of 2004, fund balance decreased approximately \$.1 million during 2005.

#### GENERAL FUND BUDGETARY HIGHLIGHTS

The Parish's budget is prepared according to Louisiana law. During the course of the year, the Parish amended its budget to take into consideration significant changes in revenues or expenditures. Louisiana Revised Statute 39:1311 requires a budget amendment if anticipated revenues are less than budgetary goals by five percent (5%) or more or anticipated expenditures are in excess of budgetary goals by five percent(5%) or more.

A budgetary comparison schedule showing the Parish's originally adopted budget and the final amended budget compared with actual results for all major funds is provided in the report that follows. The Parish's year end actual results were better than budgeted, as conservative budgetary practices are customary. Revenues are forecasted conservatively and expenditures are budgeted in anticipation of all possible costs and projects.

#### CAPITAL ASSET AND DEBT ADMINISTRATION

**Capital Assets:** The St. Martin Parish Government's investment in capital assets for its governmental and activities as of December 31, 2005 amounts to \$ 34.6 million (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, machinery and equipment, and roads and highways.

Table 3

ST. MARTIN PARISH GOVERNMENT  
Capital Assets  
(Net of Depreciation)  
December 31, 2005 and 2004

	2005	2004
Land	\$ 1,623,465	\$ 1,623,465
Buildings and improvement	9,476,054	9,615,991
Equipment	4,652,564	4,701,535
Infrastructure	17,314,619	12,474,073
Construction in progress	<u>1,583,465</u>	<u>2,122,730</u>
Total	<u>\$ 34,650,167</u>	<u>\$ 30,537,794</u>

During the year \$4.9 million of capital assets were added. Depreciation for the year ended December 31, 2005, was \$1,384,595. Construction and renovation projects will continue during the 2006 fiscal year which will be funded by the sales taxes and bonds approved by the voters. Major capital asset events during the current fiscal year included the completion of major segments of the ongoing road construction project. Construction in process at this time includes expenditures incurred for the parishwide road improvement project, and the Cade Community Center project.

**Long-term Debt:** At the end of the current fiscal year, the Parish had total bonded debt outstanding of \$22.6 million. The following table details the total outstanding governmental debt of the Parish.

Table 4

ST. MARTIN PARISH GOVERNMENT  
 Summary of Outstanding Debt at Year-end  
 December 31, 2005 and 2004

	2005	2004
Capital Lease Obligations	\$ 1,023,470	\$ 1,101,806
Compensated Absences	46,555	47,910
General obligation bonds	21,192,000	19,273,000
Certificates of indebtedness	1,434,167	1,539,167
Intergovernmental payables	0	15,000
Total all notes and bonds	<u>\$ 23,696,192</u>	<u>\$ 21,976,883</u>

The St. Martin Parish Government's total bonded debt increased during the year by \$1.8 million. This is a result of the issuance of \$3.4 million in general obligation bonds to be used for continuing improvements to the parish road system and the refinancing of existing debt to improve cash flow and take advantage of lower interest rates.

As of December 31, 2005, Parish bonds are rated by Standard and Poors as BBB+.

Computation of the legal debt margin for general obligation bonds is as follows:

Ad Valorem Taxes:

Assessed Valuation	<u>\$ 211,785,659</u>
--------------------	-----------------------

Debt Limit: 35% of Assessed Valuation (for any one purpose)	\$ 74,124,980
--	---------------

Debt Outstanding by purpose:

Road Improvements	\$ 18,777,000
Economic Development	\$ 329,167
General Government	\$ 210,000
Culture & Recreation	\$ 2,870,000
Public Safety	\$ 440,000

The Louisiana Revised Statutes limit the Parish's bonded debt for any one purpose to 10% of the assessed valuation of the taxable property and 35% for all purposes.

### **ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES**

The following factors were considered when preparing the fiscal year 2006 budget:

- The Parish's ad valorem tax levies are the major revenue sources, making up 28.4% of total revenues. The historical trend for the Parish ad valorem tax has continued to be positive. Sales tax levies are anticipated to make up approximately 16% of next year's total revenues budgeted. Next year's budget reflects anticipated collections from sales tax levies in the amount of \$ 1.5 million for the District #1 sales tax and \$ 0.3 million for the District #2 sales tax.

These indicators were taken into account when adopting the General Fund budget for 2005. Amounts available for appropriation in the General Fund budget are \$ 2.2 million, a decrease of \$ 0.1 million over the final 2005 budget, which is virtually unchanged from 2005 levels.

If budget estimates are met, the Parish's budgetary General Fund balance is expected to decrease by \$ 99 thousand by the close of 2006.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET  
TO THE STATEMENT OF NET ASSETS  
December 31, 2005

Total fund balances-governmental funds	\$22,226,923
--	--------------

The cost of capital assets (land, buildings, furniture and equipment, and infrastructure) purchased or constructed is reported as an expenditure in the governmental funds. The Statement of Net Assets includes these capital assets among the assets of the Parish Government as a whole. The cost of these capital assets is allocated over their estimated useful lives (as depreciation expense) to the various programs reported as governmental activities in the Statement of Activities. Because depreciation expense does not affect financial resources, it is not reported in governmental funds.

Cost of capital assets	\$44,653,785
Accumulated depreciation	<u>(10,003,618)</u>
Net capital assets	34,650,167

Bond issue costs which are reported as expenditures in the year incurred in the governmental funds are deferred and amortized in the Statement of Activities. Bond issue costs, net of accumulated amortization at year-end total \$198,203.	198,203
--	---------

Long-term liabilities applicable to the Parish Government's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities-both current and long term-are reported in the Statement of Net Assets.

Bonds payable	\$ (22,626,167)

RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES,

TO THE STATEMENT OF ACTIVITIES  
Year ended December 31, 2005

Net change in fund balances-total governmental funds \$ 645,618

Governmental funds report capital outlays as expenditures,  
However, in the Statement of Activities, the cost of these  
assets is allocated over their estimated useful lives as  
depreciation expense. This is the amount by which  
capital outlay expenditures exceeded depreciation expense  
in the current period.

Capital outlay expenditures	\$ 5,496,968
Depreciation expense	<u>(1,384,595)</u>
Excess of depreciation over capital outlays	4,112,373

In the Statement of Activities, compensated absences are  
measured by the amounts earned during the year. In  
governmental funds, however, expenditures for these items  
are measured by the amount of financial resources used  
(essentially the amounts actually paid). In the current  
year, vacation and sick time used exceeded the amounts  
earned by \$1,354.

1,354

In the Statement of Activities some expenses do not require  
the use of current financial resources and therefore are  
not reported as expenditures in the governmental funds.

The prior year accrued interest payable amount of  
\$(258,252) exceeded the current year payable amount of  
\$(199,072) by \$59,180.

59,180

The amount of bond issue cost amortization expense  
recorded in the Statement of Activities \$(23,900)  
exceeded the amount of bond issue costs for the  
current year recognized as expenditures in the  
governmental funds \$(47,567) by \$23,667.

## AGENCY FUNDS

### **Deferred Compensation Fund**

The Deferred Compensation Fund accounts for the contributions and withdrawals by parish employees who participate in the deferred compensation plan created and organized in accordance with Internal Revenue Service Code Section 457. The plan is administered by a third party-Nationwide Retirement Solutions. The plan, which is available to all employees, permits employees to defer the income tax on a portion of their salaries until future years.

**NOTES TO BASIC FINANCIAL STATEMENTS**

**ST. MARTIN PARISH GOVERNMENT  
ST. MARTINVILLE LOUISIANA**

Notes to the Basic Financial Statements  
As of and for the Year Ended December 31, 2005

**NOTE 1-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The St. Martin Parish Government is the governing authority for St. Martin Parish and is a political subdivision of the State of Louisiana. The Parish Government is comprised of a parish president and a parish council made up of nine (9) members who represent the various districts within the parish. The parish councilmen serve four-year terms that expire in January of 2008.

Louisiana Revised Statute 33:1236 gives the Parish Government various powers in regulating and directing the affairs of the parish and its inhabitants. The more notable of those are the power to make regulations for its own government; to regulate the construction and maintenance of roads, bridges, and drainage systems; to regulate the sale of alcoholic beverages; and to provide for the health and welfare of the poor, disadvantaged, and unemployed in the parish. Funding to accomplish these tasks is provided by ad valorem taxes, sales taxes, beer and alcoholic beverage permits, state revenue sharing, and various other state and federal grants.

In accomplishing its objectives, the Parish Government also has the authority to create special districts (component units) within the parish. The districts perform specialized functions, such as fire protection, library facilities and healthcare facilities.

Except for the omission of all component units from the financial statements, as more fully described below, the accompanying financial statement of the Parish Government have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the Parish Government are described below:

**A. REPORTING ENTITY**

As the governing authority of the parish, for reporting purposes, the St. Martin Parish Government is the financial reporting entity for St. Martin Parish. The financial reporting entity consists of (a) the primary government (Parish Government), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board (GASB) Statement No. 14 establishes criteria for determining the governmental reporting entity and component units that should be considered part of the St. Martin Parish Government for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. The criteria includes:

1. Appointing a voting majority of an organization's governing body, and:
  - a The ability of the Parish Government to impose its will on that organization and/or
  - b The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the Parish Government.
2. Organizations for which the Parish Government does not appoint a voting majority but are fiscally dependent on the Parish Government.
3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Based on the previous criteria, the Parish Government has determined that the following component units are part of the reporting entity:

Component Unit	Fiscal Year Ended	Criteria Used
St. Martin Parish Library	December 31	1 and 3
St. Martin Parish Water and Sewerage Commission No. 1	December 31	1 and 3
St. Martin Parish Hospital Service District No. 2	December 31	1 and 3
St. Martin Parish Water and Sewerage District No. 3	December 31	1 and 3
St. Martin parish Waterworks District No. 4	June 30	1 and 3
St. Martin Parish Economic Development Authority	June 30	1 and 3

The Parish government has chosen to issue financial statements of the primary government only; therefore, none of the previously listed component units are included in the accompanying statements. Separate financial statements for each of these component units can be obtained by contacting the component unit.

GASB Statement No. 14 provides for the issuance of primary government financial statements that are separate from those of the reporting entity. However, the primary government's financial statements are not a substitute for the reporting entity's financial statements. The accompanying primary government financial statements have been prepared in conformity with generally accepted accounting principles as applied to governmental units. These financial statements are not intended to and do not report on the reporting entity, but rather are intended to reflect only the financial statements of the primary government (Parish Government).

Considered in the determination of component units of the reporting entity were the St. Martin Parish Sheriff, the St. Martin Parish Assessor, the St. Martin Parish Clerk of Court, the St. Martin Parish School Board and the various municipalities in the parish. It was determined that these governmental entities are not component units of the St. Martin Parish Government reporting entity because they have separately elected governing bodies, are legally separate and are fiscally independent of the St. Martin Parish Government.

## **B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessment receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

### **C. FUND ACCOUNTING**

The Parish Government uses funds account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain government functions or activities. The minimum number of funds maintained by the Parish Government is consistent with legal and managerial requirements.

A fund is an independent fiscal and accounting entity with a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity, revenues, and expenditures. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the restrictions, if any, on the spending activities.

The basic financial statements of the St. Martin Parish Government include both government-wide (reporting the primary government of the Parish Government as a whole) and fund financial statements (reporting the Parish Government's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. The Parish Government's public safety, culture and recreation, public works, and general administrative services are classified as governmental activities. The Parish Government does not have any business-type activities.

### **D. GOVERNMENT-WIDE FINANCIAL STATEMENTS**

The government wide financial statements include a Statement of Net Assets and Statement of Activities. These statements report financial information about the primary government of the Parish. In the process of aggregating data for the Statement of Net Assets and the Statement of Activities some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivable and payables were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities within the governmental activities column.

In the Statement of Net Assets the governmental type activities column (1) is presented on a consolidated basis by column, and (2) is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Parish Government's net assets are reported in three parts: (1) invested in capital assets, net of related debt – consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets; (2) restricted net assets—consists of net assets with constraints placed on the use either by (a) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or (b) law through constitutional provisions or enabling legislation; and (3) unrestricted net assets –all other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt". The Parish Government first utilizes restricted resources to finance qualifying activities.

The Statement of Activities reports the expenses of a given function offset by program revenues, directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses associated with a distinct functional activity. Program revenues include: (1) charges for services which report fees, fines, and forfeitures, and other charges to users of the Parish Government's services; (2) operating grants and contributions which finance annual operating activities including restricted investment income; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets and include fees to developers. Taxes and other revenue sources not properly included with program revenues are reported as general revenues.

The Parish Government reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Depreciation expense is specifically identified by function and is included as a direct expense of each function. Interest on long-term debt is considered an indirect expense and is reported separately on the Statement of Activities. An administrative service fee is charged by the General Fund to the other operating funds to recover the direct costs of General Fund services provided (finance, personnel, purchasing, legal, technology management, etc.). An elimination is made to remove the service fee transactions from the reported revenue and expense.

This government-wide focus is more on the sustainability of the Parish Government as an entity and the change in the Parish Government's net assets resulting from the current year's activities.

### **E. FUND FINANCIAL STATEMENTS**

Fund financial statements are provided for governmental funds. The emphasis of fund financial statements is on major individual governmental funds, each reported in a separate column. All remaining governmental funds are aggregated and reported as non-major funds.

The Parish Government reports the following major governmental funds:

General Fund – used to account for all financial resources traditionally associated with governments that are not required to be accounted for in another fund.

District No. 1- Sales Tax – accounts for the receipt and expenditure of tax monies derived from the Parish Government's 1% sales and use tax assessed within the unincorporated areas of St. Martin Parish, excluding those areas located within the confines of District 2 of St. Martin Parish, Louisiana.

District No. 2- Construction Fund – used to account for capital improvements financed by the proceeds of the District No. 2 sales tax.

District No. 1 Construction Fund – used to account for capital improvements financed by the proceeds of the District No. 1 sales tax.

#### **F. CASH AND INTEREST BEARING DEPOSITS**

The Parish Government's cash and interest bearing deposits are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. State law and the Parish Government's investment policy allow the Parish Government to invest in collateralized certificates of deposits, government back securities, commercial paper, the state sponsored investment pool, and mutual funds consisting solely of government backed securities. Investments for the Parish Government, are reported at cost, which approximates fair market value.

#### **G. SHORT-TERM INTERFUND RECEIVABLES/PAYABLES**

During the course of operations, numerous transactions occur between individual funds for goods and services rendered. These receivables and payables are classified as due from other funds or due to other funds on the balance sheet. Short-term interfund loans are classified as interfund receivables/payables.

#### **H. PREPAID ITEMS**

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

#### **I. CAPITAL ASSETS AND DEPRECIATION**

The accounting treatment over property, plant, and equipment (fixed assets) depends on whether the assets are reported in the government-wide or fund financial statements.

Government-wide financial statements:

The Parish Government's property, equipment, and infrastructure with useful lives of more than one year are stated at historical costs and comprehensively reported in the government-wide financial statements as capital assets. The Parish Government maintains a threshold level of \$1,000 or more for capitalizing capital assets. Donated assets are stated at fair value at the date donated. The Parish Government has no donated assets. The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized. Capital assets are depreciated using the straight-line method. When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is recorded in operations. Estimated useful lives, in years, for depreciable assets are as follows:

Description	Estimated Lives
Roads, bridges, and infrastructure	20-50 years
Land improvements	20-30 years
Buildings and building improvements	10-40 years
Furniture and fixtures	5-15 years
Vehicles	5-15 years
Equipment	5-15 years

Fund financial statements:

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures of the government fund upon acquisition.

**J. COMPENSATED ABSENCES**

Employees of the parish government accrue unlimited amounts of annual and sick leave at varying rates according to years of service. Upon termination or resignation, unused annual leave up to a maximum of \$ 800 is paid to the employee at the employee's current rate of pay; however, all unused sick leave is forfeited. Upon retirement, all unused annual leave and a portion of unused sick leave (per formula of the Parochial Employees Retirement System) are used in the retirement benefit computation as earned service.

In the government-wide financial statements, the Parish Government accrues accumulated unpaid annual and sick leave and associated related costs when earned (or estimated to be earned) by the employee. At December 31, 2005, employees of the Parish Government have accumulated and vested \$ 46,555 of compensated absence benefits, which are recorded as a current liability in the government-wide financial statements. In accordance with GASB Interpretation No. 6, Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements, no compensated absences liability is recorded in the governmental fund financial statements.

**K. DEFERRED REVENUES**

Deferred revenues arise when potential revenues do not meet both the "measurable" and "available" criteria for recognition in the current period. In subsequent periods, when both revenue recognition criteria are met the liability for deferred revenues is removed and the revenues are recognized.

**L. LONG TERM OBLIGATIONS**

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**M. FUND EQUITY**

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

**N. INTERFUND TRANSFERS**

Quasi-external transactions are accounted for as revenues and expenditures. Transactions that constitute reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed. Legally authorized interfund transactions, except quasi-external transactions and reimbursements, are treated as operating transfers and are included in the results of operations.

**O. ESTIMATES**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

## P. BUDGETS AND BUDGETARY ACCOUNTING

Budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP). The budget is employed as a management control device during the year that assists its users in financial activity analysis. All budget appropriations lapse at year end. The budgets presented are the originally adopted budget and the final amended budget. Actual amounts may not vary more than 5% from the final amended budget at the individual fund level.

## NOTE 2-SALES AND USE TAXES

The St. Martin Parish Government is authorized and has levied the following sales and use taxes:

May 1, 1999 – 1%

District #2 Sales and Use Tax-To be used for the maintenance of roads, bridges, drainage and recreation facilities within District #2 of St. Martin Parish, Louisiana.

October 1, 2002 – 1%

District #1 Sales and Use Tax-To be used for the maintenance of roads, bridges and drainage facilities in all unincorporated areas of St. Martin Parish, Louisiana, exclusive of District #2.

## NOTE 3-PROPERTY TAXES

The following is a summary of ad valorem taxes levied for the year 2005

2005 Levied Millage

Parish-wide taxes:

Parish	3.84
Road Maintenance	4.26
Courthouse	2.05
Drainage	6.05
Recreation & Operation	1.20
Fire Protection	5.60
Health Unit	3.07
Industrial Park	1.78
Bond Sinking Fund	4.50

District taxes:

Sub-Road Dist. No. 1 of Road Dist. No. 1 Maintenance	6.27
Sub-Road Dist. No. 3 of Road Dist. No. 1 Maintenance	5.19
Road Dist. No. 2 Maintenance	13.00
Recreation Dist. No. 1: Maintenance	2.50
Recreation Dist. No. 1: Bonds	4.00

Details of the parish's tax calendar are as follows:

Lien Date:	January 1, (Subsequent Year)
Levy Date:	September 1, (Current Year)
Due Date:	December 31, (Current Year)
Collection Date:	On or prior to December 31, (Current Year)

Total taxes levied for 2005 were \$ 4,933,769. Ad valorem tax receivables as of December 31, 2005 were \$ 4,514,399.

Historically, virtually all ad valorem taxes receivable were collected since they are secured by property; therefore, no allowance for doubtful accounts has been established for ad valorem taxes.

## NOTE 4-CASH AND CASH EQUIVALENTS

At December 31, 2005, the Parish Government has cash and cash equivalents (book balances) totaling \$ 17,475,636 as follows:

Demand deposits	\$ 10,697,636
Time deposits	<u>6,778,000</u>
Total	<u>\$ 17,475,636</u>

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

At December 31, 2005, the Parish Government has \$ 17,862,707 in deposits (collected bank balances). These deposits are secured from risk by \$ 400,000 of federal deposit insurance and \$ 25,735,540 of pledged securities held by the custodial bank in the name of the fiscal agent bank (GASB Category 3).

Even though the pledged securities are considered uncollateralized (Category 3) under the provisions of GASB Statement 3, R.S. 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the Parish Government that the fiscal agent has failed to pay deposited funds upon demand.

at Dec. 31, 2005	\$ 0	\$ 46,555	\$ 1,023,470	\$ 22,626,167	\$ 23,696,192

Compensated absences payable consists of the portion of accumulated sick leave of the governmental funds that is not expected to require current resources. The liability for compensated absences is computed only at the end of the fiscal year; the decrease of \$ (1,355) reflected above as a reduction to compensated absences is the net of leave benefits paid and accrued.

The parishwide general obligation bonds are payable from the Parishwide Bond Sinking Fund (debt service fund), while the road district general obligation refunding bonds are payable from the respective road district debt service funds.

Long-term bonded debt is comprised of the following individual issues at December 31, 2005.

Total	<u>\$ 22,626,167</u>	<u>\$ 8,741,776</u>	<u>\$ 31,367,943</u>

General obligation bonds are secured by an annual ad valorem tax levy. The Parish Government is in compliance with the requirements of Louisiana Revised Statute 39:562 relating to the legal restrictions on incurring long-term bonded debt in relation to the assessed value of taxable property in the parish.

#### **NOTE 9-DEFEASANCE OF DEBT**

On August 23, 2005, the St. Martin Parish Government issued \$373,000 of Refunding Bonds, Series 2005, with an interest rate of 3.45% for the purpose of refunding \$ 365,000 of outstanding Series 1995 Road Dist. Bonds, maturing February 1, 2006 thru February 1, 2010, inclusive, bearing interest at 6.30%. The proceeds were used to call the outstanding Series 1993 Road Dist. Bond principal of \$ 365,000 plus accrued interest of \$1,405.25 thru the call date of August 23, 2005. The St. Martin Parish Government decreased its total debt Service payments over five years by \$20,060, and obtained an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$18,277.

#### **NOTE 10-RETIREMENT SYSTEMS**

**Plan Description:** Substantially all employees of the Parish Government are members of the Parochial Employees' Retirement System of Louisiana (the "System"), a cost-sharing, multiple-employer public employee retirement system (PERS), controlled and administered by a separate Board of Trustees. The System is composed of two distinct plans, Plan A and Plan B, with separate assets and benefit provisions. Employees of the Parish Government are members of Plan A.

All permanent employees working at least 28 hours per week who are paid wholly or in part by the Parish Government and all elected parish officials are eligible to participate in the System. Under Plan A, employees who retire at or after age 60 with at least 10 years of creditable service, at or after age 55 with at least 25 years of creditable service, or at any age with at least 30 years of creditable service are entitled to a retirement benefit, payable monthly for life, equal to 3% of their final compensation multiplied by the employee's years of creditable service. However, for those employees who were members of the supplemental plan only prior to January 1, 1980, the benefit is equal to 1% of final compensation, plus \$24, for each year of service credited prior to January 1, 1980, and 3% of final compensation for each year of service credited after January 1, 1980. Final compensation is the employee's monthly earnings during the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least the amount of creditable service stated previously and who do not withdraw their employee contributions, may retire at the ages specified previously and receive the benefit accrued to their date of termination. The System also provides death and disability benefits. Benefits are established by State statute.

The Parochial Employees' Retirement System issues a publicly available report that includes financial statements and required supplemental information. That report may be obtained by writing to Parochial Employees' Retirement System, Post Office Box 14619, Baton Rouge, Louisiana 70898-4619.

**Funding Policy:** Contributions to the System include  $\frac{1}{4}$  to 1% of the amount of the tax shown to be collectible by the tax roll of St. Martin Parish. These tax dollars are divided between Plans A and B, based proportionately on the salaries of the active members of each Plan.

Under Plan A, members are required by State statute to contribute 9.5% of their annual covered salary and the Parish Government is required to contribute at an actuarially determined rate. The current employer contribution rate is 12.75% of annual covered payroll. The contribution requirements of Plan members and the Parish Government are established and may be amended by the System's Board of Trustees. The Parish Government's contributions to the System under Plan A for the years ended December 31, 2005, 2004, and 2003, were approximately \$235,387, \$322,830, and \$ 296,734, respectively, equal to the required contributions for each year.

#### **NOTE 11-CHANGES IN AGENCY FUNDS**

The Parish offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. A third party, Nationwide Retirement Solutions, administers the plan. The plan, which is available to all employees, permits employees to defer a portion of their salaries until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

The deferred compensation liability and asset are equal to the total cash balances for each participant's account as of December 31, 2005. The Parish has no liability for losses under the plan, but does have the duty of due care that would be required of an ordinary prudent investor. The Parish intends to honor its moral obligation to the participants implicit in the program. Investments under the plan total \$833,454. The plan is accounted for by the Parish as an agency fund.

A summary of changes in agency fund assets and liabilities for the year ended December 31, 2005 is as follows:

#### NOTE 14-RISK MANAGEMENT

The Parish Government is exposed to risks of loss in the areas of health care, workers' compensation, general and auto liability, and property hazards. These risks are handled by purchasing commercial insurance. There have been no significant reductions in these insurance coverages during the current fiscal year, nor have settlements exceeded insurance coverage for the current or prior two fiscal years.

#### **NOTE 15-PENDING LITIGATION AND CONTINGENT LIABILITIES**

At December 31, 2005, the Parish Government is involved as a defendant in several lawsuits. In the opinion of management and legal counsel for the Parish Government, there is adequate insurance coverage on all cases where monetary damages are sought, and that these suits will not have an adverse material effect on the Parish Government's financial position. Due to the uncertain nature of these claims, in the opinion of legal counsel, no accurate estimate of the possible aggregate loss to be born by the parish government is possible. Claims and litigation cost of \$154,589 were incurred in the current year, and have been recorded as a current expenditure in the property/casualty/risk management fund.

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Parish Government expects such amounts, if any, to be immaterial.

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To Mr. Guy Cormier, Parish President  
and the Members of the St. Martin  
Parish Council  
St. Martinville, Louisiana

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the St. Martin Parish Government as of December 31, 2005 and for the year then ended, which collectively comprise the basic financial statements of the St. Martin Parish Government's primary government, and have issued our report thereon dated August 11, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

### Compliance

As part of obtaining reasonable assurance about whether the St. Martin Parish Government's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance that are required to be reported under *Government Auditing Standards*.

### Internal Control Over Financial Reporting

In planning and performing our audit, we considered the St. Martin Parish Government's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be a material weakness. A material weakness is a reportable

condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of management, the Legislative Auditor, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To Mr. Guy Cormier, Parish President  
and the Members of the St. Martin  
Parish Council  
St. Martinville, Louisiana

### Compliance

We have audited the compliance of the St. Martin Parish Government with the types of compliance requirements described in the *U. S. Office of Management and Budget(OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal programs for the year ended December 31, 2005. The major federal programs of the St. Martin Parish Government are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of the St. Martin Parish Government's management. Our responsibility is to express an opinion on the St. Martin Parish Government's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the provisions of *Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Nonprofit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the St. Martin Parish Government's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the St. Martin Parish Government's compliance with those requirements.

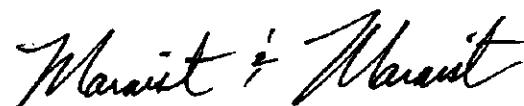

In our opinion, the St. Martin Parish Government complied, in all material respects, with the requirements referred to above that are applicable to its major federal programs for the year ended December 31, 2005.

Internal Control Over Compliance

The management of the St. Martin Parish Government is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the St. Martin Parish Government's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of management, the Legislative Auditor, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.
