## INDEPENDENT AUDITORS' REPORT

To the Board of Trustees of  
University of Louisiana  
at Lafayette Foundation, Inc.  
Lafayette, Louisiana

We have audited the accompanying financial statements of the University of Louisiana at Lafayette Foundation, Inc. (a nonprofit organization), which comprise the statements of financial position as of June 30, 2021 and 2020 and the related statements of activities and cash flows for the years then ended, and the related notes to financial statements.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the University of Louisiana at Lafayette Foundation, Inc. as of June 30, 2021 and 2020 and the respective changes in its net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Other Information*

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The schedule of compensation, benefits and other payments to agency head on page 34 and schedule of revenues and expenses of intercollegiate athletics program on pages 35 and 36 are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

## **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued a report dated November 1, 2021 on our consideration of the Foundation's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Foundation's internal control over financial reporting and compliance.

NOTES TO FINANCIAL STATEMENTS

Note 1. Nature of Organization and Significant Accounting Policies

Nature of organization:

The University of Louisiana at Lafayette Foundation, Inc. (the "Foundation") is a nonprofit corporation organized to promote the educational, social, moral and material welfare of the University of Louisiana at Lafayette (the "University") and to receive scholarships, gifts, donations, devices and bequests of money and real and personal properties to become a part thereof, and to invest, care for, manage and control all monies and properties so received, and to disburse the same, and the income therefrom, as the donors may direct, or if case specific directions are not given, then to such uses as the Board of Trustees of the Foundation may determine, in aid of any of the activities, institutions, interests, purposes and objects of the University. The Ragin' Cajuns Athletic Foundation operates as a supporting organization for the benefit of the Foundation. As a result, the entities are financially interrelated and all financial activity is recorded in the financial statements.

Significant accounting policies:

Basis of accounting -

The financial statements of the Foundation have been prepared on the accrual basis of accounting.

Contributions and recognition of donor restricted contributions -

All contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Amounts received that are for future periods or restricted by the donor for specified purposes are reported as contributions with donor restrictions that increases that net asset class. When a donor restriction expires, when a time restriction ends and/or a purpose restriction is fulfilled, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions.

Contributions of noncash assets, including artworks, are recognized at their estimated fair market values at the date of the donation within the statement of activities and capitalized within the statements of financial position. These contributions are reported as a contribution with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. Substantially, all artworks are considered without donor restrictions by the Foundation. When a donor restriction expires, that is, when some stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions.

## NOTES TO FINANCIAL STATEMENTS

### Use of estimates -

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

### Cash and cash equivalents -

Cash and cash equivalents represent demand deposits and certificates of deposit with original maturities of three months or less. Certain cash and cash equivalents are restricted as to use based on donor stipulations or contractual conditions. Cash invested in donor endowments amounted to \$14,528,530 and \$15,263,441 as of June 30, 2021 and 2020, respectively.

### Derivative instruments –

The Foundation has investments in derivative instruments, which have not been designated as hedges. A derivative financial instrument is a financial instrument whose values are derived in whole or in part from the value of any one or more underlying assets or index of asset values. Derivative instruments are recorded at fair value.

### Contributions receivable –

Unconditional promises to give are recognized as revenues in the period received and as assets, decreases in liabilities, or expenses depending upon the form of the benefits received. Conditional promises to give are recognized only when the conditions on which they depend are substantially met and the promises become unconditional. Contributions to be received in one year or less are reported at net realizable value. Contributions to be received after one year, net of an allowance for uncollectible amounts, are initially reported at fair value, estimated by discounting them to their present value. Thereafter, amortization of discounts is recorded as additional contribution revenue. An allowance for uncollectible contributions receivable is provided based upon management's judgment, considering such factors as prior collection history, type of contribution, relationship with donor, and other relevant factors.

### Other receivables –

Other receivables consists primarily of amounts due as matching contributions for the endowed chair and professorship program.

### Investments -

In accordance with generally accepted accounting principles, all investments in marketable securities, debt securities and hedge funds are reported at their estimated fair values in the statement of financial position. Unrealized gains and losses are included in the change in net assets. Investment income, gains and losses restricted by a donor are reported as changes in net assets with donor restrictions.

### Concentrations of credit risk -

Financial instruments which subject the Foundation to concentrations of credit risk consist primarily of investments in long-term corporate and governmental fixed income instruments; equity holdings of

## NOTES TO FINANCIAL STATEMENTS

domestic and international corporations; mutual funds that invest in various marketable securities; derivatives and various hedge funds. The hedge funds hold various investments which include but are not limited to corporate and government fixed income securities, corporate equities (both long and short positions), mutual funds, futures contracts, forward contracts, option contracts, physical commodities, distressed securities, real estate, swaps and other derivative products and other capital market instruments. In addition, the Foundation typically maintains cash and cash equivalents and temporary investments in local banks which may, at times, exceed the Federal Deposit Insurance Corporation (FDIC) limits.

Contributions receivable and substantially all donations are derived from local donors in Southern Louisiana.

As of June 30, 2021, two donors make up 79.43% of the contribution receivable balance and 78% of the total contribution revenue for the year ended.

### Tax status -

The Foundation is a Louisiana nonprofit corporation established in 1955. It is exempt from Federal income taxes under Section 501(c)(3) of the Internal Revenue Code; accordingly, no provision for income taxes has been made in the financial statements.

The Foundation has evaluated its tax positions for all open tax years. Currently, the tax years open and subject to examination by the Internal Revenue Service are the 2017, 2018 and 2019 tax years. However, the Foundation is not currently under audit nor has the Foundation been contacted by any jurisdiction.

Based on the evaluation of the Foundation's tax positions, management believes all tax positions taken would be upheld under an examination. Therefore, no provision for the effects of uncertain tax positions have been recorded for the fiscal year ended June 30, 2021 and 2020.

### Property and equipment -

Purchased property and equipment are stated at cost. Depreciation is computed on the straight-line method over the estimated useful lives of the assets. The cost of repairs and maintenance are charged to expense when incurred.

Donations of property and equipment are recorded as support at their estimated fair market value at the date of donation. Such donations are reported as support without donor restrictions unless the donor has restricted the donated asset to a specific purpose. Assets donated with explicit restrictions regarding their use are reported as support with donor restrictions.

### Artworks -

Collection items consist of artwork that are held for educational purposes. Collection items are acquired either through purchase or donation are capitalized. The proceeds from deaccession of collection items may be used for acquisitions of new collection items, the direct care of existing collections, or at the discretion of the Foundation. The Foundation considers direct care to entail actions that enhance the life, usefulness, or quality of the collection items to ensure they will continue to benefit the public.

## NOTES TO FINANCIAL STATEMENTS

### Real estate -

Real estate held for investment purposes is recorded at fair market value on the date donated.

### Charitable giving through life insurance -

In 1985, the Foundation instituted a "Charitable Giving Through Life Insurance Program" in which whole-life insurance policies are purchased on the lives of individuals, with their permission, with proceeds upon death inuring to the Foundation. The cash surrender value of these policies is recognized within the statements of financial position as other assets. Changes in the cash surrender value are recognized as other income in the financial statements.

### Refundable advances -

The Foundation received conditional contributions that are deemed refundable until all the conditions have been met. For the years ended June 30, 2021 and 2020, the Foundation had outstanding refundable advances of \$3,733,333 and \$ - 0 -, respectively.

### Funds held in custody -

The Foundation considers all state matched funds and the proportionate share of income generated and expenses paid from the endowments for chairs and professorships, first generation and superior graduate student scholarships as funds held in custody.

### Revenue recognition

Revenue is recognized when earned. Contribution revenue is recognized when cash, securities or other assets, or an unconditional promises to give is received. Conditional promises to give, that is, those with a measurable performance or other barrier and a right of return, are not recognized until the conditions on which they depend have been met. Contributions of assets other than cash are recorded at their estimated fair value on the date of contribution.

### Other income -

Revenues without donor restrictions are obtained from rental income, administrative fees and the change in cash value of life insurance policies. These revenues are recorded when the service is provided.

### Employee benefit plans -

Effective January 1, 1991, the Foundation established a 403(b) plan to provide retirement benefits for employees. Any employee over the age of 21 is automatically enrolled after 90 days. Participants may contribute to the plan by deferring a portion of their gross salary, within certain IRS imposed limitations for maximum contributions in a given year. The Foundation will match up to 100% of the participant's first 4% of contributions. The amount included in expense for the years ended June 30, 2021 and 2020 was \$40,900 and \$30,337, respectively.

## NOTES TO FINANCIAL STATEMENTS

Effective December 1, 2017, the Foundation established a 457(b) deferred compensation plan for eligible employees. The Foundation makes non elective deferrals to this plan of 1% to 5% of eligible employee compensation. Total contributions to this plan for the years ended June 30, 2021 and 2020 amounted to \$1,027 and \$1,325, respectively.

### Functional allocation of expenses -

The costs of providing the various programs and other activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated between the program and supporting services benefited.

### Adopted accounting pronouncements:

The Financial Accounting Standards Board (FASB) issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)* as amended by ASU 2015-14, *Revenue from Contracts with Customers (Topic 606) – Deferral of the Effective Date*. This ASU is a comprehensive new revenue recognition standard that will supersede nearly all existing revenue recognition guidance under U.S. GAAP. The core principle of this ASU is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services. In order to achieve this, revenue streams are evaluated using a five-step process. This ASU was effective for non-public business entities for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019, however, on May 20, 2020, the FASB extended the required implementation period to fiscal years beginning after December 15, 2019. The Foundation adopted this new standard on July 1, 2020. The impact of adopting the standard has not resulted in a material change in accounting treatment for the Foundation's revenue streams. The adoption of the standard did not result in a cumulative-effect adjustment to beginning net assets.

In March 2019, the FASB issued ASU 2019-03 "*Not-for-Profit Entities (Topic 958) Updating the Definition of Collections*". This update, which is effective for fiscal years beginning after December 15, 2019, modifies the definition of the term collections and require that a collection-holding entity disclose its policy for the use of the proceeds from when collecting items are deaccessioned. The adoption of this standard had an impact on the disclosures.

In August 2018 the FASB issued ASU 2018-13 "*Fair Value Measurement (Topic 820) Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*". This update, which is effective for fiscal years beginning after December 15, 2019, removes, modifies and adds to fair value disclosure requirements. The Foundation adopted this new standard on July 1, 2020. The adoption of this standard had an impact on certain fair value disclosures.

### Note 2. Contributions Receivable

Unconditional promises to give are included in the financial statements as contributions receivable and revenue of the appropriate net asset category. Promises to give that are due in excess of one year are discounted using the Treasury yield rates as of the balance sheet date. Discount rates applied ranged from .07% to 1.45% as of June 30, 2021 and .16% to .49% as of June 30, 2020. Contributions receivable recognized at June 30, 2021 and 2020 were as follows:

	<u>\$ 37,878,772</u>	<u>\$ 7,689,291</u>

Contributions receivable (net of unamortized discount) at June 30, 2021 and 2020 had the following restrictions:

	<u>2021</u>	<u>2020</u>
Restricted by donor imposed stipulations for University programs and activities	\$ 35,449,647	\$ 7,329,160
Restricted for endowments for University programs and activities and property acquisitions	<u>444,089</u>	<u>294,714</u>
	<u>\$ 35,893,736</u>	<u>\$ 7,623,874</u>

The Foundation's management performs an annual in depth analysis of pledged contributions and determines that certain contributions receivable are no longer collectible. Contributions totaling \$1,001,545 and \$555 were written off during the years ended June 30, 2021 and 2020, respectively.

Additionally, management reserved allowances of \$4,063,154 and \$1,863,257 for possible uncollectible contributions as of June 30, 2021 and 2020, respectively. The allowance is based on management's estimate of future losses; actual losses may vary from the current estimate. The estimate is reviewed periodically, taking into consideration the risk characteristics of pledged contributions, past loss experience, general economic conditions and other factors that warrant current recognition. As adjustments to the estimate of future losses become necessary, they are reflected as bad debt expense in current-period earnings. Actual pledge losses are deducted from, and subsequent recoveries are added to, the allowance.

## NOTES TO FINANCIAL STATEMENTS

### Note 3. Investments

Investments are measured at fair value in the statements of financial position. Investments consist of bonds, stocks, hedge funds and alternative investments, derivatives, mutual funds and certificates of deposit. Realized and unrealized gains and losses on investments, interest and dividends are reflected in the statement of activities within the appropriate net asset category.

Investments were composed of the following at June 30, 2021 and 2020:

	<u>Fair Market Value</u>	
	<u>2021</u>	<u>2020</u>
Certificates of deposit	\$ 828,975	\$ 823,193

## NOTES TO FINANCIAL STATEMENTS

**Distressed opportunities** – This category includes funds that have investments in other hedge funds and private equity vehicles. The direct investments and underlying fund investments include securities in companies undergoing financial distress, operating difficulties or restructuring. The objectives of these funds are to invest in a diversified pool of underlying funds to provide the best return. Net asset values are determined either by utilizing market quotes (on those investments for which they are available) or based on the capital accounts of the fund. For those securities where no quotes or capital balances are available, they are valued by the general partner based on available information at the date of determination. Net asset values are computed quarterly.

**Equity – long/short** – This category includes investments in hedge funds that seek to generate capital appreciation while maintaining a balanced level of risk by investing in a number of long/short equity based funds as well as other direct investments. Net asset values of these funds are determined by utilizing the latest unaudited or audited financial statements and performance reports of hedge funds in which it invests. Any listed investments are valued at the last sales price on the date of determination. Any investments that are not listed are valued at the mean between the last closing and asked prices, as reported in the over the counter market, if available. For those investments where there is no quotation, the investment is valued at the estimated fair value, as determined by the board of directors and investment manager of the fund. Net asset values are computed monthly.

**Private equities** – This category includes investments in funds whose primary strategy is to build a diversified portfolio of top-performing private equity positions in both funds and direct investments in companies and corporations. Net asset values of these funds are determined by utilizing the latest unaudited or audited financial statements and performance reports of funds in which it invests. Any listed investments are valued at the last sales price on the date of determination. Any investments that are not listed are valued at the last closing bid price (or average of bid prices) last quoted on such date, as reported by an established quotation service for over the counter securities. For those investments where there is no quotation, the investment is valued at the estimated fair value, as determined by the investment manager of the fund, based upon relevant factors of the investees, such as current financial position, historical operating results, recent sales prices in the same or similar securities. Net asset values are computed monthly.

**Other credit** – This category includes investments in various funds. The funds primarily invest in debt instruments of private and public companies, U.S. government and municipal securities, mortgage backed securities, asset backed securities and provide mezzanine capital to middle market businesses. The net asset values of these funds are determined based on portfolio valuations utilizing different valuation techniques, depending upon the investment involved. Market quotes are utilized where available. For those equity and debt securities where prices are not observable, which are generally private investments in equity and debt securities of operating companies, fair value is determined by reference to public market or private transactions for comparable assets. Net asset values are computed on a monthly basis.

**Multi-strategy** – This category includes investments in various funds. The funds primarily invest in other funds that use a variety of different investment strategies across a wide range of financial instruments, including but not limited to fixed income securities, equities, mutual funds, futures, forward and option contracts, physical commodities, distressed securities, swaps and other derivative products. The net asset values of some funds use various inputs, including portfolio valuations that are received directly from independent sources. For those assets where no independent sources are available, the investment manager determines the fair values by other means, which may include obtaining appraisals. Some funds utilize a third party to provide the net asset calculation or rely on the latest unaudited or audited financial statements and performance reports of various investments in which it invests. Any listed investments are valued at the last sales price on the date of

## NOTES TO FINANCIAL STATEMENTS

determination. For those investments where there is no quotation, the fair value is estimated at the net asset value calculated by the fund manager.

Unit investment trust – This category includes investments in various funds. The objective of these funds is to achieve long term capital appreciation by investing in global emerging markets, and international securities. The net asset values of these funds are valued using market values when available. In the absence of readily ascertainable market values for any assets, the funds will seek to obtain a valuation from an independent source.

The Foundation transacts in certain derivative investments as part of its overall investment strategy. The primary objective of these investments is to rebalance the portfolio investment allocations on a continuing basis.

These derivative investments have not been designated as hedges. The fair value of these derivative instruments are included within the “Investments” line item on the statement of financial position with changes in fair value reflected as realized gains (losses) or net change in unrealized gains (losses) on investments within the statement of activities.

As of June 30, 2021 and 2020, the volume of the Foundation’s derivative activities based on their notional amounts and number of contracts categorized by primary underlying risk were as follows:

	<u>\$ 9,043,336</u>	<u>\$ 9,146,160</u>

The assets shown are owned by the Foundation, but the majority of these assets are used by the University in support of its educational activities. Depreciation expense totaled \$316,166 and \$320,988 for the year ended June 30, 2021 and 2020, respectively.

### Note 5. Funds Held in Custody

One of the Foundation's primary objectives is to raise funds to provide endowed professorships and chairs as well as first generation and superior graduate student scholarships to the University. The Louisiana Endowment Trust Fund for Eminent Scholars was created by the Louisiana Legislature in 1983 to provide State funds as a challenge grant to eligible public and private institutions, which would be responsible for providing matching funds obtained from gifts. Endowed professorships are established at \$100,000, endowed chairs at \$1,000,000 and endowed superchairs at \$2,000,000, with the State providing 40% of the funding once the Foundation has acquired 60% of the principal through private gifts. First generation and superior graduate student scholarships are established at \$100,000. The University is allowed to apply for the 40% match while maintaining the 60% private gift in the Foundation. Funds are pooled for investment purposes in the Foundation, but the State's 40% match, net of the proportionate share of income and expenses of the endowments, are recognized as a liability to the University under the caption "Funds held in custody." The State matching funds managed for the University at June 30, 2021 and 2020 were \$52,140,475 and \$41,328,489, respectively.

Total payments to the University from these endowments amounted to \$2,334,085 and \$2,073,710 for the years ended June 30, 2021 and 2020, respectively.

## NOTES TO FINANCIAL STATEMENTS

## NOTES TO FINANCIAL STATEMENTS

Aggregate maturities on long-term debt are as follows at June 30, 2021:

2022	\$ 24,805
2023	26,027
2024	27,276
2025	28,651
2026	249,817
2025-2031	<u>174,008</u>
	<u>\$ 530,584</u>

Cash paid for interest during the fiscal years ended June 30, 2021 and 2020 was \$17,291 and \$16,769, respectively.

On April 23, 2020, the Foundation received loan proceeds in the amount of \$199,900 under the Paycheck Protection Program (PPP). The PPP, established as part of the Coronavirus Aid, Relief and Economic Security Act ("CARES Act"), provides for loans to qualifying businesses for amounts up to 2.5 times of the average monthly payroll expenses of the qualifying business. On April 27, 2021, the paycheck protection loan was forgiven in full. A gain on the forgiveness of the Paycheck Protection Program Loan in the amount of \$199,900 was included in other income on the statement of activities for the year ended June 30, 2021.

On March 24, 2021, the Foundation received loan proceeds in the amount of \$219,755 under a second draw of the PPP. The Foundation may be eligible for loan forgiveness of the full amount plus accrued interest within ten months. The maximum amount that may be eligible for forgiveness will be based on the amount of payroll costs, mortgage interest, rent expenses, utilities, and other eligible expenses paid by the Foundation. The actual amount that will be forgiven may be subject to a cap on the amount of non-payroll expenses that will be deemed eligible for forgiveness and will be reduced if the borrower terminates employees or reduces salaries during the twenty-four week period. The unforgiven portion of the PPP loan is due 5 years from the date of the note. Unpaid principal and accrued interest is payable at maturity at an interest rate of 1%, with a deferral of payments for the first ten months. The Foundation intends to use the proceeds for the purpose consistent with the PPP. While the Foundation currently believes that its use of the loan proceeds will meet the conditions for forgiveness of the loan, it cannot assure that it will not take actions that would cause the Foundation to be ineligible for forgiveness of the loan, in whole or in part.

### Note 7. Board designated net assets

As of June 30, 2021 and 2020, the board designated quasi-endowment, established to help support the University, amounted to \$3,780,837 and \$2,922,085, respectively.

## NOTES TO FINANCIAL STATEMENTS

Total net assets with donor restrictions	<u>\$ 214,594,590</u>	<u>\$ 152,943,647</u>

### Note 9. Endowments and Net Asset Classifications

The Foundation's endowments consist of approximately 1,200 individual funds established for a variety of purposes. Its endowments include donor-restricted endowment funds whereby the stipulations of the gift may require the preservation of the original donation, with only the income derived used for a specific purpose, as well as term endowments where all funds are available for specific purposes. As required by GAAP, net assets associated with endowment funds, are classified and reported based on the existence or absence of donor-imposed restrictions or intent.

#### Interpretation of Relevant Law

In June 2010, Act 168 of the regular session of the Louisiana legislature was signed into law by the Governor. This act adopted the provisions of the Uniform Prudent Management of Institution Funds Act and is effective as of July 1, 2010. Consistent with this law, the Board of Trustees of the Foundation has a policy requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary, plus amounts which are board approved in order to preserve the corpus of the endowment. Currently, the Foundation classifies as permanently restricted net assets (a) the amount that must be retained permanently in accordance with explicit donor stipulations or (b) in the absence of such stipulations, the organization's governing board determines what must be retained (preserved) permanently consistent with the relevant law. The remaining portion of the donor-restricted endowment fund that is not classified as permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the University and Board's policies and procedures.

### Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor requires the Foundation to retain as a fund of perpetual duration. These deficiencies usually result from unfavorable market fluctuations that occur over the life of the endowment. The fair value of endowments with deficiencies as of June 30, 2021 was \$551,184. The amounts of these endowments required to be maintained amounted to \$709,044, resulting in a deficiency of \$157,860.

### Return Objectives and Risk Parameters

The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment, while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the organization must hold in perpetuity or for a donor-specified period(s) as well as board-designated funds. Under this policy, as approved by the Board of Trustees, the endowment assets are invested in a manner that is intended to produce results that exceed the price and yield results of the S&P 500 index while assuming a moderate level of investment risk. The Foundation expects its endowment funds, over time, to provide an

## NOTES TO FINANCIAL STATEMENTS

average rate of return of approximately 5% annually (net of fees). Actual returns in any given year may vary from this amount.

### Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives, within prudent risk constraints.

### Spending Policy and How the Investment Objectives Relate to Spending Policy

The Foundation has a policy of appropriating for distribution each year up to 5% of its endowment fund's market value at the fiscal year-end preceding the fiscal year in which the distribution is planned. In establishing this policy, the Foundation considered the long-term expected return on its endowment. Accordingly, over the long-term, the Foundation expects the current spending policy to allow its endowment to grow annually. This is consistent with the Foundation's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return. The Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- (1) The duration and preservation of the fund
- (2) The purposes of the Foundation and the donor-restricted endowment fund
- (3) General economic conditions
- (4) The possible effects of inflation and deflation
- (5) The expected total return from income and the appreciation of investments
- (6) Other resources of the Foundation

	<u>\$ 11,514,574</u>	<u>\$ 15,382,419</u>

The Foundation invests and manages donations and endowed funds for the University. These endowed and non-endowed funds are accounted for as either with donor restrictions or without donor restrictions based upon donor stipulations. Each year, income from endowed funds is allocated and paid to the University for the specific purpose of the endowment. Non-endowed funds (donations) are allocated to the University based upon donor restrictions. All funds allocated to the University are reflected as program services within the statements of activities.

### Note 12. Lease Agreement

The Foundation entered into a lease agreement with the University of Louisiana Board of Supervisors in November 1999 to lease the land at 705 East St. Mary Boulevard (the Foundation's office building). The lease is for 99 years at a rental rate of \$10 annually.

During the fiscal year ended June 30, 2005, the Foundation entered into a lease agreement with the University of Louisiana Board of Supervisors to lease the land at 710 East St. Mary Boulevard (the University Art Museum) with a carrying value of \$55,000. The lease is for 99 years at a rental rate of \$10 annually.

### Note 13. Disclosure about Fair Value of Financial Instruments

The Foundation groups financial assets and liabilities measured at fair value on a recurring basis in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

## NOTES TO FINANCIAL STATEMENTS

Level 1 – Valuations for assets and liabilities traded in active exchange markets, such as the New York Stock Exchange. Level 1 also includes securities that are traded by dealers or brokers in active markets. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2 – Valuations for assets and liabilities traded in less active dealer or broker markets. For example, municipal securities valuations are based on markets that are currently offering similar financial products. Valuations are obtained from third party pricing services for identical or comparable assets or liabilities.

Level 3 – Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities.

Below is a table that presents information about certain assets measured at fair value on a recurring basis:

During 2021 and 2020, the Foundation also recognized donated property and artworks of \$27,000 and \$8,500, respectively, at estimated fair value upon date of donation. All of these fair value estimates are considered to be Level 3 valuations.

### Note 14. Related Party Transactions

The Foundation had accounts and scholarships payable to the University as of June 30, 2021 and 2020 in the amount of \$2,386,726 and \$3,359,923, respectively.

In addition, during 2021 and 2020, the Foundation made payments to benefit the University in the amounts of \$11,514,574 and \$15,382,419, respectively.

The Foundation is a party to contracts with athletic coaches for supplemental salaries. See Note 15 for further details.

### Note 15. Commitments and Contingencies

During 2013, the Foundation consented to assign and pledge certain unrestricted athletic revenues derived from fundraising, premium seating, sponsorships and other similar sources for the purpose supporting the repayment of bonds issued on November 1, 2013 by the Ragin' Cajuns Facilities, Inc. The purpose of the bonds are to provide financing for renovations and additions to certain University athletic complexes. This commitment is limited to \$400,000 per year until the bonds are paid off in 2044.

As of June 30, 2021 and 2020, the Foundation had a liability of \$3,933,784 and \$2,792,406, respectively, payable to the University for athletic obligations related to supplemental coach's salaries. These accruals reflect amounts due for the years 2018, 2019, 2020 and 2021. These amounts will be paid from restricted athletic funds if and when available and requested by the University.

## NOTES TO FINANCIAL STATEMENTS

### Note 16. Liquidity and availability of financial assets

The following reflects the Foundation's financial assets as of June 30, 2021 and 2020, reduced by amounts not available for general use within one year of the balance sheet date because of contractual or donor-imposed restriction or internal designations. Significantly all payments to the University throughout the year come from amounts considered donor restricted. These net assets are released from restriction and disbursed when the purpose or time restriction has been met. Amounts available include the board approved appropriation from the endowment funds for the following year as well as donor restricted amounts that are available for expenditure in the following year. Amounts not available include amounts set aside for operating and other reserves that could be drawn upon if the Foundation board approves the action.

	<u>2021</u>	<u>2020</u>
Financial assets, at year end	\$ 279,006,035	\$ 199,354,650
Less: unavailable for general expenditures within one year, due to:

Financial assets available to meet cash needs for general expenditures within one year	<u>\$ 8,876,265</u>	<u>\$ 3,875,731</u>

### Note 17. Reclassifications

Certain reclassifications have been made in the financial statements at June 30, 2020, in order to be consistent with reporting in the current year. These reclassifications had no effect on previously reported net assets or changes in net assets.

### Note 18. Coronavirus Pandemic

On January 30, 2020, The World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 10, 2020, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus include restrictions on travel, and quarantines in certain areas, and forced closures for certain types of public places and business. The coronavirus and actions taken to mitigate it have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries, including the geographical areas in which the Foundation operates. It is unknown how long these conditions will last and what the complete financial effect will be on the Foundation. Additionally, it is reasonably possible that estimates made in the financial statements have been, or will be, materially and adversely impacted in the near term as a result of these conditions.

## NOTES TO FINANCIAL STATEMENTS

### Note 19. Subsequent Events

The Foundation evaluated the need for disclosures and/or adjustments resulting from subsequent events through, November 1, 2021, the date the financial statements were available to be issued.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL  
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER  
MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED  
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Trustees of  
University of Louisiana  
at Lafayette Foundation, Inc.  
Lafayette, Louisiana

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the University of Louisiana at Lafayette Foundation, Inc. (a non-profit organization), which comprise the statement of financial position as of June 30, 2021, and the related statements of activities and cash flows for the year then ended, and the related notes to financial statements, and have issued our report thereon dated November 1, 2021.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Foundation's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, we do not express an opinion on the effectiveness of the Foundation's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Foundation's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Foundation's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT ACCOUNTANTS' REPORT  
ON APPLYING AGREED-UPON PROCEDURES

To the Management of  
University of Louisiana  
at Lafayette Foundation, Inc.  
Lafayette, Louisiana

We have performed the procedures enumerated below, which were agreed to by the University of Louisiana at Lafayette Foundation, Inc. (the "Foundation") on the examination of certain records and documentation of the Foundation for the period of July 1, 2020 – June 30, 2021 related to the specific financial records dealing specifically with assertions listed below in this letter. The Foundation's management is responsible for the organization's accounting records. The sufficiency of these procedures is solely the responsibility of those parties specified in the report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures and associated finding are as follows:

Verified that the Foundation did not make loans to or allocate any net earnings or assets to the benefit of its directors, officers or other private persons. Any payments made to these persons were for reasonable compensation for services rendered or reimbursement for reasonable travel expenses.

*No exceptions noted. All payments noted were for reasonable compensation for services rendered or reimbursement for reasonable travel expenses.*

Verified that the Foundation made no political contributions nor reimbursed any employee for politically-related expenses that would violate IRS guidelines for 501(c)(3) organizations. Accordingly the Foundation did not provide funds to or on behalf of university's employees to endorse political parties or candidates, attend political fund-raisers, participate in lobbying activities, etc.

*No exceptions noted.*

Verified that the Foundation preserved, in accordance with donor intent, the principal of any endowments, and disbursements from the expendable portion of those funds were made in accordance with donor intent and to eligible recipients or for eligible purposes.

*No exceptions noted.*

Verified that donations were properly recorded in the accounting records in accordance with donor intent. (i.e. unrestricted vs. restricted funds/endowments).

*No exceptions noted.*

Verified that the Foundation did not deposit or hold public funds at any time during the period under audit, except for 1) Endowed Chair and Endowed Professorships Program funds held in accordance with a Funds Management Agreement or 2) project funds held in accordance with a cooperative endeavor agreement.

*No exceptions noted.*

Verified that all contracts between the Foundation and any member of its Board of Directors, any member of the UL System Board of Supervisors, an UL System employee, or any university employee have been individually disclosed in the notes to the financial statements, regardless of the significance of the contract payments to total expenses. The applicable related party note includes the name of the parties to the contract, the services provided, the amount paid as of the date of the financial statements, and the maximum amount of the contract.

*There were no indications of contracts between the Foundation and any member of its Board of Directors, any member of the UL System Board of Supervisors or any UL System employee. The Foundation is a party to athletic coach's contracts for supplemental salaries.*

Verified that funds for supplemental compensations and /or benefits for a UL System or University employee were paid to the System Office or University for disbursement to the employee; no supplemental payments were made directly to an employee unless specifically approved by the Board Office or University.

*The Vice President and CEO approved supplemental payments that were made directly to University employees totaling \$308,280.*

Verified that on a quarterly basis, the Foundation, reported to the University all single payments of \$1,000 or more made to or on behalf of any individual university employee.

*No exceptions noted.*

Verified that disbursements of less than \$1,000 made to or on behalf of University employees are in compliance with the recommended policies contained in the UL System's sample Affiliation Agreement, "Affiliate Funding and Administrations", Section 4 (attachment 1 of UL System Policy Number FB-IV (4)a).

*No exceptions noted.*

This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on the specified elements. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Foundation and the University of Louisiana at Lafayette and should not be used by anyone other these specified parties.

INDEPENDENT ACCOUNTANTS' REPORT  
ON APPLYING AGREED-UPON PROCEDURES

Board of Trustees  
University of Louisiana  
at Lafayette Foundation, Inc.  
Lafayette, Louisiana

We have performed the procedures enumerated below, which were agreed to by the University of Louisiana at Lafayette Foundation, Inc. (the "Foundation"), solely to assist you with respect to the accounting records, related to the Eminent Scholars Endowed Chairs, Endowed Professorship, and Endowed Scholarship Programs of the (the "Foundation") for the year ended June 30, 2021. The Foundation's management is responsible for the organization's accounting records. The sufficiency of these procedures is solely the responsibility of those parties specified in the report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures and associated findings are as follows:

Verified that the Foundation's endowments for the Eminent Scholars Endowed Chairs, Endowed Professorship, and Endowed Scholarship Programs have been managed in compliance with provisions set forth in the Board of Regents Statement of Investment Policy and Objectives.

*No exceptions were noted as a result of the above procedure, except for the requirement that no more than 10% of program assets may be invested in private equity and private debt combined based on committed capital. At June 30, 2021 total investments in private equity and debt based on committed capital was 10.29%.*

Verified that the annual financial reports for the Eminent Scholars Endowed Chairs, Endowed Professorship, and Endowed Scholarship Programs submitted to the Board of Regents were mathematically accurate and agreed to the accounting records of the Foundation.

*No exceptions noted as a result of the above procedure.*

Selected a sample of disbursements from the Eminent Scholars Endowed Chairs, Endowed Professorship, and Endowed Scholarship Programs in order to verify that the proceeds of the endowments were used as salaries or as a supplement for salaries or for other expenses related to scholarly work for eligible faculty members.

*No exceptions noted as a result of the above procedure.*

Verified that the Foundation is operating under and has complied with all provisions of the Funds Management Agreement with the University of Louisiana at Lafayette.

*No exceptions noted as a result of the above procedure.*

Verified investment earnings generated from pooled assets involving endowed chair or professorship funds have been properly allocated to the chairs and professorships in accordance with the Louisiana Board of Regents Statement of Investment Policy and Objectives.

*No exceptions noted as a result of the above procedure.*

Board of Trustees  
University of Louisiana  
at Lafayette Foundation, Inc.  
Lafayette, Louisiana

Verified that the value of the state funds held by the Foundation as reported in its audited financial statements is equal to the amount recorded in the University's books.

*No exceptions noted as a result of the above procedure.*

Verified that all Endowed Chairs and Professorships as listed are held by the Foundation for the University.

*No exceptions noted as a result of the above procedure.*

The audited book balance and fair value at June 30, 2021 of the University of Louisiana at Lafayette investments (state funds only) held by the Foundation was \$52,140,475.

The audited book balance and fair value at June 30, 2020 of the University of Louisiana at Lafayette investments (state funds only) held by the Foundation was \$41,328,489.

Types of investments held by the Foundation for the University of Louisiana at Lafayette include equities, fixed income investments, mutual funds, hedge funds of funds, index futures, private equities and money market accounts. These investments were confirmed 100%.

Sources used to determine fair market value of investments include monthly investment statements indicating fair value which are prepared by external brokers or in the case of the hedge funds of funds and other alternative investments the estimated fair value as determined by the fund managers.

The Foundation does not utilize an investment pool for purposes of placing and investing funds associated with the Endowed Chairs, Professorship, and Scholarships endowments. Funds are invested in individual securities by various outside external brokers and overseen by an investment advisor to the Foundation who reports on a routine basis with respect to portfolio performance and comparisons.

This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to, and did not conduct an examination or review, the objective of which would be the expression of an opinion or a conclusion, respectively, on the specified elements. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the use of the Foundation, the University of Louisiana at Lafayette, the University of Louisiana System, the Louisiana Board of Regents and the Louisiana Legislative Auditors' Office and should not be used by anyone other than these specified parties.
