The management of the Webster Parish Communications District (District) offers readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended December 31, 2020. This management discussion and analysis ("MD&A") is designed to provide an objective analysis of the District's financial activities based on currently known facts, decisions, and conditions. It is intended to provide readers with a broad overview of District finances. It is also intended to provide readers with an analysis of the District's short-term and long-term activities based on information presented in the financial report and fiscal policies that have been adopted by the District. Specifically, this section is designed to assist the reader in focusing on significant financial issues, provide an overview of the District's financial activity, identify changes in the District's financial position (its ability to address the next and subsequent year challenges), identify any material deviations from the financial plan (the approved budget), and identify individual fund issues or concerns.

The District has presented its financial statements under the reporting model required by the Governmental Accounting Standards Board Statement No. 34. This reporting model changes the presentation of financial data, and also the manner in which the information is recorded. We encourage readers to consider the information presented here in conjunction with additional information presented throughout this report.

Overview of the Financial Statements

This section is intended to serve as an introduction to the District's financial statements. The District's basic financial statements consist of the government-wide financial statements, fund financial statements, and notes to the financial statements. This report also contains other supplementary information, which is in addition to the basic financial statements.

Government-Wide Financial Statements

Government-wide financial statements are designed by GASB Statement No. 34 to change the way in which governmental financial statements are presented. It now provides readers with a concise "entity-wide" Statement of Net Position and Statement of Activities, which seek to give the user of the financial statements a broad overview of the District's financial position and results of operations in a manner similar to private sector businesses.

The statement of net position presents information on all of the District's assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private sector companies. The difference between the two is reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or weakening.

The statement of activities presents information which shows how the government's net position changed during this fiscal year. All changes in net position are reported as soon as the underlying event occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods (e.g. uncollected taxes).

Each of these reports is broken down between governmental activities and business-type activities. Governmental activities normally are those activities that are supported by taxes, licenses, permits, fines, and intergovernmental revenues; for example, the police department. Business-type activities are functions that are intended to support their costs through charges for services or fees; such as the Water and Sewer Departments.

Government-wide Financial Analysis

As noted earlier, net position may, over time, serve as a useful indicator of a government's financial position. At the close of the most recent fiscal year, the District's assets exceeded its liabilities by \$623,341 (net position); this represents a decrease of \$85,615 from the last fiscal year. Of this total net asset amount, \$457,550 is unrestricted net position. The District's net position are comprised solely from governmental activities.

The following is a condensed statement of the District's net position as of December 31, 2020:

	Governmental- Type <u>Activities</u>
Assets	
Current & Other Assets	\$489,345
Capital Assets (net)	165,791
Total Assets	\$655,136
Liabilities	
Other Liabilities	\$31,795
Long-term Liabilities	0
Total Liabilities	31,795
Net Position	
Invested in capital assets, net	165,791
Unrestricted	457,550
Total Net Position	\$623,341

By far the largest portion of the District's net position \$165,791 reflects its investment in capital assets (e.g. land, buildings, machinery and equipment, infrastructure, etc.) less any related debt used to acquire those assets still outstanding. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's capital assets are reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.

The remaining balance of \$457,550 is unrestricted net position, which may be used to meet the government's on-going obligations to citizens and creditors.

The District has total outstanding debt of \$31,795. Total liabilities of \$31,795 are equal to 5% of the total net position.

The following is a summary of the statement of activities:

	Governmental-Type <u>Activities</u>
Revenue	
Program Revenue	\$573,788
General Revenue & Transfers	6,766
Total Revenue	580,554
Expenses	
Public Safety	628,313
Depreciation	37,856
Total Expenses	666,169
Increase (Decrease) in Net Position	(85,615)
Net Position, Beginning	708,956
Prior period adjustment	0
Net Position, Ending	\$623,341

Governmental Activities

The governmental activities of the District include Public Safety. In that, revenues normally associated with municipal operations, (e.g. property tax, franchise fees, license fees, fines, and operating grants) are sufficient for the funding of these activities.

Fund Financial Statements - Governmental Funds

The fund financial statements provide more detailed information about the District's most significant fundsnot the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for a particular purpose.

The District currently maintains one individual governmental fund type. This fund type includes the General Fund. Information is presented separately in the Governmental Funds Balance Sheet (Statement C) and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances (Statements E) for the General Fund which is considered to be a major fund.

The District adopts an annual budget for the General Fund. A statement of revenues, expenditures, and changes in fund balance for the General Fund is presented in the Required Supplemental Information (Schedule 1), which compares actual revenues and expenditures to the original budget and amended budget figures.

Financial Analysis of the District's Governmental Fund

The District's governmental fund (General Fund) reported an ending fund balance of \$461,999, which is a decrease of \$49,673. This decrease is caused by a decrease in revenue from the previous year, while expenditures also decreased due to the less capital outlay in the current year.

General Fund Budgetary Highlights

The District did amend its original General Fund budget during the year.

Budgeted revenues did not exceed actual revenues by more than 5%. Actual expenditures did not exceed budgeted expenditures by more than 5%.

Capital Asset and Debt Administration

The total investment in net capital assets as of December 31, 2020 is \$165,791.

There were \$2,022 capital assets purchased in fiscal 2020.

Current Financial Factors

The District is not currently working on any projects.

Requests for Information

This financial report is designed to provide a general overview of the District's finances for all with an interest in the government's operations. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Director, 303 Green St, Minden, LA 71058.

Independent Auditor's Report

Webster Parish Communications District Minden, Louisiana

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of Webster Parish Communications District ("District"), as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District, as of December 31, 2020, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 1 through 4 and 24 through 25 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The schedule of compensation paid elected officials and schedule of compensation, benefits, and other payments to agency head is presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedule of compensation paid elected officials and schedule of compensation, benefits, and other payments to agency head are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of compensation paid elected officials and schedule of compensation, benefits, and other payments to agency head is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated September 27, 2021, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting

and compliance and the results of the testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Change in Net Position of Governmental Activities, (Statement B)

(\$85,615)

Notes to the Financial Statements

INTRODUCTION

The Webster Parish Communications District ("District") was organized in 1990 to establish and provide E-911 emergency services to the residents of Webster parish. The District has seven commissioners comprising the board who are appointed by the Webster Parish Police Jury, including 3 "civilians", 1 from the police sector, 1 from fire sector, and 1 from emergency medicine (hospital/ambulance). The District serves approximately 40,000 residents.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

In June, 1999, the GASB unanimously approved Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments. Certain of the significant changes in the Statement include the following:

- A Management Discussion and Analysis (MD&A) section providing an analysis of the District's overall financial position and results of operations.
- Financial statements prepared using full accrual accounting for all of the District's activities, including infrastructure (if any).
- A change in the fund financial statements to focus on the major funds.

These and other changes are reflected in the accompanying financial statements (including notes to financial statements).

A. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of Net Position and the statement of changes in Net Position) report information on all of the nonfiduciary activities of the primary government. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charge to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The District reports the following governmental funds:

The General Fund is the District's primary operating fund. It accounts for all financial resources, except those required to be accounted for in another fund. The General fund is available for any purpose provided it is expended or transferred in accordance with state and federal laws and according to the District's policy.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the governments enterprise operations. Elimination of those charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for enterprise funds and internal service funds include the costs of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

C. Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. State law and the District's investment policy allow the District to invest in collateralized certificates of deposits, government backed securities, commercial paper, the state sponsored investment pool, and mutual funds consisting solely of government backed securities. Investments for the District are reported at fair value. The state investment pool (LAMP) operates in accordance with state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

D. Restricted Assets

Certain proceeds of the District's revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the Statement of Net Position because their use is limited by applicable bond covenants.

E. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), purchased or acquired with an original cost of \$500 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at their estimated fair value at the date of donation. Additions, improvements and other capital outlays that significantly extend the useful life of the asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Straight line depreciation is used based on the same estimated useful lives listed below for the Webster Parish Police Jury.

	Estimated
Description	Lives
Buildings	20-40 years
Furniture and equipment	5-10 years
Vehicles	5 years

F. Compensated Absences

All full-time employees of the district earn 4 days (48 hours) of vacation leave after one full year of service, and seven days (84 hours) of vacation leave after three years of service. Full-time employees earn 1 day (8 hours) of sick leave for each month of continuous employment but have a maximum limit of forty-five days of sick leave. Employees may not carry forward accrued vacation time but may carry forward sick leave. Part-time employees are not eligible for vacation or sick leave. Upon separation of employment, employees are paid for accrued vacation leave but not paid for sick leave.

G. Fund Equity

In the government wide statements, equity is classified as Net Position and displayed in three components:

a. Net investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets.

- b. Restricted net position Consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Constraints may be placed on the use, either by (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position Net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in either of the other two categories of net position.

H. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from the estimates.

2. CASH AND CASH EQUIVALENTS

At December 31, 2020, the District has cash and cash equivalents (book balances) totaling \$182,800 as follows:

Demand deposits	\$22,865
Interest-bearing demand deposits	47,923
Time deposits	112,012
Total	\$182,800

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

At December 31, 2020, the District has \$174,928 in deposits (collected bank balances). These deposits are secured from risk by \$174,928 of federal deposit insurance and \$0 of pledged securities held by the custodial bank in the name of the fiscal agent bank. (GASB Category 3).

3. INVESTMENTS

Investments held at the District consist of \$163,234 (current assets) in the Louisiana Asset Management Pool (LAMP), a local government investment pool. In accordance with GASB Cod Sec. I50.126, the investment in LAMP at the District is not categorized in the three risk categories provided by GASB Cod Sec. I50.125 because the investment is in the pool of funds and therefore not evidenced by securities that exist in physical or book entry form.

LAMP is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local government entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-

term, high quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LSA - R.S. 33:2955. Accordingly, LAMP investments are restricted to securities issued, guaranteed, or backed by the U.S. Treasury, the U.S. Government, or one of its agencies, enterprises, or instrumentalities, as well as repurchase agreements collateralized by those securities.

Effective August 1, 2001, LAMP's investment guidelines were amended to permit the investment in government-only money market funds. In its 2001 Regular Session, the Louisiana Legislature (Senate Bill No. 512, Act 701) enacted LSA-R.S. 33:2955(A)(1)(h) which allows all municipalities, parishes, school boards, and any other political subdivisions of the State to invest in "Investment grade (A-1/P-1) commercial paper of domestic United States corporations." Effective October 1, 2001, LAMP's Investment Guidelines were amended to allow the limited investment in A-1 or A-1+ commercial paper.

The dollar weighted average portfolio maturity of LAMP assets is restricted to not more than 90 days, and consists of no securities with a maturity in excess of 397 days. LAMP is designed to be highly liquid to give its participants immediate access to their account balances. The investments in LAMP are stated at fair value based on quoted market rates. The fair value is determined on a weekly basis by LAMP and the value of the position in the external investment pool is the same as the value of the pool shares.

LAMP, Inc. is subject to the regulatory oversight of the state treasurer and the board of directors. LAMP is not registered with the SEC as an investment company.

4. RECEIVABLES

The receivables of \$107,414 at December 31, 2020, are as follows:

Fees and surcharges	\$107,414
State prepaid fees	0
Total	\$107,414

5. CAPITAL ASSETS

The following presents the changes in capital assets for the year ended December 31, 2020:

Balance, January 1, 2020	\$594,600
Additions	2,022
Deletions	0
Balance, December 31, 2020	596,622
Less accumulated depreciation	(430,831)
Net capital assets	\$165,791

6. ACCOUNTS, SALARIES, AND OTHER PAYABLES

The payables of \$13,889 at December 31, 2020, are as follows:

Accounts	\$13,277
Credit card liability	612
Total	\$13,889

7. LEASES

In January, 2018, the District entered into a 12-month lease for the building located at 303 Green Street. The lease requires 12 monthly payments of \$1,750 each beginning in January, 2018, with renewal options for additional periods of one (1) year after said initial term. Rental expenses were \$21,000 for the year ended December 31, 2020.

8. LITIGATION AND CLAIMS

The District is not involved in any litigation at December 31, 2020, nor is it aware of any unasserted claims.

9. DATE OF MANAGEMENT REVIEW

Subsequent events have been evaluated through September 27, 2021, the date which the financial statements were available to be issued. As a result of COVID-19 coronavirus, economic uncertainties have arisen which are likely to have a negative impact on operations and cause business disruption. However, the related financial impact and duration cannot be reasonably estimated at this time. The District is closely monitoring its financial statements for 2021 impacts.

Notes to the Schedule

⁽¹⁾ method of budgetary accounting - non-GAAP

Webster Parish Communications District Notes to the Schedule of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual (Non-GAAP) For the Year Ended December 31, 2020

NOTE A - BUDGETARY POLICIES

The proposed budget for the General Fund, prepared on the cash basis of accounting, is published in the official journal at least ten days prior to the public hearing and is made available for public inspection at least fifteen days prior to the beginning of each fiscal year. A public hearing is held at the District's office for comments from taxpayers. The budget is then legally adopted by the District and amended during the year, as necessary. The budget is established and controlled by the District at the object level of expenditure. Appropriations lapse at year-end and must be re-appropriated for the following year to be expended. All changes in the budget must be approved by the District.

Formal budgetary integration is employed as a management control device during the year. Budgeted amounts included in the budget comparison accompanying the financial statements include the original adopted budget amount and all subsequent amendments. Encumbrance accounting is not used by the District.

NOTE B – EXPLANATION OF DIFFERENCES BETWEEN BUDGETARY INFLOWS AND OUTFLOWS AND GAAP REVENUES AND EXPENDITURES

Source/inflows of resources	
Actual amounts (budgetary basis) "Total Revenues" from Schedule 1.	\$578,209
<u>Differences - budget to GAAP:</u> The District budgets for property tax revenue only to the extent expected to be received, rather than on the modified accrual basis.	6,313
Total revenues as reported on the statement of revenues, expenditures, and changes in fund balances-governmental funds.	\$584,522
Uses/outflows of resources	
Actual amounts (budgetary basis) "Total Expenditures" from the Schedule 1.	\$628,777
<u>Differences - budget to GAAP:</u> The District budgets for operating expenditures only to the extent expected to	
be paid, rather than on the modified accrual basis.	5,418
Total expenditures as reported on the statement of revenues, expenditures, and changes in fund balances-governmental funds.	\$63 <u>4,195</u>

OTHER REPORTS

WADE & PERRY

Certified Public Accountants A Professional Accounting Corporation Members: AICPA/ Society of LCPA's

Report on Compliance and Other Matters and on Internal Control over Financial Reporting Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Independent Auditor's Report

Board of Commissioners Webster Parish Communications District Arcadia, Louisiana

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities of Webster Parish Communications District ("District") as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated September 27, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Wade i Perry Ruston, Louisiana September 27, 2021
