Board of Commissioners Washington Parish Fire Protection District No. 3 Franklinton, Louisiana

Management is responsible for the accompanying financial statements of the governmental activities of Washington Parish Fire Protection District No. 3 (a component unit of the Washington Parish Government), as of and for the year ended December 31, 2016, and related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents, in accordance with accounting principles generally accepted in the United States of America. I have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. I did not audit or review the financial statements nor was I required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, I do not express an opinion, a conclusion, nor provide any form of assurance on these financial statements.

Accounting principles generally accepted in the United States of America require that management discussion and analysis and budgetary supplemental information on pages 2 through page 8 and page 26 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. This information is the representation of management. This information was subject to our compilation engagement, however, I have not audited or reviewed the required supplementary information and, accordingly, do not express an opinion, a conclusion, nor provide any form of assurance on such information.

The supplementary information contained in the Other-Supplemental Information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplementary information has been compiled from information that is the representation of management. I have not audited or reviewed the supplementary information and, accordingly, do not express an opinion or provide any assurance on such supplementary information

I am not independent with respect to Washington Parish Fire Protection District No.3.

Management's Discussion and Analysis

Introduction

Washington Parish Fire Protection District No. 3 is pleased to present its Annual Financial Report developed in compliance with Governmental Accounting Standard Board Statement No. 34, Basic Financial Statements-Management 's Discussion and Analysis for State and Local Governments (hereinafter referred to as GASB 34) and related standards.

Financial Highlights

- Total assets at December 31, 2016 were \$549,380 and net position of \$418,384 exceeded liabilities of \$130,996. Of total net position, \$142,546 may be used to meet the District's ongoing obligations to citizens and creditors. The balance of the total assets are invested in capital assets net of related debt (\$275,838).
- Revenues consist primarily of ad valorem taxes and state revenue sharing. The total revenues for the fiscal year ending December 31, 2016 were \$110,039 representing an approximate increase of 0.62% from total revenues for fiscal year December 31, 2015 of \$109,363.
- The District's operating expenditures for the governmental fund were \$110,846, an increase of \$1,188 over 2015 expenditures of \$109,658. In the current year, the District had debt service payments of \$\$39,932. Capital outlay expenditures totaled \$1,770.

Management's Discussion and Analysis

Overview of Annual Financial Report

Management's Discussion and Analysis (MD&A) serves as an introduction to basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to basic financial statements themselves.

Government-wide financial statements - The government -wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to private-sector business. These financial statements are reported using the full accrual accounting methods.

The statement of net position presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in nets position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

The statement of net position and the statement of activities display information about the District as a whole. These statements distinguish between those activities of the District that are governmental and those that are considered business type activities.

Fund financial statement - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The Modified accrual basis of accounting is used by the governmental funds.

Notes to financial statements - The notes to the financial statements provide required disclosures essential to the understanding of the financial statements. The notes present information about the District's accounting policies, significant account balances and activities, commitments, contingencies, and subsequent events, if any. Supplementary information includes a comparative budget schedule.

The major expenditures within the Statement of Activities are depreciation expense of \$19,473 (21% of total expenditures), repairs and maintenance of \$19,402 (21%) and insurance of \$14,282 (15%).

Ad valorem taxes are the primary source of revenue totaling \$85,362 (78%) of total revenue) for the fiscal year ending, December 31, 2016. The next source of revenue is state revenue sharing and insurance rebates of \$24,457(22% of total revenues).

Governmental Fund

The focus of the District's governmental fund is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resource available for spending at year-end.

As of December 31, 2016, The District's governmental fund reported an ending balance of \$142,546, a decrease of \$807 in comparison to prior year. Approximately 91% of this total (\$130,438) constitutes unassigned fund balance, which is available for spending at the District's discretion. The District had \$12,108 fund balance that is nonspendable due to prepaid insurance.

Management's Discussion and Analysis

Capital Assets

At the end of the fiscal year December 31, 2016 the District had \$403,809 (net of accumulated depreciation) recorded in capital assets. Capital outlays are recorded as expenditures of the general fund and as assets in the government-wide financial statement. Depreciation is recorded on general fixed assets on a government-wide basis using the straight-line method and the following estimated useful life:

Fire Stations 40 years
Fire Trucks and Other Trucks 5-20 years
Equipment 3-10 years

Fixed assets are valued at historical cost or estimated historical cost if actual cost was not available. Donated assets are valued at fair market value on the date donated. The costs, of all assets acquired prior to 1989, have been valued using estimated historical cost.

Capital asset activity for the year ended December 31, 2016:

Franklinton, Louisiana Notes to the Financial Statements For the Year Ended December 31, 2016

INTRODUCTION

The Fire Protection District Number Three of Washington Parish was created under the Louisiana Revised Statute 40:1496.12E,. The District shall constitute a public corporation and as such shall have all the powers of a public corporations, including perpetual existence and the right and power to incur debt and contract obligations, to sue and be sued, and to have a corporate seal. The District shall also be authorized to do and perform all acts in its corporate capacity and in its name, necessary and proper, for the purposes of acquiring, maintaining and operating buildings, machinery, equipment, water tank, water hydrants, water lines, and such other things as might be necessary or proper for effective fire prevention and control as considered necessary by the parish governing body of the District for the protection of the property within the limits of the District against fire.

The governing body of the parish shall appoint a five member board that shall perform all duties, functions, and powers responsible for the operation and maintenance of the District. All funds of the District shall be administered by the board. The board of commissioner members may be paid a per diem of fifty dollars for attending meetings of the board, and may be reimbursed any expenses incurred in performing the duties imposed upon them.

The District encompasses approximately 80 square miles in a portion of Wards 8 and 3 of Washington Parish, and serves approximately 2,600 people and several small businesses living and operating within the boundaries of the District. The District operates four fire stations which are located as follows: one in Warnerton, Louisiana, a second on LA Highway 38 in the Hayes Creek Community, a third on LA Highway 430 in Hackley, Louisiana and the fourth in Clifton just off Hwy 25, with a totally volunteer staff of firefighters.

NOTE 1-SUMMARY SIGIFICANT ACCOUNTING POLICIES

A. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING AND FINANCIAL STATEMENT

The District's financial statements are prepared on the modified accrual basis in accordance with accounting principles generally accepted in the United States of America. The District applies all Governmental Accounting Standards Board (GASB) pronouncements as well as Financial Accounting Standards Board (FASB) statements and interpretations, and the Accounting Principle Board (APB) of the Committee on Accounting Procedures, Issued on or before November 1989, unless those pronouncements conflict or contradict with GASB pronouncements.

These financial statements are presented in conformance with GASB Statement No.34, Basic Financial Statements, Management's Discussion and Analysis, for State and Local Governments. Statement No. 34 established standards for financial reporting, with presentation requirements including a statement of net assets (or balance sheet), a statement of activities and change in net assets, and a statement of cash flows.

Franklinton, Louisiana
Notes to the Financial Statements (Continued)
For the Year Ended December 31, 2016

B. REPORTING ENTITY

As the governing authority of the parish, for reporting purposes, the Washington Parish Government is the financial reporting entity for Washington Parish. The financial reporting entity consists of (a) the primary government, parish council, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board Statement No. 14 established criteria for determining which component units should be considered part of the Washington Parish Government for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

- 1. Appointing a voting majority of an organization's governing body, and
 - a. The ability of the parish council to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the parish council.
- 2. Organizations for which the parish council does not appoint a voting majority but are fiscally dependent on the parish council.
- Organizations for which the reporting entity's financial statements would be misleading if data of this organization is not included because of the nature or significance of the relationship.

Because the parish council appoints a voting majority of the District's governing board and the parish council has the ability to impose its will on the District, the District was determined to be a component unit of the Washington Parish Government, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the District and do not present information on the parish government, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

Franklinton, Louisiana Notes to the Financial Statements (Continued) For the Year Ended December 31, 2016

C. FUND ACCOUNTING

The District maintains its financial records on a fund basis, whereby a self-balancing set of accounts (Governmental Fund) is maintained that comprises its assets, liabilities, fund equity, revenues, and expenses. The general fund of the District accounts for all financial resources, except those required to be accounted for in other funds.

D. BASIS OF ACCOUNTING

The accompanying financial statements of the Washington Parish Fire Protection District No. 3 have been prepared in conformity with generally accepted accounting principles of the United State of America (GAAP) as applied to government units. The accompanying financial statements have been prepared in conformity with GASB-34, *Basic Financial Statements, Management's Discussion and Analysis, for State and Local Governments.* Under GASB-34, a statement of net assets and statement of activities are prepared which are presented on the accrual basis of accounting. The significant differences are capital outlay is reported as an asset and depreciated in the government-wide statement. Also long term obligations are recorded as liabilities. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, effective for financial statement periods ending after December 15, 2012, provides guidance for reporting deferred outflows of resources, deferred inflows of resources, and net position in a statement of financial position and Concepts Statement No. 4, Elements of Financial Statements, related disclosures. introduced and defined Deferred Outflows of Resources as a consumption of net assets by the government that is applicable to a future reporting period, and Deferred Inflows of Resources as an acquisition of net assets by the government that is applicable to a future reporting period, respectively. Previous financial reporting standards do not include guidance for reporting those financial statement elements, which are distinct from assets and liabilities. GASB Concepts Statement 4 identifies net position as the residual of all other elements presented in a statement of financial position. This Statement amends the net asset reporting requirements in Statement No. 34, Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments, and other pronouncements by incorporating deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets. The accounting and financial reporting treatment applied to a fund is determined by its measurement of focus. With this measurement of focus, only current assets and current liabilities generally are included on the balance sheet in the fund statements. Long term assets and long term liabilities are included in the governmental-wide statements. Operating statements of governmental funds

Franklinton, Louisiana
Notes to the Financial Statements (Continued)
For the Year Ended December 31, 2016

present increases (revenues), other financing sources and decreases (expenditures), and other financing uses are included in current assets.

The government-wide statements of net position and statement of activities are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with operation of these activities are included on the statement of net position.

The statements of net position and statements of activities are presented on the accrual basis of accounting. Under this method of accounting exchange, revenues are recognized when earned and expenses are recorded when liabilities are incurred without regard to receipt or disbursement of cash.

The modified accrual basis of accounting is used by the governmental funds. accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Governmental funds are accounted for using a current financial esources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets. Effective for financial statements issued after June 30, 2000, GASB Statement 33, Accounting and Financial reporting for Nonexchange Transactions, defines a nonexchange transaction as a transaction whereby the government gives or receives value without directly receiving or giving equal value in return. Property taxes are imposed nonexchange revenues which result from assessments imposed on nongovernmental entities including individuals. Assets should be recognized when the government has an enforceable lien or legal claim to the resources, or the resources are received, whichever occurs first. Property tax revenues are recognized in the period in which the District has legal claim to the resources. However, for revenue to be recognized under the modified accrual basis, the measurable and available criteria must also be met. Governmental funds use the following practices in recording revenues and expenditures:

Revenues

Revenues are recognized in the accounting period they become available and measurable. Donations, fund raising net revenues and state revenue sharing is recorded when received. Ad valorem taxes become a lien against the assessed property on assessment date or levy date. Property taxes collected by the taxing authority, but not remitted to the District at year-end, are accrued in revenue and included in property tax receivable.

Expenditures

Expenditures are recognized in the accounting period when the fund liability is incurred.

E. BUDGETS

The District does not have a formal policy on adopting a budget. The budget for year ending December 31, 2016, was adopted at the District's December 2015, regular meeting. The District was not in compliance with the Local Government Budget Act which requires a 5% variance in expenditures and revenues. The District's expenditures were over budget by 14%.

F. ENCUMBRANCES

The District does not use encumbrance accounting.

G. CASH AND CASH EQUIVALENTS

Cash includes amounts in demand deposits and interest bearing demand deposits. Under state law, the District may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

H. PREPAID ITEMS

Prepaid items consist of expenses, paid in the current year, that cover operations, during the next fiscal year.

I. CAPITAL ASSETS

Capital outlays are recorded as expenditures of the General Fund and as assets in the government–wide financial statement. Depreciation is recorded on general fixed assets on a government-wide basis using the straight-line method and the following estimated useful life:

Fire Stations 40 years
Fire Trucks and Other Trucks 5-20 years
Equipment 3-10 years

Fixed assets are valued at historical cost or estimated historical cost if actual cost was not available. Donated assets are valued at fair market value on the date donated. The cost of all assets acquired prior to 1989 have been valued using estimated historical cost.

J. COMPENSATED ABSENCES

The District does not have any paid employees; therefore, it does not have a formal leave policy.

K. LONG-TERM OBLIGATIONS

Long-term obligations are reported in the government-wide financial statement.

L. NET POSITION-GOVERNMENT WIDE

GASB Statement No. 34, Basic Financial Statements, Management's Discussion and Analysis, for State and Local Governments, required reclassification of net assets into three separate components. GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, revised the terminology by incorporating deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets. GASB Statement No. 63 requires the following components of net position:

- Invested in capital assets, net of related debt This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or indebtedness attributable to acquisition, construction, or improvement of those assets. If there are significant unspent proceeds at year-end, the portion of the debt attributable to unspent proceeds is not included in the calculation of of invested in capital assets, net of related debt. Rather, that portion of the debt is included in the same net position calculation as unspent proceeds.
- Restricted this component of net position consists of constraints placed on the
 asset use through external constraints imposed by creditors (such as through debt
 covenants), grantors, contributors, or law or regulations of other governments or
 constraints imposed by law though constitutional provisions or enabling legislation.
- Unrestricted This component of net position consists of assets and liabilities that
 do not meet the definition of "restricted" or "invested in capital assets, net of related
 debt"

M. FUND BALANCE-GOVERNMENTAL FUND STATEMENT

In the fund financial statements, governmental fund equity is classified as fund balance. Governmental funds are classified as follows:

- Nonspendable -These are amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.
- Restricted -These are amounts that can be spent only for specific purpose because
 of constitutional provisions, enabling legislation, or externally imposed constraints by
 creditors, grantor, contributors or the laws or regulations of other governments.
- Committed -These are amounts that can be used for specific purpose determined by a formal decision by the Board Members, which are the highest level of decisionmaking authority for the District.
- Assigned -These are amounts that do not meet the criteria to be classified as restricted or committed, but that are intended to be used for specific purpose.
- Unassigned -These are all other spendable amounts.

NOTE-2 LEVIED TAXES

On November 20, 1999, the voters of Washington Parish passed a proposition approving the levy of a 10 year, 17 mill property tax for acquiring, constructing, improving, maintaining and/or operating fire protection facilities and equipment for the District and paying the cost of obtaining water for fire protection purposes. For 2016, the millage was set at 17.28 mills.

NOTE-3 CASH AND CASH EQUIVALENTS

At December 31, 2016, the District has cash and cash equivalents totaling \$45,863 as follows:

Non-interest bearing demand deposit	45,863
Total Cash	45,863

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are to be held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. At December 31, 2016, the District had \$47,156 in deposits (collected bank balances). These deposits were secured from risk by \$250,000 of the federal deposit insurance and the remaining collateralized by Whitney Bank.
