#### INDEPENDENT AUDITOR'S REPORT

Board of Commissioners Southeast Louisiana Flood Protection Authority – West Marrero, Louisiana

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Southeast Louisiana Flood Protection Authority — West (the "West Authority"), a component unit of the State of Louisiana, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the West Authority's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these basic financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the West Authority as of June 30, 2016 and the respective changes in financial position and the budgetary comparison for the West Authority's General fund, the West Jefferson Levee District O&M Special Revenue Fund and the Algiers Levee District O&M Special Revenue Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 3 through 9 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during my audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was made for the purpose of forming an opinion on the financial statements that collectively comprise the West Authority's basic financial statements. The Individual Fund Statements and Schedules and the other Supplementary Information listed in the table of contents as well as the Division of Administration – Annual Financial Report are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The individual fund statements, schedules and supplementary information including the Division of Administration – Annual Financial Report are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual fund statements, schedules, and other supplementary information are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated August 29, 2016, on our consideration of the West Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the West Authority's internal control over financial reporting and compliance.

### SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY – WEST

## MANAGEMENT'S DUSCUSSION AND ANALYSIS June 30, 2016

As management of the Southeast Louisiana Flood Protection Authority – West (the "West Authority"), we offer readers of the West Authority's financial statements this narrative overview and analysis of the financial activities of the West Authority as of June 30, 2016 and for the fiscal year then ended. We encourage readers to consider the information presented here in conjunction with the financial statements. All amounts, unless otherwise noted, are expressed in thousands of dollars (\$1,000's).

#### FINANCIAL HIGHLIGHTS

- The assets of the West Authority exceeded its liabilities at the close of the most recent fiscal year by \$24,871 (net position). Of this amount, \$8,717 or 35.0 percent reflects its investment in capital assets (e.g., land, buildings, equipment, vehicles and infrastructure), \$531 or 2.1 percent is restricted for capital projects, and \$15,623 (unrestricted net position) or 62.9 percent may be used to meet the government's ongoing obligations to citizens and creditors.
- The West Authority's total net position increased by \$977 or 4.1 percent during 2016 primarily due to a legal settlement the West Authority received during the current fiscal year.
- As of close of the current fiscal year, the West Authority's governmental funds reported combined ending fund balance of \$23,683, an increase of \$1,959 or 9.0 percent. Approximately \$9,559 (40.3 percent) is reported as committed fund balance, \$13,646 (57.6 percent) is assigned fund balance, and \$478 (2.1 percent) is unassigned fund balance and is available for spending at the government's discretion.
- At the end of the current fiscal year, unassigned fund balance for the West Authority's General Fund was \$478, which was 21.0 percent of total general fund expenditures.
- > The WJLD O&M Special Revenue Fund had fund balance of \$9,664 and increase of \$936 from last year.
- > The ALD O&M Special Revenue Fund had fund balance of \$6,127, an increase of \$716 from last year.
- > WJLD and ALD both maintain reserves in Emergency Funds. The committed fund balances relating to these reserves totaled \$1,544 and \$840, respectively.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis are intended to serve as an introduction to the Southeast Louisiana Flood Protection Authority – West's (the "West Authority") basic financial statements. The West Authority's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The "government-wide financial statements" are designed to provide readers with a broad overview of the West Authority's finances, in a manner similar to a private-sector business.

The "statement of net position" presents information on all of the West Authority's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the West Authority is improving or deteriorating.

The "statement of activities" present information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expense are reported in this

statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish function of the West Authority that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The West Authority only has governmental activities in the public works function. This function includes executive, administrative, and maintenance/construction activities.

The State of Louisiana (the primary government) issues financial statements that include the activity contained in these financial statements. The State's financial statements are issued by the Louisiana Division of Administration — Office of Statewide Reporting and Accounting Policy and are audited by the Louisiana Legislative Auditor. The West Authority is a "component unit" of the State of Louisiana.

The West Authority, in turn, has two component units of its own, the West Jefferson Levee District and the Algiers Levee District, that are included (i.e., "blended") in these financial statements. Both of these levee districts are separate legal entities from the West Authority, however, because West Authority's Board serves as their oversight boards, they are, in substance, part of the West Authority.

**Fund financial statements.** A "fund" is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The West Authority, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The West Authority's funds are classified as "governmental funds".

"Governmental funds" are used to account for essentially the same functions reports as "governmental activities" in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for "governmental funds" with similar information presented for "governmental activities" in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between "governmental fund" and "governmental activities".

The West Authority and its component units maintain various funds that are grouped for management purposes into various fund types. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Statement of Revenues, Expenditures, and Changes In Fund Balances for the General Fund, the WJLD O&M Special Revenue Fund, the ALD O&M Special Revenue fund, the WJLD Emergency Special Revenue Fund, the WJLD Westbank Hurricane Capital Projects Fund, and the West Closure Complex Fund. All of these funds are considered to be "major" funds.

The West Authority adopts annual budgets for its General Fund, the WJLD O&M Special Revenue Fund and the ALD O&M Special Revenue Fund. A budgetary comparison statement has been provided for each fund to demonstrate compliance with this budget.

**Notes to the Financial Statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the West Authority, assets exceeded liabilities by \$24,871 at June 30, 2016.

A large portion of the West Authority's net position (35.0 percent) reflects its investment in capital assets (e.g., land, buildings, furniture and fixtures, vehicles and heavy equipment, and infrastructure); less any related debt used to acquire those assets that is still outstanding. The West Authority used these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the West Authority's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other resources, since the capital assets themselves cannot be used to liquidate these liabilities.

| Current and other assets             | \$<br>23,855 |         | \$    | 21,961 |       |
| Capital assets                       | 8,717        |         |       | 8,973  |       |
| Deferred outflows related to pension | 945          |         |       | 1,399  |       |
| Total assets                         | \$<br>33,517 |         | \$    | 32,333 |       |
| Long-term liabilities outstanding    | \$<br>8,383  |         | \$    | 7,330  |       |
| Otherliabilities                     | 172          |         |       | 237    |       |
| Deferred inflows related to pension  | 91           |         |       | 872    |       |
| Total liabilities                    | \$<br>8,646  |         | \$    | 8,439  |       |
| Net Positon                          |              |         |       |        |       |
| Invested in capital assets, net of   |              |         |       |        |       |
| related debt                         | \$<br>8,717  | 35.0%   | \$    | 8,973  | 37.6% |
| Restricte d                          | 531          | 2.1%    |       | 531    | 2.2%  |
| Unresticted                          | <br>15,623   | 62.8%   |       | 14,390 | 60.2% |
| Total net position                   | \$<br>24,871 | ·       | \$    | 23,894 |       |

Restricted net position of \$531 are reported (2.1 percent of the total) to show that funds are restricted for use on the projects that are funded through the capital project fund (in this case, the Westbank Hurricane Levee Protection project).

The remaining balance of *unrestricted net position* (\$15,623 or 62.9 percent) may be used to meet the government's ongoing obligations to citizens and creditors.

At June 30, 2016, the West Authority is able to report positive fund balances in all three categories of net position.

**Governmental Activities.** Governmental activities increased the West Authority's net position by \$977. Key elements of this increase are as follows:

## SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY — WEST CHANGES IN NET POSITION

|                                  | Governi   | mental Activities |

| Pension                          | 471       | <u></u>           |
| Total expenses                   | 9,760     | 7,209             |
| Increase in net position         | 977       | 1,490             |
| Net position - beginning of year | 23,894    | 22,404            |
| Net position - end of year       | \$ 24,871 | \$ 23,894         |

Revenues increased \$2,038 or 19.0% primarily due to the proceeds from the BP Deepwater Horizon oil spill legal settlement that occurred in April 2010. The West Authority received a total of \$2,007,164 covering both West Jefferson and Algiers as a full and final settlement. Revenue sharing was reduced due to state budget cuts. Interest increased as a result of switching financial institutions and obtaining higher interest rates.

Expenses increased \$2,551 or 35.4%. Higher legal fees due to the BP legal settlement and millage election expenses contributed to this increase as well as higher project costs.

#### FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the West Authority uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds.** The focus of the West Authority's "governmental funds" is to provide information on nearterm inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the West Authority's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At June 30, 2016, the West Authority's governmental funds reported a combined ending fund balance of \$23,683, and increase of \$1,959 or 9.0% in comparison to the prior year. Of the total, \$478 is reported in the General Fund, \$15,791 is in Special Revenue Funds, and \$7,414 is in Capital Project Funds.

The **General Fund** is the chief operating fund of the West Authority. At June 30, 2016, the unassigned fund balance of the General Fund totaled \$478. The fund balance of the West Authority's General fund increased by \$396 during the current fiscal year.

The **WJLD O&M Special Revenue Fund** is the chief operating fund of the West Jefferson Levee District. At June 30, 2016, the fund balance of this Special Revenue Fund totaled \$9,664, an increase of \$936 from the prior year. Of this amount \$1,544 is committed to funding emergency activities.

The ALD O&M Special Revenue Fund is the chief operating fund of the Algiers Levee District. At June 30, 2016, the fund balance of this Special Revenue Fund totaled \$6,127, an increase of \$716 from the prior year. Of this amount \$840 is committed to funding emergency activities.

The WJLD Westbank Hurricane Levee Capital Project fund has a total fund balance of \$5,572 at year-end. The West Closure Complex has a fund balance of \$239 at year-end.

For budgetary purposes, the West Authority budgets the activities of the **WJLD Emergency Special Revenue fund** and the **ALD Emergency Special Revenue Fund** separately form the O&M funds of each district. At June 30, 2016, these funds had fund balances of \$1,544 and \$840, respectively. For GAAP purposes, these funds are merged into the applicable O&M Special Revenue Fund and the fund balances are shown as committed fund balance.

#### **BUDGETARY HIGHLIGHTS**

#### Revenues

The **West Authority's General Fund's** final budget called for revenues of \$155 which included intergovernmental funding of \$140 which was transferred out to capital projects. Overall, revenues came in right at budget.

The **WJLD O&M Special Revenue Fund's** final budget called for revenues of \$5,680. Overall, revenues came in slightly under budget.

The **ALD O&M Special Revenue Fund's** final budget called for revenues of \$2,759, an increase of \$1,428 from the original. The largest increases were in Ad Valorem and Interest. Overall, revenues came in slightly over budget.

#### Expenditures

Overall, the expenditures of the West Authority and its major operating funds came in at or near budget.

The **West Authority's General Fund** expenditures were \$461 less than the final budgeted amount of \$2,736. All functions were basically right at or slightly over or under budget.

The **WJLD O&M Special Revenue Fund** expenditures were \$474 less than the final budgeted amount of \$4,066. All functions were basically right at or slightly over or under budget.

The **ALD O&M Special Revenue Fund** expenditures were \$275 less than the final budgeted amount of \$1,027. All functions were basically right at or slightly over or under budget.

#### CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets. The West Authority's investment in capital assets for its governmental activities as of June 30, 2016 amounts to \$8,717 (net of accumulated depreciation). This investment in capital assets includes land, buildings, furniture and equipment, vehicles and heavy equipment. The West Authority's investment in capital assets decreased by \$256 or 2.9%.

The infrastructure assets (primarily levees) were removed from the books of the West Authority in 2011 as it was determined that the levees previously capitalized by the West Jefferson Levee District had been replaced or greatly improved upon by the construction of the new Westbank Hurricane Protection Levee. This new levee was built post-Katrina by the Corps of Engineers (COE) and the Coastal Protection and Restoration Authority (CPRA). These assets are now carried on their books.

**Long-term Debt**. At the end of the current fiscal year, the West Authority long-term debt totaled \$8,383. This amount is made up of \$233 in compensated absences, \$1,682 in Other Post-Employment Benefits (OPEB) and \$6,468 in Net Pension Liability.

The \$1,682 in OPEB relates to the calculated amount of unfunded actuarial contributions that have been accrued on the financial statements. To date, the West Authority is not able to fund the actuarially calculated liability for OPEB.

The pension liability was actuarially calculated by the State Retirement System.

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The **West Jefferson Levee District** (WJLD) levies a millage of 5.03 mills for Levee District Constitutional General Tax that generates \$5.2 million in revenue annually. WJLD operations have been funded at this level since its founding in 1980. This funding level was sufficient to operate and maintain levees that were in place prior to Hurricane Katrina.

However, following Hurricane Katrina the flood protection system within WJLD's jurisdiction was vastly expanded and upgraded. The new infrastructure has provided 47 miles of wider, higher, stronger hurricane protection levees, 19 miles of similarly upgraded Mississippi River levees, plus enhancements to pump stations and floodgates. This included construction of the world's largest pump station and North America's largest sector gate, which protect the entire West Bank of the New Orleans Metropolitan Area.

The overall federal and state investment was \$4.9 billion for the West Bank and Vicinity project. Over the next several years, the new HSDRRS will require expensive Repairs, Rehabilitation and Replacement (RR&R), including levee lifts to compensate for natural subsidence.

In November of 2015, voters rejected WJLD's request for a 5.5 millage increase for 30 years. Without this additional revenue, WJLD has scaled back its proposed schedule of levee lifts. While this revised maintenance schedule will allow WJLD to provide satisfactory near term flood protection, present funding will be inadequate to cover required RR&R or maintenance lifts beyond fiscal 2016. Because of the failure of the 2015 proposed millage election for WJLD, the annual budgets will not be able to cover future levee lifts and structural repairs with projected resources beginning in 2016. This was affirmed as estimated by the independent Bureau of Governmental Research (BGR) review, which noted that the annual deficiencies will be approximately \$5.6 million. Further, as BGR stated, the "consequent deterioration of the system could increase the risk of flooding and lead to flood insurance rate hikes." This places WJLD at risk of not being able to maintain FEMA certification of its levees. Areas located behind decertified levees will be designated as high-risk Special Flood Hazard Areas.

The Algiers Levee District (ALD) generates \$2.6 million in revenue from 5.46 mills for Levee District Constitutional General Tax, 0.75 mills for Levee District Maintenance Tax and 6.35 mills for Special Levee Improvement Tax. The Special Levee Improvement Tax, which currently generates \$1.2 million out of the \$2.6 million, was renewed by the voters of Algiers during the November 2015 election for a period of 30 years. This revenue generated is anticipated to be sufficient to operate and maintain the upgraded flood protection system in Algiers, including 14 miles of river levees and 10 miles of Donner Canal levees. The Algiers Levee District was carved out of the Orleans Levee District (OLD) in 2007, and retained the same taxing millage inherited from the OLD.

All of these factors were considered in preparing the West Authority's budgets for the 2015/2016 fiscal year.

#### REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the West Authority's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Board President, Southeast Louisiana Flood Protection Authority – West, 7001 River Road, Marrero, LA 70072.

### SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY-WEST STATE OF LOUISIANA

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2016

Amounts reported for governmental activities in the Statement of Activities are different because:

| Net change in fund balances - total governmental funds   | \$       | 1,958,706 |
|--|----------|-----------|
| Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeds capital outlays in the current period.   |          | (264,298) |
| The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the payment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas, these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. |          |           |
| Increase in compensated absences   |          | (15,859)  |
| Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds, including expense of annual required contribution for OPEB and the net pension liability including deferred outlfows and inflows   |          | (701,453) |
| Net change in net position of governmental activities plus extraordinary item  | <u> </u> | 977,096   |
| The manage in the position of governmental activities play excitationally term   | - ب      | 317,030   |

#### SOUTHEAST LOUISIANA

## FLOOD PROTECTION AUTHORITY – WEST STATE OF LOUISIANA NOTES TO FINANCIAL STATEMENTS June 30, 2016

#### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Southeast Louisiana Flood Protection Authority – West (the "West Authority") have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the West Authority's accounting policies are described below.

#### 1. Reporting Entity

GASB Codification Section 2100 establishes criteria for determining the governmental reporting entity and its component units. Component units are defined as legally separate organizations for which the elected or appointed officials or a primary government are financially accountable. The criteria used in determining whether financial accountability exists include the appointment of a voting majority of an organization's governing board, the ability of the primary government to impose its will on that organization or whether there is a potential for the organization to provide specific financial benefits or burdens to the primary government. Fiscal dependency may also play a part in determining financial accountability. In addition, a component unit can be another organization for which the nature and significance of its relationship with a primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The West Authority was created by Act 1 of the First Extraordinary Session of 2006. The governing board of commissioners administers the operations and responsibilities in accordance with the provision of Louisiana statutes. The West Authority is charged with overseeing the levee districts on the Westbank of the New Orleans Metropolitan area, which includes the West Jefferson Levee District and the Algiers Levee District. The members of the Board are appointed by the Governor of the State of Louisiana form a list of nominations submitted by a nominating committee as provided by statute.

For financial reporting purposes, it has been determined that the West Authority is a component unit of the State of Louisiana. Annually, the State of Louisiana (the primary government) issues general purpose financial statements which include the activity contained in the accompanying financial statements. The State's general purpose financial statements are issued by the Louisiana Division of Administration — Office of Statewide Reporting and Accounting Policy and are audited by the Louisiana Legislative Auditor.

#### NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

As noted above, the West Authority is charged with the responsibility of overseeing the West Jefferson Levee District and the Algiers Levee District. Both of these levee districts are separate legal entities from the West Authority, however, because the West Authority's Board serves as their oversight board, they are, in substance, part of the West Authority and are included (i.e., blended) within the West Authority's financial report.

The West Jefferson Levee District was incorporated on August 1, 1980, under the provision of Act 820 of the 1980 Legislative session, as amended (Civil Service code). It was charged with providing flood protection for those areas contained within the Parish of Jefferson to the west of the Mississippi River. Act 475 of the 2007 Legislative session amended the district by carving out a portion of the covered area and designating it the Lafitte Area Independent Levee District. All lands and other assets in the designated area were turned over by the West Jefferson Levee District to the new Lafitte Area Independent Levee District. West Jeff continues to cover those areas in Jefferson Parish to the west of the Mississippi River that are not within the boundaries of the Lafitte Area Independent Levee District.

The Algiers Levee District was also formed by Act 475 of the 2007 Legislative session. This Act carved a section out of the existing Orleans Levee District, specifically that portion of the Parish of Orleans on the west side of the Mississippi River.

#### 2. Government-wide and Fund Financial Statements

#### **Government-wide Financial Statements**

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the West Authority. For the most part, the effect of inter-fund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Because of the nature of the West Authority's operations, the West Authority reports only governmental activities.

The statement of activities demonstrates the degree to which the direct expense of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Fund Financial Statements**

Funds are used by the West Authority to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts. The funds of the West Authority are classified into the "governmental" category. The category, in turn, is divided into separate "fund types".

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general fixed assets (capital project funds), and the servicing of general long-term debt (debt service funds). The General Fund is used to account for all financial activities of the general government not accounted for in some other fund.

Major individual governmental funds are reported as separate columns in the fund financial statements. The West Authority reports the following major governmental funds:

The **SELFPA-W General Fund** is the general operating fund of the West Authority. It is used to account for all financial resources except those required to be accounted for in another fund.

The **WJLD Operations and Maintenance Special Revenue Fund** is the general operating account for the West Jefferson levee District. It is used to account for all financial resources dedicated to administration and maintenance costs of the district.

The *ALD Operations and Maintenance Special Revenue Fund* is the general operating account for the Algiers Levee District. It is used to account for all financial resources dedicated to administration and maintenance costs of the district.

The WJLD Emergency Operations Special Revenue Fund accounts for monies that are restricted to expenditures in the West Jefferson Levee District related to emergencies. For GAAP purposes, this fund is now merged into the WJLD Operations and Maintenance Special Revenue Fund.

The **ALD Emergency Operations Special Revenue Fund** accounts for monies that are restricted to expenditures in the Algiers Levee District related to emergencies. For GAAP purposes, this fund is now merged into the ALD Operations and Maintenance Special Revenue Fund.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The *Westbank Hurricane Protection Levee Capital Project Fund* is used to account for financial resources dedicated by the West Jefferson Levee District to be used for acquisition or construction of major capital facilities and structures related to the Westbank Hurricane Levee system.

The **West Closure Complex Fund** is used for operations, maintenance and repairs for the West Closure Complex to be performed by the West Authority and Plaquemines Parish for a period of one year or until such time as the provisions of Section 2013 of WRRDA 2014 are implemented by the United States Army Corp of Engineers.

The West Closure Complex Emergency Operations Special Revenue Fund accounts for monies that are restricted to expenditures in the West Jefferson Levee District and the Algiers Levee District related to emergencies of the West Closure Complex.

#### 3. Measurement Focus, Basis for Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Governmental fund financial statements are reported using a *current financial resources measurement focus* and the *modified accrual basis of accounting.* Revenues are recognized when susceptible to accrual (i.e., when they become both measureable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The West Authority considers property taxes as available if they are collected within 60 days after year end. A one-year availability period is used for revenue recognition for all other governmental fund revenues. Property taxes, intergovernmental revenues, and interest associated with the current fiscal year are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt, as well as expenditures related to compensated absences and claims and judgments, only when payment is due.

#### 4. Assets, Liabilities, and Net position or Equity

#### A. Cash and Investments

For reporting purposes, cash and cash equivalents includes amounts in demand deposits, time deposits, and certificates of deposit. Louisiana Revised Statures allow the West Authority to invest in time certificates of

June 30, 2016

#### NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

deposit of state banks organized under the laws of Louisiana, national banks having their principal office in the State of Louisiana, in savings accounts or shares of savings and loan associations and savings banks and in share accounts and share certificate accounts of federally or state chartered credit unions.

State statutes authorize the West Authority to invest in obligations of the U. S. Treasury, commercial paper, corporate bonds and repurchase agreements. In accordance with GASB Statement No. 31, investments, if any, are generally stated at fair value. If the investment is in money market securities and has a maturity date of less than 90 days form the balance sheet date, the investment is stated at cost or amortized cost.

#### B. Interfund Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at year end are referred to as either "due to/from other funds" (i.e., the current portion of inter-fund loans) or "advances to/from other funds" (i.e., the non-current portion of inter-fund loans). As a general rule, all inter-fund balances are eliminated in the government-wide financial statements.

#### C. Inventories

The cost of materials and supplies acquired by the West Authority are recorded as expenditures at the time of purchase. It is management's opinion that the inventory of such materials and supplies at June 30, 2016 would not be material to the financial statements.

#### D. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2016, are recorded as expenditures when paid. It is management's opinion that the prepaid amount June 30, 2016, if any, would not be material to the financial statements.

#### E. Capital Assets

Capital assets, which include property, plant equipment, and infrastructure assets (e.g., levees, floodwalls, sector gates and similar items), are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the West Authority as assets with an initial, individual cost of more than \$1,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

#### SOUTHEAST LOUISIANA

#### FLOOD PROTECTION AUTHORITY – WEST

#### STATE OF LOUISIANA

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2016

#### NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed and are included in construction in progress. The levees are divided into "reaches" and are capitalized as such. Any major "lifts" or improvements to an existing levee/reach are capitalized as an addition to that levee/reach.

Property, plant, equipment, and infrastructure are depreciated using the straight-line method (with a midyear convention) over the following estimated useful lives:

| Asset Category  | Estimated Life in Years |
|---|-------------------------|
| Buildings   | 40                      |
| Furniture and fixtures                                | 5                       |
| Autos and trucks                                      | 5                       |
| Mowers  | 5                       |
| Tractors  | 7-10                    |
| Heavy Equipment                                       | 5                       |
| Radios  | 3                       |
| Infrastructure (levees, floodwalls, floodgates, etc.) | 50                      |

#### F. Compensated Absences

It is the West Authority's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the West Authority does not have a policy to pay any amounts when employees separate from service to the West Authority. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements. In accordance with GASB Statement No. 16, an additional liability is recorded for salary related payments associated with the future payments of compensated absences.

#### G. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term debt obligations are recognized as liabilities in the applicable governmental activities statement of net position.

#### FLOOD PROTECTION AUTHORITY - WEST

#### STATE OF LOUISIANA

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2016

#### NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures. Payment of principal and interest are recorded as expenditures only when due.

#### H. Fund Equity

In accordance with Government Accounting Standards Board (GASB) Statement No. 54-Fund Balance Reporting and Governmental Fund Type Definitions, fund balances of the governmental fund types are categorized into one of five categories – Non-spendable, Restricted, Committed, Assigned, or Unassigned In the fund financial statements.

For assigned fund balances, the President and/or Director may assign amounts to a specific purpose via internal memorandum, with the board's approval.

While the West Authority has not established a policy for its use of unrestricted fund balance, it does consider that committed amounts would be reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

#### NOTE B - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

1. <u>Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position</u>

The governmental fund balance sheet includes a reconciliation between fund balance – total governmental funds and net position – governmental activities as reported in the government-wide statement of net position. The details of this \$(8,474,053) difference are as follows:

| Compensated Absences Payable   | \$ (232,793)          |
|--|-----------------------|
| Net Pension Liability  | (6,559,826)           |
| Unfunded Annual Required Contribution for OPE8   | (1,681,434)           |
| Net adjustment to reduce fund balance-total governmental funds to arrive at net assets-governmental activities | <u>\$ (8,474,053)</u> |

#### SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY – WEST STATE OF LOUISIANA

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2016

#### NOTE B - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (CONTINUED)

2. <u>Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities</u>

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances* – *total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this (\$264,298) difference are as follows:

Capital Outlay \$ 216,901

Depreciation Expense (481,199)

Net adjustment to increase net \$ (264,298) changes in fund balances-total

governmental funds to arrive at changes in net assetsgovernmental activities

#### NOTE C - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

#### 1. Budget

Formal budgetary accounting is employed as a management control device during the year for the SELFPA-W General Fund, the WJLD Operations and Maintenance Special Revenue Fund, and the ALD Operations and Maintenance Special Revenue Fund. Budgetary data for the WJLD and ALD Emergency Special Revenue Funds are not presented since these funds are restricted for emergency purposes only and are considered unpredictable. Budgetary data for the Capital Project funds are not presented since these funds are budgeted over the life of the respective project, not on an annual basis.

Expenditures may not exceed appropriations at the object level within the fund. All annual appropriations which are not expended lapse at year end.

The budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP), except that the WJLD and ALD Operations and Maintenance Special Revenue Funds do not include activity related to the two emergency funds. Thus, there is a perspective difference between Budgetary-Basis Actual and GAAP-Basis Actual.

Encumbrances are not recorded for budgetary purposes.

The Board of Commissioners of the West Authority submits the annual budgets to the Joint Legislative Committee on the Budget and the Legislative Auditor for the succeeding fiscal year. The operating budgets include proposed expenditures and the means of financing them.

The original budgets were adopted March of 2015. The amended budgets were adopted during fiscal year 2016. The budgeted amounts are included, respectively, as the original and final budgets in the accompanying statements.

| Ad Valorem taxes                              | \$        | -    | \$ | 17,617 | \$ 1,337,146 | \$    | -           | \$1,354,763 |
| State Coastal Protection and Restoration fund |           | -    |    | -      | -            |       | 31,147      | _ 31,147    |
| Due from Paquemines Parish                    |           | -    |    | -      | -            |       | -           | _           |
| Due from CPRA                                 |           | -    |    | -      | _            |       | -           |             |
|   | \$        | -    | \$ | 17,617 | \$ 1,337,146 | \$    | 31,147      | \$1,385,910 |

The \$17,617 receivable in the WJLD O&M Special Revenue Fund relates to property taxes received in the month of July 2015 that relate to the current fiscal year's tax sale held by the Jefferson Parish Tax Collector Fund and the final payment of state revenue sharing.

The \$1,337,146 receivable in the ALD O&M Special Revenue Fund relates to property taxes received in the month of July 2015 that relate to the current fiscal year's taxes held by the New Orleans Department of Revenue.

The \$31,147 receivable in the Westbank Hurricane Protection Levee Capital Project Fund is made up of invoice and reimbursable expenses claimed under an agreement with the State Coastal Protection and Restoration Authority for the Westbank Hurricane Levee Project (See Note F).

June 30, 2016

#### 3. Capital Assets

The following is a summary of changes in capital assets during the fiscal year:

| Governmental Activities:               |    |           |                 |         |                 |

| Furniture and Equipment                |    | 383,910   | 51,709          | -       | 435,619         |
| Machinery, Vehicles and Heavy Equi     | р  | 1,325,239 | 348,857         | -       | 1,674,096       |
| Infrastructure                         |    | -         | -               | -       | -               |
| Total Accumulated Depreciation         |    | 4,109,751 | 481,199         | -       | 4,590,950       |
| Capital Assets Being Depreicated, Net  | \$ | 3,185,402 | \$<br>(256,167) | \$<br>- | \$<br>2,929,235 |
| Total Governmental Activities          |    |           |                 |         |                 |
| Capital Assets, Net                    | \$ | 8,973,126 | \$<br>(256,167) | \$<br>- | \$<br>8,716,959 |

Depreciation expense included in the Statement of Activities for the year ended June 30, 2016 amounted to \$481,199.

Infrastructure assets, including levees and floodgate structures remain at \$-0- for 2016. It should be noted that during 2011, it was determined that the Westbank Hurricane Protection Levee, which had been started by the West Jefferson Levee District (WJLD) years ago and capitalized as infrastructure, was no longer in existence or in use by the West Authority. As discussed in Note F, in the aftermath of Hurricane Katrina, the Corps of Engineers (COE) took over constructing and improving the Westbank Hurricane levee system. The West Jefferson Levee District was replaced as the local sponsor by the Louisiana Coastal Protection and Restoration Authority (LCPRA). By 2011, the COE and the CPRA have essentially replaced or improved upon nearly every reach of the levee system that was previously capitalized by the WJLD. As such, all infrastructure improvements related to this levee system and the related accumulated depreciation were deleted from the books of the WJLD and transferred to the books of the LCPRA. The only asset remaining is the land purchased by WJLD as the footprint of the levee system, as this land remains titled in the name of the WJLD.

June 30, 2016

#### 4. Long-Term Debt

#### **Compensated Absences**

West authority employees, primarily those of the West Jefferson Levee District, earn annual and sick leave at various rates depending on the number of years of service. The amount of annual and sick leave that may be accumulated by each employee is unlimited.

Upon termination, an employee is compensated for up to 300 hours of unused annual leave at the employee's hourly rate of pay at the time of termination. Upon retirement, the number of hours of unused sick leave is computed and considered in computing the years of service for retirement benefit purposes. Compensatory time is accrued up to a balance of 240 hours at rate of time and one-half. An employee who exceeds 240 hours receives either monetary consideration or compensatory time for the amount of hours earned in excess of the 240 hour limit. Upon termination, an employee is paid for unused compensatory time. The amount outstanding at year end was \$232,793.

#### **Changes in Long-Term Debt**

The following is a summary of changes in general long-term obligations of the West Authority for the fiscal year ended June 30, 2016:

|   | Balance      | Д   | dditions   | Balance      |
|---|--------------|-----|------------|--------------|
| Type of Debt                            | 7/1/2015     | (Re | eductions) | 6/30/2016    |
| Compensated Absences                    | \$ 216,934   | \$  | 15,859     | \$ 232,793   |
| Other Post Employment Benefits (Note H) | \$ 1,443,231 | \$  | 238,203    | \$ 1,681,434 |
| Net Pension Liability (Note H)          | 5,669,934    |     | 798,506    | 6,468,440    |
|   | \$ 7,330,099 | \$  | 1,052,568  | \$ 8,382,667 |

Under Policy and Procedures Memorandum 2010-101, the West Authority has created emergency reserve funds within the WJLD O&M and ALD O&M Special Revenue Funds. These committed reserves can only be spent when an emergency is declared by the Board. The fund balances assigned to Levee Operations & Maintenance reflect the designations placed on these funds by the ad valorem tax levies that fund these activities. The amount assigned to the Westbank Hurricane Levee project reflects the balance in the capital project fund that is being used to provide ancillary services to the Corps of Engineers and the Coastal Protections and Restoration Authority in the construction of the Westbank Hurricane Protection Levee (See Note F).

Inter-fund balances/transfers are eliminated and not presented in the Statements of Net Position and Activities.

#### 7. Ad Valorem Taxes

#### **West Jefferson Levee District**

Article 6, § 39 of the 1974 Louisiana Constitution provides that for the purposes of constructing and maintaining levees, levee drainage, flood protection, hurricane flood protection, and for all other purposes incidental thereto, the West Jefferson Levee District may levy annually, a tax not to exceed 5.03 mills. If the district needs to raise additional funds in excess of the amount collected constitutionally, the taxes in excess of 5.03 mills must be approved by a majority vote of the electorate.

#### SOUTHEAST LOUISIANA

#### FLOOD PROTECTION AUTHORITY – WEST

#### STATE OF LOUISIANA

NOTES TO FINANCIAL STATEMENTS

June 30, 2016

#### NOTE D - DETAILED NOTES ON ALL ACTIVITIES AND FUNDS (CONTINUED)

The district levies an ad valorem (property tax) on real property within the district boundaries to finance operations and maintenance activities. The levy is generally made as of November 15 of each year. The tax is then due, and becomes an enforceable lien on the property, on the first day of the month following the filing of the tax roll by the Parish Assessor with the Louisiana Tax Commission (usually December 1). The tax is delinquent 30 days after its due date.

Ad valorem taxes are levied based on property values determined by the Jefferson Parish Assessor's Office (a separate entity). All land and residential improvements are assessed at 10 percent of its fair market value, and other property at 15 percent of its fair market value. Taxes are billed and collected by the Jefferson Parish Sheriff's Office and Ex-Officio Tax Collector (a separate entity), which receives a certain millage for its services. The taxes remitted by the Sheriff to the district are net of assessor's commission and pension fund contributions.

The number of mills levied for operations and maintenance on the 2015 and the 2016 tax rolls were 5.03 for each year, with 2016 being a "non-roll forward" year. This millage rate generated revenues of \$5,125,850 in the current year.

#### **Algiers Levee District**

Article 6, § 39 of the 1974 Louisiana Constitution provides that for the purposes of constructing and maintaining levees, levee drainage, flood protection, hurricane flood protection, and for all other purposes incidental thereto, the Orleans Levee District may levy annually, a tax not to exceed 5.46 mills. If the district needs to raise additional funds in excess of the amount collected constitutionally, the taxes in excess of 5.46 mills must be approved by a majority vote of the electorate. The area covered by this tax includes the area included in the newly formed Algiers Levee District.

In 1983, the voters of the Parish of Orleans elected to continue a 6.35 mill tax on assessed property for a period of 30 years (1985 to 2015) to finance hurricane and flood protection projects and to fund the retirement of levee improvement bonds. An additional millage of 0.75 mills is levied pursuant to a special election held in 1974 to provide a "general maintenance" tax to finance the general maintenance expenditures of the Orleans Levee District. Again, the areas covered by these taxes include the area now governed by the newly created Algiers Levee District.

The actual millage rates levied for 2016 were 5.46 constitutional, 6.35 levee improvements, and 0.75 for general maintenance. These were exactly the same amounts levied last year.

The Algiers Levee District levies an ad valorem (property tax) on real property within the district boundaries to finance operations and maintenance activities based on the assessed values of the prior August 15. As provided by LRS 47:1997(b), ad valorem taxes are assessed for the calendar year, become due on January 1

#### FLOOD PROTECTION AUTHORITY - WEST

#### STATE OF LOUISIANA

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2016

of each year and delinquent on February 1 of each year. The taxes are generally collected between January and April of each year.

Ad valorem taxes are levied based on property values in the City of New Orleans determined by Elected Board of Assessors (a separate entity). All land and residential improvements are assessed at 10 percent of its fair market value, and other property at 15 percent of its fair market value. Taxes are billed and collected by the City's Revenue Department (a separate entity). The taxes are remitted by the City to the Algiers Levee District.

As noted previously, the Algiers Levee District was formed by Act 475 of the 2010 Legislative session by carving an area out of the Orleans Levee District and placing it under the control of the West Authority. For the current fiscal year, the following revenues were recognized in the amount of \$2,596,759.

In 2016, The City of New Orleans reviewed their calculations and distributions to determine the status of the state revenue sharing funds. The Algiers Levee District received \$89,759.

#### 8. Intergovernmental Revenues

Pursuant to Act 1 of the First Extraordinary Session of 2006, the State provided operating fund of up to \$500,000 to the West Authority. During 2016, as per the cooperative agreement with the State, the amount recognized by the West Authority totaled \$-0-.

NOTE E – COMMITEMENT AND CONTINGENCIES

#### 1. Risk Management

The West Authority and its component units are exposed to various risks of loss resulting from personal injury; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. To protect against these risks of loss, the West Authority purchases various types of insurance form commercial carriers.

Under these policies, general liability coverage is provided for up to a maximum of \$1,000,000 per occurrence (\$2,000,000 in the aggregate); automobile coverage is \$1,000,000 for combined single limits for all automobiles; \$2,000,000 for products/completed operations; and worker's compensation is provided at the statutory limits of \$1,000,000/\$1,000,000/\$1,000,000. In each policy, the West Authority or its component unit is responsible for the applicable deductible.

#### NOTE E – COMMITEMENT AND CONTINGENCIES (CONTINUED)

#### 2. Contingent Liabilities

#### Federal and State Financial Assistance

Amounts received or receivable from grantor agencies are subject to audit and adjustments by grantor agencies, principally the federal and state governments. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable fund. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the West Authority expects such amounts, if any, to be immaterial.

#### Litigation

The West Authority and its component units are defendants in a number of claims and lawsuits. The West Authority's attorney has reviewed these claims and lawsuits in order to evaluate the likelihood of an unfavorable outcome to the West Authority and to arrive at an estimate, if any, of the amount or range of potential loss to the West Authority.

As a result of such a review, the various claims and lawsuits have been categorized into "probable", "reasonably possible", and "remote" categories, as defined in GASB Codification Section C50 for Claims and Judgments. In the opinion of management, the West Authority has adequate legal defenses or insurance coverage with respect to each of these claims and lawsuits and does not believe that they will materially affect the West Authority's financial statements.

#### NOTE F - JOINT VENTURE - WESTBANK HURRICANE PROTECTION LEVEE

Pursuant to project cooperative agreement (PCA) dated December 18, 1980, the West Jefferson Levee District (WJLD) and the U.S. Army Corps of Engineers (COE) began constructing a hurricane protection levee system within the District's boundaries under a "cost-sharing" agreement. Under the original agreement, the project was limited to the West of Harvey Canal and the District was to provide 35 percent of the cost as a local match. The WJLD's share was to be made up of expropriations, easements, land acquisitions, relocation assistance and in-kind construction work.

In August 2005, Hurricane Katrina stuck the area. In the aftermath of the storm, the Westbank and Vicinity Hurricane Levee project was modified and placed under the control of the COE.

June 30, 2016

#### NOTE F - JOINT VENTURE - WESTBANK HURRICANE PROTECTION LEVEE (CONTINUED)

In the wake of Hurricane Katrina, several changes were made/proposed to the project. In December 2006, the United States Congress passed the 3<sup>rd</sup> Supplemental Emergency Bill which provided approximately \$200.0 million to the District to repair deficient flood-walls and to accelerate completion of those parts of the project not yet finished. 100 percent of the funding was to be provided by the Federal Government through the COE.

In June 2009, Congress passed the 4<sup>th</sup> Supplemental Emergency Bill which provided an additional \$495.0 million to raise the authorized elevation of levees in the area to meet the requirements of a 100 year event. Flood-wall construction was to be funded at 100 percent by the Federal Government, but levee construction was now funded at 65 percent Federal and 35 percent State/Local. This appropriation was to be spent on the Westbank Hurricane Protection levee and the Lake Ponchartrain Levee (managed by the East Jefferson Levee District). The bill did not allocate the funding between agencies/jurisdictions.

The 4<sup>th</sup> Supplemental Emergency Bill also provided \$1.584 billion to replace all flood-walls within the New Orleans Metropolitan area, including the Parishes of Orleans, St. Bernard, and Jefferson (which includes the area managed by the West Jefferson Levee District). The bill did not allocate the funding between agencies/jurisdictions.

The State amended the Project Cooperative Agreement (PCA) between the State DOTD, the COE, and the levee district to provide for these changes. Amendment No. 2 to the agreement defined the funding and responsibilities for the 3<sup>rd</sup> Supplemental Emergency Bill. Amendment No. 3 to the agreement addressed the funding and responsibilities for the 4<sup>th</sup> Supplemental Emergency Bill.

To provide for the continued construction of hurricane flood protection for coastal Louisiana, the State legislature amended existing legislations that created the Louisiana Coastal Protection and Restoration Authority (LCPRA) to add hurricane flood protection to its responsibility. This organization was charged with the duty of providing "one voice" from which to speak on all issues involving coastal restoration and hurricane protection for the State of Louisiana.

It is in this regard the LCPRA executed a Project Partnership Agreement with the U.S. Army Corps of Engineers (COE) on November 6, 2008, to cover the relationship between non-federal interests and the Corps for continued construction of the West Bank and Vicinity Hurricane Protection Project.

June 30, 2016

#### NOTE F - JOINT VENTURE - WESTBANK HURRICANE PROTECTION LEVEE (CONTINUED)

In this agreement, the State agreed to provide for the 35% required nonfederal match needed for the project. Thus, the COE (federal agent) and the LCPRA (state agent) are now responsible for all construction, repairs, and expropriations related to this levee system. The Southeast Louisiana Flood Protection Authority – West (West Authority) through its West Jefferson Levee District accepted the responsibility of managing the duties of land acquisition and relocation of impacted utilities/facilities.

The cost of this activity is being borne by the LCPRA through the payment of reimbursable items as submitted by the West Jefferson Levee District. During fiscal year 2016, the WJLD expended \$1,051,022 on surveys, abstracts, appraisals and other legal costs associated with land acquisitions for this project in the WJLD Westbank Hurricane Protection Levee Capital Project Fund. Of this amount, \$167,270 was reimbursed through the LCPRA under State Project No. 750-99-0102.

It should be noted that since these post-Katrina projects essentially replaced or greatly improved upon the original Westbank Hurricane Levee system constructed by the COE and the WJLD, the original infrastructure assets capitalized by WJLD were removed from the books of the West Authority in FY 2011.

NOTE G - OTHER POSTEMPLOYMENT BENEFITS

#### Plan Description

The West Jefferson Levee District's medical benefits are provided through the Louisiana Office of Group Benefits (OGB) and involve several statewide networks and one HMO with a premium structure by region.

The OGB plan is a fully insured, multiple-employer arrangement and has been deemed to be an *agent multiple-employer plan* (within the meaning of paragraph 22 of GASB Codification Section P50) for financial reporting purposes and for this valuation. The OGB "Medicare Advantage" plan has been assumed to apply to 50% of retirees after Medicare eligibility for purposes of this valuation. Medical benefits are provided to employees upon actual retirement. Employees are covered by the Louisiana State Employees' Retirement System (LASERS), whose retirement eligibility (D.R.O.P. entry) provisions as follows: 30 years of service at any age; age 55 and 25 years of service; or, age 60 and 10 years of service. Employees hired on or after July 1, 2006 may not retire before age 60 and 10 years of service.

Life insurance coverage under the OGB program is available to retirees by election and is based on the OGB blended rate (active and retired). The employer pays 50% of the cost of the retiree life insurance. Since GASB Codification Section P50 requires the use of "unblended" rates, we have used the 94GAR mortality table described below to "unblend" the rates so as to reproduce the composite blended rate overall as the rate structure to calculate the actuarial valuation results for life insurance. All of the assumptions used for the valuation of the medical benefits have been used except for the trend assumption; zero trend was used for life insurance. Insurance coverage amounts are reduced at age 65 and again at age 70 according to the OGB plan provisions.

## NOTES TO FINANCIAL STATEMENTS June 30, 2016

#### NOTE G - OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

#### **Contribution Rates**

Employees do not contribute to their post-employment benefits costs until they become retirees and begin receiving those benefits. The plan provisions and contribution rates are contained in the official plan documents of the OGB.

#### **Funding Policy**

Until 2008, the West Authority recognized the cost of providing post-employment medical and life benefits (the West Authority's portion of the retiree medical and life benefit premiums) as an expense when the benefit premiums were due and thus financed the cost of the post-employment benefits on a pay-as-you go basis. Effective with the fiscal year beginning July 1, 2008, the West Authority implemented Government Accounting Standards Board Statement No. 45, Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions (GASB 45). The funding policy is not to fund the ARC except to the extent of the current year's retiree funding costs.

In 2016 and 2015, the West Authority's portion of health care and life insurance funding cost for retired employees totaled \$135,985 (SLFPA-W and WJLD combined) and \$108,502, respectively. These amounts were applied toward the Net OPEB Benefit Obligation as shown in the following table.

#### Annual Required Contribution

The West Authority's Annual Required Contribution (ARC) is an amount actuarially determined in accordance with GASB 45. The ARC is the sum of the Normal Cost plus the contribution to amortize the Unfunded Actuarial Accrued Liability (UAAL). A level dollar, open amortization period of 30 years (the maximum amortization period allowed by GASB 43/45) has been used for the post-employment benefits. The total ARC for 2016 and 2015 is \$399,921 and \$373,993, as set forth below:

| <br>2016      |                       | 2015                     |
|---------------|-----------------------|--------------------------|
| \$<br>146,125 | \$                    | 139,914                  |
| 253,796       |                       | 234,079                  |
| \$<br>399,921 | \$ _                  | 373,993                  |
| \$<br>        | \$ 146,125<br>253,796 | \$ 146,125 \$<br>253,796 |

#### NOTES TO FINANCIAL STATEMENTS

#### NOTE G – OTHER INFORMATION (CONTINUED)

#### Net Post-employment Benefit Obligations (Asset)

The table below shows the West Authority's Net Other Post-employment Benefit (OPEB) Obligation for fiscal year ending June 30:

|                                   |             | 2016      |         | 2015      |
|-----------------------------------|-------------|-----------|---------|-----------|
| Beginning Net OPEB Obligation     | \$          | 1,443,231 | \$      | 1,199,120 |
| Annual required contribution      |             | 399,921   |         | 373,993   |
| Interest on Net OPEB Obligation   |             | 57,729    |         | 47,965    |
| ARC Adjustment                    |             | (83,462)  |         | (69,345)  |
| OPEB Cost                         | 374,188     |           | 352,613 |           |
| Contribution to Irrevocable Trust |             | -         |         | -         |
| Current year retiree premium      |             | (135,985) |         | (108,502) |
| Change in Net OPEB Obligation     | <del></del> | 238,203   |         | 244,111   |
| Ending Net OPEB Obligation        | \$          | 1,681,434 | \$      | 1,443,231 |

The following table shows the West Authority's annual post-employment benefits (PEB) cost, percentage of the cost contributed, and the net unfunded post-employment benefits (PEB) liability for this year and last year.

| Fiscal Year Ended | Annual OPEB<br>Cost | Percentage of<br>Annual Cost<br>Contributed | Net OPEB<br>Liability<br>(Asset) |
|-------------------|---------------------|---|----------------------------------|
| June 30, 2016     | \$ 374,188          | 36.34%                                      | \$ 1,681,434                     |
| June 30, 2015     | \$ 352,613          | 30.77%                                      | \$ 1,443,231                     |

#### NOTE G – OTHER INFORMATION (CONTINUED)

Funded Status and Funding Progress – In 2016, the West Jefferson Levee District made no contributions to its post-employment benefits plan. The plan is not funded, has no assets, and hence has a funded ratio of zero. Based on the July 1, 2013 actuarial valuation, the most recent valuation, the Actuarial Accrued Liability (AAL) at the end of the year June 30, 2016 was \$4,564,114 which is defined as that portion, as determined by a particular actuarial cost method (the West Jefferson Levee District uses the Projected Unit Credit Cost Method), of the actuarial present value of post-employment plan benefits and expenses which is not provided by normal cost.

|   | 2016                       |
|---|----------------------------|
| Actuarial Accrued Liability (AAL)   | \$<br>4,564,114            |
| Actuarial Value of Plan Assets (AVP)  | <br>_                      |
| Unfunded Act. Accrued Liability (UAAL)  | \$<br>4,564,114            |
| Funded Ratio (AVP/AAL)  | 0.00%                      |
| Covered Payroll (active plan members) UAAL as a percentage of covered payroll | \$<br>2,323,461<br>196.44% |

#### **Actuarial Methods and Assumptions**

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. The actuarial valuation for post-employment benefits includes estimates and assumptions regarding (1) turnover rate; (2) retirement rate; (3) health care cost trend rate; (4) mortality rate; (5) discount rate (investment return assumption); and (6) the period to which the costs apply (past, current, or future years of service by employees). Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

The actuarial calculations are based on the types of benefits provided under the terms of the substantive plan (as understood by the West Authority and its employee plan members) at the time of the valuation and on the pattern of sharing costs between the West Authority and its plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the West Authority and plan members in the future. Consistent with the long-term perspective of actuarial calculations, the actuarial methods and assumptions used included techniques that are designed to reduce short-term volatility in actuarial liabilities and the actuarial value of assets.

June 30, 2016

#### NOTE G – OTHER INFORMATION (CONTINUED)

#### **Actuarial Cost Method**

The ARC is determined using the Projected Unit Credit Cost Method. The employer portion of the cost for retiree medical care in each future year is determined by projecting the current cost levels using the healthcare cost trend rate and discounting this projected amount to the valuation date using the other described pertinent actuarial assumptions, including the investment return assumption (discount rate), mortality, and turnover.

#### **Actuarial Value of Plan Assets**

Since OPEB obligation has not yet been funded, there are not any assets. It is anticipated that in future valuations, should funding take place, a smoother market value consistent with Actuarial Standards Board ASOP 6, as provided in paragraph number 125 of GASB Codification Section P50.

#### **Turnover Rate**

An age-related turnover scale based on actual experience as described by administrative staff has been used. The rates, when applied to the active employee census, produce an annual turnover of approximately 10%.

#### Post-employment Benefit Plan Eligibility Requirements

It is assumed that entitlement to benefits will commence five years after earliest eligibility to enter the DROP as described above under the heading "Plan Description". This consists of a three year DROP period plus an additional two year delay. Medical benefits are provided to employees upon actual retirement. Employees are covered by the Louisiana State Employee's Retirement System (LASERS), whose retirement eligibility (DROP entry) provisions as follows: 30 years of service at any age; age 55 and 25 years of service; or, age 60 and 10 years of service. Entitlement to benefits continues through Medicare to death.

#### **Investment Return Assumption (Discount Rate)**

GASB Codification Section P50 states that the investment return assumption should be the estimated long-term investment yield on the investments that are expected to be used to finance the payment of benefits (that is for a plan which is funded). Based on the assumption that the ARC will not be funded in the near future, we have performed this valuation using a 4% annual investment return assumption.

June 30, 2016

NOTE G – OTHER INFORMATION (CONTINUED)

#### **Health Care Cost Trend Rate**

The expected rate of increase in medical cost is based on a grading schedule beginning with 8.0% annually, down to an ultimate annual rate of 5.0% for ten years out and later.

#### **Mortality Rate**

The 1994 Group Annuity Reserving (94GAR) table, projected to 2002, based on a fixed blend of 50% of the unloaded male mortality rate and 50% of the unloaded female mortality rate was used. This is a recently published mortality table which has been used in determining the value of accrued benefits in defined benefit pension plans. Projected future mortality improvement has not been used since it is our opinion that this table contains a sufficiently conservative margin for the population involved in this valuation.

#### Method of Determining Value of Benefits

The "value of benefits" has been assumed to be the portion of the premium after retirement date expected to be paid by the West Authority for each retiree and has been used as the basis for calculating the actuarial present value of OPEB benefits to be paid. The OGB medical rates provided are "unblended" rates for active and retired as required by GASB 45 for valuation purposes. For current and future retirees after age 65, it has been assumed that 50% elect the OGB Medicare Advantage program and 50% elect the standard OGB post-65 program.

#### Inflation Rate

Included in both the Investment Return Assumption and the Healthcare Cost Trend rates noted above is an implicit inflation assumption of 2.50% annually.

#### **Projected Salary Increase**

This assumption is not applicable since neither the benefit structure nor the valuation methodology involves salary.

#### Post-retirement Benefit Increases

The plan benefit provisions in effect for retirees as of the valuation date have been used and it has been assumed for valuation purposes that there will not be any changes in the future.

#### NOTE G - OTHER INFORMATION (CONTINUED)

#### **OPEB Costs and Contributions – Last Three Fiscal Years**

Listed in the table below is a summary of OPEB costs and contributions for the last three fiscal years.

| OFER | Costs | and | Contri | butions |
|------|-------|-----|--------|---------|
|      |       |     |        |         |

|                                       |    | FY 2014 | FY 2015       | FY 2016       |
|---------------------------------------|----|---------|---------------|---------------|
| OPEB Cost                             | \$ | 342,545 | \$<br>352,613 | \$<br>374,188 |
| Contribution                          |    | 0       | 0             | 0             |
| Retiree premium                       |    | 100,465 | 108,502       | 135,985       |
| Total contribution and premium        | -  | 100,465 | 108,502       | 135,985       |

#### NOTE H - Pensions

#### **Pensions**

For purposes of measuring the Net Pension Liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Louisiana State Employees' Retirement System (LASERS) and additions to/deductions from LASERS' fiduciary net position have been determined on the same basis as they are reported by LASERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### General Information about the Pension Plan

#### Plan Description

Employees of the West Authority are provided with pensions through a cost-sharing multiple-employer defined benefit plan administered by the Louisiana State Employees' Retirement System (LASERS). Section 401 of Title 11 of the Louisiana Revised Statutes (La. R.S. 11:401) grants to LASERS Board of Trustees and the Louisiana Legislature the authority to review administration, benefit terms, investments, and funding of the plan. LASERS issues a publicly available financial report that can be obtained at <a href="https://www.lasersonline.org">www.lasersonline.org</a>.

June 30, 2016

NOTE H – Pensions (Continued)

#### Benefits Provided

The following is a description of the plan and its benefits and is provided for general information purposes only. Participants should refer to the appropriate statutes for more complete information.

#### 1. Retirement

The age and years of creditable service required in order for a member to retire with full benefits are established by statute, and vary depending on the member's hire date, employer, and job classification. The majority of LASERS rank and file members may either retire with full benefits at any age upon completing 30 years of creditable service or at age 60 upon completing five to ten years of creditable service depending on their plan. Additionally, members may choose to retire with 20 years of service at any age, with an actuarially reduced benefit. The basic annual retirement benefit for members is equal to 2.5% to 3.5% of average compensation multiplied by the number of years of creditable service.

Average compensation is defined as the member's average annual earned compensation for the highest 36 consecutive months of employment for members employed prior to July 1, 2006. For members hired July 1, 2006 or later, average compensation is based on the member's average annual earned compensation for the highest 60 consecutive months of employment. The maximum annual retirement benefit cannot exceed the lesser of 100% of average compensation or a certain specified dollar amount of actuarially determined monetary limits, which vary depending upon the member's age at retirement. Judges, court officers, and certain elected officials receive an additional annual retirement benefit equal to 1.0% of average compensation multiplied by the number of years of creditable service in their respective capacity. As an alternative to the basic retirement benefits, a member may elect to receive their retirement benefits under any one of six different options providing for reduced retirement benefits payable throughout their life, with certain benefits being paid to their designated beneficiary after their death.

Act 992 of the 2010 Louisiana Regular Legislative Session, changed the benefit structure for LASERS members hired on or after January 1, 2011. This resulted in three new plans: regular, hazardous duty, and judges. The new regular plan includes regular members and those members who were formerly eligible to participate in specialty plans, excluding hazardous duty and judges. Regular members and judges are eligible to retire at age 60 after five years of creditable service and, may also retire at any age, with a reduced benefit, after 20 years of creditable service. Hazardous duty members are eligible to retire with twelve years of creditable service at age 55, 25 years of creditable service at any age or with a reduced benefit after 20 years of creditable service. Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment for all three new plans. Members in the regular plan will receive a 2.5% accrual rate, hazardous duty plan a 3.33% accrual rate, and judges a 3.5% accrual rate. The extra 1.0% accrual rate for each year of service for court officers, the governor, lieutenant governor, legislators, House clerk, sergeants at arms, or Senate secretary, employed after January 1, 2011, was eliminated by Act 992. Specialty plan and regular members, hired prior to January 1, 2011, who are hazardous duty employees have the option to transition to the new hazardous duty plan.

A member leaving employment before attaining minimum retirement age, but after completing certain minimum service requirements, becomes eligible for a benefit provided the member lives to the minimum service retirement age, and does not withdraw their accumulated contributions. The minimum service requirement for benefits varies depending upon the member's employer and service classification but generally is ten years of service.

June 30, 2016

NOTE H - Pensions (Continued)

#### 2. Deferred Retirement Benefits

The State Legislature authorized LASERS to establish a Deferred Retirement Option Plan (DROP). When a member enters DROP, their status changes from active member to retiree even though they continue to work and draw their salary for a period of up to three years. The election is irrevocable once participation begins. During DROP participation, accumulated retirement benefits that would have been paid to each retiree are separately tracked. For members who entered DROP prior to January 1, 2004, interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero) will be credited to the retiree after participation ends. At that time, the member must choose among available alternatives for the distribution of benefits that have accumulated in the DROP account. Members who enter DROP on or after January 1, 2004, are required to participate in LASERS Self-Directed Plan (SDP) which is administered by a third-party provider. The SDP allows DROP participants to choose from a menu of investment options for the allocation of their DROP balances. Participants may diversify their investments by choosing from an approved list of mutual funds with different holdings, management styles, and risk factors.

Members eligible to retire and who do not choose to participate in DROP may elect to receive at the time of retirement an initial benefit option (IBO) in an amount up to 36 months of benefits, with an actuarial reduction of their future benefits. For members who selected the IBO option prior to January 1, 2004, such amount may be withdrawn or remain in the IBO account earning interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero). Those members who select the IBO on or after January 1, 2004, are required to enter the SDP as described above.

#### 3. Disability Benefits

All members with ten or more years of credited service who become disabled may receive a maximum disability retirement benefit equivalent to the regular retirement formula without reduction by reason of age.

Upon reaching age 60, the disability retiree may receive a regular retirement benefit by making application to the Board of Trustees.

For injuries sustained in the line of duty, hazardous duty personnel in the Hazardous Duty Services Plan will receive a disability benefit equal to 75% of final average compensation.

#### 4. Survivor's Benefits

Certain eligible surviving dependents receive benefits based on the deceased member's compensation and their relationship to the deceased. The deceased member who was in state service at the time of death must have a minimum of five years of service credit, at least two of which were earned immediately prior to death, or who had a minimum of twenty years of service credit regardless of when earned in order for a benefit to be paid to a minor or handicapped child. Benefits are payable to an unmarried child until age 18, or age 23 if the child remains a full-time student. The aforementioned minimum service credit requirement is ten years for a surviving spouse with no minor children, and benefits are to be paid for life to the spouse or qualified handicapped child.

June 30, 2016

NOTE H – Pensions (Continued)

#### 5. Permanent Benefit Increases/Cost-of-Living Adjustments

As fully described in Title 11 of the Louisiana Revised Statutes, the System allows for the payment of permanent benefit increases, also known as cost-of-living adjustments (COLAs), that are funded through investment earnings when recommended by the Board of Trustees and approved by the State Legislature.

#### **Contributions**

Contribution requirements of active employees are governed by Section 401 of Title 11 of the Louisiana Revised Statutes (La. R.S. 11:401) and may be amended by the Louisiana Legislature. Employee and employer contributions are deducted from a member's salary and remitted to LASERS by participating employers. The rates in effect during the year ended June 30, 2015 for the various plans follow:

| Plan  | Plan<br>Status | Employee<br>Contribution<br>Rate | Employer<br>Contribution<br>Rate |
|---|----------------|----------------------------------|----------------------------------|
| Regular Employees and Appellate Law<br>Clerks |                |                                  |                                  |
| Pre Act 75 (hired before 7/1/2006)            | Closed         | 7.5%                             | 37.2%                            |
| Post Act 75 (hired after 6/30/2006)           | Open           | 8.0%                             | 37.2%                            |
| Optional Retirement Plan (ORP)                |                |                                  |                                  |
| Pre Act 75 (hired before 7/1/2006)            | Closed         | 7.5%                             | 37.2%                            |
| Post Act 75 (hired after 6/30/2006)           | Closed         | 8.0%                             | 37.2%                            |

The agency's contractually required composite contribution rate for the year ended June 30, 2016 was 37.20% of annual payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any Unfunded Actuarial Accrued Liability. Contributions to the pension plan from the Agency were \$725,674 for the year ended June 30, 2016.

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2016

NOTE H – Pensions (Continued)

## Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the Employer reported a liability of \$6,468,440 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2015 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date. The Agency's proportion of the Net Pension Liability was based on a projection of the Agency's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2015, the Agency's proportion was 0.09510%, which was an increase of 0.0443% from its proportion measured as of June 30, 2014.

For the year ended June 30, 2016, the Agency recognized pension expense of \$404,753 plus employer's amortization of change in proportionate share and differences between employer contributions and proportionate share of contributions, \$66,629.

At June 30, 2016, the Agency reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| Deferred Outflows of<br>Resources  |         | Deferred Inflows of                   |  |  |
|--|---------|---------------------------------------|--|--|

#### **NOTES TO FINANCIAL STATEMENTS**

June 30, 2016

#### NOTE H - Pensions (Continued)

\$725,674 reported as deferred outflows of resources related to pensions resulting from Agency contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| 2017 | \$<br>(97,140) |
|------|----------------|
| 2018 | \$<br>(44,158) |
| 2019 | \$<br>(48,482) |
| 2020 | \$<br>139,596  |

#### FLOOD PROTECTION AUTHORITY - WEST

#### STATE OF LOUISIANA

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2016

NOTE H – Pensions (Continued)

#### **Actuarial Assumptions**

A summary of the actuarial methods and assumptions used in determining the total pension liability as of June 30, 2015 are as follows:

Valuation Date June 30, 2015
Actuarial Cost Method Entry Age Normal

**Actuarial Assumptions:** 

Expected Remaining
Service Lives 3 years.

**Investment Rate of Return** 7.75% per annum.

**Inflation Rate** 3.0% per annum.

Mortality Non-disabled members - Mortality rates based on the RP-

2000 Combined Healthy Mortality Table with mortality

improvement projected to 2015.

**Disabled members** – Mortality rates based on the RP-2000 Disabled Retiree Mortality Table, with no projection for

mortality improvement.

Termination, Disability, and

Retirement

Termination, disability, and retirement assumptions were projected based on a five-year (2009-2013)

experience study of the System's members.

Salary Increases Salary increases were projected based on a 2009-2013

experience study of the System's members. The salary

increase ranges for specific types of members are:

|                | Lower | Upper |
|----------------|-------|-------|
| Member Type    | Range | Range |
| Regular        | 4.0%  | 13.0% |
| Judges         | 3.0%  | 5.5%  |
| Corrections    | 3.6%  | 14.5% |
| Hazardous Duty | 3.6%  | 14.5% |
| Wildlife       | 3.6%  | 14.5% |

**Cost of Living Adjustments** 

The present value of future retirement benefits is based on benefits currently being paid by the System and includes previously granted cost of living increases. The projected benefit payments do not include provisions for potential future increases not yet authorized by the Board of Trustees as they were deemed not to be substantively automatic.

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2016

#### NOTE H – Pensions (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and an adjustment for the effect of rebalancing/diversification. The target allocation and best estimates of geometric real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2015 are summarized in the following table:

|                            |                                | Long-Term Expected Real Rate |
|----------------------------|--------------------------------|------------------------------|
| Asset Class                | Target Allocation <sup>1</sup> | of Return                    |
| Cash                       | 0%                             | 0.24%                        |
| Domestic equity            | 27%                            | 4.56%                        |
| International equity       | 30%                            | 5.67%                        |
| Domestic Fixed Income      | 10%                            | 2.24%                        |
| International Fixed Income | 2%                             | 3.64%                        |
| Alternative Investments    | 24%                            | 7.82%                        |
| Global Asset Allocation    | 7%                             | 3.70%                        |
| Total                      | 100%                           | 5.66%                        |

#### **Discount Rate**

The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that employer contributions from participating employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

### NOTES TO FINANCIAL STATEMENTS

June 30, 2016

NOTE H – Pensions (Continued)

#### Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the Employer's proportionate share of the Net Pension Liability using the discount rate of 7.75%, as well as what the Employer's proportionate share of the Net Pension Liability would be if it were calculated using a discount rate that is one percentage-point lower (6.75%) or one percentage-point higher (8.75%) than the current rate:

|                           | 1.0% Decrease | e Current Discoun | t 1.0% Increase |   |

There were no changes of benefit terms for the year ended June 30, 2016.

#### **Changes of Assumptions**

There were no changes of benefit assumptions for the year ended June 30, 2016.

INDEPENDENT AUDITOR'S REPORT ON
INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

Board of Commissioners Southeast Louisiana Flood Protection Authority – West Marrero, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of Caddo Levee District (the District), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated August 29, 2016.

#### Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Lake Charles, Louisiana August 29, 2016

## SOUTHEAST LOUISIANA FLOOD PROTECTION AUTHORITY – WEST State of Louisiana

## SCHEDUEL OF FINDINGS AND RESPONSES For the Fiscal Year Ended June 30, 2016

We have audited the financial statements of the Southeast Louisiana Flood Protection Authority — West (the "West Authority"), a component unit of the State of Louisiana, as of and for the year ended June 30, 2016, and have issued my report thereon dated August 29, 2016. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

#### A. <u>Summary of Auditor's Results</u>

- 1. The auditor's report expresses an unmodified opinion on the financial statements of the Southeast Louisiana Flood Protection Authority West (the "West Authority") for the year ended June 30, 2016.
- 2. Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit Performed in Accordance with *Government Auditing Standards*.
  - No significant deficiencies were noted.
  - No material weaknesses were noted.
  - No instances of noncompliance material to the financial statements were noted.
- 3. The West Authority was not subject to a Single Audit under OMB Circular A-133.
- 4. No separate written management letter was issued for the year ended June 30, 2016.
