Independent Accountants' Review Report

To the Board of Commissioners Webster Parish Fire Protection District No. 8 Cotton Valley, Louisiana

We have reviewed the accompanying financial statements of the governmental activities and major fund of the Webster Parish Fire Protection District No. 8, a component unit of the Webster Parish Police Jury, as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of management of the Webster Parish Fire Protection District No. 8. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement whether due to fraud or error.

Accountants' Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountants' Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Required Supplemental Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on pages 18-19 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental

Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Such information was not audited, reviewed, or compiled by us, and we do not express an opinion or provide any assurance on it.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. The results of our review of the basic financial statements are not affected by this missing information.

Supplementary Information

Our review was made primarily for the purpose of expressing a conclusion that there are no material modifications that should be made to the basic financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America. The supplementary information included in the accompanying Schedule of Per Diem Paid Commissioners and Schedule of Compensation, Benefits, and Other Payments to Agency Head on pages 20-21 is presented for purposes of additional analysis and is not a required part of the basic financial statements. We have reviewed the information and based on our review, we are not aware of any material modifications that should be made to the information in order for it to be in accordance with accounting principles generally accepted in the United States of America. We have not audited the information and, accordingly, do not express an opinion on such information.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended December 31, 2016

Net change in fund balances - total governmental funds	\$ 65,231	
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays \$12,531 is exceed by depreciation \$82,530 in the current period.	(69,999)	
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of the governmental funds. Neither transaction has any effect on net assets.		
Principal payments on long-term debt	53,000	
Interest on long-term debt in statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, however, interest expense is recognized as the interest accrues in the statement of net assets.	607	
net assets.	697	
Change in net position of governmental activities	\$ 48,929	

INTRODUCTION

The Webster Parish Fire Protection District No. 8 (the District) was created by the Webster Parish Police Jury in 1988 by ordinance as provided under Louisiana Revised Statutes 40:1492, to purchase and maintain fire equipment and to provide fire protection for the people of Webster Parish Fire Protection District No. 8. The District is governed by a board of commissioners consisting of 5 members: 2 members are appointed by the Webster Parish Police Jury; 2 members are appointed by the Town of Cotton Valley; and one member, who is the chairman, is appointed by the other 4 board members. Members serve two year terms.

(1) Summary of Significant Accounting Policies

The Webster Parish Fire Protection District No. 8's financial statements are prepared in conformity with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the Webster Parish Fire Protection District No. 8 are discussed below.

A. Reporting Entity

Because the Webster Parish Police Jury appoints two members of the governing board and because the District operates within the geographical boundaries of Webster Parish, The District was determined to be a component unit of the Webster Parish Police Jury, the governing body of the parish and the governmental body with oversight responsibility. This report includes only funds which are maintained by the District and does not present information on the Webster Parish Police Jury, the general government service provided by that governmental unit, or the other governmental units that comprise the Commission.

B. Basic Financial Statements - Government-Wide Statements

The Webster Parish Fire Protection District No. 8's basic financial statements include both government-wide (reporting the funds maintained by the Webster Parish Fire Protection District No. 8 as a whole) and fund financial statements (reporting the Webster Parish Fire Protection District No. 8's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The Webster Parish Fire Protection District No. 8's general fund is classified as governmental activities. The Webster Parish Fire Protection District No. 8 does not have any business-type activities.

In the government-wide Statement of Net Position, the governmental activities column is presented on a consolidated basis and is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Webster Parish Fire Protection District No. 8's net position is reported in two parts – net investment in capital assets, and unrestricted net position.

The government-wide Statement of Activities reports both the gross and net cost of each of the Webster Parish Fire Protection District No. 8's functions. The functions are supported by program revenues and general government revenues. The Statement of Activities reduces gross expenses (including depreciation) by any related program revenues, which must be directly associated with the function. Program revenues for the year ended December 31, 2016 consist of federal and state operating grants. The net costs (by function) are normally covered by general revenues.

This government-wide focus is more on the sustainability of the Webster Parish Fire Protection District No. 8 as an entity and the change in the Webster Parish Fire Protection District No. 8's net position resulting from the current year's activities.

C. Basic Financial Statements - Fund Financial Statements

The financial transactions of the Webster Parish Fire Protection District No. 8 are recorded in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures. The various funds are reported by generic classification within the financial statements.

The following fund types are used by the Webster Parish Fire Protection District No. 8:

Governmental Funds – the focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Webster Parish Fire Protection District No. 8:

a. General fund is the general operating fund of the Webster Parish Fire Protection District No. 8. It is used to account for all financial resources except those required to be accounted for in another fund.

The emphasis in fund financial statements is on the major funds in the governmental category. GASB sets forth minimum criteria (percentage of the assets, liabilities, revenues, or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The District's general fund was determined to be a major fund.

D. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

1. Accrual:

The governmental funds in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Revenues of the Webster Parish Fire Protection District No. 8 consist principally of property taxes, intergovernmental revenues - fire insurance rebate and interest income. Property taxes are recorded in the year for which the taxes are levied. Property taxes are assessed on a calendar year basis, become due on November 15 of each year, and become delinquent on December 31. Because the 2016 tax levy is intended to fund the 2017 fiscal year, the levy has been recorded as a receivable and deferred inflows of resources. Interest income is recorded when earned. Intergovernmental revenues are recorded when received because they are generally not measurable until actually received.

2. Modified Accrual:

The governmental funds financial statements are presented on the modified accrual basis of accounting. Under modified accrual basis of accounting, revenues are recorded when susceptible to accrual: i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this rule is that principal and interest on general obligation long-term debt, if any, is recognized when due. Depreciation is not recognized in the governmental fund financial statements.

E. Budgets

The district uses the following budget practices:

- A preliminary budget for the ensuing year is prepared by the Fire Chief and Officers of the District prior to December 31 of each year and is made available for public inspection at least fifteen days prior to the beginning of each fiscal year.
- 2. After completion of all action necessary to finalize and implement the budget, the budget is adopted by the Board of Commissioners.
- 3. All budgetary appropriations lapse at the end of each fiscal year.
- 4. The budget is established and controlled by the board of commissioners at the object level of expenditure. All changes in the budget must be approved by the board.
- The budget is adopted on a cash basis for the general fund. One amendment was made to the 2016 budget.

F. Cash, Cash Equivalents, and Investments

Cash includes amounts in petty cash, interest-bearing demand deposits, and money market accounts. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less. Under state law, the district may deposit funds in demand deposits, interest-bearing demand deposits, or money market accounts with state banks organized under Louisiana law or any other state of the United States, or under the laws of the United States.

Investments are limited by Louisiana Revised Statue (R.S.) 33:2955. If the original maturities of investments exceed 90 days, they are classified as investments; however, if the original maturities are 90 days or less, they are classified as cash equivalents. Investments are carried at fair value.

G. Capital Assets

Capital assets purchased or acquired with an original cost of \$2,500 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Buildings and Improvements

15 - 30 years

Equipment

5 - 15 years

H. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. At this time, the District has no transactions that meet the definition of deferred outflows of resources.

The District's governmental activities and governmental fund reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District has one item that met this definition and qualifies for reporting in this category. Accordingly, the item "unavailable revenue" is reported in the governmental fund balance sheet and statement of net position. The District reports unavailable revenue from one source: ad valorem taxes. This amount is deferred and recognized as an inflow of resources in the period for which the amounts were levied and budgeted.

I. Compensated Absences

The District had no liability for compensated absences at December 31, 2016.

J. Use of Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and reported revenues and expenses. Actual results could differ from those estimates.

K. Net Position

Net position represents the difference between assets and liabilities. Net position invested in capital assets, net of related debt consist of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use either through constitutional provisions or enabling legislation adopted by the district or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

L. Fund Balances

GASB has issued Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, which defines the different types of fund balances that a governmental entity must use for financial reporting purposes. GASB 54 requires the fund balance amounts to be properly reported within one of the fund balance categories list below.

- Nonspendable fund balances are amounts that cannot be spent because they are either

 (a) not in spendable form, such as inventory or prepaid expenses, or (b) legally or contractually required to be maintained intact, such as a trust that must be retained in perpetuity.
- Restricted fund balances are restricted when constraints placed on the use of resources
 are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations
 of other governments, or (b) imposed by law through constitutional provisions or enabling
 legislation.
- 3. Committed fund balances include amounts that can be used only for the specific purposes as a result of constraints imposed by the District's board of commissioners (the District's highest level of decision making authority). Committed amounts cannot be used for any other purpose unless the District's board of commissioners removes those constraints by taking the same type of action (i.e. legislation, resolution, or ordinance).
- 4. Assigned fund balances are amounts that are constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed. The District's board of commissioners have the authority to assign amounts to be used for specific purposes.
- 5. Unassigned fund balance are the residual classification for the District's general fund and include all spendable amounts not contained in the other classifications.

When both restricted and unrestricted fund balances are available for use, it is the District's policy to use restricted fund balance first, then unrestricted fund balance. Furthermore, committed fund balances are reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications can be used.

M. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities in the statement of net position. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

(2) Levied Taxes

The following is a summary of authorized and levied ad valorem taxes:

	Authorized	Levied	Expiration
	Millage	Millage	Date
Operating	12,41	12,41	2018

(3) Cash and Cash Equivalents

At December 31, 2016, the District had cash and cash equivalents (book balances), totaling \$382,028 as detailed below.

Cash and Cash Equivalents

District had cash and cash equivalents at December 31, 2016 (book balances) totaling \$382,028 in interest bearing demand deposits and demand deposit accounts. These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent.

Credit Risk

Custodial credit risk is the risk that in the event of a bank or other depositing institution failure, the government's deposits may not be returned to it. As of December 31, 2016, \$28,084 of the District's bank balances totaling \$410,384 were exposed to custodial credit risk as uninsured deposits protected and collateralized with pledged securities held by the custodial bank's trust department not in the District's name.

(4) Capital Assets

Capital asset activity for the year ended December 31, 2016, was as follows:

	E	Balance at			В	alance at
	_Ja	an. 1, 2016	 Additions	Deletions	De	c. 31, 2016
Governmental Activities:						
Capital assets, being depreciated:						
Buildings and improvements	\$	285,457	\$	\$	\$	285,457
Equipment		931,156	12,531			943,687
Total capital assets, being depreciate	d		 			
at historical cost		1,216,613	 12,531			1,229,144
Less accumulated depreciation:		14				
Buildings and improvements		(156,404)	(10,016)			(166, 420)
Equipment		(444,012)	(72,514)			(516,526)
Total accumulated depreciation		(600,416)	(82,530)			(682,946)
Governmental activities capital						
assets, net	\$	616,197	\$ (69,999)	\$	\$	546,198

Depreciation expense for the year ended December 31, 2016, was \$82,530.

(5) Risk Management

The District purchases commercial insurance to provide workers compensation coverage and general liability and property insurance. There were no significant reductions in insurance coverage from the prior year.

(6) Long-Term Liabilities

Long -term liability activity for the year ended December 31, 2016, was as follows:

					Amounts
	Beginning			Ending	Due Within
	Balance	Additions	Reductions	Balance	One Year
Certificate of Indebtedness	\$ 227,000	\$	\$ 53,000	\$ 174,000	\$ 56,000

Certificates of indebtedness at December 31, 2016 are comprised of the following individual issues:

Series 2010, original amount \$400,000 for acquiring equipment and fire station improvements; due in annual installments of \$32,000 to \$60,000 through March 1, 2019; interest rate of 3,95%, repayment of debt is paid from the operating ad valorem tax levied by the District.

\$ 174,000

Debt service requirements at December 31, 2016, were as follows:

Fiscal Year	Certificate of Indebtedness					
	scal Year Principal		Interest		Total	
2017	\$ 56,0	00 \$	5,767	\$	61,767	
2018	58,0	00	3,516		61,516	
2019	60,0	00	1,185	_	61,185	
	<u>\$174,0</u>	00 \$	10,468	\$	184,468	

Interest expense in the statement of activities for the year ended December 31, 2016 was \$7,222.

(7) Accounts Payable and Accrued Expenses

Accounts payable at December 31, 2016 consisted of the following:

Accounts payable	\$ 763
Total fund statements	 763
Accrued interest payable	 2,291
Total government-wide statements	\$ 3,054

(8) Subsequent Events

Subsequent events have been evaluated through June 29, 2017, the date the financial statements were available to be issued.

Independent Accountants' Report On Applying Agreed–Upon Procedures

The Board of Commissioners
Webster Parish Fire Protection District No. 8

We have performed the procedures included in the Louisiana Government Audit Guide and enumerated below, which were agreed to by the Webster Parish Fire Protection District No. 8 (the District) and the Legislative Auditor, State of Louisiana, solely to assist the users in evaluating management's assertions about the Webster Parish Fire Protection District No. 8's compliance with certain laws and regulations during the year ended December 31, 2016 included in the accompanying Louisiana Attestation Questionnaire. This agreed—upon procedures engagement was performed in accordance with standards established by the American Institute of Certified Public Accountants and applicable standards of Government Auditing Standards. The sufficiency of these procedures is solely the responsibility of the specified users of the report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Public Bid Law

1. Select all expenditures made during the year for material and supplies exceeding \$30,000, or public works exceeding \$150,000, and determine whether such purchases were made in accordance with LSA-RS 38:2211-2296 (the public bid law).

There were no expenditures made during the year ended December 31, 2016 exceeding \$30,000 for materials and supplies or \$150,000 for public works.

Code of Ethics for Public Officials and Public Employees

 Obtain from management a list of the immediate family members of each board member as defined by LSA-RS 42:1101-1124 (the code of ethics), and a list of outside business interests of all board members and employees, as well as their immediate families.

The District provided us with the required list including the noted information.

3. Obtain from management a listing of all employees paid during the period under examination.

The District provided us with the required list.

4. Determine whether any of those employees included in the listing obtained from the District in agreed-upon procedure (3) were also included on the listing obtained from the District in agreed-upon procedure (2) as immediate family members.

None of the employees included on the list of employees provided by the District [agreed-upon procedure (3)] appeared on the list provided by the District in agreed-upon procedure (2).

Budgeting

5. Obtain a copy of the legally adopted budget and all amendments.

The District provided us with a copy of the original budget and amendments. There was one amendment to the budget during the year ended December 31, 2016.

6. Trace the budget adoption and amendment to the minute book.

The adoption of the original budget for 2016 was done on November 17, 2015.

One budget amendment was on November 15, 2016.

We traced the budget adoption and amendment to the minutes of those meetings.

7. Compare the revenues and expenditures of the final budget to actual revenues and expenditures to determine if actual revenues fail to meet budgeted revenues by 5% or more or if actual expenditures exceed budgeted amounts by 5% or more.

We compared the revenues and expenditures of the final budget to actual revenues and expenditures. Actual revenues and expenditures for the year did not exceed budgeted amounts by more than 5%.

Accounting and Reporting

- 8. Randomly select 6 disbursements made during the period under examination and:
 - (a) trace payments to supporting documentation as to proper amount and payee;

We examined supporting documentation for each of the six selected disbursements and found that payment was for the proper amount and made to the correct payee.

(b) determine if payments were properly coded to the correct fund and general ledger account;

All six disbursements were properly coded to the correct fund and general ledger account.

(c) determine whether payments received approval from proper authorities.

Inspection of documentation supporting each of the six selected disbursements indicated approvals from the proper authorities.

Meetings

Examine evidence indicating that agendas for meetings recorded in the minute book were posted or advertised as required by LSA-RS 42:13 (the open meetings law).

The District posted its meetings and agendas as required by LSA-RS 42:11 through 42:28 (the open meetings law).

Debt

10. Examine bank deposits for the period under examination and determine whether any such deposits appear to be proceeds of bank loans, bonds, or like indebtedness.

We inspected copies of all bank deposits slips for the period under examination and noted no deposits which appeared to be proceeds of bank loans, bonds, or like indebtedness.

Advances and Bonuses

11. Examine payroll records and minutes for the year to determine whether any payments have been made to employees which may constitute bonuses, advances, or gifts.

A reading of the minutes and inspection of payroll records of the District for the year ended December 31, 2016 indicated no instances which would indicate payments to employees which would constitute bonuses, advances, or gifts.

Prior Comments and Recommendations

12. Review any prior year suggestions, recommendations, and/or comments to determine the extent to which such matters have been resolved.

There were no prior year findings for the year ended December 31, 2015.

We were not engaged to, and did not, perform an examination, the objective of which would be the expression of an opinion on management's assertions. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the use of management of the Webster Parish Fire Protection District No. 8 and the Legislative Auditor, State of Louisiana, and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. Under Louisiana Revised Statue 24:513, this report is distributed by the Legislative Auditor as a public document.
