Accountant's Compilation Report

Shiloh Waterworks District Bienville, Louisiana

Management is responsible for the accompanying financial statements of the enterprise fund of the Shiloh Waterworks District, as of June 30, 2017, which collectively comprise the District's basic financial statements as listed in the table of contents. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the financial statements nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on these financial statements.

Management has elected to omit substantially all of the disclosures required by accounting principles generally accepted in the United States of America. If the omitted disclosures were included in the financial statements, they might influence the user's conclusions about the District's financial position, results of operations, and cash flows. Accordingly, the financial statements are not designed for those who are not informed about such matters.

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting and for placing the basic financial statements in an appropriate operational, economic, or historical context.

Act 706 of the Louisiana 2014 Legislative Session requires a Schedule of Compensation, Benefits, and Other Payments to Agency Head on page 8 to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by Louisiana state law which considers it to be an essential part of financial reporting and for placing the basic financial statements in an appropriate operational, economic, or historical context. Such information was not audited, reviewed, or compiled by us, and we do not express an opinion or provide any assurance on it.
