## INDEPENDENT AUDITORS' REPORT

\* A Professional Accounting Corporation

Mr. Patrick Jenkins, Superintendent,  
and Members of the St. Landry Parish School Board  
Opelousas, Louisiana

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the St. Landry Parish School Board (School Board), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the School Board's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the St. Landry Parish School Board, as of June 30, 2016, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## ***Other Matters***

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that budgetary comparison information, schedule of funding progress, schedule of employer's share of net pension liability and schedule of employer contributions on pages 49 - 55 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

### ***Other Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the St. Landry Parish School Board's basic financial statements. The schedule of changes in cash – school activity funds included in other supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

The schedule of changes in cash – school activity funds has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express or provide any assurance on it.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 13, 2016, on our consideration of the School Board’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School Board’s internal control over financial reporting and compliance.

Reconciliation of the Statement of Revenues, Expenditures, and  
Changes in Fund Balances of Governmental Funds  
to the Statement of Activities  
For the Year Ended June 30, 2016

Total net change in fund balances for the year ended June 30, 2016 per the statement of revenues, expenditures and changes in fund balances	\$ 6,368,721
The change in net position reported for governmental activities in the statements of activities is different because:	
<p>Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.</p>	
Capital purchases which are considered as expenditures on the statement of revenues, expenditures and changes in fund balances	\$ 3,622,794
Depreciation expense for the year ended June 30, 2016	<u>(2,712,479)</u> 910,315
Net proceeds from the sale of assets	(5,769)
Proceeds from the issuance of long-term debt are reported as financing sources in governmental funds and thus contribute to the change in fund balance. In the statement of net position, however, issuing debt increases long-term liabilities and does not affect the statement of activities.	(10,623,976)

Notes to the Basic Financial Statements

(1) Summary of Significant Accounting Policies

The accompanying financial statements of the St. Landry Parish School Board (School Board) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this note.

A. Financial Reporting Entity

The School Board was created by Louisiana Revised Statute (LRS-R.S.) 17:51 to provide public education for the children within St. Landry Parish. The School Board is authorized by LRS-R.S. 17:81 to establish policies and regulations for its own government consistent with the laws of the State of Louisiana and the regulations of the Louisiana Board of Elementary and Secondary Education. The School Board is comprised of thirteen members who are elected from thirteen districts for terms of four years.

The School Board operates 33 schools within the parish with a total enrollment of 14,421 pupils for the year ended June 30, 2016, based on the October 2015 official MFP student count. In conjunction with the regular educational programs, some of these schools offer special education and/or adult education programs. In addition, the School Board provides transportation and school food services for the students.

For financial reporting purposes, the School Board includes all funds and activities for which the School Board exercises financial accountability. Because the School Board members are independently elected and are solely accountable for fiscal matters, which include (1) budget authority, (2) responsibility for funding deficits and operating deficiencies, and (3) fiscal management for controlling the collection and disbursement of funds, the School Board is a separate governmental reporting entity, primary government. The School Board has no component units nor is it a component unit of any other entity.

B. Basis of Presentation

Government-Wide Financial Statements (GWFS)

The government-wide financial statements provide operational accountability information for the School Board as an economic unit. The government-wide financial statements report the School Board's ability to maintain service levels and continue to meet its obligations as they come due. The statements include all governmental activities and business-type activities of the primary government. The School Board does not have any business-type activities. Fiduciary funds are omitted from the government-wide financial statements.

Notes to the Basic Financial Statements (Continued)

Fund Financial Statements

The accounts of the School Board are organized on the basis of funds, each of which is considered to be an independent fiscal and accounting entity. The operations of each fund are accounted for within separate sets of self-balancing accounts, which comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balance, expenditures, and transfers.

Major funds are determined as funds whose revenues, expenditures, assets and deferred outflows of resources or liabilities and deferred inflows of resources are at least ten percent of the totals for all governmental funds or enterprise funds and at least five percent of the aggregate amount for all governmental and enterprise funds for the same item or funds designated as major at the discretion of the School Board. Funds not classified as a major fund are aggregated and presented in a single column in the fund financial statements. The School Board uses the following funds, grouped by fund type.

Governmental Funds –

Governmental funds are those through which most governmental functions of the School Board are financed. The acquisition, use and balance of the School Board's expendable financial resources and the related liabilities are accounted for through governmental funds.

General Fund –

The General Fund represents the general operating activities of the School Board. All financial resources not accounted for in other funds are reported in the General Fund.

Special Revenue Funds

Special revenue funds are used to account for the proceeds of government grants or other specific revenue sources that are restricted or committed to expenditures for specific purposes other than debt service or capital projects of the School Board. The School Board's major Special Revenue Fund is the Title I Fund.

Chapter I Title I of the Improving America's Schools Act (IASA) is a program for economically and educationally deprived school children that is federally financed, state-administered, and locally operated by the School Board. The Title I Fund accounts for the federal monies received through this program. The Title I services are provided through various projects that are designed to meet the special needs of educationally deprived children. The activities supplement, rather than replace, state and locally mandated activities.

Opelousas, Louisiana

Notes to the Basic Financial Statements (Continued)

Debt Service Funds

Debt service funds, established to meet requirements of bond ordinances, are used to account for and report resources that are restricted, committed, or assigned to expenditures for the payment of long-term debt principal, interest, and related costs. The School Board has no major debt service funds.

Capital Projects Funds

Capital projects funds are used to report resources that are restricted, committed, or assigned to expenditure for major capital acquisition and construction separately from ongoing operational activities. The School Board has one major capital projects fund, its Capital Projects Fund.

The Capital Projects Fund accounts for financial resources received and used for district-wide construction and improvements of public school facilities.

Fiduciary Funds -

Fiduciary funds account for assets held by the government in a trustee capacity or as an agent on behalf of other funds within the School Board. The funds accounted for in this category by the School Board are agency funds. The agency funds of the School Board are as follows:

The School Activity Fund accounts for assets held by the School Board as an agent for the individual schools and school organizations.

The Sales Tax Collection Fund accounts for monies collected on behalf of other taxing authorities within the parish.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The measurement focus determines the accounting and financial reporting treatment applied to a fund. The governmental activities within the government-wide statement of net position and statement of activities are presented using the economic resources measurement focus. The economic resources measurement focus meets the accounting objectives of determining net income, net position, and cash flows.

The fund financial statements use either the current financial resources measurement focus or the economic resources measurement focus as appropriate. Governmental funds use the current financial resources measurement focus. This measurement focus is based upon the receipt and disbursement of current available financial resources rather than upon net income.

ST. LANDRY PARISH SCHOOL BOARD  
Opelousas, Louisiana

Notes to the Basic Financial Statements (Continued)

The accrual basis of accounting is used throughout the government-wide statements; conversely, the financial statements of the governmental funds have been prepared in accordance with the modified accrual basis of accounting, whereby revenues are recognized when considered both measurable and available to finance expenditures of the current period. For this purpose, the School Board considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. An exception to this is grant revenue collected on a reimbursement basis. Those reimbursable grants are recognized as revenue when reimbursable expenditures are made. The School Board considers reimbursement amounts received within one year as available. The School Board accrues ad valorem taxes, sales and use taxes, federal and state grants, and investment income based upon this concept. Expenditures generally are recognized when the related fund liabilities are incurred and become payable in the current period. Proceeds of debt are reported as other financing sources, and principal and interest on long-term debt, as well as expenditures related to compensated absences and claims and judgments, are recorded as expenditures when paid.

Interest on invested funds is recognized when earned. Intergovernmental revenues that are reimbursements for specific purposes or projects are recognized in the period in which the expenditures are recorded. All other revenue items are considered to be measurable and available only when cash is received by the School Board. Transfers between governmental funds are recorded when the related liability is incurred. These transfers do not represent revenues (expenditures) to the School Board and are, therefore, reported as other financing sources (uses) in the governmental fund financial statements.

Since the fund level statements are presented using a different measurement focus and basis of accounting than the government-wide statements, a reconciliation is presented on the page following each fund level statement that summarizes the adjustments necessary to convert the fund level statements into the government-wide presentations. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

The financial statements of the fiduciary funds have been prepared in accordance with the accrual basis of accounting. Accordingly, revenues are recorded when earned, and expenses and related liabilities are recorded when incurred.

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Equity

Cash and interest-bearing deposits

For purposes of the statement of net position, cash and interest-bearing deposits include all demand accounts, savings accounts, and certificates of deposits of the School Board, which are stated at cost.

ST. LANDRY PARISH SCHOOL BOARD  
Opelousas, Louisiana

Notes to the Basic Financial Statements (Continued)

Investments

Under state law the School Board may deposit funds with a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the union, or the laws of the United States. The School Board may invest in United States bonds, treasury notes and bills, government backed agency securities, or certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. In addition, local governments in Louisiana are authorized to invest in the Louisiana Asset Management Pool (LAMP), a nonprofit corporation formed by the State Treasurer and organized under the laws of the State of Louisiana, which operates a local government investment pool. Investments are stated at fair value.

Interfund receivables and payables

During the course of operations, numerous transactions occur between individual funds that may result in amounts owed between funds. Those related to goods and services type transactions are classified as “due to and from other funds.” Short-term interfund loans (current portion) are reported as “interfund receivables and payables.” Long-term interfund loans (noncurrent portion) are reported as “advances from and to other funds.” Interfund receivables and payables between funds within governmental activities are eliminated in the statement of net position.

Receivables

Receivables consist of all revenues earned at year-end and not yet received. The majority of this balance is comprised of ad valorem taxes, sales and use taxes and federal and state grants.

Inventories

The cost of inventories is recorded as expenses when consumed on the government-wide financial statements and some inventories are reported as expenditures when purchased on the fund financial statements. Reserves are established for an amount equal to the carrying value of inventories.

Inventory of the General Fund consists of school supplies purchased which are valued at cost (first-in, first-out).

Inventory of the School Food Service Special Revenue Fund consists of food purchased by the School Board and commodities granted by the United States Food and Consumer Service through the Louisiana Department of Agriculture. The commodities are recorded as revenues and expenditures when consumed. All inventory items purchased are valued at cost (first-in, first-out), and donated commodities are assigned values based on information provided by the United States Department of Agriculture.

ST. LANDRY PARISH SCHOOL BOARD  
Opelousas, Louisiana

Notes to the Basic Financial Statements (Continued)

Capital Assets

Capital assets, which include property, plant, and equipment assets, are reported in the government-wide financial statements. Capital assets are capitalized at historical cost or estimated cost if historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The School Board maintains a threshold level of \$5,000 or more for capitalizing capital assets.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. Land and construction in progress are not depreciated. The range of estimated useful lives by type of asset is as follows:

Buildings and improvements	20 - 55 years
Furniture and equipment	5 - 20 years

In the fund financial statements, the acquisition of capital assets used in governmental fund operations are accounted for as expenditures of the governmental funds upon acquisition.

The School Board does not possess any material amounts of infrastructure capital assets, such as sidewalks and parking lots. Such items are considered to be part of the cost of buildings and improvements. In the future, if such items are built or constructed, and appear to be material in cost compared to all capital assets, they will be capitalized and depreciated over their estimated useful lives in the same manner as all other depreciable capital assets.

Deferred Outflows of Resources and Deferred Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School Board has only one item that qualifies for reporting in this category, the deferred outflow of resources attributable to its pension plans. The School Board reported deferred outflows of resources totaling \$24,803,706 at June 30, 2016.

ST. LANDRY PARISH SCHOOL BOARD  
Opelousas, Louisiana

Notes to the Basic Financial Statements (Continued)

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The School Board has only one item that qualifies for reporting in this category, the deferred inflow of resources attributable to its pension plans. The School Board reported deferred inflows of resources totaling \$7,641,871 at June 30, 2016.

Compensated Absences

All twelve-month employees earn from 12 to 18 days of vacation leave each year, depending on their length of service with the School Board. For those employees hired prior to January 1, 2016, a maximum of 40 days of vacation time can be carried over to the next year. For those employees hired or current employees promoted to a twelve-month position on January 1, 2016 and after, a maximum of 25 days of vacation can be carried over to the next year. Prior to 2001, there was no maximum. All hours earned prior to the policy change in 2001 were grandfathered in.

All employees hired for the school year or longer are granted a minimum of ten days absence per year because of personal illness or other emergencies without loss of pay. For those employees hired or current employees promoted to a twelve-month position on January 1, 2016 and after, only ten days of sick leave shall be granted each year. Accumulation of sick leave is unlimited. Upon death or retirement, unused accumulated sick leave of up to 25 days is paid to employees (or heirs) at the employee's current rate of pay. Under the Louisiana Teachers' Retirement System, the total unused accumulated sick leave, including the 25 days paid, is used in the retirement benefit computation as earned service for leave earned prior to July 1, 1998. For sick leave earned after July 1, 1998, under the Louisiana Teachers' Retirement System, and for sick leave earned under the Louisiana School Employees' Retirement System, all unpaid sick leave, which excludes the 25 days paid, is used in the retirement benefit computation as earned service. Upon resignation, all sick leave is forfeited.

Sabbatical leave may be granted for rest and recuperation and for professional and cultural improvement. Any employee with a teaching certificate is entitled, subject to approval by the School Board, to one semester of sabbatical leave after three years of continuous service or two semesters of sabbatical leave after six or more years of continuous service. Due to its restrictive nature, sabbatical leave is accounted for as expenditure in the period taken and no liability is recorded in advance of the sabbatical.

For fund financial statements, vested or accumulated sick leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a current fund liability of the governmental fund that will pay it. In the government-wide statements, amounts of vested or accumulated sick leave that are not expected to be liquidated with expendable available financial resources are recorded as noncurrent liabilities.

ST. LANDRY PARISH SCHOOL BOARD  
Opelousas, Louisiana

Notes to the Basic Financial Statements (Continued)

No liability is recorded for nonvesting accumulating rights to receive vacation pay. A liability has been recorded for up to 25 days of accumulated sick leave for those employees eligible for retirement as of June 30, 2016.

At June 30, 2016, employees of the School Board have accumulated and vested \$2,523,708 of compensated absence benefits payable.

Long-term debt

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements. Since the School Board does not have a proprietary fund, all School Board long-term debt is used in governmental fund operations.

All long-term debt to be repaid from governmental resources is reported as liabilities in the government-wide statements. The long-term debt consists primarily of a capital leases payable, QZAB certificates, QSCB bonds, revenue bonds, and certificates of indebtedness.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources net of the applicable premium or discount and payment of principal and interest reported as expenditures. For government-wide reporting, issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

Equity Classifications

In the government-wide statements, equity is classified as net position and displayed in three components:

- a. Net investment in capital assets consists of net capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgage notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position consists of net position with constraints placed on the use either by external groups such as creditors, grantors, and contributors, or laws or regulations of other governments; or law through constitutional provisions or enabling legislation. It is the School Board's policy to use restricted net position prior to the use of unrestricted net position when both restricted and unrestricted net position are available for an expense which has been incurred.

ST. LANDRY PARISH SCHOOL BOARD  
Opelousas, Louisiana

Notes to the Basic Financial Statements (Continued)

- c. Unrestricted net position consists of all other assets, deferred outflows of resources, liabilities, and deferred inflows of resources that do not meet the definition of “restricted” or “net investment in capital assets.”

In the fund financial statements, governmental fund equity is classified as fund balance. Fund balances for governmental funds are reported in classifications that comprise a hierarchy based primarily upon the extent to which the School Board is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The categories and their purposes are:

- a. Nonspendable includes fund balance amounts that cannot be spent either because they are not in spendable form or because of legal or contractual constraints requiring they remain intact. The School Board’s nonspendable fund balance includes inventories.
- b. Restricted includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors, grantors, contributors or amounts constrained due to constitutional provisions or enabling legislation or the laws or regulations of other governments.
- c. Committed includes fund balance amounts that are constrained for specific purposes that are internally imposed by the School Board through formal legislative action of the School Board and do not lapse at year end. A committed fund balance constraint can only be established, modified or rescinded by passage of a resolution by the School Board.
- d. Assigned includes fund balance amounts that are constrained by the School Board’s intent to be used for specific purposes that are neither restricted nor committed. The assignment of fund balance is authorized by a directive approved by the School Board’s finance committee.
- e. Unassigned includes fund balance amounts which have not been classified within the above mentioned categories.

It is the School Board’s policy to use restricted amounts first when both restricted and unrestricted fund balance is available unless prohibited by legal or contractual provisions. Additionally, the School Board uses committed, assigned, and lastly, unassigned amounts of fund balance in that order when expenditures are made unless Board members or the finance committee has provided otherwise in its commitment or assignment actions.

E. Revenues, Expenditures and Expenses

Revenues

The School Board considers revenue to be susceptible to accrual in the governmental funds as it becomes measurable and available, as defined under the modified accrual basis of accounting. The School Board generally defines the availability period for revenue recognition as received within sixty (60) days of year end. The School Board's major revenue sources that meet this availability criterion are ad valorem taxes, sales and use taxes, and federal and state grants.

There are two classifications of programmatic revenues for the School Board: grant revenue and program revenue. Grant revenues are revenues from federal, state and private grants. These revenues are recognized when all applicable eligibility requirements are met and reported as intergovernmental revenues. The primary source of program revenue is grant revenues. Program revenues included in the statement of activities are derived directly from the program itself or from parties outside the School Board's taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the School Board's general revenues.

ST. LANDRY PARISH SCHOOL BOARD  
Opelousas, Louisiana

Notes to the Basic Financial Statements (Continued)

Federal and state entitlement (unrestricted grants-in-aid, which include state equalization and state revenue sharing) are recorded when available and measureable. Expenditure-driven federal and state grants, which are restricted as to the purpose of the expenditures, are recorded when the reimbursable expenditures have been incurred.

Ad valorem taxes are recorded in the year the taxes are due and payable. Ad valorem taxes are assessed in December, by the Parish Assessor, based on the assessed value and become due on December 31<sup>st</sup> of each year. The taxes become delinquent on January 1<sup>st</sup>. An enforceable lien attaches to the property as of January 31<sup>st</sup>. The taxes are generally collected in December, January, and February of the fiscal year. Property tax revenues are recognized when levied to the extent that they result in current receivables, and such amounts are measurable and available to finance current operations.

Interest income is recorded as earned in the fund holding the interest bearing asset. Revenues from rentals, leases, and royalties are recorded when earned. Sales and use tax revenues are recorded in the month collected by the School Board.

Substantially all other revenues are recorded when received.

Expenditures/Expenses

In the government-wide financial statements, expenses are classified by function. In the fund financial statements, expenditures are classified by character. In the fund financial statements, governmental funds report expenditures of financial resources whereas the government-wide financial statements report expenses related to the use of economic resources.

The School Board reports all direct expenses by function in the statement of activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses of other functions are not allocated to those functions, but are reported separately in the statement of activities. Depreciation expense is specifically identified by function and is included in direct expenses of each function. Interest on long-term debt is considered an indirect expense and is reported separately on the statement of activities.

Salaries are recorded as expenditures when incurred. Nine-month employee salaries are incurred over a nine-month period but paid over a twelve-month period. Compensated absences are recognized as expenditures when leave is actually taken or when employees (or heirs) are paid for accrued leave upon retirement or death.

Commitments under construction contracts are recognized as expenditures when earned by the contractor. Principal and interest on long-term obligations are not recognized until due.

All other expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

ST. LANDRY PARISH SCHOOL BOARD  
Opelousas, Louisiana

Notes to the Basic Financial Statements (Continued)

Interfund Transfers

Permanent reallocations of resources between funds of the reporting entity are classified as interfund transfers. For the purposes of the statement of activities, all interfund transfers between individual governmental funds have been eliminated.

Other Financing Sources (Uses)

Other types of transactions such as capital lease transactions, sales of capital assets, debt extinguishments, long-term debt proceeds, et cetera, are accounted for as other financing sources (uses) in the fund financial statements. These other financing sources (uses) are recognized at the time the underlying event occurs.

F. Revenue Restrictions

The School Board has various restrictions placed over certain revenue sources from state or local requirements. The primary restricted revenue sources include:

<u>Revenue Source</u>	<u>Legal Restrictions on Use</u>
Ad valorem taxes	See Note 4
Sales and use taxes	See Note 13

G. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. These estimates include assessing the collectability of accounts receivable and the useful lives and impairment of tangible and intangible assets, among others. Estimates and assumptions are reviewed periodically and the effects of revisions are reflected in the financial statements in the period they are determined to be necessary. Actual results could differ from those estimates.

Notes to the Basic Financial Statements (Continued)

(2) Cash and Interest-Bearing Deposits

Under state law, the School Board may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. The School Board may invest in direct obligations of the United States government, bonds, debentures, notes or other evidence of indebtedness issued or guaranteed by federal agencies and/or the United States government, and time certificates of deposit of state banks organized under Louisiana law and national banks having principal offices in Louisiana. At June 30, 2016, the School Board had cash and interest-bearing deposits (book balances) totaling \$22,851,593 as follows:

	Governmental Activities	Fiduciary Funds	Total
Demand deposits	\$ 15,552,162	\$ 1,429,046	\$ 16,981,208
Money market accounts	4,032,519	28,625	4,061,144
Certificates of deposit	1,350,000	459,241	1,809,241
Total	\$ 20,934,681	\$ 1,916,912	\$ 22,851,593

Custodial credit risk is the risk that in the event of the failure of a depository financial institution, the School Board's deposits may not be recovered or the collateral securities that are in the possession of an outside party will not be recovered. These deposits are stated at cost, which approximates fair value. Under state law, deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

Deposit balances (bank balances) at June 30, 2016, were secured as follows:

Bank balances	\$ 28,919,998
Federal deposit insurance	3,033,679
Pledged securities	25,886,319
Total	\$ 28,919,998

Deposits in the amount of \$25,886,319 were exposed to custodial credit risk. These deposits are uninsured and collateralized with securities held by the pledging institution's trust department or agent, but not in the School Board's name. The School Board does not have a policy for custodial credit risk.

ST. LANDRY PARISH SCHOOL BOARD  
Opelousas, Louisiana

Notes to the Basic Financial Statements (Continued)

(3) Investments

At June 30, 2016, the School Board's investments were as follows:

Investment Type	% of Portfolio	Fair Value	Less Than One Year	One - Five Years
Governmental Activities:				
Louisiana Asset Management Pool (LAMP)	84%	\$ 1,640,999	\$ 1,640,999	\$ -
Louisiana State Treasury Education Excellence Fund	<u>16%</u>	<u>310,162</u>	<u>310,162</u>	<u>-</u>
Total investments	<u>100%</u>	<u>\$ 1,951,161</u>	<u>\$ 1,951,161</u>	<u>\$ -</u>

Interest Rate Risk – The School Board does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk/Concentration of Credit Risk – Credit risk is defined as the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The School Board limits investments to government securities that are direct and indirect obligations of the United States Government. At June 30, 2016, the School Board did not have any such investments.

Custodial Credit Risk – For an investment, custodial credit risk is the risk that in the event of the failure of a counterparty, the School Board will not be able to recover the value if its investments or collateral securities that are in the possession of an outside party. The School Board requires all investments to be in the School Board's name and all ownership securities to be evidenced by an acceptable safekeeping receipt issued by a third-party financial institution which is acceptable to the School Board. Accordingly, the School Board had no custodial credit risk related to its investments at June 30, 2016.

The School Board participates in the Louisiana Asset Management Pool (LAMP). LAMP is an investment pool established as a cooperative endeavor to enable public entities of the State of Louisiana to aggregate funds for investment. LAMP is not registered with the Securities and Exchange Commission (SEC) as an investment company. LAMP is intended to improve administrative efficiency and increase yield of participating public entities. LAMP's portfolio securities are valued at market value even though amortized cost method is permitted by Rule 2a-7 of the Investment Company Act of 1940, as amended, which governs registered money market funds. Because the LAMP is not a money market fund, it has no obligation to conform to this rule.

The investment in LAMP is not exposed to custodial credit risk and is not categorized in the three categories provided by GASB Codification Section I50.164 because the investment is in the pool of funds and therefore not evidenced by securities that exist in physical or book entry form. LAMP has a fund rating of AAA issued by Standard & Poor's. The fair value of investments is determined on a weekly basis by LAMP, and the fair value of the School Board's investment in LAMP is the same as the value of the pool shares.

Notes to the Basic Financial Statements (Continued)

The School Board's other investment consists of amounts on deposit with the Louisiana State Treasury for the Education Excellence Fund. These funds are covered by Louisiana State Insurance and are not rated. Although the fund itself is not rated, it is comprised of highly rated securities such as U.S. Treasury Notes and mortgage-backed securities at June 30, 2016. The School Board has reported their other investments at fair value at June 30, 2016. Fair value was determined by obtaining "quoted" year-end market prices.

(4) Ad Valorem Taxes

Ad valorem taxes attach as an enforceable lien on property as of January 1<sup>st</sup> of each year. During the fiscal year ended June 30, 2016, taxes were levied by the School Board in November 2015 and were billed to taxpayers by the Assessor in December 2015. Billed taxes are due by December 31, becoming delinquent on January 1<sup>st</sup> of the following year. The taxes are based on assessed values determined by the Tax Assessor of St. Landry Parish and are collected by the Sheriff. The taxes are remitted to the School Board net of deductions for Pension Fund contributions.

For the year ended June 30, 2016, taxes were levied on property with net assessed valuations totaling \$615,005,516 and were dedicated as follows:

Constitutional	4.37 mills
Operation, improvement and maintenance	4.37 mills
Salaries of teachers and other employees	<u>11.57</u> mills
Total assessment	<u>20.31</u> mills

Gross taxes levied for the current fiscal year totaled \$12,490,779. After accounting for deductions for various pension distributions and uncollectible taxes and collections of back taxes, ad valorem taxes reported by the School Board amounted to \$12,519,583.

(9) Long-Term Liabilities

The School Board issues certificates of indebtedness, revenue bonds, lease financing, qualified zone academy certificates of indebtedness (QZAB) and qualified school construction bonds (QSCB) secured by General Fund revenues. This debt is used to finance the purchase of specific equipment and to make improvements to existing schools.

During the fiscal year ending June 30, 2012, the School Board entered into a lease agreement for the acquisition of forty (40) buses totaling \$2,862,080. At June 30, 2016, the buses had a value of \$95,403 (net of \$2,766,677 of accumulated depreciation), which is included in the furniture and equipment capital asset class. During the fiscal year ending June 30, 2015, the School Board entered into a lease agreement for the acquisition of thirty-three (35) buses totaling \$2,553,997. At June 30, 2016, the buses had a value of \$1,622,047 (net of \$906,663 accumulated depreciation), which is included in the furniture and equipment capital asset class. During the fiscal year ending June 30, 2016, the School Board entered into two lease agreements for the acquisition of twelve (12) buses totaling \$799,090. At June 30, 2016, the buses had a value of \$697,005 (net of \$95,328 accumulated depreciation).

All of the School Board's long-term debt is associated with governmental activities. Workmen's compensation claims are generally liquidated by the General Fund and School Food Service Special Revenue Fund. Claims and judgments (included in insurance claims), and compensated absences liabilities are generally liquidated by the General Fund and arbitrage is generally liquidated by the capital projects fund. Long-term debt outstanding as of June 30, 2016 is as follows:

(10) Post Retirement Health Care and Life Insurance Benefits

From an accrual accounting perspective, the cost of postemployment healthcare benefits should be associated with the periods in which the cost occurs, rather than in the future year when it will be paid. In adopting the requirements of GASB Statement No. 45 during the year ended June 30, 2009, the School Board began to recognize the cost of postemployment healthcare in the year when employee services are received, to report the accumulated liability from prior years, and to provide information useful in assessing potential demands on the School Board's future cash flows. Because the School Board adopted the requirements of GASB Statement No. 45 prospectively, recognition of the liability accumulated from prior years will be phased in over 30 years, commencing with the 2009 liability.

Plan Description: In accordance with State statutes, the School Board provides certain continuing health care and life insurance benefits for its retired employees. Substantially all of the School Board's employees become eligible for these benefits upon reaching retirement age while working for the School Board. These benefits for retirees and similar benefits for active employees are provided through the Louisiana Office of Group Benefits (OGB), whose monthly premiums are paid jointly by the employee and the School Board. The OGB plan is a fully insured, multiple-employer arrangement and has been deemed to be an agent multiple-employer plan for financial reporting purposes and for this valuation. The plan does not issue a stand-alone financial report.

ST. LANDRY PARISH SCHOOL BOARD  
Opelousas, Louisiana

Notes to the Basic Financial Statements (Continued)

Funding Policy: The plan is funded on a “pay-as-you-go” basis, with the School Board contributing approximately \$10,228,695 for the fiscal year ended June 30, 2016, for retirees and their dependents. No assets have been segregated and restricted to provide post employment benefits.

Retirees contribute approximately 25% of the retiree only coverage for the basic core and premium buy-up plans respectively, and one-half of the cost of dependent coverage. Active employees contribute approximately 25% of the employee only coverage for the basic core and premium buy-up plans, respectively, and one-half of the cost of dependent coverage.

The School Board provides an employer paid life insurance benefit to all active employees and retirees. Employees and retirees hired on or before January 1, 2002 receive a life insurance benefit of one and one-half times their most recent salary. Employees hired on July 2, 2002 or thereafter receive a life insurance benefit restricted to \$50,000. At age 70 the life insurance benefit is reduced to \$7,500 for retirees.

Annual OPEB Cost and Net OPEB Obligation: The School Board’s annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years. The ARC was calculated as part of the July 1, 2014 actuarial valuations performed by outside actuary consultants.

The following table shows the components of the School Board’s annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the School Board’s net OPEB obligation:

Annual required contribution	\$ 18,853,000
Contributions made	<u>(10,228,695)</u>
Increase in net OPEB obligation	8,624,305
Net OPEB obligation - beginning of year	<u>109,377,711</u>
Net OPEB obligation - end of year	<u>\$118,002,016</u>

The School Board’s annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation as of 2014, 2015, and 2016 follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
6/30/2014	\$ 18,344,800	40.1%	\$ 100,376,372
6/30/2015	18,102,900	50.3%	109,377,711
6/30/2016	18,853,000	54.3%	118,002,016

ST. LANDRY PARISH SCHOOL BOARD  
Opelousas, Louisiana

Notes to the Basic Financial Statements (Continued)

Funded Status and Funding Progress: The funded status of the plan as of July 1, 2014, was as follows:

Actuarial accrued liability (AAL)	\$ 267,232,000
Actuarial valuation of plan assets	-
Unfunded actuarial accrued liability (UAAL)	\$ 267,232,000
Funded ratio (actuarial value of plan assets/AAL)	0.0%
Covered payroll (active plan members)	\$ 33,182,054
UAAL as a percentage of covered payroll	805.4%

Actuarial Methods and Assumptions: Actuarial valuations of the School Board's plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The schedule of funding progress included in required supplementary information following the notes to the financial statements presents multi-year trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The ARC for the year was determined as part of the July 1, 2014 actuarial valuation using the following methods and assumptions:

Actuarial cost method	Projected unit credit
Investment return	4% (net of administrative expenses)
Healthcare inflation rate	8% and 7% for pre-Medicare and Medicare eligibles, respectively, scaling down to ultimate rate of 4.5%
UAAL amortization method	Level percentage of payroll, open
Projected salary increases	3%

Notes to the Basic Financial Statements (Continued)

(11) Risk Management

The School Board is partially self-insured with regard to workers' compensation insurance. Under the terms of an excess workers' compensation insurance agreement with a private insurance company in effect at June 30, 2016, the School Board's maximum liability per occurrence is \$300,000 for all claims paid during the year. The School Board reported a claims liability of \$1,197,504 on the government-wide financial statements at June 30, 2016. The School Board purchases commercial insurance for individuals' claims in excess of \$300,000. There have been no significant reductions in insurance coverage during the year nor have settlements exceeded coverage for the past three years.

(12) Commitments and Contingencies

A. Contingent Liabilities

At June 30, 2016, the School Board was a defendant in lawsuits principally arising from the normal course of operations. The School Board's legal counsel has reviewed the School Board's claims and lawsuits, which are primarily personal injury claims, in order to evaluate the likelihood of an unfavorable outcome to the School Board and to arrive at an estimate, if any, of the amount or range of potential loss to the School Board. It is the opinion of the School Board, after conferring with legal counsel, that the liability, if any, which might arise from these lawsuits would not have a material adverse effect on the School Board's financial position.

B. Grant Audits

The School Board receives grants for specific purposes that are subject to review and audit by governmental agencies. Such audits could result in a request for reimbursement by the grantor for expenditures disallowed under the terms and conditions of the appropriate agency.

(13) Sales and Use Taxes

The School Board collects a one percent sales and use tax on all taxable sales within the Parish. The proceeds of this tax must be used for teachers' salaries and for expenses of operating the schools. The School Board also collects a one percent sales and use tax levied through the Educational Facilities and Improvement District of the Parish of St. Landry. The proceeds of this tax must be used to supplement employee salaries and benefits. The St. Landry Parish Sales Tax Commission has authorized the St. Landry Parish School Board to collect sales and use taxes for all taxing bodies within the parish beginning July 1, 1992. The School Board retains one percent of all collections as a collection fee. The collection and distribution of sales taxes are accounted for in the Sales Tax Agency Fund.

(14) Pension Plans

The School Board participates in three cost-sharing defined benefit plans, each administered by separate public employee retirement systems. Article X, Section 29(F) of the Louisiana Constitution of 1974 assigns the authority to establish and amend benefit provisions of all plans administered by these public employee retirement systems to the State Legislature. These plans are not closed to new entrants. Substantially all School Board employees participate in one of the following retirement systems:

**Plan Descriptions**

Teachers' Retirement System of Louisiana (TRSL) provides retirement allowances and other benefits as stated under the provisions of LRS 11:700-999, as amended, for eligible teachers, employees, and their beneficiaries.

ST. LANDRY PARISH SCHOOL BOARD  
Opelousas, Louisiana

Notes to the Basic Financial Statements (Continued)

Louisiana State Employees' Retirement System (LASERS) provides retirement, disability, and survivor benefits to eligible state employees and their beneficiaries as defined in the Louisiana Revised Statutes. The age and years of creditable service required in order for a member to receive retirement benefits are established by LRS 11:441 and vary depending on the member's hire date, employer and job classification.

State of Louisiana School Employees' Retirement System (LSERS) provides retirement, disability and survivor benefits as provided for by LRS 11:1001 for all eligible school bus drivers, school janitors, school custodians, school maintenance employees, school bus aides, or other regular school employees who actually work on a school bus helping with the transportation of school children.

The systems' financial statements are prepared using the accrual basis of accounting. Employer and employee contributions are recognized in the period in which the employee is compensated for services performed. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan. Interest income is recognized when earned. Ad valorem taxes and revenue sharing monies are recognized in the year collected by the tax collector.

A brief summary of eligibility and benefits of the plans follows:

Teachers' Retirement System of Louisiana (TRSL): Regular plan members whose first employment makes them eligible for membership in a Louisiana state retirement system on or after January 1, 2011 may retire with a 2.5% accrual rate after attaining age sixty with at least 5 years of service credit and are eligible for an actuarially reduced benefit with 20 years of service at any age. All other members, if initially hired on or after July 1, 1999, are eligible for a 2.5% accrual rate at the earliest of age 60 with 5 years of service, age 55 with 25 years of service, or at any age with 30 years of service. Members may retire with an actuarially reduced benefit with 20 years of service at any age. If hired before July 1, 1999, members are eligible for a 2% accrual rate at the earliest of age 60 with 5 years of service, or at any age with 20 years of service and are eligible for a 2.5% accrual rate at the earliest of age 65 with 20 years of service, age 55 with 25 years of service, or at any age with 30 years of service. Plan A members may retire with a 3.0% annual accrual rate at age 55 with 25 years of service, age 60 with 5 years of service or 30 years of service, regardless of age. Plan A is closed to new entrants. No School Board employees are participants of Plan A. Plan B members may retire with a 2.0% annual accrual rate at age 55 with 30 years of service, or age 60 with 5 years of service. For all plans, retirement benefits are based on a formula which multiplies the final average compensation by the applicable accrual rate, and by the years of creditably service. For Regular Plan and Lunch Plan B members whose first employment makes them eligible for membership in a Louisiana state retirement system on or after January 1, 2011, final average compensation is defined as the highest average 60-month period. For all other members, final average compensation is defined as the highest average 36-month period.

Louisiana State Employees' Retirement System (LASERS): The age and years of creditable service required in order for a member to retire with full benefits are established by statute, and vary depending on the member's hire date, employer, and job classification. The majority of LASERS rank and file members may either retire with full benefits at any age upon completing 30 years of creditable service or at age 60 upon completing five to ten years of creditable service depending on their plan. Additionally, members may choose to retire with 20 years of service at any age, with an actuarially reduced benefit. The basic annual retirement benefit for members is equal to 2.5% to

ST. LANDRY PARISH SCHOOL BOARD

Notes to the Basic Financial Statements (Continued)

3.5% of average compensation multiplied by the number of years of creditable service. Average compensation is defined as the members' average annual earned compensation for the highest 36 months of employment for members employed prior to July 1, 2006. For members hired July 1, 2006 or later, average compensation is based on the member's average annual earned compensation for the highest 60 consecutive months of employment.

State of Louisiana School Employees' Retirement System (LSERS): A member who joined the System on or before June 30, 2010 is eligible for normal retirement if he has at least 30 years of creditable service regardless of age, 25 years of creditable service and is at least age 55, 20 years of creditable service regardless of age with an actuarially reduced benefit, or 10 years of creditable service and is at least age 60. A member who joined the System on or after July 1, 2010 is eligible for normal retirement if he has at least 5 years of creditable service and is at least age 60, or 20 years of creditable service regardless of age with an actuarially reduced benefit. For members who joined the System prior to July 1, 2006, the maximum retirement benefit is an amount equal to 3 1/3% of the average compensation for the three highest consecutive years of membership service, subject to the 10% salary limitation, multiplied by the number of years of service limited to 100% of final average compensation plus a supplementary allowance of \$2.00 per month for each year of service. For members who joined the System on or after July 1, 2006 through June 30, 2010, 3 1/3% of the average compensation is used to calculate benefits; however, the calculation consists of the five highest consecutive years of membership service, subject to the 10% salary limitation. For members who join the System on or after July 1, 2010, 2 1/2% of the average compensation is used to calculate benefits and consists of the five highest consecutive years' average salary, subject to the 15% salary limitation.

**Contributions**

Article X, Section 29(E)(2)(a) of the Louisiana Constitution of 1974 assigns the Legislature the authority to determine employee contributions. Employer contributions are actuarially determined using statutorily established methods on an annual basis and are constitutionally required to cover the employer's portion of the normal cost and provide for the amortization of the unfunded accrued liability. Employer contributions are adopted by the Legislature annually upon recommendation of the Public Retirement Systems' Actuarial Committee.

Contributions to the plans are required and determined by state statute (which may be amended) and are expressed as a percentage of covered payroll. The contribution rates in effect for the year ended June 30, 2016 for the School Board and covered employees were as follows:

Plan	Active Member Contribution Percentage	Employer Contribution Percentage
TRSL:		
Regular Plan	8.00%	26.30%
Optional Plan	8.00%	28.20%
Plan A	9.10%	33.10%
LASERS	7.50%	37.20%
LSERS	7.5% - 8.00%	30.20%

Notes to the Basic Financial Statements (Continued)

The contributions made by the School Board to each of the retirement systems for the past three fiscal years, which equaled the required contributions for each of these years, were as follows:

Plan	2016	2015	2014
TRSL:			
Regular Plan	\$ 16,881,209	\$ 17,878,090	\$ 16,900,534
Optional Plan	97,836	105,558	62,681
Plan A	-	7,669	7,404
LASERS	96,275	129,185	87,364
LSERS	1,790,938	2,136,543	1,682,176

**Net Pension Liability**

The School Board's net pension liability at June 30, 2016 is comprised of its proportionate share of the net pension liability relating to each of the cost-sharing plans in which the School Board is a participating employer. The School Board's net pension liability for each plan was measured as of the plan's measurement date of June 30, 2015 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation at that date. The School Board's proportionate share of the net pension liability for each of the plans in which it participates was based on the School Board's required contributions in proportion to the total required contributions for all employers.

As of the most recent measurement date, the School Board's proportion for each plan and the change in proportion from the prior measurement date were as follows:

Plan	Proportionate Share of Net Pension Liability	Proportionate Share (%) of Net Pension Liability	Increase/(Decrease) from Prior Measurement Date
TRSL	\$156,531,546	1.455800%	0.004000%
LASERS	1,210,125	1.966580%	0.116130%
LSERS	12,470,628	0.017790%	0.003020%
Total	<u>\$170,212,299</u>		

Since the measurement date of the net pension liability was June 30, 2015, the net pension liability is based upon fiduciary net position for each of the plans as of those dates. Detailed information about each pension plan's assets, deferred outflows, deferred inflows, and fiduciary net position that was used in the measurement of the School Board's net pension liability is available in the separately issued plan financial reports for those fiscal years. The financial report for each plan may be accessed on their website as follows:

**Cost of Living Adjustments**

As fully described in Title 11 of the Louisiana Revised Statutes, each plan allows for the payment of permanent benefit increases, also known as cost-of-living adjustments (COLAs) that are funded through investment earnings when recommended by the Board of Trustees and approved by the State Legislature.

**Discount Rate**

The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that sponsor contributions will be made at rates equal to the difference between actuarially determined contributions rates and the member rate. Based on those assumptions, each of the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability. The discount rate used to measure the total pension liability for TRSL, LASERS, and LSERS was 7.75%, 7.75%, and 7.0%, respectively for the year ended June 30, 2015.

ST. LANDRY PARISH SCHOOL BOARD  
Opelousas, Louisiana

Notes to the Basic Financial Statements (Continued)

The discount rates used to measure the School Board's total pension liability for each plan is equal to the long-term expected rate of return on pension plan investments that are expected to be used to finance the payment of benefits. For TRSL and LASERS, the long term expected rate of return on pension plan investments was determined using the building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and an adjustment for the effect of rebalancing/diversification.

For LSERS the long-term expected rate of return on pension plan investments was determined using a triangulation method which integrated the CAPM pricing model (top-down), a treasury yield curve approach (bottom-up) and an equity building block model (bottom-up). Risk return and correlations are projected on a forward looking basis in equilibrium, in which best estimates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These rates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic/geometric real rates of return for each major asset class are summarized for each plan in the following table:

Asset Class	TRSL*		LASERS**		LSERS**

**Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

Changes in the net pension liability may either be reported in pension expense in the year the change occurred or recognized as a deferred outflow of resources or a deferred inflow of resources in the year the change occurred and amortized into pension expense over a number of years. For the year ended June 30, 2016, the School Board recognized \$3,490,806 in pension expense related to all defined benefit plans in which it participates.

At June 30, 2016, the School Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 1,618	\$2,918,186
Changes of assumptions	896,995	-
Net difference between projected and actual earnings on pension plan investments	-	4,035,754
Change in proportion and differences between employer contributions and proportionate share of contributions	5,029,044	678,006
Employer contributions subsequent to the measurement date	<u>18,876,049</u>	<u>9,925</u>
Total	<u>\$24,803,706</u>	<u>\$7,641,871</u>

Deferred outflows of resources of \$6,757,630 resulting from the employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability during the year ending June 30, 2017. Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions to be recognized in pension expense are as follows:

<u>Year Ended June 30</u>	<u>Net Amount Recognized in Pension Expense</u>
2017	\$ (1,491,044)
2018	(1,347,165)
2019	(1,762,680)

**Sensitivity of the School Board's Proportionate Share of the Net Pension Liabilities to Changes in the Discount Rate**

The following presents the School Board's proportionate shares of the net pension liabilities of the plans, calculated using their respective discount rates, as well as what the School Board's proportionate shares of the net pension liabilities would be if they were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

Plan	Current Discount Rate	Net Pension Liability		
		1% Decrease	Current Discount Rate	1% Increase
TRSL	7.75%	\$ 198,069,297	\$ 156,531,546	\$ 121,202,886
LASERS	7.75%	1,527,438	1,210,125	940,648
LSERS	7.00%	17,131,614	12,470,628	8,485,098

Notes to the Required Supplementary Information

(1) Retirement Systems

A. Teachers' Retirement System of Louisiana

- 1) Changes of benefit terms – A 1.5% COLA, effective July 1, 2014, provided by Act 204 of the 2014 Louisiana Regular Legislative Session.
- 2) Changes of assumptions – There were no changes of benefit assumptions for the year ended June 30, 2016.

B. Louisiana State Employees' Retirement System

- 1) Changes of benefit terms – There were no changes of benefit terms for the year ended June 30, 2016.
- 2) Changes of Assumptions – There were no changes of benefit assumptions for the year ended June 30, 2016.

C. Louisiana School Employees' Retirement System

- 1) Changes of benefit terms – There were no changes of benefit terms for the year ended June 30, 2016.
- 2) Changes of Assumptions – There were no changes of benefit assumptions for the year ended June 30, 2016.

(2) Budget Practices

The proposed budget for 2016 was completed and made available for public inspection at the School Board office prior to the required public hearing held for suggestions and comments from taxpayers. The School Board formally adopted the proposed fiscal year 2016 budget on September 3, 2015. In accordance with R.S.17:88(A), parish school boards must adopt the budget no later than September fifteenth of each year. The budget, which included proposed expenditures and the means of financing them, for the General and Special Revenue Funds, was published in the official journal ten days prior to the public hearing.

The budgets for the General and Special Revenue Funds for the fiscal year were prepared on the modified accrual basis of accounting, consistent with generally accepted accounting principles (GAAP).

Formal budgetary accounts are integrated into the accounting system during the year as a management control device, including the recording of encumbrances. With the exception of the multi-year projects in the capital projects funds, appropriations lapse at the end of each fiscal year.

ST. LANDRY PARISH SCHOOL BOARD  
Opelousas, Louisiana

Notes to the Required Supplementary Information (Continued)

The level of control over the budget is exercised at the function or program level for the General and Special Revenue Funds. The Superintendent and/or Director of Finance are authorized to transfer budget amounts within each fund; however, any supplemental appropriations that amend the total expenditures of any fund require School Board approval. As required by state law, when actual revenues within a fund are failing to meet estimated annual budgeted revenues by five percent or more, and/or actual expenditures within a fund are exceeding estimated budgeted expenditures by five percent or more, a budget amendment to reflect such changes is adopted by the School Board in an open meeting. Budgeted amounts included in the financial statements include the original adopted budget and all subsequent amendments.

(3) Excess of Expenditures over Appropriations

For the year ended June 30, 2016, the following funds had actual expenditures over appropriations as follows:

Fund	Budget	Actual	Excess
General Fund	118,169,839	119,186,167	(1,016,328)

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Mr. Patrick Jenkins, Superintendent,  
and Members of the St. Landry Parish School Board  
Opelousas, Louisiana

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of St. Landry Parish School Board (the School Board), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the School Board's basic financial statements and have issued our report thereon dated December 13, 2016.

### Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School Board's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School Board's internal control. Accordingly, we do not express an opinion on the effectiveness of the School Board's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify certain deficiencies in internal control, described in the accompanying summary schedule of current and prior year audit findings and corrective action plan that we consider to be material weaknesses as items 2016-001, 2016-002, 2016-003, 2016-004, and 2016-005.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the School Board's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **School Board's Response to Findings**

The School Board's response to the findings identified in our audit is described in the accompanying summary schedule of current and prior year audit findings and corrective action plan. The School Board's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School Board's internal control and compliance. Accordingly this communication is not suitable for any other purpose. Although the intended use of this report may be limited, under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Mr. Patrick Jenkins, Superintendent,  
and Members of the St. Landry Parish School Board  
Opelousas, Louisiana

### Report on Compliance for Each Major Federal Program

We have audited the St. Landry Parish School Board's (the School Board) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the School Board's major federal programs for the year ended June 30, 2016. The School Board's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

### Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the School Board's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School Board's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the School Board's compliance.

### ***Opinion on Each Major Federal Program***

In our opinion, the St. Landry Parish School Board complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2016.

### **Report on Internal Control over Compliance**

Management of the School Board is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the School Board's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School Board's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose. Although the intended use of this report may be limited, under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

Notes to Schedule of Expenditures of Federal Awards  
Year Ended June 30, 2016

(1) General

The accompanying schedule of expenditures of federal awards (the schedule) includes the federal award activity of the St. Landry Parish School Board under programs of the federal government for the year ended June 30, 2016. The information in this schedule is presented in accordance with the requirement of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the St. Landry Parish School Board, it is not intended to and does not present the financial position, changes in net position, or cash flows of the St. Landry Parish School Board.

(2) Summary of Significant Accounting Policies

Expenditures reported on the schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The St. Landry Parish School Board has not elected to use the 10 percent *de minimis* indirect cost rate as allowed under the Uniform Guidance.

(3) Commodities

Nonmonetary assistance is reported in the schedule at the fair value of the commodities received and disbursed. At June 30, 2016, the School Board had \$397,035 of commodities inventory.

(4) Relationship to Fund Financial Statements

Federal financial assistance revenues are reported in the School Board's fund financial statements as follows:

From federal sources:

General Fund	\$ 144,590
Special Revenue Funds	<u>22,485,495</u>
Total	<u>\$22,630,085</u>

(5) Relationship to Federal Financial Reports

Amounts reported in the schedule agree with the amounts reported in the related federal financial reports except for the amounts in reports submitted as of a date subsequent to June 30, 2016, which will differ from the schedule by the amount of encumbrances as of June 30, 2016.

Schedule of Findings and Questioned Costs  
Year Ended June 30, 2016

Part I. Summary of Auditor's Results:

1. The auditor's report expresses an unmodified opinion on whether the financial statements of the St. Landry Parish School Board.
2. Five deficiencies in internal control were disclosed by the audit of the financial statements. These deficiencies were considered to be material weaknesses.
3. No instances of noncompliance material to the financial statements which would be required to be reported in accordance with *Government Auditing Standards*, were disclosed during the audit.
4. There were no significant deficiencies or material weaknesses in internal control over the major federal award program disclosed.
5. The auditor's report on compliance for the major federal award programs expresses an unmodified opinion on all major federal programs.
6. The audit disclosed no findings that are required to be reported under 2 CFR section 200.516(a).
7. The major programs were: Title I Grants to Local Education Agencies Program (CFDA 84.010), Special Education Grants to States Program (CFDA 84.027 and 84.173), and Temporary Assistance for Needy Families – LA 4 Early Childhood Program (CFDA 93.558).
8. The dollar threshold used to distinguish between Type A and Type B programs, as described in 2 CFR section 200.518(b)(1) was \$750,000.
9. The School Board did not qualify as a low-risk auditee.

Part II. Findings which are required to be reported in accordance with generally accepted *Governmental Auditing Standards*:

Internal Control –

See Internal Control Findings 2016-001, 2016-002, 2016-003, 2016-004, and 2016-005 on the Summary Schedule of Current and Prior Year Audit Findings and Management's Corrective Action Plan.

U.S. DEPARTMENT OF EDUCATION

Compliance and Internal Control Finding –

2015-002

Title I Grants to Local Education Agencies CFDA #84.010

*Condition*

During our audit, we noted that the School Board failed to meet the comparability requirements in six schools as provided by §1120(A)(c) of the Elementary and Secondary Education Act.

*Criteria*

§1120(A)(c) of the Elementary and Secondary Education Act states that to be eligible to receive Title I funds, the LEA must use state and local funds to provide services in Title I schools that are at least comparable to services provided in non-Title I schools.

*Effect*

Because of errors in the comparability reports, the School Board provided services to Title I schools that were not at least comparable to non-Title I schools.

*Cause*

Errors were made in the comparability reports thereby showing all Title I and non-Title I schools as comparable.

ST. LANDRY PARISH SCHOOL BOARD  
Opelousas, Louisiana

Schedule of Prior Findings and Questioned Costs (Continued)  
Year Ended June 30, 2016

*Recommendation*

Procedures should be implemented for careful review and approval of all comparability reports.

*Planned Corrective Action and Management's Response*

The Title I supervisor will review these reports prior to submission, comparing to prior year data as well as current year data to ensure no errors are made. A compliant comparability report was submitted to the Louisiana Department of Education on October 2, 2015, which showed all schools comparable for the 2015-2016 school year.

*Status at June 30, 2016*

The School Board met all comparability requirements as provided by §1120(A)(c) of the Elementary and Secondary Education Act.

U.S. DEPARTMENT OF EDUCATION

Compliance and Internal Control Finding –

2015-003

Special Education Grants to States CFDA #84.027 and #84.173

*Condition*

During our audit, we noted that the School Board failed to meet the IDEA Maintenance of Effort (MOE) eligibility requirement as provided by 34 CFR §300.203(a).

*Criteria*

This requirement states that the Local Education Agency (LEA) budget for the education of students with disabilities in FY 2014-2015 at least the same amount as it expended in FY 2013-2014.

*Effect*

The School Board was not in compliance with the Maintenance of Effort requirements.

*Cause*

Budgeted expenditures totals did not exceed the most recent prior year actual expenditures.

ST. LANDRY PARISH SCHOOL BOARD  
Opelousas, Louisiana

Schedule of Prior Findings and Questioned Costs (Continued)  
Year Ended June 30, 2016

*Recommendation*

The School Board administrative staff should consider the Special Education requirements when preparing future general fund budgets.

*Planned Corrective Action and Management's Response*

The School Board will make every effort to maintain spending in the Special Education area.

*Status at June 30, 2016*

The School Board met the IDEA Maintenance of Effort (MOE) eligibility requirement as provided by 34 CFR §300.203(a).

CURRENT YEAR (06/30/16) --						
<u>Internal Control:</u>						
2016-001	Unknown	The School Board is not providing proper oversight over the school activity and cafeteria accounts. The lack of adequate oversight provides for the opportunity of misappropriation of cash and the funds designated for a particular club to be expended by another group.		The School Board performs routine audits of the school activity funds. In the past, school administrators allowed certain groups to spend funds that were not available to their group, which has created negative cash balances for some groups. All school administrators have been informed of the proper procedures for spending school activity funds.	Tressa Miller, Director of Finance	Immediately
2016-002	2016	In November of 2015, the Supervisor of Child Nutrition noticed irregularities in deposit records from two elementary schools. Upon further investigation, it was determined that a total of \$445 had been misappropriated by the cafeteria managers in the respective schools. The Louisiana Legislative Auditor, Opelousas Police Department, and District Attorney were all notified of the incident.		The School Board will monitor school activity funds more closely and discuss proper internal controls with school administrators. As of December 31, 2015, restitution had been made and the two individuals involved are no longer employed by the School Board.	Tressa Miller, Director of Finance	Immediately
2016-003	2016	During the year, it was noted that \$505 was unaccounted for as a result of a bookkeeper not following proper policies and procedures at a high school. The School Board is currently seeking restitution of this balance from the employee responsible, who has been relieved from bookkeeping duties but is still employed by the School Board. The Louisiana Legislative Auditor and the District Attorney were notified of the incident.		The School Board will monitor school activity funds more closely and discuss proper internal controls with school administrators. As of the date of this report, no restitution has been made and disciplinary action will be taken against the employee.	Tressa Miller, Director of Finance	Immediately

<u>Internal Control:</u>						
2016-004	2016	On May 5, 2016, a classroom was broken into at a middle school and \$1,610 was stolen. The School Board is seeking restitution of the outstanding balance from the teacher responsible for safeguarding the funds due to proper policies and procedures not being followed. The Louisiana Legislative Auditor and the District Attorney were notified of the incident.	Yes	The School Board will monitor school activity funds more closely and discuss proper internal controls with school administrators. As of the date of this report, \$75 has been recovered in reissued checks, but \$1,535 is still outstanding and disciplinary action will be taken against the teacher who is still employed by the School Board.	Tressa Miller, Director of Finance	Immediately
2016-005	2016	In June of 2016, the School Board identified numerous assets that were missing from the premises. The Louisiana Legislative Auditor, District Attorney, and Sheriff's Office were contacted and an investigation was initiated. John Ricky Theriot, a former maintenance department employee, was arrested and most of the assets were recovered. As of the date of this report, various small assets with a value of \$1,637 have not been recovered.	Yes	The School Board will conduct routine inventory checks to ensure that this does not happen again.	Tressa Miller, Director of Finance	Immediately

\* A Professional Accounting Corporation

Mr. Patrick Jenkins, Superintendent  
and Members of the St. Landry Parish School Board  
Opelousas, Louisiana

We have performed the procedures included in the *Louisiana Governmental Audit Guide* and enumerated below, which were agreed to by the management of St. Landry Parish School Board and the Legislative Auditor, State of Louisiana, solely to assist users in evaluating management's assertions about the performance and statistical data accompanying the annual financial statements of the St. Landry Parish School Board and to determine whether the specified schedules are free of obvious errors and omissions as provided by the Board of Elementary and Secondary Education (BESE). Management of the St. Landry Parish School Board is responsible for its performance and statistical data. This agreed-upon procedures engagement was performed in accordance with standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the specified users of the report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Our procedures and findings relate to the accompanying schedules of supplemental information and are as follows:

### **I. General Fund Instructional and Support Expenditures and Certain Local Revenue Sources (Schedule 1)**

1. We selected a random sample of 25 transactions and reviewed supporting documentation to determine if the sampled expenditures/revenues are classified correctly and are reported in the proper amounts for each of the following amounts reported on the schedule:

- Total General Fund Instructional Expenditures
- Total General Fund Equipment Expenditures
- Total Local Taxation Revenue
- Total Local Earnings on Investment in Real Property
- Total State Revenue in Lieu of Taxes
- Nonpublic Textbook Revenue
- Nonpublic Transportation Revenue

There were no exceptions noted.

**II. Education Levels of Public School Staff (Schedule 2)**

2. We reconciled the total number of full-time classroom teachers per the schedule “Experience of Public Principals, Assistant Principals, and Full-time Classroom Teachers” (Schedule 4) to the combined total number of full-time classroom teachers per this schedule and to school board supporting payroll records as of October 1st.

There were no exceptions noted.

3. We reconciled the combined total of principals and assistant principals per the schedule “Experience of Public Principals, Assistant Principals, and Full-time Classroom Teachers” (Schedule 4) to the combined total of principals and assistant principals per this schedule.

There were no exceptions noted.

4. We obtained a list of full-time teachers, principals, and assistant principals by classification as of October 1st and as reported on the schedule. We traced a random sample of 25 teachers to the individual’s personnel file and determined if the individual’s education level was properly classified on the schedule.

There were no exceptions noted.

**III. Number and Type of Public Schools (Schedule 3)**

5. We obtained a list of schools by type as reported on the schedule. We compared the list to the schools and grade levels as reported on the Title 1 Grants to Local Educational Agencies (CFDA 84.010) application and/or the National School Lunch Program (CFDA 10.555) application.

There were no exceptions noted.

**IV. Experience of Public Principals, Assistant Principals, and Full-time Classroom Teachers (Schedule 4)**

6. We obtained a list of full-time teachers, principals, and assistant principals by classification as of October 1 and traced the same sample used in procedure 4 to the individual’s personnel file and determined if the individual’s experience was properly classified on the schedule.

There were three exceptions noted.

**V. Public School Staff Data: Average Salaries (Schedule 5)**

7. We obtained a list of all classroom teachers including their base salary, extra compensation, and ROTC or rehired retiree status as well as full-time equivalent as reported on the schedule and traced a random sample of 25 teachers to the individual's personnel file and determined if the individual's salary, extra compensation, and full-time equivalents were properly included on the schedule.

There were no exceptions noted.

8. We recalculated the average salaries and full-time equivalents reported in the schedule.

There were no exceptions noted.

**VI. Class Size Characteristics (Schedule 6)**

9. We obtained a list of classes by school, school type, and class size as reported on the schedule and reconciled school type classifications to Schedule 3 data, as obtained in procedure 5. We then traced a random sample of 10 classes to the October 1st roll books for those classes and determined if the class was properly classified on the schedule.

There were no exceptions noted.

**VII. Louisiana Educational Assessment Program (LEAP) (Schedule 7)**

10. We obtained test scores as provided by the testing authority and reconciled scores as reported by the testing authority to scores reported in the schedule by St. Landry Parish School Board.

There were no exceptions noted.

**VIII. The Graduation Exit Examination (GEE) (Schedule 8)**

11. The Graduation Examination (GEE) is no longer administered. This schedule is no longer applicable.

**IX. iLEAP Tests (Schedule 9)**

12. We obtained test scores as provided by the testing authority and reconciled scores as reported by the testing authority to scores reported in the schedule by St. Landry Parish School Board.

There were no exceptions noted.

We were not engaged to, and did not, perform an examination, the objective of which would be the expression of an opinion on management's assertions. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the use of management of St. Landry Parish School Board, the Louisiana Department of Education, the Louisiana Legislature, and the Legislative Auditor, State of Louisiana, and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

The Graduation Exit Examination (GEE) is no longer administered. This schedule is no longer applicable.

**Schedule 9 – iLEAP Tests**

This schedule represents student performance testing data and includes a summary for grades 3, 4, 5, 6, 7, and 8 for each district. The summary score reported is the National Percentile Rank showing relative position or rank as compared to a large, representative sample of students in the same grade from the entire nation. This schedule includes three years of data.

SCHEDULE 5

Public School Staff Data: Average Salaries  
For the Year Ended June 30, 2016

	All Classroom Teachers	Classroom Teachers Excluding ROTC, Rehired Retirees, and Flagged Salary Reductions
Average classroom teachers' salary including extra compensation	43,605	43,516
Average classroom teachers' salary excluding extra compensation	43,562	43,473
Number of teacher full-time equivalents (FTEs) used in computation of average salaries	586	583

Note: Figures reported include all sources of funding (i.e., federal, state, and local) but exclude stipends and employee benefits. Generally, retired teachers rehired to teach receive less compensation than non-retired teachers; some teachers may have been flagged as receiving reduced salaries (e.g., extended medical leave); and ROTC teachers usually receive more compensation because of a federal supplement. For these reasons, these teachers are excluded from the computation in the last column. This schedule excludes day-to-day substitutes, temporary employees, and any teachers on sabbatical leave during any part of the school year.

**Note:** The Board of Elementary and Secondary Education has set specific limits on the maximum size of classes at various grade levels. The maximum enrollment in grades K-3 is 26 students and maximum enrollment in grades 4-12 is 33 students. These limits do not apply to activity classes such as physical education, chorus, band, and other classes without maximum enrollment standards. Therefore, these classes are included only as separate line items.
