INDEPENDENT ACCOUNTANTS' COMPILATON REPORT

Board of Directors Spring Bayou Water Works District Marksville, Louisiana Avoyelles Parish, Louisiana

Management is responsible for the accompanying financial statements of the business-type activities of the Spring Bayou Water Works District, as of and for the year ended December 31, 2016, and related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents, in accordance with accounting principles generally accepted in the United States of America. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the financial statements nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on these financial statements.

Supplementary Information

The accompanying schedule of compensation, benefits and other payments to the agency head and supplementary data required by USDA are presented for purposes of additional analysis and are not required parts of the basic financial statements. This information is the representation of management. This information was subject to our compilation engagement, but we have not audited or reviewed the supplementary information, and accordingly, do not express an opinion, a conclusion, nor provided any assurance on such information.

Management has omitted the Management Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement basic financial statements. The Management Discussion and Analysis, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical content.

NOTES TO THE FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2016

INTRODUCTION

The Spring Bayou Water Works District, Marksville, Louisiana was incorporated on October 9, 1990, under the provision of the Louisiana Revised Statutes 33:3814, by the Avoyelles Parish Police Jury. The District operates under a President-Board form of government, whose appointments are made by the Avoyelles Parish Police Jury. The members of the board receive \$15 per meeting attended. The District is responsible for maintaining and operating a water system within the boundaries of the district.

GASB Statement No. 14, *The Reporting Entity*, established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under the provisions of this Statement, the Spring Bayou Water Works District is considered a component unit of the Avoyelles Parish Police Jury. As a component unit, the accompanying financial statements may be included within the reporting entity of the primary government, either blended into those financial statements or separately reported as a discrete component unit.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICES

A. FINANCIAL STATEMENTS

Government Accounting Standards Board Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments, provides that special-purpose governments engaged only in business-type activities should present only the financial statements required for the enterprise fund. For these governments, basic financial statements and required supplemental information (RSI) consist of:

- 1. Management's discussion and analysis (MD&A)
- 2. Statement of net assets
- 3. Statement of revenues, expenses and changes in net assets
- 4. Statement of cash flows
- 5. Notes to the financial statements
- 6. RSI other than MD&A, if applicable

The Spring Bayou Water Works District is a special-purpose government engaged only in business-type activities.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICES (continued)

B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

Enterprise fund statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing related to cash flows.

Enterprise funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with the fund's principal ongoing operation. The operating expenses of the Spring Bayou Water Works District include the costs of the services, administrative expenses, and depreciation. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

C. CASH AND CASH EQUIVALENTS AND INVESTMENTS

Cash includes amounts in demand deposits, interest-bearing demand deposits, and money market accounts. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less. Under state law, the department may deposit funds in demand deposits, interest-bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana.

Under state law, the District may invest in United States bonds, treasury notes, or certificates. These are classified as investments if their original maturities exceed 90 days; however, if the original maturities are 90 days or less, they are classified as cash equivalents. Investments are stated at cost.

D. RECEIVABLES

All receivables are generally shown net of an allowance for uncollectible accounts. These statements contain no provision for uncollectible accounts. The District is of the opinion that such an allowance would be immaterial to the financial statements taken as a whole.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICES, CONTINUED

E. NET ASSETS

In the financial statements, equity is classified as net assets and displayed in three components:

Invested in capital assets, net of related debt – consist of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted net assets – consist of net assets with constraints placed on their use either by (1) external groups such as creditors, grantors, contributors, laws, or regulation of other governments; or (2) laws through constitutional provisions or enabling legislation.

Unrestricted net assets – all other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt".

F. CAPITAL ASSETS

Capital assets, which include land, the water system, buildings, and equipment are reported in the enterprise fund financial statements. All of the District's capital assets are capitalized at historical cost. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

All capital assets, other than land, are depreciated using the straight-line method over the following useful lives:

Estima	ited Lives
Infrastructure – water system	25 - 40 years
Buildings	25 years
Equipment	5 – 10 years

G. LONG-TERM OBLIGATIONS

Long-term debt such as revenue bonds payable are reported as liabilities in the statement of net assets.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICES, CONTINUED

H. ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities, disclosures, and revenues and expenses during the reporting period. Actual results could differ from these estimates.

NOTE 2. FAIR VALUE

The District measures and reports the financial assets at fair value. Fair value is defined as the prices that would be received to sell an asset in the principal or most advantageous market for the asset in an orderly transaction between market participants on the measurement date.

The three-level hierarchy discussed below indicates the extent and level of judgment used to estimate fair market value.

- Level 1 Uses unadjusted quoted prices that are available in active markets for identical assets as of the reporting date;
- Level 2 Uses inputs other than Level 1 that are either directly or indirectly observable as of the reporting date through correlation with market data, including quoted prices for similar assets in active markets and quoted prices in markets that are not active. Level 2 also includes assets that are valued using models or other pricing methodologies that do not require significant judgment since the input assumptions used in the models are corroborated by readily observable data;
- Level 3 Uses inputs that are unobservable, supported by little or no market activity and reflect the use of significant management judgment. These values are generally determined using pricing models that utilize management estimates of market participant assumptions. The District did not have any Level 3 assets as of the report date.

The following are the assets of the District that were accounted for at fair value on a recurring basis as of December 31, 2016. This table does not include assets and liabilities that are measured at historical cost or any other basis other than fair value.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 2. FAIR VALUE (continued)

		Fair Value at Reporting Date Using			
		Quoted Prices In Active Markets for Identicial Assets	Significant Other Observable Inputs	Significant Unobeservable Inputs	
Description	12/31/2016	(Level 1)	Level (2)	Level (3)	
Cash/money market funds	\$110,258	\$110,258	\$0	\$0	

NOTE 3. CASH AND CASH EQUIVALENTS

At December 31, 2016 the District has cash and cash equivalents (book balances) as follows:

Demand Deposits \$110,258

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balance) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. At December 31, 2016, the District has \$110,319 (collected bank balances). These deposits are secured from risk by \$110,319 of federal deposit insurance.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 6. RESTRICTED ASSETS

The bond covenants for the 1994 and 2005 water revenue bond issues, as discussed in Note 4 above, require the district to establish the following reserve accounts:

<u>Water Reserve Fund</u> - The District must transfer \$28 each month until the 2005 funded project is accepted by the District. Following acceptance by the District, the monthly deposit increases to \$66. In May 2006, the monthly deposit increased to \$79, until the account reaches a balance of \$18,856. In July 2034, when the 1994 Bond issue is fully retired, the funds on deposit in the Reserve Fund are to be reduced to \$12,246.

Contingency Fund – The 1994 bond issue requires a \$30 per month transfer to the contingency fund. In May 2005 the District accepted the 2005 expansion project and the 2005 bond issue requires a transfer of \$28 each month. A total transfer of \$58 is made each month to the contingency fund, until the account reaches a balance of \$18,856.

As of December 31, 2016, the District was in compliance with the reserve requirements for the bond issues.
