To Members of the Greater New Orleans Expressway Commission

The Annual Financial Report of the Greater New Orleans Expressway Commission for the fiscal year ended October 31, 2015 is hereby submitted. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the Commission's management. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the Commission. All disclosures necessary to enable the reader to gain an understanding of the Commission's financial activities have been included.

The Annual Financial Report is presented in three sections: introductory, financial, and other supplemental information. The introductory section includes this transmittal letter. The financial section has been prepared in accordance with the Governmental Accounting Standard Board Statement No. 34. This section includes the following: Report of Independent Auditor; Management's Discussion and Analysis (Required Supplementary Information); Basic Financial Statements; and Notes to Financial Statements. The other supplemental information section includes schedules required by the Bond Indenture Agreements.

PROFILE

The Greater New Orleans Expressway Commission was established in 1954 as the governing body with jurisdiction over the Expressway. The Commission is a special-purpose government engaged in business type activities. By legislative enactment, after all bonds, principal and interest, are fully paid, the Expressway becomes the property of the State of Louisiana and thereafter will be operated and maintained by the Louisiana Department of Transportation and Development as a toll-free (non-business type) facility and as part of the state highway system.

The Commission provides for the policing of the Expressway, the operation and maintenance of the Expressway and the associated administrative services. By legislative mandate in 1986, the Commission provides for the policing of the Huey P. Long Bridge.

SAFETY

A major priority of the Commission is the safety of the motoring public crossing the Expressway. The Expressway is experiencing an excellent safety record. The Commission has implemented a public information system that includes the internet, radio announcements, brochures, call boxes, and variable message signs. These systems help to inform and educate the public about safety on the Expressway. A traffic monitoring program, consisting of security cameras and radar system, is fully operational. The security camera system consists of cameras at strategic locations throughout the twenty-four-mile Expressway, beneath the bridge spans, the toll plaza, and the approach roads. The Expressway has its own police department and motorists assistance patrol, which operate the following safety programs: motorists assist vehicles, wreckers, rescue trucks, and the rolling convoy for fog abatement.

FINANCIAL INFORMATION, MANAGEMENT AND CONTROL

A detailed understanding of the financial position and operating results of the Commission is provided in the report. Presented below is a brief description of financial information, management of financial resources and obligations, and control techniques applicable to financial resources, obligations, and information.

Basis of Accounting

Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. The accrual basis of accounting is used, which means revenues are recognized when earned and expenses are recognized when incurred.

Accounting Systems and Budgetary Control

In developing and evaluating the Commission's accounting control system, consideration is given to the adequacy of internal accounting controls. Accounting control comprises the plan of organization and the procedures and records that are concerned with the safeguarding of assets and the reliability of financial records and consequently are designed to provide reasonable assurance that:

- Transactions are executed in accordance with management's general or specific authorization.
- Transactions are reported as necessary (a) to permit preparation of financial statements in conformity with accounting principles generally accepted in the United States of America or any other criteria, such as finance-related legal and contractual compliance requirements applicable to such statements, and (b) to maintain accountability for assets.
- Access to assets is permitted only in accordance with management's authorization.
- The recorded accountability for assets is compared with the existing assets at reasonable intervals and appropriate action is taken with respect to any difference.

The definition of accounting control comprehends reasonable, but not absolute, assurance that the objectives expressed in it will be accomplished by the system. The concept of reasonable assurance recognizes that the cost of internal control should not exceed the benefits. The benefits consist of reductions in the risk of failing to achieve the objectives implicit in the definition of accounting control.

All internal control evaluations occur within this framework. We believe the Commission's accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions. The Commission has formally established budgetary accounting controls for its operating funds. Budgetary control is maintained by category within the departments for each account group.

Account Description

As required by the Bond Indenture Agreement, the accounts of the Commission are organized on the basis of funds and accounts, each of which is considered a separate accounting activity for recording receipts and disbursements. Those accounts (General, Special Revenue, Debt Service, Capital Projects, and Internal Service) are shown on Schedule 1 of this report. Those account activities are summarized into the sole enterprise fund, which is used to account for ongoing organizations and activities that are similar to those found in the private sector.

The costs of providing the services to the general public are recovered, in whole or in part, through user charges. The Commission's operations comprise the operation of the Expressway Bridge in which tolls are charged. Results of operations for the year ended October 31, 2015 can be found in the Management's Discussion & Analysis.

The Commission's operations include electronic equipment at the toll plaza designed to classify vehicles, calculate the toll assessed and record those events. To facilitate the traffic flow, electronic toll devices read toll tags. Customers may acquire toll tags at the Commission operated toll tag stores on both north and south shores of the Expressway.

For the year ended October 31, 2015, a breakdown of the revenues is as follows:

Dedicated for Major Repairs & Capital Improvements	$ 5,557,554
Undedicated to be Used for General Operations	10,897,468
	$16,455,022

Long-term Debt

The Commission had the following principal outstanding long-term debt at October 31, 2015:

Revenue Bonds:

Refunding, Series 2013	$ 23,730,000
Refunding, Series 2014	17,540,000
Refunding, Series 2009	2,415,000
	$43,685,000

On October 28, 2009, the Commission issued $7,900,000 of Revenue Bonds, Series 2009. The proceeds of this issue were used to refund all of the Commission's outstanding Series 1999-A Bonds and pay costs of issuance of the Series 2009 Bonds including the cost of the bond insurance policy.

On September 30, 2013, the Commission issued $25,545,000 of Revenue Bonds, Series 2013. The proceeds of this issue were used to refund a portion of the Commission's outstanding Series 2003 Bonds and pay costs of issuance of the Series 2013 Bonds including the cost of the bond insurance policy.

On June 19, 2014, the Commission issued $17,540,000 of Revenue Bonds, Series 2014. The proceeds of this issue were used to refund the final portion of the Commission's outstanding Series 2003 Bonds and pay cost of issuance of the Series 2014 Bonds including the cost of the

CASH MANAGEMENT POLICIES AND PROCEDURES

Cash receipts are deposited daily into the Commission's bank accounts. These funds are automatically transferred by the Trustee into the appropriate Trust Fund accounts and are invested in accordance with the provisions of the Bond Indenture. All bank and investment accounts are reconciled on a monthly basis.

RISK MANAGEMENT

The Commission is exposed to various risks of loss related to general liability, automotive liability, and property insurance contracts. An Internal Service Account (a risk management account) is used to account for and finance its uninsured risks of loss. Under this program, the risk management account provides coverage for the general and automotive liability up to the $500,000 deductible limits for each covered loss. The Commission purchased commercial insurance for claims in excess of coverage provided by the Internal Service Account. Settled claims have not exceeded this commercial coverage for the fiscal year. Additional information on the Commission's risk management activity can be found in the notes to the financial statements.

INDEPENDENT AUDIT

The financial records, books of account, and transactions of the Commission for the fiscal year ended October 31, 2015 have been audited by Pinell & Martinez, LLC, and the opinion is included in the Finance Section of this report.

The financial statements are the responsibility of the Commission. The responsibility of the independent auditor is to express an opinion on the Commission's financial statements based on the audit. An audit is conducted in accordance with auditing standards generally accepted in the United States of America. Those standards require that the audit be planned and performed in a manner to obtain a reasonable assurance as to whether the financial statements are free of material misstatement.

Respectfully submitted,

Melissa M. Phillpott

Independent Auditor's Report

To the Board of Commissioners
Greater New Orleans Expressway Commission
Metairie, Louisiana

We have audited the accompanying financial statements of the business-type activities of the Greater New Orleans Expressway Commission, a component unit of the State of Louisiana, as of and for the year ended October 31, 2015, and the related notes to the financial statements, which collectively comprise the Greater New Orleans Expressway Commission's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Greater New Orleans Expressway Commission's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Greater New Orleans Expressway Commission's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of Greater New Orleans Expressway Commission, as of October 31, 2015, and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of a Matter

As described in Note 1 and Note 2 to the financial statements, in 2015 the Greater New Orleans Expressway Commission adopted new accounting guidance: Government Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions – An Amendment of GASB Statement No. 27*, and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – An Amendment of GASB Statement No. 68*. Accordingly, beginning net position was restated. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information
Accounting principles generally accepted in the United States of America require that the management's discussion and analysis at pages 8 through 13, the schedule of funding progress for OPEB plan at page 38, the schedule of employer's proportionate share of net pension liability at page 39; and schedule of employer's pension contributions at page 40 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information
Our audit was conducted for the purpose of forming an opinion on the financial statements of the Greater New Orleans Expressway Commission. The accompanying schedule of expenditures of federal awards at page 41; schedule of compensation paid to board of commissioners at page 43; schedule of compensation, benefits, and other payments to general manager at page 44; schedule of receipts and disbursements at page 45; schedule of investments at page 46; schedule of revenue from tolls at page 47; schedule of northshore traffic – number of crossings at page 48; and schedule of insurance at page 49 are presented for purposes of additional analysis and are not a required part of the financial statements.

To the Board of Commissioners
Greater New Orleans Expressway Commission
Metairie, Louisiana

The schedule of expenditures of federal awards; schedule of compensation paid to board of commissioners; schedule of compensation, benefits, and other payments to general manager; schedule of receipts and disbursements; schedule of investments; and schedule of revenue from tolls is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The schedule of northshore traffic – number of crossings and schedule of insurance have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated April 29, 2016, on our consideration of the Greater New Orleans Expressway Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Greater New Orleans Expressway Commission's internal control over financial reporting and compliance.

Pinell & Martinez, llc

Covington, Louisiana

Management's Discussion and Analysis

Introduction

Management's Discussion and Analysis of the Greater New Orleans Expressway Commission's (the "Commission") financial performance presents a narrative overview and analysis of the Commission's financial activities for the year ended October 31, 2015. This document focuses on the current year's activities, resulting changes, and currently known facts in comparison with the prior year's information. Please read this document in conjunction with the additional information contained in the transmittal letter on pages 1 – 4 and the Commission's financial statements, which begin on page 14.

Financial Highlights

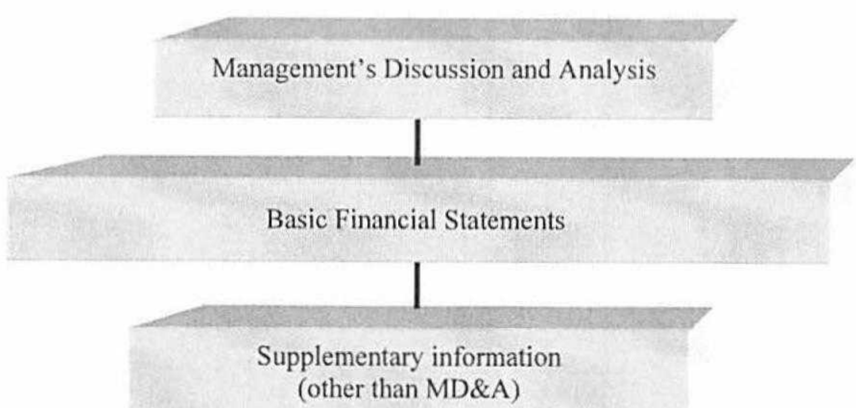
The Commission's assets exceeded its liabilities at October 31, 2015 by $103,111,501, which represents a 7.80% increase from last fiscal year.

The Commission's toll revenue increased by $308,902 (1.91%) compared to the prior fiscal year.

The vehicular license tax, which is dedicated to debt service, increased by $163,450 (2.76%) compared to the prior fiscal year.

Overview of the Financial Statements

The following graphic illustrates the minimum requirements for government entities engaged in business-type activities established by Governmental Accounting Standards Commission.



These financial statements consist of two sections - Management's Discussion and Analysis (this section), and the basic financial statements (including the notes to the financial statements). This report also contains supplementary information in addition to the basic financial statements.

The Commission's activities are reported in a single proprietary fund. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Commission, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The Commission's financial statements are prepared on an accrual basis in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. Under this basis of accounting, revenues are recognized in the period in which they are earned, expenses are recognized in the period in which they are incurred.

Basic Financial Statements

The basic financial statements present information for the Commission as a whole, in a format designed to make the statements easier for the reader to understand. The statements in this section include the Statement of Net Position; the Statement of Revenues, Expenses, and Changes in Net Position; and the Statement of Cash Flows.

Statement of Net Position
This statement presents the current and noncurrent assets, deferred outflows of resources, current and noncurrent portions of liabilities, and deferred inflows of resources, with the difference reported as net position. Net position may provide a useful indicator of whether the financial position of the Commission is improving or deteriorating.

Statement of Revenues, Expenses, and Changes in Net Position
This statement presents information showing how the Commission's net position changed as a result of current year operations. Regardless of when cash is affected, all changes in net position are reported when the underlying transactions occur. As a result, there are transactions included that will not affect cash until future fiscal periods.

Statement of Cash Flows
This statement presents information showing how the Commission's cash changed as a result of current year operations. The cash flow statement is prepared using the direct method and includes the reconciliation of operating income to net cash provided by operating activities (indirect method) as required by GASB 34.

Financial Analysis of the Entity

The condensed statements of net position consist of the following at October 31:

	2015	2014	Variance	% Variance
Assets				
Current assets	$ 11,876,597	$ 12,515,235	$ (638,638)	-5.10%
Current assets, restricted	29,388,218	31,617,640	(2,229,422)	-7.05%
Capital assets, net	120,838,484	114,056,174	6,782,310	5.95%
	162,103,299	158,189,049	3,914,250	2.47%
Deferred outflows of resources	1,072,621	-	1,072,621	100.00%
	$ 163,175,920	$ 158,189,049	$ 4,986,871	3.15%
Liabilities				
Current liabilities	$ 1,011,056	$ 1,316,213	$ (305,157)	-23.18%
Current liabilities payable from restricted assets	6,196,135	6,602,030	(405,895)	-6.15%
Noncurrent liabilities	51,784,607	54,620,488	(2,835,881)	-5.19%
	58,991,798	62,538,731	(3,546,933)	-5.67%
Deferred inflows of resources	1,149,000	1,044,030	104,970	10.05%
Net position				
Net investment in capital assets	75,868,805	66,345,865	9,522,940	14.35%
Restricted	21,986,761	24,924,474	(2,937,713)	-11.79%
Unrestricted	5,179,556	3,335,949	1,843,607	55.26%
	103,035,122	94,606,288	8,428,834	8.91%
	$ 163,175,920	$ 158,189,049	$ 4,986,871	3.15%

Restricted net position represents those assets that are not available for spending as a result of legislative requirements, donor agreements, or grant requirements. Conversely, unrestricted net assets are those that do not have any limitations on how these amounts may be spent.

Current assets decreased by $2,868,060, approximately 6.50% from October 31, 2014 to October 31, 2015, due primarily from a decrease in cash and cash equivalents. Noncurrent liabilities consist of accrued compensated absences, other postemployment benefits obligation, and pension obligation.

In the current fiscal year, the Commission adopted GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – An Amendment of GASB Statement No. 27*, and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – An Amendment of GASB Statement No. 68*. This requires the Commission to recognize its share of net pension liability in the financial statements. Adoption of these standards resulted in the restatement of beginning unrestricted net position. See Note 1 and Note 2 to the financial statements for further details.

The condensed Statements of Revenues, Expenses, and Changes in Net Position consist of the following for the years ended October 31:

	2015	2014	Variance	% Variance
Operating revenues				
Tolls	$ 16,455,022	$ 16,146,120	$ 308,902	1.91%
Other operating revenues	71,362	75,738	(4,376)	-5.78%
	16,526,384	16,221,858	304,526	1.88%
Operating expenses				
Personal services	6,493,186	6,912,601	(419,415)	-6.07%
Depreciation	5,032,267	4,882,955	149,312	3.06%
Other operating expenses	6,977,885	10,534,320	(3,556,435)	-33.76%
	18,503,338	22,329,876	(3,826,538)	-17.14%
Operating loss	(1,976,954)	(6,108,018)	4,131,064	-67.63%
Non-operating revenues	11,358,959	9,833,269	1,525,690	15.52%
Non-operating expenses	(1,538,341)	(3,709,503)	2,171,162	-58.53%
	9,820,618	6,123,766	3,696,852	60.37%
Change in net position	7,843,664	15,748	7,827,916	49707.37%
Net position, beginning of year	94,606,288	92,199,417	2,406,871	2.61%
Prior period adjustment	585,170	2,391,123	(1,805,953)	-75.53%
Net position, end of year	$ 103,035,122	$ 94,606,288	$ 8,428,834	8.91%

The Commission's operating revenues increased by $304,526, approximately 1.88%, while operating expenses decreased by $3,826,538, approximately 17.14%. Net position increased by $7,827,916 from October 31, 2014 to October 31, 2015.

Capital Assets

Capital assets consist of the following at October 31:

	2015	2014	Variance	% Variance
Building	$ 3,914,573	$ 3,779,983	$ 134,590	3.56%
Furniture, fixtures, equipment	11,484,939	11,880,724	(395,785)	-3.33%
Infrastructure	251,787,559	240,591,038	11,196,521	4.65%
	267,187,071	256,251,745	10,935,326	4.27%
Accumulated depreciation	(146,348,587)	(142,195,571)	(4,153,016)	-2.92%
	$ 120,838,484	$ 114,056,174	$ 6,782,310	5.95%

Capital assets increased (including additions and deductions) by $6,782,310, approximately 5.95%, over the prior fiscal year due primarily to additions. Additions for the year ended October 31, 2015 included:

Building	$ 134,590
Furniture, fixtures, and equipment	495,196
Infrastructure	11,196,520
	$ 11,826,306

Revenue Bonds

The Commission had $44,969,679 of revenue bonds outstanding at October 31, 2015, compared to $47,710,311 at October 31, 2014, a decrease of 5.74%

	2015	2014	Variance	% Variance
Revenue bonds, net of premium / discount	$ 44,969,679	$ 47,710,311	$ (2,740,632)	-5.74%

The Commission's bond indebtedness carries a Standard & Poor's A rating.

Other obligations include accrued vacation pay and sick leave, other post-employment benefits obligation, and net pension liability.

Legal Claims

The Commission has estimated claims of $530,898 outstanding at October 31, 2015 compared with $1,324,037 at October 31, 2014.

Budget

The annual budget is approved by the Commission during its August meeting. The budget is then approved by the Joint Legislative Committee on the Budget of the Louisiana Legislature.

Economic Factors and Next Year's Budgets and Rates

The Commission and management considered the following factors and indicators when setting next year's budget, rates, and fees:

- Toll Revenue Forecast, which is provided by the Traffic Engineers in accordance with the Trust Indenture.
- Prior year's expenses.
- State Highway Fund No. 2 Forecasts by the Revenue Estimating Conference and the Legislative Fiscal Office. The Commission's share of Highway Fund No. 2 is designated for Debt Service first, and then bridge maintenance and rehabilitation.

The Commission expects that next year's results will improve based on the following:

- The overall economy in the area looks stable.
- Reduction in expenses.

Contacting the Commission's Management

This financial report is designed to provide citizens, taxpayers, customers, and investors and creditors with a general overview of the Commission's finances and to show the Commission's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Chief Financial Officer, Greater New Orleans Expressway Commission, P.O. Box 7656, Metairie, LA 70010.

Amortization of bond premium/discount		220,630
Loss on disposal of assets		(11,727)

See accompanying notes to financial statements.

1. History and Summary of Significant Accounting Policies

History and Nature of Operations
The Greater New Orleans Expressway Commission was established by articles of incorporation dated October 20, 1954, between the parishes of Jefferson and St. Tammany. Under the authority of Louisiana Revised Statute (R.S.) 33:1324, the parishes were granted the right and privilege to unite and incorporate a joint Commission for the purpose of constructing, operating, and maintaining a toll bridge or causeway and requisite approaches across Lake Pontchartrain, connecting the two parishes, known as the Greater New Orleans Expressway. Article 6, Section 22(g)(5) of the 1921 Louisiana Constitution confirmed the power of the parishes to jointly construct the expressway through the issuance of revenue bonds for that purpose and the authority to levy a reasonable toll that is sufficient in amount to provide adequate pay for all costs of operation and maintenance including debt service together with funds dedicated from vehicular license taxes. In addition to operating and maintaining the 23.87 mile long parallel expressway bridges, Act 762 of 1986 of the Regular Session of the Louisiana Legislature authorized the Commission to police the Huey P. Long Bridge. The act also requires that, after all bonds principal and interest are fully paid, the expressway bridge becomes the property of the State of Louisiana and thereafter be operated and maintained by the Louisiana Department of Transportation and Development as a toll-free project and as part of the state highway system.

The Commission is governed by five members, three of whom are appointed by the governor, including one member from Jefferson Parish and another member from St. Tammany Parish for a term of two years each. The third member appointed by the governor is for a one-year term alternately from Jefferson and St. Tammany Parishes. Of the remaining two members, one member is appointed from Jefferson Parish by the Jefferson Parish Council, and one member is appointed from St. Tammany Parish by the St. Tammany Parish Council for two-year terms.

Financial Reporting Entity
Governmental Accounting Standards Commission (GASB) issued Statement No. 61 (GASB 61), *The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and 34*, to determine if a component unit is included in the financial reporting entity of its primary government. The Commission is considered a component unit of the State of Louisiana because: the state exercises oversight responsibility in that the governor appoints the Commission members and public service is rendered within the state's boundaries, and the Commission provides specific financial benefits to and may impose specific financial burdens on the State of Louisiana. The accompanying basic financial statements present information only as to the transactions of the Commission.

Annually the State of Louisiana issues a basic financial statement which includes the activity contained in the accompanying financial statement. The basic financial statement is issued by the Louisiana Division of Administration – Office of Statewide Reporting and Accounting Policy and audited by the Louisiana Legislative Auditor.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation
Proprietary fund financial statements include a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Net Position, and a Statement of Cash Flows for each major proprietary fund. Proprietary funds are accounted for using the "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all assets and liabilities (whether current or noncurrent) are included on the Statement of Net Position.

The Statement of Revenues, Expenses and Changes in Net Position presents increases (revenues) and decreases (expenses) in total net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred.

Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues are user charges and fees, while operating expenses consist of salaries, ordinary maintenance, assessments, indirect costs and depreciation. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Net Position

The Commission follows GASB No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position.* This standard provides guidance for reporting the financial statement elements of deferred outflows of resources and deferred inflows of resources. Deferred outflows represent the consumption of the government's resources that are applicable to a future reporting period. A deferred inflow represents the acquisition of resources that are applicable to a future reporting period.

Because deferred outflows and deferred inflows are, by definition, neither assets nor liabilities, the statement of net assets title is now referred to as the statement of net position. The statement of net position reports net position as the difference between all other elements in a statement of net position and should be displayed in three components—net investment in capital assets, restricted net position (distinguishing between major categories of restrictions), and unrestricted net position.

- Net Investment in Capital Assets - Consists of capital assets including restricted capital assets net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets

- Restricted - Consists of amounts with constraints placed on the use by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation

- Unrestricted - All other amounts that do not meet the definition of "restricted" or "net investment in capital assets"

Restricted net position represents unexpended revenue bond proceeds as well as certain other resources set aside for the purpose of improvements to capital assets and funding debt service payments in accordance with bond resolutions.

When both restricted and unrestricted resources are available for use, it is the Commission's policy to use restricted resources first, then unrestricted as needed.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Adoption of New Accounting Standards
The following Accounting Standards Update (ASU) recently issued and adopted by the Governmental Accounting Standards Board ("GASB") impacted the Commission's financial statements:

In June 2012 GASB issued GASB Statement No. 68, *Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement No. 27*, which replaces Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers*, and Statement No. 50, *Pension Disclosures*. GASB Statement No. 68 requires governments providing defined benefit plans to report the net pension liability in their statement of net position. This net pension liability is the difference between the present value of the pension liability and the fair value of pension assets set aside in a trust and restricted to paying benefits to current employees, retirees, and their beneficiaries. The provisions of GASB Statement No. 68 are effective for fiscal years beginning after June 15, 2014. The financial statements have been adjusted to reflect retroactive application as of November 1, 2014. As such, the impact of the cumulative effect of the change in accounting principle on net position as of November 1, 2014 is an decrease of $63,236 to reflect beginning net pension liability.

In November 2013, the Governmental Accounting Standards Board Statement issued GASB No. 71 (GASB 71), *Pension Transition for Contributions Made Subsequent to the Measurement Date, an amendment of GASB Statement No. 68*, which is required to be applied simultaneously with the provisions of GASB Statement No. 68.

This Statement amends paragraph 137 of GASB Statement No. 68 to require that, at transition, a government recognize a beginning deferred outflow of resources for its pension contributions, if any, made subsequent to the measurement date of the beginning net pension liability. GASB Statement No. 68, as amended, continues to require that beginning balances for other deferred outflows of resources and deferred inflows of resources related to pensions be reported at transition only if it is practical to determine all such amounts. The financial statements have been adjusted to reflect retroactive application as of July 1, 2014. As such, the impact of the cumulative effect of the change in accounting principle on net position as of November 1, 2014 is an increase of $648,406 to reflect beginning deferred pension contributions.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net positions of the Parochial Employees' Retirement System of Louisiana ("PERS") and additions to/deductions from the plan's fiduciary net positions have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Future Accounting Pronouncements
GASB has issued statements that will become effective for the year ending October 31, 2016. The statements address fair value measurement and application and GAAP hierarchy. The Commission is currently evaluating the effects that these statements will have on its 2016 financial statements.

Cash and Cash Equivalents
For the purpose of the statement of net position and statement of cash flows, cash and cash equivalents include all demand accounts and money market funds of the Commission with an original maturity of 90 days or less.

Investments
Investments are carried at fair value. Purchases and sales of securities are recorded on trade dates, and realized gains and losses are determined on the basis of average cost of securities sold. Investment return includes interest, dividends, administrative fees, and realized and unrealized gains and losses, and is included in the statement of activities as increases or decreases in unrestricted net assets.

Fair Value Measurements
The Commission's financial instruments include cash deposits, money market accounts, and U.S. Government Obligations. The carrying amounts reported in the statement of financial position are stated at cost which approximates fair value because of the short maturities of those instruments.

Accounts and Grants Receivable
Receivables consist of all revenues earned at year-end but have not been collected at year end. Management monitors the receivable balances and assesses the collectability at year end based upon the historical collections, knowledge of the individual or entity, and the age of the receivable balance. As a result of these reviews, customer balances deemed to be uncollectible are charged to the allowance for doubtful accounts. Management has deemed all accounts collectible at year-end and no allowance has been recorded.

Prepaid Expenses
Payments to vendors for insurance include costs applicable to the next accounting period and are recorded as prepaid items.

Capital Assets
Capital assets with a cost of $1,000 or more are reported at cost in the statement of net position. Repairs and maintenance are expensed as incurred. Depreciation is computed using the straight-line method over the estimated useful lives as follows:

Description	Years
Automobiles	5
Data processing equipment	5
Furniture and fixtures	10
Buildings	40
Infrastructure	40

Inventory
The Commission maintains an inventory of spare bridge components for emergency use and is valued at the lower of cost or market.

Compensated Absences
Employees earn and accumulate annual and sick leave at various rates, depending on their years of service. Annual and sick leave that may be accumulated by each employee is limited. Upon termination, employees or their heirs are compensated for 30 days accumulated annual leave and up to 45 days of unused sick leave at the employee's hourly rate of pay at the time of termination. Any unused grandfather leave accumulated before October 31, 2015 is compensated. Upon retirement, an uncompensated annual leave at the employee's option plus unused sick leave in excess is used to compute retirement benefits for employees who earned full-time status before 2007. Compensated absences are recognized as an expense and liability in the financial statements when incurred. As of October 31, 2015, employees of the Commission have accumulated and vested $1,240,756 of employee annual and sick leave benefits.

Post-Employment Health Care and Life Insurance Benefits
The Commission provides certain continuing health care and life insurance benefits for its retired employees. The Commission recognizes the expense of providing these retiree benefits in accordance with GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. See Note 9.

Deferred Compensation Plan
The Commission offers its employees a deferred compensation plan (the "Plan") created in accordance with Internal Revenue Code 457. The Plan is administered by the Commission. The Plan, available to all full-time employees of the Commission, permits them to defer a portion of their salary until future years.

All amounts of compensation deferred, all property and rights purchased, and all income, property, or rights are (until paid or made available to the employee or other beneficiary) held in trust by Lincoln Financial for the exclusive benefit of the participants and their beneficiaries.

Participants may contribute up to the IRS maximum calendar limit with the Commission matching up to $72 per month. All contributions are immediately vested. The Commission contributed $78,592 to the plan during the year ended October 31, 2015.

Budget Practices
The general manager submits proposed operating budgets to the Commission and to the general public for inspection. The budgets are prepared on a modified accrual basis of accounting. For the period under audit, the proposed budgets were advertised in the official journal. The 2015 budget was formally adopted by the Commission. Annually, in July, the original budget is amended by management and is ratified by the Commission during October.

2. Restatement of Net Position

In the current year, the Commission adopted GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – An Amendment of GASB Statement No. 27*, and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – An Amendment of GASB Statement No. 68*. This has resulted in a restatement of net position for $585,170 to account for the Commission's proportionate share of net pension liability and deferred outflows of pension resources as of October 31, 2014 as follows:

Net position at October 31, 2014, as previously reported	$ 94,606,288
Prior period adjustments	
Adoption of GASB Statement No. 68 - pension liability	(63,236)
Adoption of GASB Statement No. 71 - deferred pension contributions	648,406
	585,170
Net position at October 31, 2014, as restated	$ 95,191,458

3. Deposits with Financial Institutions

For reporting purposes, deposits with financial institutions include demand deposits. Under state law the Commission may deposit funds within a fiscal agent bank selected and designated by the Interim Emergency Commission. Further, the Commission may invest in time certificates of deposit in any bank domiciled or having a branch office in the state of Louisiana; in savings accounts or shares of savings and loan associations and savings banks and in share accounts and share certificate accounts or federally or state chartered credit unions.

Deposits in bank accounts are stated at cost, which approximates market. Under state law these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These pledged securities are held in the name of the pledging fiscal agent bank in a holding custodial bank in the form of safekeeping receipts.

The Commission's cash deposits at October 31, 2015 consisted of the following:

	Cash
Deposits per statement of net position (reconciled bank balance)	$ 2,369,637
Deposits in bank accounts per bank	$ 2,459,729
Category 3 bank balances:	
Uninsured and uncollateralized	-
Uninsured and collateralized with securities held by the pledging institution's trust department or agent, in the Commission's name	-
Uninsured and collateralized with securities held by the pledging institution or its agent but not in the Commission's name	2,209,729
Total category 3 bank balances	$ 2,209,729

Custodial Deposit Risk
In the case of deposits, this is the risk that in the event of a bank failure, the deposits may not be returned to the Commission. As of October 31, 2015, $2,209,729 of the Commission's bank balance was exposed to custodial credit risk because the deposits were uninsured and collateralized with securities held by the pledging institution's trust department or agent but not in the Commission's name.

4. Investments

Money Market Accounts
The Commission had $22,262,469 within money market accounts at October 31, 2015. The accounts have a maturity of less than 90 days and are reported as cash equivalents. The balance is reported at cost which approximates market. The money market accounts consists of securities issued or guaranteed as to principal and interest by the U.S. government or its agencies or instrumentalities. At October 31, 2015, the Commission's money market accounts are uninsured on the performance of the custodian and are exposed to custodial credit risk because they are held by the counterparty's trust department, but not in the Commission's name.

U.S. Government and Agency Securities
Investments in U.S. government obligations and U.S. agency obligations are valued at the quoted market prices in the active market on which the individual securities are traded. At October 31, 2015, investments consist of the following:

U.S. treasury notes	$ 205,033
Federal agency securities	10,418,726
	$ 10,623,759

Interest Rate and Credit Risk
Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment - the greater the sensitivity of its fair value to changes in market interest rates is. The Commission limits its interest rate risk by limiting its investing to securities with terms of one year or less.

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a national recognized statistical rating organization. Credit quality ratings are not required for U.S. government securities. Federal agency securities are securities, usually bonds, issued by a U.S. Government-sponsored agency. The investment policy of the Commission contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the State of Louisiana.

At October 31, 2015, the Commission's investments in U.S. government agency securities are uninsured on the performance of the custodian and are exposed to custodial credit risk because they are held by the counterparty's trust department, but not in the Commission's name. Credit risk is managed by limiting investments to those allowed under state law, which includes instruments issued by state or Federal governments.

Information about the credit risk and sensitivity of the fair values of the Commission's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the Commission's investments by maturity:

Investment Type	Less Than 1 Year	1 to 2 Years	2 to 5 Years	More Than 5 Years	Total
U.S. Treasury Note	$ 205,033	$ -	$ -	$ -	$ 205,033
Federal Agency Securities					
Federal Home Loan Banks	3,108,691	-	-	-	3,108,691
Federal Farm Credit Banks	4,127,059	-	-	-	4,127,059
Federal National Mortgage Association	2,006,105	-	-	-	2,006,105
Federal Home Loan Mortgage Corporation	880,883	-	-	-	880,883
Freddie Mac Discount Notes	295,988	-	-	-	295,988
	$ 10,623,759	$ -	$ -	$ -	$ 10,623,759

5. Fair Value Measurements

The fair value measurement accounting literature provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level I inputs to the valuation methodology are based on unadjusted quoted prices for identical assets in active markets that the Commission has the ability access. Level 2 inputs are based primarily on quoted prices for similar assets in active or inactive markets and/or based on inputs that are derived principally from or corroborated by observable market data. Level 3 inputs are unobservable and are based on assumptions market participants would utilize in pricing the assets.

The Commission uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. The asset's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. When available, valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth, by level, the Commission's assets at fair value as of October 31, 2015:

	Level 1	Level 2	Level 3	Total
Cash equivalents				
Money market accounts	$ 22,262,469	$ -	$ -	$ 22,262,469
Investments				
Federal agency securities	10,623,759	-	-	10,623,759
	$ 32,886,228	$ -	$ -	$ 32,886,228

6. Capital Assets

A summary of changes in capital assets is as follows:

	Balance at 10/31/14	Additions	Deletions	Balance at 10/31/15
Capital assets, being depreciated				
Building	$ 3,779,983	$ 134,590	$ -	$ 3,914,573
Furniture, fixtures, and equipment	11,880,724	495,196	(890,981)	11,484,939
Infrastructure	240,591,038	11,196,521	-	251,787,559
	256,251,745	11,826,307	(890,981)	267,187,071
Accumulated depreciation	(142,195,571)	(5,032,267)	879,251	(146,348,587)
	$ 114,056,174	$ 6,794,040	$ (11,730)	$ 120,838,484

Depreciation expense for the year ended October 31, 2015 was $5,032,267.

7. Revenue Bonds

Refunding Revenue Bonds, Series 2009

On October 28, 2009, the Commission issued $7,900,000 of Refunding Revenue Bonds, Series 2009. The proceeds of this issue were used to refund all of the Commission's outstanding Series 1999-A Bonds and pay costs of issuance of the Series 2009 Bonds including the cost of the Bond Insurance Policy. The 1999-A Bonds were redeemed in full on November 5, 2009 in the amount of $7,645,000 principal and $4,420 of accrued interest. The Refunding Revenue Bonds, Series 2009, are secured by user fees, expressway bridge tolls, and other revenues. These bonds require future annual debt service installments of $1,095,000 to $1,252,812 beginning November 1, 2012 through November 1, 2017. The bonds carry interest rates between 2.75% - 3.25% and interest to maturity at October 31, 2015 totals $77,569 through November 1, 2017.

Refunding Revenue Bonds, Series 2013

On September 30, 2013, the Commission issued $25,545,000 of Refunding Revenue Bonds, Series 2013. The proceeds of this issue were used to refund a portion of the Commission's outstanding Series 2003 Bonds and pay costs of issuance of the Series 2013 Bonds including the cost of the Bond Insurance Policy. The portion of the 2003 Bonds were redeemed in on November 1, 2013 in the amount of $25,545,000 principal and $644,193.75 of accrued interest. The Refunding Revenue Bonds, Series 2013, are secured by user fees, expressway bridge tolls, and other revenues. These bonds require future annual debt service installments of $450,000 to $2,340,000 beginning November 1, 2013 through November 1, 2028. The bonds carry interest rates between 3% - 5% and interest to maturity at October 31, 2015 totals $7,618,578 through November 1, 2028.

Refunding Revenue Bonds, Series 2014

On June 19, 2014, the Commission issued $17,540,000 of Refunding Revenue Bonds, Series 2014. The proceeds of this issue were used to refund the final portion of the Commission's outstanding Series 2003 Bonds and pay cost of issuance of the Series 2014 Bonds including the cost of the Bond Insurance Policy. The portion of the 2003 Bonds were redeemed in on June 19, 2013. The Refunding Revenue Bonds, Series 2014, are secured by user fees, expressway bridge tolls, and other revenues. These bonds require future annual debt service installments of $60,000 to $3,040,000 beginning November 1, 2018 through November 1, 2034. The bonds carry interest rates from 2.625% to 4% and interest to maturity at October 31, 2015 totals $9,670,483 through November 1, 2034.

The annual requirements to amortize all bonds outstanding at October 31, 2015, including total interest to maturity of $17,366,630, are as follows:

For the Year Ended October 31:	Refunding Series 2009 Principal	Refunding Series 2009 Interest	Refunding Series 2013 Principal	Refunding Series 2013 Interest	Refunding Series 2014 Principal	Refunding Series 2014 Interest
2016	$ 1,190,000	$ 57,663	$ 1,390,000	$ 1,027,513	$ -	$ 623,369
2017	1,225,000	19,906	1,445,000	977,763	-	623,369
2018	-	-	1,500,000	918,863	60,000	622,469
2019	-	-	1,560,000	857,663	65,000	620,594
2020	-	-	1,630,000	785,713	70,000	618,569
Thereafter	-	-	16,205,000	3,051,063	17,345,000	6,562,113
	$ 2,415,000	$ 77,569	$ 23,730,000	$ 7,618,578	$ 17,540,000	$ 9,670,483

8. Noncurrent Liabilities

The following is a summary of the long-term obligation transactions for the year ended October 31, 2015:

	Balance at 10/31/14	Additions	Payments and Reductions	Balance at 10/31/15	Due Within One Year
Revenue Bonds					
Refunding, Series 2009	$ 3,570,000	$ -	$ (1,155,000)	$ 2,415,000	$ 1,190,000
Refunding, Series 2013	25,095,000	-	(1,365,000)	23,730,000	1,390,000
Refunding, Series 2014	17,540,000	-	-	17,540,000	-
	46,205,000	-	(2,520,000)	43,685,000	2,580,000
Bond Premium	1,505,309	-	(220,630)	1,284,679	181,774
	47,710,309	-	(2,740,630)	44,969,679	2,761,774
Other post-employment benefits obligation	5,525,481	1,013,260	(169,074)	6,369,667	-
Net pension liability	63,236	179,073	-	242,309	-
Accrued compensated absences	1,496,906	506,611	(762,761)	1,240,756	-
	$ 54,795,932	$ 1,698,944	$ (3,672,465)	$ 52,822,411	$ 2,761,774

*The net pension liability is a new long-term liability beginning fiscal year 2014-15 as a result of implementation of GASB Statement No. 68. The prior year balance is a result of a prior period adjustment. See Note 2.

9. Net Position

Net position represent the difference between assets and liabilities. The composition of net position at October 31, 2015 was as follows:

Net investment in capital assets	
Capital assets	$ 267,187,071
Less: accumulated depreciation	(146,348,587)
Less: bonds payable	(44,969,679)
	75,868,805
Restricted for debt service	
Assets held in trust	13,573,281
Restricted receivables	(1,982,689)
Less: accrued interest on bonds	(873,622)
	10,716,970
Restricted for capital projects and major repairs	
Assets held in trust	11,496,957
Restricted receivable in extraordinary maintenance	2,333,573
Less: capital contracts payable	(2,560,739)
	11,269,791
	21,986,761
Unrestricted	5,179,556
	$ 103,035,122

10. Post-Employment Health Care and Life Insurance Benefits

Substantially all Commission employees become eligible for post-employment health care and life insurance benefits ("OPEB") if they reach normal retirement age while working for the Commission. These benefits for retirees and similar benefits for active employees are provided through an insurance company whose premiums are paid jointly by the employee and the Commission. The Commission pays 70% of the retirees' total premium hired before October 31, 2012 and 60% of the retirees' total premium hired after November 1, 2012. The Commission and the retirees pay their respective share of the premiums on a "pay-as-you-go" basis. For the year ended October 31, 2015, the Commission contributed $169,074 for 29 retirees.

The Commission's Annual Required Contribution ("ARC") is an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, would cover normal cost each year and amortize the beginning Unfunded Actuarial Liability (UAL) over a period of 30 years. A 30-year, closed amortization period has been used with a level-dollar amortization factor. The total ARC for the fiscal year 2015 is $1,013,260. The following table presents the Commission's OPEB obligation for the year ended October 31, 2015:

Annual required contribution (ARC)	$ 1,099,490
Interest on net OPEB obligation	221,019
Adjustment to ARC	(307,249)
	1,013,260
Less contributions made	(169,074)
Increase in net OPEB obligation	844,186
Net OPEB Obligation, beginning of year	5,525,481
Net OPEB Obligation, end of year	$ 6,369,667

Utilizing the pay-as-you-go method, the Commission contributed 16.69% of the annual OPEB cost for the year ended October 31, 2015.

Actuarial Methods and Assumptions
Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the October 31, 2015 actuarial valuation, the unit credit actuarial cost method was used. The actuarial assumptions included a 4.0% investment rate of return (net of administrative expenses) and an annual healthcare cost trend rate of 7.2% initially, reduced by decrements to an ultimate rate of 5.5% after ten years. The RP2000 Mortality Table was used in the actuarial calculation. Withdrawal rates for employees ranged from 23% for less than one year of service to1% after 17 years of service. Disability rates for employees ranged from .05% for employees aged 30 years to 1.71% for employees over the age of 60. Retirement rates ranged from 22% for age 55 to 100% for age 67+. Unfunded Actuarial Accrued Liability (UAAL) is the difference between the Actuarial Accrued Liability and the Valuation Assets. It is amortized over the maximum permissible period under GASB 45 of 30years (open amortization) as a level dollar amortization.

Funded Status
The funded status of the plan as of October 31, 2015 and prior years was as follows:

Actuarial accrued liability (AAL)	$ 9,508,373
Actuarial value of plan assets	-
Unfunded actuarial accrued liability (UAAL)	$ 9,508,373
Funded ratio (actuarial value of plan assets - AAL)	-
Covered payroll (annual payroll of active employees covered by the plan)	$ 4,943,566
UAAL as a percentage of covered payroll	192%

11. Defined Benefit Pension Plan

The Commission contributes to the Parochial Employees' Retirement System ("PERS"), a cost-sharing, multiple-employer defined benefit pension plan administered by the State of Louisiana (State). PERS provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. PERS is comprised of two distinct plans - Plan A and Plan B - with separate assets and benefit provisions. Employees of the Commission are members of Plan A. Benefit provisions are established by state law and may be amended only by the State Legislature. PERS issues a publicly available financial report that includes financial statements and required supplementary information for PERS. That report may be obtained by writing to PERS at P.O. Box 14619, Baton Rouge, Louisiana, 70898, or by calling 225.928.1361.

Significant Accounting Policies
The System's employer schedules were prepared using the accrual basis of accounting. Members' earnable compensation, for which the employer allocations are based, is recognized in the period in which the employee is compensated for services performed. The member's earnable compensation is attributed to the employer for which the member is employed as of December 31, 2014.

The System is not allocated a proportionate share of the net pension liability related to its employees. The net pension liability attributed to the System's employees is allocated to the remaining employers based on their respective employer allocation percentage.

Plan fiduciary net position is a significant component of the System's collective net pension liability. The System's plan fiduciary net position was determined using the accrual basis of accounting. The System's assets, liabilities, revenues and expenses were recorded with the use of estimates and assumptions in conformity with accounting principles generally accepted in the United States of America. Such estimates primarily related to unsettled transactions and events as of the date of the financial statements and estimates over the determination of the fair market value of the System's investments. Accordingly, actual results may differ from estimated amounts.

Benefits Provided
The Plan provides retirement, disability and death benefits to plan members and their beneficiaries. Retirement benefits for employees are calculated as 3% of the plan member's final average compensation multiplied by their years of service. Death benefits are equal to 100% of benefits if member is eligible for normal retirement or 60% of final compensation if not eligible for normal retirement. Disability retirement benefits are calculated to be equal to the lesser of an amount equal to 3% of the member's final average compensation multiplied by their years of services, not to be less than 15, or 3% multiplied by years of service assuming continued service to age 60.

For plan members hired prior to January 1, 2007, a member may obtain retirement benefits if any of the following are reached: (a) any age with 30 or more years of creditable service, (b) age 55 with 25 years of creditable service, (c) age 60 with minimum of 10 years of creditable service, (d) age 65 with a minimum of 7 years of creditable service.

For plan members hired after January 1, 2007, a member may obtain retirement benefits if any of the following are reached: (a) age 55 with 30 or more years of service, (b) age 62 with 10 years of service, (c) age 67 with 7 years of service.

The terms of the Plan provide for annual cost of living allowance for the retirees who retired prior to July 1973. The adjustment cannot exceed 2% of the retiree's original benefit for each full calendar year since retirement and may only be granted if sufficient funds are available from investment income in excess of normal requirements. In addition, the Plan may provide an additional cost of living increase to all retirees and beneficiaries who are over age 65 equal to 2% of the member's benefit paid on October 1, 1977 (or the member's retirement date, if later). Also, the Plan may provide a cost of living increase up to 2.5% for retirees 62 and older. Lastly, Act 270 provided for further reduced actuarial payments to provide an annual 2.5% cost of living adjustment commencing at age 55.

Contributions

State statute has the authority to establish and amend the contribution requirements of the Commission and active employees. According to state statute, the Plan also receives 1/4 of 1% of ad valorem taxes collected within the respective Parishes, except for Orleans and East Baton Rouge Parishes. The Plan also receives revenue sharing funds each year as appropriated by the State Legislature. These additional sources of income are used as additional employer contributions and are considered support from non-employer contributing entities. Employees are required to contribute 9% of their annual pay. The Commission's contractually required contribution rate for the year ended October 31, 2015 was 14.5% of annual payroll for the period from January 1, 2015 through October 31, 2015, and 16.0% for the period from November 1, 2014 through December 31, 2014. The employer contribution is actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The Commission's contributions to PERS for the years ended October 31, 2015, 2014 and 2013 were approximately $714,009, $795,334, and $786,402, respectively, which equaled the required contributions for each year. The State also made on-behalf contributions to the Plan, of which $63,253 was recognized by the Commission for the year ended October 31, 2015; these on-behalf payments did not meet the criteria of a special funding situation.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At October 31, 2015, the Commission reported a liability of $242,309 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2014. The Commission's proportion of the net pension liability was based on a projection of the Commission's projected contribution effort to the pension plan for the next fiscal year as compared to the total of all participating employers' contribution effort to the Plan for the next fiscal year, actuarially determined.

At December 31, 2014, the Commission's proportion was 0.886252%, which was a decrease of 0.003593% from its proportion measured as of December 31, 2013.

Per the valuation report dated December 31, 2014, the Commission's proportionate share of pension expense was $644,711. At October 31, 2015, the Commission reported deferred outflows or resources and deferred inflows or resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ -	$ 107,716
Net difference between projected and actual actual earnings on pension plan investments	503,108	-
Changes in proportion	-	191
Employer contributions subsequent to the measurement date	569,513	-
	$ 1,072,621	$ 107,907

At October 31, 2015, the Commission reported $569,513 as deferred outflows of resources related to pensions resulting from Commission contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability in the year ended October 31, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources at October 31, 2015, related to pensions will be recognized in pension expense as follows:

Period Ended:	Amount
12/31/15	$ 89,808
12/31/16	89,808
12/31/17	89,808
12/38/18	125,777
	$ 395,201

Actuarial Assumptions

A summary of the actuarial methods and assumptions used in determining the total pension liability as of the December 31, 2014 valuation date are as follows:

Valuation date:	December 31, 2014
Actuarial Cost Method:	Entry age normal cost
Estimated remaining service life ("ERSL"):	4 years
Investment rate of return	7.25% per annum
Inflation rate	2.30% per annum
Salary increases, including inflation and merit increases:	5.75%, including inflation
Cost of living adjustments:	Only those previously granted
Mortality rate	
Non-disabled members:	Mortality rates based on the RP-2000 Combined Healthy Mortality Table
Disabled members:	Mortality rates based on the RP-2000 Disabled Retiree Mortality Table

The long-term expected rate of return on pension plan investments was determined using a triangulation method which integrated the CAPM pricing model (top-down), a treasury yield curve approach (bottom-up) and an equity building block model (bottom-up). Risk return and correlations are projected on a forward looking basis in equilibrium, in which best-estimates of future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Long-term Target Asset Allocation	Expected Portfolio Real Rate of Return
Fixed income	34%	1.30%
Equity	51%	3.55%
Alternatives	12%	0.77%
Other	3%	0.19%
	100%	5.81%

Discount Rate
The discount rate used to measure the total pension liability was 7.25% for the valuation date of December 31, 2014. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that participating employer contributions will be made at contractually required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the employer's proportionate share of the net pension liability using the discount rate of 7.25%, as well as what the employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower (6.25%) or one percentage-point higher (8.25%) than the current rate:

	1.0% Decrease (6.25%)	Current Discount Rate (7.25%)	1.0% Increase (8.25%)
Employer's proportionate share of the net pension liability	$ 3,502,927	$ 242,309	$ (2,520,382)

Pension Plan Fiduciary Net Position
Detailed information about the Plan's fiduciary net position is available in the separately issued PERS' financial report.

Payable to Pension Plan
At October 31, 2015, the Commission reported a payable of $75,439 for the outstanding amount of employer contributions to the pension plan required for the year ended October 31, 2015. This amount is included in accrued expenses at October 31, 2015.

12. Risk Management

The Commission is exposed to various risks of loss relating to general liability, automotive liability, and property insurance contracts and has a self-insured risk management program to account for and finance its uninsured risks of loss. Under this program, the Commission provides coverage for general and automotive liability up to the $500,000 deductible limits for each covered loss. The Commission purchased commercial insurance for claims in excess of coverage provided by the risk management program. Settled claims have not exceeded this commercial coverage for the fiscal year.

13. Legal Proceedings and Claims

The Commission is a defendant or co-defendant in several lawsuits in which the plaintiffs allege property damage and personal injury. In the opinion of the Commission's legal counsel, the ultimate resolution of these matters should not materially affect the financial statements.

At October 31, 2015, the claims liability of $530,898 is based on the requirements of GASB Statement No. 10, which requires that a liability for claims be reported if information before the issuance of the financial statements indicates it is probable that a liability has been incurred at the date of the financial statements and the amount of loss can be reasonably estimated. Changes in the claims liability in fiscal for the year ended October 31, 2015 were as follows:

Estimated liability for claims at beginning of year	$	1,324,037
Current year		
Claims		296,088
Changes in estimates		(793,139)
Claims payment and expenses thereon		(296,088)
	$	530,898

14. Operating Leases

On May 1, 2006, the Commission entered into a five-year lease with Edgewater Ventures with the option to renew for an additional period of five years. On September 1, 2014, the Commission entered into a lease with Edgewater Ventures for additional offices. The additional office space was added to the current lease. The GNOEC also entered into a lease with the New Orleans Public Belt Railroad for the Huey P. Long Police. The rental payments for 2015 were $121,116. Future minimum rental payments are as follows:

For the Year Ended October 31		Amount
2016	$	118,796
2017		63,238
	$	182,034

15. Subsequent Events

The Commission's management has evaluated subsequent events through April 29, 2016, which is the date the financial statements were available to be issued.

Greater New Orleans Expressway Commission
Notes to Schedule of Expenditures of Federal Awards
For the Year Ended October 31, 2015

General
The accompanying schedule of expenditures of federal awards presents the activities of federal award programs expended by the Greater New Orleans Expressway Commission (the "Commission"). The Commission's reporting entity is defined in Note 1 of the notes to financial statements. Federal awards received are passed through the State of Louisiana Department of Transportation.

Summary of Significant Accounting Policies
The schedule of expenditures of federal awards is presented on the accrual basis of accounting for proprietary funds, which is described in Note 1 of the notes to financial statements. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, Cost Principles for State, Local and Indian Tribal Governments, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

Basis of Presentation
The accompanying schedule of expenditures of federal awards includes the federal grant activity of the Commission under programs of the federal government for the year ended October 31, 2015. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.*

Matching Revenues
Federal expenditures were determined by deducting matching revenues from total expenditures.

Greater New Orleans Expressway Commission
Schedule of Compensation Paid to Board of Commissioners
For the Year Ended October 31, 2015

Commissioner		Amount
Tommy S. Cvitanovich	$	1,609
Joseph A. Jaeger, Jr.		4,627
Anthony V. Ligi, Jr.		6,604
Michael R. Lorino, Jr.		6,604
Lawrence M. Rase		646
Stephen G. Romig		6,604
	$	26,695

The schedule of per diem payments to Commission Members is presented in compliance with House Concurrent Resolution No. 54 of the 1979 Session of the Louisiana Legislature. As authorized by Louisiana Revised Statute 32:772, each member of the Commission shall be reimbursed when actually in attendance at a Commission meeting or when required to travel for the official authorized business of the Commission, and such reimbursement shall not exceed $75.00 per day.

See independent auditor's report.

Greater New Orleans Expressway Commission
Schedule of Compensation, Benefits, and Other Payments to General Manager
For the Year Ended October 31, 2015

Commission Head: Carlton Dufrechou
Position: General Manager

Purpose	Amount
Salary	$ 117,840
Benefits - insurance	24,669
Benefits - retirement	17,896
	$ 160,405

See independent auditor's report.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Board of Commissioners
Greater New Orleans Expressway Commission
Metairie, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of the Greater New Orleans Expressway Commission, as of and for the year ended October 31, 2015, and the related notes to the financial statements, which collectively comprise the Greater New Orleans Expressway Commission's basic financial statements, and have issued our report thereon dated April 29, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Greater New Orleans Expressway Commission's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Greater New Orleans Expressway Commission's internal control. Accordingly, we do not express an opinion on the effectiveness of the Greater New Orleans Expressway Commission' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Greater New Orleans Expressway Commission's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance For Each Major Program and on Internal Control over Compliance Required by OMB Circular A-133

To the Board of Commissioners
Greater New Orleans Expressway Commission
Metairie, Louisiana

Report on Compliance for Each Major Federal Program

We have audited Greater New Orleans Expressway Commission's (the "Commission") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the Commission's major federal programs for the year ended October 31, 2015. The Commission's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Commission's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Commission's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Commission's compliance.

Opinion on Each Major Federal Program

In our opinion, the Commission complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended October 31, 2015.

Report on Internal Control Over Compliance

Management of the Commission, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Commission's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal control over compliance.

A *deficiency in internal control* over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Greater New Orleans Expressway Commission
Summary Schedule of Prior Year Findings
For the Year Ended October 31, 2015

A. Findings in Accordance with *Government Auditing Standards*

2014 – 1 Prior Period Adjustment

Criteria
Audit standards specify that restatement of previously issued financial statements is considered a deficiency in internal control if the misstatement is not detected in a timely manner.

Condition
Insurance proceeds received were not recorded in accordance with GASB 42.

Cause
The insurance proceeds were recorded as a liability when the insurance proceeds were received, and the liability balance was being reduced as the insurance proceeds were being used to make repairs to the Causeway Bridge.

Effect
Liabilities were overstated and net position was understated.

Update
Management updated the Commission's accounting records and implemented processes to ensure all balances are reported in accordance with applicable accounting standards. Finding was resolved.

B. Findings and Questioned Costs for Federal Awards Under OMB Circular A-133

None noted.
