Note 1. Summary of Significant Accounting Policies

As provided by Louisiana Revised Statute 38:1758, the Drainage District is
governed by five commissioners. These five commissioners are referred to as
the Board of Commissioners and are appointed by the parish police jury. The
Drainage District was created under the authority of Louisiana Revised
Statutes 38:1751-1802 and was established for the purpose of draining and
reclaiming the undrained or partially drained marsh, swamp, and overflowed
lands in the district that must be levied and pumped in order to be drained
and reclaimed.

In April of 1984, the Financial Accounting Foundation established the
Governmental Accounting Standards Board (GASB) to promulgate generally
accepted accounting principles and reporting standards with respect to
activities and transactions of state and local governmental entities. All
GASB pronouncements are recognized as generally accepted accounting
principles for state and local governments. The accompanying financial
statements have been prepared in accordance with such principles.

In conformance with GASB Codification Section 2100, the Drainage District is
a component unit of the Vermilion Parish Police Jury, the governing body of
the parish and the governmental body with oversight responsibility. The
accompanying financial statements present information only on the funds
maintained by the District and do not present information on the police jury,
the general government services provided by that governmental unit, and other
governmental units that comprise the governmental reporting entity.

A. Fund accounting

The accounts of the Drainage District are organized on the basis of funds
and account groups, each of which is considered a separate accounting
entity. The operations of each fund are accounted for with a separate
set of self-balancing accounts that comprises its assets, liabilities,
fund equity, revenues, and expenditures. Revenues are accounted for in
these individual funds based upon the purpose for which they are spent
and the means by which spending activities are controlled. The funds
presented in the financial statements are described as follows:

General fund:

The general fund is the general operating fund of the Drainage
District. It accounts for all financial resources except those
required to be accounted for in other funds.
NOTES TO FINANCIAL STATEMENTS
See Accountant’s Compilation Report

Debt service fund:

The debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term obligation principal, interest, and related costs.

Capital projects fund:

The capital projects fund is used to account for financial resources to be used for acquisition or construction of major capital projects (other than those financed by proprietary funds, special assessment funds, and trust funds).

B. General fixed assets and general long-term obligations

Fixed assets used in governmental fund type operations (general fixed assets) are accounted for in the general fixed assets account group, rather than in governmental funds. Public domain or infrastructures are not capitalized. Construction period interest is immaterial and is not capitalized. No depreciation has been provided on general fixed assets. All fixed assets are valued at historical cost.

Long-term liabilities expected to be financed from governmental funds are accounted for in the general long-term debt account group, not in the governmental funds.

The two account groups are not funds. They are concerned only with the measurement of financial position and do not involve measurement of results of operations.

C. Basis of accounting

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. The District's accounts are reported on the modified accrual basis of accounting using the following practices in recording revenues and expenditures:

Revenues:

Ad valorem taxes and state revenue sharing are recorded in the year the taxes are assessed. Ad valorem taxes are assessed on a calendar year basis, become due on November 15 of each year and become delinquent by December 31. The taxes are generally collected in December of the current year and January and February of the ensuing year.
The following is a summary of levied ad valorem taxes, all for general corporate purposes:

</tr>
</tbody>
</table>

Expenditures:

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred except for principal and interest on general long-term debt which is recognized when due.

D. Budget

Louisiana law exempts all special districts created before December 31, 1974, from the requirements of the Local Government Budget Act. The Coulee Baton Gravity Drainage District No. 1 of Vermilion Parish was created on May 11, 1909 and, accordingly, is exempt from budgetary requirements. Management has determined that, due to the amount and nature of the expenditures, the adoption of a budget is not required for control purposes. The Drainage District did not adopt a budget for the year ended December 31, 1999; therefore, the accompanying financial statements do not include a comparison of revenue and expenditures to the budget.

E. Cash and investments

For reporting purposes, cash and investments include cash, demand deposits, time deposits, and certificates of deposit. Under state law, Coulee Baton Gravity Drainage District No. 1 may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the union, or the laws of the United States. Further, the District may invest in time deposits or certificates of deposit of state banks organized under Louisiana law and national banks having principal offices in Louisiana.
At December 31, 1999, the District has cash (book balances) totaling $47,206, which is all in interest-bearing demand deposits. These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. At December 31, 1999, the District has $48,619 in deposits (collective bank balances). These deposits are fully secured by FDIC insurance and a $47,206 market value U.S. Treasury note.

F. Pensions

Employees of the Drainage District are covered under the Federal Insurance Contribution Act (social security). The employees and the District contribute equally to the system.

G. Vacation and sick leave

Full-time employees of the District with more than one year of service are allowed two weeks of vacation leave each year; full-time employees with one year's service or less are allowed one week of vacation leave each year. Sick leave is granted on an individual basis as the need occurs. Vacation and sick leave may not be accumulated and carried into future years. At December 31, 1999, there are no accumulated vacation benefits that require accrual or disclosure to conform with generally accepted accounting principles.

H. Total column on financial statements

The total columns on the financial statements are captioned "Memorandum Only" to indicate that they are presented only to facilitate financial analysis. Data in these columns does not present financial position or results of operations in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

Total general obligation bonds: $296,000

The general obligation bonds were issued for the purpose of constructing drainage work in and for the Drainage District and are funded by a property tax on all taxable property within the drainage district.

I. Internal Control and Compliance Material to the Financial Statements

98-1 - Segregation of Duties

Finding: In reviewing the internal control structure, we noted inadequate segregation of duties exists.

Cause: Due to the limited number of personnel performing administrative functions, the same person writes checks, checks the mail, reconciles the bank statement, and enters information into the general ledger.

Recommendation and response: It was recommend that duties be segregated in such a way as to facilitate an adequate segregation of duties. The Board has evaluated this inadequacy and has concluded that the District cannot afford to hire more administrative employees due to the District’s limited resources. The costs would exceed the benefits.

Current status: An inadequate segregation of duties still exists. The Board has evaluated this inadequacy and concluded the related costs versus benefits to be achieved does not justify the additional personnel it would require to establish an adequate segregation.

98-2 Premium Reimbursements

Finding: Our audit revealed that the employee portions of group health insurance premiums are not being reimbursed to the District in a timely fashion in one case, and not at all in another instance. This is a direct violation of Article 7, Section 14 of the Louisiana Constitution which states that public funds shall not be loaned or pledged for nonpublic purposes.

Cause: The premiums are paid by the District, but the employee portions are not always being reimbursed in a timely fashion. The Board has given the secretary the authority to cancel hospitalization coverage when reimbursements are not received in a timely fashion. However, the coverage has not been canceled.

Recommendation: We recommend that insurance premiums be reimbursed in a timely fashion or the coverage can be canceled.

Response: Management will try to set up a system of repayment for the portion of premiums owed by employees on the group health insurance. One individual who owes the District for premiums will be switching to a different policy and will no longer be covered under the District’s group health insurance plan.
98-2  **Premium Reimbursements** (continued)

Current status: Management asserts that the employee portion of premiums are now being handled correctly.

Suggestion 1998-1. Board Member Compensation

Condition: According to Internal Revenue Code § 31.3401(c)-1, "...officers... whether elected or appointed..." are included in the definition of employee. Therefore, any board member is considered an employee of the District for tax purposes and the compensation paid to them is subject to social security (if not a member of a retirement system), Medicare (if the board member were appointed or re-appointed after March 31, 1986), and federal and state income tax withholding in 1997 and 1998.

Cause: Compensation paid to board members is reported to them at year-end using Form 1099. No taxes are withheld from these amounts or paid by the District on these amounts.

Effect: The District is not withholding taxes from the board's compensation payments or remitting tax payments as required by the Internal Revenue Service.

Recommendation: We recommend that payments to the Board be subject to taxes and withholdings as are employee payments. Each board member should be required to complete a Form W-4 annually.

Current status: The District's management asserts that compensation paid to board members is now being handled correctly.
