Independent Accountants' Review Report

Board of Commissioners Recreation District No. 4 of St. Tammany Parish Lacombe, Louisiana

We have reviewed the accompanying financial statements of the governmental activities and each major fund of Recreation District No. 4 of St. Tammany Parish (the District), a component unit of the St. Tammany Parish Government, as of December 31, 2015 and for the year then ended, which collectively comprise the District's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of the management of the District. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

The management of the District is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

Our responsibility is to conduct the review in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. Those standards require us to perform procedures to obtain limited assurance that there are no material modifications that should be made to the financial statements. We believe that the results of our procedures provide a reasonable basis for our report.

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

Our review was made primarily for the purpose of expressing a conclusion that there are no material modifications that should be made to the financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America. The supplementary information presented on pages 12 through 14 is presented for purposes of additional analysis. The budgetary information on page 12, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting. The supplementary information has not been subjected to the inquiry and analytical procedures applied in the review of the basic financial statements, but it has been compiled from information that is the representation of management. We have not audited or reviewed the supplementary information and accordingly, we do not express an opinion or provide any assurance on such supplementary information.

Management has omitted the management's discussion and analysis information that is required to be presented for purposes of additional analysis. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statement in an appropriate operational, economic, or historical context.

In accordance with the Louisiana Governmental Audit Guide and the provisions of state law, we have issued a report dated May 20, 2016, in the results of our agreed upon procedures.

Schedule of Findings and Management Corrective Action Plan

For the Year Ended December 31, 2015

(1) Summary of Significant Accounting Policies

(a) Introduction

Recreation District No. 4 of St. Tammany Parish was created by the St. Tammany Parish Police Jury on August 6, 1981, pursuant to Louisiana Revised Statute 33:4564. The District has the authority to own and operate facilities and engage in activities which promote recreation. The governing board is made up of seven commissioners appointed by the St. Tammany Parish Council who serve four-year terms.

(b) **Basis of Presentation**

The accompanying basic financial statements of the District have been prepared in conformity with governmental accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

(c) <u>Reporting Entity</u>

Governmental Accounting Standards Board Statement No. 14 established criteria for determining which component units should be considered part of an entity for reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial accountability. As such, the District has no component units under the criteria established.

The District is a component unit of St. Tammany Parish because the Council appoints all members of the governing board of the District and, as such is financially accountable for the District. The accompanying financial statements present information only on the funds maintained by the District and do not present information on the Parish, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

(d) Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Because of the nature of the District's operations, the District reports only governmental activities.

The statement of activities demonstrates the degree to which the direct expense of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Schedule of Findings and Management Corrective Action Plan

For the Year Ended December 31, 2015

(e) Fund Financial Statements

Funds are used by the District to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts. The funds of the District are classified into the "governmental" category. The category, in turn, is divided into separate "fund types".

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general fixed assets (capital project funds), and the servicing of general long -term debt (debt service funds). The General Fund is used to account for all financial activities of the general government not accounted for in some other fund. The District reports the following major governmental funds: The *General Fund* is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

(f) Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligible requirements imposed by the provider have been met. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Governmental fund financial statements are reported using a *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The District considers property taxes as available if they are collected within 60 days after year end. A one-year availability period is used for revenue recognition for all other governmental fund revenues.

Property taxes, intergovernmental revenues, and interest associated with the current fiscal year are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt, as well as expenditures related to compensated absences and claims and judgments, only when payment is due.

(g) Budget and Budgetary Accounting

Formal budgetary accounting is employed as a management control device during the year for the general fund. Formal budgetary accounting is not employed for the debt service fund because effective control is alternatively achieved through indenture provisions of the debt certificates.

Schedule of Findings and Management Corrective Action Plan

For the Year Ended December 31, 2015

The budget is adopted for the general fund on a basis consistent with accounting principles generally accepted in the United States of America. All appropriations, which are not expended, lapse at year-end.

(h) Assets, Liabilities, and Net Assets

Cash and Cash Equivalents

For reporting purposes, cash and cash equivalents includes amounts in demand deposits, time deposits, and certificates of deposit. Louisiana Revised Statutes allow the District to invest in time certificates of deposit of state banks organized under the laws of Louisiana, national banks having their principal office in the State of Louisiana, in savings accounts or shares of savings and loan associations and savings banks and in share accounts and share certificate accounts of federally or state chartered credit unions.

Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$600 and an estimated life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation.

Fund Equity

Beginning with fiscal year 2011, the District implemented GASB Statement No. 54 "Fund Balance Reporting and Governmental Fund Type Definitions". Fund balance for the District's governmental funds are displayed in the following classifications depicting the relative strength of the spending constraints placed on the purpose for which resources can be used.

- 1. Nonspendable amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.
- 2. Restricted amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.
- 3. Committed amounts that can be used only for specific purposes determined by a formal action of the Board of Commissioners. The Board is the highest level of decision-making authority for the District. Commitments may be established, modified, or rescinded only through formal actions of the Board of Commissioners.

Schedule of Findings and Management Corrective Action Plan

For the Year Ended December 31, 2015

- 4. Assigned amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the District's adopted policy, only the Board of Commissioners may assign amount for specific purposes.
- 5. Unassigned all other spendable amounts.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amount to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board of Commissioners have provided otherwise in its commitment or assignment actions.

Net Position

Net position represents the difference between assets and liabilities. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any debt proceeds used for the acquisition, construction, or improvements of those assets.

(i) Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(2) <u>Cash</u>

At December 31, 2015, deposits with financial institutions consisted of the following:

Demand Deposits per Bank Secured by federal deposit insurance	\$	102,219 (250,000)
Secured by collateralized pledge of securities	100000000000	65
Unsecured / uncollateralized	<u>s</u>	184

(3) Ad Valorem Taxes

The District's ad valorem tax is levied in October of each year on the assessed value of property within the District's taxing area. Taxes are due and payable by December 31, and an enforceable lien attaches to the property on January 1. The taxes are collected on behalf of the District by the St. Tammany Parish Sheriff and then remitted to the District. The District receives most of the ad valorem taxes in February, March, and April. For the year ended December 31, 2015, taxes of 8.06 mils were levied on property within the District.

Schedule of Findings and Management Corrective Action Plan

For the Year Ended December 31, 2015

(4) Capital Assets

Capital assets and depreciation activity as of and for the year ended December 31, 2015 for the primary government is as follows:

	Balance <u>1/1/15</u>	Additions	Deletions	Balance <u>12/31/15</u>
Land improvements	<u>\$ 1,681,737</u>	85,202	(10,596)	1,756,343
Less Accumulated Depreciation	(564,843)	(77,205)	10,596	(631,452)
Capital Assets, Net	<u>\$ 1,116,894</u>	9,997	155	<u> 1,124,891</u>

The District recorded \$77,205 of depreciation expense on its capital assets for the year ended December 31, 2015.

(5) Accrued Beverage Agreement Income

On January 26, 2006 the District signed a beverage agreement with a local distributor of Pepsi products. This agreement makes Pepsi the sole, exclusive and official beverage at all facilities managed, operated or acquired by the District.

The terms of this agreement are for 10 years commencing on January 1, 2006 and terminating on December 31, 2015. As consideration for the agreement, the District received a one-time marketing fee of \$18,000. This amount shall be deemed to be earned equally over the term of the agreement. In addition, the District shall receive an annual payment of \$750 in years 2 through 10 of the agreement.

As of December 31, 2015, the District has earned the tenth year payment of \$1,800 leaving no accrued income to be earned next year.

(6) Louisiana Legislative Auditor Investigation

The Louisiana Legislative Auditor is currently conducting an investigation of the District. As of May 20, 2016, the investigation is not complete. Accordingly, the effect of the investigation on the financial statement is not known.

(7) Evaluation of Subsequent Events

The District has evaluated subsequent events through May 20, 2016, the date on which the financial statements were available to be issued.

Schedule of Findings and Management Corrective Action Plan

For the Year Ended December 31, 2015

Finding 2015-1:

Criteria:

Management is responsible for developing internal controls related to the preparation of financial statements as well as preparing financial statements in accordance with accounting principles generally accepted in the United States of America.

Condition & Cause:

As is common in small organizations, management has chosen to engage the auditor to propose certain year-end adjusting entries and to prepare the Company's annual financial statements. This condition is intentional by management based upon the cost effectiveness of acquiring the ability to prepare financial statements in accordance with generally accepted accounting principles. Consistent with this decision, internal controls over the preparation of year-end adjusting entries and annual financial statements, complete with notes, in accordance with generally accepted accounting principles, have not been established. Under generally accepted auditing standards, this condition represents a significant deficiency in internal controls. Recently issued Statement on Auditing Standards (SAS) 115 requires that we report the above condition as a control deficiency. The SAS does not provide exceptions to reporting deficiencies that are adequately mitigated with nonaudit services rendered by the auditor or deficiencies for which the remedy would be cost prohibitive or otherwise impractical.

Recommendation:

As mentioned above, whether or not it would be cost effective to cure a control deficiency is not a factor in applying SAS 115's reporting requirements. Because prudent management requires that the potential benefit from an internal control must exceed its cost, it may not be practical to correct all the deficiencies an auditor reports under SAS 115. In this case we do not believe that curing the significant deficiency described above would be cost effective or practical and accordingly do not believe any corrective action is necessary.

Management Corrective Action Plan:

In response to the finding, management feels that it is a prudent use of funds to engage the auditor to prepare the Company's annual financial reports. We therefore agree with the auditors' recommendation that no correction action is necessary.

Finding 2015-2:

Criteria:

Management is responsible for preserving and maintaining the records of the District.

Condition & Cause:

Board minutes for the meeting of initial adoption of the budget did not document approval of the budget.

Recommendation:

We recommend management and the Board implement controls that will ensure all approvals of the budget are so documented in the minutes.

Schedule of Findings and Management Corrective Action Plan

For the Year Ended December 31, 2015

Management Corrective Action Plan:

The Board and management will implement additional procedures to ensure all board minutes are properly recorded and retained.

Finding 2015-3:

Criteria:

The District should have written agreements with parties providing services to the District.

Condition & Cause:

During the current year, it was noted that the District turned over operations of the Park's concessions to a non-profit organization. It is our understanding there is no written agreement with the non-profit organization in regards to the concessions activity.

Recommendation:

We recommend the District enter into a cooperative endeavor agreement or similar agreement with the non-profit that details each party's responsibilities as well as how any profits derived from the concessions at the Park are utilized.

Management Corrective Action Plan:

The District will enter into an agreement with the non-profit once the new board members are installed.

Status of Prior Year Findings

For the Year Ended December 31, 2015

Finding 2014-1:

Criteria:

Management is responsible for developing internal controls related to the preparation of financial statements as well as preparing financial statements in accordance with accounting principles generally accepted in the United States of America.

Condition & Cause:

As is common in small organizations, management has chosen to engage the auditor to propose certain year-end adjusting entries and to prepare the Company's annual financial statements. This condition is intentional by management based upon the cost effectiveness of acquiring the ability to prepare financial statements in accordance with generally accepted accounting principles. Consistent with this decision, internal controls over the preparation of year-end adjusting entries and annual financial statements, complete with notes, in accordance with generally accepted accounting principles, have not been established. Under generally accepted auditing standards, this condition represents a significant deficiency in internal controls. Recently issued Statement on Auditing Standards (SAS) 115 requires that we report the above condition as a control deficiency. The SAS does not provide exceptions to reporting deficiencies that are adequately mitigated with nonaudit services rendered by the auditor or deficiencies for which the remedy would be cost prohibitive or otherwise impractical.

Recommendation:

As mentioned above, whether or not it would be cost effective to cure a control deficiency is not a factor in applying SAS 115's reporting requirements. Because prudent management requires that the potential benefit from an internal control must exceed its cost, it may not be practical to correct all the deficiencies an auditor reports under SAS 115. In this case we do not believe that curing the significant deficiency described above would be cost effective or practical and accordingly do not believe any corrective action is necessary.

Management Corrective Action Plan:

In response to the finding, management feels that it is a prudent use of funds to engage the auditor to prepare the Company's annual financial reports. We therefore agree with the auditors' recommendation that no correction action is necessary.

Status Resolved.

Finding 2014-2:

Criteria: Management is responsible for preserving and maintaining the records of the District.

Condition & Cause:

Board minutes documenting the adoption of the budget and amended budget could not be located. We were informed that the only copy of the minutes were inadvertently deleted and could not be reproduced.

Recommendation:

We recommend management and the Board implement controls that will ensure all meeting minutes are preserved.

Status of Prior Year Findings

For the Year Ended December 31, 2015

Management Corrective Action Plan:

The Board and management will implement additional procedures to ensure all board minutes are properly recorded and retained.

Status: Resolved.

Finding 2014-3:

Criteria:

Management is responsible for adhering to provisions of the Louisiana Local Government Budget Act and for utilizing the annual budget in carrying out its' fiduciary responsibilities.

Condition & Cause:

Actual revenues fell short of budgeted revenues by 6%.

Recommendation:

We recommend management and the Board periodically compare actual results to budget and research any variances to determine if the budget requires amendment or if changes in operations are required.

Management Corrective Action Plan:

The Board and management will compare actual amounts to budget on a quarterly basis and research any variances to determine if the budget requires amendment or if changes in operations are required.

Status: Resolved.

Finding 2014-4:

Criteria:

The Board and management are responsible for providing written policies and procedures to its employees.

Condition & Cause:

We were informed by the Director that the District is still in the process of preparing and adopting written policies and procedures.

Recommendation:

We recommend the Board and director ensure that there are written policies and procedures for all of the District's key functions and they are provided to all appropriate employees.

Management Corrective Action Plan:

The Board and management will ensure that written policies and procedures are in place for all key functions and are provided to the appropriate employees.

Status: Resolved.

INDEPENDENT ACCOUNTANTS' REPORT ON APPLYING AGREED-UPON PROCEDURES

To the Board Members Recreation District No. 4 of St. Tammany Parish Lacombe, Louisiana

We have performed the procedures included in the Louisiana Government Audit Guide and enumerated below, which were agreed to by the management of the Recreation District No. 4 of St. Tammany Parish (the District) and the Legislative Auditor, State of Louisiana, solely to assist the users in evaluating management's assertions about the Board's compliance with certain laws and regulations for the year ended December 31, 2015, included in the accompanying Louisiana <u>Attestation Questionnaire</u>. This agreed-upon procedures engagement was performed in accordance with standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the specified users of the report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Public Bid Law

1. Select all expenditures made during the year for material and supplies exceeding \$20,000, or public works exceeding \$100,000, and determine whether such purchases were made in accordance with LSA-RS 38:2211-2251 (the public bid law).

The District did not have any disbursements for public works exceeding \$100,000 or for materials and supplies exceeding \$20,000.

Code of Ethics for Public Officials and Public Employees

2. Obtain from management a list of the immediate family members of each Board Member as defined by LSA-RS 42:1101-1124 (the code of ethics), and a list of outside business interests of all Board Members and employees, as well as their immediate families.

Management provided us with the required list from 2014 and notified us that there were no changes in 2015. We suggest that management update the information in 2016.

3. Obtain from management a listing of all employees paid during the period under examination.

Management provided us with the required list.

4. Determine whether any of those employees included in the listing obtained from management in agreed-upon procedure (3) were also included on the listing obtained from management in agreed-upon procedure (2) as immediate family members.

None of the employees included on the list of employees provided by management in procedure 3 appeared on the listing provided by board members in procedure 2.

Budgeting

5. Obtain a copy of the legally adopted budget and all amendments, if applicable.

Copies of the legally adopted budget and subsequent amendment were obtained from management.

6. Trace the budget adoption and amendments to the minute book.

We were unable to trace the budget adoption to the minute book for board approval as the minutes for the meeting of initial adoption did not document approval of the budget. Approval of the subsequent amendment of the budget was traced to the minutes.

7. Compare the revenues and expenditures of the final budget to actual revenues and expenditures to determine if actual revenues failed to meet budgeted revenues by 5% or more if actual expenditures exceeded budgeted amounts by 5% or more.

No exceptions were noted.

Accounting and Reporting

- 8. Randomly select six disbursements made during the period under examination and:
 - (a) Trace payments to supporting documentation as to proper amount and payee;

All payments were traced to supporting documentation without exception

(b) Determine if payments were properly coded to the correct fund and general ledger amount;

All payments were properly coded to the correct fund and general ledger account without exception

(c) Determine whether payments received approval from proper authorities.

All payments were properly approved.

<u>Meetings</u>

9. Examine evidence indicating that agendas for meetings recorded in the minute book were posted or advertised as required by LSA-RS 42:1 through 42:12 (the open meetings law).

Management has asserted that such documents were properly posted on both the website and the door of the District's office and gymnasium.

<u>Debt</u>

10. Examine bank deposits for the period under examination and determine whether any such deposits appear to be proceeds of bank loans, bonds, or like indebtedness.

Bank deposits for the period under examination were reviewed noting no deposits that appear to be proceeds of bank loans, bonds, or like indebtedness.

Advances and Bonuses

11. Examine payroll records and minutes for the year to determine whether any payments have been made to employees which may constitute bonuses, advances, or gifts.

Payroll records and minutes for the period were reviewed noting no payments which may constitute bonuses, advances, or gifts.

We were not engaged to, and did not, perform an examination the objective of which would be the expression of an opinion on management's assertions. Accordingly, we do not express such an opinion. Had we performed additional procedures other matters might have come to our attention that would have been reported to you

This report is intended solely for use of management of the Recreation District No. 4 of St. Tammany Parish and the Legislative Auditor, State of Louisiana, and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.
