Mr. Richard Lavergne, Superintendent
and Members of the St. Martin Parish
School Board
St. Martinville, Louisiana

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the St. Martin Parish School Board (the School Board), as of and for the year ended June 30, 2010, which collectively comprise the School Board's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the St. Martin Parish School Board's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the St. Martin Parish School Board, as of June 30, 2010, and the respective changes in financial position, and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 14, 2010, on our consideration of the St. Martin Parish School Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the budgetary comparison information and schedule of funding progress on pages 50 through 53 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The School Board has not presented management's discussion and analysis that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be part of, the basic financial statements.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the St. Martin Parish School Board's financial statements as a whole. The other supplementary information on pages 54 through 80 including the schedule of expenditures of federal awards as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and the schedules required by state law are presented for purposes of additional analysis and are not a required part of the financial statements. The information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

Notes to Basic Financial Statements

Introduction

The St. Martin Parish School Board (School Board) was created by Louisiana Revised Statute (LSA-R.S.) 17:51 for the purpose of providing public education for the children within St. Martin Parish. The School Board is authorized by LSA-R.S. 17:51 to establish policies and regulations for its own government consistent with the laws of the State of Louisiana and the regulations of the Louisiana Board of Elementary and Secondary Education. The School Board is comprised of ten members who are elected from ten districts for terms of four years.

The School Board operates seventeen schools within the parish. In conjunction with the regular educational programs, some of these schools offer special education and/or adult education programs. In addition, the School Board provides transportation and school food services for the students.

(1) Summary of Significant Accounting Policies

The accompanying financial statements of the St. Martin Parish School Board have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Proprietary funds apply Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. Although the School Board has the option to apply FASB pronouncements issued after that date, the School Board has chosen not to apply said pronouncements. The accounting and reporting framework and the more significant accounting policies are discussed below.

A. Financial Reporting Entity

For financial reporting purposes, the School Board includes all funds and activities that are within the oversight responsibility of the School Board. Because the School Board members are independently elected and are solely accountable for fiscal matters, which include (1) budget authority, (2) responsibility for funding deficits and operating deficiencies, and (3) fiscal management for controlling the collection and disbursement of funds, and because of the scope of public service provided by the School Board, the School Board is a separate governmental reporting entity, primary government.

Certain units of local government over which the School Board exercises no oversight responsibility, such as the parish government, other independently elected parish officials, and municipalities within the parish, are excluded from the accompanying financial statements. These units of government are considered separate reporting entities and issue financial statements separate from that of the School Board. The School Board is not a component unit of any other entity and does not have any component units, which require inclusion in the financial statements of the School Board.

B. Basis of Presentation

Government-Wide Financial Statements (GWFS)

The statement of net assets and the statement of activities display information about the School Board, the primary government, as a whole. They include all funds of the reporting entity, which are considered to be governmental activities. The School Board's internal service fund is a governmental activity. Internal service fund activity is eliminated to avoid "doubling up" of revenues and expenses. Fiduciary funds are not included in the GWFS. Fiduciary funds are reported only in the Statement of Fiduciary Net Assets at the fund financial statement level.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the School Board's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements (FFS)

The accounts of the School Board are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a separate set of self-balancing accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. Fund financial statements report detailed information about the School Board.

The various funds of the School Board are classified into three categories: governmental, proprietary, and fiduciary. The emphasis on fund financial statements is on major funds, each displayed in a separate column. A fund is considered major if it is the primary operating fund of the School Board or meets the following criteria:

- a. Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and
- b. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

ST. MARTIN PARISH SCHOOL BOARD
St. Martinville, Louisiana

Notes to Basic Financial Statements (Continued)

The School Board reports the following major governmental funds:

The General Fund is the general operating fund of the School Board. It accounts for all financial resources except those required to be accounted for in other funds.

The major special revenue fund is the State and Local Special Revenue Funds (which is comprised of the School Lunch Fund, LA-4, the Other State Grants Fund, the Health Centers Fund, and the two Sales Tax Funds). These funds account for revenues and expenditures related to certain state and local grant and entitlement programs as well as other legally restricted funds.

The Capital Projects Fund, which includes the 1996 Construction Fund, the 2002 Construction Fund, the 2006 Construction Fund, the 2009 Construction Fund, the 2010 Construction Fund, the 2011 Construction Fund, and the Transportation Fund, is also considered to be a major fund. They are used to account for financial resources to be used for the acquisition or construction of major capital facilities as well as various school improvements.

Additionally, the School Board reports the following fund types:

The nonmajor special revenue fund types include the Federal Titles Funds (which is comprised of Title I and Carryover and No Child Left Behind Titles II through VI) and the Federal Grant Funds (which is comprised of IDEA and Preschool, and Other Federal Grants Funds). These funds account for the revenues and expenditures related to certain federal, state and local grant and entitlement programs.

The Debt Service Fund, established to meet requirements of bond ordinances, is considered to be a nonmajor fund. It is used to account for the accumulation of resources for and the payment of general long-term debt principal, interest, and related costs.

Proprietary Funds -

Proprietary funds are used to account for ongoing organizations and activities that are similar to those often found in the private sector. The measurement focus is based upon determination of net income, financial position, and cash flows. The following is the School Board's proprietary fund type:

Internal Service Funds

The Internal Service Fund (proprietary fund type) is used to account for the accumulation of resources for and the payment of benefits by the School Board's workers' compensation insurance program.

ST. MARTIN PARISH SCHOOL BOARD
St. Martinville, Louisiana

Notes to Basic Financial Statements (Continued)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues are derived from contributions made from the employer and employees. These revenues are planned to match: (1) expenses of insurance premiums in excess of self-insurance amounts; (2) actual claims and estimated liabilities for claims incurred but not yet reported at year-end, and (3) operating expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Fiduciary Funds -

Fiduciary funds account for assets held by the government in a trustee capacity or as an agent on behalf of other funds within the School Board. The funds accounted for in this category by the School Board are the agency funds. The agency funds are as follows:

School Activity Fund – accounts for monies generated by the individual schools and organizations within the schools of the parish as well as allocations made by the School Board to individual schools and selected organizations. While the school activity accounts are under the supervision of the School Board, they belong to the individual schools or their student bodies and are not available for use by the School Board.

Sales Tax Fund – accounts for the collection and distribution of all sales taxes levied in the parish of St. Martin.

Region IV Fund – accounts for the activity of the State Department of Education's Region IV.

Private-purpose trust funds – accounts for contributions from members of the St. Martin Parish School Board to encourage students of high academic standing and achievement to enter the education profession.

C. Measurement Focus/ Basis of Accounting

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied.

Measurement Focus

On the government-wide statement of net assets and the statement of activities, the governmental activities are presented using the economic resources measurement focus as defined in item b. below. In the fund financial statements, the “current financial resources” measurement focus or the “economic resources” measurement focus is used as appropriate:

ST. MARTIN PARISH SCHOOL BOARD
St. Martinville, Louisiana

Notes to Basic Financial Statements (Continued)

- a. All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.
- b. The proprietary (internal service) fund utilizes an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net assets (or cost recovery), financial position, and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net assets.

Basis of Accounting

In the government-wide statement of net assets and statement of activities, the governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized in accordance with the requirements of GASB Statement No. 33 "Accounting and Financial Reporting for Nonexchange Transactions."

Program revenues

Program revenues included in the Statement of Activities are derived directly from the program itself or from parties outside the School Board's taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the School Board's general revenues.

Allocation of indirect expenses

The School Board reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses of other functions are not allocated to those functions, but are reported separately in the Statement of Activities. Depreciation expense is specifically allocated by function and is included in the direct expense of each function. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities. Interest costs are not capitalized.

ST. MARTIN PARISH SCHOOL BOARD
St. Martinville, Louisiana

Notes to Basic Financial Statements (Continued)

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means being collectible within the current period or within 60 days after year-end. Expenditures (including facilities acquisition and construction) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due. The governmental funds use the following practices in recording revenues and expenditures:

Revenues

Federal and state entitlements (unrestricted grants-in-aid, which include state equalization and state revenue sharing) are recorded when available and measurable. Expenditure-driven federal and state grants, which are restricted as to the purpose of the expenditures, are recorded when the reimbursable expenditures have been incurred.

Ad valorem taxes are recorded in the year the taxes are due and payable. Ad valorem taxes are assessed in November, by the Parish Assessor, based on the assessed value and become due on December 31 of each year. The taxes become delinquent on January 1. An enforceable lien attaches to the property as of January 1. The taxes are generally collected in December, January, and February of the fiscal year. Property tax revenues are accrued at fiscal year-end to the extent that they have been collected but not received by the St. Martin Parish Tax Collector's Office. Such amounts are measurable and available to finance current operations.

Interest income on time deposits is recorded when earned.

Sales and use tax revenues are recorded in the month earned by the School Board.

Substantially all other revenues are recorded when received.

Expenditures

Salaries are recorded as expenditures when incurred. Nine-month employee salaries are incurred over a nine-month period but paid over a twelve-month period.

Compensated absences are recognized as expenditures when leave is actually taken or when employees (or heirs) are paid for accrued leave upon retirement or death.

Commitments under construction contracts are recognized as expenditures when earned by the contractor.

ST. MARTIN PARISH SCHOOL BOARD
St. Martinville, Louisiana

Notes to Basic Financial Statements (Continued)

Principal and interest on general long-term obligations are not recognized until due.

All other expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

The proprietary fund utilizes the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

Other Financing Sources (Uses)

Transfers between funds that are not expected to be repaid (or any other types, such as capital lease transactions, sales of capital assets, debt extinguishments, long-term debt proceeds, et cetera) are accounted for as other financing sources (uses). These other financing sources (uses) are recognized at the time the underlying events occur.

Deferred Revenues

Deferred revenues arise when resources are received before the School Board has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures or when tuition is received in advance of the commencement of classes.

In subsequent periods, when the School Board has a legal claim to the resources, the liability for deferred revenue is removed from the balance sheet and the revenue is recognized.

D. Assets, Liabilities and Equity

Cash and interest-bearing deposits

For purposes of the Statement of Net Assets, cash and interest-bearing deposits include all demand accounts, savings accounts, and certificates of deposits of the School Board. For the purpose of the proprietary fund statement of cash flows, "cash and cash equivalents" include all demand and savings accounts, and certificates of deposit or short-term investments with an original maturity of three months or less when purchased.

ST. MARTIN PARISH SCHOOL BOARD
St. Martinville, Louisiana

Notes to Basic Financial Statements (Continued)

Investments

Under state law the School Board may deposit funds with a fiscal agent organized under the laws of the State of Louisiana, the laws of any other state in the union, or the laws of the United States. The School Board may invest in United States bonds, treasury notes and bills, government backed agency securities, or certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. In addition, local governments in Louisiana are authorized to invest in the Louisiana Asset Management Pool (LAMP), a nonprofit corporation formed by the State Treasurer and organized under the laws of the State of Louisiana, which operates a local government investment pool. At June 30, 2010, the School Board's investments in LAMP are stated at market value. See additional information in Note 3.

Interfund receivables and payables

During the course of operations, numerous transactions occur between individual funds that may result in amounts owed between funds. Those related to goods and services type transactions are classified as "due to and from other funds." Short-term interfund loans are reported as "interfund receivables and payables." Interfund receivables and payables as well as due to and from other funds are eliminated in the Statement of Net Assets.

Receivables

Receivables consist of all revenues earned at year-end and not yet received. The majority of this balance is comprised of federal and state grants.

Inventories

The cost of inventories is recorded as expenditures when consumed rather than when purchased. Reserves are established for an amount equal to the carrying value of inventories.

Inventory of the School Lunch Special Revenue Fund consists of expendable supplies and food purchased by the School Board and commodities granted by the United States Department of Agriculture through the Louisiana Department of Agriculture and Forestry. The commodities are recorded as revenues when received; however, all inventory items are recorded as expenditures when consumed or used. All purchased inventory items are valued at the lower of cost (first-in, first-out) or market, and commodities are assigned values based on information provided by the United States Department of Agriculture.

ST. MARTIN PARISH SCHOOL BOARD
St. Martinville, Louisiana

Notes to Basic Financial Statements (Continued)

Capital Assets

The accounting treatment over property, plant and equipment (capital assets) depends on whether they are reported in the government-wide or fund financial statements.

In the government-wide financial statements, capital assets are capitalized at historical cost, or estimated historical cost if actual is unavailable, except for donated assets, which are recorded at their estimated fair value at the date of donation. The School Board maintains a threshold level of \$5,000 or more for capitalizing capital assets for purposes of the government wide financial statements. For internal purposes, the Board maintains a threshold level of \$1,000.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Assets. Depreciation is provided over the assets' estimated useful life using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Buildings and improvements	20 - 40 years
Furniture and equipment	5 - 15 years

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

In the fund financial statements, capital assets used in governmental fund operations are accounted for as facilities acquisition and construction expenditures of the governmental fund upon acquisition.

The School Board does not possess any material amounts of infrastructure capital assets, such as sidewalks and parking lots. Amounts expended for such items prior to June 30, 2003 were considered to be part of the cost of buildings and improvements. In the future, if such items are built or constructed, and appear to be material in cost compared to all capital assets, they will be capitalized and depreciated over their estimated useful lives as with all other depreciable capital assets.

Compensated Absences

All twelve month employees earn from ten to fifteen days of vacation leave each year, depending on their length of service with the School Board, which are not credited to the employee until the first day of the year subsequent to the year that vacation was earned. Newly hired employees earn vacation on a pro rata basis. An employee cannot accumulate more than two years of earned vacation. Any excess is lost. Employees are paid for unused vacation (subject to a two year limitation) at the time of resignation.

ST. MARTIN PARISH SCHOOL BOARD
St. Martinville, Louisiana

Notes to Basic Financial Statements (Continued)

All twelve month employees earn from twelve to eighteen days of sick leave each year. Teachers and other nine month employees earn ten days of sick leave each year. Sick leave may be accumulated. Upon retirement or death unused accumulated sick leave of up to twenty-five days is paid to the employee or to the employee's estate at the employee's current rate of pay. Under the Louisiana Teachers Retirement System, the total unused accumulated sick leave is used in the retirement benefit computation as earned service. Under the Louisiana School Employees Retirement System, all unpaid sick leave, which excludes the twenty-five days paid, is used in the computation of retirement benefits as earned service. Upon resignation, all sick leave is forfeited.

Sabbatical leave may be granted for medical reasons and for professional and cultural improvement. Any employee with a teaching certificate is entitled, subject to approval by the School Board, to one semester of sabbatical leave after three years of continuous service or two semesters of sabbatical leave after six or more years of continuous service. Due to its restrictive nature, sabbatical leave benefits are recorded as an expenditure in the period paid.

In the government-wide statements, amounts of vested or accumulated sick leave that are not expected to be liquidated with expendable available financial resources are recorded as long-term debt.

At June 30, 2010, employees of the School Board have accumulated and vested \$4,097,872 of compensated absence benefits payable. Salary related payments are not accrued since this amount is deemed to be insignificant.

Long-term debt

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements. Since the School Board's only Proprietary Fund is the Self-Insurance Internal Service Fund, which has no long-term debt, all School Board long-term debt is used in governmental fund operations.

All long-term debt to be repaid from governmental resources is reported as liabilities in the government-wide statements. The long-term debt consists primarily of general obligation bonds.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources net of the applicable premium or discount and payment of principal and interest reported as expenditures. For fund financial reporting, issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

ST. MARTIN PARISH SCHOOL BOARD
St. Martinville, Louisiana

Notes to Basic Financial Statements (Continued)

Equity Classifications

In the government-wide statements, equity is classified as net assets and displayed in three components:

- a. Invested in capital assets, net of related debt – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowing that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net assets – Consists of net assets with constraints placed on the use either by (1) external groups, such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net assets – All other net assets that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

In the fund financial statements, governmental fund equity is classified as fund balance. Fund balance is further classified as follows. Proprietary fund equity is classified the same as in the government-wide statements.

The School Board adopted GASB Statement 54 in the year ended June 30, 2009. As such, fund balances of the governmental funds are classified as follows:

Nonspendable – amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted – amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed – amounts that can be used only for specific purposes determined by a formal action of the School Board members. The Board is the highest level of decision-making authority for the School Board office. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by Board members.

Assigned – amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the School Board’s adopted policy, only Board members or the Board’s finance committee may assign amounts for specific purposes.

ST. MARTIN PARISH SCHOOL BOARD
St. Martinville, Louisiana

Notes to Basic Financial Statements (Continued)

Unassigned – all other spendable amounts.

As of June 30, 2010, fund balances are composed of the following:

	General Fund	State and Local Special Revenue Funds	Capital Projects Funds	Nonmajor Governmental Funds	Total Governmental Funds
Nonspendable:					
Inventories	\$ 75,463	\$ 131,002	\$ -	\$ -	\$ 206,465
Prepaid items	495,638	-	-	-	495,638
Restricted:					
Debt retirement	-	-	-	4,698,377	4,698,377
Capital expenditures	-	-	20,699,303	-	20,699,303
Other purposes	3,734,312	6,621,213	-	-	10,355,525
Committed:					
Economic stabilization	15,003,262	-	-	-	15,003,262
Assigned:					
Health centers	665,857	-	-	-	665,857
Group health	750,000	-	-	-	750,000
Unassigned:	<u>2,071,747</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>2,071,747</u>
Total fund balances	<u>\$22,796,279</u>	<u>\$ 6,752,215</u>	<u>\$20,699,303</u>	<u>\$ 4,698,377</u>	<u>\$54,946,174</u>

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the School Board considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the School Board considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless Board members or the finance committee has provided otherwise in its commitment or assignment actions.

ST. MARTIN PARISH SCHOOL BOARD
St. Martinville, Louisiana

Notes to Basic Financial Statements (Continued)

In fiscal year 2009 the School Board members established a stabilization policy. Under this policy, a portion of the fund balance of the General Fund is committed for stabilization arrangements, such as might be needed in emergency situations. The policy states that, at fiscal year end, an amount approximately equal to 25 percent of the total General Fund expenditures is committed for use in covering Board declared emergencies, including natural disasters. At June 30, 2010, \$15,003,262 of the fund balance for the General Fund was reported as committed for economic stabilization.

E. Budget Practices

The School Board adopted budgets for the General Fund and the Special Revenue Funds. Budgets are prepared on a modified accrual basis of accounting. All appropriations lapse at year end, and any encumbrances outstanding are included in the next year's budget. Formal budget accounts are integrated into the accounting system as a management control device.

The superintendent of schools and the chief financial officer are authorized to transfer amounts between budgeted line items within any fund. However, any unfavorable variances of revenues or expenditures of five percent or more within a fund must be presented to the School Board for Board action to amend fund budgets. Budgeted amounts included in the accompanying financial statements include the original adopted budgets and all subsequent amendments.

F. Revenue Restrictions

The School Board has various restrictions placed over certain revenue sources from state or local requirements. The primary restricted revenue sources include:

<u>Revenue Source</u>	<u>Legal Restrictions on Use</u>
Sales and use taxes	See Note 10
Ad valorem taxes	See Note 4

The School Board uses unrestricted resources only when restricted resources are fully depleted.

G. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

(2) Cash and Interest-Bearing Deposits

Under state law, the School Board may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union, or the laws of the United States. The School Board may invest in certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. At June 30, 2010, the School Board has cash and cash equivalents (book balances) totaling \$8,780,520 as follows:

	Governmental Funds	Fiduciary Funds	Total
Demand deposits	\$ 2,549	\$ 2,221	\$ 4,770
Interest-bearing deposits	8,439,124	336,626	8,775,750
Amounts owed to governmental funds	18,754	(18,754)	-
Total	\$ 8,460,427	\$ 320,093	\$ 8,780,520

These deposits are stated at cost, which approximates market. Custodial credit risk is the risk that in the event of a bank failure, the School Board's deposits may not be returned to it. The School Board's policy, by state law, is that all deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. Deposit balances (bank balances) at June 30, 2010 are secured as follows:

Bank balances	\$ 8,914,219
At June 30, 2010 the deposits are secured as follows:	
Insured	\$ 501,454
Uninsured and collateral held by pledging bank not in School Board's name	8,412,765
Total	\$ 8,914,219

(3) Investments

The School Board can invest in direct debt securities of the United States unless law expressly prohibits such an investment. The School Board's investments are categorized to give an indication of the level of risk assumed by it at year-end. Category 1 includes investments that are insured or registered or for which the securities are held by the School Board or its agent in the School Board's name. Category 2 includes uninsured and unregistered investments with securities held by the counterparty's trust department or agent in the School Board's name. Category 3 includes uninsured and unregistered investments with securities held by the counterparty, or by its trust department or agent, but not in the School Board's name.

Notes to Basic Financial Statements (Continued)

Investments consist of amounts on deposit with the Louisiana Asset Management Pool (LAMP), Morgan Keegan and Company, Inc., and certificates of deposit with local banks. The certificates of deposit are in the amount of \$591,183. An investment in the amount of \$38,951,363 at June 30, 2010 is deposited in LAMP, a local government investment pool, of which \$687,486 is attributable to the fiduciary fund, which is not presented in the statement of net assets. In accordance with GASB Codification Section 150.165, the investment in LAMP is not categorized into the three risk categories provided by GASB Codification Section 150.164 because the investment is in the pool of funds and thereby not evidenced by securities that exist in physical or book entry form.

LAMP is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local government entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LSA-R.S. 33:2955. Accordingly, LAMP investments are restricted to securities issued, guaranteed, or backed by the U.S. Treasury, the U.S. government, or one of its agencies, enterprises, or instrumentalities, as well as repurchase agreements collateralized by those securities.

Effective August 1, 2001, LAMP's investment guidelines were amended to permit the investment in government-only money market funds. In its 2001 Regular Session, the Louisiana Legislature (Senate Bill No. 512, Act 701) enacted LSA-R.S. 33:2955 (a) (1) (h) which allows all municipalities, parishes, school boards, and any other political subdivisions of the State to invest in "Investment grade (A-1/P-1) commercial paper of domestic United States corporations." Effective October 1, 2001, LAMP's investment guidelines were amended to allow the limited investment in A-1 or A-1+ commercial paper.

The dollar weighted average portfolio maturity of LAMP assets is restricted to not more than 90 days, and consists of no securities with a maturity in excess of 397 days. LAMP is designed to be highly liquid to give its participants immediate access to their account balances. The investments in LAMP are stated at fair value based on quoted market rates. The fair value is determined on a weekly basis by LAMP and the value of the position in the external investment pool is the same as the value of the pool shares. LAMP, Inc. is subject to the regulatory oversight of the state treasurer and the board of directors. LAMP is not registered with the SEC as an investment company.

At June 30, 2010, the School Board's investment, at cost, is \$38,950,245. The amortized cost of this investment at June 30, 2010 was also \$38,950,245. The market value of this investment at June 30, 2010 was \$38,951,363.

An investment in the amount of \$13,603,340 at June 30, 2010 is deposited into Morgan Keegan and Company, Inc. This investment is composed of government securities which are fully guaranteed as to payment by the United States government. Because of the safety of this investment, this investment takes exception to state law requiring security of federal deposit insurance or the pledge of securities owned by the fiscal agent bank.

St. Martinville, Louisiana

Notes to Basic Financial Statements (Continued)

As of June 30, 2010, the investments in Morgan Keegan and Company, Inc. were comprised of the following.

<u>Investment</u>	<u>Maturities</u>	<u>Fair Values</u>
Federal Home Loan Bank	02/10/15 - 06/28/17	\$ 6,531,510
Fannie Mae	07/06/10 - 01/26/20	2,002,443
Federal Farm Credit Bank	04/08/16 - 06/15/18	<u>5,069,387</u>
Total		<u>\$13,603,340</u>

The School Board does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

(4) Ad Valorem Taxes

The following is a summary of authorized and levied ad valorem taxes:

	<u>Millages</u>	
	<u>2010</u>	<u>2009</u>
Parishwide taxes:		
Constitutional	2.61	2.61
Special school-		
Maintenance	8.32	8.32
Operation and maintenance	1.65	1.65
School bonds	21.50	21.50

Ad valorem taxes attach as an enforceable lien on property as of January 1 of each year. During the fiscal year ended June 30, 2010, taxes were levied by the School Board in July and were billed to taxpayers by the Assessor in November. Billed taxes are due by December 31, becoming delinquent on January 1 of the following year.

The taxes are based on assessed values determined by the Tax Assessor of St. Martin Parish and are collected by the Sheriff. The taxes are remitted to the School Board net of deductions for Pension Fund contributions.

The School Board received ad valorem taxes that were paid under protest. It is possible that these taxes (or a portion thereof) will have to be returned to the taxpayer. The amount received of \$198,446 is reflected as a restricted asset. The estimated amount that may have to be refunded is \$198,446 and is reflected as deferred revenue on the balance sheet at June 30, 2010.

(10) Sales and Use Taxes

The School Board is authorized and has levied the following sales and use taxes:

1. March 20, 1965 (1%)

After paying collection and administration costs, the tax is to be used for salaries of teachers and for the expenses of operating schools, including payment of other personnel in addition to teachers.

2. July 21, 1990 (1%)

The tax is to be used for the payment of all debt service requirements on all outstanding bonds payable from the pledge of said tax, with the remainder to be used for the purpose of paying salaries and related benefits for professional and paraprofessional employees on a seven to five ratio. There are currently no bonds outstanding for which this tax is pledged.

(11) Pension Plan

Eligible employees of the School Board participate in one of six defined benefit multiple-employer public employee retirement systems (PERS), which are controlled and administered by a separate board of trustees. These retirement systems provide retirement, disability and death benefits to plan members and their beneficiaries. Pertinent information relative to each plan follows:

(13) Risk Management

The School Board is exposed to risks of loss in the areas of health care, workers' compensation, general and auto liability and property hazards. Health care and workers' compensation risks are handled through a self-insurance plan as described below. The other risks are handled by purchasing commercial insurance. There have been no significant reductions in these insurance coverages during the current fiscal year, nor have settlements exceeded insurance coverage for the current or prior two fiscal years.

A. Workers' Compensation

The School Board has established a limited risk management program for workers' compensation. The School Board hired Apple Adjusters, Inc. as administrator for this program. During fiscal year 2010, a total of \$1,166,525 was incurred in benefits and administrative costs. The School Board purchases commercial insurance for individual claims in excess of \$350,000. Incurred but not paid claims have been accrued as a liability in the Workers Compensation Fund (internal service fund).

B. Group Self-Insurance

The School Board also established a limited risk management program for group hospitalization insurance. This plan provides employee health benefits up to a \$1,000,000 lifetime maximum with an annual \$10,000 restoration. The School Board purchases commercial insurance for individual claims in excess of \$175,000.

The self-insurance activity is reported in the General Fund. Both the General and Special Revenue Funds of the School Board participate in the program and make contributions based on amounts needed to pay prior and current year claims. The claims liability of \$1,100,000 reported in the general fund at June 30, 2010, is based on the loss that is probable at the date of the financial statements and the amount of the

loss that can be reasonably estimated. The School Board currently does not discount its claims liabilities.

C. Reconciliation of Claims Liabilities

Changes in the claims liability amounts for the risk management programs are as follows:

	Balance at Beginning of Fiscal Year	Claims and Changes in Estimates	Benefit Payments and Claims	Balance at Fiscal Year-End
Workers' compensation:				
2007-2008	1,049,507	1,397,582	1,003,669	1,443,420

2009-2010	980,000	10,424,139	10,304,139	1,100,000

Claims payable of \$1,220,547 for workers' compensation at June 30, 2010 was obtained from information provided by the third party administrator.

Claims payable for group hospitalization of \$1,100,000 at June 30, 2010 was determined as follows:

1. Claims incurred on or prior to June 30, 2010 and paid between July 1, and September 30, 2010	\$ 999,346
2. Provision for claims incurred but not reported	<u>100,654</u>
Total claims payable	<u>\$1,100,000</u>

The provision for claims incurred but not reported of \$100,654 was calculated utilizing historical information.

(15) Commitments and Contingencies

A. Contingent Liabilities

At June 30, 2010, the School Board is involved in several lawsuits. In the opinion of management and/or legal counsel for the School Board, resolution of these lawsuits will not involve any material liability (after meeting the insurance deductible of \$25,000 per occurrence) to the School Board *in excess of insurance coverage*. Total liability for lawsuits as well as other claims accrued at June 30, 2010 is \$269,357 and is included in insurance claims payable on the statement of net assets.

B. Grant Audit

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the School Board expects such amounts, if any, to be immaterial.

C. Potential Misappropriation of Funds

In May 2008, the School Board learned of a situation involving excessive amounts of fuel purchases. Upon inquiry and internal investigation, the involved employee resigned. However, the employee did admit to using the fuel card for personal reasons. The amount in question is approximately \$17,000. A receivable has not been recorded. Information has been submitted to both the District Attorney's office as well as the Sheriff's office. The outcome of this external investigations is uncertain at this time.

(16) Interfund Transactions

A. Interfund receivables and payables, by fund, at June 30, 2010 are as follows:

	Receivables	Payables
Major funds:		
General Fund	\$ 1,547,338	\$ -
State and Local Special Revenue Funds	360,758	438,742
Capital Projects Funds	-	224,089
Total major funds	1,908,096	662,831
Nonmajor governmental funds	15,772	1,338,311
Internal service funds	77,274	-
Total	\$ 2,001,142	\$ 2,001,142

The amounts shown are primarily for reimbursements owed for expenditures paid by one fund on behalf of another fund. All balances should be repaid within one year.

B. Transfers consisted of the following at June 30, 2010:

	Transfers In	Transfers Out
Major funds:		
General Fund	\$12,486,748	\$ 1,229,287
State and Local Special Revenue Funds	1,145,760	12,018,204
Nonmajor governmental funds	81,817	466,834
Total	\$13,714,325	\$13,714,325

ST. MARTIN PARISH SCHOOL BOARD
St. Martinville, Louisiana

Notes to Basic Financial Statements (Continued)

Transfers are used to (a) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and to (b) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

(17) Post-Retirement Health Care and Life Insurance Benefits

From an accrual accounting perspective, the cost of postemployment healthcare benefits should be associated with the periods in which the cost occurs, rather than in the future year when it will be paid. The School Board recognizes the cost of postemployment healthcare in the year when employee services are received, reports the accumulated liability from prior years, and provides information useful in assessing potential demands on the School Board's future cash flows. Because the School Board adopted the requirements of GASB Statement No. 45 prospectively, recognition of the liability accumulated from prior years will be phased in over 30 years, commencing with the 2009 liability.

Plan Description: In accordance with the Employer Health and Welfare Benefit Plan established in November 1986, the School Board provides certain continuing health care and life insurance benefits for its retired employees. The plan is a single-employer defined benefit health care plan administered by the School Board. The School Board has the authority to establish and amend the benefit provisions of the plan. The plan does not issue a publicly available financial report.

Funding Policy: The monthly premiums of these benefits for retirees and similar benefits for active employees are paid jointly by the employee (approximately 36%) and the School Board (approximately 64%). The School Board recognizes the cost of providing these benefits (the School Board's portion of premiums) as an expenditure when the monthly premiums are due. The benefits are financed on a pay-as-you-go basis.

Annual OPEB Cost: The School Board's annual other postemployment benefit (OPEB) cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years. The School Board utilizes the level-dollar amortization method to amortize the unfunded actuarial accrued liability.

The following table shows the components of the School Board's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the district's net OPEB obligation:

ST. MARTIN PARISH SCHOOL BOARD
St. Martinville, Louisiana

Notes to Basic Financial Statements (Continued)

Annual required contribution	\$6,710,509
Interest on net OPEB obligation	1,487
Adjustment to annual required contribution	<u>(126,152)</u>
Annual OPEB cost (expense)	6,585,844
Contributions made	<u>(3,068,437)</u>
Increase in net OPEB obligation	3,517,407
Net OPEB obligation - beginning of year	<u>3,716,898</u>
Net OPEB obligation - end of year	<u>\$7,234,305</u>

The School Board's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2010 is as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
6/30/2008	N/A	N/A	N/A
6/30/2009	\$6,585,844	43.6%	\$ 3,716,898
6/30/2010	\$6,585,844	46.6%	\$ 3,517,407

Fiscal year 2009 was the year of implementation of GASB Statement No. 45 and the School Board has elected to implement prospectively. Therefore, all prior year comparative data is not available. In future years, three-year trend information will be presented.

Funded Status and Funding Progress: The funded status of the plan as of June 30, 2010, was as follows:

Actuarial accrued liability (AAL)	\$78,206,272
Actuarial valuation of plan assets	<u> -</u>
Unfunded actuarial accrued liability (UAAL)	<u>\$78,206,272</u>
Funded ratio (actuarial value of plan assets/AAL)	0%
Covered payroll (active plan members)	41,583,590
UAAL as a percentage of covered payroll	188.1%

ST. MARTIN PARISH SCHOOL BOARD
St. Martinville, Louisiana

Notes to Basic Financial Statements (Continued)

Actuarial valuations for an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Actuarially determined amounts are subject to continuous revision as actual results are compared to past expectations and new estimates about the future are formulated. Although the valuation results are based on values which the School Board's actuarial consultant believes are reasonable assumptions, the valuation results reflect a long-term perspective and, as such, are merely an estimate of what future costs may actually be. Deviations in any of several factors, such as future interest rates, medical cost inflation, Medicare coverage, and changes in marital status, could result in actual costs being less or greater than estimated.

The schedule of funding progress presented as required supplementary information following the notes to the financial statements, will present multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits. Because 2009 was the year of implementation of GASB Statement No. 45 and the School Board elected to apply the statement prospectively, only two years are presented in the schedule at this time. In future years, required trend data will be presented.

Actuarial Methods and Assumptions: Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2008 actuarial valuation the unit credit actuarial cost method was used. The significant actuarial assumptions used in the valuation of the plan are as follows:

1. Investment return of 4.0% per annum, compounded annually.

3. 60% of employees who elect coverage while in active employment and who are eligible for retiree benefits are assumed to elect continued medical coverage in retirement.
4. 75% of members electing coverage are assumed to also elect coverage for a spouse.
5. The inflation rate is 2.5%.
6. The initial trend rate used in the calculations was 8.9% (pre-medicare) and 7.4% (post-medicare). The ultimate trend rate is 4.5% (pre and post-medicare). The time period between the initial rate and the ultimate rate is 68 years.

(18) Subsequent Events

On April 14, 2009, the School Board authorized General Obligation School Bonds in the amount of \$30,000,000. The purpose of the bonds is to acquire and/or improve lands for building sites and playgrounds, if necessary, including construction of necessary sidewalks and streets adjacent thereto; purchasing, erecting, and/or improving school buildings and other school related facilities within and for the School Board and acquiring the necessary equipment and furnishings therefore, title to which shall be public. The first two emissions of \$10,000,000 each in general obligation bonds have been issued as of June 30, 2010; the third emission of \$10,000,000 has not yet been issued at June 30, 2010.

Subsequent events have been evaluated through December 14, 2010, the date of the financial statement issuance.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Mr. Richard Lavergne, Superintendent
and Members of the St. Martin Parish
School Board
St. Martinville, Louisiana

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the St. Martin Parish School Board, as of and for the year ended June 30, 2010, which collectively comprise the St. Martin Parish School Board's basic financial statements and have issued our report thereon dated December 14, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the St. Martin Parish School Board's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the St. Martin Parish School Board's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the St. Martin Parish School Board's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the St. Martin Parish School Board's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, others within the entity, Board Members, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. Although the intended use of this report may be limited, under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Mr. Richard Lavergne, Superintendent
and Members of the St. Martin Parish
School Board
St. Martinville, Louisiana

Compliance

We have audited the compliance of the St. Martin Parish School Board with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010. The St. Martin Parish School Board's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings, questioned costs, and management's corrective action plan. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the St. Martin Parish School Board's management. Our responsibility is to express an opinion on the St. Martin Parish School Board's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the St. Martin Parish School Board's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the St. Martin Parish School Board's compliance with those requirements.

In our opinion, the St. Martin Parish School Board complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

Management of the St. Martin Parish School Board is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the St. Martin Parish School Board's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the St. Martin Parish School Board's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, others within the entity, Board Members, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. Although the intended use of this report may be limited, under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

Mr. Richard Lavergne, Superintendent
and Members of the St. Martin Parish
School Board
St. Martinville, Louisiana

We have performed the procedures included in the *Louisiana Governmental Audit Guide* and enumerated below, which were agreed to by the management of the St. Martin Parish School Board and the Legislative Auditor, State of Louisiana, solely to assist users in evaluating management's assertions about the performance and statistical data accompanying the annual financial statements of the St. Martin Parish School Board and to determine whether the specified schedules are free of obvious errors and omissions as provided by the Board of Elementary and Secondary Education (BESE) Bulletin. This agreed-upon procedures engagement was performed in accordance with standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the specified users of the report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Our procedures and findings relate to the accompanying schedules of supplemental information and are as follows:

General Fund Instructional and Support Expenditures and Certain Local Revenue Sources (Schedule 1)

1. We selected a random sample of 25 transactions and reviewed supporting documentation to determine if the sampled expenditures/revenues are classified correctly and are reported in the proper amounts for each of the following amounts reported on the schedule:

- Total General Fund Instructional Expenditures
- Total General Fund Equipment Expenditures
- Total Local Taxation Revenue
- Total Local Earnings on Investment in Real Property

- Total State Revenue in Lieu of Taxes
- Nonpublic Textbook Revenue
- Nonpublic Transportation Revenue

There were no exceptions noted.

Education Levels of Public School Staff (Schedule 2)

2. We reconciled the total number of full-time classroom teachers per the schedule "Experience of Public Principals and Full-time Classroom Teachers" (Schedule 4) to the combined total number of full-time classroom teachers per this schedule and to school board supporting payroll records as of October 1st.

There were no exceptions noted.

3. We reconciled the combined total of principals and assistant principals per the schedule "Experience of Public Principals and Full-time Classroom Teachers" (Schedule 4) to the combined total of principals and assistant principals per this schedule.

There were no exceptions noted.

4. We obtained a list of full-time teachers, principals, and assistant principals by classification as of October 1st and as reported on the schedule. We traced a random sample of 25 teachers to the individual's personnel file and determined if the individual's education level was properly classified on the schedule.

There were no exceptions noted.

Number and Type of Public Schools (Schedule 3)

5. We obtained a list of schools by type as reported on the schedule. We compared the list to the schools and grade levels as reported on the Title 1 Grants to Local Educational Agencies (CFDA 84.010) application and/or the National School Lunch Program (CFDA 10.555) application.

There were no exceptions noted.

Experience of Public Principals, Assistant Principals, and Full-time Classroom Teachers (Schedule 4)

6. We obtained a list of full-time teachers, principals, and assistant principals by classification as of October 1 and as reported on the schedule and traced the same sample used in procedure 4 to the individual's personnel file and determined if the individual's experience was properly classified on the schedule.

There were no exceptions noted.

Public School Staff Data: Average Salaries (Schedule 5)

7. We obtained a list of all classroom teachers including their base salary, extra compensation, and ROTC or rehired retiree status as well as full-time equivalent as reported on the schedule and traced a random sample of 25 teachers to the individual's personnel file and determined if the individual's salary, extra compensation, and full-time equivalents were properly included on the schedule.

There were no exceptions noted.

8. We recalculated the average salaries and full-time equivalents reported in the schedule.

There were no exceptions noted.

Class Size Characteristics (Schedule 6)

9. We obtained a list of classes by school, school type, and class size as reported on the schedule and reconciled school type classifications to Schedule 3 data, as obtained in procedure 5. We then traced a random sample of 10 classes to the October 1st roll books for those classes and determined if the class was properly classified on the schedule.

There were no exceptions noted.

Louisiana Educational Assessment Program (LEAP) (Schedule 7)

10. We obtained test scores as provided by the testing authority and reconciled scores as reported by the testing authority to scores reported in the schedule by St. Martin Parish School Board.

There were no exceptions noted.

Graduation Exit Examination (GEE) (Schedule 8)

11. We obtained test scores as provided by the testing authority and reconciled scores as reported by the testing authority to scores reported in the schedule by St. Martin Parish School Board.

There were no exceptions noted.

iLEAP Tests (Schedule 9)

12. We obtained test scores as provided by the testing authority and reconciled scores as reported by the testing authority to scores reported in the schedule by St. Martin Parish School Board.

There were no exceptions noted.

We were not engaged to, and did not, perform an examination, the objective of which would be the expression of an opinion on management's assertions. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the use of management of St. Martin Parish School Board, the Louisiana Department of Education, the Louisiana Legislature, and the Legislative Auditor, State of Louisiana, and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.
