November 1, 2012

President and Members of the East Baton Rouge Parish School Board

Dear Board Members:

The Comprehensive Annual Financial Report of the East Baton Rouge Parish School System for the fiscal year ended June 30, 2012, is presented herewith. This financial report represents a comprehensive portrait of the School System's financial condition. It is structured in such a manner as to make it a very useful management instrument as well as an informative public document.

The Comprehensive Annual Financial Report, along with internal audit activities and other budgetary reports, combine to provide for an effective internal fiscal management control system. This combination of accounting and financial reporting serves the purpose of satisfying our responsibility to provide the public with complete and accurate financial data.

The fiscal year 2011 Comprehensive Annual Financial Report received the Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association and the Certificate of Excellence in Financial Reporting from the Association of School Business Officials. This was the twenty-sixth consecutive year that the School Board received both of these prestigious awards.

The staff members of the Operations and Budget Management, Finance, and Graphic Arts Departments are to be commended for the attainment of such high standards for their financial reporting and their efforts in the preparation of this report on a timely basis. In addition, Postlethwaite & Netterville, our independent auditors, are to be commended for the professional, thorough, and timely manner in which the audit was conducted.

Respectfully submitted,

Dr. Bernard Taylor Jr. Superintendent of Schools

#### East Baton Rouge Parish School System

Finance Separtment 1050 South Foster Drive, Baton Rouge, Louisiana 70806 Phone (225) 922-5440, Fax (225) 923-3406

November 1, 2012

President and Members of the East Baton Rouge Parish School Board and Residents of East Baton Rouge Parish:

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of the East Baton Rouge Parish School System (School System), for the fiscal year ended June 30, 2012. This report provides full disclosure of the financial operations of the School System for the fiscal year ended June 30, 2012. This CAFR, which has been audited by Postlethwaite & Netterville, APAC, a firm of licensed certified public accountants, conforms to Generally Accepted Accounting Principles (GAAP) as applicable to governmental entities. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the School Board and management of the School Board. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of various funds and account groups of the School System. All disclosures necessary to enable the reader to gain an understanding of the School System's financial activities have been included.

#### The Reporting Model

The School Board and management adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments for the fiscal year ended June 30, 2001. This reporting model is designed to make the annual financial report easier for the public to understand and improve operational accountability with the introduction of district-wide financial statements compared to the previous reporting model which was based on fund and fund types. GASB No. 34 creates new basic financial statements as well as required supplementary information (RSI) for reporting on the School System's financial activities as follows:

#### Basic Financial Statements

Government-wide financial statements consist of a statement of net assets and a statement of activities. These statements are prepared on an accrual basis of accounting for all activities of the School System, which is similar to the basis of accounting and financial reporting followed by the private sector. The government-wide statements distinguish between the governmental and business-type activities of the School System. Fund financial statements present information for individual major governmental and enterprise funds rather than by fund type. Non-major funds are presented in total in one column. Notes to the financial statements provide additional information that is essential to a user's understanding of the basic financial statements. Notes contain information that are not a part of the financial statements; however, notes are an integral part of the statements.

#### Required Supplementary Information

Required Supplementary Information (RSI) consists of statements that present comparisons of actual information to the legally adopted budget. Management's Discussion and Analysis (MD&A) is also a part of the RSI and is intended to provide an objective, easy to understand narrative overview and analysis of the basic financial statements. It explains the financial position and results of operations of the School System for the past fiscal year. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A is located immediately following the report of the independent auditors. Copies of this CAFR will be made available to the Chamber of Commerce, major taxpayers, the public library, and other interested parties.

#### Reporting Entity

This report includes all funds of the School System. The School System is a political subdivision of the State of Louisiana created under the Constitution of Louisiana. As such, it has the power to sue and be sued. The School System has the power to make rules and regulations for its own government consistent with the laws of the State of Louisiana and the regulations of the State Board of Elementary and Secondary Education (BESE). It is the responsibility of the School Board to make public education available to the residents of East Baton Rouge Parish.

The elected Board is chosen from eleven single-member districts with each member serving a concurrent four-year term. The School Board is authorized to formulate policy, to establish public schools as it deems necessary, to provide adequate school facilities for the children of East Baton Rouge Parish, to determine the number of teachers to be employed and to determine their salaries. Additionally, the School Board selects the Superintendent of Schools to serve as the School System's Chief Executive Officer.

The public is invited to attend regular meetings of the School Board which are held the third Thursday of each month at 5:00 p.m. in the Board Room of the School System's Central Office, located at 1050 South Foster Drive. Meetings are also televised live on Cox Cable Channel 21 and replayed at various times during the following weeks.

The School System provides a full range of public education services at all grade levels ranging from prekindergarten through grade twelve to approximately 41,233 students and employs approximately 6,000 persons. Total enrollment includes students participating in pre-kindergarten programs, regular and enriched academic education, alternative education, exceptional student services education for the handicapped to age twenty-two, career and technical education and seven Charter Schools (three elementary, one middle, three high). Services provided to students include instructional staff, instructional materials, instructional facilities, administrative support, business services, food services, system operations, facility maintenance, student health services and bus transportation. In addition, the School System serves approximately 4,000 adult education students annually.

The Vision and Mission of the School System are as follows:

- All East Baton Rouge Parish School System students will graduate with the knowledge, skills, and values
  necessary to become active and successful members of a dynamic learning community.
- The East Baton Rouge Parish School System, in partnership with our community, educates all students to their maximum potential in a caring, rigorous and safe environment.

#### **ECONOMIC CONDITION AND OUTLOOK**

The School System is located in Baton Rouge, Louisiana, in the southeastern section of the State, along the Mississippi River. In addition to being the largest city in the State post-Hurricane Katrina, Baton Rouge is also the capital of Louisiana and the principal home of two major state universities: Southern University (SU) and Louisiana State University (LSU).

Baton Rouge is the home of one of the largest oil refining and petrochemical centers in the nation and is the hub of the industrial region that stretches eighty miles to New Orleans. Located 230 river miles (434 kilometers) above the mouth of the Mississippi River, with a 45-foot channel, Baton Rouge is the furthest inland deepwater port on the Gulf of Mexico via the Mississippi River. The expanding Port of Greater Baton Rouge ranks tenth among the major ports of the nation. The Port of Greater Baton Rouge is a strategic gateway for the handling of international and domestic commerce. The Greater Baton Rouge area is designated as a U.S. Customs Port of Entry.

Baton Rouge is the home for several high-technology research facilities such as Louisiana State University's C. B. Pennington Biomedical Research Center and its Center for Advanced Microstructure and Devices. Opened in 1988, the Pennington Center now houses 50 laboratories that span the Center's three programs — Basic Research, Clinical Research, and Population Science (nineteen Core Service laboratories). The center also includes inpatient and outpatient clinics, a research kitchen, an administrative area, and more than \$20 million in technologically advanced equipment. More than 200 scientists and over 350 research associates, research technicians, and support personnel focus their research efforts on ten research program areas: Epidemiology and Prevention, Physical Activity and Health, Cancer, Diabetes, Obesity, Neurodegeneration, Genomics and Molecular Genetics, Stem Cell and Developmental Biology, Neurobiology, and Nutrient Sensing and Signaling.

The Baton Rouge Community College (BRCC), a two-year institution of higher education, opened in the Fall of 1998 and is one of America's fastest-growing campuses. When classes began at BRCC in 1998, enrollment was just under 1,900 students, current enrollment is more than 7,000 students. The community college system builds a system of higher education that is more affordable for young people and provides opportunities for training and certification in a number of skills. BRCC is jointly under the control, supervision, and management of the Board of Supervisors of Southern University and Louisiana State University.

Actual sales tax collections through June 2012 were finalized and received from the City Parish in August 2012. Actual collections increased by 6.7% for the fiscal year ended June 30, 2012. Sales tax collections represent a major component or 33.5% of general operating revenue for the School System. In 2011, the East Baton Rouge Assessor has placed a value of \$132.9 million on all taxable property located within the School System's boundaries, up from \$130.5 million the previous year. Ad valorem tax collections represent a major component or 28.5% of general operating revenue for the School System. The effect of the national economic downturn has impacted the local economy by a reduction in available jobs. The unemployment rate (not seasonally adjusted) for the Baton Rouge area for June 2012 was 8.6% compared to 8.4% for June 2011.

The Minimum Foundation Program (MFP) provides funding from the State of Louisiana based on per-pupil allocations and additional funding for weighted areas including career and technical, at-risk, or special education. The base per-pupil allocation for 2011-2012 was \$3,855, the same as the prior year. State budget woes provided for the elimination of the standard 2.75% increase in the base per-pupil amount that has been customary for a number of years. Previously, as a result of modifications to the MFP formula eleven School Districts were classified as "hold harmless", which was later replaced with an "over funded" status. The State Department of Education has implemented a phase out of the "overfunded" balance for each School District. The School System's "overfunded" balance of \$12.0 million is currently being eliminated over ten (10) years at \$1.2 million per year by reducing MFP funding, which commenced 2007-2008.

A \$113.2 million economic impact was generated in the Baton Rouge area by the 151-day U.S. Bowling Congress' 2012 Open Championship Tournament that concluded July 2012. Of that amount, Baton Rouge-based SCI Research concluded that the 70,200 bowlers and their guests were responsible for \$64.7 million in direct spending during the tournament. The SCI study was commissioned by Visit Baton Rouge, the city's convention and visitors bureau. In all, 58,704 USBC bowlers and 11,496 guests from around the country visited Baton Rouge for the national bowling tournament, which began February 11 and ended July 10. SCI Research's breakdown of the economic impact of the tournament included \$27.4 million to the food service industry; \$35.6 million to the hotel/motel industry; \$15.9 million to the retail industry; \$14.9 million to the transportation industry; \$12.1 million to the entertainment industry; and \$6.7 million to the gambling industry. In all, SCI estimates that the 2012 USBC Tournament generated \$3.49 million in sales taxes, including \$1.15 million in Baton Rouge general sales and use taxes.

Louisiana's not seasonally adjusted nonfarm employment gained 48,300 from June 2011 to June 2012 as reported by the Louisiana Workforce Commission (LWC). Over the year, good-producing industries gained 7,400 jobs while the service-providing sector gained 40,900. The six metro areas job activity from June 2011 to June 2012 are as follows: 1) New Orleans up 1,500; 2) Alexandria down 1,100; 3) Lake Charles unchanged; 4) Shreveport up 1,200; 5) Houma up 4,500; 6) Lafayette up 15,300; 7) Baton Rouge up 3,800; and 8) Monroe down 700. The June 2012 preliminary adjusted unemployment rate for Louisiana was 7.5%, an increase from the May revised rate of 7.2%. The national unemployment rate for June was 8.2%.

Student enrollment had declined by approximately 20,078 since 1994; however, approximately 8,508 of this decrease is attributable to the Baker, Zachary, and Central separations and 3,010 is attributable to the eight (8) District schools transferred to the jurisdiction of the state's Recovery School District. This decline in student enrollment has resulted in State funding to the School System being reduced by millions of dollars. The February 1, 2012 enrollment approved for the purpose of funding by the State was 41,009 students, which was 273 students more than the 2010-2011 State enrollment count.

The 2012-2013 General Fund Budget has approximately \$28.4 million in budget reductions. These reductions were necessary as a result of a combination of declining revenues and increased expenditures. Sales tax collections and State funding have declined, while the School System projects expenditure increases in retirement, healthcare, facility needs, and additional instructional programs.

#### **MAJOR INITIATIVES**

<u>Current Year</u> - During the 2011-2012 year, the School System continued its efforts to improve student performance and community support through various programs.

#### Strategic Plan

The East Baton Rouge Parish School Board approved its first ever Strategic/Accountability Plan on June 5, 2005, with input from external and internal stakeholders. This plan consisted of three objectives, which have been supported by research-based strategies. As a three-year plan, it expired June 30, 2008. Prepared for that expiration, the Superintendent secured the approval of the Board for a revised Strategic Plan in January 2008. The revision consists of five objectives, all based on the Baldrige criteria, and is a five-year plan. School System personnel will continue to report progress on a regular basis to the Board and to the Guiding Coalition, a group of business and community leaders selected by the Board and the Superintendent to serve as Ambassadors for the School System. The Strategic Plan is as follows:

#### Goal:

To become an exemplary pre-kindergarten through 12<sup>th</sup> grade school system, with rigorous teaching and learning, where ALL students and adults meet high expectations.

#### 5 Steps to Stars:

Goal 1: Increase student achievement.

Goal 2: Promote a safe and caring environment.

Goal 3: Expand student and stakeholder engagement.

Goal 4: Promote effective and efficient internal processes.

Goal 5: Maximize employee learning and growth.

#### Tax Plan - Phase I

All projects in the first five year phase of the 1998 One-Cent Sales Tax Plan were completed in the 2004-2005 fiscal year at a total cost of \$168.5 million. All projects were completed on time and within budget constraints with this pay-as-you-go plan.

#### Tax Plan - Phase II

In May 2003, the community continued to support the School System by voting to continue the five year one-cent sales tax. The continuation was again in the form of three propositions, mirroring the form it took in 1998 with collections to begin April 1, 2004 and continue through 2010. Proposition 1 calls for the construction of six new schools (4 new, 2 rebuilt), major renovations at another four (3 high schools, 1 middle) and much needed repairs at another forty (7 high schools, 9 middle schools, 24 elementary schools). Both the new and renovated schools have provided appropriate educational spaces that are more conducive to teaching and learning, provided adequate special program and laboratory facilities; improved safety and security, and increased technology implementation and accessibility.

#### Tax Plan - Phase III

In March 2008, the community continued to support the School System by voting to continue the one-cent sales tax for an additional ten (10) years. The continuation was again in the form of three propositions, mirroring the form it took in 1998 with collections to begin April 1, 2009 and continue through 2019. Proposition 1 calls for the construction of eight (8) new schools (3 new, 5 rebuilt), major renovations and additions at one (1) high school, two (2) middle schools, ten (10) elementary schools, and much needed repairs at another forty-five (45) schools. Both the new and renovated schools will provide appropriate educational spaces that are more conducive to teaching and learning, provide adequate special program and laboratory facilities; improve safety and security, and increase technology implementation and accessibility.

Propositions 2 and 3 have continued to fund the continuation of discipline programs and employee compensation at current levels for each Tax Plan phase. A community Oversight Committee continues to ensure that the money approved by the voters is spent appropriately.

#### Facilities Update 2011-2012 School Year

Baton Rouge Magnet High School - Many East Baton Rouge Parish School System sites are getting improvements and facelifts this year. The biggest project is the renovation of Baton Rouge Magnet High School on Government Street. Built in 1926, the historic four-story main building will remain standing but updated. The \$45.9-million expansion and renovation construction project was complete in August 2012.

Claiborne Elementary School Rebuild - The new school is a two-story facility, which is located on the former 8-acre Claiborne Elementary site, 4700 Denham Street. The new school re-opened August 2011 and has a capacity for 825 students. The cost for the new school was approximately \$17.3 million.

#### Teach Baton Rouge

Teach Baton Rouge, the School System's alternative certification program, is in its eleventh year of operation. The program aims to attract high-quality professionals to a career of teaching. Selection for the program is highly competitive. In the first year, only one out of ten applicants was selected. For the 2011-2012 school year over three hundred people applied to the program, and fifteen began teaching. All participants are highly qualified using current No Child Left Behind (NCLB) definitions before participants enter the classrooms as teachers. The program has been responsible for bringing over 361 new teachers into the School System's classrooms. Program members teach in critical shortage areas such as special education, early childhood, math, science, and middle school. All program members participate in a certification program that leads to full certification within eighteen months.

Teach Baton Rouge helps to build a more diverse teaching force. The recruiting efforts target males, African-Americans, and persons with math/science backgrounds. Teach Baton Rouge members enjoy success in the classroom. Several Teach Baton Rouge teachers have been selected as Teacher of the Year for their schools, and the district High School Teacher of the Year is a former Teach Baton Rouge Teacher. We also have several Teach Baton Rouge teachers that have earned the recognition of National Board Certification. Teach Baton Rouge teachers work in our hardest to staff schools. Here they are paired with their colleagues from Teach for America, the national teacher corps that has placed over 360 teachers in East Baton Rouge Parish schools since 1990.

#### Test Scores and Awards

In the 2011-2012 school year, East Baton Rouge Parish School System continued to show academic improvement on the Louisiana Department of Education's LEAP testing program. The fourth grade promotion rate on the High Stakes LEAP has increased to 75%. The District has narrowed the gap with the State from a 14 point to a 7 point gap. The District's elementary students showed the largest gains with standout math and science scores. The promotion rate for the eighth grade high stakes LEAP test jumped five points to 69% - again outpacing the State's growth in this area. The East Baton Rouge Parish School System ranked in the top 10 districts based on growth in its students' proficiency rate. Middle and High schools have continued to decrease the dropout rate with a complimentary increase in its graduation rate. Another sign of the positive trend for the District is the increase in ACT scores to a composite score of 19.4. As defined by the ACT, the District subgroups including African American, Asian, Hispanic, and White scored higher than the State average for each of these groups. East Baton Rouge Parish School System teachers received their first value-added scores based on student achievement and growth on State tests; teachers outscored their peers in the State with over 96.5% in the effective categories with the overall State at 91.8%.

#### Recognitions for the District's schools included:

- McKinley High School won the Louisiana Department of Education's award for making the High
   Priority School Honor Roll ranking in the top 10 schools Statewide for growth in its graduation rate.
- Two EBR principals, Shelly Colvin of Woodlawn Middle and Nanette McCann of Baton Rouge High School, won Regional Principals of the Year with Ms. McCann also being honored for State high School Principal of the Year.
- Sabrina Jenkins from Highland Elementary was a Regional Teacher of the Year.
- Pamela Dunbar received the 2012 National Elementary Assistant Principal of the Year from the National Association of Elementary School Professionals.
- Myra Varmall of Forest Heights Academy of Excellence was named Magnet Schools of America's Magnet School Principal of the Year for Region VI. Forest Heights was also honored as one of four schools nationally to receive the Kennedy Center Arts Education Award.
- Debbie Reynolds of Westdale Heights Elementary School was honored by this association as the Region VI Magnet Teacher of the Year Award.
- Six EBR Magnet Schools were recognized by the Magnet Schools of America for their performance and school environment.
- Samhita Rao of Glasgow Middle School was Louisiana's 2012 Middle School State Student of the Year. She was also identified by the Duke Talent Identification Program. Anusha Zaman of Buchanan Elementary and William Cassidy of McKinley High were the EBR Students of the Year in their divisions.
- Two McKinley High students, John Hoover and Moheb Alashmaly, won the 2012 Louisiana
   Ford/AAA Student Auto Skills Challenge. A donation of \$20,000 in scholarships funds was awarded to each student by the Ford Motor Company.
- Three seniors won the 2012 National Merit Scholarships. Kalle Liimatta and Alyssa Moore both from Baton Rouge High School and William Cassidy of McKinley High School were chosen from 1,500 finalists across the country.
- Westdale Middle School was the Academic Excellence in Spanish School of the Year for its outstanding integrated immersion program.
- Fifteen EBR teachers received their National Board Certification for Professional Teaching Standards.
- The Dufrocq School was the first Louisiana school to receive the Hogan Lovells New & Emerging School Merit Award of Excellence by the Magnet Schools of America.

#### Educational Programs/Awards

The National Board for Professional Teaching Standards announced that an additional nineteen East Baton Rouge Parish School System teachers have successfully completed the rigorous application for National Board Certification and are now recognized as among the nation's top educators. This is the highest credential in the teaching profession. East Rouge Parish tops the State list for National Board Certification with 147 teachers holding this credential for 2011-2012.

Magnet programs are specialized, often accelerated programs which offer students an opportunity to explore an enhanced curriculum such as visual and performing arts, Montessori, Foreign Language Immersion, engineering, medical and academic models with a strong focus on science, technology and math. The Gifted Program is an educational program for students identified as gifted in grades PreK-12. Gifted classes provide a high degree of complexity and extend beyond the prescribed curriculum offered in regular classes. Classes are taught by teachers certified in Gifted Education and have a reduced class size in order to individualize each student's educational program.

The Junior Reserve Officers' Training Corp (JROTC) is currently offered in nine high schools. The focus of Army JROTC is reflected in the mission, "To motivate young people to be better citizens". JROTC accomplishes the mission by providing exceptional educational opportunities and lifelong skills to America's youth. The Character Education Partnership identifies programs that build character as those with less violence, higher self esteem, less absenteeism, higher achievement scores and academic performance, more connected to school, engaged in lessons, and committed to success. The curriculum helps cadets develop life-long leadership and decision making skills. These skills are exhibited on a daily basis and set a model for the student body to emulate. The curriculum supports the school's mission and mandates by integrating technology, linking content to state standards, integrating reading and writing, providing character and financial education. The benefits of this curriculum are not limited to JROTC cadets. In a evaluation that led to accreditation by the Southern Association of Colleges and Schools (SACS), the quality assurance review team noted, "JROTC serves to reinforce the competencies taught in the other academic subjects in which students are enrolled".

The School System's enrollment in Career and Technical Education (formerly vocational education) includes 7,813 high school students and 2,113 middle school students. A variety of innovative programs prepare students for productive citizenship and life-long learning and are designed to assist all students in making a successful transition from school to the workplace or post-secondary education. A portion of funding for Career and Technical programs is obtained through the Carl Perkins IV Applied Technology Act of 2006. The Basic Grant and Tech Prep initiatives resulted in funding of approximately \$701,599 for fiscal year 2011-2012. The goals of this department are accomplished by providing students with assistance in career development activities, selection of an Area of Concentration of courses with the development of a graduation plan, purposeful course selection that develops both academic and technical skills, development of employability skills, and providing opportunities for students to obtain a Diploma Endorsement for Career and Technical Education.

The School System continues to expand opportunities in pre-school programs. Pre-K students are provided transportation to a number of sites for six hours of instruction daily along with before and after school care. EBRPSS quality pre-school environments provide small pupil-teacher ratios, certified teachers and a curriculum based on the National Association for the Education of Young Children standards of developmentally appropriate practices.

A range of services are offered based on mentally and/or physically disabled children. Exceptional students can be placed in the following settings: the regular education classroom with extra support available, resource classrooms, or the self-contained and community-based classes. Alternative programs are also offered to help meet the needs of non-traditional learners such as: Mohican Preparatory Academy for expelled elementary school students and Staring Education Center for over-aged middle school students and special programs for over-aged students at all middle schools except Woodlawn Middle, Scotlandville Pre-engineering Academy, McKinley Middle Magnet and Sherwood Middle Magnet.

For high school aged, non-traditional students, the School System offers Arlington Preparatory Academy, Northdale Academy and Valley Park Alternative schools; however, Valley Park accepts both middle and high school aged students. Juvenile Continuing Education Programs for middle and high school students expelled from the traditional schools, Options Pre-GED and Adult Education programs are also available. Additionally, the Connections Program has been added at the high school level to work with credit-deficient middle school students who have failed eighth grade twice and failed the LEAP test.

High schools in the School System are providing students with curriculum opportunities to pursue: 1) college degrees at the nation's colleges and universities; 2) college degrees after attending community colleges; 3) associate degrees at community and technical colleges; 4) employment opportunities; and 5) careers in the United States Military. At several of the high schools with an academically unacceptable status, ninth-grade academies have been introduced to target the academic and social needs of that age and grade, with special assistance provided to reduce the dropout, attendance, and discipline issues facing them.

During the 2011-2012 school year, many high school students participated in dual enrollment courses in partnership with Baton Rouge Community College, Southern University, and Louisiana Technical College. Additionally, students took honors courses, advanced placement courses, and courses which were articulated with various colleges and universities. The School System works with many educational institutions to offer its students rigorous and varied educational opportunities, allowing students the opportunity to earn industry-based certifications and other post-secondary credits.

#### Volunteers in Public Schools

Volunteers In Public Schools (VIPS) works to foster student success and build support for public education. At the conclusion of the 2011-2012 school year, the public contributed 166,447 volunteer hours in the School System. The Independent Sector in Washington D.C. estimates the hourly rate for volunteer time at \$21.79, resulting in a little over \$3 million invested in local public schools. VIPS matched 785 students who were identified by their teachers as reading below grade level with Reading Friend volunteers to improve reading skills. In an effort to strengthen basic math skills, 176 EveryOne Counts Math Friends worked one-on-one with 217 students. VIPS' Voyage program continues to help keep at-risk students in school by providing dedicated mentors from middle school through high school. Of the 22 Voyage students who began the program in the seventh grade, 18 graduated from high school this past school year. Additionally, schools reported having benefited from the support of 392 community partners.

#### Child Nutrition Program

One goal of the School System's Child Nutrition Program is to serve nutritious, appetizing, wholesome, affordable meals to students and staff. The administration believes that good nutrition is a key to learning and that every child has the right to a nutritious breakfast and lunch at the lowest possible price.

The Food Service Department provides approximately 55,000 meals daily, including breakfast, lunch and snacks. Through the U.S. Department of Agriculture (USDA) Provision 2 Breakfast Grant, the Child Nutrition Program offers breakfast at no charge to students. For the 2012-2013 school year, student lunch prices are as follows: \$2.25 (elementary) and \$2.50 (middle or high). Extended Day Snacks are provided free of charge to students.

Twelve of the Child Nutrition Program administrative and office staff have a BS degree or an advanced degree with specific training in the field of Dietetics and Nutrition. Fourteen of the CNP school managers have a four year degree from an accredited university. School meals are planned to comply with the District Wellness Policy and all federal and state regulations for nutritious meals. The USDA through the Louisiana Department of Education, Division of Nutrition Support, provides regulatory guidance and monitoring of the School System's Child Nutrition Program.

#### Transportation Department

During the 2011-2012 school year, the School System transported 39,197 students for a total of 4.4 million miles. With a total of 602 buses, the Transportation Department travels about 24,398 miles daily. Free bus service is provided to all eligible students living more than one mile from their schools.

#### Charter School Demonstration Programs

During the 1995 Louisiana Legislative Session, the Legislature passed Senate Bill 1305 (Act 192 of 1995) which established a Charter School Demonstration (pilot) program and gave parents, teachers, and citizens an opportunity to create independent public schools.

The School Board received the Board of Elementary and Secondary Education's (BESE) approval to be one of the eight demonstration School Systems and began operation of three charter schools in the fall of 1997. The School Board approved two elementary charter schools and one middle charter school. The three charter schools began operation in the fall of 1997, each with approximately 54 students. Enrollment has more than tripled in each school since opening. Student enrollment increases have been approved by the School Board allowing for enrollment (with funding) in grades K-5 at the elementary schools of up to 220 and 260 students at each of the schools. The School Board previously approved an annual increase of 20 students for both of the elementary schools through fiscal year 2011-2012. The middle school's enrollment is 170 students.

The School Board approved three (3) new charter schools for the 2010-2011 school year. The three (3) new charter schools are as follows: 1) The Inspire Charter Academy (first year enrollment 355); 2) The Mentorship Academy of Science and Technology (first year enrollment 125); and 3) The Mentorship Academy of Digital Arts (first year enrollment 125). The School Board approved one (1) new charter for 2011-2012, which is the Career Academy (first year enrollment 200). Additionally, the School Board approved one (1) new charter for 2012-2013, which is the Thrive Baton Rouge (first year enrollment 20). All of the recently approved charter schools have planned increases for student enrollment. The total General Fund appropriation to the charter schools for the 2011-2012 fiscal year was \$16.1 million.

#### Facilities Management Partnership Contract

Approximately eleven years ago, following extensive investigation and research, the School System developed a partnership arrangement with ServiceMaster to provide management services for some aspects of physical plant services, facilities, maintenance, and grounds. Subsequently, ServiceMaster was acquired by ARAMARK. The contract was amended slightly and the School System continued a similar partnership with ARAMARK. On March 1, 2004, the School Board negotiated a five-year partnership arrangement with ARAMARK, with a five-year renewal option approved on March 1, 2009 to provide total Facilities Management Services. The contract was extended again on October 20, 2011 for an additional two years through February 29, 2016. The contract provides services in the following areas: maintenance, custodial, grounds, materials management/warehousing, and workforce management. The contract made a number of staffing, procedural, and work flow adjustments. Changes were also made to delivery and procurement systems aimed at improving service to the School System, all the while capitalizing on efficiencies gained through the application of ARAMARK'S world-wide services and experience. The School System will gain reduced operational costs, predictable labor costs, rapid staffing adjustments, and renewed focus on core business functions. Additionally, in 2007 the Board approved ARAMARK to provide management services for the implementation of an energy program aimed at reducing energy costs.

#### Separation of the Cities of Baker, Zachary, and Central Community School Systems

Effective with the 2003-2004 school year, the School System began the year much smaller than it had in decades. The cities of Baker and Zachary began the school year as their own school districts, running nine (9) schools with about 5,380 students that were previously a part of the School System. The separation of Baker and Zachary required years of effort and litigation, and resulted in a need for expenditure reductions in the School System as a result of the adverse financial impact of approximately \$10.7 million associated with the separation. Enrollment of approximately 51,000 students for the 2002-2003 school year reduced to about 45,000 students for the 2003-2004 school year. The parish payroll was reduced from about 7,115 employees to about 6,000 employees.

The 2006 legislative session contained legislation to allow the creation of a Central Community School System by way of a constitutional amendment, which was approved by voters in a November 2006 statewide election. The city of Central began the 2007 school year with four (4) schools and approximately 2,652 students that were previously a part of the School System. The estimated adverse financial impact associated with this separation was approximately \$5.0 million to the School System.

Additionally, the School System continues to incur significant long-term retiree health care costs associated with the exit of the Baker and Zachary School Systems because legacy costs were not allocated to the newly formed districts. The creation of the Central Community School System has further exacerbated this dilemma by this new district not assuming its portion of legacy costs as well as disproportionately increasing the number of retired health plan participants relative to the School System's total group health plan participants. The impact of long-term retiree health care costs associated with the separation and subsequent creation of a school district will have a significant and long-term financial impact on the School System.

#### Core Knowledge Acceleration Program (CKAP)

The Core Knowledge Acceleration Program (CKAP) initially started with an 8 (G) grant awarded to the School System to assist struggling middle school students who are two or more years behind their peers. Students receive intense instruction in English, social studies, math and science from specially trained teachers. Students who meet certain rigorous criteria are promoted within the school year, pass the LEAP exam and move into a high school setting at the end of the year. A support team consisting of a principal, dean of students, social worker, truancy officer, career guidance counselor and specially selected and trained teachers in a 1 to 20 ratio assist students as they strive to pass the LEAP exam.

#### For the Future

#### Truancy Initiative

Through strong partnerships between the School System, the East Baton Rouge District Attorney's Office, the local Sheriff's Office and the Office of the Mayor-President, the School System is expanding the levels of care and concern for students and their families by taking specific steps in identifying and addressing truancy and all the familial issues that may cause it. The truancy initiative was created to address problems associated with truancy systematically and create preventive measures involving parents. If a student receives five or more unexcused absences, parents or guardians are considered in violation of the truancy statute. This action is not meant to punish the parent but assist them and the students. The premise is that if parents and guardians work with law enforcement and the School System on this matter as partners, then juvenile crime will decrease, learning will increase and students will have a better start in life and in their chosen careers.

The Truancy Assessment and Family Service Center will be a community-based, one-stop site for truant students and their family members. The center will provide assessable, blended and comprehensive services to meet their needs in a timely and effective manner. Its mission is to identify students who have exhibited truant tendencies, assess the causes and provide access to services for the identified students and their families. To meet this mission, the center will provide health, education and human services programs, as well as support for families in need and assist their progress toward self-sufficiency.

#### Strategic Plan

The School System began rewriting its current Strategic Plan April 4, 2011 when more than 230 participants took part in 20 different focus groups over a three-day period. These participants included community and business leaders, members of the faith-based community, parents, students, staff and School Board members. During the focus groups, participants were asked to share their thoughts about the strengths, weaknesses, opportunities and threats related to the School System. Information collected during those focus groups was used as a basis for the proposed new strategic plan.

The process of revising the current strategic plan allows both internal and external stakeholders the opportunity to help guide the District's educational philosophy. This process also set targets for student achievement and defines the School System's overall operational focus for the next three to five years. To help with this process, a coalition of more than 25 representatives from several segments of the Baton Rouge community will help the East Baton Rouge Parish School Board and District Staff craft a new strategic plan for the School System. The EBR – Committee for Educational Excellence is made up of business, community and political leaders, faith-based and non-profit organizations and School Board members. This group held its inaugural meeting on May 17, 2011.

#### Elementary Science Initiative

The purpose of the Elementary Science initiative is to improve student achievement in science for grades K-5, ultimately preparing the elementary student for success in middle and high school and beyond. By adequately equipping teachers with materials and appropriate professional development opportunities, science instruction will improve and student success will be realized. The National Academy of Science and the American Association for the Advancement of Science emphasize that science is best learned through hands-on inquiry. Teacher content knowledge, teacher confidence, lack of supplies and time restrictions are issues that have been voiced as limitations of effectively teaching science at the elementary level. By instituting the elementary science initiative, these obstacles will be addressed.

Research supports the assertion that science kits increase teacher confidence in teaching science. One of the major concerns regarding the teaching of science in elementary schools is low teacher confidence (Rice & Roychoudhury, 2003). Researchers have reported that many elementary teachers consider themselves to be uninformed concerning scientific content, making their development of choice of inquiry-based, hands-on science lessons an experience filled with apprehension (NRC, 2000). Content trainers will continue to instruct teachers on science content and model appropriate pedagogical strategies for teachers. The science kit vendors will provide professional development to elementary science teachers as well as train-the-trainer opportunities for the content trainers.

The challenge of making sweeping changes in the science pedagogy will take commitment from district leadership, school administrators, and teachers. By instituting the elementary science initiative, teachers will be afforded the opportunity to provide their students with the research-based pedagogy and the connection to relevant real-world experiences that enhance and support comprehension across the curriculum.

#### Internal Control

Management of the School System is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the School System are protected from loss, theft, or misuse. Management also ensures that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: 1) the costs of a control should not exceed the benefits likely to be derived; and 2) the valuation of costs and benefits requires estimates and judgments by management. The School System utilizes a fully automated accounting system as well as an automated system of control for fixed assets and payroll. It is believed that the School System's internal controls adequately safeguard assets and provide reasonable, proper recording of financial transactions.

#### Single Audit

As a recipient of Federal and State financial assistance, the School System is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to these programs. This internal control structure is subject to periodic evaluation by management and the internal audit staff of the School System. As a part of the School System's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to Federal financial assistance programs, and to determine that the School System has complied with applicable laws and regulations. The results of the School System's Single Audit, for the fiscal year ended June 30, 2012, provided no instances of material weaknesses in the internal control structure or significant violations of applicable laws and regulations.

#### **Budgeting Controls and Policy**

The School System maintains budgetary controls. The objective of this system control is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the School System's governing body. Activities of the General Fund and Special Revenue Funds are included in the annual appropriated budget. The level of budgetary control (the level at which expenditures cannot exceed the appropriated amount) is established at the individual fund level for all funds.

The School System also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Remaining encumbered amounts in the General Fund at yearend are re-appropriated as part of the next year's budget. The approved budget presents revenues by source and expenditures by function as defined by the Louisiana Board of Elementary and Secondary Education's Bulletin #1929. The Superintendent is authorized to transfer amounts between line items in accordance with budget policy established by the School System's governing body. However, budget amendments are required when total revenues drop 5% or more below expectations, total expenditures exceed budget estimates by 5% or more, and when beginning fund balance is less than 5% or more of its projected amount. Budget to actual comparisons are provided in this report for the General Fund and each Special Revenue Fund.

#### Capital Projects Funds

The Proposition 1 - Capital Projects Fund is funded by 51% of a one-cent sales tax in Proposition 1 for facilities and technology as approved by the voters in November 1998 as mentioned previously. The effective collection date for this proposition was July 1, 1999. The collection of this tax was for a five-year period and is for the purpose of funding repairs and renovations, enhancing technology, and constructing new schools and classrooms. On May 2, 2003, the voters approved the continuation of the Tax Plan for an additional five years, and on March 8, 2008 voters approved an additional continuation of the Tax Plan for ten years. Total sales tax revenues in Proposition 1 for the year ended June 30, 2012 amounted to \$37.7 million.

The Qualified School Construction Bond – Capital Projects Fund was established in 2009-2010. As a part of the American Recovery and Reinvestment Act (ARRA), school boards were authorized to issue Qualified School Construction Bonds (QSCB). A direct allocation was made to the School System for the authority to issue \$21.4 million in QSCB bonds, which were issued in December 2009. An additional direct allocation was made to the School System for the authority to issue \$21.7 million in QSCB bonds, which were issued in August 2010. The bonds may be used for the construction, rehabilitation or repair of public school facilities and equipping of school facilities to be constructed.

#### Financial Policies

The School Board adopted a Fund Balance policy for the General Fund in 2009-2010. A fund balance goal of 15% of total revenues was established. The primary reasons for this policy is to provide adequate resources for: 1) Cash Flow; 2) Unforeseen Events; 3) Financial Security; 4) Daily Operations; and 5) Compliance. For the years ended June 30, 2011 and June 30, 2012 the total General Fund balance was approximately \$72.6 million or 19.2% and \$60.9 million or 15.5% of total revenues, respectively.

The Management's Discussions and Analysis (MD&A) section beginning on page xxix provides an overall review of the School System's financial operations for the year and its financial position and should be read in conjunction with the accompanying financial data.

#### OTHER INFORMATION

#### **Independent Audit**

State statutes require an annual audit by independent certified public accountants. The public accounting firm of Postlethwaite & Netterville, APAC was selected by the School System several years ago to perform its annual financial audit. In addition to meeting the requirements set forth in State statutes; this audit was designed to comply with requirements of the Federal Single Audit Act Amendments of 1996 and related OMB Circular A-133. The auditors' reports on the basic financial statements are included in the financial section of this report. The auditors' reports related specifically to the single audit, internal control, and compliance with laws and regulations are included in a separate report and are available for review at the School System.

#### **AWARDS**

#### Government Finance Officers Association

The Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to the School System for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2011. This was the twenty-sixth consecutive year that the School System has received this prestigious award. In order to be awarded a Certificate of Achievement, the School System published an easily readable and efficiently organized CAFR. This report satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. Management believes that the 2011-2012 CAFR continues to meet the Certificate of Achievement program's requirements and will submit it to the GFOA for review in determining eligibility for another certificate.

#### Association of School Business Officials

The School System has received the Association of School Business Officials (ASBO) Certificate of Excellence in Financial Reporting for the fiscal year ended June 30, 2011. This was the twenty-sixth consecutive year that the School System has received this prestigious award. This award certifies that the CAFR, for the fiscal year ended June 30, 2011, substantially conforms to the principles and standards of financial reporting as recommended and adopted by the ASBO International. The award is granted only after an intensive technical review of financial reports by an expert panel of certified public accountants and practicing school business officials has been made. The Certificate of Excellence is the highest form of recognition in school financial reporting issued by the ASBO International.

A Certificate of Achievement is valid for a period of one year only. Management believes that the CAFR, for the fiscal year ended June 30, 2012, which will be submitted to ASBO for review, also conforms to its principles and standards.

#### **ACKNOWLEDGEMENTS**

It is desired that this report contains the necessary information and data that will provide a better understanding of the operations of the School System. It is further hoped that this report has been designed in such a manner as to be used as an administrative tool and general source of information to enhance the School System's accountability to the public.

The preparation of this report in a timely manner could not have been achieved without a dedicated and highly qualified staff. I would like to take this opportunity to express my sincere appreciation to the entire Budget Management and Finance Department staff, whose extraordinary efforts and dedication contributed significantly in the timely, accurate preparation of this report. The professional, thorough, and timely manner in which our independent auditors, Postlethwaite & Netterville, conducted the audit is also appreciated. The Graphic Arts Department is to be commended on its creative input in the design and timely reproduction of this document. Additionally, members of the School Board are to be thanked for their interest and support in planning and conducting the financial operations of the School System in a responsible and progressive manner.

Sincerely,

Chief Financial Officer

#### INDEPENDENT AUDITORS' REPORT

The East Baton Rouge Parish School System

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the East Baton Rouge Parish School System (School System) as of and for the year ended June 30, 2012, which collectively comprise the School System's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the School System's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the East Baton Rouge Parish School System as of June 30, 2012 and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated November 15, 2012 on our consideration of the East Baton Rouge Parish School System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grants, agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and the schedule of funding progress for other post-employment benefit plans on pages xxx through xlvi and pages 39 through 46, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the East Baton Rouge Parish School System's basic financial statements. The accompanying supplementary information consisting of the introductory section, budgetary comparison schedules, combining and individual non-major fund financial statements, capital assets schedules and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual non-major fund financial statements, budgetary comparison schedules and capital asset schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

The statement of net assets as of June 30, 2011 is shown on page 1 for comparative purposes. This statement was included as part of the School System's June 30, 2011 basic financial statements which were audited by us and upon which we issued our unqualified opinion in our report dated November 3, 2011.

## East Baton Rouge Parish School System Baton Rouge, Louisiana

# MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2012

The Management's Discussion and Analysis (MD&A) of the East Baton Rouge Parish School System's (School System) financial performance provides an overall review, objective and easily readable analysis of the School System's financial activities for the fiscal year-ended June 30, 2012. The intent of the MD&A is to look at the School System's overall financial performance as a whole and to assist readers in assessing the financial position as a result of the year's operations in comparison to the prior year. Therefore, readers should read the MD&A in conjunction with the Comprehensive Annual Financial Report's (CAFR) Letters of Transmittal (Page viii) of the Introductory Section, the School System's Financial Statements (Financial Section, Page 1), and the Notes to the Basic Financial Statements.

#### FINANCIAL HIGHLIGHTS

- Total assets of the School System exceeded total liabilities at June 30, 2012 by \$211.6 million (net assets).
   The unrestricted portion of net assets was \$(232.8) million.
- Total net assets decreased by \$72.2 million for the year mainly due to Government Accounting Standards Board (GASB) Statement No. 45, "Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions", which established accounting standards for Postretirement Benefits Other Than Pensions (OPEB). The standards require accrual based accounting for the OPEB obligation rather than the pay-as-you-go method, which resulted in an end of year net OPEB obligation of \$309.1 million. The aforementioned decreases were offset by increases to net assets by new school construction funded by dedicated revenue and the issuance of Qualified School Construction Bonds (QSCB). Net assets invested in capital assets, net of related debt, increased by \$4.1 million. The third phase of the one-cent sales tax, which was renewed by the voters in March 2008, continued with numerous construction projects in progress and the duration of the phase was increased from 5 to 10 years. Construction projects underway include major renovations, classroom additions, classroom renovations, and technology projects for the 2011-2012 fiscal year. School construction for the new School construction for the renovated Baton Rouge Magnet High School was complete and ready for students, faculty, and staff in August 2012. Additionally, as a part of the American Recovery and Reinvestment Act (ARRA), school boards were authorized to issue Qualified School Construction Bonds (QSCB). A direct allocation was made to the School System for the authority to issue an additional \$21.7 million in QSCB bonds, which were issued in August 2010. Restricted net assets decreased by \$36.1 million primarily from restricted for capital improvements at \$34.0 million as well as less significant decreases in restricted for compensation at \$1.2 million, restricted for discipline at \$0.4 million and restricted for federal and state programs at \$0.5 million. The decrease in restricted for capital improvements is mainly attributable to the QSCB Capital Projects Fund and the Proposition 1 - Capital Projects Fund from the numerous ongoing construction projects. The decreases in restricted for discipline and compensation are attributable to Propositions 2 - Discipline Fund and Proposition 3 - Compensation Fund increases in employees' benefits as well as other expenditures exceeding sales tax collections. Restricted for Federal and State programs decreased slightly by \$0.5 million.
- As the School System completed the fiscal year-ended June 30, 2012, its major funds reported fund balances of \$115.0 million as compared to \$160.5 million as of June 30, 2011. The fund balances include the General Fund at \$60.9 million, Propositions 1, 2, and 3 at \$33.3 million, \$1.8 million and \$10.0 million, respectively, as of June 30, 2012. The Child Nutrition Fund and the Qualified School Construction Bond (QSCB) Capital Projects Fund reported fund balances as of June 30, 2012 at \$5.4 million and \$3.6 million, respectively.

# MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2012

- At the close of the current fiscal year, the General Fund ended the year with a fund balance of \$60.9 million, a decrease of \$11.7 million when compared to the prior year. The significant decrease in fund balance is primarily attributable to expenditure increases in retirement contributions, active and retiree health contributions, and charter schools. Additionally, revenue increases were minimal with Ad valorem tax revenue at 1.6%. However, Sales tax collections increased by 6.0%. State revenue sources from unrestricted grants-in-aid, MFP increased by 6.7%, which is the main revenue source for the School System. However, approximately one-half of the increase is associated the expiration of American Recovery and Reinvestment Act (ARRA) Education Jobs Funds that reduced MFP funding in the prior year and the related expenditures that were transferred back to the General Fund in the current year. The remaining increase is associated with enrollment increases, while the base per pupil funding level has remained flat due the State budget woes. The unassigned fund balance of \$16.8 million is approximately 4.1% of actual expenditures. This fund balance will be necessary to support increased retirement costs, health care premiums, and other unforeseen emergencies.
- Non-major fund balances were \$11.7 million for the fiscal year-ended June 30, 2012 as compared to \$12.3 million as of June 30, 2011. The decrease in fund balance is mainly a result of the implementation of the Success Maker Math Intervention Program, which was funded from State Grants Education Excellence Funding.
- The Internal Service Funds ended the year with a net asset deficit at June 30, 2012 of \$240.5 million. The Worker's Compensation and Risk Management Funds net asset balances were \$4.1 million and \$11.6 million, respectively. The Medical Insurance Fund net asset deficit was \$256.2 million.

#### USING THE BASIC FINANCIAL STATEMENTS

The School System's basic financial statements consist of the government-wide financial statements, the fund financial statements, the associated notes to those statements, capital asset schedules, statistical schedules, and the required supplemental information of the MD&A and budgetary comparison schedules of the major funds. The statements are organized so the reader can understand the operations of the School System as a financial whole, i.e., an entire operating entity, its funds, and its fiduciary responsibilities. The government-wide financial statements, consisting of the Comparative Statement of Net Assets and the Statement of Activities (pages 1-2), provide highly consolidated financial information and render a government-wide perspective of the School System's financial position and results of operations for the year. The Fund Financial Statements (pages 3-4, 6-9) provide the next level of detail and look at the School System's most significant funds and a total of all other non-major funds.

#### Reporting the School System as a Whole

Comparative Statement of Net Assets and Statement of Activities

The Statement of Net Assets and the Statement of Activities present an aggregate view of the School System's finances and a long-term view of those finances. These statements seek to answer the question, "How did the School System as a whole do financially during the 2011-2012 fiscal year?" These statements include all non-fiduciary assets and liabilities using the accrual basis of accounting used by most private-sector enterprises. The accrual basis takes into account all of the School System's current year revenues when earned and expenses when incurred regardless of when they are received or paid.

These two statements report the School System's net assets and changes in those net assets. By showing the change in net assets for the year, the reader may ascertain whether the School System's financial condition has improved or deteriorated. The causes of the change may be the result of many factors, both financial and non-financial in nature. Non-financial factors which may have an impact on the School System's financial condition include the School System's property and sales tax base, student enrollment, facility conditions, required educational programs for which little or no funding is provided or other external factors.

# MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2012

The following table reflects the condensed Statement of Net Assets for 2012 and 2011:

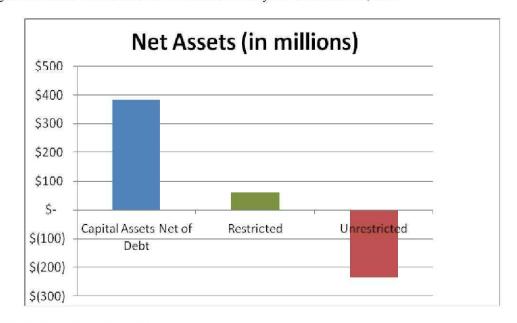

#### Table I

Combined Statement of Net Assets Years-ended June 30, 2012 and June 30, 2011 (In millions)

The following table reflects an overview of Net Assets for the year-ended June 30, 2012:

For more detailed information refer to Page 1.

# MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2012

Total assets decreased by a net amount of \$6.3 million from the previous fiscal year with a \$42.0 million increase in the area of capital assets. Capital assets increased as a result of major renovations, classroom additions, classroom renovations, and technology projects for the 2011-2012 fiscal year. School construction for the renovated Baton Rouge Magnet High School continued and was ready for students, faculty, and staff in August 2012. Current and other assets decreased by \$48.3 million primarily from a \$39.0 million decrease in cash and cash equivalents, which is mainly a result of deficit spending in the General Fund, Proposition 1 – Capital Projects Fund, QSCB – Capital Projects Fund, Proposition 2 – Discipline Fund, and Proposition 3 – Compensation Fund. Accounts receivable decreased by \$1.6 million, which is primarily attributable to the Early Retiree Reinsurance Program funded in the prior year. Ad valorem tax receivable decreased by \$0.8 million, while sales tax receivable increased by \$1.6 million. Due from governments decreased by \$8.6 million as a result of more timely grant reimbursement claims as well as expiration of funding for the American Recovery and Reinvestment Act (ARRA).

Total liabilities increased by a net amount of \$65.9 million from the previous fiscal year, with the greatest increase being in long term liabilities mainly due to Government Accounting Standards Board (GASB) Statement No. 45, "Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions", which establishes new accounting standards for Postretirement Benefits Other Than Pensions (OPEB). The standards require accrual based accounting for the OPEB obligation rather than the pay-as-you-go method, which resulted in a net OPEB obligation of \$309.1 million for the year. As a result of debt service payments, a decrease of \$2.8 million in the long-term obligation of the Qualified School Construction Bonds (QSCB) debt as well as \$0.2 million in the long-term obligation of the Qualified Zone Academy Bond (QZAB) debt reduced long term liabilities. Current liabilities decreased by \$9.3 million, across all funds. The majority of this decrease consisted of \$7.7 million in accounts, salaries and other payables mainly attributable to decreased payables of \$3.0 million and \$3.4 million, respectively, for the Proposition 1 – Capital Projects Fund and the QSCB Capital Projects Fund. The decrease in payables in Proposition 1 - Capital Projects Fund and the QSCB Capital Projects Fund is due to the ongoing construction projects. Other current liabilities decreased by \$1.9 million primarily as a result of the following fluctuations. A decrease of \$0.5 million in unearned revenues is largely attributable to the decrease in the USDA commodity inventory in the Child Nutrition Fund. There was a \$0.1 million increase in deferred financial commitment, which leaves a \$1.5 million balance representing the unamortized portion of the financial commitment with Aramark. In March 2004, the School System entered into a partnership with Aramark to privatize its maintenance, grounds, and janitorial functions. This partnership included a financial commitment from Aramark of an amount up to \$5,000,000 to support the labor conversion and maintenance and operations of facilities. The School System agreed to invest these funds in costs associated with the labor conversion and/or the maintenance and operation of the facilities. The financial commitment shall be amortized on a straight-line basis over a period of ten (10) years. Upon termination of the partnership by either party, for any reason, the School System must reimburse Aramark the unamortized portion of the financial commitment (note 13). An additional \$0.8 million was provided by Aramark to renew the contract from March 1, 2014 through February 29, 2016, which will also be amortized on a straight-line basis over this renewal period. The current portion of claims payable decreased \$1.4 million, as a result of ordinary fluctuations in claims processing, with a decrease of \$0.2 million in the Workers Compensation Fund, a \$0.4 million decrease in the Risk Management Fund and a decrease of \$0.8 million in the Medical Insurance Fund. Fiduciary fund current liabilities decreased slightly due to payments of payroll withholdings payable at year-end and the timing of the related payrolls.

# MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2012

Net assets decreased \$72.2 million as of June 30, 2012. Net assets invested in capital assets, net of related debt, increased by \$4.1 million resulting from the ongoing construction projects. Restricted net assets decreased by \$36.1 million primarily from restricted net assets for capital improvements at \$34.0 million as well as decreases in restricted net assets for compensation at \$1.1 million, restricted net assets for discipline at \$0.4 million and restricted net assets for federal and state programs at \$0.6 million. The decrease in restricted net assets for capital improvements is mainly attributable to the Proposition 1 - Capital Projects Fund and QSCB – Capital Projects Fund numerous ongoing construction projects. The decreases in restricted net assets for discipline and compensation are attributable to Propositions 2 – Discipline Fund and Proposition 3 - Compensation Fund to an increase in employee's benefits and other expenditures exceeding sales tax collections. Restricted net assets for federal and state programs decreased slightly at \$0.6 million. Unrestricted net assets decreased from the previous year by \$40.2 million mainly as a result of Government Accounting Standards Board (GASB) Statement No. 45, "Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions".

#### Governmental Activities

The Condensed Statement of Changes in Net Assets presented in Table II, reflects the cost of the School System's governmental activities for the year ended June 30, 2012 of \$640.5 million, which is a 2.4% decrease from the prior year. This statement portrays the activity in a traditional revenue over expense format and the numbers are derived from those presented in the Statement of Activities on page 2. The Statement of Activities shows the detailed cost of program services and the charges for services, grants, and contributions offsetting some of the costs of those program expenses. Operating Grants and Contributions totaling \$92.1 million subsidized certain programs of the School System. The Title I Program is the largest federally funded program with \$32.6 million in federal revenue compared to Child Nutrition with \$21.3 million. Approximately 83% of the students are eligible for free or reduced meal prices. In addition, Charges for Services - such as fees from other governmental agencies, schools systems, and students, for transportation services, school lunches, extended day tuition, and summer school tuition totaling \$4.5 million - subsidized certain programs of the School System.

The decrease of \$11.0 million in Operating Grants and Contributions is primarily attributable to decreased grant award allocations for Title I, Special Education, and Education Job Funds due to the expiration of funding from the American Recovery and Reinvestment Act (ARRA). The remaining program expenses were funded by the taxpayers in East Baton Rouge Parish through Ad-Valorem and Sales and Use Taxes totaling \$292.6 million and State Revenue Sharing totaling \$4.1 million. The Minimum Foundation Program (MFP) from the State of Louisiana funded \$167.2 million, Interest and Investment Earnings funded \$1.2 million, E-Rate, Medicaid reimbursement and other general revenues contributed \$6.6 million. Ad valorem taxes increased by approximately 1.7% due to growth in the property assessment rolls at a slower rate due to the downturn in the economy. Sales tax collections increased as compared to prior year's collections by \$9.9 million or 6.7%, due to increased economic activity. State revenue sources from unrestricted grants-in-aid, MFP, reflect a net increase of \$10.3 million, which is mainly a result of a \$7.4 million increase in levels 1 and 2 of the State MFP formula, a \$1.2 million decrease in level 3 primarily from phase out of hold harmless funding, a \$0.4 million decrease for schools under the jurisdiction of the Recovery School District for the loss of students, a decrease of \$0.8 million for type 2 charter school funding, and a \$5.1 million increase attributable to the expiration of ARRA Education Jobs Funds. Earnings on Investments decreased \$0.6 million from the prior year, mainly associated with lower investment rates. Miscellaneous revenue decreased by approximately \$4.6 million, which mainly represents decreases in E-Rate revenue and Medicaid reimbursements.

Several factors contributed to the decrease in the cost of services by \$16.0 million from the previous year. Total instructional expenses decreased by \$29.5 million in 2011-2012, while total support service and appropriations expenses increased by \$13.5 million. Instructional and support service expense decreases and increases were largely attributable to; 1) GASB Statement No. 45, "Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions"; 2) Decreased grant expenses; 3) Increased health and retirement costs; 4) Charter school expansion; 5) Budget reductions; and 6) Variances associated with changes in the Louisiana Accounting and Uniform Governmental Handbook (LAUGH Guide).

# MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2012

The key elements of the decrease of the School System's Net Assets for the year ended June 30, 2012 with comparative figures from 2011 are as follows:

#### Table II

Condensed Statement of Changes in Net Assets

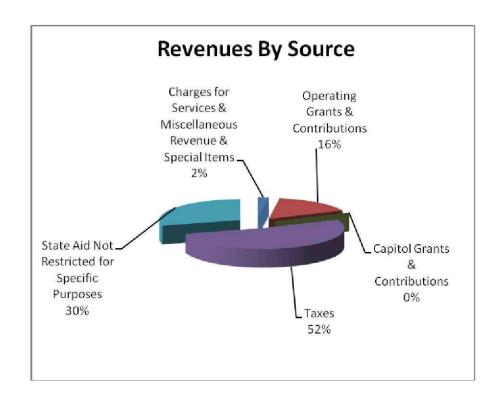

Years-ended June 30, 2012 and June 30, 2011

		(In millions)		In	crease

# MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2012

#### Reporting the School System's Most Significant Funds

Fund Financial Statements

The analysis of the School System's major funds begins on page 3. Fund Financial Statements provide more in-depth reporting of the School System's financial position and the results of operations. Fund basis financial information is presented in the "Fund Financial Statements" Section. The School System uses many funds to account for the numerous funding sources provided annually. However, the Fund Financial Statements look at the School System's most significant funds with all non-major funds presented in total in one column. These statements report governmental activities on a more current basis rather than a long-term basis, indicating sources and uses of funding, and resources available for spending in future periods.

Fund Financial Statements provide more in-depth data on the School System's most significant funds, such as its General Fund, Title I Fund, Qualified School Construction Bonds (QSCB) – Capital Projects Fund, Tax Proposition 1 - Capital Projects Fund, Proposition 2 - Discipline Fund, Proposition 3 - Compensation Fund, and the Child Nutrition Fund. These funds are considered "major funds" under GASB Statement No. 34.

Governmental Funds — Most of the School System's activities are reported in governmental funds, which generally focus on how money flows in and out of those funds, the balances that are left at year-end, and the amount available for spending in future periods. These funds are reported using the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash.

The relationship between governmental activities reported in the Basic Financial Statements and the governmental funds reported in the Fund Financial Statements are reconciled to provide a more comprehensive picture of the School System's financial position.

Proprietary Funds – Proprietary funds use the accrual basis of accounting which is the same basis used by the private sector. Proprietary funds attempt to recover costs through charges to the user. The School System uses the Internal Services Funds (proprietary funds) to account for activities for workers' compensation, risk management, and medical insurance.

Statement of Fiduciary Net Assets – This statement presents financial information relative to assets held by the School System on behalf of students (student activity funds), employees (deferred pay), and others (payroll deductions).

#### THE SCHOOL SYSTEM'S FUNDS

The School System uses funds to control and permit measurement in the short-term of revenues and expenditures of a particular activity or purpose (e.g., dedicated taxes and grant programs). The Fund Financial Statements allow the School System to demonstrate its stewardship over and accountability for resources provided by taxpayers and other entities. These statements also allow the reader to obtain more insight into the financial management of the School System and assess further the School System's overall financial stability.

# MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2012

The fund balances for all major and non-major funds for the fiscal year-ended June 30, 2012 are as follows:

- As the School System completed the fiscal year-ended June 30, 2012, its major funds reported fund balances of \$115.0 million as compared to \$160.5 million as of June 30, 2011. The fund balances include the General Fund at \$60.9 million, Propositions 1, 2, and 3 at \$33.3 million, \$1.8 million and \$10.0 million, respectively, as of June 30, 2012. The Child Nutrition Fund and the Qualified School Construction Bond (QSCB) - Capital Projects Fund reported fund balances as of June 30, 2012 at \$5.4 million and \$3.6 million, respectively. The fund balance for the Proposition 1 - Capital Projects Fund decreased by \$14.2 million when compared to the prior year, which is primarily a result of the completion of major construction projects such as the renovation of Baton Rouge Magnet High School. The fund balance for the Child Nutrition Fund increased by \$1.9 million, which is a result of better than expected operating results. The fund balance for the QSCB - Capital Projects Fund decreased by \$19.8 million. This decrease in fund balance is attributable to the ongoing construction project expenditures. A direct allocation was made to the School System for the authority to issue \$21.4 million in QSCB's that were issued in December 2009 and another \$21.7 million issued in August 2010. The fund balance for the Proposition 3 -Compensation Fund and Proposition 2 - Discipline Fund decreased by \$1.2 million and \$0.4 million, respectively. These decreases are primarily attributable to an increase in employees' benefits and other expenditures exceeding sales tax collections. The Title I Fund expenditures decreased \$2.4 million as compared to the prior year, which is primarily attributable to decreased funding from the American Recovery and Reinvestment Act (ARRA).
- At the close of the current fiscal year, the General Fund ended the year with a fund balance of \$60.9 million, a decrease of \$11.7 million when compared to the prior year. The significant decrease in fund balance is primarily attributable to expenditure increases in retirement contributions, active and retiree health contributions, and charter schools. Additionally, revenue increases were minimal with Ad valorem tax revenue at 1.6%. However, sales tax collections increased by 6.0% due to increased economic activity. Sales and Use tax collection increases are welcomed, but it is not known how long the growth will continue. State revenue sources from unrestricted grants-in-aid, MFP increased by 6.7%, which is the main revenue source for the School System. However, approximately one-half of the increase is associated the expiration of American Recovery and Reinvestment Act (ARRA) Education Jobs Funds that reduced MFP funding in the prior year and the related expenditures that were transferred back to the General Fund in the current year. The remaining increase is associated with enrollment increases, while the base per pupil funding level has remained flat due the State budget woes. The unassigned fund balance of \$16.8 million is approximately 4.1% of actual expenditures. This fund balance will be necessary to support increased retirement costs, health care premiums, and other unforeseen emergencies.
- Non-major fund balances were \$11.7 million for the fiscal year-ended June 30, 2012 as compared to \$12.3 million as of June 30, 2011. The decrease in fund balance is mainly a result of the implementation of the Success Maker Math Intervention Program, which was funded from State Grants Education Excellence Funding.
- The Internal Service Funds ended the year with a net asset deficit at June 30, 2012 of \$240.5 million. The
  Worker's Compensation and Risk Management Funds net asset balances were \$4.1 million and \$11.6
  million, respectively. The Medical Insurance Fund net asset deficit was \$256.2 million.

# MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2012

#### General Fund Budgetary Highlights

The School System's budget is prepared according to Louisiana law. During the course of the year, the School System revises its budget to take into consideration significant changes in revenues or expenditures. Louisiana Revised Statute 39:1311 requires a budget amendment if either expected revenues are less or anticipated expenditures are in excess of budgetary goals by five percent (5%) or more. The original budget for the School System was adopted on June 20, 2011 and the final revised budget was adopted on April 18, 2012. A statement showing the School System's original and final budget compared with actual operating results is provided in this CAFR beginning on page 41. Tables III and IV reflect a condensed comparative analysis of the General Fund's revenues and expenditures at June 30, 2012. The School System's year-end actual results were improved when compared to the budget, as conservative budgetary practices are customary. Revenues are forecast conservatively and expenditures are budgeted in anticipation of all possible costs and projects.

Revenues and expenditures increased in the final revised budget as compared to the original budget by \$7.9 million and \$4.3 million, respectively. The final revised budget included an increase of approximately 1.2% or \$1.6 million in Ad valorem taxes. The 2011 assessment roll increased 1.6%. The slowed growth is attributable to the economic downturn. However, an increase of approximately 5.7% or \$4.5 million was included for Sales tax collections. Other funding increased by approximately \$0.7 million primarily as a result of increased E-Rate payments of \$0.5 million as well as increased Aramark Financial Commitment Amortization of \$0.1 million. Unrestricted grants-in-aid, MFP funding increased by approximately \$1.4 million, which is mainly a result of the \$2.1 million increase for mid-year adjustments for students, a \$0.4 million decrease for the eight (8) District schools that remain under the jurisdiction of the Recovery School District, a \$0.1 million decrease for Education Jobs Funding authorized under the American Recovery and Reinvestment Act (ARRA), and a \$0.2 million decrease for type 2 Charter Schools. Restricted grants-in-aid decreased \$0.1 million for adjustments in Professional Improvement Plan (PIP) receipts for the phase out of this program.

Significant expenditure increases in the final revised budget as compared to the original budget were mainly in the areas of regular education programs, plant operations and maintenance, and charter schools - type 2 at \$3.5 million, \$1.2 million, and \$1.0 million, respectively. Regular education program expenditures increased as a result of increased student enrollment and the associated required staffing. Plant operations and maintenance expenditures increased as a result of prior year maintenance project encumbrances that were liquidated in the current fiscal year. Charter schools - type 2 expenditures increased as a result of the newly created online virtual schools.

Significant expenditure decreases in the final revised budget as compared to the original budget were mainly in special education programs and charters schools – type 1 at \$1.6 million and \$1.8 million, respectively. Special education program expenditures decreased as a result of the decline in special education students and the associated required staffing. Charter schools – type 1 expenditures decreased as a result of a lower than anticipated actual student enrollment.

# MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2012

The General Fund's actual revenues exceeded projections by \$2.4 million and increased \$14.6 million when compared to the prior year. Ad valorem tax revenue increased \$2.1 million over last year with a 2011 assessment roll increase of approximately 1.6% and an overall collection rate of 98.8%. Actual collections were less than projections by \$0.1 million or 0.1%. This increase reflects the growth in both commercial and residential properties for the parish, but at a much slower pace due to the downturn in the economy. The total millage levied by the School System is 43.45 mills, which generates approximately \$3.1 million per mill. Sales tax collections increased as compared to prior year's collections by \$4.7 million or 6.0% and exceeded projections by \$1.4 million or 1.7%. Sales and Use tax collection increases are welcomed, but it is not known how long the growth will continue. Earnings on Investments decreased \$0.2 million from the prior year, which is a result of lower investment returns as well as reduced funds available to invest. Other local revenue decreased by a net amount of approximately \$2.4 million when compared to the prior year, which mainly represents decreases in medicaid reimbursements. The Department of Health and Hospitals provided two years of reimbursement in the prior year since these payments were in arrears.

State revenue sources from unrestricted grants-in-aid, MFP, reflect a net increase of \$10.3 million when compared to the prior year. The increase is mainly a result of a \$7.4 million increase in levels 1 and 2 of the State MFP formula, a \$1.2 million decrease in level 3 of the MFP formula primarily from phase out of hold harmless funding, a \$0.4 million decrease for the eight (8) District schools that remain under the jurisdiction of the Recovery School District for the loss of students in these schools, and a decrease of \$0.8 million for type 2 charter school funding. Additionally, there is a \$5.1 million increase related to the expiration of American Recovery and Reinvestment Act (ARRA) Education Jobs Funds that reduced MFP funding by \$5.2 million in the prior year as compared to \$0.1 million in the current year. Actual October 1, 2011 student enrollment approved for the purpose of funding by the State was 41,233 students as compared to October 1, 2010 enrollment of 41,040 or 193 students more than the prior year. A decrease of \$0.1 million in Restricted grants-in-aid is mainly attributable to decrease in professional improvement plan (PIP) receipts for the phase out of this program.

General Fund expenditures decreased by \$2.0 million from the prior year. Total actual expenditures fell below final projections by \$10.6 million, with \$1.2 million, \$1.9 million, \$2.1 million, \$1.5 million, and \$1.3 million of this amount in other education, business and central services, plant operations and maintenance, transportation, and charter schools – type 1 areas, respectively. However, encumbrances outstanding at year end totaled \$0.8 million primarily in these areas that will be liquidated in the subsequent fiscal year. The School Board approved cost reductions of approximately \$33.4 million for 2011-2012.

The Public Retirement System's Actuarial Committee established an employer contribution rate of 23.7 % for the Teachers' Retirement System of Louisiana (TRSL) for fiscal year 2011-2012, compared to 20.2 % in 2010-2011. The same committee recommended that the employer contribution rate for the Louisiana School Employees' Retirement System (LSERS) be set at 28.6 % for fiscal year 2011-2012, which was previously set at 24.3 % for fiscal year 2010-2011. Increased retirement contributions were approximately \$5.0 million. These significant increases have had an adverse financial impact to the District.

Health Insurance Benefits have been under constant review. As a result of favorable financial results from numerous plan design and network changes in recent years, effective January 1, 2009 the employer contribution amounts for active and retired employees were supplemented with accumulated surplus from the Health Insurance Fund by approximately \$8.9 million as compared to \$12.8 million for 2008. However, effective January 1, 2010 and January 1, 2011 employer contribution amounts were not supplemented with accumulated surplus. Effective January 1, 2012 the estimated employer contribution increase for active and retired employees was funded with accumulated surplus from the Health Insurance Fund, which is estimated at \$4.3 million.

# MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2012

Actual expenditures were less than prior year expenditures in instruction – regular education programs and instruction – special education programs education programs by \$6.3 million and \$11.2 million, respectively. Other education expenditures increased by \$4.1 million. As previously mentioned, the School Board approved cost reductions of approximately \$33.4 million for 2011-2012. The cost reductions assisted in offsetting significant increases in retirement and contributions to active employees and retired employees health. The State Department of Education made changes to Bulletin 1929, the Louisiana Accounting and Uniform Governmental Handbook (LAUGH Guide), which has contributed to prior year and current year expenditure line item variances. The Laugh Guide attempts to produce comprehensive and compatible sets of standardized terminology for use in education management and reporting for Louisiana school districts. As a result of these changes, various line items were added, deleted, or reclassified. Additionally, Education Jobs Funds through the MFP were eliminated, as a result of this change the reduction of 83.5 full-time equivalent (FTE) positions totaling approximately \$5.2 million was transferred back to the General Fund in the current year.

Support service expenditures which are inclusive of pupil support, instructional staff, general administration, school administration, business and central services, plant operations and maintenance, and transportation services exceeded prior year expenditures by \$7.4 million. As previously mentioned, these increases are mainly attributable to increased retirement, health costs, elimination of Education Jobs Funds as well as expenditure line item variances associated with changes to the LAUGH Guide. School administration, business and central services, and plant operations and maintenance expenditure decreases are attributable to the School Board approved cost reductions.

The appropriation – charter schools type 1 actual expenditures increased by \$3.8 million as compared to the prior year. This increase is largely attributable to the approved annual increase of 20 students for Children's Charter School and Community School for Apprenticeship Learning. Additionally, The Mentorship Academy of Science and Technology and The Mentorship Academy of Digital Arts both had approved annual increases of 250 students, while Inspire Charter School increased by 115 students. The Career Academy is a new charter school with a first year enrollment of 200 students. The appropriation – charter schools type 2 increased by \$0.8 million to transfer Sales and Use tax and Ad valorem tax revenues to the newly created online virtual schools, which is a type 2 charter school created by the Board of Elementary and Secondary Education. Debt service payment expenditures increased \$1.4 million for the first payment of the Qualified School Construction Bonds (QSCB) issued in August 2010.

The spendable fund balance assigns \$6.3 million for the Medical Insurance Fund, \$4.0 million for the Risk Management Fund, \$5.0 million for much needed additional school bus purchases to update an aging fleet, \$6.4 million for special facility projects, \$6.0 million for current operations, \$15.9 million for debt service payments, and \$0.5 million for Magnet Programs. The unassigned fund balance of \$16.8 million represents is approximately 4.1% of actual expenditures. This fund balance will be necessary to support increased retirement costs, health care premiums, and other unforeseen emergencies.

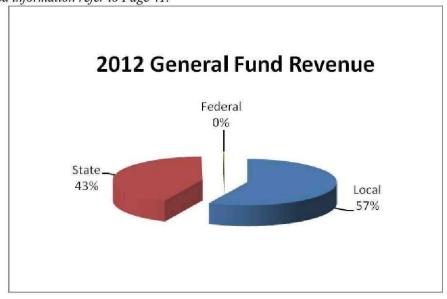

# MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2012

#### CAPITAL ASSETS AND DEBT ADMINISTRATION

#### Capital Assets

At June 30, 2012, the School System has approximately \$383.7 million invested in a broad range of capital assets, including land, buildings, furniture, vehicles, computers, and other equipment. This amount is net of accumulated depreciation to date. Increases during the year represent additional purchases and capital outlays for construction, while decreases represent retirements of assets and depreciation of depreciable assets for the year. Table V shows the net book value of capital assets at the end of the 2012 and 2011 fiscal years.

# MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2012

School construction for the renovated Baton Rouge Magnet High School was ready for students, faculty, and staff in August 2012. In addition, other major construction projects, renovations, and classroom additions were completed during the year, while others were still in progress at June 30, 2012. Depreciation for the year-ended June 30, 2012 was \$18.0 million for buildings and improvements and \$3.7 million for furniture and equipment. Major construction and renovation projects will continue for the 2012-2013 fiscal year and will be funded with the Proposition 1 "pay-as-you go" Sales tax initially approved by the voters in 1998 for a five-year period and renewed on May 2, 2003 for an additional five years and again on March 8, 2008 for an additional ten years.

#### Debt Administration

At June 30, 2012, the School System had outstanding Qualified Zone Academy Bond (QZAB) notes payable of \$0.6 million that are scheduled for repayment by November 2016. As a part of the American Recovery and Reinvestment Act (ARRA), school boards were authorized to issue Qualified School Construction Bonds (QSCB). A direct allocation was made to the School System for the authority to issue \$21.4 million in QSCBs that were issued in December 2009 and another \$21.7 million issued in August 2010. The QSCBs are scheduled for repayment in December 2025 with debt service payments of \$1.3 million and \$1.4 million due annually in December for both the 2009 QSCBs and the 2010 QSCBs, respectively. At June 30, 2012, the School System had outstanding \$18.8 million and \$20.2 million for the 2009 QSCBs and the 2010 QSCBs, respectively.

In accordance with LSA-R.S.39: 554 (D), the School System is legally restricted from incurring long-term bonded debt in excess of 35 percent of the assessed value of the taxable property (including homestead exempt and nonexempt property) within the parish. At June 30, 2012, the statutory limit is \$1,252,496,413.

Government Accounting Standards Board (GASB) Statement No. 45, "Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions", which establishes accounting standards for Postretirement Benefits Other Than Pensions (OPEB). The standards require accrual based accounting for the OPEB obligation rather than the pay-as-you-go method previously reported, which resulted in a net OPEB obligation of \$309.1 million for the year. More detailed information is available on pages 27, 28, and 29.

Other long-term obligations include accrued sick leave and annual leave. The balance at June 30, 2012 of both current and long-term obligations was \$19.0 million. More detailed information is available on pages 30 and 31.

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The financial well being of the School System is tied in large measure to the State funding formula and the Sales and Property tax base. Actual General Fund Ad valorem tax collections for the fiscal year-ended June 30, 2012 reflect an increase of 1.6% as a result of growth in the property assessment rolls, which is a slight increase as compared to the prior year. Sales tax collections increased by 6.0%, but it is not known how long the growth will continue. Actual State MFP revenues increased by 6.7%, which is mainly a result of a \$7.4 million increase in levels 1 and 2 of the State MFP formula, a \$1.2 million decrease in level 3 of the MFP formula primarily from phase out of hold harmless funding, \$0.4 million decrease for the eight (8) District schools that remain under the jurisdiction of the Recovery School District (RSD) for the loss of students in these schools, and a \$5.1 million increase related to the expiration of American Recovery and Reinvestment Act (ARRA) Education Jobs Funds that reduced MFP funding by \$5.2 million in the prior year as compared to \$0.1 million in the current year. The MFP base per pupil funding level has remained flat due the State budget woes.

# MANAGEMENT'S DISCUSSION AND ANALYSIS June 30, 2012

The initial unassigned fund balance projected for the General Fund for the fiscal year-ending June 30, 2013 is \$6.4 million. The 2012-2013 budgeted expenditures are projected to decrease by \$0.5 million as compared to prior year actual, which is largely attributable to budget reductions, as well as, increases in retirement costs, health costs, and additional charter schools.

The Teachers' Retirement System's rate increased from 23.7% to 24.5% effective July 1, 2012. The Louisiana School Employees' Retirement System provided notification that the employer contribution rate will increase from 28.6% to 30.8% for the 2012-2013 fiscal year. Increased retirement contribution rates effective July 1, 2012 will result in significantly higher contributions.

The recently reported October 1, 2012 student enrollment figure of 40,759 students (excludes Pre-Kindergarten) was 474 students less than the State MFP funded student count of 41,233 reported October 1, 2011. Kindergarten through twelfth grade enrollment is still subject to student audit adjustments and current special education counts and weight adjustments.

The actual unassigned fund balance of \$16.8 million for fiscal year-ended 2011-2012 will be necessary to support increased retirement costs, health care premiums, and other unforeseen emergencies. The overall financial position of the School System has declined, as compared to the prior year.

#### CONTACTING THE SCHOOL SYSTEM'S FINANCIAL MANAGEMENT

This CAFR is designed to provide full and complete disclosure of the financial condition and operations of the School System. However, citizen groups, taxpayers, parents, students, other parish officials, investors or creditors may need further detail. To obtain such details, please contact James P. Crochet, Chief Financial Officer, East Baton Rouge Parish School System, Post Office Box 2950, Baton Rouge, Louisiana, 70821. Feel free to also contact us by calling (225) 922-5440 during regular office hours, Monday through Friday, 8:00 a.m. to 4:30 p.m., Central Standard Time, or e-mail at <a href="mailto:jcrochet@ebrschools.org">jcrochet@ebrschools.org</a>.

# EAST BATON ROUGE PARISH SCHOOL SYSTEM Baton Rouge, Louisiana

#### NOTES TO BASIC FINANCIAL STATEMENTS

#### 1. GENERAL INFORMATION

The East Baton Rouge Parish School System (the School System) is a corporate body created under Louisiana Revised Statutes 17:51. A board consisting of 11 members (the Board) elected from legally established districts is charged with the management and operation of the School System.

The School System is composed of a central office, 82 schools and several support facilities. Student enrollment as of October 1, 2011 was 41,233. The School System employs approximately 6,000 persons, approximately 3,500 of whom are directly involved in the instructional process. The remainder provides ancillary support such as general administration, repair and maintenance, bus transportation and food service. The regular school term normally begins during the first half of August and is completed by the end of May.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The School System complies with Generally Accepted Accounting Principles (GAAP). The School System's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements. The School System applies Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, to its government-wide financial statements unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails.

#### A. Financial Reporting Entity

The basic criterion established by the Governmental Accounting Standards Board for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary government unit's reporting entity for basic financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the organization's governing body and either the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization which is fiscally dependant on the primary government should be included in its reporting entity. The financial statements present the East Baton Rouge Parish School System (the primary government). Based on the aforementioned criteria, there are no component units included in the School System's reporting entity.

#### B. <u>Basis of Presentation</u>

The School System's Basic Financial Statements consist of the government-wide statements on all of the non-fiduciary activities and the fund financial statements (individual major funds and combined non-major funds). The statements are prepared in accordance with accounting principles generally accepted in the United States of America as applied to governmental units.

## **Government-Wide Financial Statements**

The government-wide financial statements include the statement of net assets and the statement of activities for all non-fiduciary activities. Interfund activity consists of interfund advances, transfers and charges from the internal service funds to the governmental funds. As a general rule, the effect of interfund activity has been eliminated from both the statement of net assets and the statement of activities. Exceptions to the general rule are advances between fiduciary funds and the various functions of the School System and interfund services provided and used, which are not eliminated in the process of consolidation. Charges from the internal service funds to the governmental funds are eliminated in consolidation. The government-wide presentation focuses primarily on the sustainability of the School System as an entity and the change in aggregate financial position resulting from the activities of the fiscal period.

# EAST BATON ROUGE PARISH SCHOOL SYSTEM Baton Rouge, Louisiana

#### NOTES TO BASIC FINANCIAL STATEMENTS

#### 2. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (continued)

#### B. Basis of Presentation (continued)

#### Government-Wide Financial Statements (continued)

All programs of the School System are considered *Governmental Activities* which are normally supported by taxes and intergovernmental revenues.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Program revenues included in the Statement of Activities are derived from parties outside the School System's taxpayers or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the School System's general revenues.

The School System reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses of other functions are not allocated to those functions but are reported separately in the Statement of Activities. Depreciation expense, which can be specifically identified by function, is included in the direct expenses of each function. Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

#### Fund Financial Statements

The report includes all funds of the School System, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, equity, revenues, and expenditures or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All Governmental Funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financial sources) and decreases (i.e., expenditures and other financing uses) in current assets.

The funds of the School System are classified into three broad categories: Governmental, Proprietary and Fiduciary.

#### Governmental Fund Types:

The School System reports the following governmental funds as major funds:

General Fund - The General Fund is the primary operating fund of the School System. It is used to account for all financial resources except those required to be accounted for in another fund.

Title I Fund - Title I includes programs in the areas of language development, reading, and math. These programs strive to meet the special needs of economically and educationally deprived children through federal funds for teachers, aides, instructional materials, equipment, and parental involvement.

# EAST BATON ROUGE PARISH SCHOOL SYSTEM Baton Rouge, Louisiana

#### NOTES TO BASIC FINANCIAL STATEMENTS

#### 2. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (continued)

#### B. Basis of Presentation (continued)

Fund Financial Statements (continued)

Governmental Fund Types: (continued)

QSCB - Capital Projects Fund - The Qualified School Construction Bond (QSCB) Fund accounts for the bonds issued by the American Recovery and Reinvestment Act, which was established to account for capital improvements including construction of new facilities.

Proposition 1 – Capital Projects Fund – The Proposition 1 Fund accounts for the proceeds of a \$0.51 cent sales tax approved as part of a plan to improve school facilities. The intent of the plan tax is to improve infrastructure in an effort to provide a "safe and dry" environment for the students, staff, and public in the school system.

Proposition 2 – Discipline Funds – The Proposition 2 Fund accounts for the proceeds of a \$0.08 cent sales tax approved as part of a plan to improve discipline in the schools. The intent of the plan is to remove disruptive and academically deficient students from the regular education classroom, reduce truancy, and provide more effective alternative education.

Proposition 3 – Compensation Fund – The Proposition 3 Fund accounts for the proceeds of a \$0.41 cent sales tax approved as part of a plan to improve compensation. The intent of the plan is to improve ability to recruit and retain certified and qualified teachers, assistant principals and principals; to have more productive support employees; and to have the ability to reward performance that meets and/or exceeds standards.

Child Nutrition Fund – The Child Nutrition Fund is used to account for the operations of the school food service program that operates during the regular school term and during the summer break. The basic goals of the school food service program are to serve nutritionally adequate, attractive, and moderately priced meals, to help children grow socially and emotionally, to extend educational influences to the homes of school children, and to provide learning experiences that will improve children's eating habits with the ultimate goal of physically fit adults.

#### **Proprietary Fund Type:**

Internal Service Funds — Internal Service Funds are used to account for the financing of services provided by one department or agency to other departments or agencies of the governmental unit, or to other governmental units, on a cost-reimbursement basis. The Workers' Compensation Fund, the Risk Management Fund and the Medical Insurance Fund are reported as Internal Service Funds on a combined basis.

#### Fiduciary Fund Type:

Agency Funds – Agency Funds are used to account for assets held by the School System as an agent for individuals, private organizations or other governmental units and/or other funds. The School System employs two separate Agency Funds: one fund accounts for the transactions of the student activity accounts maintained at the schools, and another accounts for voluntary and mandatory payroll withholdings.

#### **NOTES TO BASIC FINANCIAL STATEMENTS**

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### C. Basis of Accounting/Measurement Focus

#### Government-Wide Financial Statements (GWFS)

The GWFS were prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability has been incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Sales taxes are recognized when the underlying sales transactions occur. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

#### Fund Financial Statements (FFS)

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Proprietary Fund type is accounted for on a flow of economic resources measurement focus (accrual basis). With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. The Proprietary Fund type's operating statement presents increases (e.g., revenues) and decreases (e.g., expenses) in net total assets.

Agency Funds have no measurement focus, but follow the accrual basis of accounting.

Governmental Funds are accounted for using a current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financial sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The following paragraphs describe the revenue recognition practices under the modified accrual basis of accounting:

#### Revenues

Governmental Fund revenues resulting from exchange transactions are recognized in the fiscal year in which the exchange takes place and meets the government's availability criteria (susceptible to accrual). Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. Charges for services, fines and forfeits, and most governmental miscellaneous revenues, including investment earnings are recorded as earned since they are measurable and available. The School System's definition of available means expected to be received within six months of the end of the fiscal year, except for property taxes, for which the period is sixty days of the end of the fiscal year.

Non-exchange transactions in which the School System received value without directly giving value in return, includes sales tax, property tax, grants, entitlements, and donations. Property taxes are considered measurable in the calendar year of the tax levy and are recognized as revenue if collected soon enough to meet the availability criteria. Sales taxes are considered measurable when the underlying transaction occurs and are recognized as revenue if collected soon enough to meet the availability criteria. Anticipated refunds of such taxes are recorded as fund liabilities and reductions of revenue when they are measurable and valid. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied subject to the availability criteria. Eligibility requirements include timing requirements, which specify the year when the resources can be used.

Internal Service Funds consist solely of those established to account for self-insurance programs. Premium revenues are considered operating revenues while all other revenues are non-operating.

#### NOTES TO BASIC FINANCIAL STATEMENTS

#### 2. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (continued)

#### C. Basis of Accounting/Measurement Focus (continued)

#### Expenditures<sup>\*</sup>

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. Costs of accumulated unpaid vacation, sick leave and other employee benefit amounts are reported in the period due and payable rather than the period earned by employees, and general long-term obligations principal and interest payments are recognized only when due.

#### D. Encumbrances

Encumbrances represent commitments related to unperformed contracts for goods or services.. These outstanding encumbrances are added to the budget in the subsequent year and are reported as expenditures when incurred.

#### E. Cash and Cash Equivalents

Cash and cash equivalents include interest-bearing demand deposits and short-term investments (usually time certificates of deposit with a maturity date within three (3) months of the date of acquisition).

State statutes authorize the School System to invest in United States bonds, treasury notes, or certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana.

The School System maintains three checking accounts, exclusive of the individual schools' bank accounts, with the School System's fiscal agent bank. These three accounts are the consolidated cash account and two interest bearing imprest accounts for disbursements of payrolls and disbursements to vendors.

Interest earned on investments is distributed to the individual funds based on the invested balance of the participating fund during the year.

#### F. Inventory

#### Government-Wide Level

Inventory is stated at average cost and consists of expendable supplies held for consumption. The costs of inventory items are recognized as expenses when used.

#### Fund Level

Inventory of the general fund is stated at average cost and consists of expendable supplies held for consumption. The costs of inventory items are recognized as expenditures when used. The reportable inventories are equally offset by a fund balance reserve which indicates that they do not constitute "available spendable resources" even though they are a component of total assets.

#### **NOTES TO BASIC FINANCIAL STATEMENTS**

#### 2. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (continued)

#### F. <u>Inventory</u> (continued)

#### Fund Level (continued)

Inventory of the Child Nutrition Special Revenue Fund consists of food purchased by the School System and commodities granted by the United States Department of Agriculture (USDA) through the Louisiana Department of Agriculture and Forestry. Inventory items purchased are valued at average cost. Costs are recorded as expenditures at the time individual items are consumed (consumption method). Commodities are assigned values based on information provided by the USDA, also on average cost basis. The amount of commodity inventory is included in unearned revenue until consumed.

#### G. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Costs are recorded as expenditures at the time individual items are consumed (consumption method).

#### H. Capital Assets

All capital assets are capitalized at historical cost or estimated historical cost for assets where actual historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The School System maintains threshold levels for capitalizing capital assets as follows:

Movable capital assets with a cost of \$5,000 or more per unit.

All land and land improvements with a cost of \$25,000 or more.

Buildings and building improvements that extend the useful life of a building with a cost of \$25,000 or more.

Capital assets are recorded in the GWFS, but are not reported in the FFS. All capital assets are depreciated using the straight-line method over their estimated useful lives. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public school purposes by the School System, no salvage value is taken into consideration for depreciation purposes. Useful lives vary from 5 to 20 years for machinery and equipment and 10 to 50 years for buildings and improvements.

#### I. Restricted Net Assets

For the government-wide statement of net assets, net assets are reported as restricted when constraints placed on net assets use either:

Externally imposed by creditors (such as debt covenants), grants, contributors, laws, or regulations of other governments; or

Imposed by law through constitutional provisions or enabling legislation.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

#### NOTES TO BASIC FINANCIAL STATEMENTS

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### J. Fund Equity of Fund Financial Statements

Accounting standards require governmental fund balances to be reported in as many as five classifications as listed below:

Non-spendable – Represents amounts that are not expected to be converted to cash because they are either not in spendable form or legally or contractually required to be maintained intact.

<u>Restricted</u> – Represents balances where constraints have been established by parties outside the School Board or imposed by law through constitutional provisions or enabling legislation.

<u>Committed</u> - Represents balances that can only be used for specific purposes pursuant to constraints imposed by formal action of the School Board's highest level of decision-making authority.

<u>Assigned</u> - Represents balances that are constrained by the School Board's intent to be used for specific purposes, but are not restricted nor committed.

<u>Unassigned</u> – Represents balances that have not been assigned to other funds and that have not been restricted, committed, or assigned to specific purposes within the General Fund.

When expenditures are incurred for the purposes for which both restricted and unrestricted amounts are available, the School Board reduces restricted amounts first, followed by unrestricted amounts. When expenditures are incurred for purposes for which committed, assigned, and unassigned amounts are available, the School Board reduces committed amounts first, followed by assigned amounts and then unassigned amounts.

#### K. Interfund Transactions

During the course of normal operations, the School System has numerous transactions between funds, including expenditures and transfers of resources to provide services, construct assets, and service debt. The accompanying fund financial statements generally reflect such transactions as transfers.

#### L. Compensated Absences

Teachers and other school employees accrue from 10 to 12 days of sick leave per year depending upon the number of months worked. Sick leave may be accumulated without limitation. Upon employees' death or retirement, unused accumulated sick leave of up to 25 days is paid to employees or their heirs at the employees' current rate of pay. The accrual computation for earned sick leave is calculated on a 25-day maximum per employee. Sick leave is not payable upon discharge or termination (non-retirement). Upon retirement, accumulated sick leave may be used in the retirement benefit computation as earned service. Extended sick leave will be paid at 65% of salary with a maximum of 90 days allowed every six years for all employees.

All 12-month employees earn from 10 to 20 days of annual vacation leave per year depending on length of service with the School System. Such leave is credited on a pro rata basis at the end of each payroll reporting period and accumulates. A maximum of 400 hours of unused annual leave is carried over to future periods and may be paid to the employee upon termination of employment.

#### **NOTES TO BASIC FINANCIAL STATEMENTS**

#### 2. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (continued)

#### L. Compensated Absences (continued)

All amounts reported are salary related, and include no fringe benefits since the amount of said benefits would be immaterial.

Sabbatical leave may be granted for medical/professional purposes. Any employee with a professional teaching certificate is entitled, subject to approval by the School System, to one (1) semester of sabbatical leave after three (3) years of continuous service, or two (2) semesters of sabbatical leave after six (6) or more years of continuous service. Continuous service must be as an employee of the School System. Sabbatical leave will be paid at 65% of salary. Sabbatical leave, which involves professional and cultural improvement, provides a continuing benefit to the employer and should not be accrued. Since sabbatical leave for medical purposes requires a doctor's certificate prior to being granted, it is similar to an extended sick leave benefit and should not be accrued as sabbatical leave benefits. Consequently, sabbatical leave benefits are recorded as current expenditures (in the FFS) in the period paid.

#### M. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### N. Non-Operating and Operating Revenues – Proprietary Funds

Premium revenues, claims expenses and administrative costs customarily associated with self-insurance programs are accounted for as operating revenues and expenses. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. Interest income and grant income are reported as non-operating revenues.

#### NOTES TO BASIC FINANCIAL STATEMENTS

#### 3. <u>DEPOSITS AND INVESTMENTS</u>

Under Louisiana R.S. 33:2955, as amended, the School System may invest in obligations of the U.S. Treasury, U.S. Agencies and instrumentalities, repurchase agreements, certificates of deposit, and other investments as provided in the statute.

Deposits at June 30, 2012 were as follows:

Major Governmental Funds:	
General Fund	\$ 205,092,051
Child Nutrition Fund	11,616
Subtotal - Major Governmental Funds	205,103,667
Fiduciary Fund Types:	
School Activity	4,169,951
Proprietary Fund Types:	
Workers' Compensation Fund	2,500,031
Risk Management Fund	4,589
Subtotal - Proprietary Funds	2,504,620
TOTAL	\$ 211,778,238

#### **Deposits**

Custodial credit risk for deposits is the risk that in the event of financial institution failure, the School System's deposits may not be returned to them. To mitigate this risk, state law requires deposits to be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent financial institution. The School System had no custodial credit risk as of June 30, 2012.

Securities that may be pledged as collateral consist of obligations of the U.S. Government and its agencies, obligations of the State of Louisiana and its municipalities and school districts.

<u>Interest Rate Risk</u> – The School Board's investment policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk – Under Louisiana R.S. 33:2955, as amended, the School Board may invest in obligations of the U.S. Treasury, U.S. Agencies and instrumentalities, repurchase agreements, certificates of deposits, Louisiana Asset Management Pool (LAMP), and other investments as provided in the statute. The Board's investment policy does not further limit its investment choices.

Concentration of Credit Risk - The School Board's investment policy does not limit the amount the School Board may invest in any one issuer.

#### **NOTES TO BASIC FINANCIAL STATEMENTS**

#### 4. AD VALOREM TAXES

Ad valorem taxes were levied by the School System on March 17, 2011 for the calendar year 2011, based on the assessed valuation of property as of January 1 of the calendar year. The taxes become due on December 1 of each year, and become delinquent on December 31. However, before the taxes can be collected, the assessment list (tax roll) must be submitted to the Louisiana Tax Commission for approval. From the day the tax roll is filed in the parish Clerk of Court's Office, it shall act as a lien on each specific piece of real estate thereon assessed, which shall be subject to a legal mortgage after the 31st day of December of the current year for the payment of the tax due on it. The taxes are generally collected in December, January, and February of the fiscal year. A list of property on which taxes have not been paid is published in the official journal by the East Baton Rouge Parish Tax Collector Office, which is a division of the East Baton Rouge Parish Sheriff's Department. If taxes are not paid within the period stipulated in the public notice, the property is sold for taxes due at a tax sale, usually held prior to the end of the School System's fiscal year.

The following is a summary of authorized and levied ad valorem taxes:

	Authorized	Levied		
	<u>Millage</u>	<u>Millage</u>	<u>Expires</u>	
Parishwide taxes:			-	
Constitutional tax	5.25	5,25	Not applicable	
Special maintenance tax	1.04	1.04	2016	
Special tax - additional aid to public schools	6.50	6.50	2013	
Special tax – additional teachers	2.78	2.78	2014	
Special tax - employee salaries and benefits	1.86	1.86	2014	
Special tax – employee salaries and benefits	7.14	7.14	2018	
Special tax - replacing reduced state and local receipts	4.98	4.98	2017	
Special tax – employee salaries and benefits	5.99	5.99	2016	
Special tax – employee salaries and benefits	7.19	7.19	2013	
Special tax - support ADAPP	.72	.72	2016	

Under the Louisiana Constitution, ad valorem taxes other than Constitutional and Bond taxes must be renewed by popular vote every ten (10) years.

All property taxes are recorded in the General and Alcohol and Drug Abuse Funds on the basis explained in Note 2C. Revenues in such funds are recognized in the accounting period in which they become measurable and available. Property taxes are considered measurable in the calendar year of the tax levy. Estimated uncollectible taxes are those taxes based on past experience which will not be collected in the subsequent year and are primarily due to subsequent adjustments to the tax roll. Available means due, or past due, and receivable within the current period and collected within the current period or expected to be collected soon enough thereafter to pay liabilities of the current period. The remaining property taxes receivable are considered available because they are substantially collected within 60 days subsequent to year end.

Historically, virtually all ad valorem taxes receivable were collected since they are secured by property; therefore, there is no allowance for uncollectible taxes.

### NOTES TO BASIC FINANCIAL STATEMENTS

### 5. CAPITAL ASSETS

Transportation

Child nutrition

Capital assets and depreciation activity as of and for the year ended June 30, 2012 are as follows:

	Beginning Balance Increases		Decreases	Ending Balance

#### **NOTES TO BASIC FINANCIAL STATEMENTS**

#### 6. <u>DEFINED BENEFIT PENSION PLANS</u>

Plan Description – Substantially all School System employees participate in either the Teachers' Retirement System or the School Employees' Retirement System (the Systems), which are cost-sharing, multiple-employer public employee retirement systems. Each system is administered and controlled at the State level by a separate board of trustees with contribution rates and benefit provisions approved by the Louisiana Legislature. Participation in the Teachers' Retirement System is divided into two plans: (1) the Teachers' Regular Plan and (2) the Teachers' Plan A. Five years of service credit is required to become vested for retirement benefits and five years to become vested for disability and survivor benefits under each plan.

Each of the Systems issues an annual publicly available financial report that includes financial statements and required supplementary information for the system. These reports may be obtained by writing or calling:

Teachers' Retirement System -

8401 United Plaza Blvd.

P. O. Box 94123

Baton Rouge, Louisiana 70804-9123

(225) 925-6446

School Employees' Retirement System -

8660 United Plaza Blvd.

Baton Rouge, LA 70804

(225) 925-6484

Funding Policy – Contributions to the plans are required and determined by State statute (which may be amended) and are expressed as a percentage of covered payroll. The contribution rates in effect for the year ended June 30, 2012, for the School System and covered employees were as follows:

	School System	<u>Employees</u>
Teachers' Retirement System:		•
Regular Plan	23.7%	8.00%
Plan A	23.7%	9.10%
School Employees' Retirement System	28.6%	7.50%

As provided by Louisiana Revised Statute 11:103, the School System's contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year.

The contributions made to the Systems for the past three fiscal years, which equaled the required contributions for each of these years, were as follows:

	2012	2011	2010
Teachers' Retirement System:			
Regular Plan	\$56,429,729	\$50,816,313	\$39,835,187
Plan A	124,211	119,817	102,090
School Employees' Retirement System	3,796,344	3,537,170	2,595,790

#### NOTES TO BASIC FINANCIAL STATEMENTS

#### 7. OTHER POST-EMPLOYMENT BENEFITS (OPEB)

During the fiscal year ended June 30, 2008, the School System implemented GASB Statement No. 45, Accounting and Financial Reporting by Employers for Post-employment Benefits Other Than Pensions.

#### Plan Description

The School System provides certain post-employment health care and life insurance benefits to its retired employees. Substantially all of the School System's employees may become eligible for such benefits upon reaching retirement age. The School System OPEB plan is a single-employer defined benefit "substantive plan" as understood by past practices of the System and its employees. Although no written plan or trust currently exists or is sanctioned by law, the OPEB plan is reported based on communication to plan members.

The School System adopted a vesting policy for medical and life insurances. Employees hired on July 1, 2001 or thereafter must work a minimum of five (5) consecutive years immediately preceding their retirement in order to be eligible for the School System to pay a portion of their health insurance premiums. After five (5) continuous years of service, the employee contribution percentage of the employer portion for health insurance premiums would decline by twenty percent (20%) with each additional year of service until ten (10) years of service credit is attained with a subsequent increase in the School System's share by twenty percent (20%) each year. After five (5) years of continuous service the employer paid percentage of life insurance benefits, as outlined in the funding policy below, would increase by twenty percent (20%) each additional year of service until ten (10) years of service credit is attained, while years one (1) through five (5) provide a seven thousand five hundred dollar (\$7,500) benefit.

#### **Funding Policy**

The contribution requirements of the active employees, retirees, and the School System are established in the annual operating budgets of the various funds and may be amended in subsequent years. The number of participants currently eligible to receive benefits is 12,618. The plan is currently financed on a pay-as-you-go basis, with the School System contributing approximately \$30.2 million for active employees and their dependents and approximately \$34.8 million for retirees and their dependents for fiscal year 2012. No assets have been segregated and restricted to provide post-employment benefits.

Retirees contribute 14% and 24% of the retiree only coverage for the basic core and premium buy-up plans, respectively, and one-half of the cost of dependent coverage. Active employees contribute 13% and 23% of the employee only coverage for the basic core and premium buy-up plans, respectively, and one-half of the cost of dependent coverage.

The School System provides an employer paid life insurance benefit to all active employees and retirees. Employees and retirees hired before July 1, 2002 receive a life insurance benefit of one and one-half times their most recent salary not to exceed \$750,000. Employees hired on July 1, 2002 or thereafter receive a life insurance benefit that is restricted to fifty thousand dollars (\$50,000). At age 70 the life insurance benefit is reduced to seventy five hundred dollars (\$7,500) for retirees.

#### Annual OPEB Cost and Net OPEB Obligation

The School System's annual OPEB cost (expense) was calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over the actuarial amortization period. The ARC was calculated as part of the July 1, 2011 actuarial valuation performed by an outside actuary consultant.

#### NOTES TO BASIC FINANCIAL STATEMENTS

#### 7. OTHER POST-EMPLOYMENT BENEFITS (OPEB) (continued)

The following table shows the components of the School System's ARC for the year beginning July 1, 2011:

Normal cost	\$	57,998,362
Amortization of unfunded actuarial		
accrued liability		52,632,058
Interest on the above		3,318,913
Annual required contribution (ARC)	· <u>\$</u>	113,949,333

The following table shows the components of the School System's annual OPEB cost for the year and the amount actually contributed:

Annual required contribution (ARC)	\$	113,949,333
Interest on net OPEB obligation		6,860,759
Adjustment to ARC		(7,851,758)
Annual OPEB cost (expense)		112,958,334
Less: Contributions made		(32,527,388)
Increase in net OPEB obligation		80,430,946
Net OPEB obligation – beginning of year	_	<u> 228,691,982</u>
Net OPEB obligation - end of year	<u>\$</u>	309,122,928

Utilizing the pay-as-you-go method, the School System contributed 29% of the annual post-employment benefits cost during the year ended June 30, 2012.

The following table shows the schedule of employer contributions for the current year and the two preceding years:

	cal Year Inding	Annual OPEB Cost		Amount Contributed	Percentage of Annual OPEB Costs Contributed		Net OPEB Obligation	
i	6/30/2012 \$	112,958,334	\$	32,527,388	2	29%	\$	309,122,928
1	6/30/2011	115,353,983		31,145,575		7%		228,691,982
	6/30/2010	91,640,547		30,712,325	3	34%		144,519,544

#### Funding Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was zero funded. The actuarial accrued liability for benefits was \$1,578,961,752, with no valued assets, resulting in an unfunded actuarial accrued liability (UAAL) of the same amount. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the School System are subject to continual revision and actual results are compared with past expectations and new estimates are made about the future.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits. Below is the schedule for the year ended June 30, 2012:

#### NOTES TO BASIC FINANCIAL STATEMENTS

#### 7. OTHER POST-EMPLOYMENT BENEFITS (OPEB) (continued)

Actuarial Valuation Date	Acti Valu	a) Iarial Ie of Sets	(b) Actuarial Accrued Liability (AAL)	_	(b-a) Unfunded AAL (UAAL)	(a/b) Funded Ratio	<u></u>	(c) Covered Payroll	((b-a/c) UAAL as a Percentage of Covered Payoll
7/1/2011	\$	-	\$ 1,578,961,752	\$	1,578,961,752	0%	\$	278,062,298	568%
7/1/2010		-	1,543,824,830		1,543,824,830	0%		292,457,111	528%
7/1/2009		-	1,191,148,834		1,191,148,834	0%		296,251,570	402%
7/1/2008		-	849,412,699		849,412,699	0%		295,511,428	287%

#### Actuarial methods and assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the School System and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the School System and the plan members. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2011 actuarial valuation, the projected unit credit actuarial cost method was used. Because the School System currently finances the OPEB using the pay-as-you-go method, the discount rate is based on the historical (and expected investment that are expected to be used in financing the payment of benefits). The actuarial assumptions included a 3% investment rate of return, a 5.0% annual increase of salaries, and an annual healthcare cost trend rate of 7.61% for pre 65 and 8.46% for post 65 at July 1, 2010, decreasing to 4.5% in fiscal 2029 for pre and post 65. Future retiree contributions are assumed to increase at the health care cost trend rates. Life expectancies were based on the RP 2000 Combined Healthy Mortality Table for Small Plans projected at seven years. Turnover and disability rates were based on the School System's historical data and modified based on years of employment.

Per capita medical plan costs were developed by age separately for Medicare eligible and non Medicare eligible claimants based on retiree claims experience for May 2009 through April 2012 and adjusted for trend and plan design changes. The assumed ultimate trend rate and grade-down period are based on macroeconomic principles. These assumptions reflect assumed long term general inflation, nominal gross domestic product growth rates, and the excess of national health expenditures over other goods and services, and an adjustment for an assumed impact of population growth. Actual administrative expenses and stop-loss fees were included in the plan cost development. Claim costs by age were adjusted for increased utilization via aging and other demographic changes. Actuarial assumptions also include: (1) 80% of males and 65% of females are assumed to be married at retirement; (2) female spouses are assumed to be three years younger than males; (3) 88% of future retirees will elect medical benefits; and (4) 100% of future retirees will elect to participate in the life insurance program.

A potentially significant item in the law begins in 2018 when plans may be subject to a 40% excise tax. This tax applies mainly to high cost plans and there are significant uncertainties regarding the calculation of the excise tax. Because of those uncertainties, calculation of a precise liability for this tax is impossible at this time. Due to the uncertainty of the excise tax, no liability has been recorded in these financial statements for the year ended June 30, 2012.

The unfunded actuarial accrued liability is being amortized as a level percentage of payroll on an open basis. The remaining amortization period at July 1, 2011 was 26 years.

#### NOTES TO BASIC FINANCIAL STATEMENTS

#### 8. LONG-TERM OBLIGATIONS

The following is a summary of the changes in general long-term obligations for the year ended June 30, 2012:

	Compensated	Qualified Zone Academy	Net Postemployment Benefits	Qualified  School Construction  Bonds	
	Absences	Bonds	Obligation	2009 Series 2010 Series	Total
Balance at July 1, 2011 Additions Deductions	\$ 19,829,262 9,823,004 (10,631,959)	\$ 736,365 - (163,636)	\$ 228,691,982 80,430,946	\$ 20,093,438 \$ 21,675,000 - - (1,339,563) (1,445,000)	\$ 291,026,047 90,253,950 (13,580,158)
Balance at June 30, 2012	\$ 19,020,307	\$ 572,729	\$ 309,122,928	\$ 18,753,875 \$ 20,230,000	\$ 367,699,839

The following is a summary of the current (due in one year or less) and the long-term (due in more than one year) portions of long-term obligations as of June 30, 2012:

		Qualified Zone	Net Postemployment	Qualified School Construction	
	Compensated	Academy	Benefits	Bonds	
	Absences	Bonds	Obligation	2009 Series 2010 Series	Total
Current	\$ 2,275,909	\$ 163,636	\$ -	\$ - \$ -	\$ 2,439,545
Long-Term	16,744,398	409,093	309,122,928	18,753,875 20,230,000	365,260,294
Total	\$ 19,020,307	\$ 572,729	\$ 309,122,928	<b>\$</b> 18,753,875 <b>\$</b> 20,230,000	\$ 367,699,839

The majority of the compensated absence liability is liquidated through the General Fund, Title I, Child Nutrition and Proposition 3 funds, as these funds expend a majority of the payroll.

For the purpose of renovations, the School System issued \$2,250,000 of interest free notes payable through the federally sponsored Qualified Zone Academy Bond Program during the year ended June 30, 2002. Principal payments in the amount of \$40,909 are scheduled quarterly over a 15 year period ending November 1, 2016.

For the purpose of construction, rehabilitation, and renovations, the School System issued \$21,675,000 and \$21,433,000 of bonds payable through the federally sponsored Qualified School Construction Bond Program during the year ended June 30, 2011 and 2010, respectively. The bonds are subject to mandatory sinking fund redemption prior to maturity, including interest accrued to the redemption date on an annual basis.

#### **NOTES TO BASIC FINANCIAL STATEMENTS**

#### 8. LONG-TERM OBLICATIONS (continued)

The bond issues outstanding at June 30, 2012 are as follows:

Bond Issue	Original Issue	Interest Rates	Final Due Date	Interest to Maturity	Principal Outstanding	
Qualified Zone Academy Bonds, Series 2001, dated December 1, 2001	\$ 2,250,000	N/A	Nov. 1, 2016	\$ -	\$ 572,729	
Qualified School Construction Bonds, Series 2009 dated December 17, 2009	21,433,000	1.00	Dec. 1, 2025	2,893,455	18,753,875	
Qualified School Construction Bonds, Series 2010 dated August 1, 2010	<u>21,675,000</u>	0.75	Dec.16, 2025	<u>2.201.367</u>	<u>20,230,000</u>	
•	<u>\$_45,358,000</u>			<u>\$_5,094,822</u>	<u>\$ 39,556,604</u>	

#### Principal and interest payments are due as:

#### Years Ending

June 30	Principal			Interest		Total		
2013	\$	163,636	\$	376,893	\$	540,529		
2014		163,636		376,893		540,529		
2015		163,636		376,893		540,529		
2016		81,821		376,893		458,714		
2017		-		376,893		376,893		
2018-2022		-		1,884,465		1,884,465

In accordance with LSA-R.S. 39:562(L), the School System is legally restricted from incurring long-term bonded debt in excess of 35 percent of the assessed value of taxable property (including homestead exempt and nonexempt property) within the parish. At June 30, 2012, the statutory limit is \$1,252,496,413.

#### NOTES TO BASIC FINANCIAL STATEMENTS

#### 9. <u>UNEARNED REVENUES</u>

Unearned revenues at June 30, 2012 were as follows:

	Tax	Valorem kes Paid in Protest	<u> C</u>	USDA ommodities	Mis	scellaneous Other		Total
Major Governmental Funds:								
General Fund	\$	112,942	\$	-	\$	-	\$	112,942
Title I		-		-		7,456		7,456
Child Nutrition		<u>=</u>		178,148		<u>-</u>	_	<u>178,148</u>
Subtotal - Major Governmental Funds		112,942		178,14 <u>8</u>		<u>7,456</u>	_	298,546
Non-major Governmental Funds:								
Local Grants		-		-		10,118		10,118
Career and Technical		-		-		1		1
Diplomas Now		-		_		26,036		26,036
Alcohol and Drug Abuse		-		_		1,900		1,900
Title III		-		_		1		. 1
Exceptional Education Program		-		_		2		2
Summer Program						7,197		7,197
Subtotal - Non-major Governmental Funds				<u>=</u>	_	45,255	_	45,255
Total	<u>\$</u>	112,942	<u>\$_</u> _	<u> 178,148</u>	<u>\$</u>	52,711	<u>\$_</u>	343,801

Under a revised state law, ad valorem tax collectors are required to remit all taxes collected in protest to the taxing authority. If a protest is settled in favor of the taxpayer, the funds must be refunded to the taxpayer. The School System defers all such collections until final settlement in favor of the School System occurs.

USDA commodities represent commodities received from the U.S. Department of Agriculture. Recognition is deferred until the commodities are used.

#### 10. INTERFUND TRANSFERS

Interfund transfers for the year ended June 30, 2012, were as follows:

		Transfer from:								
	General Fund		Title I	Chi Nutr			Non-major overnmental		All Others	Total
Transfers to:	•									
General Fund	\$ -	\$	3,109,089	\$ 66	5,422	\$	2,206,753	\$	17,735	\$ 5,399,999

Total	\$ 4,570,00	0 5	3,109,089	\$ 66	,422	\$	2,206,753	\$	17,735	\$ 9,969,999

#### NOTES TO BASIC FINANCIAL STATEMENTS

#### 10. INTERFUND TRANSFERS (continued)

The purposes of interfund transfers generally are: (1) to transfer indirect cost reimbursements to the general fund from the special revenue funds, and (2) to transfer supplemental local funds for program operations from the general fund to other programs. During the year the School System received an indirect cost reimbursement from the Recovery School District in the amount of \$17,735. The balance of \$1,100,000 transferred to the proprietary funds was due to the operating deficit in the Workers' Compensation Fund during the year; the \$1,100,000 is not scheduled to be collected in the subsequent year.

#### 11. DUE TO/FROM OTHER FUNDS

The School System's consolidated cash account holds the cash of all funds. As a result, negative cash balances occur in certain funds and are in essence "financed" by the General Fund. Positive book cash balances are displayed on the Governmental Funds balance sheet as "Due from other funds," while negative cash balances are included in "Due to other Funds" on the Governmental Funds balance sheet. Individual balances due to/from other funds at June 30, 2012, which represent short-term loans, are as follows:

### NOTES TO BASIC FINANCIAL STATEMENTS

TOTAL	\$ 159,630,670	\$ (159,630,670)

#### NOTES TO BASIC FINANCIAL STATEMENTS

#### 12. <u>LITIGATION AND CONTINGENCIES</u>

The School System is a defendant in several workers' compensation, personal injury and certain personnel action lawsuits. Management and legal counsel for the School System believe that the potential claims against the School System not covered by insurance would not materially affect the System's financial position. In the normal course of operations, the School System receives grant funds from various Federal and State agencies. The grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Such audits could lead to requests for reimbursement by the grantor agency for expenditures disallowed under the terms of the grants.

#### 13. **COMMITMENTS**

At June 30, 2012, the School System had construction commitments of approximately \$22 million. The majority of these commitments will ultimately be paid out of the Proposition 1 Capital Projects Fund.

In March 2004, the School System privatized its maintenance and janitorial functions. The School System entered into a management services agreement with a privately owned company to assume maintenance services for the School System's facilities. The management services agreement includes a financial commitment from the company of \$5,000,000, which is to be used by the School System to cover certain maintenance costs. This commitment amount has been received by the School System and is being amortized on a straight-line basis over a period of ten years. Upon termination of the management services agreement by either party, for any reason, the School System must reimburse the company for the unamortized portion of the financial commitment. An additional \$750,000 was provided by Aramark to renew the contract from March 1, 2014 through February 29, 2016, which will also be amortized on a straight-line basis over this renewal period. As of June 30, 2012, the unamortized portion of the financial commitment was approximately \$1.5 million and is recorded as a deferred financial commitment in the School System's basic financial statements.

#### 14. RISK MANAGEMENT

The School System is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors or omissions; workers' compensation and health insurance for its employees. The School System uses excess insurance to reduce its exposure to large losses on insured events. The School System does not report risks covered by excess insurance as liabilities unless it is probable that those risks will not be covered by excess insurance carriers. Settlements did not exceed excess insurance coverage for each of the past three fiscal years. Additionally, there were no significant reductions in insurance coverage for any of the categories of risk.

The School System has established the following internal service funds to account for and finance these uninsured risks of loss:

#### a. Workers' Compensation Fund

The Workers' Compensation Fund accounts for the School System's workers' compensation claims. The workers' compensation limit for each accident is the statutory amount. The School System's self-insured retention is \$750,000 per accident.

#### NOTES TO BASIC FINANCIAL STATEMENTS

#### 14. **RISK MANAGEMENT** (continued)

#### b. Risk Management Fund

The Risk Management Fund accounts for the School System's property, general liability and automobile liability. The School System has self-insured retention of \$250,000 per property occurrence and self-insured retention of \$500,000 per general liability and automobile occurrence. Currently, the maximum cumulative amount of self-retention which could be paid by the School System in any one year is unlimited. The School System has purchased commercial insurance for claims in excess of the self-insured retention levels from commercial insurance carriers with a \$1,000,000 per occurrence limit.

#### c. Medical Insurance Fund

The Medical Insurance Fund accounts for the School System's group health insurance program for its active and retired employees. A maximum lifetime benefit of \$2,000,000 per employee is allowed.

A reconciliation of the unpaid claims liabilities as of June 30 follows:

		2 .		
•	Workers' Compensation Fund	Risk Management Fund	Medical Insurance Fund	Total
Unpaid claims as of July 1, 2011 Current year claims incurred and	\$ 3,497,628	\$ 4,036,563	\$ 7,388,035	\$ 14,922,226

#### NOTES TO BASIC FINANCIAL STATEMENTS

#### 14. RISK MANAGEMENT (continued)

The above unpaid claims as of June 30 include amounts for claims incurred but not yet reported, as determined from actual claims paid subsequent to year-end as well as an estimate based upon historical lag trends.

The following is a summary of the current (due in one year or less) and the long-term (due in more than one year) portions of the unpaid claims liabilities:

·	Workers' Risk Compensation Management Fund Fund			Medical Insurance Fund		Total		
June 30, 2012	•	1 242 200	•	900 221	_ _	6.664.017	_	0.717.637

Long - Term		1,931,785		2,833,033		, , , , <u>-</u>		4,764,818
Total	\$	3,497,628	\$	4,036,563	\$	7,388,035	\$	14,922,226

#### 15. RESTRICTED NET ASSETS

Restricted net assets consist primarily of amounts authorized by the electorate for capital improvements, compensation, and school discipline initiatives.

#### 16. **DEFICIT FUND EQUITY**

The Medical Insurance Fund's deficit balance as of June 30, 2012 in net assets is \$256,189,603, resulting from the implementation of a new accounting standard effective year ended 2008, requiring recognition of liabilities associated with certain post-employment health care and life insurance benefits. See Note 7. Management is currently evaluating alternatives to address this deficit, such as, providing a fully insured program for Medicare eligible retirees.

#### 17. EDUCATION EXCELLENCE FUND

Pursuant to Act #161 of the 2002 First Extraordinary Session of the Legislature, the State of Louisiana established the Education Excellence Fund (EEF) for the oversight, appropriation, and disposition of proceeds from the tobacco settlements. These funds are dedicated for use in educational programs, and are available to local school districts, subject to the approval of an expenditure plan by the Louisiana Department of Education. The funds are held and invested by the Treasurer of the State of Louisiana on behalf of local school districts and are disbursed in accordance with approved expenditure plans. At June 30, 2012, the School System's EEF funds invested through the Treasurer totaled approximately \$750,000. These funds are recognized as revenue to the School System upon submission and subsequent approval of an annual expenditure plan. The School System expended approximately \$3,900,000 during the 2011-2012 fiscal year in accordance with its respective expenditure plan.

#### **NOTES TO BASIC FINANCIAL STATEMENTS**

#### 18. RECOVERY SCHOOL DISTRICT

The Board of Elementary and Secondary Education (BESE) voted to place four (4) System schools under the jurisdiction of the Recovery School District (RSD) for the 2008-2009 school year and thereafter as provided by law. These four (4) schools are: (1) Prescott Middle School, (2) Glen Oaks Middle School, (3) Capitol Pre-College Academy for Boys, and (4) Capitol Pre-College Academy for Girls.

In January 2009, BESE voted to place twelve (12) District schools under the jurisdiction of the RSD for the 2009-2010 school year and thereafter as provided by law. These twelve (12) schools are: (1) Banks Elementary, (2) Capitol Elementary, (3) Dalton Elementary, (4) Lanier Elementary, (5) Park Elementary, (6) Capitol Middle, (7) Crestworth Middle, (8) Kenilworth Middle, (9) Claiborne Elementary, (10) Greenville Elementary, (11) Winbourne Elementary, and (12) Istrouma High.

However, Greenville Elementary was already slated to be closed for 2009-2010; and Claiborne Elementary, Winbourne Elementary, and Istrouma High will be operated pursuant to a Memorandum of Understanding (MOU) between the State Board of Elementary and Secondary Education (BESE) and the School System. Banks Elementary, Park Elementary, Capitol Elementary, and Capitol Middle would be operated pursuant to a Management Agreement between BESE and the School System; however, Banks Elementary was closed in 2011-2012. Dalton Elementary, Lanier Elementary, Crestworth Middle, and Kenilworth Middle schools will be operated as charter schools under the jurisdiction of the RSD. It should be noted that BESE released Claiborne Elementary from MOU requirements on December 10, 2009. Additionally, in April 2012 BESE decided to terminate the MOU for Istrouma High and the RSD will take over operations for fiscal year 2012-2013.

The RSD, pursuant to La. R.S. 17:1990(B)(3), is empowered to require the School System to provide school support services and student support services for a school transferred from its jurisdiction to the jurisdiction of the RSD, including but not limited to student transportation, school food services and student assessment for special education eligibility. The RSD reimburses the School System for the actual cost of services, which affects various expenditure line items.

During the year ended June 30, 2012, the School System was reimbursed \$904,404 for services provided to these schools. An appropriation of \$13,164,716 has been recorded for the RSD schools at June 30, 2012.

#### 19. SUBSEQUENT EVENT

Management has evaluated events through the date that the financial statements were available to be issued, November 15, 2012 and determined that there were no events after this date that require disclosure.

## BUDGETARY COMPARISON SCHEDULES MAJOR FUND DESCRIPTIONS

Budgetary comparison schedules are reported for the following General and Special Revenue Funds:

#### **GENERAL FUND**

The General Fund accounts for all financial transactions except those required to be accounted for in another fund.

#### **TITLE I FUND**

Title I includes programs in the areas of language development, reading, and math. These programs strive to meet the special needs of economically and educationally deprived children through federal funds for teachers, aides, instructional materials, equipment and parental involvement.

#### **PROPOSITION 2 - DISCIPLINE FUND**

Proposition 2 is a locally funded initiative to improve discipline. The intent is to remove disruptive and academically deficient students from the regular education classroom, reduce truancy and provide more effective alternative education.

#### **PROPOSITION 3 - COMPENSATION FUND**

Proposition 3 is a locally funded initiative to improve compensation. The intent is to improve ability to recruit and retain certified and qualified teachers, assistant principals and principals; to have more productive support employees; and to have the ability to reward performance that meets and/or exceeds standards.

#### **CHILD NUTRITION FUND**

The Child Nutrition Fund is used to account for the operations of the school food service program in the parish school system during the regular school term and during the summer break. The basic goals of the school food service program are to serve nutritionally adequate, attractive and moderately priced meals, to help children grow socially and emotionally, to extend educational influences to the homes of school children, and to provide learning experiences that will improve children's eating habits with the ultimate goal of physically fit adults.

#### NOTES TO REQUIRED SUPPLEMENTAL INFORMATION

#### 1. BUDGET AND BUDGETARY ACCOUNTING

The School System follows these procedures in establishing the budgetary data reflected in the financial statements:

The General Fund and the Special Revenue Funds are the only funds with legally required budgets. The General Fund budget and the Special Revenue Funds' budgets are adopted on an annual basis. These budgets include proposed expenditures and the means of financing them.

The Capital Projects fund's budget is adopted on a project basis, since such projects may be started and completed at any time during the year or may extend beyond one fiscal year.

Prior to September 15, the Superintendent submits to the Finance Committee a proposed annual appropriated budget for the General Fund for the fiscal year commencing the prior July 1. Public hearings are conducted to obtain taxpayer comments. Upon submission to the Board, the General Fund budget is legally enacted through adoption by the Board. Formal budgetary integration is employed as a management control device during the year for the General Fund and Special Revenue Funds. For the Capital Projects Fund, the level of budget control is at the fund, department or project level, and expenditures/encumbrances by policy should not exceed appropriations. The School System approves budgets at the fund level, and the Superintendent is authorized to transfer amounts between line items within any fund.

Budgets are prepared on the modified accrual basis of accounting. Unencumbered appropriations in the General Fund lapse at the end of the fiscal year. Encumbered appropriations at year end that have been approved by the Board are generally expended during the next fiscal year's operations, assuming that the underlying liability is ultimately incurred. Budgeted amounts are as originally adopted or as amended by the Board. Legally, the Board must adopt a balanced budget; that is, total budgeted revenues and other financing sources including fund balance must equal or exceed total budgeted expenditures and other financing uses. State statutes require the School System to amend its budgets when revenues plus projected revenues within a fund are expected to be less than budgeted revenues by five percent or more and/or expenditures within a fund are expected to exceed budgeted expenditures by five percent or more. The School System amended its General Fund budget once during the year, reflecting a increase of total budgeted revenues of approximately \$2 million and a decrease of total budgeted expenditures of approximately \$11 million.

Special Revenue Funds' budgets that are not grant-oriented have annual appropriated budgets adopted prior to September 15 by the Board. Grant Funds are included in Special Revenue Funds, and their budgets are adopted at the time the grant applications are approved by the grantor. Unencumbered appropriations of grant-oriented Special Revenue Funds are reappropriated at the beginning of the following fiscal year. Unencumbered appropriations of certain nongrant-oriented Special Revenue Funds lapse at the end of the fiscal year. Special Revenue Funds' budgets were amended for insignificant amounts as necessary to comply with state law.

## NON-MAJOR GOVERNMENTAL FUND DESCRIPTIONS

### TITLE II

Title II increases student academic achievement through strategies such as improving teacher and principal quality and increasing the number of highly qualified teachers in the classroom and highly qualified principals and assistant principals in schools. The program also holds local educational agencies and schools accountable for improvements in student academic achievement.

### **EDUCATION JOBS FUND - EDUCATION GRANTS, ARRA**

The Education Jobs Fund is part of The American Recovery and Reinvestment Act of 2009 (ARRA). The fund is used to assist local educational agencies in saving or creating education jobs during the 2011-2012 school year.

## GEAR UP BATON ROUGE

Gear Up Baton Rouge is a systemic effort to change teaching and learning in two middle schools with students who qualify in overwhelming numbers for free and reduced lunch. The goals of the grant are: 1) Increase articulation success through primary and secondary education and into post secondary education; 2) Increase high school graduation and post secondary education attendance rates within low income student populations; 3) Increase academic performance of low income students; 4) Enhance school academic and curricular reforms through professional development for teachers and through active involvement in school improvement teams; 5) Provide for project evaluation; 6) Coordinate project dissemination at the local, state, regional, and national levels.

## **EXCEPTIONAL EDUCATION PROGRAM**

The Individuals with Disabilities Act (IDEA) is a federally-financed program providing free appropriate education for all identified handicapped children from 3 to 21 years of age in the least restrictive environment.

## **ALCOHOL AND DRUG ABUSE**

The Alcohol and Drug Abuse Prevention Fund sponsors the prevention of alcohol and drug abuse among children of East Baton Rouge Parish schools. It is funded by ad valorem taxes and donations.

### CAREER AND TECHNICAL EDUCATION

The Career and Technical Education Fund accounts for a program designed to administer various vocational programs which provide vocational training and assistance.

### <u>TITLE X – HOMELESS - ARRA</u>

The Homeless Fund is part of The American Recovery and Reinvestment Act of 2009 (ARRA). The fund ensures that all homeless children and youth have equal access to the same free, appropriate public education available to other children. The Education for Homeless Children and Youth program provides assistance to States, Outlying Areas, and the Bureau of Indian Education (BIE) to: (1) establish or designate an Office of Coordinator of Education of Homeless Children and Youths; (2) develop and carry out a State plan for the education of homeless children; and (3) make subgrants to local educational agencies to support the education of those children.

## NON-MAJOR GOVERNMENTAL FUND DESCRIPTIONS (continued)

### EDUCATIONAL TECHNOLOGY STATE GRANTS, ARRA - TITLE II

The Education Technology State Grants, Recovery Act – Title II fund is to improve students' academic achievement through the state use of technology in schools; assist all students in becoming technologically literate by the end of eighth grade; and encourage the effective integration of technology with teacher training and curriculum development to establish successful research-based instructional methods.

## **TEMPORARY ASSISTANCE FOR NEEDY FAMILIES**

The Pre-GED/Skills Option Program is a comprehensive counseling and guidance program with components for pre-GED academic, workplace readiness and skills instructions for students who are at risk of dropping out of high school.

Starting Points/Early Childhood Development provides full day, before and after school preschool instruction and care for at-risk four-year old students.

## STATE GRANTS

The State Grants Fund is used to account for special grants received from various departments of the State of Louisiana.

### **CONTINUING EDUCATION**

The Continuing Education Fund is a program which offers higher education opportunities to persons who are age 16 and older.

### TITLE IV

The Title IV School Program is a federally funded program which provides drug abuse and prevention education for all students of East Baton Rouge Parish.

### **LOCAL GRANTS**

Grants from various private foundations provide additional support for educational programs. Program areas include teacher minigrants, math improvement, remediation, staff development and homeless youth activities.

## CHILDCARE ASSISTANCE/BIG BUDDY PROGRAM

The Childcare Assistance Fund is used to account for federal funding to be used to cooperate with Big Buddy in the implementation of an extended day after school child care program.

## NON-MAJOR GOVERNMENTAL FUND DESCRIPTIONS (continued)

### **SUMMER SCHOOL**

The Summer School Program is designed to provide summer programs enabling students who have failed subjects to remove deficiencies, enroll in courses to enrich their educational experiences, and to enable students to take additional courses in order to meet graduation requirements. Revenues for the fund are generated through a registration fee charged to each student for each class taken.

### YOUTH BUILD

The Youth Build grant funds is used to provide disadvantaged youth with: (1) the education and employment skills necessary to achieve economic self sufficiency in occupations in high demand and postsecondary education and training opportunities; (2) opportunities for meaningful work and service to their communities; and (3) opportunities to develop employment and leadership skills and (4) a commitment to community development among youth in low-income communities. As part of their programming, Youth Build grantees tap the energies and talents of disadvantaged youth to increase the supply of permanent affordable housing for homeless individuals and low-income families and to assist youth develop the leadership, learning, and high-demand occupational skills needed to succeed in today's global economy.

## **DIPLOMAS NOW**

The Diplomas Now Fund is used to account for federal funding to be used for the participation in the Diplomas Now Secondary School Turnaround Evaluation Project with MDRC, a Delaware not-for-profit corporation.

### WBRH RADIO STATION TRAINING PROGRAM

The WBRH Radio Station Training Program Fund accounts for the operations of the radio station and the training of students involved in radio training.

## TECHNOLOGY LITERACY CHALLENGE (Title III)

Title III is a provision of the federally legislated Goals 2001: Educate America Act. The funds provide instructional and technical training for classroom teachers.

## <u>HEAP</u>

The HEAP program provides funding to Louisiana, Mississippi, and Alabama to help recruit, retain, and compensate educators who commit to work for at least three years in an area in which a major disaster area was declared as a result of Hurricane Katrina or Hurricane Rita. Consistent with the legislation, the U.S. Department of Education will base allocations on the number of public elementary and secondary schools in each state that were closed for 19 days or more during the period beginning on Aug. 29, 2005 and ending on Dec. 31, 2005, due to Hurricane Katrina or Hurricane Rita.

### READING FIRST

The Reading First program provides the necessary assistance to states and districts to establish research-based reading programs for students in kindergarten through third grade. By teaching all children to read well by the end of third grade, we will ensure that all students advance to later grades well prepared to achieve their full academic potential.

## NON-MAJOR GOVERNMENTAL FUND DESCRIPTIONS (continued)

### **SAFE & SUPPORTIVE SCHOOLS**

The Safe & Supportive Schools fund accounts for a grant to assist persistently low performing LEAs to develop a systematic approach to improving conditions for learning by using data as a tool for identifying patterns of failure, diagnosing problems, developing appropriate interventions and strategies, and monitoring progress for continuous improvement.

### ADVANCED PLACEMENT

The Advanced Placement Program accounts for grants to support state and local efforts to increase access to advanced placement classes and tests for low-income students and to cover part or all of the cost of testing fees for low-income students enrolled in advanced placement courses.

### **TEXTBOOK FUND**

The Textbook Fund is used to account for textbooks purchased for East Baton Rouge Parish School System students, as well as, State-approved nonpublic schools.

## **POSITIVE BEHAVIORAL INTERVENTION & SUPPORT FUND**

The Positive Behavioral Intervention & Support Fund accounts for a federal grant established by the Office of Special Education Programs, US Department of Education to give schools capacity-building information and technical assistance for identifying, adapting, and sustaining effective school-wide disciplinary practices.

### LSU NATIONAL SCIENCE FOUNDATION FUND

The LSU National Science Foundation Fund is used to account for federal monies received through LSU to provide leadership and ensure the vitality of the Nation's science, technology, engineering and mathematics (STEM) education enterprise.

#### FIDUCIARY FUND TYPE - AGENCY FUNDS DESCRIPTIONS

#### CONSOLIDATED PAYROLL FUND

The Consolidated Payroll Fund was established to account for the payroll deductions and withholdings for all employees paid by the School System.

#### SCHOOL ACTIVITY FUND

The activities of the various individual school accounts are accounted for in the School Activity Fund. While the fund is under the supervision of the School System, these monies belong to the individual schools or their student bodies and are not available for use by the School System.

# ANNUAL

FINANCIAL REPORT

SECTION

#### STATISTICAL SCHEDULE DESCRIPTIONS

This part of the School System's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information states about the School System's overall financial health.

#### FINANCIAL TRENDS

These schedules contain trend information to assist the reader in understanding how the School System's financial position and wellbeing have changed over time.

- Net Assets By Component Last Ten Fiscal Years
- Changes in Net Assets Last Ten Fiscal Years
- Fund Balances of Governmental Funds Last Two Fiscal Years
- Changes in Fund Balances of Governmental Funds Last Ten Fiscal Years

#### REVENUE CAPACITY

These schedules contain information to help the reader assess the School System's ability to generate own-source revenues, namely the property tax.

- Assessed and Estimated Actual Value of Taxable Property Last Ten Tax Years
- Principal Property Taxpayers Current Year and Nine Years Ago
- Property Tax Rates and Tax Levies Direct and Overlapping Governments Last Ten Tax Years
- Property Tax Levies and Collections Last Ten Tax Years
- Sales Tax Revenues Last Ten Calendar Years
- Taxable Sales by Category General Sales and Use Tax Last Ten Calendar Years

#### **DEBT CAPACITY**

These schedules present information to help the reader assess the affordability of the School System's current levels of outstanding debt and the School System's ability to issue additional debt in the future.

- Ratios of Outstanding Debt by Type Last Ten Fiscal Years
- Computation of Legal Debt Margin Last Ten Tax Years
- Computation of Direct and Overlapping Debt December 31, 2011

#### **DEMOGRAPHIC AND ECONOMIC INFORMATION**

These schedules offer demographic and economic indicators to help the reader understand the environment within which the School System's financial activities take place.

- Demographic Statistics Last Ten Fiscal Years
- Principal Employers Current Year and Nine Years Ago

#### STATISTICAL SCHEDULE DESCRIPTIONS (continued)

#### **OPERATING INFORMATION**

These schedules contain service and infrastructure data to help the reader understand how the information in the School System's financial report related to the services the School System provides and the activities it performs.

- General Fund Expenditures by Function Last Ten Fiscal Years
- General Fund Expenditures by Function Per Pupil Last Ten Fiscal Years
- Full-Time Equivalents (FTE) Employees Last Ten Fiscal Years
- Board Members' Compensation June 30, 2012
- Percentage of Free and Reduced Students in Lunch Program Last Ten Fiscal Years
- History of High School Graduates Last Ten Fiscal Years
- Capital Asset Information June 30, 2012

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The School System implemented GASB Statement No. 34 with the fiscal year beginning July 1, 2000; therefore, schedules presenting government-wide information include information beginning with June 30, 2001.

#### \*Actual Valuation (Market Value) as Compared to Assessed Valuation

Residential properties are assessed at 10% of fair market value; other property and electric cooperative properties, excluding land, are to be assessed at 15%; and public service properties, excluding land, are to be assessed at 25% of fair market value.

The overall assessed value is estimated to be 11% of actual market value.

The tax levies represent the original levy of the Assessor and include the homestead exemption amount.

All taxes are billed when assessment rolls are filed during the month of November of the current tax year. Taxes become delinquent on January 1 of the following year. Penalty for delinquent taxes is 15% per annum. No discounts are allowed for taxes, and there is no provision for partial payments.

Taxpayers who have not paid their taxes by January 2 of each year are notified by the Sheriff through registered mail that all taxes must be paid within 20 days from the date of notice. After expiration of the 20th day, the Sheriff shall sell the least quantity of property of any debtor which any bidder will buy for the amount of taxes, interest and cost due.

By agreement, the East Baton Rouge Parish Sheriff is the tax collector for City property taxes and receives a commission of 4.5% of total taxes collected for the City. The Sheriff, as provided by State Law, is the official tax collector of general property taxes levied by the Parish and Parish Special Districts.

2002		85,045,184	82,718,422	97.3		706,402		83,424,824	98.1

<sup>(1) &</sup>quot;Total Tax Levy" represents the original levy of the Assessor, less the amount of homestead exemption, and is the amount to be paid by the taxpayer.

The amounts to be paid by the taxpayer are ultimately collected in full, except for adjustments due to assessment errors and delayed homestead exemptions. The amount paid by the State Treasurer for homestead exemption is based on an appropriation formula by the State of Louisiana.

•	297,647,514	14,035,616	283,611,898	
TOTAL DIRECT AND OVERLAPPING DEBT	\$ 340,152,317	\$ 16,983,815	\$ 323,168,502	

Overlapping governments are those that coincide at least in part, with the geographic boundaries of the parish. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government. The percentage of overlapping debt applicable is estimated using assessed property values and calculated by determining the portion of the district's taxable assessed value within East Baton Rouge Parish and dividing it by the Parish's total taxable assessed value. The percentage is estimated to be 100%.

# REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

East Baton Rouge Parish School System Baton Rouge, Louisiana

We have audited the financial statements of the East Baton Rouge Parish School System as of and for the year ended June 30, 2012, and have issued our report thereon dated November 15, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

#### Internal Control Over Financial Reporting

Management of the School System is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the East Baton Rouge Parish School System's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the East Baton Rouge Parish School System's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the East Baton Rouge Parish School System's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the East Baton Rouge Parish School System's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

### Page 2 of 2

This report is intended for the information of the East Baton Rouge Parish School System, management, federal and state awarding agencies, and the Louisiana Legislative Auditor and is not intended to be and should not be used by anyone other than these specified parties. However, under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

## REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

East Baton Rouge Parish School System Baton Rouge, Louisiana

#### Compliance

We have audited the compliance of the East Baton Rouge Parish School System with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012. The East Baton Rouge Parish School System's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal programs is the responsibility of the East Baton Rouge Parish School System's management. Our responsibility is to express an opinion on the East Baton Rouge Parish School System's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the East Baton Rouge Parish School System's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the East Baton Rouge Parish School System's compliance with those requirements.

In our opinion, the East Baton Rouge Parish School System complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012.

#### Internal Control Over Compliance

Management of the East Baton Rouge Parish School System is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the East Baton Rouge Parish School System's internal control over compliance with requirements that could have a direct and material effect on major federal programs in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the East Baton Rouge Parish School System's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

#### Schedule of Expenditures of Federal Awards

We have audited the basic financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of East Baton Rouge Parish School System as of and for the year ended June 30, 2012, and have issued our report thereon dated November 15, 2012, which contained unqualified opinions on those financial statements. Our audit was performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects, in relation to the financial statements taken as a whole.

This report is intended for the information and use of the East Baton Rouge Parish School System, management, federal and state awarding agencies and the Louisiana Legislative Auditor and is not intended to be and should not be used by anyone other than these specified parties. However, under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

Paththwait & Methwilly Baton Rouge, Louisiana November 15, 2012

#### EAST BATON ROUGE PARISH SCHOOL SYSTEM

#### NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED JUNE 30, 2012

#### **NOTE A - BASIS OF PRESENTATION**

The accompanying schedule of expenditures of federal awards includes the federal grant activity of East Baton Rouge Parish School System and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

#### **NOTE B - FOOD DISTRIBUTION**

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed. During the year ended June 30, 2012, the School System received commodities valued at \$1,270,123. At June 30, 2012, the organization had food commodities totaling \$178,148 in inventory.

### Independent Accountants' Report On Applying Agreed-Upon Procedures

To the Members of the
East Baton Rouge Parish School System

We have performed the procedures included in the Louisiana Governmental Audit Guide and enumerated below, which were agreed to by the management of East Baton Rouge Parish School System and the Legislative Auditor, State of Louisiana, solely to assist users in evaluating management's assertions about the performance and statistical data accompanying the annual financial statements of East Baton Rouge Parish School System and to determine whether the specified schedules are free of obvious errors and omissions as provided by the Board of Elementary and Secondary Education (BESE) Bulletin. This agreed-upon procedures engagement was performed in accordance with standards established by the American Institute of Certified Public Accountants and applicable standards of Government Auditing Standards. The sufficiency of these procedures is solely the responsibility of the specified users of the report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Our procedures and findings relate to the accompanying schedules of supplemental information and are as follows:

General Fund Instructional and Support Expenditures and Certain Local Revenue Sources (Schedule 1)

#### Procedure #1:

We will select a random sample of 25 transactions and review supporting documentation to determine if the sampled expenditures/revenues are classified correctly and are reported in the proper amounts for each of the following amounts reported on the schedule:

- Total General Fund Instructional Expenditures.
- Total General Fund Equipment Expenditures,
- Total Local Taxation Revenue,
- Total Local Earnings on Investment in Real Property.
- Total State Revenue in Lieu of Taxes,
- Nonpublic Textbook Revenue, and
- Nonpublic Transportation Revenue.

#### Results of Procedure # 1:

In performing the testing on the sample of expenditures/revenues, we noted no transactions that were inappropriately classified or were recorded at an inappropriate amount.

#### Education Levels of Public School Staff (Schedule 2)

#### Procedure # 2

We will reconcile the total number of full-time classroom teachers per the schedule "Experience of Public Principals and Full-time Classroom Teachers" (Schedule 4) to the combined total number of full-time classroom teachers per this schedule and to school board supporting payroll records as of October 1st.

#### Results of Procedure # 2:

No differences were noted between the number of full-time classroom teachers per schedule 4 and schedule 2, or between the schedules and the October 1 payroll records.

#### Procedure # 3

We will reconcile the combined total of principals and assistant principals per the schedule "Experience of Public Principals and Full-time Classroom Teachers" (Schedule 4) to the combined total of principals and assistant principals per this schedule and to the school board supporting payroll records as of October 1st.

#### Results of Procedure # 3

No differences were noted between the number of principals and assistant principals per schedule 4 and schedule 2, or between the schedules and the October 1 payroll records.

#### Procedure # 4

We will obtain a list of full-time teachers, principals, and assistant principals by classification as of October 1st and as reported on the schedule. We will trace a random sample of 25 teachers to the individual's personnel file and determine if the individual's education level was properly classified on the schedule.

#### Results of Procedure # 4:

No differences were noted between the education levels of the full-time teachers, principals, and assistant principals per schedule 2 and the personnel files.

#### Number and Type of Public Schools (Schedule 3)

#### Procedure # 5

We will obtain a list of schools by type as reported on the schedule. We will compare the list to the schools and grade levels as reported on the Title 1 Grants to Local Educational Agencies (CFDA 84.010) application and/or the National School Lunch Program (CFDA 10.555) application.

#### Results of Procedure # 5:

No differences were noted between the number of elementary schools per schedule 3 and the National School Lunch Program.

#### Experience of Public Principals, Assistant Principals, and Full-time Classroom Teachers (Schedule 4)

#### Procedure #6

We will obtain a list of full-time teachers, principals, and assistant principals by classification as of October 1 and as reported on the schedule and trace the same sample used in procedure 4 to the individual's personnel file and determine if the individual's experience was properly classified on the schedule.

#### Results of Procedure # 6:

In our sample of 25 employees, no discrepancies existed between the aforementioned listing and the schedule.

#### Public School Staff Data: Average Salaries (Schedule 5)

#### Procedure #7

We will obtain a list of all classroom teachers including their base salary, extra compensation, and ROTC or rehired retiree status as well as full-time equivalent as reported on the schedule and trace a random sample of 25 teachers to the individual's personnel file and determine if the individual's salary, extra compensation, and the full-time equivalents were properly included on the schedule.

#### Results of Procedure # 7:

In our sample of 25 employees, no discrepancies existed between the aforementioned listing and the schedule.

#### Procedure #8

We will recalculate the average salaries and full-time equivalents reported in the schedule.

#### Results of Procedure #8:

We noted no differences between the averages reported on the schedule and our calculations.

#### Class Size Characteristics (Schedule 6)

#### Procedure #9

We will obtain a list of classes by school, school type, and class size as reported on the schedule and reconcile school type classifications to Schedule 3 data, as obtained in procedure 5. We will then trace a random sample of 10 classes to the October 1st roll books for those classes and determine if the class was properly classified on the schedule.

#### Results of Procedure #9

In our sample of 10 classes, no discrepancies in the class size classifications were noted.

#### Louisiana Educational Assessment Program (LEAP) for the 21st Century (Schedule 7)

#### Procedure # 10

We will obtain test scores as provided by the testing authority and reconcile scores as reported by the testing authority to scores reported in the schedule by East Baton Rouge Parish School System.

#### Results of Procedure # 10:

No differences were noted.

#### The Graduation Exit Examination (GEE) for the 21st Century (Schedule 8)

#### Procedure # 11

We will obtain test scores as provided by the testing authority and reconcile scores as reported by the testing authority to scores reported in the schedule by East Baton Rouge Parish School System.

#### Results of Procedure #11

No differences were noted.

#### The IOWA and iLEAP Tests (Schedule 9)

#### Procedure # 12

We will obtain test scores as provided by the testing authority and reconcile scores as reported by the testing authority to scores reported in the schedule by East Baton Rouge Parish School System.

#### Results of Procedure # 12

No differences were noted.

# EXHIBIT F Page 5 of 5

We were not engaged to and did not perform an examination, the objective of which would be the expression of an opinion on management's assertions. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the use of management of East Baton Rouge Parish School System, the Louisiana Department of Education, the Louisiana Legislature, and the Legislative Auditor, State of Louisiana, and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

Postlethwart & Mettervilly
Baton Rouge, Louisiana
November 15, 2012

# Schedules Required by State Law (R.S. 24:514 - Performance Measurement Data) As of and for the Year Ended June 30, 2012

### Schedule 1 - General Fund Instructional and Support Expenditures and Certain Local Revenue Sources

This schedule includes general fund instructional and equipment expenditures. It also contains local taxation revenue, earnings on investments, revenue in lieu of taxes, and nonpublic textbook and transportation revenue. This data is used either in the Minimum Foundation Program (MFP) formula or is presented annually in the MFP 70% Expenditure Requirement Report.

#### Schedule 2 - Education Levels of Public School Staff

This schedule includes the certificated and uncertificated number and percentage of full-time classroom teachers and the number and percentage of principals and assistant principal's with less than a Bachelor's; Master's +30; Specialist in Education; and Ph. D or Ed. D. degrees. This data is currently reported to the Legislature in the Annual Financial and Statistical Report (AFSR).

#### Schedule 3 - Number and Type of Public Schools

This schedule includes the number of elementary, middle/junior high, secondary and combination schools in operation during the fiscal year. This data is currently reported to the Legislature in the Annual Financial Statistical Report (AFSR).

### Schedule 4 - Experience of Public Principals, Assistant Principals, and Full-time Classroom Teachers

This schedule includes the number of years of experience in teaching for assistant principals, and full-time classroom teachers. This data is currently reported to the Legislature in the Annual Financial and Statistical Report (AFSR).

#### Schedule 5 - Public School Staff Data: Average Salaries

This schedule includes average classroom teacher's salary using full-time equivalents, including and excluding ROTC and rehired retiree teachers. This data is currently reported to the Legislature in the Annual Financial and Statistical Report (AFSR).

#### Schedule 6 - Class Size Characteristics

This schedule includes the percent and number of classes with student enrollment in the following ranges: 1-20, 21-26, 27-33, and 34+ students. This data is currently reported to the legislature in the Annual School Report (ASR).

#### Schedule 7 - Louisiana Educational Assessment Program (LEAP)

This schedule represents student performance testing data and includes summary scores by district for grades 4 and 8 in each category tested. Scores are reported as Advanced, Mastery, Basic, Approaching Basic, and Unsatisfactory. This schedule includes three years of data.

#### Schedule 8 - The Graduation Exit Exam

This schedule represents student performance testing data and includes summary scores by district for grades 10 and 11 in each category tested. Scores are reported as Advanced, Mastery, Basic, Approaching Basic, and Unsatisfactory. This schedule includes three years of data.

#### Schedule 9 - The LEAP Tests

This schedule represents student performance testing data and includes a summary score for grades 3, 5, 6, 7 and 9 for each district. The summary score reported is the National Percentile Rank showing relative position or rank as compared to a large, representative sample of students in the same grade from the entire nation. This schedule includes three years of data.

Classroom Teachers	245	327	930	340	292	239	683	3,056
Total	245	327	949	362	309	269	750	3,201

Public School Staff Data: Average Salaries

For the Year Ended June 30, 2012

	All Classroom Teachers	Classroom Teachers Excluding ROTC and Rehired Retiress
Average Classroom Teachers' Salary Including Extra Compensation	52,107.75	51,711.66
Average Classroom Teachers' Salary Excluding Extra Compensation	50,998.73	50,596.84
Number of Teacher Full-time Equivalents (FTEs) used in Computation of Average Salaries	3,296.53	3,210.60

Note: Figures reported include all sources of funding (i.e., federal, state, and local) but exclude stipends and employee benefits. Generally, retired teachers rehired to teach receive less compensation than non-retired teachers and ROTC teachers usually receive more compensation because of a federal supplement. For these reasons, these teachers are excluded from the computation in the last column. This schedule excludes day-to-day substitutes and temporary employees.

Class Size Characteristics As of October 1, 2011

		Class Size Range											
	1 - 20		21 - 26		27 - 33		34+						
School Type	Percent	Number	Percent	Number	Percent	Number	Percent	Number					
Elementary	34%	2,977	46%	4,028	19%	1,775	1%	60					
Elementary Activity Classes	37%	586	42%	665	20%	312	1%	18					
Middle/Jr. High	42%	1,428	24%	805	21%	698	13%	454					
Middle/Jr. High Activity Classes	29%	151	14%	72	20%	102	37%	187					
High	48%	2,311	15%	721	17%	823	20%	959					
High Activity Classes	80%	924	7%	84	6%	70	7%	75					
Combination	90%	187	8%	16	2%	5	0%	_					
Combination Activity Classes	92%	34	3%	1	5%	2	0%	-					

**Note:** The Board of Elementary and Secondary Education has set specific limits on the maximum size of classes at various grade levels. The maximum enrollment in grades K-3 is 26 students and maximum enrollment in grades 4-12 is 33 students. These limits do not apply to activity classes such as physical education, chorus, band, and other classes without maximum enrollment standards. Therefore, these classes are included only as separate line items.

Please note that the grade 9 ILEAP has been dropped by the Department of Education, everything at that level was moved to end of course testing.

The Department of Education will be reviewing End of Course Testing and its potential inclusion for Assurance purposes in time for Assurance submissions next year.
