October 17, 2022

Board of Directors, Louisiana Lottery Corporation  
Rose J. Hudson, President, Louisiana Lottery Corporation

## **INTRODUCTION**

The Louisiana Lottery Corporation is pleased to submit its Annual Comprehensive Financial Report for the fiscal years ended June 30, 2022 and 2021. Lottery management is responsible for the accuracy and completeness of all data and disclosures in this report. To the best of our knowledge, the information presented is accurate and complete in all material respects and fairly depicts the financial activities and position of the Lottery.

This report is organized into four sections. The introductory section includes this letter of transmittal and an organizational chart. The financial section includes the independent auditor's report, management's discussion and analysis, and the audited financial statements with accompanying notes. Historical, demographic, and industry comparative data are presented in the statistical section of this report. A report on compliance and internal control is included in the last section.

The Louisiana Lottery Corporation was created in October 1990 and began operating on January 15, 1991. Ticket sales began on September 6, 1991. The mission is to generate the maximum revenue for the state of Louisiana while upholding the highest standards of integrity and public trust.

The Lottery is considered a component unit of the State of Louisiana and is reported as a discrete component unit within the state's Annual Comprehensive Financial Report. The fund is operated in a manner similar to a private business enterprise.

During its 31 years of operation, the Lottery has offered a variety of instant and draw-style products. The instant games consist of preprinted "scratch-off" tickets, which contain various symbols and captions covered by latex material. Players instantly determine the winning or non-winning status of their tickets by removing the latex. Draw-style game tickets are produced through terminals at lottery

retailer locations based on player instructions for number selection. Drawings are conducted to determine winning combinations. Pick 5 was introduced during the fiscal year with sales beginning August 1, 2021. An instant-win fast play game was introduced at the end of the 2021 fiscal year. Tickets are produced at retailer terminals with an instant indication of any prize winnings. Historical data for all lottery products are presented in the financial and statistical sections of this report.

## **FINANCIAL CONDITION, ACCOMPLISHMENTS, AND POLICIES**

Current year operating performance was very positive. Total sales of \$583.0 million and payments to the state treasury of \$191.2 million were at the second highest levels ever in the thirty-one-year history of the Lottery. General operating expenses were \$1.0 million under budget. Net position was \$12.1 million as of June 30, 2022.

Cash and investments were \$63.9 million as of June 30, 2022. These funds are available to fund current liabilities for prizes and operations, supplement the long-term funding of enhanced instant game prizes, provide some reserves for funding potential prize liabilities, and maintain some financial protection from future unexpected costs. Liquidity is stable because working capital is continuously replenished through the weekly collection of net sales proceeds from Lottery retailers.

Investment policies and cash forecasting methods have generated interest earnings of approximately \$750,000. Cash positions not needed for daily funding of operations are invested in a money market mutual fund or an intermediate-term investment portfolio.

An analysis of comparative financial data is included in *Management's Discussion and Analysis* beginning on page 12. The notes to the financial statements that begin on page 25 contain information about investments (note 3), prize liabilities (note 8), risk management (note 12), and net position (note 13). A historical perspective of the Corporation's performance and financial condition is included in the statistical section beginning on page 42.

## **GOVERNMENT FINANCE OFFICERS ASSOCIATION CERTIFICATE OF ACHIEVEMENT**

The Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting (page 7) to the Louisiana Lottery Corporation for its annual comprehensive financial report for the fiscal year ended June 30, 2021. This was the twenty fourth consecutive year that the Lottery has achieved this prestigious award. To be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

## **ORGANIZATIONAL INFORMATION**

### **Enterprise Operations**

The corporate structure of the Lottery enables it to be managed in an entrepreneurial and business-like manner. The Louisiana Lottery's basic business purpose is to provide enjoyable and secure lottery games to the people of the state of Louisiana while maximizing transfers to the state's Lottery Proceeds Fund. The operations involve the sale of lottery tickets, the determination of winning tickets, the payment of prizes, compensation to lottery retailers, and all necessary administrative functions. As intended by the enabling statutes, the Corporation is accountable to the governor, the legislature, and the people of the state through a system of audits, reports, legislative oversight, and thorough financial disclosure.

Operational results are included in the financial and statistical sections of this report.

### **Internal Control Framework**

Management is responsible for the design and operation of the control environment and corporate policies and procedures. An effective control system operating as intended prevents or detects material errors or misstatements. Inherently, most controls cannot provide complete effectiveness and the cost of operating the controls should not exceed the anticipated benefits. However, the internal control structure should provide reasonable assurance that corporate objectives will be achieved in the following categories:

- Reliability of financial reporting
- Safeguarding of corporate assets
- Compliance with applicable laws and regulations

Management has assigned responsibilities and designed processes to prevent potential conflicts of interest or unilateral control of critical functions. The Lottery has segregated duties in several key areas including the following:

- Human resources and payroll processing
- Daily cash management and bank account reconciliations
- Cash disbursement authorization and bank account reconciliations
- Purchasing and accounts payable
- Cash disbursement authorization and accounts payable
- Retailer licensing and retailer accounts receivable
- General ledger accounts receivable and retailer accounts receivable

- Data center processing and programming
- Drawing department and information systems department

Operational policies and procedures have been established to communicate management guidelines and requirements for daily operations. Employee compliance with these standards is constantly monitored and evaluated.

### **Budgetary Controls**

The Corporation is required to submit its annual fiscal year budget to the Board of Directors and the Joint Legislative Committee on the Budget for review and approval. All levels of management are involved in the budgeting process. Available resources are determined based on projected revenue and are allocated to specific areas based on the goals and objectives contained in the Lottery's strategic plan. Operational efficiency is emphasized to direct resources to areas that are expected to maximize revenues, profitability, and the return to the State of Louisiana.

Actual performance is compared to the approved budget monthly. Variances are monitored, and plans are reviewed for potential adjustments.

### **Cash Management**

Cash due from retailers for lottery transactions is collected on a weekly basis through an electronic funds transfer system and deposited into an operating account. Operating cash balances are used to fund daily lottery operations such as prize and vendor payments. Some cash is invested in a U.S. government securities money market mutual fund. Funds not needed for liquidity purposes are invested in a portfolio of intermediate-term U.S. government and agency securities. All investment purchases are restricted by guidelines contained in a board-adopted Investment Policy Statement and all associated state statutes.

### **Risk Management**

The Lottery has purchased various commercial insurance policies for protection from significant economic loss. These policies include coverage for standard automobile liability, general liability, worker's compensation claims, property, electronic data processing equipment, crimes against the corporation, directors' and officers' liability, errors and omissions, cyber risk liability, and retirement plan fiduciary liability. In addition, contracts for major purchases of goods or services contain requirements for vendor indemnification of the Lottery and vendor insurance and performance bond coverages. Management has also segregated a portion of net position for a litigation and prize reserve to cover unanticipated losses.

### **MAJOR INITIATIVES**

Management has developed a vision statement and a long-term strategic plan. The vision statement reads as follows:

“We are a dynamic, dedicated team of innovative professionals using cutting-edge technology to produce fun and engaging products for our customers.”

The strategic plan supports this vision through projects structured toward innovation, increased customer value, operational improvements, corporate citizenship, improved workforce competence and skills, effective information and technology systems, and supportive values and practices.

The plan and related projects were implemented in the 2011-2012 fiscal year, have been updated periodically, and will continue in the 2022-2023 fiscal year.

## **INDEPENDENT AUDIT**

The Louisiana Legislative Auditor performs an annual audit of the Lottery’s financial statements as required by Louisiana statutes. The audits are conducted in accordance with generally accepted auditing standards and generally accepted government auditing standards. The independent auditor’s opinion on the Lottery’s financial statements for the years ended June 30, 2022, and June 30, 2021, is included in the financial section of this report.

## **ACKNOWLEDGMENTS**

The Accounting Department staff prepared each section of the Annual Comprehensive Financial Report. Their efforts have greatly contributed to the success of this informative document. In addition, we appreciate the efforts of the Legislative Auditor’s Office in providing assistance with technical requirements.

We are committed to providing thorough and relevant financial information to the users of our financial statements. Our preparation of this Annual Comprehensive Financial Report reflects this commitment. The additional presentations and disclosures required will assist readers in obtaining an understanding of the Lottery’s historical and current financial results.

LOUISIANA LOTTERY CORPORATION  
STATE OF LOUISIANA**  
Baton Rouge, Louisiana

**Report on the Audit of the Financial Statements**

***Opinion***

We have audited the financial statements of the Louisiana Lottery Corporation (Corporation), a component unit of the state of Louisiana, as of and for the years ended June 30, 2022, and June 30, 2021, and the related notes to the financial statements, which collectively comprise the Corporation's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the Corporation as of June 30, 2022, and June 30, 2021, and the respective changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Corporation, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

***Emphasis of Matter***

As disclosed in Note 1.G, Note 6, and Note 10 to the financial statements, the Corporation implemented Government Accounting Standards Board Statement No. 87, *Leases*, for the year ended June 30, 2022. As a result, the Corporation now recognizes certain lease assets, liabilities, and lease amortization for leases that previously were classified as operating leases and rent expense. The implementation was applied retroactively and prior period balances presented in the statements and notes were restated for leased assets, lease amortization, accumulated amortization, and leases payable for the year ended June 30, 2021. Our opinion is not modified with respect to this matter.

***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Corporation's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently-known information that may raise substantial doubt shortly thereafter.

***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, internal omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Corporation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, amount other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 12 through 19 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinion on the basic financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated October 17, 2022, on our consideration of the Corporation's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Corporation's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Corporation's internal control over financial reporting and compliance.

Respectfully submitted,

Michael J. "Mike" Waguespack, CPA  
Legislative Auditor

**LOUISIANA LOTTERY CORPORATION  
STATE OF LOUISIANA  
PROPRIETARY FUND - ENTERPRISE FUND**

**Management's Discussion and Analysis  
For the Years Ended June 30, 2022, and June 30, 2021**

This discussion of the Louisiana Lottery Corporation's financial statements provides an overview and analysis of the Corporation's financial results and position for the fiscal years ended June 30, 2022, and June 30, 2021. Please read it in conjunction with the financial statements and notes to the financial statements.

Our annual report consists of three types of financial statements and accompanying notes that provide narrative explanations and additional details of accounting policies, account balances and activities. Account balances and activities are shown as of and for the fiscal year ended June 30, 2022, with comparative totals for June 30, 2021. The statement of net position; the statement of revenues, expenses, and changes in fund net position; and the notes are presented using the accrual method of accounting. Under this method, financial transactions are recorded when earned or incurred regardless of when cash is received or disbursed. The statement of cash flows reflects cash receipts and disbursements during the fiscal year.

The statement of net position on page 20 includes all assets, liabilities, and net position of the Corporation. Assets consist of money held in investments and bank accounts, amounts owed to the Corporation from licensed lottery retailers and other outside parties, property, and other financial resources. Liabilities represent amounts owed to vendors, employees for wages and benefits, prize winners and the state treasury. Assets and liabilities are classified as either current or noncurrent. A current classification indicates that an asset or liability is expected to be received or paid, respectively, within the subsequent one-year period while a noncurrent classification indicates a period of greater than one year. Net position represents the portion of assets that are not encumbered by liabilities. It serves as an indicator of the net worth of the Corporation.

A summary of the financial results of operations for the reported 12-month period is presented in the statement of revenues, expenses, and changes in fund net position on pages 21 and 22. The categories of activities included on this statement provide reasons for increases or decreases in net position. Operating revenues include sales of lottery tickets and other fees associated with the Corporation's network of retailers and operations. Direct costs and administrative expenses comprise the operating expenses section of this report. Direct costs are variable expenses that fluctuate with the level of sales. Marketing and overhead costs are included in the administrative expenses category. Nonoperating revenues and expenses consist of interest and market value gains or losses from investments, any recognized gain or loss from the disposal of capital assets, and the accrued required remittances to the state as explained in note 14 to the financial statements on page 41.

The statement of cash flows on pages 23 and 24 includes cash receipts and disbursements from operating, noncapital financing, capital financing, and investing activities. This statement also consists of a reconciliation of operating income presented on the accrual basis of accounting to net cash provided by operating activities.

The notes to the financial statements that begin on page 25 present information on accounting policies, cash, investments, accounts receivable, prepaid expenses, capital and leased assets, deposits, prizes payable, vacation and sick leave, changes in noncurrent liabilities, retirement benefits, risk management and contingency, net position, payments to the state treasury, and board of directors. These notes are an integral part of the financial statements.

These statements and notes provide information that is necessary to evaluate the Corporation's financial performance and condition. Each fiscal year's performance affects the end of year financial position. To assist readers with this evaluation, a condensed comparison of financial results between the current year ended June 30, 2022, and the prior years ended June 30, 2021, and June 30, 2020, is presented below followed by further analysis of changes in key performance indicators.

	As of and for the Year Ended June 30, 2022	(Restated) As of and for the Year Ended June 30, 2021	(Restated) As of and for the Year Ended June 30, 2020
<b>Operating revenues</b>			
Instant ticket sales-Scratch-Off	\$292,763,765	\$333,364,160	\$264,626,376
Instant ticket sales-Fast Play	20,097,752	405,903	
Draw -style sales	270,066,684	291,175,532	244,483,663
Allowance for uncollectible accounts	(55,798)	(15,899)	10,028
Other operating revenues	129,577	5,845	227,852
<b>Total operating revenues</b>	<u>583,001,980</u>	<u>624,935,541</u>	<u>509,347,919</u>
<b>Nonoperating revenues</b>			
Investment and other income	(1,726,824)	(151,403)	2,548,060
<b>Total revenues</b>	<u>581,275,156</u>	<u>624,784,138</u>	<u>511,895,979</u>
<b>Operating expenses</b>			
Direct costs:			
Prize expense	328,416,619	353,848,720	277,915,172
Retailer commission and incentives	32,945,155	35,406,569	28,877,437
Other direct costs	9,277,807	9,703,223	7,797,061
Total direct costs	<u>370,639,581</u>	<u>398,958,512</u>	<u>314,589,670</u>
Administrative expenses	19,816,377	18,603,740	18,466,902
<b>Total operating expenses</b>	<u>390,455,958</u>	<u>417,562,252</u>	<u>333,056,572</u>
<b>Nonoperating expenses</b>			
Payments to state treasury	191,200,000	207,497,710	179,159,426
<b>Total expenses</b>	<u>581,655,958</u>	<u>625,059,962</u>	<u>512,215,998</u>
<b>Change in net position</b>	<u>(\$380,802)</u>	<u>(\$275,824)</u>	<u>(\$320,019)</u>
<b>Ending net position</b>	\$12,128,343	\$12,509,145	\$12,784,969

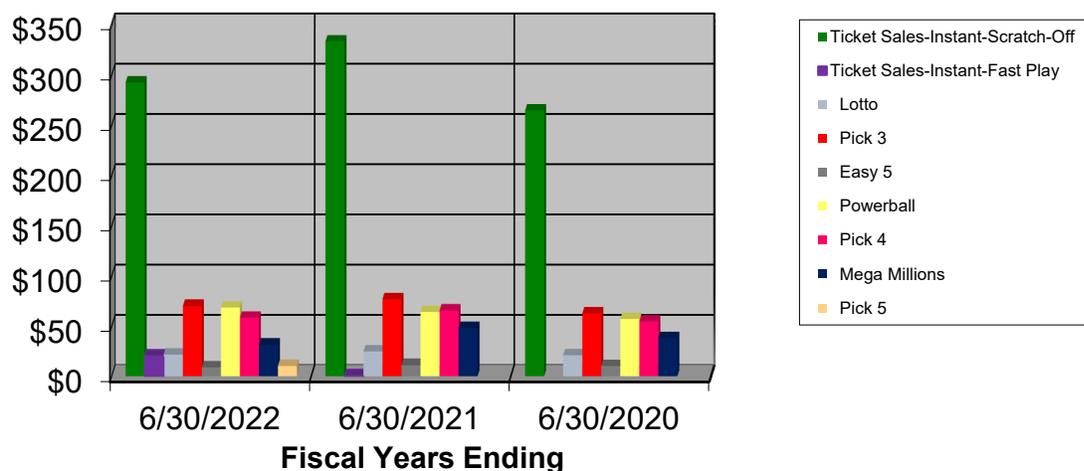

Total revenues were \$581.3 million. The Corporation's annual required statutory transfers to the state treasury generated from operations were \$191.2 million. The reasons for the activity in each component outlined below provide the rationale for these results of operations.

## Operating revenues

The charts presented below reflect sales levels for each of the lottery games offered during the three fiscal years. Discussions of changes in operating revenues follow these charts.

	<u>6/30/2022</u>	<u>6/30/2021</u>	<u>6/30/2020</u>
Ticket Sales-Instant-Scratch-Off	\$292,763,765	\$333,364,160	\$264,626,376
Ticket Sales-Instant-Fast Play	20,097,752	405,903	
<b>Total Instant Sales</b>	<b>\$312,861,517</b>	<b>\$333,770,063</b>	<b>\$264,626,376</b>
<b>Draw-style Sales</b>			
Lotto	\$21,986,006	\$24,970,154	\$21,228,876
Pick 3	70,091,620	77,046,159	62,884,994

Pick 5	10,499,241		
Mega Millions	31,648,247	48,238,423	38,088,888
<b>Total Draw-Style Sales</b>	<b>\$270,066,684</b>	<b>\$291,175,532</b>	<b>\$244,483,663</b>

### Sales in Millions

Hurricane Ida and above-average inflation negatively affected sales for all games during the fiscal year ended June 30, 2022.

Instant scratch-off sales decreased by \$40.6 million during the 2022 fiscal year after surging by \$68.7 million in the 2021 fiscal year. Strong consumer demand, an effective sales network of licensed lottery retailers, increases in the average instant prize structure from 62.84% to 64.29% and then to 65.33%, and effective inventory distribution and management all contributed to the success of this product for all three years presented.

The instant Fast Play games were launched on June 28, 2021, and produced over \$20 million in sales in the 2022 fiscal year.

Sales for the Pick 3 and Pick 4 daily games decreased during the 2022 fiscal year. The Pick 5 daily game was introduced on August 1, 2021, and generated \$10.5 million in sales during the year.

The jackpot driven games varied in performance over the three years presented because of differences in jackpot levels.

### **Nonoperating revenues**

Nonoperating revenues include interest earned on investments, minimal other income, and changes in the fair value of investments as follows:

	<u>For the Year Ended June 30, 2022</u>	<u>For the Year Ended June 30, 2021</u>	<u>For the Year Ended June 30, 2020</u>
Interest and Other Income	\$804,713	\$1,158,049	\$1,158,020
Change in Fair Value	<u>(2,531,537)</u>	<u>(1,309,452)</u>	<u>1,390,040</u>
<b>Total</b>	<u><u>(\$1,726,824)</u></u>	<u><u>(\$151,403)</u></u>	<u><u>\$2,548,060</u></u>

Funds needed for daily liquidity management are either invested in a U.S. government money market fund or remain in the Corporation's main operating bank account. Short-term interest earnings were minimal in the 2021 fiscal year because the Federal Reserve had maintained interest rates at close to zero as the economy recovered from the COVID-19 pandemic. The Federal Reserve started raising interest rates in the second half of fiscal year 2022 because of above-average inflation. As a result, short-term interest earnings are on the rise again.

The Corporation maintains an intermediate-term portfolio of U.S. government and agency securities to manage fluctuations in short-term investment earnings from year to year and its impact on cash flow in the annual operating budget. Funds not needed for liquidity and working capital purposes are invested in this portfolio. Interest earnings generated from the portfolio have been fairly stable throughout the three years presented. Total interest earnings were higher in fiscal year 2021 as compared to fiscal year 2022 because of the sale or maturity of several U.S. Treasury Strip Bonds in fiscal year 2021.

The changes in fair value in the intermediate-term portfolio were affected by the inverse relationship of the market value of debt securities to market interest rates, the length of time to maturity of the securities in the portfolio, and the timing of purchases and sales. Applicable intermediate market interest rates declined in fiscal year 2020 and increased in fiscal years 2021 and 2022. All changes in fair value would be realized only upon disposal of all investments at the measurement date, each fiscal year end.

Further disclosures on investments and interest rate risk are included in note 3 to the financial statements beginning on page 28.

Total revenues earned during the 2022 and 2021 fiscal years were \$581.3 million and \$624.8 million, respectively. Revenues that are generated each fiscal year are used to

fund lottery operations including payment of prizes, retailer compensation, other direct operating costs, administrative expenses, and required payments to the state treasury. Revenue not needed to fund current operations increases net position or if determined to be surplus to the Corporation's future needs, is remitted as an additional transfer to the state treasury. A historical allocation of expenses as a percentage of total revenue is presented in the statistical section of this report on page 51.

### **Direct costs**

Direct costs are expenses that fluctuate directly with the level of sales. Instant and draw-style game prize expense, commission and incentives paid to Lottery retailers, and vendor fees mostly based on a percentage of sales are included in this category. The changes in sales for the three fiscal years resulted in corresponding changes in direct costs. Total direct costs are approximately between 62% and 64% of sales for each fiscal year presented.

### **Administrative expenses**

The Corporation has maintained high profitability levels for the benefit of the State of Louisiana by controlling its administrative costs each year. These marketing and overhead expenses have remained consistent and under budget during the past twenty-one fiscal years. The chart on page 50 in the statistical section reflects this consistency and effective cost controls. These efficiencies have enabled the Corporation to maintain financial stability, fund higher instant game prize payouts which generate higher sales and return to the state, and transfer additional surplus funds to the state when available.

### **Payments to state treasury**

Note 14 to the financial statements on page 41 includes a discussion of the statutory requirements for payments to the state treasury. Payments decreased in fiscal year 2022 by \$16.3 million after a record-breaking year in 2021 where payments increased by \$28.3 million. Sales and operational results contributed to the amount of funds remitted to the treasury in each year. Total payments to the state treasury since the Lottery's inception have been approximately \$4.34 billion.

The financial performance reflected above affected the overall financial position of the Corporation at June 30, 2022, and June 30, 2021. A summarized version of the statement of net position presented below reflects the Corporation's overall change in financial resources and claims on those resources.

	As of June 30, 2022	(Restated) As of June 30, 2021	(Restated) As of June 30, 2020
<b>Assets</b>			
Current assets	\$48,679,744	\$40,198,869	\$38,717,318
Noncurrent assets:			
Capital assets	3,922,111	4,000,478	4,245,976
Other noncurrent assets	32,905,044	36,373,523	34,764,334
Total noncurrent assets	36,827,155	40,374,001	39,010,310
<b>Total assets</b>	<b>85,506,899</b>	<b>80,572,870</b>	<b>77,727,628</b>
<b>Liabilities</b>			
Current liabilities	55,789,526	48,787,294	47,812,843
Noncurrent liabilities	17,589,030	19,276,431	17,129,816
<b>Total liabilities</b>	<b>73,378,556</b>	<b>68,063,725</b>	<b>64,942,659</b>
<b>Net position</b>			
Net investment in capital assets	3,922,111	4,000,478	4,245,976
Unrestricted	8,206,232	8,508,667	8,538,993
<b>Total net position</b>	<b>\$12,128,343</b>	<b>\$12,509,145</b>	<b>\$12,784,969</b>

### **Current assets**

The fluctuation of current assets for the three years presented was mainly caused by changes in cash and cash equivalents, investments, accounts receivable, and investments in government securities.

Cash and cash equivalents balances are affected by sales volume, level of expenses, and the timing and amount of deposits of accounts receivable and payments to vendors, employees, and the state treasury.

Amounts held in current investments and current investments in government securities fluctuate based on investment management decisions of short-term versus long-term holdings to maintain a proper balance of risk and return in the portfolio.

Retailer accounts receivable balances changed because of sales volume differences at the end of the fiscal years and the timing of the collection of these receivables into cash and cash equivalents.

### **Capital assets**

Capital assets changed slightly in fiscal years 2022 and 2021 because of differences in acquisitions, disposals, and depreciation expense for those years. Details of capital asset additions, deletions, and depreciation are included in note 6 to the financial statements on page 31.

## **Other noncurrent assets**

Noncurrent investments in government securities decreased mainly because of the \$2.5 million decrease in the fair value of the investments discussed in the nonoperating revenues section. In addition, deposits with MUSL decreased in the 2022 and 2021 fiscal years by approximately \$770,000 and \$1.2 million, respectively because of the reallocation and return of some prize reserves to the Corporation.

## **Current liabilities**

### **For the year ended June 30, 2022**

Current liabilities increased by approximately \$7.0 million. Accounts payable, leases payable, accrued payment to the state treasury, and prizes and withholdings payable account for most of this change.

Accounts payable increased by approximately \$265,000 because of differences in the timing and amount of expenses and payments between the two fiscal years.

Leases payable increased by approximately \$200,000 mainly because of upfront vehicle lease payments due in July 2022.

The accrued payment to state treasury increased by \$4.9 million because of differences in sales, revenue, and expense levels at the end of the 2022 and 2021 fiscal years.

Prizes and withholdings payable increased by approximately \$1.6 million because of several factors. All components of this liability category are presented in note 8 to the financial statements on page 35.

Draw-style prizes payable increased by approximately \$200,000 because of differences in sales, winnings, timing of payments, and use of game reserves to fund high payouts.

Instant prizes payable increased by approximately \$700,000, and due to/from MUSL prize pool increased by \$500,000 because of differences in sales levels and the timing of prize wins and payments between the two fiscal years.

Most of the remaining difference is attributable to a \$200,000 increase in the projected net use of unclaimed prizes in the next fiscal year.

### **For the year ended June 30, 2021**

Current liabilities increased by approximately \$1.0 million. Accounts payable, accrued payment to the state treasury, and prizes and withholdings payable account for most of this change.

Accounts payable increased by approximately \$245,000 because of differences in the timing and amount of expenses and payments between the two fiscal years.

The accrued payment to state treasury decreased by \$5.7 million because of differences in sales, revenue, and expense levels at the end of the 2021 and 2020 fiscal years.

Prizes and withholdings payable increased by approximately \$6.3 million because of several factors. All components of this liability category are presented in note 8 to the financial statements on page 36.

Draw-style prizes payable increased by \$4.9 million because of differences in sales, winnings, timing of payments, and use of game reserves to fund high payouts.

Instant prizes payable increased by approximately \$740,000, and due to/from MUSL prize pool decreased by \$184,000 because of differences in sales levels and the timing of prize wins and payments between the two fiscal years.

Most of the remaining difference is attributable to a \$884,000 increase in the projected net use of unclaimed prizes in the next fiscal year.

### **Noncurrent liabilities**

Noncurrent liabilities decreased by \$1.7 million in fiscal year 2022. MUSL prize reserve payable decreased by approximately \$770,000 because of the reallocation and return of prize reserves to the Corporation. Unclaimed prizes payable decreased by \$980,000 because expired prizes were lower than the use of the fund for instant game prizes.

In fiscal year 2021, noncurrent liabilities increased by \$2.1 million. Leases payable increased by \$200,000 because of lease renewals. MUSL prize reserve payable decreased by approximately \$1.2 million because of the reallocation and return of prize reserves to the Corporation. Unclaimed prizes payable increased by \$3.1 million because expired prizes exceeded the use of the fund for instant game prizes. Further disclosures on noncurrent prizes payable are included in notes 8 and 10 to the financial statements on pages 36 and 37, respectively.

### **Net position**

Finally, net position decreased by \$381,000 in fiscal year 2022 and by \$276,000 in fiscal year 2021 because of the amount of remittances to the state treasury and the net income generated during these years. The specified uses of unrestricted net position are presented in note 13 to the financial statements on page 41.

This financial overview of the Louisiana Lottery Corporation is provided as a supplemental analysis of the financial position and activities of the Corporation as of and for the years ended June 30, 2022, and June 30, 2021. It is based on currently known facts and decisions and includes information about transactions, events, and conditions that are reflected in the financial statements and accompanying notes. The additional presentations and disclosures are included to assist the users of this report in understanding the financial results of the Corporation.

Respectfully submitted,

James F. Goodrum  
Vice President of Finance and Controller

Karen B. Fournet  
Senior Vice President and Secretary  
Treasurer

**LOUISIANA LOTTERY CORPORATION  
STATE OF LOUISIANA**

Notes to the Financial Statements  
For the Years Ended June 30, 2022 and 2021

**INTRODUCTION**

The Louisiana Lottery Corporation (the Corporation) was created in accordance with Louisiana Revised Statutes (R.S.) 47:9000-9081 and 14:90(C) and began operating January 15, 1991. The Corporation is organized to provide for lottery games, operations, activities, and payment of prizes. R.S. 47:9091-9107 and 14:90(E) relevant to sports wagering were promulgated in 2021. The affairs of the Corporation are administered by a board of directors appointed by the governor, subject to confirmation by the Senate. The Corporation is domiciled in East Baton Rouge Parish and operates five regional offices. For the fiscal years ended June 30, 2022 and June 30, 2021, the Corporation employed 108 and 106 employees, respectively.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. REPORTING ENTITY**

Governmental Accounting Standards Board (GASB) Codification Section 2100 has defined the governmental reporting entity to be the State of Louisiana. The Corporation is considered a component unit of the State of Louisiana because the state has financial accountability for fiscal matters as follows: (1) the board of directors is appointed by the governor; (2) upon dissolution of the Corporation, title to all property owned by the Corporation shall vest in the State of Louisiana; and (3) the Corporation provides financial benefits to the state in the form of transfer of funds to the state treasury. The accompanying financial statements present information only as to the transactions of the programs of the Corporation, a component unit of the State of Louisiana. The Corporation is reported as a discrete component unit within the State of Louisiana's Annual Comprehensive Financial Report.

**B. BASIS OF PRESENTATION**

The Corporation uses a proprietary fund (enterprise fund) to report on its financial position and results of operations. The enterprise fund accounts for the activities relative to conducting a lottery, including, but not limited to, incurring and paying administrative costs and payment of prizes. The fund is operated in a manner similar to a private business enterprise where the governing body has decided that periodic determination of revenues earned, expenses incurred, and net income is appropriate for capital maintenance, management control, accountability, or other purposes. Activities accounted for in the proprietary fund follow all applicable GASB pronouncements.

### **C. BASIS OF ACCOUNTING AND MEASUREMENT FOCUS**

Basis of accounting refers to the timing of recognition of revenues and expenses in the accounts and reporting in the financial statements, and the measurement focus refers to what transactions and events should be recorded. The financial statements are reported using the economic resources measurement focus and the accrual basis of accounting in accordance with generally accepted accounting principles. Under this method, revenues are recognized when they are earned and expenses are recognized when a liability is incurred, regardless of the timing of related cash flows.

#### **Revenue**

Operating revenue includes sales of lottery tickets and other fees related to operations. Nonoperating revenue includes investment earnings and gains from the disposal of assets. Sales are recognized when instant ticket-scratch off packs are activated for sale and draw-style and fast play game tickets are sold to the public by contracted retailers.

#### **Prizes**

Prize expense is recognized based on a predetermined prize structure for each instant ticket and draw-style game as revenue is recognized. A portion of the instant ticket scratch-off prize structures is funded with unclaimed prize money pursuant to R.S. 47:9025(D).

### **D. CAPITAL ASSET POLICY**

Effective October 2021, the Corporation has established a \$5,000 threshold for capitalization of purchases of assets that have an estimated useful life of at least three years. In addition, substantial purchases may be capitalized even though the per unit cost may be less than \$5,000. Previously the threshold was \$1,000. Depreciation of capital assets is calculated using the straight-line method over the estimated useful lives of the assets. The estimated useful lives are derived from realistic expectations of the longevity of the assets based on past experience, published guidelines, and industry experience. The useful lives used in determining depreciation for the various types of assets are found in note 6 on page 34.

### **E. LEGISLATIVE BUDGET OVERSIGHT**

R.S. 47:9010(A)(7) requires the Corporation, not later than 30 days before the beginning of each regular session of the legislature, to submit a proposed annual budget of the Corporation and projected net proceeds to the Joint

**LOUISIANA LOTTERY CORPORATION**  
**STATE OF LOUISIANA**

Notes to the Financial Statements (Continued)

Legislative Committee on the Budget (JLCB) for review and approval. The Corporation submitted its budget for fiscal year ended June 30, 2022 on February 26, 2021. The budget was approved by the JLCB on August 13, 2021.

A formal budgetary comparison is not required by GASB reporting standards for proprietary funds and therefore, a budgetary comparison for the fiscal year ended June 30, 2022, is not presented.

**F. NONOPERATING EXPENSES**

Nonoperating expenses include payments to the state treasury.

**G. ADOPTION OF NEW ACCOUNTING PRONOUNCEMENT**

The Corporation adopted Statement No. 87 of the Governmental Accounting Standards Board (GASB)-Leases effective for the fiscal year ending June 30, 2022. Prior period balances presented in the statements and notes are restated for leased assets, lease amortization, accumulated amortization, and leases payable. Further information on GASB 87 is presented in note 6.

**2. CASH AND CASH EQUIVALENTS**

Cash includes petty cash on hand of \$3,000 and demand deposits of \$16,755 at June 30, 2022, and \$15,011,485 at June 30, 2021. Under state law, the Corporation may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, national banks having their principal offices in the State of Louisiana, in savings accounts or shares of savings and loan associations and savings banks, and in share accounts and share certificate accounts of federally or state chartered credit unions.

Under state law, demand deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. Federal deposit insurance of \$250,000 secured demand deposits as of June 30, 2022, and a portion of demand deposits at June 30, 2021. During fiscal year end June 30, 2021, pledged securities were held in a joint custody safekeeping account in the name of the Corporation and the fiscal agent bank in the form of book entry deposits in the Federal Bank of New York. The market value of the pledged securities at June 30, 2021 is \$15,189,158.

Cash equivalents consist of deposits in a U.S. government money market mutual fund. At June 30, 2022, and June 30, 2021, the total of cash equivalents is \$32,358,787 and is \$4,274,967 respectively.

**LOUISIANA LOTTERY CORPORATION**  
**STATE OF LOUISIANA**  
Notes to the Financial Statements (Continued)

**3. INVESTMENTS AND INVESTMENTS IN GOVERNMENT SECURITIES**

In accordance with state law and the Corporation's formal investment policy, funds may be invested in U.S. Treasury obligations and U.S. government agency obligations or in eligible mutual funds that invest in these securities, direct security repurchase agreements, and time certificates of deposit. The amount invested in U.S. agency securities cannot exceed sixty percent of all investments with maturities of 30 days or longer. No specific credit ratings are required by the policy, but credit quality is inherently high because of limitations imposed by the policy.

Investments at June 30, 2022 and June 30, 2021, consist of the following:

Investment Type	Value June 30, 2022	* Credit Quality Rating	% of Investments	Investment Maturities (In Years)						
				Less Than 1	1-5	6-10	11-20	21-30	31-40

\* Credit quality ratings obtained from Moody's Investors Service.

1 Credit quality ratings not required for U.S. government and agency securities that are explicitly guaranteed by the U.S. government.

Investments represent the amortized cost of U.S. Treasury money-market mutual fund shares held by the Corporation.

Investments in government securities are funds not needed for liquidity purposes that are invested in a portfolio of direct longer-term investments in U.S. government and agency securities. These securities are recorded at fair value. Fair value measurements are classified as Level 2 of the GASB 72 fair value hierarchy. These fixed income securities are valued each day based on readily available market quotations received from commercial pricing services. Such pricing services and brokers will generally provide bid-side quotations.

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Corporation will not be able to recover the value of its investments that are in the possession of an outside party. Louisiana state law requires that securities purchased as investments by the Corporation are issued in the name of the Corporation and safe kept at a custodian financial institution or Federal Reserve Bank domiciled in the state of Louisiana. Investments and investments in government securities purchased by the Corporation are held by the custodial bank's trust department in the Corporation's name.

Interest rate risk is the risk that an investment's fair value decreases as market interest rates increase. Typically, this risk is higher in debt securities with longer maturities.

**LOUISIANA LOTTERY CORPORATION**  
**STATE OF LOUISIANA**

Notes to the Financial Statements (Continued)

The Corporation's investment policy states that investment maturities must be scheduled to coincide with cash requirements. Interest rate risk is managed according to the purpose of the investments and the projected time frame for the use of these assets.

The investments in the money market fund are not affected by interest rate risk because the underlying investments in Treasury bills and notes have very short-term maturities, funds can be deposited and withdrawn daily, and the fund's share price remains stable.

Investments in government securities consist of funds that are not expected to be needed in the near future. Investment maturities for this portfolio are scheduled for an average intermediate time horizon. The portfolio is managed to provide investment allocations, characteristics, and yields consistent with its benchmark, the *Bloomberg Barclays Government Intermediate Index*. Interest rate risk is managed by structuring the average maturity and duration of the investments to the benchmark.

The investments in mortgage-backed securities are based on flows from payments on the underlying mortgages that contain prepayment options which cause them to be highly sensitive to changes in interest rates. Generally, when interest rates fall, obligees tend to prepay the assets, thus eliminating the stream of interest payments that would have been received under the original amortization schedule. This reduced cash flow diminishes the fair value of the asset-backed investment.

Typically, the risk that the Corporation will realize material losses from its investments in government securities resulting from changes in market interest rates is mitigated by the low probability that these securities will have to be sold before maturity.

#### **4. ACCOUNTS RECEIVABLE**

As reflected on the statement of net position, the receivables of the Corporation are as follows:

	As of June 30, 2022	As of June 30, 2021
Retailer accounts receivable	\$11,921,045	\$17,636,290
Interest receivable	141,001	99,908
Miscellaneous receivable	13,910	46,471
Allowance for uncollectible accounts	(56,916)	(11,190)
Total	<u>\$12,019,040</u>	<u>\$17,771,479</u>

**LOUISIANA LOTTERY CORPORATION**  
**STATE OF LOUISIANA**

Notes to the Financial Statements (Continued)

The allowance for uncollectible accounts is based on an analysis of accounts receivable that considers the age of the accounts and the expected collectability of each account.

**5. PREPAID EXPENSES**

Prepaid expenses represent insurance paid for coverage after the fiscal year-end and prepayments for postage, advertising, maintenance agreements, and other expenses.

The balances of prepaid expenses are as follows:

	As of June 30, 2022	As of June 30, 2021
Current prepaid expenses:		
Insurance	\$11,542	\$21,613
Other prepayments	93,143	42,097
Total	<u>\$104,685</u>	<u>\$63,710</u>

**6. CAPITAL AND LEASED ASSETS**

Depreciable capital assets of the Corporation are included on the statement of net position at historical cost. Depreciable capital assets are shown net of accumulated depreciation. Depreciation of capital assets is charged as an operating expense. Depreciation for financial reporting purposes is computed by the straight-line method over the estimated useful lives of the assets. As assets are retired or sold, the cost and related accumulated depreciation are removed from the appropriate property and equipment accounts. The resulting gain or loss on disposal is reflected in nonoperating revenues and expenses.

Effective fiscal year ended June 30, 2022, GASB 87 revised existing standards regarding lease accounting. As a result of this revision, applicable lease contracts convey the right to use another entity's nonfinancial asset for a specified time in an exchange-like transaction. Leased assets are shown net of accumulated amortization. Amortization is computed by the straight-line method over the estimated contract period including renewals. The Corporation currently leases five office buildings throughout the state and seven vehicles. Building lease terms range from three months to approximately five years as of June 30, 2022. Vehicles are leased for five-year terms. For comparative purposes, leased assets and related accumulated amortization balances are restated as of June 30, 2021, and June 30, 2020.

**LOUISIANA LOTTERY CORPORATION**  
**STATE OF LOUISIANA**  
Notes to the Financial Statements (Continued)

The estimated useful lives used in determining depreciation and amortization for the various types of assets are as follows:

Land improvements	10 years
Buildings	30 to 40 years
Building improvements	15 years
Leasehold improvements	36 months
Furniture and fixtures	60 months
Equipment	60 months to 120 months
Data processing software and equipment	36 months
Communications software and equipment	36 months to 60 months
Automobiles	36 months
Leased assets	Term of contract

As of June 30, 2022, the Corporation has lease obligations as outlined in the following schedule:

<u>Year Ending June 30</u>	<u>Payments*</u>
2023	\$474,416
2024	141,164
2025	132,103
2026	69,339
2027	48,360
2028	<u>8,060</u>
Total	<u><u>\$873,442</u></u>

\*Imputed interest for lease liabilities was determined to be immaterial

**7. MULTI-STATE LOTTERY ASSOCIATION**

MUSL is an unincorporated government-benefit voluntary association created for the purpose of administering joint lottery games. MUSL currently includes 35 state lottery entities, the District of Columbia, the Virgin Islands, and Puerto Rico. The chief executive officer of each member lottery serves on the MUSL board of directors.

**LOUISIANA LOTTERY CORPORATION**  
**STATE OF LOUISIANA**  
Notes to the Financial Statements (Continued)

This association administers the Powerball draw-style game and several other draw-style games in participating states. MUSL members can offer the Mega Millions draw-style game pursuant to a cross-selling agreement with the group of lotteries operating that game.

During the fiscal year, the Corporation participated in the MUSL Powerball draw-style game and offered the Mega Millions draw-style game pursuant to the cross-selling agreement. As a member of MUSL, the Corporation is required to contribute to various prize reserve funds maintained by MUSL. The prize reserve funds serve as a contingency reserve to protect MUSL from unforeseen prize liabilities. MUSL periodically reallocates the prize reserve funds between the states based on relative sales levels. All remaining funds remitted will be returned to the Corporation upon leaving MUSL, less any portion of unanticipated prize claims, which may have been paid from the fund. The Corporation has contributed all required reserve funds.

A copy of the MUSL financial statements may be obtained by submitting a written request to MUSL, 4400 NW Urbandale Drive, Urbandale, Iowa 50322.

**8. PRIZES PAYABLE**

Prizes for the draw-style games are redeemable for 180 days after a drawing. Prizes for instant scratch-off games are redeemable for 90 days after the announced end of the game. Instant Fast Play prizes can be redeemed for 90 days after a Fast Play game is closed. All prizes not claimed by the applicable deadline are classified as unclaimed and added to the pool from which future prizes are to be awarded or used for special prize promotions pursuant to R.S. 47:9025(D).

**LOUISIANA LOTTERY CORPORATION**

## 9. VACATION AND SICK LEAVE

Corporation full-time employees earn vacation leave at various rates depending on the employees' position and the number of years of service. All employees must complete six months of service, measured from the date of hire, before they are eligible to use vacation or receive termination payment for unused vacation. Vacation leave may not be carried forward into the next year. However, employees may receive payment for a maximum of forty hours of unused vacation. Upon termination, employees will be paid in full for unused eligible and current year's accrued vacation leave. Employees are credited with sick leave at the rate of eight days per year beginning with the date of hire. There is no limitation on the amount of sick leave that can be accumulated. Employees are not paid for accrued sick leave upon termination. Employees may be allowed up to three consecutive days off from regularly scheduled duty with regular pay for bereavement leave. At June 30, 2022, and June 30, 2021, the total values of compensated absences payable are \$525,990 and \$513,095, respectively.

**LOUISIANA LOTTERY CORPORATION**

**11. RETIREMENT BENEFITS**

**A. AUTHORIZATION AND BASIS OF ACCOUNTING**

R.S. 47:9015(A) states that the Corporation shall provide or arrange for a retirement plan. The retirement plans have been established pursuant to this statute. The plans' provisions and contribution requirements are established and amended by the Board of Directors of the Corporation. A financial and compliance audit has been performed on all the Corporation's retirement plans for the plans' year ending December 31, 2021. A copy of the audit report may be accessed through the Corporation's website at:

<http://www.louisianalottery.com/static/files/docs/financial/retirementplans.pdf>

Administrative and investment services were provided by Principal Life Insurance Company. The financial statements of the Corporation's plans are accounted for using the accrual basis of accounting. Investments are reported at fair value, which is based on deposit values and quoted market prices.

**B. BASIC AND SUPPLEMENTAL RETIREMENT PLANS**

**1. Basic Retirement Plan**

The Corporation has a money purchase plan under Section 401(a) of the Internal Revenue Code (IRC) of 1986, as amended, which is intended to constitute a safe harbor within the meaning of Section 3121(b)(7) of the code and the regulations promulgated thereunder. The Basic Retirement Plan, which is a defined contribution plan, began September 1, 1993, with all employees eligible except those who elect coverage under a state retirement plan and those who are either independent contractors or leased employees.

An employee is eligible to participate in the plan immediately upon employment. In addition, a participant is fully vested immediately. In no event shall the assets of this plan revert for the benefit of the Corporation.

As defined in the Basic Retirement Plan, the Corporation's contribution shall be 5% of the participant's compensation for such plan year. The participant's contribution shall equal 6.2% of his or her compensation for such plan year.

No more than the social security wage base in effect as of the first day of the plan year shall be treated as compensation. As of June 1, 1994, the Corporation elected to treat all contributions to the plan as pre-tax.

The distribution of a participant's benefits shall commence as of the date designated by the participant (annuity starting date) after termination of employment with the Corporation but shall not be later than April 1 of the year following the calendar year in which the participant attains age 72 or the date on which the participant terminates his or her employment, if later. Subject to certain restrictions, an active participant may also elect to receive a distribution upon attainment of age 62 without regard to whether the participant has terminated his or her employment.

The participant shall make a qualified election to receive the distribution in the form of a single-sum payment or to purchase a qualified joint and survivor annuity or single life annuity contract. This qualified election may be revoked, modified, or amended at any time, or multiple times before the participant's annuity starting date; however, the qualified election is irrevocable as of the participant's annuity starting date.

## **2. Supplemental Retirement Plan**

The Corporation has a defined contribution retirement plan that covers substantially all full-time employees. The plan is a governmental plan within the meaning of Section 414(d) of the IRC of 1986, as amended, and is intended to constitute a profit-sharing plan under which contributions are determined without regard to the current or accumulated profits of the Corporation, if any.

An employee is eligible to participate in the plan immediately upon employment. In addition, a participant is fully vested immediately. In no event shall the assets of this plan revert for the benefit of the Corporation.

The Corporation contributes 4.5% of each participant's compensation for the year, as defined. Generally, participants are not permitted to contribute to the plan; however, participants may contribute proceeds from a qualified rollover distribution as allowed by IRC Section 402.

In addition, each fiscal year, the Board of Directors of the Corporation may determine the amount of a discretionary contribution not to exceed 4% of each participant's compensation for any fiscal year.

The distribution of a participant's account shall be made in the form of a single-sum payment after the participant terminates employment with the Corporation, becomes disabled, or dies. A participant may elect to postpone the distribution, in writing on forms provided by the Retirement Plans Committee, provided, however, in no event shall distribution be postponed later than April 1 following the close of the calendar year in which the participant attains age 72 or the date on which the participant terminates his or her employment, if later.

As of June 30, 2022, there were 107 participants in the Basic Plan and 98 participants in the Supplemental Plan.

For the fiscal year ended June 30, 2022, employer and employee contributions to the Basic Plan were \$314,214 and \$389,622, respectively. The employer contributions for the Supplemental Plan were \$536,907.

For the fiscal year ended June 30, 2021, employer and employee contributions to the Basic Plan were \$289,781 and \$359,329, respectively. The employer contributions for the Supplemental Plan were \$498,194.

**C. 457(b) RETIREMENT PLAN  
(DEFERRED COMPENSATION PLAN)**

The 457(b) Retirement Plan is a voluntary deferred compensation plan adopted under the provisions of IRC Section 457(b).

A full-time employee is eligible to participate in the plan immediately upon employment. In addition, a participant is fully vested immediately. In no event shall the assets of this plan revert for the benefit of the Corporation.

The plan includes an *Automatic Contribution Arrangement*. Eligible employees will be automatically enrolled at the default percentage of 5.5% of compensation on a pre-tax basis unless an affirmative election is made on a *Compensation Deferral Election Form*. Effective July 1, 2017 and on each subsequent July 1st, the default percentage shall increase by 1%, up to a maximum of 9.5%.

For the plan year, the sum of compensation deferred by a participant and the Corporation's matching contributions made on behalf of such participant shall not exceed the lesser of such participant's compensation or \$20,500. The Corporation contributes a matching contribution equal to 100% of the first 2.5% of compensation deferred by each participant and 50% of the next 3% of compensation deferred by each participant. Participants can elect any combination of the Pre-tax or Roth deferral options.

Benefits are payable to former employees at the time and in the manner designated by the participants on a distribution election form. In no event may a participant defer payment of benefits later than April 1 of the calendar year immediately following the year in which the participant attains age 72. The distribution of benefits shall be made in the form of a single-sum payment.

As of June 30, 2022, there were 88 participants in the 457(b) Retirement Plan.

For the fiscal year ended June 30, 2022, employer and employee contributions were \$223,381 and \$464,347, respectively. For the fiscal year ended June 30, 2021, employer and employee contributions were \$205,647 and \$432,462, respectively.

**12. RISK MANAGEMENT**

The Corporation is exposed to various risks of loss related to torts, theft of, damage to and the destruction of assets, errors and omissions, injuries to employees, and natural disasters. The Corporation has purchased commercial insurance to cover these risks. In addition, management has established a litigation and prize reserve of

**LOUISIANA LOTTERY CORPORATION  
STATE OF LOUISIANA**

Notes to the Financial Statements (Concluded)

\$7,800,000 within the Corporation's net position to cover unanticipated losses (see note 13). The amount of commercial coverage has not decreased nor has the amount of settlements exceeded coverage in any of the past three fiscal years.

**13. NET POSITION**

The Corporation has an unrestricted net position at June 30, 2022, of \$8,206,232. As presented in the 2022-2023 fiscal year budget approved by the Joint Legislative Committee on the Budget on March 18, 2022, management has specified that net position of June 30, 2022, be used for the following purposes:

**Specified Uses of Net Position**

New capital expenditure purchases	\$200,000
Litigation and prize reserve	7,800,000
Deposits	<u>13,775</u>
<b>Total specified uses of net position</b>	<b>8,013,775</b>
Retailer security deposits	192,457
<b>Total unrestricted net position</b>	<b><u><u>\$8,206,232</u></u></b>

**14. PAYMENTS TO THE STATE TREASURY**

Pursuant to Act No. 318 of the 2020 Regular Session of the Louisiana Legislature, the Corporation is required to transfer 25% of gross revenues to the Lottery Proceeds Fund in the state treasury. The amount of gross revenues less costs that is determined to be surplus to the needs of the Corporation must also be remitted to the state treasury.

**15. BOARD OF DIRECTORS**

The board of directors consists of nine members appointed by the governor and confirmed by the Senate. No member shall serve more than two consecutive four-year terms. The board of directors must meet at least bimonthly and at such other times as the chairperson or the president may determine.

**STATISTICAL SECTION**

**(UNAUDITED)**

**LOUISIANA LOTTERY CORPORATION  
STATE OF LOUISIANA  
STATISTICAL INFORMATION SECTION**

This section of the Louisiana Lottery Corporation's annual comprehensive financial report presents detailed information as a supplement to the information presented in the financial statements and note disclosures to assist readers in assessing the Corporation's overall financial health.

<b><u>CONTENTS</u></b>	<b>PAGE</b>
<b>FINANCIAL TRENDS</b>	44
<p>These schedules contain trend information from the current year and prior years' annual comprehensive financial reports to help a reader understand how the Corporation's financial performance and position have changed over time.</p>	
<b>REVENUE CAPACITY</b>	60
<p>These schedules contain information to help the reader assess the factors affecting the Corporation's ability to generate sales of lottery tickets. Instant ticket game strategies, including launch schedules and price points, affect the availability and variety of products for purchase at retailer locations. Draw-style sales by game included in the financial trends section provide data about the variety of these drawing-based games that are available to the public. The network of lottery retailers throughout the state determines the market exposure for the Corporation's instant and draw-style games.</p>	
<b>DEMOGRAPHIC AND ECONOMIC INFORMATION</b>	63
<p>These schedules contain demographic and economic indicators to help a reader understand the environment in which the Corporation operates.</p>	
<b>OPERATING INFORMATION</b>	65
<p>These schedules contain information about the Corporation's organizational structure, financial performance indicators compared to other state lotteries, and capital asset information.</p>	

*If available, statistical information is provided for the most recent ten years. Some sections contain less than ten years of data because the information was accumulated and retained in that format only back to the latest year reported. Prospectively, the data will be accumulated and ultimately, the schedules will contain information for a ten-year period.*

## FINANCIAL TRENDS

The Louisiana Lottery Corporation began operating in January 1991 and commenced ticket sales in September 1991. Data from the last ten fiscal years of lottery operations are presented in the following charts. The pie charts that illustrate the allocation of revenues include data from the inception of the Corporation through June 30, 2022.

The information presented in the charts is as follows:

### **Sales**

Instant tickets-Scratch Offs represent the face value of tickets activated by retailers. Draw-style and Instant tickets-Fast Play represents the face value of tickets sold to the public.

### **Revenues**

Include sales, interest income, increases or decreases in the fair value of investments, retailer license fees, miscellaneous revenue, and net gains or losses on disposal of assets.

### **Prize expense**

Represents the accrued expenses for instant tickets and draw-style game winners based on established prize structures.

### **Retailer compensation**

Represents 5% base sales commission and incentive payments.

### **Other direct costs**

Expenses which fluctuate with sales volume including commission paid to the draw-style vendor, the cost of purchasing instant tickets, the cost of delivery to retailers, and lottery system network communication costs.

### **Administrative expenses**

Include all other costs of operating the Lottery.

### **Payments to state treasury**

Represent the payment of net revenues to the State Treasury Lottery Proceeds Fund as required by Louisiana Lottery Law.

Unless otherwise noted, the source for the data contained in the following charts is the Accounting Department of the Louisiana Lottery Corporation.

**OTHER REPORT REQUIRED BY**  
***GOVERNMENT AUDITING STANDARDS***

The following pages contain a report on internal control over financial reporting and on compliance with laws, regulations, and other matters as required by *Government Auditing Standards*, issued by the Comptroller General of the United States. This report is based on the audit of the financial statements and includes, where appropriate, any significant deficiencies and/or material weaknesses in internal control or compliance and other matters that would be material to the presented financial statements.

October 17, 2022

Report on Internal Control over Financial Reporting and on  
Compliance and Other Matters Based on an Audit of Financial Statements  
Performed in Accordance With *Government Auditing Standards*

Independent Auditor's Report

**BOARD OF DIRECTORS  
LOUISIANA LOTTERY CORPORATION  
STATE OF LOUISIANA**  
Baton Rouge, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the Louisiana Lottery Corporation (Corporation), a component unit of the state of Louisiana, as of and for the years ended June 30, 2022, and June 30, 2021, and the related notes to the financial statements, which collectively comprise the Corporation's basic financial statements, and have issued our report thereon dated October 17, 2022. Our report was modified to include an emphasis of matter paragraph regarding the implementation of Government Accounting Standards Board Statement No. 87, *Leases*.

**Report on Internal Control over Financial Reporting**

In planning and performing our audits of the financial statements, we considered the Corporation's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control. Accordingly, we do not express an opinion on the effectiveness of the Corporation's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected

and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audits we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Corporation's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, and contracts, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audits, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Corporation's internal control and compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

Respectfully submitted,

Michael J. "Mike" Waguespack, CPA  
Legislative Auditor
