INDEPENDENT AUDITOR'S REPORT

* A Professional Accounting Corporation

The Honorable Wayne Smith, Mayor
and Members of the Board of Aldermen
Town of Oberlin, Louisiana

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Oberlin, Louisiana, (the Town), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Town's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our unmodified and qualified audit opinions.

Basis for Qualified Opinion on Business-Type Activities, Water Utility Enterprise Fund, and Sewer Utility Enterprise Fund

Management of the Town did not retain sufficient records and provide adequate audit evidence necessary for us to express an opinion or provide any assurance on the Business-Type Activities, Water Utility Enterprise Fund, and Sewer Utility Enterprise Fund receivables as reported on the statement of net position and charges for services revenue as reported in the statement of activities and the statement of revenues, expenses, and changes in net position.

Qualified Opinions

In our opinion, except for the effects of the matter described in the “Basis for Qualified Opinion on Business-Type Activities, Water Utility Enterprise Fund, and Sewer Utility Enterprise Fund” paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of the Business-Type Activities, Water Utility Enterprise Fund, and Sewer Utility Enterprise Fund of the Town of Oberlin, Louisiana, as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows there for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Unmodified Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund other than the Water Utility Enterprise Fund and the Sewer Utility Enterprise Fund, and the aggregate remaining fund information of the Town of Oberlin, Louisiana, as of June 30, 2021, and the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison schedules, the schedule of employer’s share of net pension liability, and the schedule of employer contributions on pages 43 through 48 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The Town of Oberlin, Louisiana, has omitted management’s discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this omitted information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Oberlin, Louisiana’s basic financial statements. The comparative statements, judicial system funding schedule, and various other schedules included in other supplementary information are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The comparative statements and the judicial system funding schedule are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the comparative statements are fairly stated in all material respects in relation to the basic financial statements as a whole.

The various other schedules included in other supplementary information have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 24, 2022, on our consideration of the Town of Oberlin, Louisiana’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town’s internal control over financial reporting and compliance.

TOWN OF OBERLIN, LOUISIANA

Notes to Basic Financial Statements

(1) Summary of Significant Accounting Policies

The accompanying financial statements of the Town of Oberlin, Louisiana (Town) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this note.

A. Financial Reporting Entity

The Town of Oberlin was incorporated under the provisions of the Lawrason Act. The Town operates under the Mayor-Board of Aldermen form of government.

As the municipal governing authority, for reporting purposes, the Town of Oberlin is considered a separate financial reporting entity. The financial reporting entity consists of (a) the primary government (municipality), (b) organizations for which the primary government is financially accountable, (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete, and (d) organizations that are closely related to, or financially integrated with the primary government.

Section 2100 of the 2011 Governmental Accounting Standards Board (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, "Defining the Financial Reporting Entity" establishes criteria for determining which entities should be considered a component unit and, as such, part of the reporting entity for financial reporting purposes. The basic criteria are as follows:

1. Legal status of the potential component unit including the right to incur its own debt, levy its own taxes and charges, expropriate property in its own name, sue and be sued, and the right to buy, sell and lease property in its own name.
2. Whether the primary government's governing authority (Mayor and Board of Aldermen) appoints a majority of board members of the potential component unit and is able to impose its will on the potential component unit or whether the potential component unit is fiscally dependent on the primary government.
3. Financial benefit/burden relationship between the primary government and the potential component unit.
4. The nature and significance of the relationship between the potential component unit with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading.

TOWN OF OBERLIN, LOUISIANA

Notes to Basic Financial Statements (Continued)

The Town of Oberlin, Louisiana is a primary government and has no component units. The accompanying financial statements present information only on the funds maintained by the Town and do not present information on any other governmental unit.

Based on the foregoing criteria, a certain governmental body is a related organization but is not a part of the Town and is thus excluded from the accompanying financial statements. That organization is the Oberlin Housing Authority. Although the Town does appoint its Board, no control is exercised over its operations.

B. Basis of Presentation

Government-Wide Financial Statements (GWFS)

The government-wide financial statements provide operational accountability information for the Town as an economic unit. The government-wide financial statements report the Town's ability to maintain service levels and continue to meet its obligations as they come due. The statements include all governmental activities and all business-type activities of the primary government and exclude fiduciary funds.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the Town's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods and services offered by the programs, and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements

The accounts of the Town are organized on the basis of funds, each of which is considered to be an independent fiscal and accounting entity. The operations of each fund are accounted for within separate sets of self-balancing accounts, which comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balance/net position, revenues, and expenditures/expenses, and transfers. The minimum number of funds is maintained consistent with legal and managerial requirements. Fund financial statements report detailed information about the Town. The various funds of the Town are classified into two categories: governmental and proprietary. The emphasis on fund financial statements is on major funds, each displayed in a separate column.

TOWN OF OBERLIN, LOUISIANA

Notes to Basic Financial Statements (Continued)

Major funds are determined as funds whose revenues, expenditures/expenses, assets and deferred outflows of resources or liabilities and deferred inflows of resources are at least ten percent of the totals for all governmental or enterprise funds and at least five percent of the aggregate amount for all governmental and enterprise funds for the same item or funds designated as major at the discretion of the Town. A fund is also considered major if it is the primary operating fund of the Town. Funds not classified as a major fund are aggregated and presented in a single column in the fund financial statements. The Town uses the following funds, grouped by fund type.

Governmental Funds –

Governmental Funds are those through which most governmental functions of the Town are financed. The acquisition, use, and balances of the Town's expendable financial resources and the related liabilities (except those accounted for in proprietary funds) are accounted for through governmental funds.

General Fund

The General Fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds

Special Revenues Funds are used to account for the proceeds of government grants or other specific revenues sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects of the Town. The Town's major special revenue fund is the Sales Tax Fund

The Sales Tax Fund is used to account for the proceeds of a 1% sales and use tax and a 0.3% sales and use tax that are legally restricted to expenditures for specific purposes.

The Town's nonmajor special revenue fund is the Cemetery Fund which is used to account for the monies received from sale of burial spaces. The cost of improvements to the cemetery grounds are also accounted for in this fund.

Proprietary Funds –

Proprietary funds are used to account for the Town's ongoing operations and activities which are similar to those often found in the private sector where the intent is that costs of providing goods and services be recovered through user charges. The proprietary funds maintained by the Town are enterprise funds.

TOWN OF OBERLIN, LOUISIANA

Notes to Basic Financial Statements (Continued)

Enterprise Funds

Enterprise funds are proprietary funds that are used to report activities for which a fee is charged to external users. These funds account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. The Town's major enterprise funds are the Water Utility Fund and the Sewer Utility Fund. The Town's nonmajor enterprise fund is the Gas Utility Fund.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The measurement focus determines the accounting and financial reporting treatment applied to a fund. The governmental and business-type activities within the government-wide statement of net position and statement of activities are presented using the economic resources measurement focus. The economic resources measurement focus meets the accounting objectives of determining net income, net position, and cash flows.

The fund financial statements use either the current financial resources measurement focus or the economic resources measurement focus, as appropriate. Governmental funds use the current financial resources measurement focus. The measurement focus is based upon the receipt and disbursement of current available financial resources rather than upon net income. The measurement focus of the proprietary fund types, the flow of economic resources, is based upon determination of net income, net position and cash flows.

The accrual basis of accounting is used throughout the government-wide statements; conversely, the financial statements of the governmental funds have been prepared in accordance with the modified accrual basis of accounting, whereby revenues are recognized when considered both measurable and available to finance expenditures of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. An exception to this is grants collected on a reimbursement basis. Those reimbursable grants are recognized as revenue when reimbursable expenditures are made. The Town considers reimbursement amounts received within one year as available. The Town accrues intergovernmental revenue, ad valorem and sales tax revenue, franchise fees, charges for services, and investment income based upon this concept. Expenditures generally are recognized when the related fund liabilities are incurred and become payable in the current period. Proceeds of debt are reported as other financing sources, and principal and interest on long-term debt, as well as expenditure related to compensated absences and claims and judgments, are recorded as expenditures when paid.

TOWN OF OBERLIN, LOUISIANA

Notes to Basic Financial Statements (Continued)

Interest on invested funds is recognized when earned. Intergovernmental revenues that are reimbursement for specific purposes or projects are recognized in the period in which the expenditures are recorded. All other revenue items are considered to be measurable and available only when cash is received by the Town. Transfers between governmental funds are recorded when the related liability is incurred. These transfers do not represent revenues (expenditures) to the Town and are, therefore, reported as other financing sources (uses) in the governmental fund financial statements.

Since the fund level statements are presented using a different measurement focus and basis of accounting than the government-wide statements, a reconciliation is presented on the page following each fund level statement that summarizes the adjustments necessary to convert the fund level statements into the government-wide presentations. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

The financial statements of the enterprise funds have been prepared in accordance with the accrual basis of accounting. Accordingly, revenues are recorded when earned, and expenses and related liabilities are recorded when incurred.

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows and Equity

Cash and interest-bearing deposits

For purposes of the statement of net position, cash and interest-bearing deposits include all demand accounts, savings accounts, and certificates of deposits of the Town. Under state law, the Town may invest in United States bonds, treasury notes, or certificates. Investments are stated at amortized cost.

For the purpose of the proprietary fund statement of cash flows, “cash and cash equivalents” include all demand and savings accounts, and certificates of deposit with an original maturity of three months or less when purchased.

Receivables

Receivables consist of all revenues earned at year-end and not yet received. Major receivable balances for the governmental activities include sales and use taxes, ad valorem taxes and amounts due from other governmental units. Business-type activities report customer’s utility service receivables as their major receivables. Uncollectible amounts due for customer's utility receivables are recognized as bad debts through the establishment of an allowance for uncollectible accounts at the time information becomes available which would indicate the uncollectibility of the particular receivable. No allowance for uncollectible accounts is reported at June 30, 2021 for the Water Utility and Sewer Utility Funds, respectively. Unbilled utility service receivables resulting from utility services rendered between the date of meter reading and billing and the end of the month, were \$33,004 and \$18,303 for the Water Utility and Sewer Utility Funds, respectively, at year end.

TOWN OF OBERLIN, LOUISIANA

Notes to Basic Financial Statements (Continued)

Interfund receivables and payables

During the course of operations, numerous transactions occur between individual funds that may result in amounts owed between funds. Those related to goods and services type transactions are classified as “due to and from other funds.” Short-term interfund loans are reported as “interfund receivables and payables.” Long-term interfund loans are reported as “advances to and from other funds.” Interfund receivables and payables, advances to and from other funds, as well as due to and from other funds are eliminated in the statement of net position.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are capitalized at historical cost or estimated cost if historical cost is not available. Donated assets are recorded as capital assets at acquisition value at the date of donation. The Town maintains a threshold level of \$500 or more for capitalizing capital assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Prior to July 1, 2001, governmental funds’ infrastructure assets were not capitalized. These assets have been valued at estimated historical cost.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets’ estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Buildings	10-50 years
Equipment and furniture	3-40 years
Sewerage plant and improvements	20-66 years
Infrastructure	25-50 years

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental funds upon acquisition. Capital assets used in proprietary fund operations are accounted for the same as in the government-wide statements.

Restricted Assets

Restricted assets include cash and interest-bearing deposits of the proprietary funds that are legally restricted as to their use. The restricted assets in the utility funds are related to the utility meter deposits and revenue bond accounts.

TOWN OF OBERLIN, LOUISIANA

Notes to Basic Financial Statements (Continued)

Long-term debt

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term debt to be repaid from governmental and business-type resources is reported as liabilities in the government-wide statements. The long-term debt consists primarily of revenue bonds payable.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures. For government-wide and fund reporting, issuance costs, even if withheld from the actual net proceeds received, are reported as expenditures in the year of issuance. The accounting for proprietary fund long-term debt is the same in the fund financial statements as it is in the government-wide statements.

Compensated Absences

Employees are allowed ten days of sick leave per year after being fully employed for three months. Any unused sick leave may carry over to the next year with an accumulated maximum of forty days. Upon termination, unused sick leave is forfeited.

Vacation leave does not accumulate but is payable upon termination. Vacation leave is earned as follows:

1 year	5 days
2-10 years	10 days
10-20 years	15 days
Over 20 years	20 days

Severance Benefits: If any employee is terminated for the convenience of the town, permanent, full-time employees with six months to one year of service are paid one week's base salary. Permanent, full-time employees with one year or more of continuous service will receive full payment for accrued vacation and two week's base salary. Any employee who quits, resigns, or is otherwise dismissed for reasons such as misconduct or inefficiency, will not receive severance pay.

Pensions

The net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, and pension expense (See Note 12), have been determined using the flow of economic resources measurement focus and full accrual basis of accounting. Member's earnable compensation, for which the employer allocations are based, is recognized in the period in which the employee is compensated for services performed. For purposes of measuring the net pension

TOWN OF OBERLIN, LOUISIANA

Notes to Basic Financial Statements (Continued)

compensated for services performed. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the plans, and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by the plans. For this purposes, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Non-employer contributions are recognized as revenue in the government-wide financial statements. In the governmental fund financial statements contributions are recognized as expenditures when made.

Deferred Outflows of Resources and Deferred Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Equity Classifications

In the government-wide statements, equity is classified as net position and displayed in three components:

- a. Net investment in capital assets consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position consists of net position with constraints placed on the use either by external groups, such as creditors, grantors, and contributors, laws or regulations of other governments; or law through constitutional provisions or enabling legislation. At June 30, 2021, the Town reported \$51,586 of restricted net position, all of which was restricted by enabling legislation. It is the Town's policy to use restricted net position prior to the use of unrestricted net position when both restricted and unrestricted net position are available for an expense which has been incurred.

TOWN OF OBERLIN, LOUISIANA

Notes to Basic Financial Statements (Continued)

- c. Unrestricted net position consists of all other assets, deferred outflows of resources, liabilities and deferred inflows of resources that do not meet the definition of “restricted” or “net investment in capital assets.”

In the fund financial statements, governmental fund equity is classified as fund balance. Fund balances for governmental funds are reported in classifications that comprise a hierarchy based primarily upon the extent to which the Town is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The categories and their purposes are:

- a. Nonspendable includes fund balance amounts that cannot be spent either because they are not in spendable form or because of legal or contractual constraints requiring they maintain intact.
- b. Restricted includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors, grantors, contributors or amounts constrained due to constitutional provisions or enabling legislation or the laws or regulations of other governments.
- c. Committed includes fund balance amounts that can be used only for specific purposes that are internally imposed by the Town through formal legislative action of the Board of Aldermen and does not lapse at year end. A committed fund balance constraint can only be established, modified or rescinded by passage of an Ordinance (Law) by the Board of Aldermen.
- d. Assigned includes fund balance amounts that are constrained by the Town’s intent to be used for specific purposes, that are neither restricted not committed. The assignment of fund balance is authorized by a directive from the Town Clerk and approval of a Resolution by the Board of Aldermen.
- e. Unassigned includes fund balance amounts which have not been classified within the above-mentioned categories.

It is the Town’s policy to use restricted amounts first when both restricted and unrestricted fund balance is available unless prohibited by legal or contractual provisions. Additionally, the Town uses committed, assigned, and lastly unassigned amounts of fund balance in that order when expenditures are made.

Proprietary fund equity is classified the same as in the government-wide statements.

TOWN OF OBERLIN, LOUISIANA

Notes to Basic Financial Statements (Continued)

E. Revenues, Expenditures, and Expenses

Revenues

The Town considers revenue to be susceptible to accrual in the governmental funds as it becomes measurable and available, as defined under the modified accrual basis of accounting. The Town generally defines the availability period for revenue recognition as received within sixty (60) days of year end. The Town's major revenue sources that meet this availability criterion are intergovernmental revenues, franchise fees, tax revenue, and charges for services.

There are three classifications of programmatic revenues for the Town, program specific grant and contribution revenue (operating and capital) and charges for services. Grant revenues are revenues from federal, state, and private grants. These revenues are recognized when all applicable eligibility requirements are met and are reported as intergovernmental revenues. Charges for services are revenues derived directly from the program itself or from parties outside the Town's taxpayers or citizenry, as a whole. Programs revenues reduce the cost of the function to be financed from the Town's general revenues. The primary sources of program revenue are fees, fines, and charges paid by recipients of goods or services, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and earned income in connection with the operation of the Town's utility system.

Interest income is recorded as earned in the fund holding the interest-bearing asset.

Substantially all other revenues are recorded when received.

Operating Revenues and Expenses

In the proprietary funds, operating revenues are those revenues produced as a result of providing services and producing and delivering goods and/or services. Nonoperating revenues are funds primarily provided by investing activities, such as financial institution interest income, gains on disposal of assets and insurance recoveries on property loss. Operating expenses are those expenses related to the production of revenue. Nonoperating expenses are those expenses not directly related to the production of revenue and include items such as interest expense and losses on disposal of assets.

Expenditures/Expenses

In the government-wide financial statements, expenses are classified by function for both governmental and business-type activities. In the fund financial statements, expenditures are classified as follows:

Governmental Funds - By Character
Proprietary Fund - By Operating and Nonoperating

TOWN OF OBERLIN, LOUISIANA

Notes to Basic Financial Statements (Continued)

In the fund financial statements, governmental funds report expenditures of financial resources. Proprietary funds report expenses relating to use of economic resources.

Interfund Transfers

Permanent reallocations of resources between funds of the reporting entity are classified as interfund transfers. For the purposes of the statement of activities, all interfund transfers between individual governmental funds have been eliminated.

F. Revenue Restrictions

The Town has various restrictions placed over certain revenue sources from state or local requirements. The primary restricted revenue sources include:

<u>Revenue Source</u>	<u>Legal Restrictions of Use</u>
Sales tax	See Note 3
Water and sewer revenue	See Note 12

The Town uses unrestricted resources only when restricted resources are fully depleted.

G. Capitalization of Interest Expense

It is the policy of the Town of Oberlin to capitalize material amounts of interest resulting from borrowings in the course of the construction of capital assets. At June 30, 2021 there was no interest expense capitalized.

H. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources, and disclosure of contingent assets and liabilities at the date of the financial statement and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

TOWN OF OBERLIN, LOUISIANA

Notes to Basic Financial Statements (Continued)

(2) Ad Valorem Taxes

Ad valorem taxes attach as an enforceable lien on property as of January 1 of each year. Taxes are levied by the Town in September or October and are actually billed to taxpayers in November or December. Billed taxes become delinquent on January 1 of the following year. The Town bills and collects its own property taxes using the assessed values determined by the Tax Assessor of Allen Parish. Town property tax revenues are budgeted in the year billed.

For the year ended June 30, 2021, taxes of 3.80 mills were levied on property with assessed valuations totaling \$6,010,160 and were dedicated for general corporate purposes.

Total taxes levied were \$22,839. There was no ad valorem tax receivable at June 30, 2021.

(3) Dedication of Proceeds and Flow of Funds – 1978 and 1989 Sales and Use Tax

Proceeds of a 1 percent sales and use tax levied by the Town of Oberlin (2021 collections of \$182,233) are dedicated to the following purposes:

To be used for constructing, acquiring, extending, improving, operating and/or maintaining sewers and sewerage disposal works, waterworks, streets, recreational facilities and fire protection facilities and equipment, and purchasing and acquiring the necessary land, equipment and furnishing for any of the aforesaid public works, improvements and facilities, or for any one or more said purposes. The Town is authorized to fund the proceeds of the tax into bonds to be issued in series from time to time for the purpose of defraying the costs of constructing, improving, and/or acquiring any one or more of the aforesaid capital improvements to the extent and in the manner permitted by the laws of Louisiana.

Proceeds of a 0.3 percent sales and use levied by the Town of Oberlin (2021 collections of \$57,547) are dedicated to the following purpose:

Seventy percent to be used for constructing, improving, maintaining and operating public street, sidewalks, and alleys, thirty percent to be used for acquiring, constructing, improving, maintaining and operating recreational facilities. These deposits are stated at cost, which approximates market. Under state law, these deposits, (or the resulting bank balances) must be secured by federal deposit insurance or similar federal security or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the pledging fiscal agent bank by a holding or custodial bank that is mutually acceptable to both parties. The following is a summary of deposit balances (bank balances) at June 30, 2021, and the related federal insurance and pledged securities:

(13) Pension Plan

Municipal Police Employees Retirement System of Louisiana (System)

The Town participates in a cost-sharing multiple-employer defined benefit pension plan, the Municipal Police Employees Retirement System of Louisiana (MPERS), administered by a separate public employee retirement system. Article X, Section 29(F) of the Louisiana Constitution of 1974 assigns the authority to establish and amend benefit provisions of the plan administered by this public employee retirement system to the State Legislature. The plan is not closed to new entrants. One employee of the Town participates in the system.

TOWN OF OBERLIN, LOUISIANA

Notes to Basic Financial Statements (Continued)

Plan Description – State of Louisiana – Municipal Police Employees’ Retirement System (MPERS) provides retirement, disability, and survivor benefits to municipal police officers in Louisiana and their beneficiaries as defined in LRS 11:2211-11:2233.

MPERS financial statements are prepared using the accrual basis of accounting. Employer and employee contributions are recognized in the period in which the employee is compensated for services performed. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Interest income is recognized when earned. Insurance premium tax monies are received as additional employer contributions and considered support from a non-contributing entity and appropriated by the legislature each year based on an actuarial study.

Benefits provided – Benefit rates are three and one-third percent of average final compensation (average monthly earnings during the highest 36 consecutive months or joined months if service was interrupted) per the number of years of creditable service not to exceed 100% of final salary. Years of service required and/or age eligible for benefits are as follows: 25 years at any age; 20 years at age 55; 12 years at age 55; 20 years at any age with actuarial reduced benefits; 30 years at any age under nonhazardous duty sub plan commencing January 1, 2013; 25 years at age 55 under nonhazardous duty sub plan commencing January 1, 2013; and 10 years at age 60 under nonhazardous duty sub plan commencing January 1, 2013. Benefit percentages per year of service are as follows: 2.5% for membership commencing January 1, 2013 nonhazardous duty plan; 3.0% for hazardous duty plan; and 3.33% for membership prior to January 1, 2013.

Contributions – Article X, Section 29(E)(2)(a) of the Louisiana Constitution of 1974 assigns the Legislature the authority to determine employee contributions. Employer contributions are actuarially determined using statutorily established methods on an annual basis and are constitutionally required to cover the employer’s portion of the normal cost and provide for the amortization of the unfunded accrued liability. Employer contributions are adopted by the Legislature annually upon recommendation of the Public Retirement Systems’ Actuarial Committee. In addition, MPERS receives insurance premium tax monies as additional employer contributions. These taxes are considered support form a noncontributing entity and appropriated by the Legislature each year based on an actuarial study. For the year ended June 30, 2021, the contribution percentages for employees and employers were 10.0% and 32.50%, respectively. The amounts contributed from non-employer contributing entities and from the Town for the year ended June 30, 2021 were \$3,060 and \$15,907, respectively.

Net Pension Liability – The Town’s net pension liability at June 30, 2021 of \$129,744 is comprised of its proportionate share of the net pension liability relating to the cost-sharing plan. The Town’s net pension liability for the plan was measured as of the plan’s measurement date, June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Town’s proportionate share of the net pension liability for the plan was based on the Town’s required contributions in proportion to total required contributions for all employers.

As of the most recent measurement date, the Town’s proportion for the plan was 0.011681% and the change in proportion from the prior measurement date was a decrease of 0.004103%.

TOWN OF OBERLIN, LOUISIANA

Notes to Basic Financial Statements (Continued)

Since the measurement date of the pension liability was June 30, 2019, the net pension liability is based upon fiduciary net position for the plan as of that date. Detailed information about the plan's assets, deferred outflows, deferred inflows, and fiduciary net position that was used in the measurement of the Town's net pension liability is available in the separately issued plan financial report which may be accessed on their website at <http://lampers.org/>.

Actuarial Assumptions – The following table provides information concerning actuarial assumptions used in the determination of the total pension liability for MPERS:

TOWN OF OBERLIN, LOUISIANA

Notes to Basic Financial Statements (Continued)

Cost of Living Adjustments – MPERS has the authority to grant cost-of-living adjustments (COLAs) on an ad hoc basis. Pursuant to LRS 11:242(B), the power of the Board of Trustees of the MPERS to grant a COLA is effective in calendar years that the legislature fails to grant a COLA, unless in the legislation granting a COLA, the legislature authorizes the Board of Trustees to provide an additional COLA. The authority to grant a COLA by the Board is subject to the funded status and interest earnings. The effects of the benefits changes made as a result of the COLAs is included in the measurement of the total pension liability as of the measurement date at which the ad hoc COLA was granted and the amount is known and reasonably estimable.

Discount Rate – The discount rate used to measure the Town’s total liability for MPERS plan, and the significant assumptions used in the determination of the discount rate was 7.20%, which was the same rate as the prior valuation. The plan member contributions will be made at the current contribution rate and sponsor contributions will be made at the actuarially determined rates.

The discount rates used to measure the Town’s total pension liability for the pension plan is equal to the long-term expected rate of return on pension plan investments that are expected to be used to finance the payment of benefits. For MPERS, the long-term expected rate of return was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and an adjustment for the effect of rebalancing/diversification.

The target allocation and best estimates of arithmetic/geometric real rates of return for each major asset class are summarized for MPERS in the following table:

<u>Asset Class</u>	<u>Target Asset Allocation</u>	<u>Long-Term Expected Portfolio Real Rate of Return</u>
Equity	48.5%	3.08%
Fixed Income	33.5%	0.54%
Alternative	18.0%	1.02%
Other	<u>0.0%</u>	<u>0.00%</u>
Totals	100.0%	4.64%
Inflation		<u>2.55%</u>
Expected Nominal Return		<u>7.19%</u>

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension Plan – Changes in the net pension liability may either be reported in pension expense in the year the change occurred or recognized as a deferred outflow of resources or a deferred inflow of resources in the year the change occurred and amortized into pension expense over a number of years. For the year ended June 30, 2021, the Town recognized \$21,977 in pension expense (benefit) related to its pension plan. The Town also recognized revenue in the amount of \$3,060 in insurance premium tax monies from non-employer contributing entities.

TOWN OF OBERLIN, LOUISIANA

(1) Budget and Budgetary Accounting

The Town follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to June 15, the Town Clerk submits to the Mayor and Board of Aldermen a proposed operating budget for the fiscal year commencing the following July 1.
2. A summary of the proposed budget is published, and the public notified that the proposed budget is available for public inspection. At the same time, a public hearing is called.
3. A public hearing is held on the proposed budget at least ten days after publication of the call for the hearing.
4. After the holding of the public hearing and completion of all action necessary to finalize and implement the budget, the budget is adopted through passage of an ordinance prior to the commencement of the fiscal year for which the budget is being adopted.
5. Budgetary amendments involving the transfer of funds from one department, program or function to another or involving increases in expenditures resulting from revenues exceeding amounts estimated require the approval of the Board of Aldermen.

(3) Pension Plan

Changes in benefit terms – There were no changes in benefit terms.

Changes in assumptions – Changes in assumptions about future economic or demographic factors or of other inputs were recognized in pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the plan. These assumptions include the rate of investment return, mortality of plan members, rate of salary increase, rates of retirement, rates of termination, rates of disability, and various other factors that have an impact on the cost of the plan.

Amounts reported in the fiscal year ended June 30, 2021 for the pension plan reflect the following changes used to measure the total pension liability:

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Wayne Smith, Mayor
and members of the Board of Aldermen
Town of Oberlin, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Oberlin, Louisiana, (the Town) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements and have issued our report thereon dated October 24, 2022.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying schedule of findings and questioned costs, we did identify certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Town's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies described in the accompanying summary schedule of current and prior year audit findings and correction action plan as items 2021-001, 2021-004, 2021-005, 2021-009, and 2021-010 to be material weaknesses.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying summary schedule of current and prior year audit findings and corrective action plan as items 2021-002, 2021-003, 2021-006, 2021-007, and 2021-008 to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying summary schedule of current and prior year audit findings and corrective action plan as items 2021-011, 2021-012, 2021-013, 2021-014, 2021-015, 2021-016, 2021-017, 2021-018, and 2021-019.

Town of Oberlin, Louisiana's Response to Findings

The Town's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The Town's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Although the intended use of this report may be limited, under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

TOWN OF OBERLIN, LOUISIANA

Summary Schedule of Current and Prior Year Audit Findings
and Management's Corrective Action Plan

Part 1. Current Year Findings and Management's Corrective Action Plan

A. Internal Control Findings -

2021-001 Inadequate Segregation of Duties

Fiscal year finding initially occurred: Unknown

CONDITION: The Town did not have adequate segregation of functions within the accounting system.

CRITERIA: AU-C§315.04, *Understanding the Entity and its Environment and Assessing the Risks of Material Misstatement*, defines internal control as follows: "Internal control is a process, affected by those charged with governance, management, and other personnel, designed to provide reasonable assurance about the achievement of objectives with regard to reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations."

CAUSE: The cause of the condition is the fact that the Town does not have a sufficient number of individuals performing administrative and financial duties so as to provide adequate segregation of accounting and financial duties.

EFFECT: Failure to adequately segregate accounting and financial functions increases the risk that errors and/or irregularities including fraud and/or defalcations may occur and not be prevented and/or detected.

RECOMMENDATION: Management should evaluate the cost vs. benefit of complete segregation and whenever possible, reassign incompatible duties among different employees to ensure that a single employee does not have control of more than one of the following responsibilities: (1) authorization; (2) custody; (3) record keeping; and (4) reconciliation.

MANAGEMENT'S CORRECTION ACTION PLAN: Management has determined that it is not cost effective to achieve complete segregation of duties within the accounting department.

2021-002 Cut-off Policy

Fiscal year finding initially occurred: 2009

CONDITION: During a test of utility accounts of the Town's customers, it was noted that some accounts are not being paid in full or timely, and the customers, including employees and town officials, continue to receive service in violation of Ordinance No. 02-11-2013. Payment plans and extensions granted by the Mayor are not in accordance with the payment plan provisions of Ordinance No. 02-11-2013.

TOWN OF OBERLIN, LOUISIANA

Summary Schedule of Current and Prior Year Audit Findings
and Management's Corrective Action Plan (Continued)

CRITERIA: Ordinance No. 02-11-2013 states that utility customers must pay by the 15th of each month. A 10% penalty is added to accounts not paid by the 15th of each month. All accounts delinquent on the 26th of each month will be cut off. The ordinance also provides for payment plans to be granted at the discretion of the Mayor that consist of paying ½ of the bill up front and the remaining balance within 6 months.

CAUSE: The Town has not properly followed its written policies and procedures regarding past due accounts and the proper cut-off procedures to disconnect services relating to nonpayment by customers.

EFFECT: Failure to follow written policies and procedures increases the risk of not having continuity of operations and the risk of long outstanding collections of utilities.

RECOMMENDATION: Management should consistently comply with its written policies and procedures in the future and cut off utility services of customers, including employees and town officials, who do not pay within the time limit stated in the Ordinance.

MANAGEMENT'S CORRECTION ACTION PLAN: The Town will adhere to the cut-off policy established by Ordinance No. 02-11-2013 in the future.

2021-003 Late Payment of Invoices
